# *General Statement*

## **HISTORICAL**

Pacific Lutheran College was formed by the union of Pacific Lutheran Academy with Columbia Lutheran College.

The first of these, Pacific Lutheran Academy, was established at Parkland, Washington, December 11, 1890, by members of the Synod of the Norwegian Evangelical Lutheran Church in America. It began its work on October 14, 1894, and continued until the spring of 1918, at which time its faculty and students were transferred to Columbia College, where the school was operated for one year.

The second component, Columbia Lutheran College, of Everett, Washington, was established by members of the United Norwegian Lutheran Church. It opened its doors to students in 1909 and continued its work until the spring of 1919, the last year in conjunction with Pacific Lutheran Academy, as already noted.

In 1917 the church bodies were united. In 1920 the Pacific Lutheran College Association was incorporated. By resolution of the Pacific District of the Norwegian Lutheran Church of America, the two schools were united at Parkland under the name of Pacific Lutheran College. The consolidated school was opened to students on October 4, 1920.

In the fall of 1929 the work of Christian education carried on at Spokane College was transferred to Pacific Lutheran College, and this arrangement was by resolution of the Norwegian Lutheran Church of America on May 28, 1930, made permanent.

Up to 1919 Pacific Lutheran Academy and Columbia Lutheran College had been conducted essentially as secondary schools. Only occasionally did they offer classes in college branches. In 1921, however, the amalgamated institution established a two-year Liberal Arts Department and a two-year Normal Department, both of college grade.

In view of educational legislation and other developments, the Board of Trustees of the College authorized the addition of a third year in the Junior College Division, which change became effective in the Normal Department in 1931 and in Liberal Arts in 1941. Similarly, the Normal Department was reorganized into a four-year College of Education in 1939.

The High School Division is accredited by the State Department of Education. In the College Division, the Junior College of Liberal Arts is accredited by the University of Washington, and the College of Education by the State Department of Education. On April 8, 1936, the Northwest Association of Secondary and Higher Schools also granted Pacific Lutheran College initial accreditation as a junior college and a three-year normal school, and on April 7, 1937, made this accreditation permanent. The State Department of Education, on June 18, 1940, approved Pacific Lutheran College as a four-year teacher-training institution.

## **GOVERNMENT AND OWNERSHIP**

Pacific Lutheran College is owned and operated by the Pacific District of the Norwegian Lutheran Church of America. At one or more of the sessions

of its annual delegate conventions the District resolves itself into the Pacific Lutheran College Association, a Washington corporation. From its membership at large this body elects annually three members of the Board of Trustees of the school for a term of three years and adopts resolutions pertaining to the general management and policies of the school. In 1941 a revision of the articles of incorporation provided for the election of additional Board members selected by the cooperating church groups and the Pacific Lutheran College Alumni Association, as indicated on page 4. These cooperating church groups are the Northwestern District of the American Lutheran Church, since 1930, and the Columbia Conference of the Evangelical Lutheran Augustana Synod, since 1932, (in cooperation with the California Conference since 1941). The Board of Trustees is responsible for the maintenance of the school, and elects president, faculty, and administrative staff. The President is the executive agent of the Board.

### GENERAL AIM

Pacific Lutheran College, the only school of its kind on the Pacific Coast, has an open and increasingly important field, extending from San Diego, California, on the south, to Shishmaref, Alaska, on the north, and throughout the Rocky Mountain territory on the east. In this field it tries, with success, to provide trained leaders and intelligent and consecrated workers, to build Christian character, to develop a Christian view of life, to promote the highest type of citizenship, to help keep America Christian, to advance the righteousness that exalts a nation, and to make especially the Lutheran Church effective in its God-given mission. Its constant endeavor will therefore be to promote the highest intellectual development of its students, to give them a sound religious training, and to surround them with such character-building influences as best will fit them for a useful life in home, church, and state.

### THE HOME OF THE SCHOOL

Parkland, the home of Pacific Lutheran College, is a suburb of the city of Tacoma, and is located in a region remarkable for the beauty and grandeur of its scenery. To the north, bordering on beautiful Commencement Bay, the gateway to the Orient, lies the city of Tacoma, with more than 109,000 inhabitants; to the west stretch the snow-clad ranges and peaks of the Olympic Mountains; to the south and east, tier above tier, roll the rugged foothills of the Cascade Mountains, with St. Helens and Adams in the distance, while, towering far above the surrounding peaks, rises the majestic cone of Mount Rainier, or Tacoma, with its mantle of eternal snow, a vision of unspeakable sublimity and beauty. Within this magnificent frame, and extending for miles, lie the beautiful, park-like prairies on which the College has its home.

In healthfulness Parkland can scarcely be surpassed. Situated midway between the Cascade Mountains and the Pacific Ocean, it enjoys the blending of the invigorating mountain breezes with the softer winds from the ocean and

has a mild, even temperature throughout the whole year. Pure air, pure water, good drainage, and excellent opportunity for outdoor exercise at all seasons make it an ideal place for students.

## THE TEACHERS

The teachers of Pacific Lutheran College are men and women of broad training and successful experience. Loyal to the school, devoted to their work, enthusiastic and helpful in their attitude, they are able to supply the stimulus so essential in arousing and maintaining the intellectual interest of their students. In their daily contacts as teachers, companions, and advisers they seek to promote in their charges the ideals of Christian manhood and womanhood.

## THE STUDENTS

The students of Pacific Lutheran College are a cross-section of the population of our West and represent the most varied occupations and conditions in life. Some come from wealthy homes, but the majority are young men or women of moderate, or even slender, means. Some of them have to support themselves while attending school, and practically all have been accustomed to hard work. They bring with them rugged energy and habits of economy and industry, coupled with an intense desire to learn and to improve themselves—qualities which are bound to make school work an inspiration and a joy.

## THE EDUCATIONAL PLANT

The Main Building is a five-story brick structure, 190 feet by 78, heated by steam and lighted by electricity, and supplied with water from Tacoma's Green River gravity system. Above the first floor the building is partitioned off into two dormitories—one for the girls and one for the boys. In the Main Building are also housed the administration offices, reception rooms, most of the recitation rooms, the book store, the kitchen and dining room, as well as the apartments for the Dean of Men and the Dean of Women.

The library, comprising about twenty thousand volumes, exclusive of a large number of unbound magazines and pamphlets, has recently been transferred to the new fireproof Pacific Lutheran College Library building.

The chemistry laboratory and the biology laboratory are installed in the basement of the gymnasium building, and the physics laboratory was installed in the library building in the autumn of 1940.

The Gymnasium has a clear floor space of 50 by 80 feet for games and exercises; a stage twenty feet in depth, with dressing rooms on the sides; and a running track, serving as a spectators' gallery at athletic events.

The Chapel, a two-story frame building, 40 by 60 feet, has a seating capacity of about 325. It is used by the school for its daily devotional exercises

and as a music hall and was used by the local church for divine services till Easter, 1935.

The campus is covered with a natural growth of trees, chiefly fir and oak, interspersed with open spaces, and is bisected by beautiful Clover Creek, to the south of which is located the new athletic field, which comprises a football practice field, a baseball diamond, a running track, tennis courts, an archery range, and an athletic field for women. A College-owned 9-hole golf course adjoins the campus on the south.

The Board of Trustees of the College, on the recommendation of Mr. Charles Altfilisch, architect, has approved a comprehensive and forward-looking plan for enlarging and beautifying the campus and for locating contemplated buildings, the first of which, a residence for the President, was erected in 1930. In May and June, 1936, citizens of Tacoma and Pierce County pledged approximately \$100,000, payable over a three-year period, for the erection of a library-classroom building at the earliest possible date. On October 23rd, 1937, the cornerstone of the Pacific Lutheran College Library was laid with appropriate ceremonies, and on May 1, 1939, the building was dedicated and taken into partial use.

In the spring of 1938 the College acquired the Paul A. Preus home, north of the President's residence, for use as an auxiliary dormitory for girls. As the first monument to the efforts of the Pacific Lutheran College Dormitory Auxiliary, this building is appropriately named Auxiliary Hall.

### **THE DEVELOPMENT ASSOCIATION**

The Pacific Lutheran College Development Association consists of a large circle of friends of the school, who have agreed to contribute "at least a dollar at least once a year," in order to maintain the school and to develop it as rapidly and as efficiently as available resources and common sense will permit.

The Association was organized on September 23, 1928. On April 14, 1941, it had an enrolled membership of 10,393, who had contributed a total of \$96,497.12.

The membership is entirely voluntary and lapses automatically one year after the receipt of the last contribution. The Development Association has been officially endorsed by the cooperating church groups.

### **THE ENDOWMENT FUND**

In the summer of 1927 friends and supporters of the College gave pledges toward a permanent endowment fund, payable over a five-year period in the sum of \$290,000. Of this sum \$148,694.44 had been paid on April 30, 1941, and pledges totaling \$20,126.89 had been cancelled by transfer to the library building fund. The investment of the endowment fund is in the hands of a committee appointed by, and responsible to, the Board of Trustees. The present members of this committee are: Mr. August Buschmann, Mr. George H. Fisher, Mr. A. L. Leknes, Mr. F. C. Mason, and President O. A. Tingelstad. The invested fund is managed by Mr. H. E. Anderson, Mr. Ludvig Larson, and the President of the College, under mandate from the Board of Trustees.

# The College Division

The College Division of Pacific Lutheran College offers four years of college work leading to the degree of Bachelor of Arts. The College Division consists of the College of Education and the College of Liberal Arts.

## ADMINISTRATIVE REGULATIONS

### Admission to Freshman Standing

In order to be admitted to Freshman standing, a student must present, in advance, a written application for admission, on the official certificate form used by the higher institutions in the state of Washington. This form may be obtained from any high school principal. Graduates of high schools in other states may receive this form from the Registrar of the College.

An applicant must be a graduate of an accredited high school or its equivalent. It is strongly urged that the high school training of the college entrant should include the following: English, 3 units; algebra, 1 unit; plane geometry, 1 unit; history and civics, 2 units; foreign language, 2 units; science, 1 unit; electives, 6 units. Students who are deficient in high school units in science, mathematics, or foreign language are expected to pursue courses in these fields during the first year of college.

A student must be able to furnish personal character recommendations satisfactory to the administrative officers of the College.

### Registration

The registration of all students is conducted under the direction of the Dean and Registrar in cooperation with the divisions according to the schedule of classes for the college year. In order to secure credit for their work students must have their programs approved by the Registrar. All subsequent changes in programs must be similarly approved. The student will receive no credit for courses in which he is not properly enrolled.

During a semester, a student is expected to carry approximately sixteen credit hours of work in addition to physical education.

A credit hour represents one full period of prepared class work a week, or, if a laboratory subject, at least two periods per week, for not less than eighteen weeks.

### Withdrawal From Courses

With the consent of the Registrar a student may withdraw from a course before the end of the sixth week without prejudice to his standing. During the second six weeks permission for withdrawal will be given only upon the consideration of health, outside work, or other matters for which the student is not held culpable. During the final six weeks of any semester the dropping of a course will result in a *failure* or an *incomplete*, depending upon whether or not the work has been of passing grade up to the time of withdrawal.

### Student Responsibility

The student must accept full responsibility for meeting all graduation requirements, including majors and minors.

### Marking System

A—96-100	Exceptionally good.
B—86-95	Above average.
C—76-85	Average.
D—70-75	Below average.
E	Below 70—no credit.
K	Conditioned. To be changed to D when condition is removed.
Inc.	Incomplete.
P	Passed without grade.

Conditions and incompletes must be removed within the following semester of residence in which the course is given, or no credit will be allowed.

### Grade Points

To graduate, a student must earn grade points equivalent to the number of credit hours required. Each credit hour completed with a grade of A entitles him to 3 grade points, with a grade of B to 2 points, with a grade of C to 1 point, and with a grade of D to no point. One grade point is deducted for each credit hour with a grade of E.

### Major and Minor Offerings

All students who wish to qualify for the degree of Bachelor of Arts must complete the majors and minors required by the College of Education or the College of Liberal Arts, as the case may be. In 1941-42 majors will be offered in the following fields: classical languages, English, Christianity, commerce (business administration), history, sociology, social science, biology, chemistry, mathematics, art, and music. The specific requirements in the major field are to be determined by the department concerned. A minor may be completed in any department offering a major, or in any of the following: Greek, Latin, French, German, Norwegian, speech, health and physical education, political science, psychology, and physics.

## THE COLLEGE OF EDUCATION

The College of Education offers the academic and professional courses required by the State Department of Education. Upon completion of requirements the student is granted a Bachelor of Arts degree and is eligible for certification for teaching in the elementary grades and the junior high school.

The College recognizes, in the preparation of teachers, the need for a curriculum which will provide an acquaintance with the major fields of learning. It therefore recognizes the professional need of liberal and scientific studies as well as the pedagogical aspects of these studies and the technical phases of education.

The College provides two curricula—Elementary and Junior High School. In these curricula the differentiation lies primarily in the teaching and technique courses.

### THREE-YEAR CERTIFICATE

After September 1, 1942, four years of training on the college level will be required for certification. The present state requirements for the three-year certificate can be met by any student whose previous training is such that he can complete the program before September 1, 1942.

## COLLEGE OF LIBERAL ARTS

The College of Liberal Arts aims to give high-school graduates four years of training in the superior forms of culture and of social and religious fellowship. Whether the students are destined to enter one of the professions or to become farmers, merchants, engineers, contractors, home-makers, or any other kind of workers, the training they receive here should make them more sensitive to the world of truth and beauty about them, more alert to the happenings in their community or in the world at large, and, especially, more ready to appreciate the finer things outside their own vocations: good literature, good art, good music, good housing, good city planning, good government—in short, the most desirable things in our common life. These courses aim also to arouse the spirit of scholarship, that intellectual curiosity which asks for a reason, that interpretative thinking which looks for the hidden motives of things and penetrates to where are the issues of life. Finally, they aim to develop a firm and kindly philosophy of life, a philosophy born, not of pagan or semi-pagan beliefs or ideals, but of the example and teachings of the God-man, Jesus Christ, constraining its adherents to do justly, love mercy, and walk humbly with their God.

The descriptive summaries that follow are designed to constitute both a record of the courses actually given in 1940-41 and an announcement of what will be offered in 1941-42. The teachers are listed by departments in accordance with the division of the teaching load in 1940-41 and the courses actually given during the year have the names of the respective instructors attached.

Courses open to freshmen and sophomores are numbered 1-99 and are considered lower division subjects. Courses numbered 1-49 are required courses in the College of Education, the College of Liberal Arts, or the Pre-Nursing Course. Courses open to juniors and seniors are numbered 100 or above and are regarded as upper division subjects.

The student should have his entire program made up of subjects in the divisions in which he classifies. In exceptional cases sophomore students may be assigned to an upper division course if the prerequisites for said course have been met.
