VOL. 1, NO. 27

PARKLAND, WASHINGTON, THURSDAY, MARCH 14, 1946

Office: Basement PLC Chapel, Parkland

Considerable interest has been demonstrated by the business and professional men of the South End in forming a luncheon club along the pattern of Rotary and Kiwanis. Unquestionably such an organization would do much to foster a spirit of understanding and cooperation. The community problems of the residents of Midland, Clover Creek and Brookdale are pretty much the same as they are at Parkland and Spanaway. If the business men of these communities could get together once a week for a noon luncheon meeting and discuss problems of mutual concern the benefits that would result would make for better communities.

Such an organization would also give us the opportunity to make new friends and enjoy an hour of fellowship with them once a week. It could become a social organization as well as a central clearing house for community ideas.

Committee Named

This project has graduated from the talking stage into the field of action. Five qualified and interested business and professional men have been selected to serve on an organization committee. Rev. George Cooper will act as chairman. Professor A. E. Fritz, Mel Pederson, Frank Baskett and Herman Fuchs will work with him. Within the next 10 days they will make an investigation of the facts involved in organizing such a club and will make a report in The Prairie Pointer as to their findings.

Butter Hurry

An unusual event these days is the opportunity to purchase a whole one-half pound of butter. It is even more unusual for information of this kind to be made public. But that is just what the Gibbons Grocery in Spanaway is doing. First come, first served. Butter hurry!

Young Businessmen

Two of Parkland's young businessmen live at Clover Lea and Pacific Avenues. Neil Richardson, Parkland 6th grader and his brother Buddy who is in the 5th grade plow gardens for their neighbors with their factory-built Gibson tractor. The tractor was given to them by their father, Mr. L. B. Richardson who drilled the new wells for Parkland.

Rotary Booster

A real Rotary booster, Mr. I. F. Harden, came half way across the country to visit his son, Mr. E. H. Harden, new owner of Parkland's snack bar, "The Bug." Still feeling the effects of a rough trip with the Northwest Airlines, Mr. Harden was a dinner guest of the Rotary club his second day in Parkland. He plans to return to Waverly, Iowa, on the 20th of March where he owns and manages a grocery store and food market.

Nylons??

Most mornings these days we note congregations of several women at the bus stops throughout the South End. A guess is hazarded that these folks are on a trek to the city in search of nylons.

Home Again

Friends of Sam Warren will be glad to know that he is home again after being in a Tacoma hospital for some time. Sam is that well known man about Spanaway who purveys fuel of top quality. He was laid low with an attack of rheumatism but Mrs. Warren says he is picking up now and expects to be back on the job soon.

Truly Honest

Proof that 6-year-old Darleen Southworth has started being truly honest at a tender age was shown Tuesday when she picked up a purse containing a goodly sum of money. Mrs. Roy Peterson reported that she lost the purse Saturday night and had about given up hope of its return. However, Darleen, a first grade pupil at Parkland school came across the purse Tuesday on her way home and promptly turned it over to her mother. The article was identified and returned to Mrs. Peterson at once. Mrs. Peterson feels that Darleen is entitled to public acclaim for her honesty besides the monetary reward offered. We agree and say amen to such fine honesty in one so young. Young Miss Southworth is the daughter of Mr. and Mrs. Elmo Southworth who reside at Rt. 10, Box 42-A.

The next meeting will be held Monday evening, March 25; the meeting place to be announced later. Those present at the first meeting were Mrs. Lee Smith, Miss Tillie Wharton, Mrs. W. KEYS TWINS ARE HONOR PUPILS

Midland Pair Named Valedictorian and Salutatorian

Midland Junior High School ninth grade graduation ceremonies are now being planned and will take place in the early part of June. Twin sisters Margaret and Grace Keys have been selected on the basis of their scholastic achievements to lead their class as valedictorian and salutatorian, respectively. Grace, the salutatorian, will deliver the opening welcome speech and twin sister, Margaret, will follow with her valedictory address.

Albert Reiths, ninth grade supervisor, announced this week the grading system that was used in tabulating the five semester's work: 3 points were awarded for a Satisfactory Plus, 2 for Satisfactory and 1 for Satisfactory Minus. The complete list of the ten highest scholastically in the class of 46 students with their accumulated grade points, was announced as follows: Margaret Keys, 89; Grace Keys, 87; Ted Vaughn, 81; Doris Nordlund, 76; Patsy Strachan, 74; Clarence O'Neill, 74; Shirley Hals, 72; Floyd Hanson, 64; Mob Bjornsen, 64; Alice Long, 64; Daniel Boone, 63; and Herbie Kennedy, 61.

In addition to the excellent scholastic record which has been established by the valedictorian, Margaret Keys, this student leader has also participated in many extra-curricular activities including the position of reporter of Midland activities on the staff of The Prairie Pointer. One of her remarkable attributes has been the consistent, observing, and keen insight into school and civic activities.

Going Up!

Pictured here is the new tower water tank being erected at A street and Allison Road for the Parkland Light and Water Company. About twenty more feet will be added to the tank before it is completed. Altogether it stands about 150 feet above the ground. The job is expected to be finished about the first of April and then customers of the Parkland company will be getting water from a deep well at the base of the tank instead of from the City of Tacoma's mains. The house in the background and two men standing under the tank give a comparison of the loftiness of this structure.

TWO IMPORTANT FIRE MEETINGS

SPANAWAY-ELK PLAIN DISTRICT HEARING TUESDAY IN TACOMA

Plans for the proposed fire district and the purchase of equipment are crystallizing in the Spanaway and Elk Plain communities. Several preliminary meetings have been held and the people in that area are now ready to take action.

The two most important sessions, however, are scheduled for the week of March 17th. On Monday, March 18th at 8 p. m. a fire protection meeting will be held in the Spanaway school. The president of the organization, Jim Gray, at that time will call for a final discussion on the hearing slated for the next morning before the county commissioner.

At 10 a. m. Tuesday, March 19, the committee will bring forth for public hearing at the county court house its recommendations for the proposed fire district. The Spanaway and Elk Plain group will present at that time their request that Clover Creek be excluded. The citizens of the communities involved are invited and urged to be present at both of these important meetings.

\$1100 in Fund

At the present time there is \$1100 in the fire department fund which has been raised by community efforts without any solicitations or donations. A dinner and card party will be held shortly after Easter to further swell the treasury. Detailed announcement of this social event will be made through the local paper.

A committee has been selected which is at the present time making a survey of available equipment. This committee will soon make a report on its findings and recommendations.

Spanaway St. Patrick Party Friday Nite

Women, get yourself a man and a box lunch! There's a hot time in store at Spanaway School this Friday night. Win Hunt will be there to auction the boxes and call the old time squares. And if you can't "almand right and left" there's going to be modern dances. Spanaway Pre-School Club is holding a St. Patrick's Day Irish Jig the night of March 15 in the school gym to which all and sundry women are invited. There's no admission charge... all you need is a box lunch and a man.

Mrs. Margaret Neuman, president of the club, is in charge of general arrangements, and she has announced that proceeds will go to provide kindergarten equipment. Decorations for the event will be in the traditional St. Patrick's motif. Miss Shirley McKenzie, Mrs. Thea Green and Mrs. Muriel Hunt make up the decorations committee, while Mrs. John Lee and Mrs. Alice Prettyman take care of publicity.

NEW PHOTO SERVICE

The Hi-Way Photo Shop has recently announced a new service that it will render to the residents of Parkland. The residents of this community may leave film rolls at either Lundberg's drug store or Gates grocery and they will be picked up, developed and delivered within 24 hours.

Several Activities At Clover Cr. Church

The Clover Creek Baptist Church has a very busy schedule this week. Sunday, Sergeant Duffy of Fort Lewis spoke at the morning and evening services.

The Women's Missionary Society of the church met Tuesday noon for pot-luck luncheon. Mr. Claude Packard, from the Temple Baptist gave an inspiring message. Tuesday evening at 8 o'clock the members of the church will meet for prayer meeting. All friends are invited to attend this service.

Climaxing the week's services will be pot-luck supper Saturday evening, for the members of the church. Dr. Powell will have charge of the service and communion will be offered to the members of the church.

Scout Committee Plans Box Social

Plans have been completed for the box social and dance which is to be sponsored by the Boy and Cub Scout committee on March 30th in the Sunshine Hall. Tickets are being sold throughout the South End and can be had in Parkland at the light and water company office for 75 cents. Only ladies who bring boxes will be admitted free.

CLIFF OLSON RETURNS TO PLC

PROMINENT COACH BACK TO RESUME FULL ATHLETIC PROGRAM

Pacific Lutheran College announced this week that Cliff Olson has returned to its staff and will resume his pre war position of head coach and athletic director of the school's sports program. He will also be in charge of public relations. Olson was granted a leave of absence in January, 1942, to organize a complete sports program for Ft. Lewis after which he accepted a position with the Todd Pacific ship yards. During the war he served this organization as personnel director in its tremendous building program.

The many PLC sports fans remember well the great athletic teams that Cliff Olson turned out and are already anticipating the college's return to a full athletic program.

In preparation for a heavy football schedule planned for next fall Olson has issued a call to all gridiron aspirants to begin spring training Monday, March 18th. Although a sprinkling of experienced players will report for the first session, many of the expected veterans are either still in the army or were discharged too late to return to school this semester.

Olson also announced that the Winko league, of which PLC is a member, has made preliminary arrangements for a spring sports program, including golf, track and tennis. A schedule has been drawn up and will soon be announced concerning these intercollegiate sports activities.

Frank Johnson was selected to investigate ways and means of securing a stop light for the Midland's crossroad. Letters have been written to the Metropolitan Park Board through which the club is trying to have repairs made on Dawson Field before the summer activities start. A definite rental for the use of the Improvement Club's hall was also established at the meeting. Five new members were taken into the club: Mr. and Mrs. Stanley Lipke, Mr. and Mrs. Don Fude and Nel Swalgurad.

MOVIE OUTFIT FOR PARKLAND

\$400 Projector and Screen Purchased for Students' Use in School Work

A movie projector which was ordered almost two years ago by the Parkland School arrived last week. The Parkland P.T.A. started a fund for a movie machine several years ago but the machines were then unavailable. The school board authorized the purchase of the \$400 projector and screen at this time.

Films, including a travelogue on Africa, a visit to Glacier National Park and Washington, D. C., were enthusiastically received by the students in an initial showing last Wednesday. Morris Ford, superintendent, announced that several films would be rented and shown to the students during the remainder of the year.

Next year a membership in the Pierce County Film Library will be purchased which will entitle the school to borrow films which have been approved for school children by special committees.

GRANGE GETS NEW MEMBERS

LARGE CLASS INITIATED AT SALES HALL LAST THURSDAY

One of the largest classes of candidates this year received the first and second degrees at James Sales Grange last Thursday evening.

Everyone was very much impressed by the splendid performance of the women's drill team from Elk Plain. The team deserves the close observance of other teams throughout the country.

Harry Sprinker, master of James Sales Grange called on masters from visiting granges who in turn expressed their appreciation to James Sales and Elk Plain granges for their fine performances. Those called upon were: Clarence Otto, Fruitland; Eliza Halt, Elbe; John Manly, Waller Road; Joe Mickus, Elkplain; Roy Renner, Clover Creek.

Ladies from James Sales were complimented highly on their very beautiful tableaux and showed their thanks by serving a very appetizing snack after the meeting. Following are the names of the new members and their respective granges: James Sales—Kenneth Redford, Mrs. Ruth Zeimer, Mr. and Mrs. Ray Ellison. Elbe—Geau Fraser, Emma Chase. Elk Plain—W. G. Brown, Mr. and Mrs. Les Miller. Clover Creek—Maxine Smitheine, Robert H. Pen, Mrs. Lester Smith.

All new members are urged to take the third and fourth degrees either at Summer Grange, this Thursday night, March 14 or at Graham Grange on March 22.

Church Study Club Now Fidelis Society

The former Study Club of the Parkland Ev. Lutheran Church, met at the home of Pastor and Mrs. W. C. Gullixson this week and adopted an official name. The Scripture passage "That a man be found faithful" helped to determine the name of the organization, Fidelis Society.

The members ask no greater privilege than that of being found faithful to the spirit of Christian faith and fellowship taught by their Church. Synodical Conference students at the college and members of the congregation form its membership.

Eighteen were present at the recent meeting and enjoyed a discussion on "Regard for Authority" led by the pastor, and games conducted by Mrs. R. Strom. Present were Alice Bartanen, Alice Irene Brudy, Ruth Berken, Myrtle Pomeroy, Hazel Harstad, Vida Mae Harstad, Mr. and Mrs. S. Willis, Mr. and Mrs. W. Perkuhn, Mrs. Irene Bradley, Eris Prechel, Mr. and Mrs. J. Ingebritson, Pastor R. Frantz and Pastor and Mrs. W. C. Gullixson.

MARY MARTHA SOCIETY TO MEET FRIDAY NIGHT

The meeting of the Mary Martha Society scheduled for Thursday evening will be held Friday evening, March 15 at the J. N. Reed home in Parkland with Peggy Reed as hostess and Edna Olson, assisting. The meeting night was changed on account of the Lenten services held at the church. Leona Ellingson will preside over the business meeting after which a program will be presented, with Clara Chilson as speaker.

For Parkland Residents

The Prairie Pointer published an article last week which was written by Miss Mabel Seamons. In this article Miss Seamons made a plea to the residents of Parkland to seriously consider the mail service that they were receiving and send certain information to her committee which is investigating this problem for the Parkland Community Club. The conclusion which is now self evident on the basis of the response received by Miss Seamons is that Parkland needs and wants better mail service.

Some of the most important facts brought out by the committee's report were presented at the regular meeting of the Community Club on Wednesday evening, March 13th. The number of post office boxes has increased 10 fold in the past 3 years. The federal government is seriously contemplating erecting a new post office building in Parkland. Only a fraction of the Parkland mail is delivered through the Parkland Post office. Although the number of box holders has increased from 750 to 2000, mail delivery service is still fundamentally the same as it was 10 years ago. The mail routes as a result cross and recross each other in a very confusing manner and they all originate from the Fern Hill post office instead of the Parkland office as they should.

Other communities of our size have their mail delivered right to their homes. There are certain steps that we can take to secure this free mail delivery service. The first of these steps must be to demonstrate wholeheartedly and with unanimity that we are in favor of this progressive action. To accomplish this, petitions are going to be circulated during the next two weeks. The people who are rendering this community service have no personal axes to grind and are deserving of the courteous and respectful cooperation of every citizen they contact.

Miss Seamons and her committee are deserving of a special vote of appreciation for their community spirit and interest in initiating this worthwhile civic project on behalf of the residents of Parkland.

Community Needs Professional Services

There are over 15,000 people living in the area served by The Prairie Pointer. Many of these people have chosen this section to build homes and raise their families because of the unusual opportunities which it has to offer. The residents of the Prairie have all of the advantages of a large city as well as the open spaces and peaceful atmosphere of the country.

The South End's business districts are keeping pace with the increasing population. Grocery stores, meat markets, service stations, garages, real estate offices, drug stores, restaurants, photography studios and virtually every type and kind of business organization is available to meet the growing needs of our community.

There is, however, a definite need for more readily accessible professional services. It is indeed strange that in an area with our population there are no doctors, dentists or lawyers. In our land the laws of supply and demand even on the professional level do not long remain out of balance. The problem will soon remedy itself if that is what we want. Last week one doctor and one dentist who were looking for a suitable location to establish themselves visited this area and were astounded to learn that there were no professional men located and practicing in the prairie region.

The question isn't can we have professional services readily accessible from local doctors, dentists and lawyers but rather the question becomes, who will these professional people be? Our choice is twofold. Shall we through our community and civic organizations survey the potential list of those who are available and exert an effort to secure the services of our choice or shall we let this very important civic problem drift and allow the inevitable law of supply and demand to solve the professional question for us.

A War Memorial Library

At the last general election citizens of Pierce county voted in favor of a county library program. A two-mill tax levy in unincorporated villages was inaugurated to make this possible. Because this action was taken there is now available an ample fund to furnish the people of the South End with the necessary books and librarian services to start a library. The only major obstacle facing the county librarian at this time is the securing of an adequate space in which to house the available facilities.

Because library services are so necessary today it is to be regretted that this important program should be at a standstill for this reason. It should be a challenge to the civic minded citizens of the Prairie to meet and overcome this obstacle. It has been suggested that the Parkland Community Club initiate a drive to secure adequate housing for a library in the form of a war memorial.

Our generation has been called with much accuracy "men who forget." The end of the global war was recorded in history little more than six months ago and once again we are forgetting the great lessons which it should have taught us. Our community needs a war memorial to keep constantly before us the memory of the great sacrifices that were made to protect our way of life. What would be more fitting than to place our war memorial in a library, where the culture and wisdom of bygone generations is placed at our disposal?

We Need Reorganization

In Drew Pearson's Merry-Go-Round column last Sunday comment was made on the large army of lobbyists in Washington, D. C. And among those mentioned were the American Legion big boys working for conscription. Americans who do not wish to see this country transformed into one such as existed in Germany under Hitler should be alert and prepared to fight against compulsory military training.

Let us consider a reorganization of the fighting forces before we attempt such a drastic step as forcing our young men to serve in the military set-up such as exists today. Many of the old traditions of the army and navy need to be cast out so that a young man will be proud to be a private or a seaman second class rather face a year of humiliation under the present class-conscious military system.

Certainly a country as great as the United States can build up a military machine that will make our young people seek enlistment in the regular army and navy, rather than shun it. This forcing a person to salute an automobile because an officer happens to be in it and generally bowing and scraping to so-called brass can well be tossed over the side. Discipline is needed, of course, but not the kind that stems from the old Prussian system of grinding it into the men in the ranks.

Every man in a war machine today has to be highly skilled and each one is a vital part from the private to the general, so why not put them on an equal footing and let them be judged by their ability and not by the amount of brass fastened to the uniform.

Young men are clamoring today to get into aviation because of the glamor and adventure involved. They look up to the top-grade pilots with respect and work diligently to aid in the progress of the industry. Ability and fine character are highly respected—not gold braid.

It looks from this corner as tho something such as this should be tried before we resort to methods which have only produced hatred and wars in the past.

A varied program has been planned and many prizes will be given. A floor lamp and two boxes of groceries will be awarded. A carnival queen will be selected by those willing to spend 10c per hundred votes. In addition to the honor of reigning over the carnival festivities the queen will be presented with an appropriate gift.

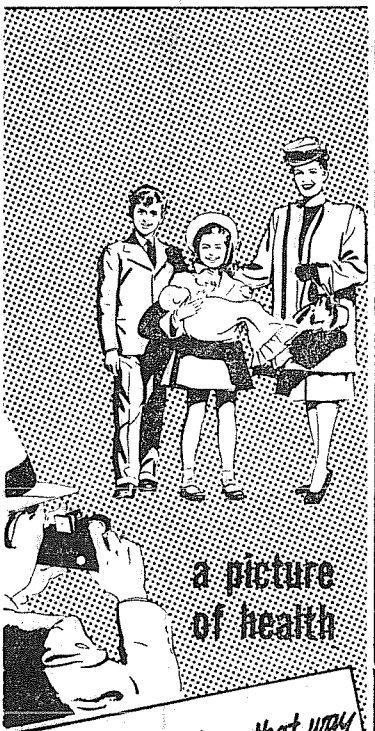

Pies and cakes, which will be made and donated by some of the parents, will be sold as well as candy, pop and popcorn. There will be many interesting booths and displays, including a fish pond and bingo game.

Baseball

The Clover Creek fighters came to the Elk Plain school on Wednesday, March 6th and challenged the boys to a game of baseball. The home team sent the fighters back to Clover Creek on the short end of a 10-6 score. However, the girls upheld the honor of the invaders by ringing up an 8-5 victory.

Letters to the Editor

Dear Editor:
If it were not for the county papers and your great help in making our Christmas Seal sale a success we would probably not be able at this time to make the purchase of the mobile X-ray unit.

As it happens, we received over \$31,000 this season, an amount sufficient to carry on our regular educational and rehabilitation work in the county, and also to buy this X-ray machine.

Mrs. Stanley Rosso, chairman of the Christmas Seal sale in Parkland, and her committee members, Mrs. P. E. Hauge and Mrs. R. L. Renwick, were instrumental in raising a substantial share of the funds. The total raised in Parkland is \$629.22.

We appreciate very much your help in the matter of publicity and wish to thank you for your aid.

The mobile unit will serve to protect the health of the county and you can feel that you have had a part in its purchase.

There's More Time for Fun and Play When You

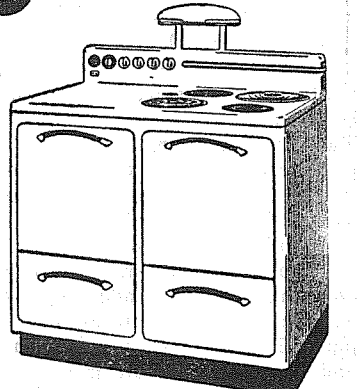

Cook with Electricity

Yes—electric cooking is so much easier, so much faster, that you have a lot more time to do the things you really want to do. Electric cooking is economical, too — especially in Tacoma, where municipal ownership brings every home the benefits of America's lowest electric rates. As a matter of fact, the average Tacoma family operates a range for about 4c a day!

When new ranges are available in Tacoma you'll find them at your electric dealer's or at Tacoma City Light. Watch for them!

What Your Red Cross Chapter Does In PIERCE COUNTY

YOU KNOW what the Red Cross has done overseas in World War II. The World knows it. Another glorious page in the history of your Red Cross is being written.

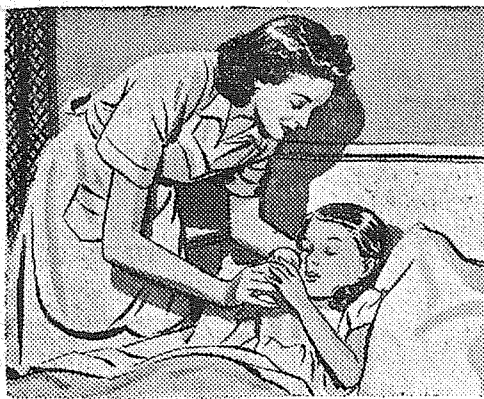

Each of the 3,754 chapters in the nationwide Red Cross network . . . just as our local chapter . . . did its full share to make possible all the help and comfort given our fighting men. But that is only half the story. Here is what your Red Cross chapter is doing now and will be doing for years to come.

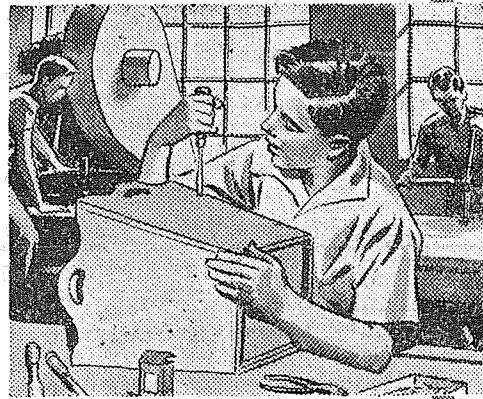

Disaster Relief. In the United States last year, the Red Cross gave relief in 260 disasters. Experience has shown that no community is immune. Our local chapter has a disaster committee set up and ready to act at the initial warning of catastrophe . . . to provide emergency shelter, food, clothing, and medical care for the helpless victims . . . to save lives and relieve suffering. And after the first shock has worn away, comes the long job of rehabilitation.

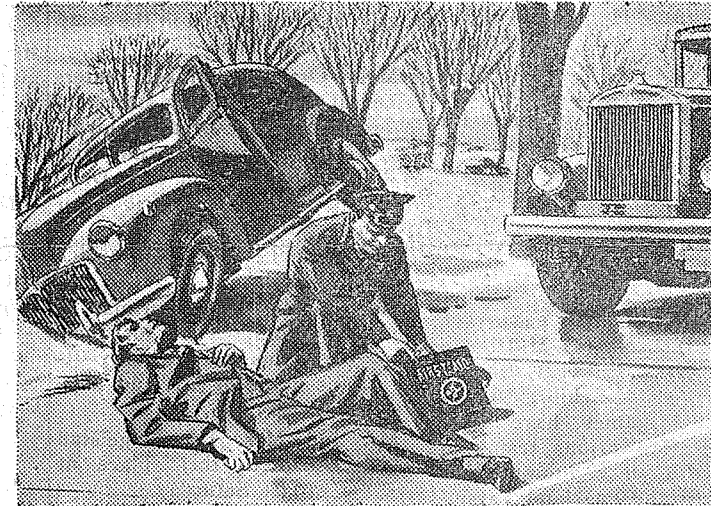

Home Service. The Red Cross Home Service worker is a home town trouble-shooter for the serviceman and his family. Our Red Cross chapter has Home Service workers available for duty day or night . . . trained, practical people, equipped to act in emergencies. The Red Cross two-way communication system reaches around the world, so that in a sense the serviceman is no further from his loved ones than our Red Cross chapter.

Home Nursing. The Red Cross teaches the fundamentals of home nursing to many citizens. Mothers and high school girls learn how to care for simple illnesses, and how to follow the doctor's instructions in preventing serious ones.

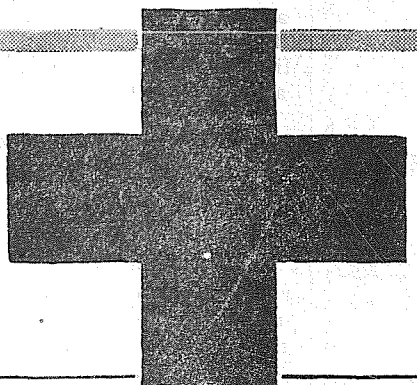

Junior Red Cross. From eager first-graders to high school students young volunteers stitch, hammer, and plan for the Red Cross. Many also learn first aid, accident prevention, water safety, nutrition, and home nursing.

First Aid. A crash on the highway . . . a slashed wrist . . . a burn from scalding water . . . severe shock without proper attention, all can produce serious results. Our chapter in cooperation with individuals and organizations maintains mobile first aid units and highway first aid stations manned by trained first aiders, who help care for the victims of traffic accidents until the doctor arrives. First aid, water safety, and accident prevention classes are conducted to teach Americans the principles of self-preservation.

Volunteer Special Services. Your neighbor next door or just around the corner is probably a member of one of the many Red Cross Volunteer Corps. She may sew or knit for our hospitalized men; she may drive for the Motor Corps; she may be a Nurse's Aide or a Gray Lady. Perhaps she's a Staff Assistant, or a Home Service worker . . . but whatever corps she serves . . . whatever she does . . . her time and effort help stretch the Red Cross dollar.

THINK of the many thousands who look to our Red Cross for aid and comfort in lonely hours of desperate need. Think what its many services and safeguards can mean to our town . . . to you, and your loved ones. Then remember that your voluntary services, backed up by your contributions, make it possible for Red Cross to carry on in our community. Your individual gifts are its only source of income. Without you and your neighbors, there would be no Red Cross. Give to the Red Cross today.

YOUR **Red Cross** MUST CARRY ON . . .  **GIVE!**

Magician to Show At Parkland School

"Do not believe everything you see," Chides Lee Grabel, magician, author and authority on legerdemain, as he pulls the proverbial rabbit out of the hat, plucks cards from the air, and causes objects to disappear in mid-air. Under the sponsorship of the Senior class of Pacific Lutheran College, Grabel will present his Wonder Show in the Parkland Junior High School auditorium Monday evening, March 18, at 7:30.

A master of the illusion, as well as sleight of hand, Grabel's program is well rounded and designed to delight young and old. Sprinkling comedy liberally into his masterful performance of mystifying feats, he has been lauded by audiences in all parts of the country for his accomplished showmanship.

"If it be magic, let it be art," from Shakespeare, is Grabel's motto, promising an artistic, refined performance. For an evening of delightful fun, don't fail to see Lee Grabel's Wonder Show next Monday night.

Tickets are now being sold by all members of the P.L.C. Senior class.

New Fire Alarms At Midland School

A fire alarm system for Midland School has been installed after a two and one-half year wait. This new fire warning outfit meets all standards and will operate independently on its own system of batteries in case of an electrical failure.

Emergency switches to give the alarm are located at all strategic points.

Also installed was a small bell system in the supervisors office to call the classes of the junior high.

Red Cross Offers Two Major Services

Two major services have given the American Red Cross its charter: Home Service and Disaster Relief being obligatory for every branch, everywhere. Other departments have been added, down the years, so that there are 35 in all, each functioning for the well-being of those who can count on Red Cross in need.

But it's interesting to note that in the last fiscal year Home Service corps was of aid to 3,865,501 service men and their families; while ex-service men assisted by chapters numbered 364,448 with communications handled for 3,553,089 service men, ex-service men and civilians... That does seem a job worth spending money for... and your gift to the Red Cross 1946 campaign will help Home Service carry on for veterans and men overseas in armies of occupation, and for civilians who need "The Greatest Mother of Them All" here at home.

Mrs. Ellstrom has supervised the Young People's work in the church since first coming to Clover Creek. Under her leadership the younger members of the church have taken an active and helpful part in church affairs. She is resigning from her office because she is moving to Compton, California, to join her husband. She will certainly be missed by her many friends and especially the young people.

SPANAWAY SEA FOOD MARKET IS POPULAR

One of the more interesting business establishments in the South End is owned by Jim Lovaas. Jim opened the doors of his unique little fish market on Mt. highway for the first time about four months ago. He is the only merchant in the area who specializes in the sale of fish and sea foods exclusively. With a little advance notice Jim can usually secure the rarest delicacy in the sea food line.

Cheering Lovaas on are his two children Laura and Wesley and his wife Helen.

Then there is the girl who returned the engagement ring by mail and labeled the package, "Glass—Handle with Care!"

Musical Treat At Parkland School

Students at Parkland School were given a musical treat last Friday morning when the Clover Park High School Swing Band presented an hour's concert to the student body. Bardon, Jr., directed a girls' quintet in several songs which were very enthusiastically received by the school audience.

The band played several numbers, including "American Patrol," "Crazy Rhythm," "Merry Widow Waltz," "Barnum and Bailey" and "Dark Eyes." A four clarinet quartet composed of four girls played on selection. Donald Shields, former Parkland boy, was one of the saxophone quartet which played "Allegro Concerto."

Also present at the program were Mr. and Mrs. Peter J. Bardon, formerly connected with Pacific Lutheran College.

Totten, Mrs. J. Stanley Dahl and Mrs. Lowell J. Satre as hostesses. A program of vocal solos and piano numbers by Dorothy Satterlie and lullabies sung by Mrs. Philip E. Hauge, accompanied by Mrs. G. J. Malmin was followed by a "baby quiz"; after which Mrs. J. U. Xavier presented Mrs. Hageness with the gifts, speaking on behalf of the gathering present.

Mrs. S. E. Dahl and Mrs. R. S. Dahl poured at a refreshment table beautiful with yellow tapers, daffodils and pussy willows. Small napkins were used with the baby's name "Linda Marie" printed in the corner.

Home Sweet Home

Charles Baumbach, who lives at 802 and Portland avenue, has been host to an unwelcome visitor for several days. A lonesome skunk crawled under his home and has more than established himself. Palatable poisoned food has been offered the wise old beast to no avail. From all indications skunks face a housing shortage too.

EGG CASE SHORTAGE

Save every egg case... if you have a case that is broken and you can't put it in good order, let someone have it who can repair it, urges the USDA. We have never been so short of egg cases, and our need for them is going to be tremendous this spring. To waste an egg case may mean that eggs will be wasted this spring.

Mrs. Julia Herzog Claimed by Death

Mrs. Julia Herzog, mother of Mrs. A. F. Turner, Parkland fourth grade teacher, passed away at 4 p. m. Saturday afternoon at the Tacoma General Hospital after a long illness. Mrs. Herzog came to Tacoma 64 years ago, traveling by train from New York City to San Francisco and coming on to Tacoma by boat. Before her illness, she was living in the home of Mr. and Mrs. A. F. Turner, Rt. 13, Box 155, Tacoma.

Besides her daughter, she is survived by three brothers, Fred Berger, Edward Berger and William Berger of Tacoma and a sister, Mrs. Emma Warter, also of Tacoma. The funeral service was held at Buckley-King, Tuesday afternoon with Rev. Gremes of Faith Lutheran Church officiating. Interment was at the Old Tacoma cemetery.

FARM JOBS TO GO TO VETS

Veterans need not fear that they will be displaced from farm labor jobs during the coming season by imported labor, says Arthur Kulin, supervisor of the emergency farm labor program conducted by the Extension Service of the State College of Washington.

"We have heard a great deal of comment recently as to the availability of and the need for bringing foreign workers into the state this year," says Kulin. Now that the war is over, war industries are closing down and servicemen are returning rapidly, Kulin pointed out in reviewing the labor situation.

"Veterans will not be displaced from farm jobs by foreign workers," the labor head continued. "Our farm labor service is so organized that adjustments can be quickly made moving transported workers from one area to another, from one state to another, or if conditions warrant, cancelling requests for outside assistance."

Kulin pointed out that present surveys of the labor situation indicate that foreign labor will probably be needed again this year for work in areas where local labor is not available or on jobs which local labor will not accept. He cited specifically the need for imported workers in the asparagus harvest in Columbia, Walla Walla, Yakima and Benton counties; in the sugar beet fields of Yakima and Walla Walla counties; in the canning pea areas of the state and in the fruit sections especially during thinning time.

Arrangements are now underway to secure imported labor, as it is needed to insure the harvest at the proper time of the state's crops, Kulin said.
