

33rd Sangerfest

GRAYS HARBOR
1941

S O U V E N I R P R O G R A M

Thirty-third Sangerfest

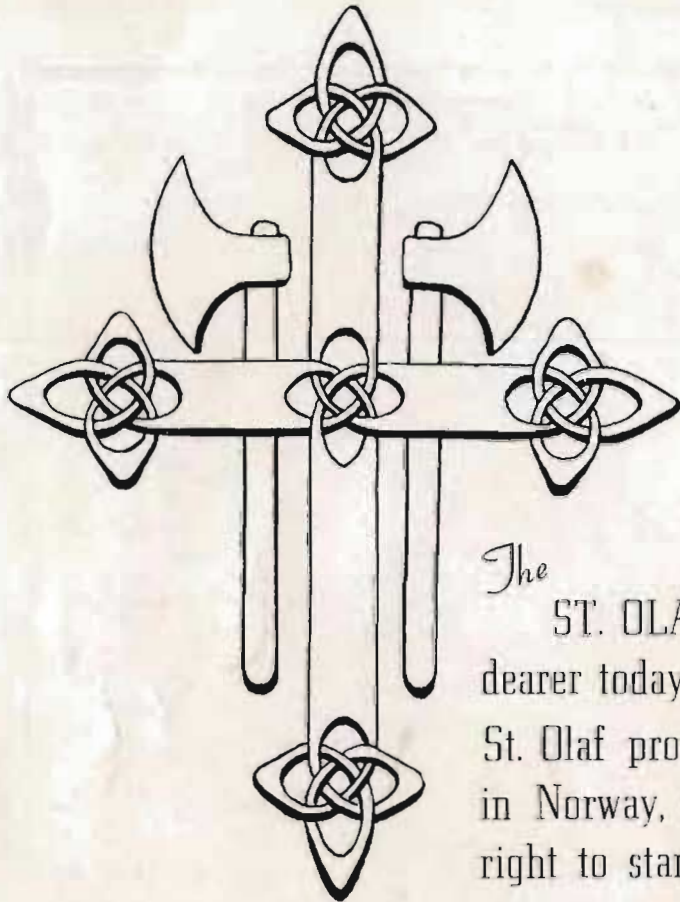

Pacific Coast
Norwegian Singers Association

August 29 - 30 - 31 —

September 1, 1941

Grays Harbor, Washington

The
ST. OLAF CROSS . . . in the midst of comradeship and freedom,
dearer today than ever before, the symbolic insignia of the Order of
St. Olaf prompts us to turn our thoughts to our singing brothers
in Norway, who through ruthless oppression are denied the divine
right to stand together, man to man, and swell their voices in song.

★ In spirit we extend the hand of brotherhood across the waters to
them, bolstering the hope that the day will return when they shall
sing as free men once more . . .

PRESIDENT'S GREETING

I extend to you a most hearty welcome to the 33rd Sangerfest. In the singer's spirit of good fellowship I sincerely hope your participation in this festival will be a happy one. Some of you have attended thirty Sangerfests or more; for others this will be their first experience. One or thirty, you are equally important to your association as a member; to your chorus as a singer; and to your brother in song as a friend. The Pacific Coast Norwegian Singers Association WELCOMES YOU.

THOMAS C. BIRK, *President*
PACIFIC COAST NORWEGIAN SINGERS
ASSOCIATION

Greetings— from Sangerfest Headquarters . . .

MORCK HOTEL

ABERDEEN, WASHINGTON

THE Grieg Male Chorus and Ladies' Auxiliary of Grays Harbor wishes to express its gratitude for the cooperation of the community in making the thirty-third annual Sangerfest a success. They are appreciative of the support of merchants who made this program possible; of the many local citizens who gave freely of time and effort, and of the mediums that publicized the Sangerfest to the general public. All of these things are necessary for the success of any undertaking, and we are truly grateful in our acceptance of them.

Plywood and Payrolls. To see the symbolism between these two one need only to trace back to 1925, when the plywood industry made its humble start on Grays Harbor.

In that era it was an infant venture, almost unnoticed in the noisy lumber industry that was hard put to supply the demand throughout the world. Today on Grays Harbor it has assumed a parity, if not a superiority over the industry from which it sprang so quietly.

For an analysis shows that 63 per cent of the manufacturing cost of plywood is represented by labor. Today hundreds of men, who would be unemployed, due to the dismantling of lumber mills, and the running out of timber stands by many companies, are working in ply-

wood mills, making wages that are higher than any other timber using industry in the world.

Today plywood is playing an ever important part in the world, in home construction, national defense, all phases of building, it has proven its superiority to other materials. And it is still a growing industry, the exploitation of which has only started, the surface only touched. Plywood and payrolls will continue to perpetuate the prosperity of Grays Harbor, whose people have come to respect the "wood with a college education."

The Pacific Coast Norwegian Singers' Association expresses its thanks to the three Grays Harbor Plywood companies whose donation of plywood, money and effort has made this program a possibility.
