Make sure that when you have finished registering, you LOG OUT and close your application. This is important so that no one else can make any changes to your schedule.

Telephone Registration

Complete registration worksheet. Before you actually use the telephone registration system, take a few moments to complete the course registration worksheet on the next page. When you are ready to register, have your completed worksheet at the phone for reference.

Telephone registration is easy! You must use a push-button phone with tone-dialing. When you dial the access number, you will be given a list of options and will be guided through the registration process.

To access registration by telephone, enter this number from a touch-tone phone: (253) 535-8935. Follow the voice instructions to get to registration. Terms available are: **Summer 2000 and Fall 2000.**

Enter ID Number and Pin. You will be asked to enter your student ID number, your PIN (personal identification number), and the course request numbers (CRNs) of the courses you are adding or dropping. If you enter any invalid data, the system alerts you to the error and prompts you for the correct information.

Be Patient. The wait after entering each course request may seem a little long, but don't hang up or become frustrated. It takes time for the system to go out and find the course and come back with its response.

Save Often. Be sure to save your registration before you hang up by entering: * # 3 (asterisk, pound sign, three). If you do not save your registration and listen to your schedule before you hang up, your registration will be lost.

Time limit. You have 15 minutes to complete your call – the system will hang up on you when you reach your time limit. Don't forget, you will lose all courses that have not been saved! To save the course activity enter *#3 at any time during your transaction.

Remember to save your registration. Before you hang up, you must save the courses you have added or dropped and listen to your schedule. This may take a few minutes – be patient! If you hang up or are timed out before you have saved your new courses, you will lose your registration.

Special Registrations

The following registrations must be done in person at the Student Services Center or the Registrar's Office unless indicated otherwise:

Independent Study Cards. Independent study and cooperative education courses require a completed Independent Study Card with the instructor's signature. Submit the completed Independent Study Cards to the Registrar's Office by the add/drop deadline.

Auditing a Course. To register to audit a course (no credit) get an instructor's signature on a green add/drop form. The cost for auditing a course is the same as the cost for taking the course for credit.

Courses requiring approval. To register for a course requiring approval get the authorized signature on a green add/drop form.

Course load exceptions. Registering for more than 18 hours in one semester requires at least a 3.00 grade point average or consent of the provost. (Use the PLU voice response system or Banner Web to register for up to 18 hours in Fall or Spring and up to 6 hours in J-Term or Summer.)

Waitlisting a course. Waitlisting courses must be done in person at the Student Services Center and is limited to two courses per semester. Waitlist forms are available in the Student Services Center. The waitlist form must be completed and submitted to a Student Services employee for processing. Waitlisting guarantees that the instructor will be informed that a student is interested and where the student is on the list. The Registrar's Office will move students (in waitlist order) from the waitlist into closed classes as seats become available until one week before the term begins, then the instructor determines who will be admitted to closed classes. Students still on the waitlist as of the week before the term begins must attend the first class and get the instructor's signature on a green add/drop form to grant them a place in the class. This form must be submitted to the Student Services Center before the deadline to drop and add courses. Students who are below third or fourth place on the list are strongly advised to register for a substitute course, as it is unlikely they will get into the waitlisted class.

Waitlisting cannot be done via Banner Web or telephone registration.

REGISTRATION WORKSHEET

Summer Terms = 6 Hour Maximum per term / Fall = 18 Hour Maximum
Complete your registration for summer, then return to the main menu to select the fall term

Your Student ID (9 digits): _____

WELCOME TO SUMMER 2000

Summer at PLU offers you an opportunity to catch up, speed up, or round out your time at PLU. Whether you are an undergraduate, graduate, or non-matriculated student, there is a wide assortment of classes awaiting you. Summer has a distinctly different flavor, one which past students have compared to the semesters as 1) at least as challenging, 2) more pleasant, 3) more relaxed, and 4) in which they learned more. AND, tuition is reduced in most summer offerings.

The 2000 summer school theme is The Air We Breathe. We hope you will attend the events that explore this topic, as well as the summer concerts, fruit festivals, and other special activities. Invite your friends and family members to join and savor the special atmosphere at PLU this summer. Join us and feel refreshed, renewed, enhanced, and nurtured while enjoying the excellence of our faculty, the summer beauty of the campus, and the warmth of our campus community.

LANGUAGES & LITERATURES

All language students will use the Language Resource Center for additional study and practice.

To assure correct placement in language courses, all students with previous study are required to take a placement test. The tests are offered in most languages and will be held in the Language Resource Center during freshman registration and at other times. Additional information on placement will be available in registration packets.

Students may meet the Diversity Requirement, Cross-Cultural Perspectives, by taking a 201- or higher-level course in a language used to satisfy the admission requirement or 8 credits in a language not previously studied. All 300- and 400-level literature courses meet the Core I Literature requirement.

The following courses are taught in English:

LANG 445	Methods of Teaching Foreign Language
LANG 446	Theories of Language Acquisition

LANGUAGES & LITERATURES

All language students will use the Language Resource Center for additional study and practice.

To assure correct placement in language courses, all students with previous study are required to take a placement test. The tests are offered in most languages and will be held in the Language Resource Center during freshman registration and at other scheduled times. Additional information on placement will be available in registration packets.

Students may meet the **Diversity Requirement, Cross-Cultural Perspectives**, by taking a 201- or higher-level course in a language used to satisfy the admission requirement or 8 credits in a language not previously studied. All 300- and 400-level literature courses meet the **Core I Literature requirement**.

The following courses are taught in English:

To insure correct placement of students in beginning math courses, eligibility will be required for registration for MATH 91, 105, 107, 111, 112, 123, 128, 140, and 151.

Students may establish eligibility for registration for a course by earning a qualifying score through the math placement system.

Students who have taken the prerequisite course at PLU (grade of C minus or better) are eligible without taking the placement exam.

Students who have not taken the placement exam may obtain the exam at the Math Department Office in the Math Building, room 101. The exam and accompanying questionnaire will take about 70 minutes. Allow one week for the results to be available. New students preferring to take the exam by mail should contact the Math Placement Director at the earliest opportunity, 535-8738.

If you have taken the exam but do not have the results or have questions about placement, contact the Math Placement Director, 535-8738.

If a student is eligible for a particular math course (either by taking a prerequisite course at PLU or through the math placement system) but experiences difficulties registering for that course, contact the Math Placement Director at 535-8738.

Students who have not taken the mathematics placement test or have not otherwise satisfied eligibility for a math course will not be able to register for any beginning math course.

PHYSICAL EDUCATION

Four one-hour courses (100-259), including 100, are required for graduation. Eight one-hour activity courses may be counted toward graduation. Activity courses cannot be repeated for credit. Students are encouraged to select a variety of activities at appropriate skill levels. All physical education activity courses are graded on the basis of "A," "Pass," or "Fail" and are taught on a co-educational basis. PHED 100 is required for graduation and is offered every semester. It should be taken during the freshman year, but may be taken either fall or spring semester.
