Garnet is a son of Mr. and Mrs. Clarence Lund and resides at 320 Cleve land street in Parkland. He will attend the 10-day session under our sponsorship, with all expenses paid.

Boys' State is a plan for training in the functional aspects of citizenship. It is a program of education sponsored by the American Legion, Department of Washington. Its purpose is to teach the youth of today constructive attitudes toward the American form of government. Boys State attempts to show that our scheme of government has not outworn its usefulness; that all a democracy needs is an intelligent citizenry and a clean, honest and impartial administration responsive to the will of the people.

Boys' State is divided into two counties and four cities and the state, county and city governments are administered entirely by the residents themselves. Elections are held for the various administrative positions according to the existing laws of the State of Washington. Inaugurations are held. A Boys' state legislature is organized and functions. All office holders are guided in the performance of their duties by counsellors familiar with the law. Violations of laws are prosecuted before the boys' own city, county or state courts. The entire program is nonpartisan and is not military in any

Clover Creek Holds Aloof As Districts Vote to Join Hands

Consolidation of five elementary school districts of South Central Pierce county was voted by their residents last Saturday—by a more than two-to-one margin, according to unofficial count. A similar proposal to consolidate the five districts failed at the March 5 school election by a close vote.

Districts to be included in the consolidation, for which arrangements are now under way, are: Spanaway, Roy, Rocky Ridge, Elk Plain and Kapowsin. An alternative ballot proposal would have included Clover District also, but voters of that district turned down consolidation by a 101 to 59 unofficial count. Statutes provide means whereby Clover Creek may affiliate with the newly-consolidated or another district at a later date, if it so elects.

The Kapowsin district, where a negative vote killed the earlier consolidation proposal, Saturday cast a heavily favoring vote. The Kapowsin district includes the Benston, Graham, Kapowsin and Thrift schools.

Unofficial tally of votes cast in the five consolidating districts Saturday shows: Spanaway, 132 for, 31 against; Rocky Ridge, 29 for, 12 against; Roy, 49 for, 3 against; Elk Plain, 76 for, 9 against; Kapowsin, 293 for, 188 against.

There's No Future In It

However much one may feel that the medical profession has done disservice to the public interest by its stifling of free competitive practices and grudging admission of the voluntary medical plans it now so loudly lauds, it should be unlikely that any open-eyed person would favor the movement now afoot to socialize the practice of medicine.

That each step towards socialization of the American economy is an irreversible step, away from the liberty which is the breath of America, is only one of a number of vital considerations. There is, for example, the finding, from examination of past and current socialized medicine experiments elsewhere, that would make it seem axiomatic that the greater the degree of socialization or government domination, the fewer practitioners there are to do the work.

Various reasons account for this condition. One very obvious one is that, in a country where a bureaucracy runs the show, there is little incentive for men and women to go through the arduous schooling necessary to become a physician or dentist. The financial rewards, even for the most brilliant and hard-working, are severely limited by the state. Opportunity for research is small and medical men must deal with masses of forms and other red tape which demand hours that should be given to their patients. And, inevitably, advancement goes not to the most competent, but to those who are best able to curry favor with the political administrators, or who gain seniority through the mere fact of age.

Unfettered American medicine has a proud record of professional progress and achievement pointing toward future accomplishments that should not now be sacrificed to administrative vanity and bureaucratic power-lust. The raw deal it currently faces should awaken the medical profession to volunteer a real fair deal for the public. That is the happiest result we may look to.

Help Wanted

Clover Creek American Legion post has sounded a call for volunteer workers to join the post's police-up detail to put Spanaway cemetery in spic and span shape for Memorial Day services. The detail already has one day's work behind it, as the first turnout was Sunday, May 1. However, the work is to continue for two more Sundays, May 15 and 22, with a wind-up on May 28. Transportation will be provided prospective volunteers who call GR. 6560 or GR. 6007 the day before they plan to turn out. The post will appreciate the Saturday, May 14. The action begins on a farm in Oklahoma (about 1900) and ends in the city of Chicago. The plot revolves around "Widder Rosy Berry" and her determined but bashful suitor. The villain doesn't wear a cape and a long black mustache, but he's in there pitching just the same, trying to get Rosy's farm.

How the slick "Mr. Slick" outslickers the city slicker, you will have to wait and see.

The title role is portrayed by Sam Green. Cast opposite him as "Rosy Berry" is Lucille Steidel. "Wilbur Merridew," the city slicker, is played by Richard Fraser, and his niece, 'Gladys Mae," by Ila Green. Romping through the play as the loveable, loyal little tomboy, "Sis Riggs" is Betty Murdock. Dan Grefthen is cast as "Clarence," the poetry-soputing waiter and detective. Helen Taylor, as the night club singer, will delight you with old favorites of fifty years ago. SHOULDER LAMB CHOPS WITH JELLY PEARS — Wake up your menus with springtime platter of lamb shoulder chops and jelly-filled pears. Chops from the shoulder, like the more expensive loin or rib chops, may be broiled, pan-broiled or braised. If chops are thick (3/4 to 1 inch) they may be oven-broiled. If thinner, pan-broiling is the better method to use. Broil chops on one side; season; and broil other side. Serve the chops on your prettiest platter with canned pears filled with mint, currant, or grape jelly. Shoulder lamb chops also are delicious when braised with thyme. Brown the chops, then cook slowly in a covered skillet with a small amount of water and a sprinkling of thyme.

Five teachers and three parents from the Harvard-Midland district attended the Pierce county curriculum meeting, April 18, at Woodland school. The chief aim of this group is to standardize curricula in all schools in the county, so that a child changing from one school to another will not be handicapped by methods different than he had been used to. Also, the group is trying to gather material on various subjects, to enable the county superintendent's office to have kits of all needed materials available to the teacher when her pupils are ready to study a subject. To this end, workshops have been organized in Edgemont and Orting. Workshops are to be set up in other districts and, where this year they have planned only for the orimary grades, next year they will go into the higher grades. Those attending from Harvard-Midland were Miss Almira Norton and Miss Anne vimont, from the first and second grades at Harvard; Mrs. Elizabeth Sullivan, Mrs. Ruth Rogers and Mrs. Ella Williams, of the first, second and third grades at Midland; Mrs. Herschel Payne, Pre-school president; Mrs. Clarence Johann, P-TA president, and Mrs. Fred Rousseau.

Surprises at Shower For Carolyn Shield

By Mrs. Arthur Pietz

A long table with silver dishes set around a most attractive arrangement of daffodils was the center for a recent very lovely wedding shower at the home of Mrs. Ted Harris on Lake Shore drive, Spanaway, honoring Miss Carolyn Shield.

On a special table placed nearby was a large Easter egg which, when opened, disclosed many gifts for the bride-to-be. The Easter egg was colored yellow and white and was surrounded by bunches of daffodils.

An especially-made large white cake, decorated on top with two hearts encircling the names of the future happy pair, "Jack" and "Carolyn," was the feature of the delicious buffet-luncheon. Around the hearts were pink roses. Entertainment consisted of games. Mrs. Loren Buck and Mrs. Dan Olin were win-

Week at Pacific Ave. Boat Works

Open House This

Visitors will be welcomed at the 9001 Pacific avenue boat works of Pleasurcraft Marine this Friday and Saturday, May 6 and 7, when open house is held at the new showroom of the firm. Now under construction there is the "Nixie," being built for Marshall Perrow of Tacoma. Perrow, an architect, designed the interior of the craft to his own taste. Launching of the "Nixie" is scheduled for May 13.

In choosing a boat-building site Pleasurcraft Marine owner, has successfully done the unusual.

Williams, who only started business in March of 1947, chose the site for reasons of economics. Williams had a small boat shed behind his father's home at that address that had been built before the war, Per Word and it was cheaper to enlarge that Minimum ... shop than pay for a waterfront site and build a new shop.

In point of quantity, the company does not build the greatest number of craft in Tacoma, but in quality the young man feels they excel. He has, in consequence, concentrated on SPANAWAY LUMBER CO. producing a high quality pleasure craft. By choice building has been confined to sailboats, but Williams will build anything up to 60 feet SEPTIC TANKS CLEANED, conn the high and dry boat shop.

In line with building only quality craft, Williams purchased a plan from John G. Alden, nationally known naval architect, for the 32 foot, 6 inch Malibar Ir., a popular and familiar sloop seen for years on the east coast. The original Malibar plans were designed for an iron keel but have been redesigned by Alden for lead, which Williams feels makes a faster craft. He pays Alden \$250 for each boat built to that plan.

From 4 to 6 men are kept busy n the shop. Construction time for the 32 foot sloop is 4 to 5 months, and two can be built at once in the shop.

Williams went to Lincoln high school and apprenticed at the J. M. Martinac Shipbuilding corporation and the former Mojean & Erickson shipyard about 10 years ago.

In 1940 Williams went to work in the navy yard, then became navy inspector of wood hulls of patrol and harbor craft being constructed in private Tacoma and Everett yards.
