The breath of Spring evidently is being felt by many, judging from all the stiff backs and green knees. As usual, the first good day we get every early spring sends hundreds of garden-loving individuals outside looking over the plot to raise the vegetables and flowers for the summer. . . . Driving to work the other day I noted one specimen of the male tribe leaning on a shovel, nodding his head in evident approval of a site selected by the female member of the family as the place for the petunias or something to be placed. She was pointing as usual and he, with a weary look on his face, was doing his best at hoping she would decide it was too early anyway to plant anything.

Olympia Doings

I don't like to get too many views expressed here regarding the worsening situation at our state legislature meet in Olympia, but it certainly appears that the situation calls for some sort of focus by the public upon that particular place and the happenings there because it certainly is going to affect our state of being for some time to come.

In the first place, it appears that the main object of the group and especially the pressure groups is to raise more and more money. . . . The state is already so far in the hole it cannot possibly get out without incurring additional expenses, which should be cut instead of increased.

If pressure groups can control the doings of the representatives and senators it certainly should be our own individual policy to voice our complaint as to the unnecessary spending.

The group just unanimously approved an addition to the spending money of Lt. Gov. Vic Meyers. . . . for what? . . . Another vacation in Arizona at our expense? . . . If Vic Meyers can't operate his Arizona office and his Seattle office and his Olympia office on what he makes, and otherwise comes in contact with, it certainly should not be the duty of the people of the state to pay for it. . . . Nor for the senate to vote him extra money.

Meyers himself admitted to the press just last year that he didn't have anything to do anyway, so he might as well go to Arizona. . . . If he doesn't have anything to do, let's give him something to do and cut out another pay check somewhere. . . . because it is obvious that if he doesn't do anything, someone else in the capitol building is going to have to do it. . . . Phooey, it makes me mad.

For March 16 Show

"The Monkey's Paw," a suspense-filled drama, and "And Silently Steal Away," a farce about modern landladies, will be the one-act plays to be presented on Friday, March 16, at the Parkland school.

Sponsored by Parkland's civil defense group, proceeds from these plays will go to the CD medical supplies fund. The Curtain Call club of PLC will produce, direct, stage and act in them.

According to Miss Jean McGregor, drama instructor and club adviser, Margaret Kutz will direct the serious play, with Val Johnson directing the comedy. Howard Worley is stage manager.

The cast for "The Monkey's Paw" includes Frances Biery, Karl Bachner, Glen Werner, John Waldorf and William Finkle.

"And Silently Steal Away" has a cast made up of Dorothy Broomfield, Joan Gardener, Dale Keller and Howard Schull.

On March 17, Saturday, the same duet will be presented for PLC students in the Student Union building, Miss McGregor said.

Fire Permits Needed
For Outdoor Burning

Residents in fire district No. 6 were this week warned by Commissioner Clarence Marsh that the period Feb. 15-Oct. 15 is fire permit season and that it is unlawful to burn outside fires without a permit.

Permits may be obtained by contacting Marsh at the Parkland Barber Shop (on Garfield St.) during the week. He emphasized that permit seekers should bring with them a legal description of the property on which the burning will take place.

Related to fire prevention is his announcement that, beginning April 15, it will be unlawful to throw cigarettes or other burning material from a moving vehicle. Penalties for conviction on such acts carry a \$250 fine and/or 90 days.

GIRL SCOUTS TO BEGIN COOKIE SALE

Beginning this Saturday and continuing until March 10, Girl Scouts will be conducting their annual cookie sale. 2396 registered Girl Scouts and Brownies will be knocking on doors in the Tacoma area.

Led by Mrs. Wilbur Roberts in this area, the proceeds from the cookie sale will go to make improvements at St. Albans camp on Lake Devereaux, and the two established day camps where any girl, whether she is a scout or not, may enjoy the benefits of two weeks' day camping at a very nominal cost.

Delivery of cookies will be on Mar. 15 and 16, with the price set at 40 cents a box. Money will be collected with the order.

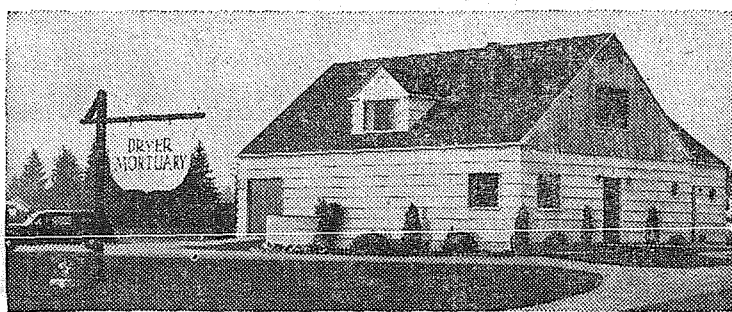

Last year over 51,000 boxes were sold and this year's goal is even higher. Proceeds from the 1950 sale built a winterized cabin at St. Albans which is being used for year-round camping trips by the girls.

Two years ago cookie sale money purchased a new camp truck and two additional Viking boats.

Finley, Justice of the Supreme Court, State of Washington, will address the Kiwanis Club of Parkland Area at their dinner meeting Thursday evening at 6:15 in the church parlors of Trinity Lutheran church, it was announced by Herbert Socolofsky today. SPANAWAY SCH.
SIGNAL GETS
'NO' FROM STATEBusiness Club Talks
Lights, CD at Meet

Street lights and civil defense will be on the agenda at next Monday's meeting of the Spanaway Business club, President Hayden Stewart announced this week.

The business group will discuss the problem of better street lighting, particularly for those off the highway in Spanaway.

Also to be discussed is the Spanaway area map, being "sold" by an enterpriser from South Tacoma. The map will have businesses as well as principal buildings and places located.

According to Stewart, the map will be useful in their civil defense program. He said too that Gus Partridge, county CD coordinator, has approved distribution of these "advertisement maps."

Similar to Parkland's map, Spanaway's, however, will have advertising around the map. They will be distributed free to Spanaway residents, advertising paying for the cost.

Stewart told also of Spanaway's failure to get a traffic signal light in front of the Spanaway school. The club's delegation to Olympia were told by highway officials that push-button type signals near schools were "not satisfactory" and that they were being "misused."

Stewart believed highway officials were receiving "kicks" from motorists on the Parkland school signal, since the Spanaway committee had asked for a signal similar to Parkland's.

GIRL SCOUTS' annual cookie drive begins Feb. 24 and will carry through March 10. Mrs. Wilbur Roberts is chairman of sales in the Parkland district.

Kiwanis Bats for Schools

PROBLEM IS HOW TO RAISE MONEY

While voicing awareness of needs of the schools of the state, Ole H. Olson, chairman of the House appropriations committee, this week wrote the Kiwanis club of the Parkland area that the legislature is confronted with the problem of how to raise the money. Olson asked for suggestions and backing on tax programs.

"The request for increases cannot be granted without making provision for additional income," the Pasco representative wrote.

The letter was in response to a resolution passed by the Kiwanians at their Feb. 15 meeting. The resolution is as follows:

"Whereas, we feel that the future of our public schools is seriously endangered by the lack of funds, and whereas, we feel the studies and proposals as made by the United School Forces are true and correct.

"Therefore, be it resolved that this club go on record as supporting wholeheartedly the program of the United School Forces, and that the secretary of this organization be instructed to forward a copy of this resolution to the chairmen of the educational and appropriations committees of both the House and Senate of our state legislature, requesting that they give full support to the school program."

As yet, there has been no reply from Senator F. Stuart Foster, chairman of the education committee, to whom the Kiwanis letter was addressed.

Representative Olson wrote: "I

County Dimes Honor

Parkland outclassed Tacoma again! In recent months, Parkland snatched top honors with the largest first aid class and the coveted "man of the year" award (won by Don Eastvold) . . . and now, the Parkland school this week was awarded the Certificate of Appreciation for turning in the largest March of Dimes contribution among all schools in the Tacoma-Pierce county area. Tops in the county!

In a letter addressed to Principal Edwin Nelson, Mrs. Blanche Wilkinson, executive secretary of the Tacoma-Pierce county March of Dimes, wrote:

"Your check to the amount of \$605, for the March of Dimes collection of the Parkland school, roused loud cheers of joy in our office. It is very gratifying to have this school maintain its proud place for in the lead of all other city and county schools. . . . our sincere congratulations go to you and all teachers, children and parents who help to make this contribution possible. . . ."

Said Principal Nelson, simply: "We're proud. . . ."

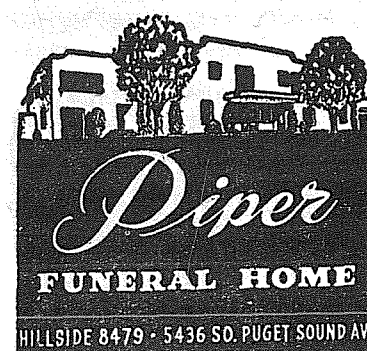

The Certificate reads as follows: "In acknowledgement of outstanding cooperation during the March of Dimes, this testimonial is gratefully awarded to Parkland school. Your unselfish service in the fight against infantile paralysis has brought all of us closer to the day when this dread disease will be unknown to America's children."

"Your efforts have brought immediate aid to those afflicted, and new hope and courage to all those who are working to defeat this great threat to the youth of our nation. The National Foundation for Infantile Paralysis, (signed) Basil O'Connor, president. (Signed) John W. Fishburne, chairman."

Mrs. Wilkinson goes on in her letter to cite the polio cases from the Parkland area this year, particularly of one little boy who required special nurses for some days but made an excellent recovery.

"We hope all who worked on this campaign," she further wrote, "may take pleasure in knowing that they have thereby helped to insure the continuation of the program which promises medical care for the unfortunate victims of poliomyelitis."

"We are indebted to you for this fine contribution to the March of Dimes, and the entire campaign committee joins in thanking you."

ROY A. ROBERTS, president, The Kansas City Star: The real test of brotherhood for any person is in the simple question: How am I living it? What, if anything, does it mean in my daily business and contacts with others? Is it merely a fine sounding word or a way of life?

JOHN H. CRIDER, editor-in-chief, The Boston Herald and Traveler: The world of life and the world of darkness contest bitterly for the minds of men. Not forever can the world be divided, white here, black there. Religion against materialism. Spirit against things. Freedom against tyranny.

CARL M. SAUNDERS, editor, Jackson (Mich.) Citizen Patriot: That is where brotherhood must begin—in the minds of men and women. Superficial surface fraternizing is meaningless. It serves no lasting purpose to gather once a year with arms entwined and to dwell vocally upon the virtues of brotherhood—if what is said and done then ends there.

GROVE PATTERSON, editor-in-chief, The Toledo Blade: We are all in the same boat. We had better be brothers, or what chance have any of us to survive? Without brotherhood, life can well pass out as no more than an interesting incident on a subsequently ruined planet.

THE REV. JOHN LA FARGE, S. J., editor, America: As I see it, it is the time of the year when those of all faiths who honestly and sincerely believe in a Creator, in a moral law and in the fundamentally spiritual philosophy of human life should unite not only to clasp hands but also to maintain those sacred principles in view of the dissolving and disintegrating influence of the modern world.

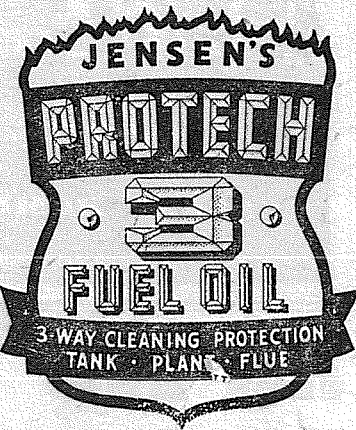

FORREST W. SEYMOUR, chief editorial writer, Des Moines Register: Let us all take the opportunity to step through the mist of prejudice and fear and shallow habit, and see our neighbors for what they truly are—Americans, family groups, humble citizens, as anxious as we for their children and their ideals, as willing as we to sacrifice and share in our common purposes.

When anything needs to be repaired or made run
He alone knows the way that it's done.
Your makeshift methods just make him smile
You explain 'but he shakes his head all the while
You can't drive a tack with the heel of a shoe
And pounding the dashboard won't start the car too!
He patiently tells you exactly why
Your suggestions won't work—so no use to try.

Successful Church Supper

SECRET: PLANNING, DIVIDED WORK

By the Staff of the
SCHOOL OF HOME ECONOMICS
University of Washington

What is it that makes a church supper fun? Is it the food, the place or the people? Perhaps the answer is too multiple to take the time to explain but if you are the committee responsible, it is well to know the secret of its success.

That secret is good planning and divided responsibility. If it is a large affair, organize the group so that one person is general chairman of the supper to coordinate the work of the hospitality chairman, the decorations chairman, the food purchasing chairman, the food preparation chairman, the dining room chairman, and the clean-up chairman.

Menu Is Base

Each of these sub-chairmen will be responsible for his own committee and its work which should also be planned according to the menu and the occasion. Having a general chairman will prevent overlapping of work and will assure that all phases of work are taken care of.

First, plan the menu, keeping in mind the group to be served, the facilities and time for preparation as well as the way in which it is to be served. All other committees use the menu as the basis of operation.

The decorations committee will plan table flowers or other decorations to fit the occasion. They need not be costly. In any case, keep them low on the table. The dining room committee secures necessary linens. The menu is checked for the kinds of dishes to be used and they are listed. If space permits, short tables seating no more than eight are most congenial. Allow two feet of table space per person.

to show waitresses where their section of work is to be and copies of directions for those who are to do the serving. The routing of traffic should be planned so that lines of service do not cross. The marketing committee works closely with the food preparation committee in preparing the market list according to amounts needed. It then can be responsible for obtaining competitive prices and buying in wholesale amounts.

The food preparation committee is usually made up of the best cooks from the group. The chairman should assume the responsibility for providing recipes in the amounts needed. She should plan who is to do what, and when it should be done.

Many people can contribute to the success of the affair and do it willingly and happily. The secret—good planning.

KIWANIS CLUB OF PARKLAND AREA

(Editor's Note: This is another of a series of articles on area organizations, slanted to better acquaint you with these fine groups, their backgrounds, their activities and their purposes for being.)

Kiwanis Club of the Parkland Area is a service organization with "high ideals, worthy objects and challenging objectives." Integrity, faith, industry, vision, thrift and an interest in the other fellow are the accepted fundamentals of Kiwanis.

It all began in this area on April 28, 1949, when 11 men met informally at the Alnor Cafe to discuss the formation of a Kiwanis club.

Those present at that initial meeting were James M. Repp, Morris E. Ford, Dick Williams, Gil O. Rolstad, Reg Ritter, Bill Niesen, Del Bresemann, Iver Johnson, Marv Tommervik, Marv Harshman and Clay Roley.

Roley Railroaded
The second meeting on May 10 was attended by 32 men. At that gathering Ford was elected temporary chairman and Roley was "railroaded" into the job of temporary secretary. Upon the motion of Herb Socolofsky and Earl Loyd, the name "Kiwanis Club of the Parkland Area" was adopted.

After their third meeting, held on May 19, the club really got rolling. Officers elected were: Jack Quill, president; Roley, vice-president; Mel Pedersen, secretary, and Bill Righetti, treasurer. Directors chosen were: E. W. Purdue, Niesen, Harry C. Harrigan, W. L. Swinney, Loyd, Tommervik and Ritter.

Such was the early beginning of this group of representative business and professional men who now, through weekly meetings, enjoy an intimate fellowship and give leadership for the betterment of their community.

Recognized Men

Active members of the KC of PA must be "men of good character and community standing, engaged in recognized lines of business, agricultural, institutional and professional life."

"They must be owners or partners, executives, corporate officers, or managers with administrative duties and discretionary professions for which they have received the recognized standard of education. In addition, they must accept the ideals of the organization and be responsive to its service spirit."

While not discrediting the 1949 officers, the first full year for the KC of PA was 1950. By Jan. 1, 1950, the membership had grown to 43.

Raised \$4,054

Officers for last year were: Roley, president; Quill, immediate past-president; Stan Willis, vice-president; Righetti, treasurer, again, and Roy V. Rostedt, secretary. Directors included: Jack Foster, Herman Fuchs, Purdue, Harrigan, Dr. Harold J. Leraas, Arthur Swindland and Tommervik.

The biggest and most noteworthy accomplishment in 1950 was the sponsorship of the homecoming concert of PLC's famed Choir of the West. Spearheaded by the dynamic Socolofsky, the April 16 affair netted \$4,054, all of which was turned over to President S. C. Eastvold of PLC for the purchase of band uniforms.

While the other projects were smaller dollarwise, they were, nevertheless, carried on with the same spirit of community betterment and with consideration to underprivileged children.

Chew for the Kids

They included such publicized programs as: support to American Legion junior baseball team, school boy patrol picnic, sending boys to Valley Forge, sponsorship of girl scouts and kids day program. Most of these will again be repeated this year.

Another and more continuous money-raising project is the gum machines now distributed at 28 different businesses and institutions in this area. What percentage KC of PA gets from these machines all go towards helping underprivileged children.

Leading the club into its second full year are: Socolofsky, president; Roley, immediate past-president; Foster, vice-president; Carl Taylor, treasurer, and O. J. Stuent, secretary. Directors include: Willis, Ken Jacobs, Rufe Parker, Swinney, Dr. Leraas, Quill and Gunnar Malmin.

Griffin Fuel Operates New Storage Plant

Griffin Fuel Company has just completed and put into operation, a new storage plant at Lake Steilacoom Ave. and Bridgeport Way, in the Lakes district.

Centrally located, the huge oil storage facilities are designed to give all of Tacoma and Pierce county still better service than they have ever known. With the installation of the latest type of pumping and metering equipment, a high point in efficiency is reached.

Locating loading operations in different districts has three distinct advantages: less congestion than where only one loading point is in operation, few trucks in areas of heavy traffic during peak hours, and faster service to those in heavily populated areas away from the center of town.

Couple with the new Lakewood plant, a considerable investment has been made in new trucks. Designed to exacting specifications, with particular attention paid to the ratio of maximum gallons carried with a minimum of truck weight, this completely brand new fleet can give immediate service over any type of roads—regardless of condition.

Commenting on these new advancements within the firm, Ed Griffin said: "Such improvements and installations as we have made are vital to our business. We are equipped now to keep pace with the tremendous growth of this area, which is still in progress. Units of our new fleet are operating at all times—delivering night and day, Sundays and holidays."

How to make good telephone service even better...

Give 'em time to answer

How many times have you answered the telephone just as someone hangs up? You know it's not always possible to get to the telephone the moment it rings. So best way to make sure you get the person you're calling is to give him a full minute to answer.

Good way to stretch your telephone dollar

When you make a Long Distance call, you can get the most for your money if, ahead of time, you make notes of the things you want to talk about. Then, during your call,

jot down the things you want to make sure to remember. With the right planning, you can say as much in a three-minute call as in an exchange of letters. And did you know you can make a three-minute station call, clear across the country, for just \$2.00, plus tax, after six in the evening.

When you take the kinks out

of your telephone cord, you help protect your own service. For too many twists may break some of the tiny wires in the cord, causing you to hear a "frying" noise. Let the receiver unwind by itself... then keep the curls out by remembering not to put a turn in the cord as you handle the receiver.

SPEAKING OF SPORTS

The local boys dropped a 38 to 48 contest last Tuesday to the towering 250th AAA outfit from Fort Lewis. This, their second and departing loss, came in the losers bracket of the Pierce county AAU tourney.

In their opening game, the Merchants tripped the seeded 38th St. club by one point in double overtime. They then went on to cop wins over Madigan personnel and the 6006th

**TRIANGLE BROILER RATION
KRUMBLES**
