TRAIN WRECK PROVES THRILL TO SUNDAY CROWDS

A real train wreck, a happening so rare that few people ever see one, drew large crowds to Frederickson Sunday. The accident occurred shortly after 7 a. m. and the "show" lasted all day as the crack wrecking crew operated the huge machinery in clearing the track.

As the Chicago, Milwaukee & St. Paul freight was coming into Frederickson, rounding a long curve, the outer rail split. The second section of the gigantic diesel engine left the track, followed by six box cars, the momentum of the moving train forcing the cars out across the prairie. Fortunately, the high bank along the right of way supported the derailed engine section and prevented it from overturning. This section weighs 210 tons, according to railroad men. No one was injured.

News of the wreck spread like wildfire and soon there was a great gallery of spectators who arrived by auto and on foot, everyone interested in the wrecking crew's activities. As night fell, the crew was still working and there was still much to be done before the track would be cleared. Slowly the spectators started for their warm homes and Sunday night suppes, having had an interesting lesson in practical railroading and its problems.

A WEDDING DATE in May has been chosen by Miss Miriam Anderson, daughter of Mr. and Mrs. A. Anderson, fiancee of Dr. Charles J. Cowan, Parkland dentist, son of Mr. and Mrs. T. J. Cowan of Tacoma.

Saga Carnival Draws Top Talent

Paul Wangemo, business manager of The Saga at PLC, is one fellow who is certainly on the ball when it comes to putting over a program for the cause he represents. This year, as always, PLC will sponsor and stage a carnival on its campus, entirely manned and planned by the students. The purpose, besides having a lot of fun for all, is to make a few extra pennies to help publish their yearbook, The Saga.

This year, Paul Wangsmor and Al Fink, one of PLC's football stars of last year, are co-chairmen of the huge event, which will attract thousands to

MEDITATION

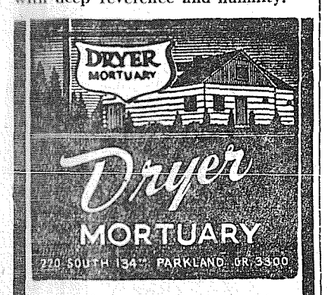
ST. PATRICK'S DAY

About the year 396 a son was born to Calpurnius, a decurion of Celto-Roman family of high rank. When this youth was sixteen he was captured by druids and sold as a slave; six years later he escaped and returned to his family. He dreamed of preaching to the Irish, spent fourteen years in preparation. In the year 432 he was consecrated Bishop by Pope Celestine I and returned to his native soil.

Trav Dryer

During a sermon on the sward, to dramatize the Holy Trinity, he reached down, plucked a shamrock, held it aloft and his auditors understood. From that day the beautiful shamrock has been an emblem of Irish faith, and of love of their Patron Saint—St. Patrick.

When you wear this three-petaled leaf in the lapel of your coat, keep in mind its import. Wear the shamrock with deep reverence and humility.



Here, in your own community, we offer you complete funeral facilities, with easy parking and close personal attention to every detail.

Help The Scouts

Boy Scout troop No. 76 is starting an intensive campaign to secure camping equipment which has been discarded or abandoned. Since other means to get the necessary equipment have failed, they are requesting that anyone who has camping gear of any description with which they might wish to help the boys receive their out-of-doors training to call Truman Dawn, GR. 8274, or L. E. Lovitt, GR. 55532, and arrangements will be made to pick up the items. It is not necessary that the equipment be in first class condition as the boys will arrange repairs.

If anyone has Scout equipment which their boy has outgrown, this would be an opportunity to help some boy to continue in Scouting activities.

The need is acute to continue the program in this area.

Evergreen Active Busy on Playfield

Evergreen Active club was honored at the Feb. 27 meeting by the presence of Tom Myers, lieutenant governor of District 2, Active International. Myers is from Sumner and was appointed to the post after the resignation last fall of Vern Brazeau, member of the local group. The visiting speaker gave a good report on the activities of District 2 and it now appears that this district will continue to lead in Active International.

President Clarence Vance (Avenue Feed Co.) reported on the action taken by the Mount Rainier Active club, Tacoma, regarding public parks in Tacoma. Evergreen voted to assist Mount Rainier club in its campaign for parks.

Another work party was out on the playfield recently, with Jack Clark as a straw boss. With such an early start, it looks as though the playground will be ready for use by June. The basic materials for a backstop have been given the club by the Anderson Lumber Co.

The four objectives of Active club which have endured through a quarter of a century of growth from one club in 1922 to the many that now dot the map of the Pacific coast and Western Canada are:

1—To develop young men and create in them the desire for self-improvement and knowledge, and the urge to participate actively in civic and welfare service.

2—To promote good fellowship and true friendship among members and good will between the memberships of the various clubs and their respective communities.

3—To serve and improve the community, state and nation in which we live, with particular emphasis on child welfare, thereby becoming better and more useful citizens.

4—To promote internation good will, peace and progress.

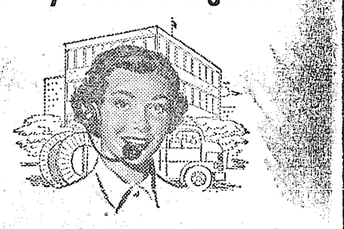
Many skills of many people go into the big job of providing telephone service in the West today.

FIVE BILLION CONVERSATIONS

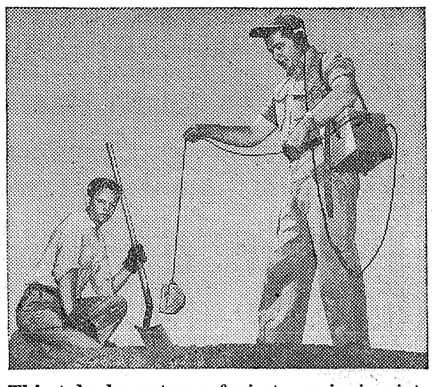
This huge number of telephone calls a year is the important responsibility of 73,000 men and women in the West.

Five billion conversations! By day and night, in cities and towns, across valleys and over mountains, the West's telephone lines are busy carrying the calls that in a year total more than twice the population of the earth! Some calls are routine, others may save a life, but each call is vital to capable telephone people everywhere as they work at the wide variety of telephone jobs needed to serve you and the nation well.

Your telephone is one of today's best bargains



For every telephone employee, we have about $20,000 invested in telephone equipment. Naturally, both must work together to bring you good telephone service. And it's reassuring to know that despite our sharply-increased costs of both wages and materials, we've been able to keep your telephone one of today's best bargains.



This telephone team, for instance, is pinpointing the location of a buried cable which needs repairs. The cable will be fixed quickly . . . and calls will flow again. Meanwhile, your long distance calls are re-routed to get them through with little or no delay. This is just part of the complex job of maintaining and expanding the West's vast telephone system—a job which now requires the skills of some 27,000 well-trained telephone men and 46,000 alert telephone women here in the West. 'Round the clock, they're on the job to keep America's telephone system the finest in the world . . . able to do its full share of the important task of keeping America strong.

the campus during the weekend of 14 and 15 of March. On March 14 the Saga Queen will be installed in a hilarious program.

None less than TV's foremost star, Stan Boreson will crown the queen in an impressive ceremony . . . plan to see this star of TV, who recently appeared on Kate Smith's show in New York. You'll thrill to the wholesome sense of humor possessed by Stan Boreson. You will have lots of fun and entertainment at the carnival, too. The kids, by all means, must see this . . . plan on taking them. Also included on this star-studded program will be The Puget Sound-Airs, second place winners in the Pacific Northwest Barber Shop quartet held at Forest Grove recently. They're good . . . come and hear them.

Fast Time Again

Here we go again . . . Once again it seems that the office holders of city and county seem to think it is of sufficient importance to devote considerable time to the problem (as they make it) of whether or not we are to be subjected to the inconveniences of two conflicting clocks to contend with. Life isn't complicated enough, with all the laws and problems forced on us by these same legislators but what they have to come up with still another worry to force the farmer to throw his cattle, chickens and what have you, off schedule, confuse the bus schedules, mail, decide whether or not when you go visiting if the place you are going to is on regular time or "fast time." What a deal . . . why not leave time alone? We mess up nearly everything else with laws . . . let's leave time go on as it has for centuries.

If we must have fast time or time other than natural . . . let's have it all over the state at the same time . . . why every town, city and county on a different time? . . . let's make it statewide or even better yet . . . let's leave it alone.

Howie Snowden Visits

Had the pleasure of having Howie Snowden, assistant manager NBW, on leave with the Navy at present in Washington, D. C., in the office last week for a few minutes. . . . He sure is looking fine . . . must be that he doesn't have to work as hard for the Navy as he did for the National Bank of Washington. He and Art Swindland, NBW manager, dropped in for a few minutes. . . . Sure nice to see Howie again. . . . He is one of those persons who is just plain hard to beat . . . always a smile, friendly and ever courteous. . . . It will always be my contention that the NBW owes a lot to Howie in helping it attain the present status it enjoys . . . for most people there is no other banking facility.

Role of Dentist

I foxed my boy out of his first tooth today . . . he had been running around with a very loose tooth for some days . . . it was getting to the point that it was very loose. He was showing me how far it would bend the other day when I asked him to see how far it would turn around. He proceeded to show me . . . the result being a tooth in the hand much to his amazement . . . somehow, somewhere he had heard about the little fairy that took the tooth from under the pillow replacing it with silver coin instead, so naturally it had to be tried. It worked, too, funny I never heard of that one when I was a kid. He's mighty proud of that tooth that isn't there anymore.

Red Cross Chairman

Frank Quinn, Pierce county chairman of the Red Cross drive was in the office the other day telling me about the new chairman for the Parkland area he had just selected. I am referring to Virginia Seaman of course, who will head the annual Red Cross drive in this area during March.

Do your share . . . I am sure it is a worthy cause. Frank and I were discussing the various drives which take place every year and the increasingly hard job it is to make people realize the needs of various organizations who are dependent on the generosity of the people for their support. It was mutually agreed that there are much too many such drives every year, however, what can be done? . . . The Red Cross would like to know as would some of the other reliable organization. . . . The Red Cross is a bona fide organization with a worthwhile purpose . . . some of the others it has been revealed are not such. Give as your conscience dictates. One thing is certain . . . neither Frank Quinn nor Virginia Seaman are going to get anything out of the job except a lot of hard work and probably very little thanks.

Bargain Basket Doings

Next time you are out to the Bargain Basket in Spanaway take a look around the store . . . the boys are doing a lot to make it more convenient and a nicer place for you to shop. They are spending a lot of money renovating the place.I always like to see a business house spruce up a bit . . . it is a healthy sign and a miracle what a bit of paint and a little bit of ambition will do. It's a good time of the year to do a bit of thinking along those lines.

Our new office hasn't gotten started as yet . . . we hope to be in our new quarters by June. When one starts to do building and planning for expansion one certainly can find a million problems to encounter . . . but we will have a new modern building soon in order to better serve the needs of a growing community.

Don't forget . . . Snow White and the Seven Dwarfs are at Fryes Furniture this week . . . drop in and see them.

Clean-up, Paint-up, Fix-up During Week of April 7-12

Spring breaks forth in all its glory on March 21. Parkland residents will welcome it with a clean-up, fix-up and paint-up theme during the week of April 7 to 12 if plans of the publishers of your Times-Journal have anything to do with it.

According to the plans being made by Jack Brown and Clarence LaCrosse, publishers of the paper, a gigantic clean-up program is being sponsored by the Times-Journal in Parkland during April 7 to 12. Elaborate goings-on will take place in order to get the fair city in shape for all to enjoy and see during the early summer months.

It is expected that thousands of new people will visit Parkland when the huge Parkland Roundup is held early in June. In order that outsiders might get the right impression of our fair city when they visit it, local residents are asked to make special plans to get their laws, shrubbery and buildings in shape.

During the week mentioned the entire emphasis will be on cleaning, fixing and painting. The fire department will clean and hose the streets, assisted by many of the businessmen who will don work clothes for the occasion.

Specials on painting supplies and fixing up tools will be offered by local dealers. A huge special issue of the Times-Journal is now being made to be published on April 3. All your progressive merchants will be featured as well as special tips on spring jobs such as painting, repairing, etc.

County Commissioner Harry Sprinker has promised that special attention will be given to Parkland signs, roads, etc., during this week, thus putting county facilities in tip top shape for summer.

School crews will concentrate on picking up paper and otherwise cleaning up the streets throughout the area.

Harold Lamay of the Pierce County Refuse Service will offer special pick-up of garbage and debris during the week.

The best decorated window depicting spring will be given a grand first prize by the Times-Journal with two lesser prizes for follow-up winners.

Window streamers calling forth the fact that individual places of business are cooperating with the program will be given to advertisers of the Times-Journal. Reservations for space in the special clean-up, paintup, fix-up issue of the Times-Journal should be placed early in order to assure proper display.

Area residents are asked to reserve the week for painting fences, houses and cleaning up the yards, with such other jobs as go hand-in-hand.

This program promises to be the biggest ever staged in Parkland. It is hoped that by doing a bit of repairing, painting, cleaning and improving that we in the area can make our home town a better place to live . . . both for ourselves by achieving a pride of ownership and by showing to the outsider and passerby that we are proud of our home town.

Remember the week of April 7 to 12. It is Parkland Clean-up, Paint-up and Fix-up Week, sponsored by your local newspaper, the Times-Journal.

Community leaders are backing the plan 100%. Pres. Elvin Krumm of the Parkland Community club and Pres. Roger MacDonald of the Parkland Business club are hearty in their support and endorsement. A letter from President Krumm is reproduced herewith:

Fellow Citizens of Parkland.

The officers and members of Parkland Community club most heartily endorse Paint-up and Clean-up week. Everyone should be 100 per cent in favor of and working in this coming campaign. The pride of well-kept yards, clean parkways, lawns well groomed and graced by some well placed flowers and shrubs is not difficult to work for. The effort is more than balanced by the results that can be attained with a little work. Then as visitors pass along our streets they sense that here is a community that is made up of folk proud of their town and the homes that make up that town.

There are several projects worthy of merit for your consideration. The greatest of these it appears to the writer is that we as fellow citizens come out to Community club and assist in bringing up the standards we want for such an important part of our surroundings. We need help on this in work and planning. We need carpenters, painters, gardeners and just plain folk as well. Come to Community club March 13 at Parkland school at 8 p. m. and say "I want to help."

ELVIN KRUMM, Pres.

Booster Club Aims Told by President

(Continued from Page 1)

ticipate in the parade.

Roy Kreger reports the topping of the list of donations for the float is $25, from the Kiwanis club. The float committee is busy with designs and plans.

There is a second stage of the Hi Booster "Button for a Buck" drive, which is now in full swing and which will end this week. Every dollar that is derived from the sale of buttons will be used for the purchase of school equipment.

An estimated $11,000 will be required to purchase kitchen equipment such as ranges, steam tables, dishwashing machines, vegetable peelers, ovens and the like, which is not subject to receive matching money from the state. The Franklin Pierce Hi Boosters are undertaking to provide as much of this money as possible so that this equipment may be purchased, and so that as many dollars as possible that the school board will spend may be matched by $3 from the state. Where can we find a better investment for our high school and our community when we can make $1 grow into $4?

We welcome constructive criticism, but we deplore any rumors being circulated which are not based on fact. There was a rumor concerning the outfitting of the Queen. It should be understood that not $1 from the sale of buttons will be spent to outfit the queen, because every dollar will be spent for school equipment.

On cooperation! We believe we have received definite cooperation from every organization in the community. Many individuals, both within and outside of the district, have been of great assistance in our efforts. To all these we extend sincere thanks. One special mention should be made and this is the Parkland Times-Journal. Their cooperation indicates that they have a genuine interest in the community.

Undoubtedly a number of things have been omitted from this message —our part in the ground breaking, plans for participating in the cornerstone laying, our work in helping secure steel allocation. To make it short, if it is for Franklin Pierce high school, we are in there pitching.

We invite you to participate in our meetings, which are held every fourth Tuesday at 8 p. m. in one of the four schools, the next one is at the Parkland school, March 25.

The officers and executive board join in offering and asking for cooperation in making Franklin Pierce high school a bigger and better educational center.

Serving with President C. Melvin McKenney are four vice presidents, Chester A. Larson, Lois Johann, Frank Selk and E. M. Krumm; Mrs. H. E. Nusbaum, secretary, and Mrs. Verona Gottschalk, treasurer.

CLARENCE P. JOHANN, Rt. 4, Box 147, suffered slight injuries March 3 when his car was crushed against a light pole by a transport truck at Portland avenue and Bay street. After treatment at Doctors' hospital, Mr. Johann was able to return home and returned to his work this week. His car was badly damaged.

SGT. MARVIN K. DAVIS, son of Mr. and Mrs. C. K. Davis of Rt. 3, Box 784, Tacoma, is mess sergeant for two Marine companies in Korea. He attended Lincoln high school before enlisting in the Marine corps in December of 1949. Sgt. Davis feeds more than 400 Marines.

Parkland 4-H Girls Will Enter Contest

The Parkland 4-H Sip'n' Sew club will have two luncheon teams entering the Pierce County Meal Preparation contest to be held at Roy high school Saturday, March 15.

The following menu will be prepared by Kathy Jo Hansen and Louise Siburg: Corn chowder, broiled cheese rolls, cottage cheese and pear salad, gingerbread with whipped cream, coffee and milk.

The menu for Sharon Von Beck and Evelyn Haakenson is: Rice croquettes with chicken and mushroom sauce, buttered peas, cheese rolls, apple betty, coffee and milk.

Violet Prairie Club

Mrs. H. F. Skinner will open her home, 315 Sales Road, to members of the Violet Prairie Garden club on Friday, March 14, at 1 p. m. Assisting her as hostess will be Mrs. Fred Danielson.

After a short business meeting, the club president, Mrs. A. L. Hunted, will open a discussion about the flower show plans.

A Buck for a Button

PVT EVERETT HEINSELMAN, son of Mr. and Mrs. William R. Heinselman of Rt. 3, Box 584, Tacoma, has been inducted into the Army at Fort Lewis.

LT. COL. FRANK W. KEATING, whose home is at 860 So. 111th St., has asumed his duties as post inspector general at Fort Meade, Md. He is a veteran of World War II as well as the Korean campaign.

Don't Risk Your Life

Many recent double accidents have been caused by poor lighting and poor equipment. When our wrecker is at an accident scene the lighting and equipment problem is solved. A recent accident on McKinley Avenue was caused by a friend trying to help another by towing him from the ditch with a car. Result: Two demolished cars and several hospitalized. This is only one of the many. Don't let it be a **"Could This Be You."** Play safe — call a reliable firm that is equipped with all safety devices, such as lights, flares, fire extinguishers, First Aid Kit and Wrecker equipment, to handle the job. And last, but not least, **KNOW HOW.** These may mean your life.

WALLER ROAD

By MRS. VERNE FOGLE
GR. 5210

Movie for Saturday night at the Waller Road hall is "Family Honeymoon," with Claudette Colbert. This is one for the whole family, so come out and help the Boy Scouts.

Blessed Event

Mr. and Mrs. Lowell (Booner) Shelstad are the proud parents of a new son, Richard James, born Fed. 25 at Tacoma General hospital. Grandparents sharing the happiness are Mr. and Mrs. Harry Holmes of Cosmopolis and Mr. and Mrs. Everett Ingham of Parkland; Mrs. Lena Shelstad is the great-grandmother.

Named Daffodil Chairman

Mrs. Jack Johnson of 62nd and Waller road has been chosen by the garden clubs of Tacoma to serve as chairman for the annual Daffodil Festival show. Long known as a lover of flowers, she has taken many prizes with her choice chrysanthemums. Last year she took a specialized commercial flower course in Portland and is now teaching a class featuring "Flower Arrangements for the Home" in Puyallup. Mrs. Johnson has opened her own place of business, Johnson's Garden and Flower Service, specializing in chrysanthemums and fuschias.

Dates to Remember

March 14: Regular meeting of the Waller Road Grange.

March 21: "Spring Swing" dance at the Waller Road hall.

On Radio Program

Mrs. Alvin Ferch was guest homemaker on the Monday morning program, "Homemakers' Harmony," over radio station KTAC. She shared her favorite recipe for Spaghetti sauce with the radio audience.

Water Meeting

At the mass water meeting called by the Waller Road Consumers Water Co., held in the Waller Road hall, the directors and speakers had a very interested and attentive audience until 9:30 when about one-third of the people left hurriedly to watch the wrestling matches. What price water! However, the rest of the audience took part in the discussion and explanations followed.

New Building

The new building at the Pederson Fryer farm is a chicken house designed to hold over 6,000 chickens.

Entertainers

The Rhythm Sparks and the Little Sparkler (Carol Ferch) sang several numbers on the intermission program of the "Melody Cruise" ball at the Evergreen ballroom Saturday night. They sang for a very appreciative audience and were interviewed by Steve Sorenson of radio station KTAC. A rebroadcast may be heard over KTAC Monday.

Grange Auxiliary

The Waller Road Grange auxiliary met March 5 at the home of Mrs. H. G. Rouse of Summit, all bringing dishes for the potluck luncheon. The business meeting followed. Mrs. Rouse was presented with a lovely pin from the auxiliary. After many years' residence on Vickery road, Mr. and Mrs. Rouse moved to Lake Bay. They have recently moved into the Summit district. We are very happy to have them back; though ont in the Waller Road section, still in a neighboring community.

In the Service

Ronald Fogle, USN, serving on the U.S.S. Badoeng Strait, returned to San Diego recently from a tour of duty in Korean waters. When the ship docked in San Diego, Ray Whitmore, also of our neighborhood, was waiting for Ron to come ashore. "He sure looked good to me," was the way Ron expressed it when he called home shortly afterwards. The young men spent a pleasant weekend together and since have been joined by Doug Fogle when they rate liberty on the same night. Doug was unable to meet his brother when he came in because he had gone up to Los Angeles to spend a week with Leo Bassett. However, it is a nice thought for the parents at home to know that the boys, although away from home, manage to get together.

Parkland P-TA To Meet March 20th

Harry Sprinker will be the master of ceremonies for the Dads' Night program when the Parkland P-TA meets in the Parkland school on Thursday, March 20, at 8 p.m. The Franklin Pierce male quartet is to sing and the German Band is to be on the program also. Bill Gregory and Hal Davies in "Two Old Codgers." is another feature to highlight the hilarious evening. Every good program should have a speaker, so Don Eastvold will talk to the group. His topic is "Emancipation of Husbands."

Mrs. R. Gottschalk will preside over the business session. Of interest will be the report from the Spring Fair .

Following the meeting, refreshments will be served by the third grade room mothers and the teachers of third grade will decorate.

Surprise Wedding

Coming as a surprise to their many friends was the wedding of Wallace Reid Batschi, son of Mr. and Mrs. John Batschi Sr of Parkland, and Miss Dorothy Clara Mettler, daughter of Mr. and Mrs. Mettler of Puyallup. The ceremony was performed Saturday morning, March 8, at the parsonage of the Methodist church of Port Orchard, the Rev. Almond officiating.

Attendants were Mrs. Martha Mahaffey, sister of the bride, and Alvin Stimson. Also present at the wedding were Mrs. John Batschi Sr. and Mrs. Oliver Pratt of Tacoma. Later in the day, an informal reception was held for the young couple at the home of Mr. and Mrs. John Batschi Sr.

MRS. L. A. WRIGHT is visiting her daughter, Brs. Kenneth Crowder (Alberta Wright) of Kansas City, Kansas, to welcome a new granddaughter, born Feb. 27. Mrs. Wright will be coming home soon.

Parkland Roundup Plans Underway

Lots and lots of hours and time and thought are going into the planning of your 1952 Parkland Roundup, to be held in Parkland during the week of June 2 to 7 with the big parade taking place Saturday, the 7th.

In order to present for your enjoyment a few days of outstanding programs, parade, etc., it is necessary for one to spend many weeks and months of planning in order that it will be the best that can be given.

Rest assured that the very finest in western entertainment will be offered for your entertainment. Emphasis will be on western and frontier themes. We want every person in the area to turn out in western gear during the entire week.

Last year we got something started . . . this year we expect to do a lot better.

I feel quite honored in having the job of general chairman for the event. It is a lot of work, but I enjoy every moment of it. Having learned a lot of what not to do from last year, I honestly believe that this year's presentation will be completely outstanding.

A horse show of the very best talent available will be held as a feature of this year's roundup. An entry fee will be established, thus enabling the payment of some prize money for winners. Cups and ribbons will be given. It's going to be a good show . . . plan now to participate.

Here and There

See Earl Gepford talked Chet Larson out of a mighty nice looking Albino . . . lots of style. Chet Larson ended up with a nice looking black which he has all trimmed up and roached. He puts about the best roach I have seen hereabouts on a horse.

See Larry Kirkwood made a good horse out of his Morgan stallion.

Had a nice meeting of the riding club at my house last Tuesday. A good crowd was on hand. My father showed some of the movies taken on some of our trips to the mountains during the last few years. Judging from comments heard, everyone enjoyed the pictures. I know my dad enjoyed showing them. By the way, my dad has the best hatchery hereabouts . . . the chicks he raises are the best there is (sure it's a plug . . . after all, he's my dad). If you want some good chicks, see him, Sumner 3-3112 is the phone number. New Hamps or Parmenter . . . lots of cockerels this time of the year.

The Governor's Guard are supposed to drill this Friday again . . . Don't blame me, though, if they don't. Woodbrook is the place, the time 8.

I spent most of Saturday when I wasn't at the shop doing a rush job working on my new corral and riding ring, which should be finished in another week or two. It is 100x250, which should make a good place to drill and practice. Sure, you're welcome to use it whenever you wish. Be sure you close the gate whenever you leave.

The vet tells me I might be able to ride my quarter horse stallion in a couple more weeks. Gee, I sure hope so, because he will be really high by then. Meanwhile Gold Dust gets ridden a bit more. He sure is shedding out nice. Guess the blanket at night and the diamond T is doing the job okay . . . plus a few good workouts. I sore of figured on selling him because I had the new one, but he is such a dependable horse that I certainly hate to. My wife says I never intended to in the first place. He's my pal, so you can see how I feel about it.

Mr. Clarence LaCrosse,
Parkland, Washington.
Dear Mr. LaCrosse:

The members of Washington Horsemen, Tacoma Unit No. 1, Inc., wish to extend to you our deep appreciation of the grand publicity you have given our many activities in your paper. If we can ever be of service to you or your Parkland riders, we hope you will call on us. We will be very happy to repay in some way your great kindnesses.

Sincerely yours,
WASHINGTON HORSEMEN,
Tacoma Unit No. 1, Inc.

School Sponsors Dental X-Rays

Dental x-rays of the second grade children of the Franklin Pierce School District have been taken during the past week. This is a part of the dental health program which was announced recently by Morris Ford, superintendent.

The x-rays were taken as a result of the combined efforts of the School Health Service, the local dentists, the Pierce County Dental society, Pierce County Health department, and the Dental Division of the State Department of Health.

Miss Mary Marshall, dental hygienist for the State Department of Health, assisted by Mrs. Dolores Schmechel, public health nurse for the school district, took the "Bite-wing" x-rays, two for each child, on a portable x-ray machine loaned by the State Department of Health. The machine was set up in the Parkland school health room and the children from Midland, Collins and Central Avenue schools were brought to Parkland by school bus for their x-rays.

The x-ray department of the Tacoma-Pierce County Health department, Dr. C. R. Fargher, director, has been developing the pictures. As soon as they are finished, the films will be sent home to the parents who are requested to take them to their dentist for interpretation and advice.

Mr. Clarence W. LaCrosse,
Times-Journal

Dear Sir:

I have just been informed that a group of public spirited citizens of your community, known as the Pierce County Rescue Squad No. 1, are inaugurating a free, 24-hour, emergency ambulance service to serve southwestern Pierce County. The twelve members of this organization, I understand, are all members of your Volunteer Fire Department, are trained in First Aid, and have provided themselves with a modern ambulance through their own efforts and through the donations of other civic minded residents and businessmen in the area.

It follows without saying that this organization will be of inestimable value to this office in providing additional ambulance service when required. Their action is most heartily endorsed and I wish to assure you, and all those who have made this service possible, of our fullest cooperation at all times.

Very truly yours,
HAROLD BIRD,
Pierce County Sheriff.
