Call **Kathy**, 7423, for more information.

### **Spring cleaning on East Campus**

Your help is needed to spruce up East Campus, the part of our campus that is visible to the community from Pacific Avenue. Join the Center for Public Service anytime between 1 and 4 pm on April 18 to help clean up this historic building. If you're unable to donate muscle power, consider giving a shrub, a bag of summer bulbs or cleaning supplies instead. Two extra-large flower planters are also needed. Refreshments will be provided, and probably some fun, too. Call **Sigrun**, 7173, for more information or to sign up.

### **CPR/First Aid training**

A free CPR/First Aid class will be offered on April 25 from 8:30 am to 4:30 pm in UC 210. The course is open to all PLU employees. Campus clubs and organizations present booths with low-cost games and raffles under the theme "A Musical Adventure," the proceeds from which will support Pierce County AIDS Foundation's Basic Needs program. The program supplies food, cleaning supplies and other "basics" to people living with AIDS. Take part and show support for the community.

The policy -- which outlines grievance steps -- has been revised by the University Grievance Committee. The committee will hold an orientation session to aid in understanding the policy from 4 to 5 pm on April 14 in the CK. Supervisors are encouraged to attend. Further dialogue with the university community about the issue will take place in fall.

**Commuter Surveys:** All PLU employees will receive two commuter surveys this week. One, required by Washington State as part of our Commute Trip Reduction Program, and a second supplemental survey from PLU's Parking Committee.

Information from both will help PLU formulate parking and transportation options that will suit the PLU community. Please look for yours and return promptly!

### **Health Watch:**

With spring here and summer on the way, many people spend time in the sun. Exposure to the sun's rays, even for a few minutes, can increase a person's likelihood of developing skin cancer. Most skin cancer is caused by prolonged exposure to the sun and can be prevented with simple precautions. Before exposing your skin to the sun's harmful rays, consider the following:

- Always use a sunscreen with a Sun Protection Factor of at least 15.
- Avoid the sun between 10 am and 3 pm, when rays are strongest.
- People with fair skin and blonde or red hair are especially prone to developing skin cancer.
- While in the sun, cover up all exposed skin with long pants, a long-sleeved shirt and a wide-brimmed hat.
- Avoid sun lamps, tanning beds and tanning pills -- they are just as harmful as the sun itself.
- Perform a monthly skin exam by checking moles, freckles and other marks on your skin for any significant changes in size, shape or color. Also, beware of sores that do not heal or unusual skin growths. Contact your doctor immediately if any of these changes occur.

Recognizing the signs of skin cancer is important since most cases of skin cancer can be cured with early detection.
