This and That

We note with pleasure the fact that Totten and Loring are doing a rip-snorting business at their real estate office on Garfield Street here in Parkland. It is our understanding that they have added a salesman since opening only a short time ago. While around on Garfield street I noticed S. Williamson, who has been guarding the premises of some of the merchants hereabouts. In spite of the freezing weather he has been making his nightly rounds.

Little Joe finally ran the leg, so to speak, off our little Willys kept here for shop activities and deliveries. The poor little thing just up and quit on him last Friday. After looking it over it appears that a king-pin will hold the wheel together at least for a while, together with a spring shackle . . . enough of that or we will be arrested for operating a menace to society.

Football Doings

Finally, I got to see a football game at the UW Stadium Saturday. There the Huskies tromped on the Ducks from Oregon. The tickets we have here for the paper have been wandering all over the place. At least five different people have seen a football game with them, but it looks like Saturday was the last . . . no more tickets . . . no more home games . . .

Ready for Winter?

Speaking of winter, and who was? anyway it is a Good Time to get the old jalopy fixed up with that anti-freeze now while it still is in running condition . . . don't wait till some cold morning to find out that your motor has frozen up with the result that it will cost you money and turn your temper. It's also a good time to check up on those tires and see if they are safe for winter weather where the roads are apt to be a bit on the slippery side and the ice a bit slithering for those old bald ones . . .

I'm not drumming up business for any of the service stations but it will certainly pay you to get that radiator fixed now before your motor and radiator does freeze . . . do it now.

Subscriptions Coming In

Thanks a lot you fine folks who have taken the trouble to let us know you do appreciate a NEWSpaper for your area by sending us a subscription . . . all the darn thing costs you is two dollars for 52 copies . . . it is worth that much to have it handy to light the oil stove with and who knows you might even find something interesting in it once in a while now that election is over. No kidding though we really need your subscription. If one of the many youngsters who are selling doesn't stop at your house send us your name and address together with the necessary currency and you will be set for a year from the time we switch to the subscription paper. At present we can't say just what week it will be because of a bit of red tape involved but don't worry we will give you a full year's worth.

### JUNIOR HIGH PRESENTS OPERETTA

#### Murder!

**BEWARE!** The murderous Lakes District dog poisoner has undoubtedly moved into Parkland.

The latest victim is "Boots", belonging to little Bobbie Devereaux, son of Mr. and Mrs. Thane R. Devereaux, 768 South Polk St.

Rushed to the veterinary as soon as his condition was first noticed Tuesday morning, Boots fought a game but futile battle. He passed on to Dog Heaven shortly after darkness the same day.

Now little Bobbie sits alone in his little wagon. His older brother, Dickie, understands, but will never tell Bobbie how really vicious a growlup can be. Nor will he forget.

### You and Your Paper

The Parkland Times and its predecessor, The Prairie Pointer, have played an important part in the growth of this area. By presenting the news, the views and the progress of the area in an impartial manner they have done the community a service which cannot be repaid.

A weekly newspaper is a costly item to produce which the limited advertising volume of a small newspaper cannot meet without help in the way of subscribers. It is a wise decision to place The Parkland Times on a subscription basis. It is again a newspaper, not a shopping guide. Give it your support. The paper needs you and you need The Parkland Times.

## CHILDREN SHOULD HANDLE MONEY

By the Staff of the SCHOOL OF HOME ECONOMICS University of Washington

Many wonder how money can slip through their fingers without their realizing how it went. Many husbands are startled over the every day housekeeping costs and the amount needed for the upkeep of a home and a wife.

Such difficulties might have been prevented if both boys and girls had had money of their own to budget, spend, give away or save, and thus had learned early to put first things first. Learning to spend wisely is as important as learning to earn. Both have to be learned through long experience.

Children therefore need allowances—definite amounts with which they can plan, struggle, and eventually break even. A child needs an allowance as soon as he needs money for school, Sunday school and for Valentines, gifts, or some other immediate need.

Learns to Handle It  
An allowance should not be based on household duties for he should not get the idea he is being paid for his services. He helps because he belongs to the family and is a responsible member. He is given an allowance because he needs money and should learn to handle it.

Allowances should also be determined by the actual needs of the child, the circumstances of the family, and his associates. It should increase as the family's income increases, be similar to that of his friends.

As the child's needs increase, the allowance should increase and should gradually grow to include the selection and purchase of clothes. This also teaches children how to purchase

good clothing and to purchase just what they need.

### Keeping Records

When he knows figures and arithmetic it is a good idea to have him make out his own budget to arrive at the amount his allowance should be. The parents should go over it with him. It would also be good training for him to keep a record of the "income" and "outcome."

Children should be helped to save for a purpose. They should be encouraged not to be miserly or too generous and openhanded. One plan would be to match the money a child saves so that he will have money for extras he values highly.

Special jobs such as piling wood, special trips to the store, or mowing the lawn might be paid for separately and added to his exchequer. He will learn the effort that goes into the making of a quarter or fifty cents.

The primary purpose of allowances should be to teach young people to know where money comes from and places that it goes. Money should be handled on a businesslike and not an emotional basis.

## The Parkland Community Club

(EDITOR'S NOTE: This is the first of a series of articles about organizations in this area to better acquaint you with these fine groups, their backgrounds and their purpose for being.)

The Parkland Community Club was first organized in February 1926. The five men who formed this corporation were Conrad Gaard, Alvin R. Lehmann, Hans L. J. Dahl, T. O. Svare and J. L. Brottem.

"The object of this organization #302" shall be to create and stimulate interest in the development, upbuilding and progress of this community, to promote social intercourse among its members and to cooperate with similar organizations."

This above statement taken from the original Articles of Incorporation is especially timely now. Many people feel that the community club is a "closed club." This is not true.

Again from the articles with their amendments comes this fact: "The members of this club shall be the residents of the Parkland Community, Pierce County, Washington. Persons owning property, or being in business in the district, and their husbands or wives, are also eligible to membership. For the purpose of these by-laws, the Parkland Community shall include the area of Parkland School District No.

### Mrs. Carl E. Coltom, Mrs. C. Phipps Assist Christmas Seal Sale

The Tuberculosis Association of Pierce County will conduct the 1950 Christmas Seal Sale in Pierce county from Nov. 20 to Dec. 25, with Frank T. Walters acting as county chairman, assisted by Mrs. J. W. Kalkus, Puyallup, according to an announcement this week by Dr. Chris C. Reynolds, president of the association.

Funds from the county's seal sale will finance the 1951 tuberculosis prevention and control program of the association, said Dr. Reynolds.

Local persons serving with Walters and Mrs. Kalkus, on the county-wide committee will be Mrs. Carl Coltom of Parkland and Mrs. Charles C. Phipps of Spanaway.

"Twelve million angel-trios will be in the mails on November 20, to make their melodious invasion of thousands of Pierce county homes, to convey the annual message of the Christmas Seal," Walters said.

### G. I. Housing Credit Adjusted to Smaller Monthly Payments

Recently announced housing credit restrictions as they affect G. I. loan financing have been adjusted to permit smaller monthly mortgage payments, for World War II veterans when actual need is demonstrated, than those required for other types of mortgage loans.

According to the Veterans Administration the change gives the veteran a longer period in which to pay off his loan.

Under the new credit curbs, a maximum maturity of 20 years was set for homes over \$7,000 and 25 years for those costing \$7,000 or less. In the exception granted for G. I. loans, the VA is authorized to approve a maturity up to 30 years on loans of any amount if necessary to enable the veteran to meet his payments.

The mortgage lender on his own authority may extend a maturity up to 25 years on homes under \$7,000 and up to 20 years on those over \$7,000. The VA's prior concurrence is required on longer maturity periods up to the 30-year maximum. The VA said it would authorize extension in worthy cases where the veteran's income and expenses would otherwise render him unable to meet the required monthly payments in a home purchase otherwise justified.

Raymond M. Foley, administrator of the Housing and Home Finance Agency authorized the provision in order to preserve fully the credit preferences of veterans in accordance with the Defense Production Act. Authority for determining restrictions to be applied to the home loans guaranteed, insured or made by government agencies as authorized by the Defense Production Act was delegated to Foley by the President.

COLLINS GRANGE Square Dance club will hold its first dance of the winter season on Friday, Nov. 17 at 8 p. m. in the Collins Grange hall. Every one welcome, both beginners and advanced dancers. Coffee, cream and sugar free—bring your own lunch. Don Whisler will do the calling.

CENTRAL AVE. Pre-School will meet tonight, Nov. 16, at 8 o'clock in the Central Ave. school kindergarten room. Rev. Harold Shelley will speak to the group on the United Nations. Refreshments will be served following the meeting.

During the past generation, the forest economy of the nation has been emerging gradually from one supplied by virgin forests to one of reliance upon growing timber as a crop.

"Any individual, age 16 to 21 may become a social member of this organization, but not have a vote."

The officers are elected annually and four in number: president, vice president, secretary and treasurer, and also a director of publicity. The officers must be regular club members and they constitute the board of trustees. Present officers are Roy Kreger, president; Clinton Williams, vice president; Virginia Ellingson, secretary; Jimmy Dammelle, treasurer.

Each year the president appoints all standing committees and designates their chairmen. These include: A civic committee to promote activities which lead to the development of the community; a membership committee to encourage membership in the club; a program and entertainment committee to provide programs and entertainment for all regular meetings of the club; a hospitality committee to encourage the spirit of friendliness and good fellowship within the club and to arrange for refreshments for each regular meeting, and an audit committee to audit all accounts of the club.

By becoming an active member in your community club you will not only have a chance to become better acquainted with your neighbors but can help to build a bigger and better community—the kind you want. The meetings are divided into business and social and can be fun if there are enough people interested in their community to take part. Meetings are held on the second Thursday of each month. How about it? Are you an active citizen in your community?

### Trinity Parish Chapel Has New Furnishings

A dedication service of the newly installed oak furniture in the Parish House chapel was held at the Trinity Lutheran church last Sunday. Pastor L. Rasmussen delivered the sermon and the men's chorus sang.

Purchased at a cost of \$4,000, these furnishings have been purchased through a gift from Mr. and Mrs. August Buschmann of Seattle in memory of Mr. and Mrs. P. T. Larson, the parents of Mrs. Buschmann, Mrs. L. Rasmussen and Ludvig Larson. Mr. and Mrs. Larson were devoted members and faithful workers in Trinity Church.

With the completed chapel in use, the Sunday program at Trinity now includes three services each Sunday. The early service at 9 a. m. and the junior service at 11 a. m. are held in the chapel.

### WORLD CHAMPION fed as a calf on TRIANGLE CALF PELLETS

Naches Trilby, Holstein-Friesian cow owned by Clayton F. Allard of Lower Naches, Washington, recently set a new world record of 26,231 lbs. of milk and 893 lbs. of butterfat for a 1-year period for cows milked twice a day.

"The past six years I have raised all my calves on Triangle Calf Pellets. I find the calves take to these Pellets at once, and I do not have to teach them to eat. Triangle Calf Pellets are always the same and build large frames and rugged constitutions. I also feed Triangle Calf Pellets to my bulls and aged cows during their dry periods."

## Korean Terrain Looks Like Tunisia Says Parkland Sergeant

WITH THE U. S. SECOND INFANTRY REGIMENT IN KOREA—"This terrain looks familiar," said M/Sgt. Robert Cox, 32, motor sergeant of the 38th Infantry Regiment, "especially since this cold weather has set in. You couldn't tell this area from Tunisia."

Cox, whose wife and daughter live at 1215 S. 11th St., Parkland, Wash., soldiered in Tunisia with the 1st Infantry Division during World War II, following them through Sicily, France, Germany and Austria.

A veteran of 10 years service, Cox has been with the 2nd Division for three years.

"One thing I hope," he added, "and that is that we don't stay in Korea as long as we did in Africa."

There are over 4,225,000 individual private owners of commercial forest lands in the United States, owning approximately 345 million acres.

During the business session entries were lined up for the annual Christmas show of federated clubs to be held Dec. 9 and 10 at the Hotel Winthrop. Mrs. Norman Berger gave a paper on "How to Plant Shrubs." All members were present as well as Mrs. Clyde Eagon, a former Midland resident.

**Welcome, Dryer N Coleman**  
**TWO NEW BUSINESSES SPROUT**

The Parkland area has added two more new businesses to its growing number. Last week, Dryer Mortuary opened its cheerful doors; next week, Pete Coleman will open his Patty Ann Bakery, conveniently located across from the Parkland bank. Welcome to Parkland, Gentlemen!

Dryer Mortuary, owned and operated by Trav and Florence Dryer, last week held their Open House at 220 South 134th Street.

Trav has had 27 years' experience in the funeral business, 17 of them in the Tacoma area.

He got started in his profession in Los Angeles with Pierce Bros., the largest mortuary in the West, where he was in charge of embalming.

At the L. A. firm he met Florence, his wife and business partner. After 10 years they moved to Tacoma where Trav worked for three funeral parlors.

He was with Piper Funeral Home as vice president, before opening his own mortuary. He has passed examinations in California and Washington for both funeral director and embalmer.

"Bright and cheerful" atmosphere was in Dryer's mind when he designed and decorated his mortuary—"So the surroundings won't add to the gloom of the occasion."

Language is the only instrument of science, and words are but the signs of ideas.—Samuel Johnson.

With 12 years' experience in the bakery business, Peter Coleman, only 30 years old, first went to work baking in Morris, Minn., near St. Paul. After a little know-how under his belt, he, the progressive and aggressive young man, bought his own plant. He was only 21 at the time.

Until 1944, when he entered the Army, Coleman operated his little bakery in Herman, Minn. While in the service, Coleman was an instructor at a baking school in Camp Roberts, Calif.

After his discharge in 1946, he started the Patty Ann Bakery at 11th and Market in Tacoma, but lost the lease in July 1949. Between then and May, 1950, when he broke ground in Parkland, he baked at the Winthrop hotel.

Coleman, father of ten children, purchased the Parkland site in 1944. "We'll have 110 percent of everything," says Coleman. "We intend to have a full line in French, American and Danish baked goods, specializing in decorated cakes and ice cream cakes."

Patty Ann Bakery will be open early next week, but will not hold their Open House until Saturday, Nov. 25.
