**Rail Unions Win
40-Hour Work Week**

Sixteen nonoperating rail unions have won their great battle with the nation's major railroads for a genuine 40-hour week at 48 hours pay and, in addition, a seven-cent an hour wage increase for 1,000,000 workers.

Highlights of the new agreement are these:

1. For the first time, the railroad industry, generally, will be put on a 5-day, 40-hour week, beginning Sept. 1, 1949, with time and a half for overtime. Wage rates will be revised so that 48 hours' pay at the going rate will be paid for 40 hours' work.

Wage Rate Retroactive

2. There will be a general 7-

cent hourly pay raise, retroactive to last October 1.

3. There will be some exceptions to the 5-day week for monthly dated employees. Of the monthly-rated employees, those who now work seven days a week will work six days a week will work six days for seven days' pay. Those who worked six days will work five for six days' pay.

4. Another exception to the general five-day week will be the yardmasters. They will remain on a 48-hour week, but will receive a pay raise of ten cents an hour instead of seven cents.

Consecutive Days Off

5. Most of the 1,000,000 workers involved will work a Monday-through-Friday week. Of those who won't, nearly all will have consecutive days off, other than Saturday and Sunday. Only about 50,000 employees will have split days off, or will be permitted to accumulate days off to be taken consecutively later.

The settlement ended 11 months of negotiating, during which a fact-finding board appointed by President Truman sat three times, first as an investigating board and twice later, as mediators, to clarify its own original report.

25.9% Average Increase

The carriers' representatives estimated the reduction in the work-week, superimposed on the retroactive wage increase, will result in an over-all average increase in wage rates per hour of about 25.9 per cent.

Railroad unions have been trying to win the 40-hour week since 1938 when the fair labor standards act gave it to all other industries in interstate commerce.

Veterans Preference Amendment

At this last session of the Legislature, the Veterans preference law was again amended. The main object was to eliminate any preference for Merchant Marine and Army Transport Service.

Profits Hit All-Time High; Wages Trail

American business enjoyed the most favorable profits year in

history in 1948, according to the Wall Street Journal.

Summing up the profit statements for 376 companies, the newspaper reports they earned

over \$5,000,000,000, or 23.8 per cent above the year 1947. Since 1945 profit figures have increased by about 134 per cent despite rising costs during that period about which industrial leaders have complained long and bitterly.

What about wages during this same period?

According to bureau of labor statistics' figures the average weekly wage of factory workers rose from \$44.39 in 1945 to \$53.16 in 1948, or about 20 per cent. At the same time the cost of living for workers went up by one-third. The net result was that in 1948 the average worker was worse off in 1945 by approximately ten per cent.

Thanks A Million!
Tom Casto, chairman of the float committee, wishes to express his sincere appreciation and thanks to the many people whose hard work and untiring effort made possible Parkland's beautiful float in Saturday's daffodil parade. While there are many who assisted in the project, he feels that the following should have mention:

Mr. Grodvig, Bob Olson, Mrs. R. L. Renwick, Mrs. Graham, Mrs. N. Peterson, Mr. Morten, Mrs. Ernie Perault, Mrs. Carl Culton, Mrs. R. Gotschalk, Mel Pedersen, Jack Brown; and especially the following people who put forth that extra effort which is necessary to the success of such a project.
Pete Ellifson, who donated the use of his fine truck on which the float was built; Chuck Goodrich, who cut and mounted all the lettering; Mrs. Iver Johnson, who designed the float and made the daffodil trees; Harry Sharp, who supervised the construction; Emil Johnson, Al Swanson, Al Turner, Allen Hampton and the many members of American Veteran organization, led by Alvin Kamcheff and Mr. Pietrzykowski, who actually built the float.

Also Mrs. H. E. Mobley who took charge of selecting the two princesses for the float; Mr. Curtis and Mr. Beitz, who provided the space for the building and decorating of the float; Mrs. Gasin and Mrs. Harney, who provided crews of Girl Scouts and mothers all day Friday to put on daffodils; Mrs. F. J. Nordyke, who transported the princesses from Tacoma to Puyallup and drove Mr. Gasto around through terrific traffic jams to keep track of the float.
Mrs. Jack Brown, for her work in collecting funds; Mrs. Stella Jacobs, for her advice and flowers for the princesses, and to the merchants who financed the float; Mrs. Ingrid Fynboe and Marla Parker for displaying their beauty in such good taste on the float; David Johnson, who missed two days of work in order to spray the daffodil trees and drive the float in the parade, and Ray Pochel, who went out and rounded up 3,000 daffodils at 10 o'clock Friday night.

FREE \$5.00 In Merchandise
Weekly Contest
Join our weekly contest. Win a merchandise gift of at least \$5 in value, given free every week from one of our advertisers to the person who finds the secret number in their paper and is the first one to call GR 5582. Each week we will stop the press and mark by hand in pen and blue ink ten papers with a secret number. Each paper will have a different number. The papers will then go through the folding machine and their location will be lost to all. So look close. Your paper may have a number on it in ink that will win you a free gift. This week's gift on display at the Summit Lumber Co. Airport and Canyon roads. Last week's winner was F. B. Flemming, Rt. 3, Box 551, Tacoma.
