# SPRING SCHEDULE — 1967

The 1967 Spring semester offerings are listed alphabetically according to departments.

Courses open to freshmen and sophomores are numbered 101-299 and are considered lower division subjects. Courses open to juniors and seniors are numbered 300-499 and are regarded as upper division subjects. Courses numbered 500 are open to graduate students only.

The student should have his entire program made up of subjects in the division in which he classifies.

Prerequisites can be ascertained from your adviser or the general catalog. In most cases lower division courses are basic and should be completed before registering for upper division courses.

A student must have a grade point average of 2.25 to be eligible to register for any courses in the School of Education.

The number in parenthesis following the course title is the number of semester hours of credit allowed for the course.

The letters L1, L2, L3, etc., refer to the laboratory sections. The letter S with a number (S1, S2, etc.) refers to class section, and Q refers to Quiz section.

The time for the courses is given according to periods of the day and not according to the hour of the day. The student's program should designate the period and not the hour of the day except in cases where the time is clearly indicated on the schedule as for late afternoon and evening classes.

The University reserves the right to cancel any class for justifiable cause.
