MATHEMATICS

To insure correct placement of students in beginning math courses, eligibility will be required for registration for MATH091, 105, 107, 111, 112, 128, 140 or 151.

Students may establish eligibility for registration for a course by earning a qualifying score through the math placement system.

Students who have taken the prerequisite course at PLU are eligible without taking the placement exam (grade of C minus or better).

Students who have not taken the placement exam may obtain the exam at the Math Department Office. The exam and accompanying questionnaire will take about 70 minutes. Allow one week for the results to be available. New students preferring to take the exam by mail should contact the Math Placement Director at the earliest opportunity.

If you have taken the exam but do not have the results or have questions about placement, contact the Math Placement Director, 535-7402.

Students who have not taken the mathematics placement test or have not otherwise satisfied eligibility for a math course will not be able to register for that course.
