Out-Of-This-World Colors Brighten Your Feet

By Martha and Bob Wanger

Moon dust, pyrite, fireball! Out-of-this-world colors go right down to the soles of your shoes. This year, American shoe designers have literally gone to the moon for their ideas.

For years, European footwear designers have led the industry in styling but now the pendulum is swinging back and American footwear is the vanguard of colorful, new foot fashions. Innovative manufacturing techniques allow American designers more freedom for imagination. And since Americans consider footwear such an important part of an overall ensemble look, designers here give much thought to the whole shoe, from the uppers and linings to the soles.

One manufacturer, Bearfoot Corporation, has color-matched its cellular crepe soles to leather and fabric and wearing apparel. The colored soles blends with the upper and the entire ensemble to give the wearer an attractive, fashion-wise appearance.

Smart, well-dressed consumers know what they want in shoe styling and quality and American footwear designers and manufacturers are giving them just that.

Hi/Low Ranges Set The Pace In Modern Electric Cooking

An attractive addition to any kitchen is this 30-inch double-oven electric range with self-cleaning master oven.

Two stylish Hi/Low electric ranges with pyrolytic self-cleaning master ovens are featured in Hotpoint's 1970 appliance line.

Both ranges have full-width opaque black glass windows in the upper oven which become "see-through" when the oven light is turned on. There also are window doors on the master oven.

Among the many convenience features of these new ranges are infinite-heat rotary surface unit controls which permit selection of an unlimited variety of heats to serve all cooking needs, timed and standard appliance outlets, two high-speed surface units, a rimmed, no-drip cooktop, and a two-level built-in exhaust system which removes vapor and cooking odor from the kitchen.

Also standard are removable trim rings, and new reflector pans which can now be cleaned simultaneously in the self-

cleaning oven. The more deluxe of the new Hi/Low ranges (model RHV-786) has some extra-special features to make life easier for the homemaker. The oven panels in the eye level oven can be removed and cleaned in the self-cleaning lower master oven, and there is a Rota-Grill rotisserie which cooks meat up to one-third faster than by roasting.

A meat thermometer in the master oven alerts the homemaker when her roast has reached the desired degree of "doneness," while a Supermatic 3-in-1 surface unit adapts itself to just about any size pan.

Hotpoint, the oldest name in electric cooking, also offers two Hi/Low models with conventional ovens, and two high-oven only models.

All six models are available in Avocado, Coppertone, Harvest and White.

Love Is A Fresh Fruit Pie

Tulips were love symbols in old hex signs, so use their outlines to trim the crust on the season's first fresh fruit pie. This deep-dish version combines strawberries and rhubarb, their delicate juices thickened to just the right degree with Minute Tapioca.

Strawberry-Rhubarb Deep-Dish Pie

1 1/2 cups sugar	2 cups fresh strawberry halves
3 tablespoons quick-cooking tapioca	2 tablespoons butter
1/4 teaspoon salt	Pastry for 1-crust pie
2 cups 1-inch pieces fresh rhubarb	

Combine sugar, tapioca, salt, and fruits. Pour into an 8-inch square baking dish. Dot with butter. Let stand about 15 minutes. Meanwhile, roll out pastry very thin (less than 1/8 inch thick). Cut several 2-inch slits or a design near center. Place pastry over filling. Open slits to permit escape of steam. Trim pastry, letting it extend 1/2 inch over edge of dish. Fold pastry under and press onto edge. Bake at 425° for 45 to 50 minutes, or until syrup boils with heavy bubbles that do not burst.

Legal Notices

IN THE SUPERIOR COURT OF THE STATE OF WASHINGTON DEPARTMENT OF WATER RESOURCES OLYMPIA
NOTICE OF GROUND WATER RIGHT APPLICATION NO. 10747 TAKE NOTICE:
That PARKLAND LIGHT & WATER CO. of Tacoma, Washington on March 30, 1970, filed application for permit to withdraw public ground waters through a well situated within Christopher Mahon D.L.C. No. 48 of Section 22, Township 29 N., Range 3 E.W.M., in Pierce County, in the amount of 2,000 gallons per minute, subject to existing rights continuously, each year for the purpose of municipal supply.
Any objections must be accompanied by a two dollar (\$2.00) recording fee and filed with the Department of Water Resources within thirty (30) days from April 30, 1970.
Witness my hand and official seal this 14th day of April, 1970.
GLEN H. FIELDER
Assistant Director
Division of Water Management
Department of Water Resources
