

PACIFIC LUTHERAN UNIVERSITY

Report to Investors

Annual and Capital Giving 1983-1984

President's Message

Dr. William O. Rieke

Even as we review the remarkably swift passage and productive accomplishments of the past year, we turn our energies to the decade ahead. That period will include celebration of our centennial in 1990-91. The shape of the institution at that pinnacle of our history will be determined by plans that are set in motion today.

As investors and concerned friends of Pacific Lutheran University, you have a special interest in its future. A constantly updated and adjusted Five-Year Plan has served as a guideline for growth over the years. Comprehensive in scope, the Plan contains both changing and constant factors. For example, changes will occur in the physical assets of the campus with the addition of funded academic facilities; enrollments are expected to increase by about 2.5-3% in the next five years; further curricular programs will be offered in special areas, notably engineering and computer science; composition of our student body will show greater numbers of adult students.

Elements which will remain will be the liberal arts core of the academic curriculum, the importance of the residential campus experience for the traditional students, the commitment to excellence not only in academics but in services and surroundings. Undergirding the dynamics of progress will be the historical mission of the institution: to provide a high quality education to all who choose to come, within an environment which nourishes exploration and practice of the Christian faith.

Throughout all the years of its existence, the University has been sustained by those who have affirmed its mission and its contribution to society. That concern and support has never been more important than it is now, nor has it ever been more generous. Vice President for Development Luther Bekemeier has prepared a report and roster of supporters in the following pages. It is always gratifying to note the number of new friends, but also to see the continuing loyalty of those individuals, congregations, corporations or foundations who year after year invest in Pacific Lutheran University.

With warm gratitude to all who have supported us with financial gifts, with encouragement, and with good will, I enthusiastically invite you to a continuing partnership in this decade of excellence.

Sincerely,
William O. Rieke, M.D.
President

Bottom photo: An exterior Names Fitness Center overhang dramatically frames the new Rieke Science center as it nears completion on lower campus.

The new half million dollar Names Fitness Center was dedicated at Pacific Lutheran University, Wednesday, Sept. 12.

The 7,500-square foot building has been donated to PLU by Scott and Sis Names of Tacoma.

The center features all of the types of equipment associated with health and physical conditioning: bicycles, treadmills, isokinetic equipment and weight apparatus of all kinds, as well as indoor jogging track and open exercise areas.

Music, video monitors and personal record keeping materials will add to the modern fitness club atmosphere, Olson observed.

While the facility will benefit PLU athletes, it is primarily intended for the use of the general student and faculty community and to encourage better health and conditioning campus-wide.

"This most generous gift from the Names family is without doubt one of the most encouraging and stimulating developments that has happened to our program," Olson said.

The facility will be available for community use through auspices of the PLU Athletic Club.

Designed by Tacoma architect Russ Garrison, the Names Center has been built by Western Constructors of Tacoma under the supervision of Nick Ockfen.

At the dedication, Names said, "We are very happy we could do something like this. We think it adds a touch of class to a classy university."

A Decade of Excellence

Luther W. Bekemeier

At this milestone in the history of Pacific Lutheran University, a bold challenge for a Decade of Excellence stands before us. The University is rapidly approaching the fulfillment of a century of ever-increasing academic excellence. From humble beginnings in 1890 under the visionary leadership of Bjug Harstad, the University has developed into one of the finest independent schools in the Pacific Northwest and, in the opinion of many, one of the outstanding academic institutions in the nation.

With the century mark in view, it is appropriate that the University embark on a development effort that will emphasize not only the significant strides that have occurred in support of the school, but also take advantage of the tremendous potential that exists among its alumni and friends, churches, businesses, and foundations. While these support constituencies of the University have been very generous in the past, these friends and constituencies now have a vision for PLU that will offer potential financial support of a magnitude perhaps unimagined. With this in mind, during the remaining years leading up to PLU's 100th anniversary, it seems fitting that the University launch a campaign that stresses the "countdown" of development leading up to that century mark.

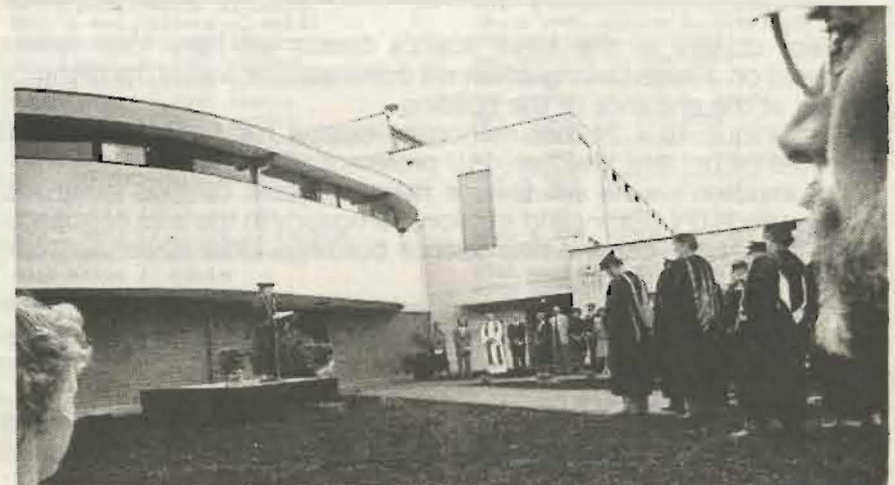

It seems obvious that we should include the decade preceding the 100th anniversary in proposing such a "countdown" campaign, because it is during this ten-year period that important physical growth (as well as outstanding academic achievement) has and will continue to take place on the campus.

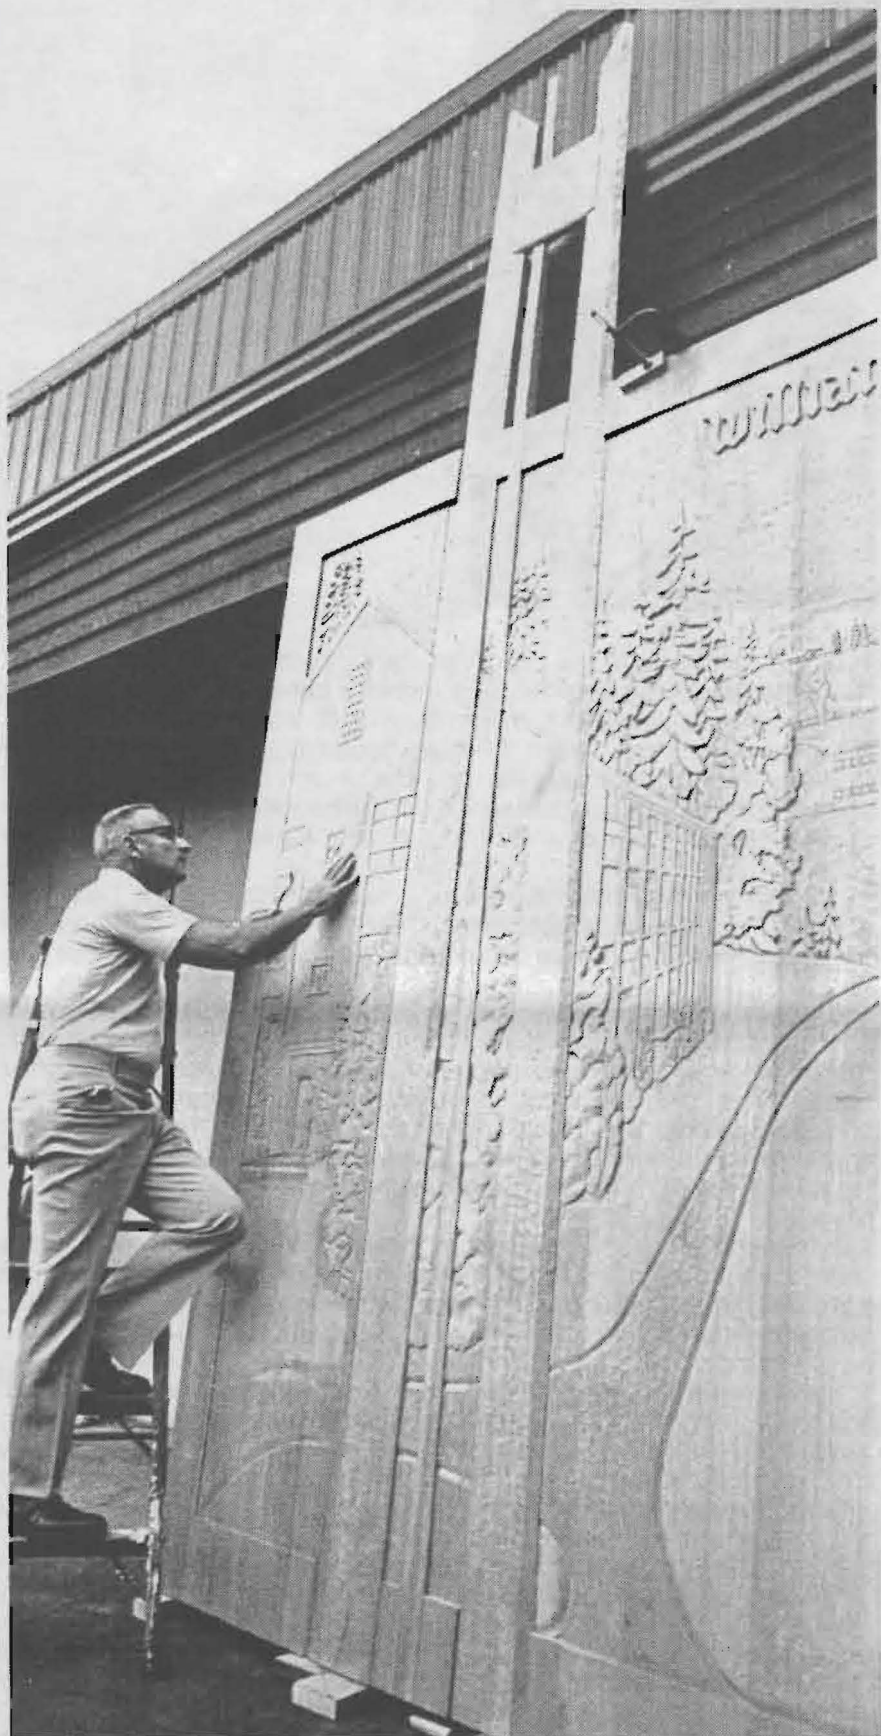

The Names Fitness Center, dedicated in opening convocation this fall, and the William O. Rieke Science Center, scheduled to be dedicated on January 27, 1985, have become realities. Certainly, as God's sun continues to shine on PLU the next five years, we'll see the growth and completion of several long hoped for facilities and numerous other additions and alterations to the University's campus.

During the years from 1980/84, development efforts have resulted in gifts to the University totaling \$20,894,000. It is anticipated that between 1984 and 1990, another \$30 million will be realized in gifts and grants. A bold challenge for a Decade of Excellence stands before us. We will establish a goal of \$50 million. With \$20 million already received, we are well on our way toward achievement.

Last fiscal year, the gifts to PLU recorded a 40 percent increase over the year before. This year, the gifts exceeded even that with a total of \$3,815,924. In the following pages, we, with grateful thanks, record the names of our loyal alumni and faithful friends together with congregations, corporations, and foundations that shared in the strength that is Pacific Lutheran University.

Jens Knudsen examines three of the 10 ten-foot high panels which will comprise the donor recognition wall in the Rieke Science Center.

Knudsen Carves Huge 'Recognition Wall' To Honor Major Donors

Major donors to the Rieke Science Center will have their names featured on a huge carving which will dominate one wall of the resource center at the entrance of the building.

The unique 10 x 24-foot mahogany carving has been created and donated by Dr. Jens Knudsen, PLU professor of biology.

Dr. Knudsen's work will feature major symbolic campus landmarks relating to PLU's history and mission, particularly in the area of science. They include the old and new science buildings, clock tower, Eastvold Auditorium and Harstad Hall.

Knudsen has been widely recognized for years as a versatile part-time self-taught artist. A 1952 PLU alumnus who has taught at his alma mater for 27 years, he earned the Regency Professorship, PLU's highest teaching honor, in 1973.

Fundraising efforts continue as the new science center nears completion, with a series of special events and open houses scheduled for January 1985. The PLU Development Office welcomes inquiries

\$400,000 Kresge Challenge Grant To Aid Completion Of Science Center

A \$400,000 challenge grant to be used for the completion of the William O. Rieke Science Center at Pacific Lutheran University was approved this past summer by the Kresge Foundation of Troy, Mich.

PLU is required to raise a matching \$400,000 in pledges from alumni, friends and business by May 15, 1985 to be eligible for the grant.

Kresge considered 1,285 grant proposals this past year and awarded challenge grant commitments to 128 charitable institutions in 35 states. The grants are made on a challenge basis to assure completion of the projects.

The majority of the grants were for construction or renovation projects and most recipients had raised initial funds before applying for assistance.

"We are delighted to have been selected by one of the outstanding foundations in the country," said Luther Bekemeier, PLU vice-president for development.

The Kresge grant was one of 44 received by PLU as the result of proposals submitted during the 1983-84 fiscal year. Total amount of the approved grants was \$867,619, Molly Edman, PLU director of corporate and foundation funding, reported.

Among the largest of the approved grants was a second year of funding from the U.S. Office of Education to the PLU School of Education, Department of Special Education, for grants totaling \$79,332.

KPLU-FM received \$52,405 from the corporation for Public Broadcasting.

Equipment valued at \$36,945 was donated to the PLU Computer Center by Digital Equipment Corporation.

A five-year, \$25,000 grant for the science building project was approved by Frank Russell Company, as was a three-year \$25,000 grant for curriculum study from the Honeywell Foundation.

THE ANNUAL FUND

Gifts to the University's Annual Fund provide vital support to every area of the institution. Scholarships, faculty salaries, library resources, and facilities maintenance represent some of the more significant areas where Annual Fund gifts are put to use.

The following pages list the names of friends, alumni, businesses and churches who have supported Pacific Lutheran University during the past fiscal year, June 1, 1983 through May 31, 1984.

Every attempt has been made to ensure the accuracy of this list. If an error is found, please notify us so that we may adjust our records.

THE PLU Q CLUB

Members of the Pacific Lutheran University Q Club provide unrestricted gifts and scholarships to the University's Annual Fund. Their gifts help secure PLU's commitment to quality education in a Christian context.

Q Club gifts

- help underwrite the cost of education for every student
- provide scholarships and financial aid to needy students (nearly 70% of our students need some financial assistance)
- allow the University to keep a balanced budget without sacrificing quality

The Q Club began in 1972 with 100 members who contributed \$15,000 to PLU. Today, there are over 1,140 members who gave nearly \$500,000 to the University during the past fiscal year.

The following roster lists Q Club members of record as of May 31, 1984.

THE HERITAGE SOCIETY

Members of the Heritage Society are those individuals who have included Pacific Lutheran University in some type of deferred gift-bequest, charitable trust, revocable trust, charitable gift annuity, life insurance, pooled income fund agreement, or gift of a residence or farm with a retained life estate. Membership is not based on the amount of the deferred gift. The sole criterion is the remembrance of Pacific Lutheran University in one's estate planning. The purposes of the Heritage Society are:

To show gratitude and recognition to those who have expressed concern for PLU by providing for a deferred gift.

To assist members of the Society in their on-going estate planning.

To encourage others to become members of the Society.

The following roster lists Heritage Society Members of record as of April 1983.

Alumni Annual Fund Participation by Classes

Why is the percentage of alumni who give each year to the Annual Fund important?

One of the first questions which foundations and major donors ask of us is this:

How many of your alumni regularly support your institution?

Our answer to that question often determines the size of their gift.

CONTRIBUTORS TO THE CAPITAL FUND

SHARING IN STRENGTH 1983-84

Gifts to the goals of Pacific Lutheran University's \$16.5 million capital campaign, SHARING IN STRENGTH, make possible the accomplishment of the University's major capital and endowment objectives as well as provide for renovation of existing facilities. Major objectives are identified as: The new William O. Rieke Science Center and the proposed fine arts center (including a Scandinavian Cultural Center), an increased endowment for scholarships and for new facilities maintenance.

The following lists, arranged by constituent groups, represent donors who have made contributions during the fiscal year June 1, 1983, through May 31, 1984.
