SCHNACKENBERG NAMED DISTINGUISHED TEACHER FOR 1971 AT PLU A professor who is helping to develop people-to-people relationships between his own constituency and several foreign nations has been selected as Pacific Lutheran University's Distinguished Teacher for 1971.

The award, given annually to an outstanding PLU teacher by the Washington State Automobile Dealers' Association, was presented Friday to Dr. Walter C. Schnackenberg, chairman of the PLU history department.

Dr. Schnackenberg, taught at PLU from 1942-44 and returned to the campus permanently in 1952.

The professor's people-to-people activities include both his work as president of the Franklin-Pierce School Board and his development of foreign interim tours for PLU and selected local high school students.

He has taken students on interim tours to Italy and the Iberian Peninsula the past two Januarys since PLU switched to the 4-1-4 academic calendar. But his current pet project is a relationship being developed between the Franklin-Pierce District and educators in Laos.

The 53-year-old professor returned earlier this month from a State Department-sponsored visit to the Southeast Asian country, where he participated in a series of meetings with educators at an American dependents' school in Vientiane, the Laotian capitol. He also was given an opportunity to tour parts of the beleaguered country.

Upon his return, Schnackenberg announced that five students from Laos, two American dependents and three Laotians, will attend Franklin-Pierce High School next year under the State Department program. There are also plans, he indicated, for Franklin-Pierce students and teachers to spend a year in Laos.

Schnackenberg is the fifth Distinguished Teacher selected since the annual program was created. Previous winners were Dr. George Arbaugh, philosophy, Dr. Jens Knudsen, biology; Dr. Donald Pattie, biology; and Dr. Jane Williamson, education.

Dr. Harold Leraas, professor of biology at Pacific Lutheran University, was honored Friday by the PLU chapter of Blue Key, national junior and senior men's service honorary.

The Blue Key Outstanding Teacher award was presented at a special program in Chris Knutzen Hall, a part of the New University Center. The hall is located on the site of the old Classroom Building, where Dr. Leraas taught his first class at PLU, then a junior college, in 1935.

In his acceptance, Dr. Leraas recalled that one of the pupils in that first class was a student by the name of Walter Schnackenberg. Schnackenberg, now chairman of the PLU history department, was honored dur ng Friday's program as PLU's Distinguished Teacher for 1971, an annual award presented by the Washington State Automobile Dealer's Association.

Dr. Leraas earned his bachelor's degree in biology at Luther College in Decorah, Ia., in 1930 and earned a master's degree, Ph.D. and doctor of dentistry at the University of Michigan.

He practiced dentistry in Tacoma from 1947-61, during which time he also was a lecturer at PLU.

MARIAN HALVORSON SENDS GREETINGS;

EXPRESSES GRATITUDE

Dear Dr. Wiegman,

I have now been back in Tanzania a month and it is time I sent a little line of greeting from here.

Rains are in full swing and it took us nearly 3 days to move household and office equipment the 250 miles rom Singida to Moshi. But they will be tapering off before the end of May so we can look up and see the glowing face of Mt. Kilimanjaro.

It is good to get back now and we are busy getting our 7-country Consultation-Writing Production Workshop for education of women in East and Central Africa lined up. It has met with a good response in all countries and we have more applicants than we can accept.

Again a thank you to you, faculty and administration and Board of Regents for the recognition conferred while I was home. I have not yet seen Dr. Ouko in Arusha though I am just living 50 miles from there, but I hope to visit him before too long. Best greetings to Mrs. Wiegman also.

Sincerely,

Marian Halvorson

DEVELOPMENT LETTER
RELATES STUDENT'S
PRAISE OF PLU FACULTY

Members of the PLU faculty received a well-deserved pat on the back from a senior student whose story is related in a recent development letter sent to selected parents and friends of PLU.

The senior told President Eugene Wiegman not long ago that at one time he had almost dropped out of PLU. He was discouraged with his studies, confused about his future and beset with financial difficulties.

Fortunately, several of his professors took an active interest in his dilemma. They took time to offer the student their understanding and moral support. They took time to

reach out and help him. His problems didn't vanish, but with the guidance and counsel of his teachers, the student weathered the storm and decided to stay at PLU.

This fall he has been accepted to study at Harvard on the graduate level. He attributes a great measure of his success to those teachers who took the time to care.
