FP Battles Flu Bugs

Flu shots will be given beginning next week in the Franklin Pierce schools, according to Mrs. Delores Schmechel, District nurse. Because flu shots give only temporary protection, it is necessary to renew them every year. This year, the vaccine includes six strains instead of the four previously used, so there will be added protection for those receiving the shots.

The immunizations will be given at Harvard and Midland Elementary Schools on the morning of Nov. 7. On Nov. 8 shots will be given at the high school and both Junior High schools.

Central Avenue and Collins Elementary Schools will receive shots on Nov. 13, Parkland and James Sales Elementary Schools on Nov. 14 and Christensen and Brookdale Elementary Schools on Nov. 15.

If the student has a known allergy to eggs, he should not receive the flu immunization, Mrs. Schmechel said.

Civic Group Organizing In Parkland

An organizational meeting for a proposed Parkland Development Association has been called for Thursday, November 7, at Keithley Junior High School at 8 p.m., it was announced this week. Temporary Chairman for the meeting will be Dr. Charles Evans, Parkland dentist.

Evans said this week that the idea of the new organization has stirred a great deal of interest among citizens of the Parkland area.

"This group is forming to bring forth ideas on bettering the Parkland area and to provide the means to attain that betterment," Evans said.

He added that all interested citizens of the Parkland area would be welcomed at the meeting.

Some preliminary ideas on the formation of the proposed association will be brought before those attending the meeting, Evans said.

Citizens Progress Committee Appoints Former Judge Chairman

Floyd V. Hicks Accepts Committee Leadership

Floyd V. Hicks, former superior court judge, prominent attorney and Parkland civic leader, has been appointed chairman of the new Parkland Citizens' Committee for Health and Progress. This organization is being formed to promote passage of the Parkland sewer system revenue bond proposition, to be voted on Nov. 21 by voters in the Parkland Sewer District.

A long-time resident of Parkland, Hicks is past president of the former Parkland Community Club, Parkland Kiwanis Club, Franklin Pierce High School Boosters; he is currently president of the Parkland P.T.A. Hicks was one of the first sewer commissioners elected when Parkland voters approved the formation of the Sewer District in 1954.

System Vital

In accepting chairmanship of the committee, Hicks said, "A modern sanitary sewer system is vital to the urbanized area Parkland has become. Thousands of man hours have been invested by the sewer district commissioners and scores of interested citizens in developing a workable plan for construction of a complete sewer collection and treatment system. No one can honestly deny that much of the Parkland area is in desperate need of sewers to eliminate the presence of dangerous pollution. However, passage of this proposition does not automatically mean sewers in Parkland."

Under State law, construction cannot begin until a Utility Local Improvement District is formed, and property owners have had further opportunity to discuss the issue and approve final assessment. But, a negative vote on November 21 could deny sewer service to Parkland residents who desperately need it and are willing to pay for it.

Hicks said that the committee is in the process of preparing a voters' guide information booklet on the

NEWLY APPOINTED chairman of the new Parkland Citizens' Committee for Health and Progress, Floyd V. Hicks, terms a modern sanitary system "vital" to the area.

proposition which will explain in detail all the facts and answer many questions that have arisen regarding it. He said that passage of the proposition on Nov. 21 would mean that the Parkland Sewer District can take advantage of a \$250,000 federal grant to aid in financing of the project. Rejection of the proposition, Hicks added, cancels availability forever of the federal grant to Parkland.

"Sooner or later Parkland must install a modern sanitary sewer system," Hicks said. "The time for action is now — before construction costs become prohibitive and before a major health problem arises."

Parents Back At Morris E. Ford

Wednesday, November 6th, is "Back to School Night" for parents of students attending Morris E. Ford Junior High School.

Rowland Puyallup Will Vote On School Issues

DAVID D. ROWLAND, Branch Manager of the newly opened Tacoma Savings and Loan branch in Parkland was host at the ribbon cutting ceremonies which officially opened the firm last week.

The decision to provide adequate facilities for boys and girls in the Puyallup Schools or to face double shifting in some schools in 1965 will be made by voters in the special school election Tuesday, November 5.

The opportunity is given to build two new elementary schools through passage of Proposition I and to provide materials, transportation and qualified staffs through Proposition II.

The two propositions are (1) an \$800,000 bond issue for the local share of constructing two new elementary schools in areas of greatest population trend, to purchase sites, and to equip the buildings and (2) a \$330,000 millage levy for current operations.

Women Voters Seek To Form Parkland Unit

The League of Women Voters will sponsor a coffee at the home of Mrs. J. J. Erickson, 616 S. 117th, Tuesday, November 5, at 10 a.m. Purpose of the meeting will be to form a Parkland unit of the league.

Thirty-five local women have been invited to attend the meeting which will also welcome any woman over 21 who is interested in learning more about the group's work.

Purpose of the non-partisan organization for women interested in governmental and political activities is to study items of current interest. After a two year study of any item, the group then takes action, if it is decided action is possible and necessary. Currently they are studying financing of five local school districts, Franklin Pierce, among them.

Says Park Road Closes In Storms

Acting Superintendent J. Leonard Volz announced this week that motorists planning on taking trips through the Park via the Stevens Canyon Road should check with Park Ranger Stations if storms are in progress. There has already been snow at the higher elevations and this road is closed by winter snows about November 1. However, sudden and severe snowstorms can hasten this date. In the meantime, motorists are cautioned to have tire chains with them at all times if planning a trip to or through the Park.

Graham Guild Sponsors Feed, Bazaar Sunday

The Gloria Motycka Orthopedic Guild is holding their Annual Smorgasbord and Bazaar Sunday, November 3 beginning at 12:30 p.m. at the Grange Hall in Graham.

It will feature turkey, ham, salmon, and all the other good things that go with a Smorgasbord. The Bazaar will feature things for Christmas. There will also be a hair dryer, bathroom chrome shelf, and a basket of linens (a good many of which are home made).

Mrs. Fern Talmadge is Chairman of this affair with Mrs. Laurence Anderson as Co-chairman. Mrs. Alma O'Neil is in charge of the Bazaar. All proceeds from this event will go to the Mary Bridge Children's Hospital.

Open Letter To Sewer Commissioners

Open Letter to The Parkland Sewer Commissioners:

On Feb. 28th of this year Mr. Armstrong gave us the figure of \$6,332.28 as engineering costs against the sewer district. In the Tacoma News-Tribune of Sept. 18th he is quoted as saying the district is indebted to the amount of \$16,000.00. May we please have an explanation of the difference. May we also have a broken down cost analysis of all bills against the sewer district and the dates on which they occurred?

We realize that we have past election costs of about \$2100.00, and that the coming special election will cost between \$400.00 and \$450.00 but this does not explain the difference mentioned above.

I would also like to know if the district can be committed to indebtedness by the commissioners when no funds have ever been voted. W. C. Gregory

Bethel Will Have Dance

All Bethel Senior High alumni are invited to attend the Homecoming Dance, Friday, November 1, after the Bethel - Fife football game. Royalty for the homecoming dance are: Carol Martinson, queen; Gloria Gray, senior attendant; and Terry Simmons, sophomore attendant.

Off The Editor's Desk

People who ought to know, report that animals sometimes get nervous breakdowns from associating with people. This does not surprise your editor, who is certain that editors often get the same reaction from associating with copy that comes over the counter from well-meaning contributors.

For instance, the editor was editing for some six months at the Times Journal before she became thoroughly familiar with the fact that the word "Bingo" ought to be spelled with only four letters because in the eyes of the postal authorities its a four-letter word. In fact, some postal authorities have spelled out the fact that "bingo" by any other name such as "games night", "party night", "social evening", or "entertainment time" still spells bingo and that constitutes a lottery! Said lottery announcements will not — repeat, — will NOT be sent through the mails.

From time to time, contributors as innocent as the editor of intentional wrong-doing have slipped in their organization's plans for committing lottery. The local postmasters can read (and apparently enjoy) the Times Journal, too. Now that we are all aware of the situation, everybody will understand if those blue words don't see the light of print in the Times Journal again. We AGREE that the mails must go through!

Dryers Hold Open House Hallowe'en

Dryer Mortuary is looking forward to the visit of about a thousand spooks, goblins and witches of various sizes this Hallowe'en. They will all be welcomed with a gift of a big cotton candy cone which seems to be favorite goblin fare. Trav, Florence and Gerry Dryer are prepared for the biggest visitation yet on this 14th Hallowe'en since they first started this interesting annual affair. They are anticipating the usual delightful reactions of all the new crop of little goblins and ghosts who are on their first tour through the establishment.

Earlier Eagles

WHEN IS A GOOF NOT A GOOF? The Times Journal ed prefers to think it's when young Monty Critchley was called the first of his Boy Scout Troop 34 to make Eagle Scout in the troop's history. He is — in the history of the troops sponsorship by the Spanaway Methodist Men. However, way, way back, in 1927 for instance, Leonard Rigby got that coveted bird. In 1928 the five salwats shown above all became Eagle Scouts. They are: Ken Miller, Assistant Scout Master; Edwin C. Cruzan Sr. (who gave us this information); Scout Master Leonard Rigby;

Chester Rasmussen, and James Frame. A check with Scout Headquarters stated some historical research and revealed the fact that a troop 34 has changed sponsorships now and then and records are not always readily available — they researched the warehouse for that tidbit. In their more recent files they found Keith Sweeney made it in 1936 and Robert Bradshaw became an Eagle in 1946. However, it's a rare honor and Scouts, sponsors, families and friends are all proud of the few who make the grade.

Navy College Program For Young Men Outlined

High school seniors and graduates have until November 22 to apply for the Navy's Reserve Officer Training Corps. Applicants will take the nationwide competitive examination on December 14 as the first step toward an appointment as midshipman. Designed to supplement the officer output of the Naval Academy, the NROTC program makes it possible for a young man to earn a regular commission while studying at one of the 52 civilian colleges which has a NROTC unit. All tuition, fees and books are furnished by the Navy, and the student receives a retainer of \$50.00 per month for not more than four years. During the summers the student goes on training cruises to many parts of the world. After completing a four year college course, he is commissioned in the Regular Navy or Marine Corps and goes on active duty as a career officer in the Naval service. He receives the same promotional opportunities, duty assignments and benefits as Naval Academy graduates.

High school seniors and graduates who will be at least 17 but not 21 years of age on 30 June 1964 may apply for the Navy College Aptitude Test. Those who make a qualifying score will be given a thorough physical examination in January and February 1964. From the number of qualified young men remaining in competition, approximately 2,000 will be selected to begin their naval careers in college next September. Application forms are available at local high schools, and Navy Recruiting Stations or from the Chief of Naval Personnel, Department of the Navy, Washington 25, D.C.

Included in the complete film depiction of the life of Christ now being shown by the Church, "Challenge of Faith" shows John the Baptist as he is secretly visited in prison by friends: Jesus, with his first four disciples, renewing friendships with old fishing companions, and Jesus inviting Matthew to become a disciple. It closes with the dramatic healing of a paralytic, let down through the roof of Peter's house.

Fisher is renting the old barn at the B&B where he will be breaking and training horses. George H. Beeson, owner for sixteen years, is still operating as a boarding and riding stable and is now starting an English Riding Club for the purpose of forming a cavalry drill team. The club will require 32 members in order to form the team.

a - Wandering and a - Wandering ...

With **JACK BROWN**

I have a friend down in Petaluma, California, who has been flying for over 28 years now, has totaled up over 16,000 accident-free flying hours, and went through one war as a pilot and came out without a scratch.

Had a note from him this past week. You may have guessed. He fell off a ladder, spent ten days in the hospital and will be wearing a cast for months.

Throughout the country airport managers are advertising that the only dangerous thing about learning to fly is the drive from home to the airport. . . . and I agree.

Speaking of that, if you think aviation isn't on the upswing in the U.S., listen to this. The FAA has just announced that there are 347 new airports in the U.S. over this same time last year.

Few of you probably know it, but, (to quote Editor & Publisher) "The U. S. Government has entered the business of collecting and disseminating news in competition with private news agencies."

The arm of the government involved in this unorthodox and unprecedented enterprise is the Department of Agriculture. On the first of August, it inaugurated a marketing news service over a national leased wire teletype network. The significance of that is found in a protest filed by the American Newspaper Publishers Association with the Federal Communications Commission: Quote. "An expansion of this concept would result in a government-controlled news service such as presently exists in some other countries including the Soviet Union, where the so-called news service Tass is government-owned and operated." The FCC answered that it was without jurisdiction, and the matter has been passed on to the Secretary of Agriculture. Now do you begin to catch the odor?

Whatever the final result, the very real dangers inherent in this step should be clearly understood. To quote Editor & Publisher once more: "A government, or official, news agency is the last thing we want in this country. It could lead to attempts by other government agencies to enter the same area and this particular endeavor would put the government in the censorship business in an odious form."

If you think those words are too strong, a statement by the Department of Agriculture itself should resolve your doubts. It "reserves the right to cancel at any time the connection of any and all subscribers who abuse the service by misrepresentation of reports, or for any other reason when, in its sole judgment, such cancellation is desirable." That can mean only one thing—a user of the service is warned to go along with the Department of Agriculture line, whatever it may be, or be prepared for punishment. This is no laughing or shrug-it-off matter.

If government is to disseminate news, what power would be left to prevent government from doctoring and warping news as it sees fit?

Every American should vigorously protest this action. Get off your duffs and help resolve this problem or face the inevitable. You may not live to become one, but if these tactics are allowed to continue it's a lead pipe cinch your children and their children will become but a number. Personally I'd like to think that mine will continue to live in this land like people, retaining the very freedoms so many of us fought for.

Our Allies really love us. Just listen to their moan: Yank, go home, get out of here, And leave us a LOAN!

WALT STANGER, Summit View businessman, poses with the mammoth moose head he brought back from a hunting trip, October 9 to Euchiniko Lake, B.C., 132 miles west of Quesnel. Stanger and J. C. Whidden, local businessman, both got their game which weighed between 1300 and 1650 pounds and were among the first five taken in the area this year. Whidden's moose was taken from horseback and Stanger's was shot from a boat.

Cards Downed In Spite Of Tough Fight

By *Georgia Steele*
A spirited Cardinal team harassed Clover Park Friday when the Warriors defeated Franklin Pierce six to nothing.

The Cards held strong throughout the first half but the Warriors broke through for a touchdown late in the third quarter. However, the Cards stopped Clover Park cold when they tried to run it for the extra point.

Although the Cardinals played their best game of the season so far, Clover Park couldn't be beaten and should be in the running for league championship.

Ed Imhoff, quarterback, played a fine game in both runs and passes. Tom Brunton, fullback, and Dick Chambers, halfback, both gained good yardage and kept the Cards out of trouble several times with their tackles.

Also outstanding in the tackle department were Rich Houk, Bruce Harding and Walt Kruckenburg with Randy Lumsden making some fine yardage.

The F.P. band and pep staff made a big half-time hit with "A Salute to Vaudeville."

To Avoid The Rush

A HEAD START on Holiday shopping for candles, aprons, dolls, doll clothes, decorations and even fancy fly swatters can be had at the Summit Methodist Church's annual bazaar Friday and Saturday, November 1 and 2 from 10 a.m. to 6 p.m. The creative young can decorate their

own cookies and have a drink of juice when they eat them. Bigger appetites can indulge in hot strawberry waffles, donuts, cake and coffee and for the real meal seekers, there will be casseroles and salads available. Members above show samples of the good things for sale.

Finger-Licking Good Peanut Butter & Jelly Buns

Here's a treat that no man or boy can resist. Made with a peanut-butter-and-jelly filling, these lighthearted tender buns are perfect for breakfast, after school or late evening snacks. Try these delicious, easy-to-bake buns soon!

Peanut Butter & Jelly Buns (makes 24 buns)

- 1/2 cup milk
- 1/2 cup sugar
- 1-1/2 teaspoons salt
- 1/4 cup (1/2 stick) Blue Bonnet Margarine
- 2 pkgs. Fleischmann's Active Dry Yeast
- 1/2 cup warm water (105-115 F.)
- 2 eggs, beaten
- 4-1/2 cups unsifted flour (about)
- 6 tbsps. Blue Bonnet Margarine, softened
- 3/4 cup Planters Creamy Peanut Butter
- 3/4 cup strawberry jelly, jam or preserves

Scald milk; stir in sugar, salt, 1/4 cup margarine. Cool to lukewarm. Dissolve yeast in warm water. Add milk mixture, eggs, half the flour. Beat until smooth. Mix in enough flour to make a soft dough. On floured board knead dough until smooth and elastic, about 8 minutes.

Place dough in greased bowl, turning to grease top. Cover; let rise in warm draft-free place until doubled, about 1 hour. Punch down, turn onto floured board; divide in half.

Combine six tablespoons softened margarine with the creamy peanut butter. Mix well until smooth. Roll half the dough into 16" x 12" rectangle. Spread with half the peanut butter mixture. Spread with half the strawberry jelly. Roll up from 12" side; seal seams.

Cut 12 one-inch slices; place in greased 9" square pan, cut side up. Repeat with rest of dough and filling. Cover; let rise in warm draft-free place until doubled, about 1 hour. Bake at 375 F., 20 minutes or until done.

SPORTS FANS

Each year more than 100 million fans watch or take part in sports. They get hurt by foul balls, flying pucks and the like. Many of them get no damages from the show owner or promoter, for the fan may voluntarily assume the risk of injury.

There are, however, some risks that the fan does not assume. These are occurrences not a necessary part of the sporting event or risks from which the promoter should reasonably protect the spectator. Thus, protective walls for auto racing, screens behind home plate at baseball games, or rules for the conduct of participants.

Of late, the injured participant of the sport has raised some new problems. In golf, for instance, bad shots occasionally do injury. The person hitting a golf ball has two duties: To make sure that no one is exposed to an unreasonable risk of being within the area of play to which the golfer is playing, and, if necessary, to give a loud warning to anyone who may be affected. The call of "fore" may be required either before or after the shot. If he abides by these rules, usually he has no liability for the ball or club that hits someone, even tho the ball "hooked" or "sliced" in the wrong direction.

As a general rule, participants and spectators, by entering into the area of the sports activities are accepting certain obvious risks. But they do not accept any acts of misconduct or misjudgment not inherent in the conduct of the sport event. Thus, a foul ball which causes an injury during the course of a baseball game does not give rise to a right to recover damages, but a ball deliberately hit into the stands during practice probably would entitle the spectator to a recovery.

The sports injury rules apply to strange events: In one rolling pin throwing contest, a pin went awry and knocked out a nearby spec-

tator. No recovery: It was an obvious risk that he undertook in standing within the range of the flying pins. In another case, contestants tried to see who could catch a hen. Some eager henchcatchers pushed a spectator and a participant through a plate glass window. No financial recovery.

In sporting events there may be noise, physical commotion and flying objects. The timid had better step back.

continued, "that this bloody weekend was not something that merely happened by chance—every one of the accidents was caused by the violation of our traffic laws." This same thing is true of literally all accidents. Rarely can the real cause of an accident be traced to the fault of the car—even then, it will be found in the majority of cases that the driver failed to take proper care of his automobile, he pointed out.

Also, the traditional tug-of-war between the boys of the freshmen and sophomore classes will be held. **Grid Clash** At 1:30 p.m. the PLU football team will renew its traditional rivalry with UPS in a contest set for Lincoln Bowl.
