# *General Statement*

## **HISTORICAL**

Pacific Lutheran College was formed by the union of Pacific Lutheran Academy with Columbia Lutheran College.

The first of these, Pacific Lutheran Academy, was established at Parkland, Washington, December 11, 1890, by members of the Synod of the Norwegian Evangelical Lutheran Church of America. It began its work on October 14, 1894, and continued until the spring of 1918, at which time its faculty and students were transferred to Columbia College, where the school was operated for one year.

The second component, Columbia Lutheran College, of Everett, Washington, was established by members of the United Norwegian Lutheran Church. It opened its doors to students in 1909 and continued its work until the spring of 1919, the last year in conjunction with Pacific Lutheran Academy, as already noted.

In 1917 the church bodies were united. In 1920 the Pacific Lutheran College Association was incorporated. By resolution of the Pacific District of the Norwegian Lutheran Church of America, the two schools were united at Parkland under the name of Pacific Lutheran College. The consolidated school was opened to students on October 4, 1920.

In the fall of 1929 the work of Christian education carried on at Spokane College was transferred to Pacific Lutheran College, and this arrangement was by resolution of the Norwegian Lutheran Church of America on May 28, 1930, made permanent.

Up to 1919 Pacific Lutheran Academy and Columbia College had been conducted essentially as secondary schools. Only occasionally did they offer classes in college branches. In 1921, however, the amalgamated institution established a two-year Liberal Arts Department and a two-year Normal Department, both of college grade.

In view of recent educational legislation and other developments, the Board of Trustees of the College has authorized the addition of a third year in the Junior College Division, which change became effective in the Normal Department in 1931-32.

The High-School Division of four years is accredited by the State Department of Education. In the Junior College Division, the Liberal Arts Department is accredited by the University of Washington, and the Normal Department by the State Department of Education. On April 8, 1936, the Northwest Association of Secondary and Higher Schools also granted Pacific Lutheran College initial accreditation as a junior college and a three-year normal school.

## **GOVERNMENT AND OWNERSHIP**

Pacific Lutheran College is owned and operated by the Pacific Lutheran College Association, which is composed of the members of the Pacific District of the Norwegian Lutheran Church of America. At one or more of the sessions of its annual delegate conventions the District resolves itself into the Pacific Lutheran College Association. From its membership at large this body elects annually three members of the Board of Trustees of the school for a term of

three years and adopts resolutions pertaining to the general management and policies of the school. The Board of Trustees is responsible for the maintenance of the school and elects president, faculty, and administrative staff. The President is the executive agent of the Board.

In May, 1930, by resolution of the Northwestern District of the Joint Synod of Ohio, which resolution was indorsed by the Pacific District of the Norwegian Lutheran Church of America and by the general convention of said church, the President of said Northwestern District became a member of the Board of Trustees of Pacific Lutheran College. A petition for two additional members was granted by the American Lutheran Church at its 1934 Convention.

In similar manner, the Evangelical Lutheran Augustana Synod, on June 11, 1932, approved the cooperation of the Columbia Conference with the Pacific District of the Norwegian Lutheran Church of America and the Northwestern District of the American Lutheran Church in the support and control of Pacific Lutheran College, in response to a petition from the Columbia Conference. Three members of the Columbia Conference now represent this Synod on the Board of Trustees of the College.

## GENERAL AIM

Pacific Lutheran College, the only school of its kind on the Pacific Coast, has an open and increasingly important field, extending from San Diego, California, on the south, to Shishmaref, Alaska, on the north, and throughout the Rocky Mountain territory on the east. In this field it tries, with success, to provide trained leaders and intelligent and consecrated workers, to build Christian character, to develop a Christian view of life, to promote the highest type of citizenship, to help keep America Christian, to advance the righteousness that exalts a nation, and to make especially the Lutheran Church effective in its God-given mission. Its constant endeavor will therefore be to promote the highest intellectual development of its students, to give them a sound religious training, and to surround them with such character-building influences as best will fit them for a useful life in home, church, and state.

## THE HOME OF THE SCHOOL

Parkland, the home of Pacific Lutheran College, is a suburb of the city of Tacoma, and is located in a region remarkable for the beauty and grandeur of its scenery. To the north, bordering on beautiful Commencement Bay, the gateway to the Orient, lies the city of Tacoma, with upwards of 110,000 inhabitants; to the west stretch the snow-clad ranges and peaks of the Olympic Mountains; to the south and east, tier above tier, roll the rugged foothills of the Cascade Mountains, with St. Helens and Adams in the distance, while, towering far above the surrounding peaks, rises the majestic cone of Mount Tacoma, or Rainier, with its mantle of eternal snow, a vision of unspeakable sublimity and beauty. Within this magnificent frame, and extending for miles, lie the beautiful, park-like prairies on which the College has its home.

In healthfulness Parkland can scarcely be surpassed. Situated midway between the Cascade Mountains and the Pacific Ocean, it enjoys the blending of the invigorating mountain breezes with the softer winds from the ocean and has a mild, even temperature throughout the whole year. Pure air, pure water, good drainage, and excellent opportunity for outdoor exercise at all seasons make it an ideal place for students.

## THE TEACHERS

The teachers of Pacific Lutheran College are men and women of broad training and successful experience. Loyal to the school, devoted to their work, enthusiastic and helpful in their attitude, they are able to supply the stimulus so essential in arousing and maintaining the intellectual interest of their students. In their daily contacts as teachers, companions, and advisers they seek to promote in their charges the ideals of Christian manhood and womanhood.

## THE STUDENTS

The students of Pacific Lutheran College come chiefly from the great American middle class and represent the most varied occupations and conditions in life. Some come from wealthy homes, but the majority are young men or women of moderate, or even slender, means. Some of them have to support themselves while attending school, and practically all have been accustomed to hard work. They bring with them rugged energy and habits of economy and industry, coupled with an intense desire to learn and to improve themselves—qualities which are bound to make school work an inspiration and a joy.

## THE EDUCATIONAL PLANT

The Main Building is a five-story brick structure, 190 feet by 78, heated by steam and lighted by electricity, and supplied with water from Tacoma's Green River gravity system. Above the first floor the building is partitioned off into two dormitories—one for the girls and one for the boys. In the Main Building are also housed the administration offices, reception rooms, most of the recitation rooms, the library, the physics laboratory, the kitchen and dining room, as well as the apartments for the Dean of Men and the Dean of Women.

The library, comprising about fourteen thousand volumes, exclusive of a large number of unbound magazines and pamphlets, occupies three rooms on the first floor of the Main Building.

The physics laboratory, located on the first floor of the Main Building, is equipped for high-school work.

The chemistry laboratory, modern in every respect, and a new biology laboratory have been installed in the basement of the gymnasium building.

The Gymnasium has a clear floor space of 50 by 80 feet for games and exercises; a stage twenty feet in depth, with dressing rooms on the sides; and a running track, serving as a spectators' gallery at athletic events.

The Chapel, a two-story frame building, 40 by 60 feet, has a seating capacity of about 325. It is used by the school for its daily devotional exercises and for choir rehearsals and was used by the local church for divine services till Easter, 1935.

The campus is covered with a natural growth of trees, chiefly fir and oak, interspersed with open spaces, where are located the athletic field, tennis courts, and Pacific Lutheran Chautauqua grounds.

The Board of Trustees of the College, on the recommendation of Mr. Charles Altfillisch, architect, has approved a comprehensive and forward-looking plan for enlarging and beautifying the campus and for locating contemplated buildings, the first of which, a residence for the President, was erected in 1930. In May and June, 1936, citizens of Tacoma and Pierce County pledged approximately \$100,000, payable over a three-year period, for the erection of a library-classroom building at the earliest possible date.

## THE DEVELOPMENT ASSOCIATION

The Pacific Lutheran College Development Association consists of a large circle of friends of the school, who have agreed to contribute "at least a dollar at least once a year," in order to maintain the school and to develop it as rapidly and as efficiently as available resources and common sense will permit.

The Association was organized on September 23, 1928. On July 8, 1936, it had an enrolled membership of 9,398, who had contributed a total of \$75,998.58.

The membership is entirely voluntary and lapses automatically one year after the receipt of the last contribution.

The Development Association has been endorsed by the Northwestern District of the American Lutheran Church, the Pacific District of the Norwegian Lutheran Church of America, the Executive Board of the Columbia Conference of the Augustana Synod, and by the whole Norwegian Lutheran Church of America in convention assembled.

## THE ENDOWMENT FUND

In the summer of 1927 friends and supporters of the College gave pledges toward a permanent endowment fund, payable over a five-year period in the sum of \$290,000. Of this sum \$145,192.87 had been paid on July 27, 1936. The investment of this fund is in the hands of a committee appointed by, and responsible to, the Board of Trustees. The present members of this committee are: Mr. H. E. Anderson, Mr. August Buschmann, Mr. F. P. Haskell, Mr. A. L. Leknes, and President O. A. Tingelstad. The invested fund is managed by the Treasurer, the Business Manager, and the President of the College, under mandate from the Board of Trustees.

# *Junior College Division*

## **ACCREDITATION**

The Liberal Arts Department of the Junior College Division is accredited by the University of Washington, and the Normal Department by the State Department of Education. On April 8, 1936, both were also accredited by the Northwest Association of Secondary and Higher Schools.

## **ADMINISTRATIVE REGULATIONS**

### **Requirements for Admission**

The following are the requirements for admission to the Junior College Division:

1. Graduation from an accredited high school or its equivalent. It is strongly urged that the high-school training of the college entrant should include the following: English, 3 units; algebra, 1 unit; plane geometry, 1 unit; history and civics, 2 units; foreign language, 2 units; science, 1 unit; electives, 6 units.

2. Satisfactory personal recommendations, including a statement from the applicant's high-school principal or pastor that he is a person of good moral character.

### **Admission to Advanced Standing**

A student may be admitted to advanced standing by presenting credentials from another college of approved standing. These should include an official transcript of his record and a letter of honorable dismissal.

### **Definition of Credit Hour**

A credit hour represents one full period of prepared class work a week or, if in a laboratory subject, at least two periods a week, for not less than eighteen weeks.

### **Student Programs**

Sixteen credit hours of work in addition to physical education constitute a full average program for a semester.

In order to secure credit for their work students must have their programs approved by the Registrar. All subsequent changes in programs must be similarly approved.

### **Marking System**

A—96-100	Exceptionally good.
B—86-95	Above average.
C—76-85	Average.
D—70-75	Below average.
E	Below 70—no credit.
K	Conditioned. To be changed to D when condition is removed.
Inc.	Incomplete.
P	Passed without grade.

Conditions and incompletes must be removed within the following semester of residence in which the course is given, or no credit will be allowed.

### Requirements for Graduation

To graduate from the Liberal Arts Department a student must complete the work in his curriculum, earning sixty-four credit hours and a similar number of grade points.

In addition to the 64 credit hours necessary for graduation, the student must have at least 64 grade points, based on the quality of his work. These are determined as follows: Each credit hour completed by the student with a grade of A entitles him to 3 grade points, with a grade of B to 2 points, with a grade of C to 1 point, and with a grade of D to no point. One grade point is deducted for each credit hour with a grade of E. An *incomplete* when properly removed will receive the grade points appropriate to the mark finally awarded. A *condition* or *failure* when properly made up by additional work will receive the grade points originally deducted.

To graduate from the Normal Department a student must complete the three-year normal curriculum approved by the State Department of Education, earning ninety-six credit hours and a similar number of grade points. The same principle in regard to grade points as described above also applies to the Normal Department.

### Withdrawal from Courses

With the consent of the Registrar a student may withdraw from a course before the end of the sixth week without prejudice to his standing. During the second six weeks permission for withdrawal will be given only upon consideration of health, outside work, or other matters for which the student is not held culpable. During the final six weeks of any semester the dropping of a course will result in a *failure* or an *incomplete*, depending upon whether or not the work has been of passing grade up to the time of withdrawal.

### LIBERAL ARTS COURSES

The Liberal Arts courses aim to give high-school graduates two years of training in the superior forms of culture and of social and religious fellowship. Whether the students are destined to enter one of the professions or to become farmers, merchants, engineers, contractors, home-makers, or any other kind of workers, the training they will receive here should make them more sensitive to the world of truth and beauty about them, more alert to the happenings in their community or in the world at large, and, especially, more ready to appreciate the finer things outside their own vocations: good literature, good art, good music, good housing, good city planning, good government—in short, the most desirable things in our common life. These courses aim also to arouse the spirit of scholarship, that intellectual curiosity which asks for a reason, that interpretative thinking which looks for the hidden motives of things and penetrates to where are the *issues* of life. Finally, they aim to develop a firm and kindly philosophy of life, a

philosophy born, not of pagan or semi-pagan beliefs or ideals, but of the example and teachings of the God-man, Jesus Christ, constraining its adherents to do justly, love mercy, and walk humbly with their God.

## NORMAL DEPARTMENT

The Normal Department offers the professional courses required by the state for elementary school teachers. The curriculum has been revised to conform with the new requirements for diplomas as prescribed by the State Board of Education.

Each student graduating from the Normal Department of Pacific Lutheran College is required to shape his Normal curriculum in such a way as to provide for an acquaintance with those major fields that were not included in his high-

school training. In addition each student should prepare for teaching some specific grade or grades or for departmental work.

The following explanations govern the interpretation of the curriculum:

1. Students may, upon examination, be exempted from the first semester of English Composition.
2. The science requirement is to be determined on the basis of work included in high-school training.
3. The students planning on specializing in primary or intermediate teaching are urged to get a practical knowledge of the piano.
4. Students preparing for departmental teaching or teaching in a non-departmentalized upper grade should include in their electives a major subject with a minimum of 14 hours besides special curriculum courses.
5. Special subjects which are provisionally required include: Art Structure, Art for the Primary Grades, or Art for the Intermediate Grades, Music, Children's Literature, and Nature Study.
6. Entering freshmen are given a test in penmanship. Those failing to meet the standard required for prospective teachers will take a course in penmanship without credit.

# *High School Division*

## **MISCELLANEOUS INFORMATION**

### **Accreditation**

The High-School Division is fully accredited by the Washington State Board of Education.

### **Entrance Requirements**

Applicants of good moral character who have completed the eighth grade of the public school or its equivalent are admitted to any of the freshman courses upon presenting the proper credentials and paying the required fees.

### **Advanced Standing**

Admission to advanced standing will be granted any student who presents credentials for work satisfactorily done in any standard public or private high school.

### **Student Load**

As a general rule, students should register for only four regular subjects, exclusive of Bible Study and physical training. No student may drop a class without special permission from the teacher and the Registrar.

### **Requirements for Graduation**

Sixteen units, grouped in an approved curriculum, are required for graduation. A *unit* represents work satisfactorily done in a subject which has been pursued five times a week, in periods of not less than forty-five minutes, during a school year of at least thirty-six weeks.

### **Scale of Grades**

A—96 to 100; B—86 to 95; C—76 to 85; D—70 to 75; E—Below 70—No credit.

### **Registration Days**

Registration for the fall semester begins Monday, September 9, 1935, and for the spring semester, Monday, January 27, 1936.

### **Records and Reports**

A record of a student's attendance, scholarship, and deportment is kept in the Registrar's office. A report of the student's progress is sent to parents or guardians at the end of each nine weeks, or oftener if requested.

Each student is given one free transcript of record. Additional transcripts may be secured at \$1.00 each.

## **CURRICULAR GUIDANCE**

The curricula described on the following pages offer six well-defined combinations of subjects properly distributed and proportioned, yet sufficiently varied to suit the tastes and requirements of the individual student.

### **Curricular Requirements**

The general requirements have been revised to harmonize with the high-school curriculum approved by the Washington State Board of Education on June 20, 1933. These requirements are: three years of English, two years of history and social studies, one year of science, a minimum of one year of mathematics, a minimum of one year of home relations for all girls, a minimum opportunity for music ensemble work under competent direction, and an approved program of health and physical education for all students.

### **The Classics**

The Classical curriculum looks preeminently to the widening of the student's vision, the deepening of his general understanding, the extending of the fields of his imagination, and the refining of his appreciation and sympathies—in short, it aims at the fullest humanization of the individual. It is therefore especially recommended to the consideration of those who are planning to secure a B. A. degree in a college and later to take up the study of law, medicine, or theology. For those who do not plan to enter college or take up one of the learned professions it furnishes an excellent groundwork for general culture.

This curriculum provides majors in Latin and English, and minors in history and science.

### **Commerce**

The Commercial curriculum is designed to meet the needs of three classes of students: (1) those who desire to prepare themselves for employment in the accounting department of a business house or on the staff of a public accountant; (2) those who do not intend to become bookkeepers or stenographers but desire a knowledge of commercial subjects which may prove valuable to them in whatever positions they may occupy; and (3) those who intend to pursue courses of accounting and business administration in our Junior College or in a school of commerce and require a preliminary training as a background for these courses.

Majors are provided in commercial branches (bookkeeping, commercial law, shorthand and typing) and English, and minors in history and mathematics.

### **Foreign Language**

That the mastery of a foreign language broadens the outlook, develops sympathetic attitudes of mind, expands and enriches the personality, and leads to a better understanding of the mother tongue is generally conceded. But in addition to these cultural considerations, which are of great weight, there are others of a more practical nature. One of these is our expanding commerce, requiring a large number of correspondents, agents, and clerical workers who have a thorough knowledge of a foreign language. Another is the extension of our diplomatic service, which calls for an increasing number of translators, interpreters, and clerks thoroughly conversant with one or more foreign languages.

The Foreign Language curriculum provides majors in foreign language (two units in each of two) and English, and minors in history and science.

## Music

The Music curriculum offers students an excellent opportunity to pursue their musical education as an integral part of their high-school work. The musical atmosphere of the College and the stimulus resulting from daily contact with others engaged in similar work are bound to exert a powerful influence for good. The personal supervision during practice periods, the student-practice recitals, the musical organizations, the music library, and the many opportunities for public performance arouse the student to greater effort and produce better results than would otherwise be possible.

Majors are provided in music and English, and minors in history and foreign language.

## Science

The Science curriculum, while admirably adapted as a foundation for general culture, is especially designed for students who are interested in the natural or biological sciences, or who are planning to secure the B. S. degree and later to enter the fields of civil, architectural, mechanical, mining, or other forms of engineering. As rapid change is the rule in the industrial world today, and as new tasks and conditions are continually arising, there is an increasing demand for men and women with thorough technical training, capable of meeting new situations as they arise.

This curriculum provides majors in science and English, and minors in mathematics and history.

## Social Science

Though perhaps not so well known as some of the others, the Social Science curriculum is full of interest to the wide-awake student. Through it he learns to recognize the broad lines of influence that operate in human affairs, to see how some of them promote human welfare, how others oppose and destroy it, and how these influences may be directed and controlled for human good. The work offered here should appeal to the prospective teacher, nurse, physician, lawyer, statesman, charity worker, clergyman, journalist, and business man.

Majors are provided in social science (history, civics, sociology, economics, and commercial law) and English, and minors in foreign language and mathematics.

## HIGH-SCHOOL COURSES

The descriptive summaries that follow are designed to constitute both a record of the courses actually given in 1935-36 and an announcement of what will be offered in 1936-37. The teachers are listed by departments in accordance with the division of the teaching load in 1935-36, and the courses which were actually given during the year have the names of the respective instructors attached.

### HOW TO REACH PARKLAND

Parkland, a suburb of Tacoma, is located about seven miles south of the center of the City.

On arriving in Tacoma by train, bus, or boat, take a Spanaway or Parkland car on Pacific Avenue. The telephone number of the College is Garland 0577.

Students will do well to leave their baggage at the Tacoma station and bring their checks to the College, where arrangements will be made to have the baggage brought out to the school in the speediest and cheapest way.
