## Painting Displayed Community Airfield Group Re-elects Wes Hanson

REV. ANDREW VASHON, S. J., right, points out some of the detail in his painting, "Creation" to A. G. "Art" Swindland, manager of the Parkland Branch of the National Bank of Washington. Three of Father Vashon's paintings have been exhibited at the bank for the past few months. Father Vashon is at present chaplain at Marymount Military Academy. His works are well-known throughout the art world. —Times Journal Photo

Members of the Shady Acres Airport, Inc. Flying Community met last Tuesday evening at the offices of Harold LeMay Enterprises in Parkland. This was the annual meeting for the group to elect new officers for the coming year.

Re-elected to post of President was Wes Hanson with Ruth Abbott also being re-elected to the post of Sec. Treas. Ralph (Flying with Slim) Lawson was elected Vice-President.

Future plans for the airport were discussed and it was voted that steps be taken immediately to obtain material to light the runway for night use. This would provide the flying public with an auxiliary field for night use and in some cases of inclement weather could forestall a trip across the mountains to land.

The flying community is fast beginning to take shape. The airport in itself is one of the finest private owned strip in the northwest and an asset to the entire country. One new home has been constructed with others on the drawing board. Two members of the organization are presently living on the airport in trailers.

At the meeting it was also voted that a sign be erected on the south end of the runway marking the Flying Community for those who drive out to see it.

The Shady Acres airport has already played an important role in northwest flying with several non-local planes using the field when others were socked in with fog.

It might interest the non-flyers to note similar projects are now underway at Port Orchard, Anacortes, Auburn, Olympia and in the San Juans making a total of eight flying communities now being developed here on the west coast. Also of interest is the fact that Pierce County alone now has 21 airports in use plus the new Tacoma Airport soon to open.

## Parkland Legion Auxiliary Again Wins Poppy Trophy

The Helene Linder trophy was presented to the Auxiliary of American Legion Post 228 at the first meeting of the council held at Ingham's Cafe on January 7. The trophy has been in possession of the Parkland unit since

the 1958-59 season. The trophy is presented to the unit selling the biggest percentage of poppies to membership.

On Saturday, January 12, a dinner was held in Seattle to honor the National Auxiliary vice-president.

The unit acted as hostess at the American Lake hospitality lounge on January 13. Helen Jensen was in charge. President Gladys Lawson appointed Marjorie Smith sergeant-at-arms for the remainder of the year since Beth Felt was married and moved to Wyoming.

The unit welcomed Marjorie Smith and her daughters, Linda and Cynthia, at the last meeting. Bev Galbraith was also present.

Past President will meet at Richards Cafe on Wednesday, January 16.

There will be no meeting on January 24, as the Post and Auxiliary are going to Lacey for initiation of new members. Members needing rides should call S. Kittleson, LE 7-5505.

Initiation for Post 228 members will be held at Sunshine Hall, February 14. Those wishing to be initiated at this time should contact Jim Jensen.

Members of the unit are glad to see Al Macy out of the hospital, but we learned that G. O. Griffith is in Doctor's Hospital.

## Boosters In Fund Project

The Bethel Booster Club has started promotion of several projects with the intention of obtaining the means to construct a new covered grandstand on the athletic field. The proposed stands will seat about 1000 persons. A ticket sale begins this voluntary project, one of several money raising ideas the club is considering.

## Chosen For AF School

Lackland AFB, Texas — Airman Basic Douglas R. Hudson, son of Mr. and Mrs. Paul R. Hudson, Rt. 2, Spanaway, Wash., has been selected to attend the United States Air Force technical training course for air policemen here.

He is a 1962 graduate of Bethel High School.

## Reunion Set For '58 Grads

All the class has been located with the exception of these four people: Dorothy Atkins, Pat Ferguson, DeWitt Hoag, and Robert Vorak. If anyone knows where they may be located, please contact Mrs. John McGee, VI 7-7288 or Mrs. Hughlan Vance, SK 9-2393.

All graduates and others who were in school with this class are invited and may receive further details by contacting Mrs. McGee or Mrs. Vance at the above numbers.

## New Officers

New officers of the Summit Fire Department will be installed on Saturday evening at the Summit View Hall.

Ted Hanstad will be installed as president. Other officers are Harold Bender, vice-president; Frank Walley, secretary; and Larry Kerwin, treasurer.

Installation for the Ladies Auxiliary will be held at the same meeting with Mrs. Kenneth Hoff taking over as president; Mrs. Lyle Winsley, vice-president; Mrs. Edna Strampher, secretary, and Mrs. Burton Parrot, treasurer.

## Parkland Fire Losses Down 50% For Year

Fire losses in the Parkland area were down some 50 per cent from 1961, figures in the annual report showed this week.

Where 1961 losses were over \$41,000, the 1962 losses were

found to be \$18,301. The number of fire calls also dropped from 211 to 177 in 1962.

Fire Chief Bud Larsen stated that the remarkable improvement could be attributed in part to the increased fire prevention program of the department and the willingness of the people of the district to keep fire-causing circumstances from arising.

Larsen expressed the thanks of all the members of the department to the residents of the district for helping to keep the losses down. He added that 1963 could be even better with the same kind of cooperation that has been shown.

Fire department members are always willing to answer questions concerning fire safety, Larsen added. He said a call to the fire station at LE 7-8530 would get the answer to most questions.

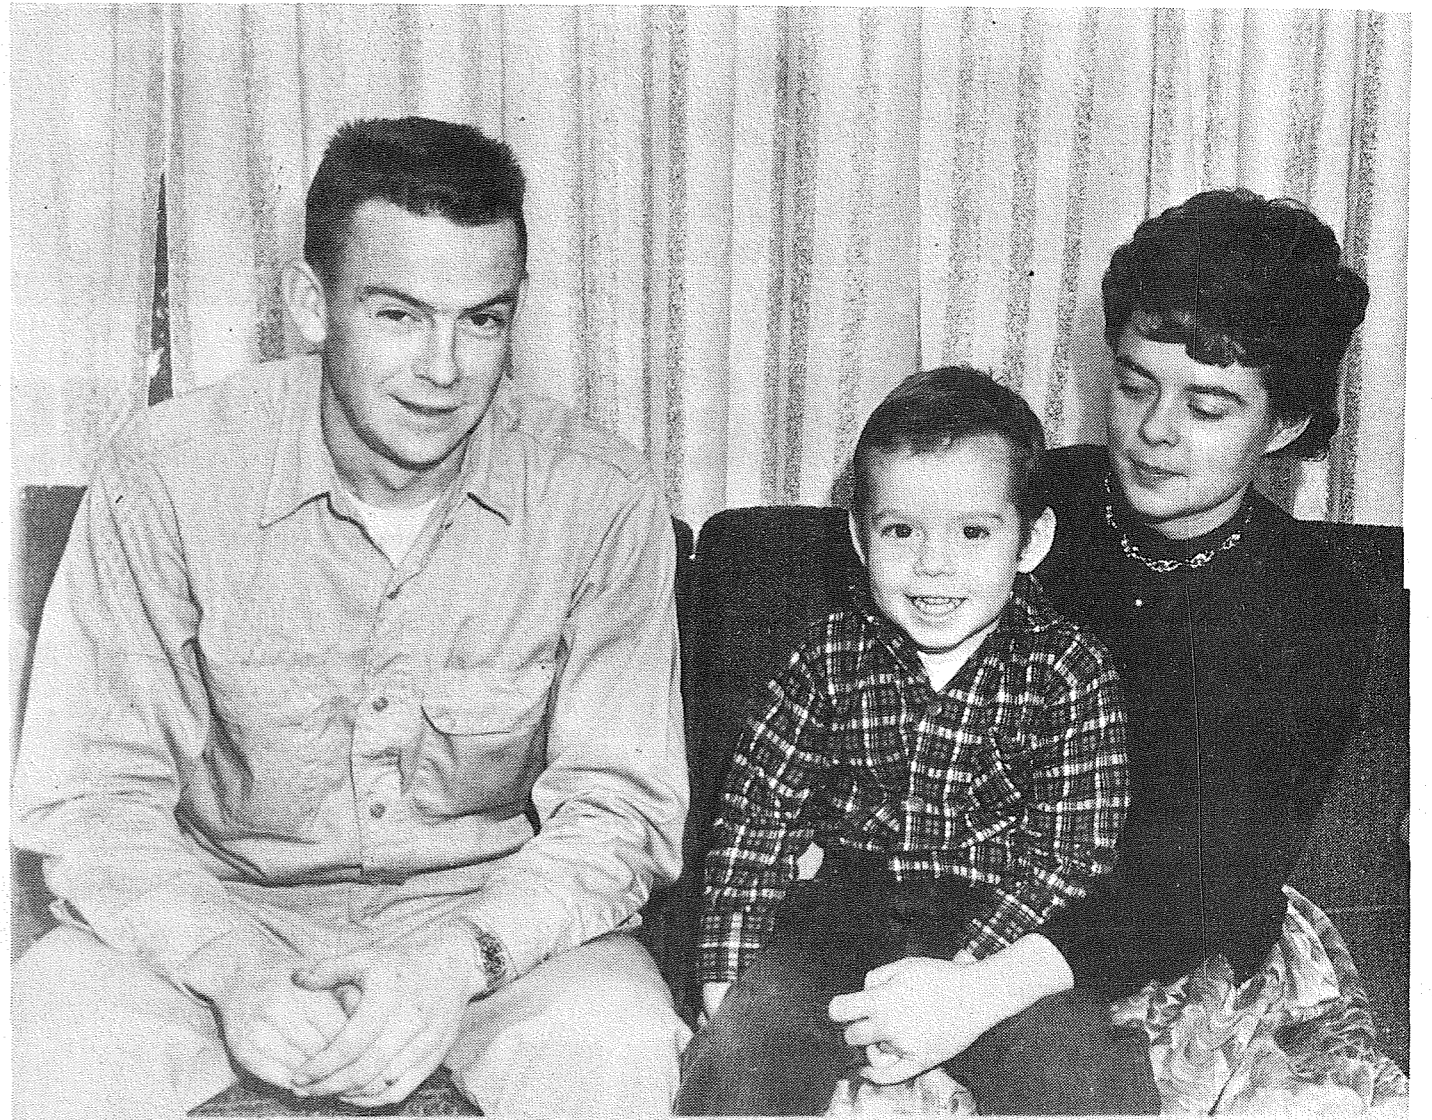

## Gibson Promoted

A. G. "Art" Swindland, vice president and manager of the Parkland Branch of National Bank of Washington, has announced the election of John L. Gibson as assistant cashier at that office.

Gibson attended the Banking School of Ohio, and is now completing the necessary credits for his B.A. in Business Administration at Pacific Lutheran University's night school.

He and his wife, Barbara, with their three children, live at 1919 East 99 Street.

## Blood Donors Needed For Tot

ROBERT LANCE LaFORCE, not quite five years old, smiles at the world as if he didn't have a care. His parents, Mr. and Mrs. Robert LaForce, of Parkland, are for blood donors to replace the 25 pints which will be used during the operation. Hospital for the correction of a defect in his heart. Friends and the Times Journal are issuing an appeal for blood donors to replace the 25 pints which will be used during the operation. —Times Journal Photo

## Special Meets

A special meeting at the Weyerhaeuser School gym has been scheduled to consider extending fire district coverage to include the few families in the area who have no protection at present.

The meeting is being sponsored by the Country Gals Homemakers Club. The meeting will take place January 24 at 7:30 p.m.

The Bethel School Board will hold a special meeting on Thursday, January 17, at 8 p.m. in the high school library to open bids on the proposed high school addition.

## Parkland Boy Will Undergo Open Heart Surgery Soon

### Panel Planned For P-TA Meet

The Christsiansen P-TA will meet on January 16 in the multi-purpose room of the school at 8 p.m.

The program will be on Parent-Teacher relationships, with a panel of parents and teachers participating.

A rummage sale has been set beginning at 1 p.m. until the close of the meeting that day in the multi-purpose room. All parents are urged to attend the meeting.

Take a small boy, born with a heart defect, several doctors, the operating room at Mary Bridge Children's Hospital and circle the date, February 12, and the people of Parkland and Spanaway have a chance to do a fine service for a local family.

The drama, as real as any you'll see on television, will be played on the above date, but the one missing ingredient so far is blood.

In order to accomplish the task they have set for themselves, the doctors will need 25 pints of blood.

Robert Lance LaForce will

be five years old on February 27. He was born with a dime-sized hole in his heart which gives a very small chance of living beyond his 12th year unless something is done to repair the damage.

Doctors have told his parents, Mr. and Mrs. Robert LaForce, that the boy has a good chance of coming thru the operation in good condition. So they have gone ahead and scheduled the operation.

The blood is needed during the operation and this is where the people of this area can come to the rescue. The family has a start on obtaining the blood, but since they are relative newcomers to the area, they don't have much of a credit built up and their friends are still too few to donate the whole amount.

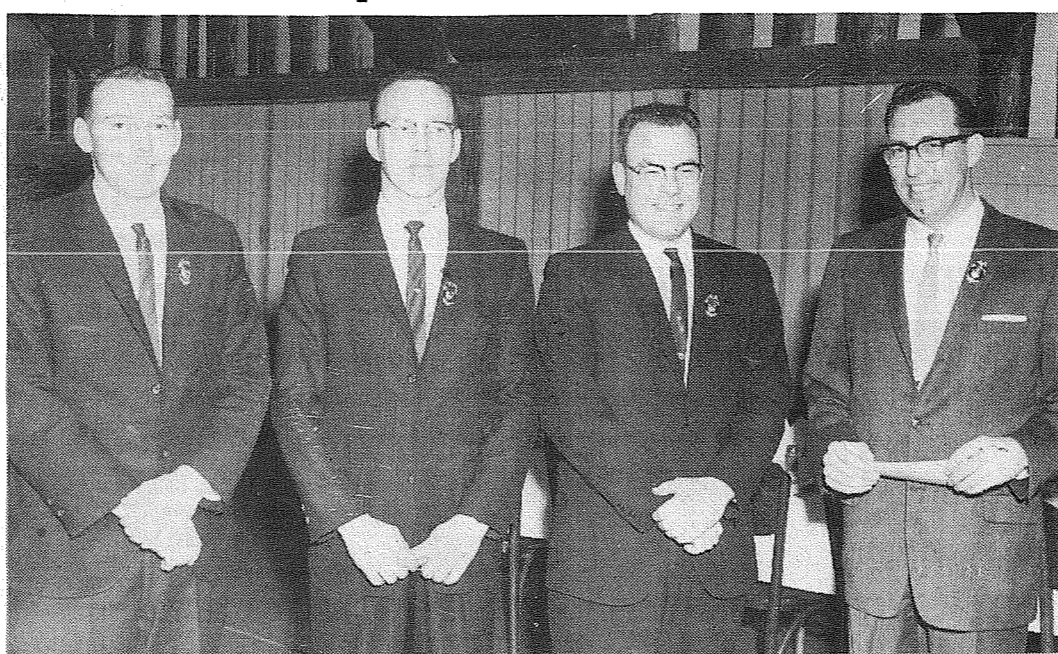

Blood donors are needed to give blood to the credit of Robert Lance LaForce at the Pierce County Blood Bank.

## Evening Rec Program Slated

The Pierce County Park Department, in cooperation with the Franklin Pierce School District will sponsor an evening recreation program for the men in the Franklin Pierce District. Activities will get underway Monday, 8:15 until 10 p.m. Volleyball, basketball, tumbling and the trampolining program will be open to everyone in the district.

Bob Ross will be the recreation leader.

## Fire Department Officers

RECENTLY INSTALLED OFFICERS of the Spanaway and Elk Plain Fire Departments posed recently at their installation at the Firs. In the top photo, Spanaway officers are: left to right, Gerald McCullough, treasurer; Dan Kelly, secretary; Richard Sacco,

vice-president, and John Todd, president. In the lower photo, Elk Plain officers are: Connie Lawson, treasurer; Bill Clark, secretary; Donald Rosenberry, vice-president, and Robert Landgrebe, president.

The next meeting of the club will be Saturday, January 19th at the Youth Center from 2 to 4 p.m. At the meeting a nomination committee will be chosen and plans furthered for the dance.

**Youth Center Report**  
A calculation of the number of people who attended meetings, parties, and dances at the Youth Center has been made available through the concern of Bill Rave.

During 1962, 441 organized activities were held at the Center with a grand total of 11,362 people in attendance. This figure is well above the total for 1961 which was 9,865 people that gathered at the Center.

These figures show an interesting fact that the Youth Center is a great place right in our midst and the planned enlargement of the present building that is in constant use.

**Camp In The Snow?**  
Yes, that's what the Scouts of Troop 76 did during vacation.

Corky Moore, Scoutmaster, and a group of boys left on Thursday and returned on Sunday evening. They camped at Paradise on Mt. Rainier. Those who attended were Donald Torbet, Donald Phipps, Darrel Hart, Kelly Hart, Rod Mackey, Steve Moore, Lenard Wilson, Bob Bartam and Scoutmaster Moore.

## Waller Road Work Shop Is Accepted

Mrs. Verne Fogle  
LE 7-5210

The Waller Road Grange Auxiliary Work Shop night has gained a note of approval by the women of the community. It is an outlet for the busy housewife to free her mind of everyday chores and meet with her neighbors, bring a friend and learn to do things "together".

Monday night's Work Shop consisted of instruction in the knitting of house slippers, by Mrs. Nancy Malley. Eleven women were in the class.

The popular smoked pillows, taught by Mrs. Lillian Coder, were made at the first work shop and repeated at Monday's session for those who missed. Six ladies made pillows; coffee was served, too.

The February meeting will be announced later. Suggestions are welcomed. This is open to all women of the Waller Road district and neighboring communities. For information call Mrs. Yoder at WA 2-8293 or Mrs. Fogle at LE 7-5210.

The 9:15 p.m. Literary program will be open. Others of the community wishing to see this film may come to the Grange Hall for the showing.

At the last meeting Mrs. Lelia Robertson, former Waller Road Grange secretary, now a member of James Sales Grange, told of her trip on the bus tour to the National Grange Convention in Indiana. A memorable stop was Boys Town, Nebraska, said Mrs. Robertson.

## Tax Deadline Nears for Farmers

by Ernest Hopp  
Income tax reporting time is drawing near. For farmers the date is February 15, 1963. To make the job easier, a Farmers Tax Guide is available from the county agent's office.

A special interest item for farmers is the new investment credit allowed for machinery and equipment purchases. The detailed account describes the tax saving possibilities offered under the investment credit plan. New or used machinery and equipment purchased during the year is covered. If the items have a useful life of 8 years or more, seven per cent of the purchase price may be deducted from income tax due. Equipment with a useful life of less than 8 years may also be covered at a reduced amount.

Another essential part of income tax reporting is good records. A WSU farm account book serves the purpose very well. A ten year inventory book is used with the record account. This eliminates the need for transferring inventory records each year.

The Farmers Tax Guide, WSU Farm record and Inventory books are available from the county agent's office, 742 County-City Building, Tacoma, Washington.

This outstanding capital position is an encouraging base for the continued growth and expansion of the Bank for the challenging year ahead.

We have made over \$127,000,000.00 in sound loans to our thousands of customers. We have paid the highest rate of interest permitted by law to our 74,768 savings customers. ## Students Turn Out For Adult Classes

Neither the holidays nor bad weather dampened the spirits of Puyallup area residents as they turned out for winter-quarter adult education classes. Registration started January 2 and will continue through January 16. By the end of the first full week of classes, nearly 350 students were enrolled in some 32 classes. Typing proved to be the most popular class, with 24 students beginning instruction or brushing upon their typing.

New classes added to the program this quarter are Farm Machine Repair, Psychology, Citizenship, Contemporary World Problems, Knitting, and Development in Modern Mathematics. Three classes of Advanced Clothing have been formed and a new beginning Spanish class started operation.

Classes which failed to draw enough registrations to operate were American Fiction, Humanities, Investments, Business Practices for Home Owners, Mechanical Drawing, Reading Acceleration, and Electronics. The Landscape Gardening class was just short and anyone interested in this class can contact school officials immediately.

It is still possible to enroll in some classes where enrollment is small. A clothing class on Tuesday night and a Tailoring class on Wednesday night still have openings, as do Spanish I and Spanish II, French II, Intermediate French, Creative Writing, Mathematics, Office Machines, Cake Decorating, Citizenship, Contemporary World Problems, Psychology and Woodshop.

All registrations must be completed this week. Questions can be answered by calling school officials at TH 5-6655 during the day or TH 5-6661 on Monday or Wednesday evenings.

with Jack Brown

The other night I attended a meeting that was a revelation to me and I believe to several others who attended. A frightening revelation, I must say! I don't believe at any time before have I had the dissipation of our American freedoms so vividly brought to mind.

At this community meeting a discussion was under way as pertains to the new method of assessment chosen by the county as well as the new zoning proposed for this area. Remarks were made that day by day we were losing our freedoms and an example given was as pertains to zoning that prohibits dividing property in an area into less than an acre parcel for sale. Other remarks were heard about being forced to do more and more of our government's work for free while an abundance of government employees move about their supposed duties at a snail's pace. An example of this was the recent visit to the two local airports by an employee of the FAA. His quota for each day was, or rather is, to measure and figure the glide angle on two airports. This should take a couple of hours at the most but with travel time, etc. he is apparently allowed a day in which to accomplish this task. Talk about a gray train at our expense.

To sum it up all agreed that there were many things being forced on us daily that were not to the liking of the majority. All equally agreed that it still was the best country in the world to live in but when it was mentioned that we should make every effort to maintain the freedoms we still have left, one Parkland business man asked the entire group this question: "Tell me," he said, "What unfettered freedoms do we still have left?"

And here now the frightening revelation. In a room filled with local business men and women, and each a good American, you would think that an answer to this question would bounce from every rafter. As the questioner sat back awaiting an answer there seemed to be a room full of people clearing their throats and saying nothing.

Feeling as strongly as I do about the greatness of this land of ours I felt I should be on my feet running thru a countless list of unfettered freedoms but as fast as I thought of one I had to discard it.

Naturally, my first impulse was to yell, "Freedom of the Press," but I withheld comment on that for I had just been advised that we Americans have been relieved of some of this freedom by the superior court ban on courtroom pictures, so in my way of thinking I can no longer

say that we have a completely free press. I next thought of the fact that the questioner had driven to the meeting, but made no comment since it was obvious that a permit to drive his car in the form of a drivers license was required as well as licensing of the car before he could make the trip. Freedom of religion next sprung to mind but I discarded this thought immediately for as long as we have the old Blue Laws on the books we do not have unfettered freedom of religion. This is attempted force of a belief on the entire populace.

By this time someone else in the room spoke up and said that we had the freedom of holding the meeting we were attending without a permit or other type of notice to a governing body. The questioner immediately brought out the error in this thinking, by pointing out that the meeting we were attending was the annual meeting of a corporation that had to pay a fee to exist and that the meeting is required by law so we were not there by our own bidding at all.

Several others started to say something but each discarded their thoughts for undoubtedly some permit, license, fee, registration clause, etc., had come to mind in regards to their subject. Around the room first one fidgety member after another cleared his or her throat only to stay mute.

Here was a moment when the motivating power behind our very way of life cried for each of us to spring to our feet in defense of our system and yet none of us could rise on the spur of the moment.

Thoughts raced thru my mind like mad. As a newsman I felt I must rise to the occasion, but try as I could my voice was stilled by thought. Freedom to work? - union cards; Freedom to operate a business? - a thousand and one restrictions, licenses, etc.; Freedom of speech? - Libel, slander and lawsuits, such as those now being used by the husband of a confessed communist against an eastern Washington man who dared expose them, pretty well fetter that; and so went my thinking.

Naturally I didn't rise with the obvious assinine remarks that we still were free to breath as much as we wanted and things of this nature. I was actually dumbfounded that I couldn't rise to the occasion as I am sure were all the others in the room.

This was the frightening revelation. Now give it a try yourself. Name as many things as you can that you can do today without rule, regulation, tax, permit, registration or some other type of fetter. Frightening, isn't it?

When the white man discovered this country the Indians were running it. There were no taxes. There was no debt. The women did all the work. And the white man thought he could improve on a system like that!

Editor  
 Times Journal  
 Parkland, Washington  
 Dear Sir:

I was rather amused when you gave as your reason for not donating to the UGN the fact that you didn't like the methods some used in their collections. Why not come right out and say you didn't want to donate to the various organizations? If you don't like methods of collection, you should attack it but using that as an excuse for no donation to the numerous organizations represented by the UGN is hardly justifiable.

Never having had any more than a routine letter from UGN, I can't tell any sad stories about pressures to donate. While we are well aware of the fact that all organizations include many types of individuals, it seems to me that most of the stories attacking charitable organizations are excuses to save guilty consciences.

Hope you have fun gallivanting around the country on that extra gasoline money.

Yours truly,  
 Vynor S. Fish  
 Editor's Note: All personnel of the Times Journal are free to give to which ever charity they choose. The UGN

material which is brought to the plant each year is distributed to each person, without comment, and he is then free to contribute or not, as he sees fit. It is a fact that a number of charities are being given contributions by members of the Times Journal Staff.

The point of the comment in the Times Journal was not that UGN is good or bad, but that the methods used to collect money for the charities represented is not in keeping with the American way of free choice. It makes no difference from where the pressure comes, it is the pressure itself which is not good. Every American should be free to make a choice of what he does with his contribution.

We are never deceived; we deceive ourselves.-Goethe

Containers will be located near the Roy Fire Hall and Post Office. The contents, including any other aluminum scrap, will be turned in by the boys to the Orthopedic Hospital. All are urged to make this small contribution. In case of question, contact Town Marshal Syd Coggins at Roy 491.

**C.D. Meets**  
A considerable number of Roy residents attended the initial Civil Defense meeting at the Roy Elementary School on Dec. 12. At that time it was pointed out by Major Byrd, Deputy Director of Civil Defense for Pierce County, that Civil Defense encompasses all defensive measures that may be taken against nuclear attack, bacterial warfare and such dangers as fire, drowning and sanitation.

At the request of the people of Roy a class in individual family survival and first aid will be conducted at a date to be announced as soon as registration is completed. Alert citizens interested in the instruction may arrange registration through Mrs. Gary Roush Sr. at Box 154, Roy, telephone Roy 531.

**Old Plates Wanted**  
Where are you putting your license plates this year? Valuable though they may seem, they mean a lot to the handicapped children of the Children's Orthopedic Hospital, for whom they are being gathered by the Junior Police Dept. of Roy. At the Friday evening meeting of the group, it was decided by the boys to solicit and gather these old plates from all willing contributors. Con-

Mrs. Ralph Taylor and Mrs. Frank Highland.

A meeting of the committee was held at the Henry Week's home, 8715 East Van Buren, on January 11th, to get plans underway. Mrs. Hushek will have charge of games; Floyd Ayers, advertising; Mrs. Baskett and Mrs. Highland, donations; Mr. Shannon and Mr. Taylor, arrangements of the hall; Mrs. Ayers, Mrs. Weeks, and Mrs. Taylor, kitchen; Mr. Weeks and Mrs. Platt, publicity.

The club has begun work for a stepped-up program of community service, as well as an increase in social activities, to make such service possible. The most pressing need of the club at this time is for improvements to the club property.

# Licenses, Speeding To Get Added Attention In Roy

**ROY MARSHAL ISSUES WARNING**  
All car owners driving in the town of Roy after midnight on January 31 without 1963 license plates mounted on their cars will be ticketed, town marshal, Sid Coggins warns.

As well, excess speed thru the town will no longer tolerated and a special drive to eliminate drunk driving is being launched by the Marshal and his deputies.

Three Deputy Marshals (men) and 3 policewomen have been appointed to work with the marshal on this. Marshal Coggins also states that anyone caught sleeping on the bar in a tavern will be arrested for drunkenness. Owners or operators are apt to lose licenses for serving people who are drunk.

In the past two weeks 2 dogs were run over and killed in Roy. Drivers did not stop. The Marshal states that this is hit and run driving and carries severe penalties which he intends to invoke should there be any more of this.

He is also being assisted by the Roy Junior Police who now have a unit of 12 members. These boys are authorized to watch for cars run-

**Club Visits Mt. Rainier**  
The Evergreen Forestry and Rifle 4-H club members of Lacamas enjoyed a trip to Mount Rainier on January 5. Stopping at Longmire, the Park Ranger discussed weather bureau instruments, snowfall measurements and water content of the snow pack and fire equipment. County Agent Dave Klempner helped to identify some of the trees. The group then went to Paradise where it was warm, sunny and beautiful. Those attending were Robert and Richard Allen, Bill Hartweg, Reb and Rita Dickey, Larry and Linda Smith, John McAllister and the leaders, Marjorie and Fred Smith. Mr. and Mrs. Les Dickey, Rosemary and Cynthia Smith also enjoyed the trip with the members.
