## **WARNING**

Looting of the car of a Tacoma resident connected with the local smelter, which took place in the Parkland business section last weekend has led to his issuing the following warning:

Taken from the car was an envelope containing an inch-long cylinder of radio-active mineral. This mineral is very dangerous.

Whoever may now possess this bit of mineral should bury it, then report for medical attention, immediately. Any other person who may have come in proximity to it should also have a medical examination.

The owner of the looted car does not wish to take any action against the offenders. But, he fears that the mineral may have been taken by a child or other person unaware of the dangerous nature of the loot and is anxious that no harm result. His identity is withheld at his request.

#### Street Widening Plan Is Disclosed
