Class Schedule

FALL SEMESTER

1957

FALL SCHEDULE — 1957

The 1957 Fall semester offerings are listed alphabetically according to departments.

Courses open to freshmen and sophomores are numbered 101-299 and are considered lower division subjects. Courses open to juniors and seniors are numbered 300-499 and are regarded as upper division subjects. Courses numbered 500 are open to graduate students only.

The student should have his entire program made up of subjects in the division in which he classifies. In exceptional cases sophomore students may be assigned to an upper division course if the prerequisites for the course have been met.

Prerequisites can be ascertained from your advisor or the general catalog. In most cases lower division courses are basic and should be completed before registering for upper division courses.

A student must have a grade point average of 2.25 to be eligible to register for any courses in the Education department.

The number in parentheses following the course title is the number of semester hours of credit allowed for the course.

The letters La, Lb, Lc, etc., refer to the laboratory sections. The letter S with a number (S1, S2, S3, etc.) refers to the class section.

The time for the courses is given according to periods in the day and not according to the hour of the day. The student's program should designate the period and not the hour of the day except in the case of courses offered at 4:30 p.m. and 7:00 p.m., when the hour will be designated.

The college reserves the right to cancel any class for which there is insufficient registration.
