Note to Tacoma Home Builders Dear Mr. Tacoma Builder:

We note by your city's newspapers that some selfish inter ests are trying to condemn some of your choice building sites for airport purposes. This we regret, but we can offer a fine solution to your problem.

Throughout the great South End there are many fine building sites. These are ripe for home development because the demand for residences out our way is extra heavy and becoming heavier day by day. This property can be had at very reasonable prices and it will not be saddled by an unbearable tax burden because of an airport folly.

We can supply an airport site that will not interfere with any residential development. Yes, you can let the power boys of Tacoma tear down their city's property values with a misplaced airport. Come to a place where an ever-increasing residential section awaits only the builders' touch. Here we have all the advantages of city life without many of its burdens. Taxes are lower, the utilities are available, good fire protection. no parking problems and the exhiliarating freshness of the air are just a few.

Let Tacoma have its barren airport, empty harbor and odorifous pulp plant. You will reap a great reward in the growing South End, which already boasts thousands of fine homes and even finer home folks.

H-M-L FIRE DEPT. HOST TO MEETING AT MIDLAND CLUB HALL

The Midland Fire Department was host on April 8 to the Puget Sound Firemen's Association meeting. W. A. Remember This Date

Come Saturday, April 26, residents of the Parkland area will go to Parkland school to cast a ballot for or against a special 20-mill levy to provide more funds for better fire pro-

In the short time that Pierce County Fire Protection District No. 6 has been in existence its unestimable value to the community has been demonstrated many times. Thousands of dollars worth of property have been saved and an insurance rate reduction has been granted.

The fire commissioners have been confronted with the need for more equipment and under the current four mill levy they can get only enough funds to pay off the indebtedness on the new truck and fire house.

Voters should bear in mind that this special levy can only be in effect for one year and most home owners have already received insurance reductions enough to more than offset the increased taxes. The Parkland area has enjoyed almost as efficient fire protection as the city of Tacoma and the manpower has all been on a volunteer basis.

There is every indication from the home folks that they are very much in favor of the increased levy. However, under a new state law at least 600 voters must cast a ballot to carry the issue. It is important that all eligible voters keep this date in mind and take a few minutes time to go to the polling place on Saturday, April 26.

Pie-Man Speaks Up

There's a something man-filling about apple pie, real apple pie, we mean, that no other pie, cherry or lemon or what-haveyou can match. We speak of deep apple pie in which the fine fragrant juices have seeped a little, their brown nectar staining the crust through the paring knife "nicks" in the crust.

A pie that's king of pies, warm from the oven but cooled from the piping hotness that burns the tongue, a pie that melts on the palate, a pie that blends its God-given naturalness with its essential accompaniment, a piece of Edam cheese.

What's that you say? The world's going to pieces, 20th century civilization is crumbling to ruins before the aspect of the atom bomb, and mankind is heading for inevitable selfdestruction from the poisons of his own soul? Improbable.

Man is mean and murderous on occasion, blind and treacherous in instances, selfish and bigoted frequently. But man, who invented apple pie, who treasures the tradition of that noble dish at meal's end, cannot be wholly evil. While that wonderful item remains a part of man's menu, there is hope for a better, finer world.

For the human race created apple pie from the fruit of the earth, making the sublime of the ordinary.

And as is said of bologna, no matter how you slice it, it's still apple pie.—The Sun.

Letters to the Editor

To the Citizens of Parkland: April 26, 1947, is the day citizens of Parkland are asked to go to the polls and cast their vote for or against the proposed twenty mill levy for the volunteer fire department.

If the proposed twenty mill levy does not go through, you, as citizens of Parkland, will live in greater peril than ever before. Why? Because the fire department is short of vital fire fighting equipment which the twenty mill levy would buy. In fact, it is so short of hose that it is forced to put wet hose back on the trucks. This rots and weakens the hose. Some day it will break. Will it break when they are fighting a fire in your home?

I now ask each resident of Parkland to go to the polls on April 26 and vote for the twenty mill levy. If it goes through your taxes will go up for one year but your Richard Boness enjoyed the beaufire insurance will drop enough to tiful Sunday sunshine while on a cover the raise in taxes. Furthermore you will have added fire pro-Attends Bean Dinner-Mr. and tection. Let's all get behind the Mrs. Al Bragg of Clover Creek fire department and give these un-Post and Unit No. 118, who vis- paid volunteers our wholehearted ited the Sumner Legion Post, also support.
