### **Celebrate summer in Red Square!**

With spring finals just barely tucked aside, summer sessions begin May 27. The entire campus community is invited to an ice cream social to welcome summer from 2:30 to 3:30 pm in Red Square. The flavors will be as varied as the kinds of classes available. In case of rain, look for the social in the UC lobby.

### **Free airfare to China and back**

Chinese agricultural practices. The strength of the yuan on the world market. Artwork of the Ming Dynasty. If you have a project you want to explore in China, check out this opportunity. The Washington State China Relations Council is accepting applications from residents of Washington for its Travel Support Program. Funded by a grant from Northwest Airlines, the program provides round-trip airfare to the People's Republic of China and Hong Kong for economic and cultural projects. Applications demonstrating Chinese sponsorship, detailed itineraries and funding already raised receive particular consideration. Past recipients include lecturers, economists, forestry and agricultural experts, medical professionals and artists. Applications for the program are available from **Charry Benston** (International Programs), 7628. The deadline for the complete application, including letters of recommendation, is June 14. Awards are announced on July 15.

### **"Quartet for the End of Time"**

Pianist **Jairo Geronymo** (Music) performs "Quartet for the End of Time," an apocalyptic piece with eight movements, with violinist Lorenz Gamma, cellist Peter Landeen and clarinetist Thuc Nguyen at 8 pm on May 28 in Lagerquist. The concert is free. The work was composed by Olivier Messiaen while at a concentration camp in World War II, and was first performed for 5,000 prisoners, many of whom were put to death a month after the performance. The quartet gives a live studio performance on "Live by George," a radio program on KING FM at 8 pm on May 26.

### **Earth-smart Ordal wins recycling competition**

Congratulations to Ordal, the winning residence hall of the Earth Week '97 Recycle competition. The competition, sponsored by Environmental Services, looked for the hall with the greatest quantity and best quality (the right items in the right containers, lids removed from bottles) of recycled goods. Most notably, the quality of Ordal's recyclables was far superior to the other halls, **Jennifer Wamboldt** (Environmental Services) said. As winners, Ordal residents received a feast of pizza and soda pop and an exclusive swim opportunity at the PLU pool. Thanks for making your recycling cleaner and greater! For more details about the competition, contact Environmental Services.

### **Explore the wilds and wonders of Yellowstone with Duncan Foley**

If a short trip to Yellowstone National Park sounds like a good idea for this summer, you might want to explore the park through a class from The Yellowstone Institute. Classes are generally three to five days long, and cover a variety of topics, including wild edible plants, learning birds by sound, field journals, fossils, photography, environmental ethics and the Nez Perce people. Some classes also incorporate trips, via backpack, horseback, llama or canoe. Prices average \$40 to \$50 per day; trips are more expensive. **Duncan Foley** (Earth Sciences) teaches with the institute and will spend time in the park this summer. Call him, 7568, for more information and registration materials.

### **Donate what you can't take home**

A message to residential students who prepare to head home for summer this week. Before you throw out everything you don't want to take home, be sure to stop by the three blue bins in the lobby of each residence hall and see if you can leave the items there. One bin is for personal care items, another is for nonperishable food items, and a third is for clothing and household items (including books). Environmental Services will donate the bin contents to local service agencies, including the on-campus program First Steps, a parenting and pregnancy service for low-income women.

### **Don't throw that bottle away!**

Remember that by recycling your Fruitopia bottles instead of putting them in the garbage, you contribute to the glass recycled at PLU -- one ton each month. Through glass recycling, PLU avoids paying about \$75 in disposal costs and makes \$25 in an average month. Also, a ton of glass produced from raw materials creates 384 pounds of mining waste. By making 50% recycled glass, mining wastes can be cut by 75%. So, for each half-ton PLU contributes to recycling, 288 pounds of mining wastes are saved.
