

Had a lot of fun at the Hallowe'en party last Friday night and it can probably be said that everyone present echoes this opinion. Those of you who chose to stay away really missed an evening of old-fashioned fun.

This is a singular honor in that there are so few who can boast this privilege. To insure the continuance of this privilege, let us all go out Tuesday and vote for the individuals who will see to it that it will be continued.

General Election Next Tuesday

GREATEST EVENT OF KIND HAS UNPARALLELED SIGNIFICANCE

Pierce County Election Board this week announced a change in polling place for Parkland Precinct No. 2. At the November 2 General Election, the polling place will be located in the Parkland grade school.

The change was made because of insufficient space at the former polling place (in the Parkland Light and Water building) during the recent primary election.

VOTERS OF PARKLAND PRECINCT NO. 2, REMEMBER—VOTE TUESDAY IN PARKLAND GRADE SCHOOL BUILDING.

During 12 hours next Tuesday, November 2, will transpire the greatest event of its kind in all the world. The American people will express their free choice of a president of the United States, of congressmen, of state and local officials, of provisions of law and programs for development.

Nowhere else on earth is there a parallel of the American general election—in scope or significance.

Typical of all the land will be the scenes at the eight polling places of this immediate area. Voters here will cast their ballots for:

National Officers

President and vice-president of the United States, one representative in Congress;

State Officers

Governor, lieutenant governor, secretary of state, state treasurer, state auditor, attorney general, superintendent of public instruction, commissioner of public lands, insurance commissioner, judges of the Supreme Court, judges of the Superior Court;

County Officers

Commissioners, county auditor, superintendent of schools;

District Officers

Two representatives in the state legislature for the 29th district, precinct committeemen, fire district commissioner.

Also on local ballots will be:

Initiatives

Four statutes proposed by initiative petition—No. 169 (World War II veterans bonus), No. 171 (sale of liquor by the drink in restaurants, hotels, resorts, etc.), No. 13 (restricting sale of beer and wine to state liquor stores), No. 172, (\$60 minimum monthly pensions for the needy);

Constitutional Amendments

Four proposed amendments to the state constitution—Senate Joint Resolution No. 4 (to permit the legislature to fix salaries of elected state officials), Senate Joint Resolution (Continued on Page Four)

**Forethought Will Help**

Warning of a heavy turnout of voters to be expected at next Tuesday's General Election is drawn from the record total of 558,418 votes cast in this state at the Primary Election, September 14. This vote topped the former primary record, set in 1940, by nearly 9,000 votes.

Reports have come from all over the state that hundreds of voters were unable to cast their ballots in the Primary Election because of insufficient voting facilities. This was particularly true in the large city precincts where voting machines are used.

The November 2 General Election ballot will be one of the most complex in the history of the state. Eight political parties will have candidates on the ballot and in addition there will be local measures such as school and county levies for special purposes, plus write-in tickets in some areas.

To avoid repeating the overloading of election facilities that occurred at the primary, voters will be required to exercise both forethought and thoughtfulness.

Greatest jamming of the polls occurs, of course, just before closing, when many daytime workers find their only opportunity to vote. If the many others who can cast ballots earlier in the day will do so, they will not only make voting easier for themselves but will avoid barring the ballot to another.

Another worthwhile suggestion for speeding the voting process calls for just a little advance preparation of aids to take to the polls:

"Mark a sample ballot," it is suggested, "and carry a short list of initiatives and constitutional amendments and propositions, by number, marked as you have decided to vote. In this way no time will be wasted in the polling station."

**How an  
injured cable  
calls for help**

1. Here's the "ear"—an electronic ear called a low insulation alarm. It listens for underwater cables to signal they're in trouble. Right now the meter shows something's happened . . . perhaps a sharp submerged rock has cut a cable . . . and vigilant telephone men using another testing device locate the break that may be miles away.

2. On the job fast, a repair barge grapples for the cable and lifts it from its underwater bed . . . guided almost to the exact spot by the distant test center. And the moment the break was discovered, other telephone people in the Traffic Control Bureau set up emergency routes to make any delay on your calls as brief as possible.

3. At top speed, skilled workmen splice in a new section and the cable is soon back in service. Although there are hundreds of underwater crossings in the West's many bays and rivers, such emergencies are infrequent. But telephone people are on the job 24 hours a day to keep your telephone ready to work for you any time you need it.

4. When you make a telephone call, you hire a valuable servant for low wages . . . a more useful servant than ever before. It can do more jobs, run more errands. For today there are twice as many telephones in the West as ten years ago. Thousands more go in each month. And each new phone added makes your telephone that much more useful.

To Pierce County Voters:

One of your duties when you go to the polls Nov. 2 will be the hiring of a man to help manage your County business—a County Commissioner.

The job of County Commissioner is one of the most important to be filled locally.

The three County Commissioners will supervise the spending of more than \$4,000,000 of your money next year. This means that the man you hire must be ever watchful to see that such a sum is spent wisely and efficiently.

The County Commissioners purchase all the equipment and supplies and hire all the men to build and maintain the county's roads and bridges.

The County Commissioners control the policies and funds of the Lakeview Sanatorium, County Hospital, County Health Department and County Detention Home.

The County Commissioners decide how much is to be allowed in the budgets of the Assessor, Auditor, Prosecuting Attorney, Clerk of the Court, Coroner, Sheriff, Superior Court, Superintendent of Schools, Road Engineer, Treasurer and various departments.

You need an active Commissioner who will fight for efficiency and who will see that 100 cents worth of value is received for every County dollar spent.

You need a Commissioner who has seen Pierce county grow, is acquainted with its requirements and who is anxious to aid in its continued development.

## ARTHUR LANGLIE HAS BUILT A RECORD OF REAL ACCOMPLISHMENT

Under the Governorship of Arthur Langlie, the State of Washington enjoyed its finest leadership and administration.

Langlie's term as Governor changed a deficit in the State's general funds to a Seventy Million Dollar surplus; reduced the number of State employees by One Thousand; the use of State automobiles was curtailed with added efficiency through the establishment of a State automobile pool.

Under Langlie increased funds were made available to schools; pensions to the aged were doubled in addition to

providing complete medical and dental care; he supported a comprehensive program dealing with labor's problems and signed twenty-three out of twenty-four labor-sponsored bills. The State highway system was improved and plans laid for the future; State institutions were given modern, efficient direction; and a far-reaching program was developed to make Washington the Sportsman's Paradise.

A record of Good Government CAN be accomplished. Under Arthur Langlie it WAS accomplished. Join in returning his able leadership to the State of Washington.
