OAK IS THE CHAMP

The lifetime economy of oak flooring is one of the reasons why 85% of all home buyers prefer it for their floors. There is never any replacement cost with oak floors and with a minimum of work they can be kept as beau-tiful and versatile in later years as when applied. Applying new oak flooring is made easy by the use of a screw type nail designed for that purpose.

If the oak floors in your home are shabby and lack lustre, you can re-finish them at small cost and with little effort by stopping by your friendly Brookdale Lumber Co. yard at 136th & Pacific and letting them show you products are available at all times. Or productsare available at all times. Or, you would like to install new oak floors, good supplies are available at "saving prices" at Brookdale Lumber Company. For example, the cost of enough No. 2 Com. Oak shorts to floor a 10'x12' room would only come to \$21.60. Even in this day of high prices oak, the champion of flooring, s also a "champ" in economy.—Paid

Roundup Doings Covered by Insurance

In case you have been wondering about all the shenanagins going on in connection with the Parkland Roundup you can rest a bit more easy now because the whole affair is amply covered by liability insurance. The Danielson-Rolfe agency has the policy covering the Roundup. Of course, that doesnn't heal a broken leg or arm but it does afford some protection which the committee feels should be given the residents of the area.
