The 1968 Spring Semester offerings are listed alphabetically according to departments and schools.

Courses open to freshmen and sophomores are numbered 101-299 and are considered lower division subjects. Courses open to juniors and seniors are numbered 300-499 and are regarded as upper division subjects. Courses numbered 500 are open to graduate students only.

Lower division students may take upper division courses and have them apply toward the 40 hour requirement. This opportunity will be quite limited since prerequisites must first be met. Prerequisites can be ascertained from the general catalog. In most cases lower division courses are basic and should be completed before registering for upper division courses.

A student must have a grade point average of 2.25 to be eligible to register for any courses in the School of Education. Any exception must be approved by the Director of the School of Education.

The letters L1, L2, L3, etc., refer to the laboratory sections. The letter S with a number (S1, S2, S3) refers to class sections. The letter D with a number D1, D2, D3, refers to discussion groups.

The time for courses is given according to periods in the day, except for certain day and evening courses where the hour and day are given.

The University reserves the right to cancel any class for justifiable cause
