PACIFIC LUTHERAN
UNIVERSITY Tacoma, WA

A Partnership in Excellence

The information contained herein reflects an accurate picture of Pacific Lutheran University at the time of publication. However, the university reserves the right to make necessary changes in procedures, policies, calendar, curriculum, and costs.

Listed in this catalog are course descriptions and summaries of degree requirements for majors, minors, and other programs in the College of Arts and Sciences and the Schools of the Arts, Business Administration, Education, Nursing, and Physical Education. Detailed degree requirements, often including supplementary sample programs, are available in the offices of the individual schools and departments. Advising by university personnel inconsistent with published statements is not binding.

Volume LXVI No. 4
August, 1986

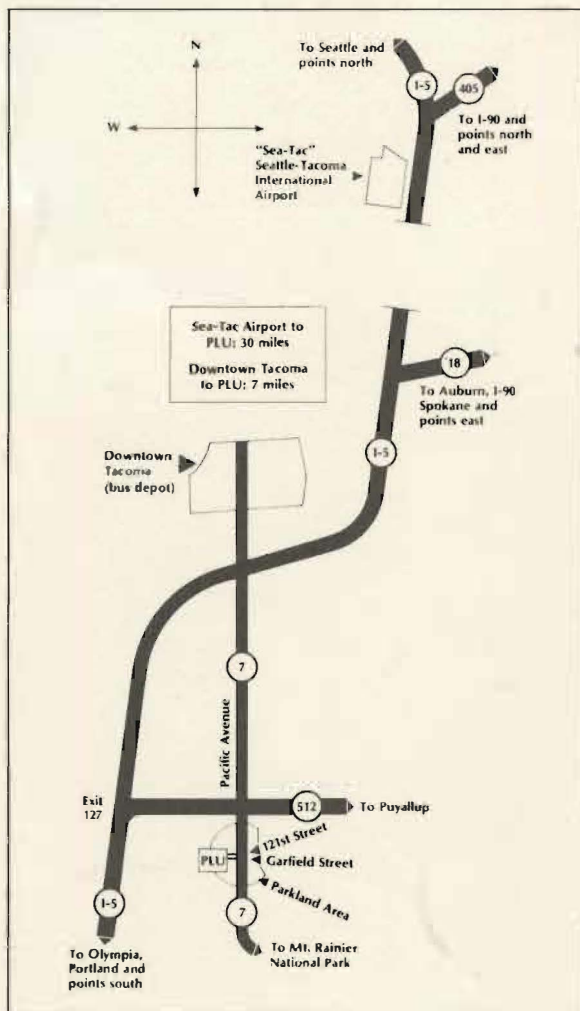

Pacific Lutheran University Catalog USPS 417-660
Published bi-monthly by Pacific Lutheran University, South 121st and Park Avenue, Tacoma, Washington 98447-0003. Second Class postage paid at Tacoma WA. Postmaster: send address changes to Office of Admissions, PLU, P.O. Box 2068, Tacoma, WA 98447-0003.

Pacific Lutheran University does not discriminate on the basis of sex, race, creed, color, national origin, age, or handicapped condition in the educational programs or activities which it operates, and is required by Title IX of the Education Amendments of 1972 and the regulations adopted pursuant thereto, by Title VI and Title VII of the Civil Rights Act of 1964, and by Section 504 of the Rehabilitation Act of 1973 not to discriminate in such manner. The requirement not to discriminate in educational programs and activities extends to employment therein and to admission thereto.

Inquiries concerning the application of said acts and published regulations to this university may be referred to:

1. The Director of Personnel, Room 107, Hauge Administration Building, Pacific Lutheran University, telephone 535-7185, for matters relating to employment policies and practices, promotions, fringe benefits, training, and grievance procedures for personnel employed by the university.
2. The Deputy Provost, Room 104, Hauge Administration Building, Pacific Lutheran University, telephone 535-7125, for matters relating to student admissions, curriculum, and financial aid.
3. The Associate Dean for Student Life, Room 115, Hauge Administration Building, Pacific Lutheran University, telephone 535-7191, for matters regarding administrative policies relating to students, student services, and the student administrative grievance procedure.
4. The Associate Dean for Student Life, Room 115, Hauge Administration Building, Pacific Lutheran University, telephone 535-7191, for matters relating to the application of Section 504 of the Rehabilitation Act.
5. The Director of the Academic Advising and Assistance Center, Ramstad Hall, Pacific Lutheran University, telephone 535-7519, for matters relating to the academic grievance procedure.
6. Or the Assistant Secretary for Civil Rights, U.S. Department of Education, Switzer Building, 330 C Street S.W., Washington, D.C. 20202.

Pacific Lutheran University complies with the Family Education Rights and Privacy Act of 1974. Inquiries concerning the application of this act and published regulations to this university may be referred to the Executive Secretary to the Vice President and Dean for Student Life, Room 115, Hauge Administration Building, Pacific Lutheran University, telephone 535-7191, or the Family Education Rights and Privacy Office, Department of Education, 330 Independence Avenue S.W., Washington, D.C. 20201 (telephone 202/245-0233).

Objectives of the University

Pacific Lutheran University, born of the Reformation spirit, maintains the privilege of exploration and learning in all areas of the arts, sciences, and religion. The basic concern of Martin Luther was religious, but his rejection of church tradition as primary authority, and his own free search for religious truth, served in effect to liberate the modern mind in its quest for all truth. The total impact of Luther's stand has permanently shaped the modern world and helped provide the modern university with its basic methodology.

Pacific Lutheran University is a community of professing Christian scholars dedicated to a philosophy of liberal education. The major goals of the institution are to inculcate a respect for learning and truth, to free the mind from the confinements of ignorance and prejudice, to organize the powers of clear thought and expression, to preserve and extend knowledge, to help men and women achieve professional competence, and to establish lifelong habits of study, reflection, and learning. Through an emphasis on the liberating arts, the University seeks to develop creative, reflective, and responsible persons. At the same time, the acquisition of specialized information and technical skill is recognized as a condition of successful involvement in the modern world. The University seeks to develop the evaluative and spiritual capacities of the students and to acquaint them honestly with rival claims to the true and the good. It encourages the pursuit of rich and ennobling experiences and the development of significant personhood through an appreciation of humanity's intellectual, artistic, cultural, and natural surroundings. The University affirms its fundamental obligation to confront liberally educated men and women with the challenges of Christian faith and to instill in them a true sense of vocation.

By providing a rich variety of social experiences, Pacific Lutheran University seeks to develop in the student a joy in abundant living, a feeling for the welfare and personal integrity of others, good taste, and a sense of social propriety and adequacy. Distinguishing between personal Christian ethics and normal social controls, the University adopts only such rules as seem necessary for the welfare of the educational community.

The physical development of students is regarded as an integral part of their liberal education. Hence the University encourages participation in physical activities and respect for health and fitness.

Professing a concern for human nature in its entirety, the faculty of the University encourages wholesome development of Christian faith and life by providing opportunities for worship and meditation, offering systematic studies of religion, and encouraging free investigation and discussion of basic religious questions. The University believes the essence of Christianity to be personal faith in God as Creator and Redeemer, and it believes that such faith born of the Holy Spirit generates integrative power capable of guiding human beings to illuminating perspectives and worthy purposes. The University community confesses the faith that the ultimate meaning and purposes of human life are to be discovered in the person and work of Jesus Christ.

As an educational arm of the Church, Pacific Lutheran University provides a locus for the fruitful interplay of Christian faith and all of human learning and culture, and as such holds it a responsibility to discover, explore, and develop new frontiers. Believing that all truth is God's truth, the University, in achieving its educational and spiritual goals, maintains the right and indeed the obligation of faculty and students to engage in an unbiased search for truth in all realms.

General Information

HISTORY

Pacific Lutheran University was founded in 1890 by men and women of the Lutheran Church in the Northwest, and by the Reverend Bjug Harstad in particular. Their purpose was to establish an institution in which their people could be educated. Education was a venerated part of the Scandinavian and German traditions from which these pioneers came.

The institution opened as Pacific Lutheran Academy. Growing in stature, PLA became a junior college in 1921. Ten years later, it was organized into a three-year normal school which became a college of education in 1939.

After 1941, it expanded as Pacific Lutheran College until it was reorganized as a university in 1960, reflecting the growth of both its professional schools and liberal arts core.

ACCREDITATION

Pacific Lutheran University is fully accredited by the Northwest Association of Schools and Colleges as a four-year institution of higher education and by the National Council for the Accreditation of Teacher Education for the preparation of elementary and secondary teachers, principals, and guidance counselors with the master's degree as the highest degree approved. The university is also approved by the American Chemical Society. The School of Nursing is accredited by the National League for Nursing. The School of Business Administration is accredited by the American Assembly of Collegiate Schools of Business. The Social Work Program is accredited by the Council on Social Work Education at the baccalaureate level. The Department of Music is accredited by the National Association of Schools of Music. Any current or prospective student may, upon request directed to the president's office, review a copy of the documents pertaining to the university's various accreditations and approvals.

INSTITUTIONAL MEMBERSHIPS

The University is a member of:
 American Association of Higher Education
 American Council on Education
 Association of American Colleges
 Independent Colleges of Washington, Incorporated
 Lutheran Educational Conference of North America
 National Association of Summer Schools
 Washington Friends of Higher Education
 Western Association of Graduate Schools
 Western Interstate Commission for Higher Education

GROUNDS

Located in suburban Parkland, PLU has a picturesque 126-acre campus, truly representative of the natural grandeur of the Pacific Northwest.

ENROLLMENT

2,860 full-time students
 898 part-time students

FACULTY

214 full-time faculty
 82 part-time faculty

STUDENT/FACULTY RATIO

15.5:1

ACADEMIC PROGRAM

In 1969 Pacific Lutheran University adopted the 4-1-4-calendar which consists of two fourteen-week semesters bridged by a four-week interim period.

Course credit is computed by hours. The majority of courses are offered for 4 hours. Each undergraduate degree candidate is expected to complete 128 hours with an overall grade point average of 2.00.

Degree requirements are specifically stated in this catalog. Each student should become familiar with these requirements and prepare to meet them.

LIBRARY SERVICES

The Robert A.L. Mortvedt Library is the central multi-media learning resource center serving the entire university community. Its collections are housed and services provided in a modern functional building which has study spaces for 700 students and shelving for more than one-quarter million books, periodicals, microfilm, and audio-visual materials. The library receives over 1,300 current magazines, journals, and newspapers.

In addition to its general collection of books and other materials, the library has a special collection devoted to the Scandinavian Immigrant Experience and contains the university and regional Lutheran church archives. Other special collections include the Curriculum Collection of the School of Education, the microfiche collection of college catalogs, maps, pamphlets, and national and trade bibliographies.

The library is open for service 110 hours during a typical week in a regular term. A staff of twenty-seven full and part-time librarians and assistants offer expert reference, information, and media services. The reference staff provides beginning and advanced library instruction for all students. In addition to standard reference service, the library staff also offers computerized bibliographic information service. As the result of the library's extensive collection of bibliographic tools, computer access to other collections, and electronic mail service, students and faculty have rapid access to materials which can be borrowed from other libraries.

LATE AFTERNOON AND EVENING CLASSES

To provide for the professional growth and cultural enrichment of persons unable to take a full-time college course, the university conducts late-afternoon and evening classes. In addition to a wide variety of offerings in the arts and sciences, there are specialized and graduate courses for teachers, administrators, and persons in business and industry.

SUMMER SESSION

An extensive summer school curriculum, of the same quality as that offered during the regular academic year, is available to all qualified persons. In addition, summer session typically is a time when the faculty offer innovative, experimental courses which cover a broad range of contemporary issues and perspectives in many fields. The summer session consists of three discreet four-week terms, a one-week pre-session, and a one-week interim session, and begins the last week of May. A few courses are taught in the evening, two nights per week for nine weeks, and Master of Business Administration courses are taught during two six-week terms, two nights per week. Designed for undergraduates and graduate students alike, the program serves teachers and administrators seeking credentials and special courses, freshmen desiring to initiate college study, and others desiring special studies offered by the schools and departments. Transient students who enroll for the summer session need only submit a letter of academic standing or give other evidence of being prepared for college study.

A complete *Summer Session Catalog*, outlining the curriculum as well as special institutes, workshops and seminars, is printed each spring and is available from the dean of the summer session at the university. Additional information may be obtained by calling 535-7143.

MIDDLE COLLEGE

PLU offers a special six-week summer program for high school juniors and seniors and for first-year college students. Called Middle College, the program is designed to ease the transition from high school to college by sharpening learning skills that are essential to successful completion of a college or university program.

Middle College has both an academic program and a counseling and testing component. All students are thoroughly tested and evaluated in private sessions with regard to their reading, writing, verbal, and mathematical skills. In addition, career counseling is provided. The aim of Middle College counseling is to assess each student's talents and interests in order to provide direction and goals for the college experience.

The academic program offers a chance to improve specific learning skills essential to college success. The classes, offered at several levels in several disciplines, are for Middle College students only, thereby allowing small class size and close contact between students and faculty. All students will take a study skills course, which serves as a core of the program. In addition, students may select two or three courses from among those offered each year. Each student's program is individualized to promote maximum growth.

PROJECT ADVANCE

Each semester PLU offers Project Advance, a special enrichment program for high school juniors and seniors. Designed to complement high school studies, Project Advance allows students to earn one hour of university credit and to experience college life and study. The topic of the course is different each semester, and fall topics are chosen to coincide with the high school National Debate Topic. Project Advance classes meet once a week for six weeks in the late afternoon.

RETENTION OF FRESHMEN

The retention of students entering as freshmen has been monitored since 1972. Those data are presented in the following table:

Retention of Entering Freshmen

	To Sophomore Year	To Junior Year	To Senior Year
1972	70.1%	51.9%	46.1%
1973	74.7%	54.3%	48.7%
1974	74.0%	54.0%	49.8%
1975	71.2%	52.9%	50.8%
1976	69.3%	52.8%	47.5%
1977	74.7%	57.2%	52.4%
1978	74.2%	58.6%	56.4%
1979	74.8%	60.6%	55.4%
1980	78.6%	58.2%	54.1%
1981	71.1%	57.1%	52.7%
1982	77.6%	60.1%	54.6%
1983	75.7%	59.8%	
1984	78.5%		

Admission

Pacific Lutheran University welcomes applications from students who have demonstrated capacities for success at the baccalaureate level. Applicants who present academic records and personal qualities which our experience indicates will enable them to succeed at the university and benefit from the environment will be offered admission. Applicants for admission are evaluated without regard to sex, race, creed, color, age, national origin, or handicapped condition. Selection criteria include grade point average, class rank, transcript pattern, test scores, and recommendations.

In evaluating applications the Dean of Admissions interprets grade point averages and class rank in relation to the quality of the curriculum which the applicant has pursued in high school and in the light of recommendations published by the national Commission on Excellence in Education. Foreexample, a standard high school program in preparation for college would typically include the following:

- English: 4 years
- Mathematics: 3 years (algebra, 2 years, and geometry, 1 year)
- Foreign Language: 2 years
- Social Studies: 2 years
- Laboratory Sciences: 2 years
- Electives: 3 years (selected from the areas listed above, as well as courses in computer science, speech, debate, typing, and music).

Additional study of both mathematics and foreign language is advisable for certain areas in the arts and sciences and in some professional programs. Those who follow the above preparatory program will find most curricular offerings of the university open to them and may also qualify for advanced placement in some areas.

Effective with the fall semester of 1988, entering students will be required to have completed two high school years of one foreign language (or the equivalent) and two years of college preparatory mathematics (or the equivalent), excluding courses in computer science.

Students are admitted to either the fall or spring semester. Acceptance to the fall term carries permission to attend the previous summer sessions. Spring acceptance approves enrollment in the January interim. The following application deadlines are suggested: *Fall Semester—June 1; Spring Semester—January 1.*

APPLICATION PROCEDURE:

ENTERING FRESHMEN

Students planning to enter as freshmen may submit application materials anytime after completion of the junior year of high school. Admission decisions are made beginning December 1 unless a request for Early Decision is received. Candidates are notified of their status as soon as their completed application has been received and evaluated. Credentials required are:

1. *Formal Application:* Submit the *Uniform Undergraduate Application for Admission to Four-Year Colleges and Universities in the State of Washington*. Available from high school counselors or the PLU Office of Admissions.
2. *\$25.00 Application/Records Fee:* A \$25 fee must accompany your application or be mailed separately. This non-refundable service fee does not apply to your account. Make checks or money orders payable to Pacific Lutheran University and mail to the PLU Office of Admissions.
3. *Transcript:* The transcript you submit must include all credits completed through your junior year of high school. If admission is offered, an acceptable final transcript which indicates satisfactory completion of the senior year and attainment of a diploma must be presented.
4. *Recommendations:* Two recommendations must be prepared by principals, counselors, pastors, or other qualified persons. The PLU Office of Admissions will supply the forms.
5. *Test Requirement:* All entering freshmen must submit scores from either the College Board, Scholastic Aptitude Test (SAT), or the American College Test Assessment (ACT) or, for Washington State residents, the Washington Pre-College Test (WPCT). Registration procedures and forms are available at high school counseling offices.

EARLY DECISION

High school students who have decided upon PLU as their first choice may be offered admission as early as October 1 of their senior year. Early Decision applications must be made by *November 15* of the senior year. SAT, ACT, or WPCT scores from the previous May or July are acceptable. Early Decision students are given preferential treatment in campus housing and financial aid. An Early Decision form is available from the Office of Admissions. If an Early Decision is unfavorable, a student may still be considered for regular admission.

EARLY ADMISSION

Qualified students interested in accelerating their formal education may begin work toward a degree after completion of the junior year or first semester of the senior year of high school. Exceptional students who wish to enroll before completing all required units in high school must have a letter submitted by a recognized school official which approves early college admission and gives assurance that a high school diploma will be issued after completion of specified college work. Only students highly recommended for Early Admission will be considered. Generally these students rank among the top students in their class and present high aptitude test scores.

ADVANCED PLACEMENT OPPORTUNITIES

1. *College Board Examinations:* Students interested in seeking advanced placement or credit toward graduation through the examination program of the College Board should direct inquiries for specific information to the department or school which offers the academic subject of their choice. General inquiries about the College Board program may be addressed to the Office of Admissions.
2. *Departmental Examinations:* A number of departments and schools offer placement examinations in order that students may be advised as to the level at which they may most advantageously pursue a given subject. Credit toward graduation may be given in certain cases, depending on the examination score and whether the subject matter was *not* part of the course work by which the high school diploma was earned. Again, inquiries for specific information should be directed to the department or school offering the particular subject.

APPLICATION PROCEDURE:

TRANSFER STUDENTS

Students who began their higher education at other accredited colleges or universities are encouraged to apply for admission with advanced standing. Candidates must have good academic and personal standing at the institution last attended full-time. Although it does not guarantee admission, a grade point average of (2.25) in all college work attempted is required for regular admission. Test scores may be required for applicants who have limited college experience. Credentials required are:

1. *Formal Application:* Submit a Uniform Undergraduate Application with \$25.00 non-refundable application/records fee.
2. *Transcripts:* Official transcripts from all previous collegiate institutions attended must be sent by those institutions directly to the PLU Office of Admissions. Official high school transcripts of credits are necessary if they are not listed on college transcripts.
3. *Clearance Form:* The office of the dean of students at your most recently attended (full-time) institution must complete a clearance form (provided by the PLU Office of Admissions).
4. *Recommendations:* Two recommendations must be prepared by instructors, counselors, pastors, or other qualified persons. The PLU Office of Admissions provides the forms.

EVALUATION OF CREDITS

1. The registrar evaluates all transfer records and creates an advising booklet (*Gold Book*) indicating completion of any core requirements and total hours accepted. Individual schools and departments determine which courses satisfy major requirements.
2. Generally, college-level courses carrying grade "C" or above apply toward graduation. "D" graded courses will be withheld until a student has successfully completed one semester's work at the university.

3. A community college student may transfer a maximum of 64 semester (96 quarter) hours of credit from the two-year institution.
4. To qualify as a degree candidate, a student must take the final 32 semester hours in residence.

UNACCREDITED EDUCATIONAL EXPERIENCES

1. Credits earned in unaccredited schools are not transferable at the time of admission. Evaluation and decision on such courses will be made after the student has been in attendance at the university one semester.
2. The university allows up to 20 semester hours of USAFI credit and up to 20 semester hours for military credit, providing the total of the two does not exceed 30 semester hours.
3. The university does not grant credit for college-level GED tests.
4. For information on the College Level Examination Program (CLEP), refer to the section on Credit by Examination under Academic Procedures.

ACCELERATED UNDERGRADUATE REENTRY FOR ADULTS (AURA)

Qualified adults, 30 years of age or older, who have not been enrolled in a baccalaureate degree program within the last five years, may seek advanced placement at up to the junior level through the AURA Program. Those accepted into AURA are granted one year's provisional admission, during which time they must complete 12 credits at PLU (including Psychology 401) with a grade point average of 2.5 or higher. Credit awards for prior learning are based upon systematic assessment by a faculty panel of the adequacy and appropriateness of knowledge and skills demonstrated in a portfolio prepared by the student with staff assistance. Credit awards may not exceed 48 semester credits less acceptable college transfer credits.

For details of the AURA Program, contact the Director, AURA Program, 535-7518.

APPLICATION PROCEDURE:

FORMER STUDENTS

Full-time students who have not been in attendance for one semester or more may seek readmission by obtaining an application for re-entrance from the Office of Admissions unless they have been approved, at the time of last enrollment, for a leave of absence. Students who have been dropped for academic or disciplinary reasons must identify a faculty member willing to act as a sponsor and adviser if re-admitted. Re-entering students who have attended another college in the meantime must request that a transcript be sent from the institution directly to the dean of admissions.

APPLICATION PROCEDURE:

FOREIGN STUDENTS

Foreign students who are qualified academically, financially, and in English proficiency are encouraged to join the university community. Information and application procedures may be obtained from the dean of admissions.

FINALIZING AN OFFER OF ADMISSION

1. *Medical Requirement:* Before final matriculation, each new full-time undergraduate student (ten semester hours or more) must submit a Medical History Record acceptable to the PLU Health Service.
2. *Advance Payment:* A \$100.00 advance payment is necessary following an offer of admission. This payment is the student's acknowledgement of acceptance and both guarantees a place in the student body and reserves housing on campus if requested. It is credited to the student's account and is applied toward expenses of the first semester. *Fall applicants offered admission before May 1 must submit the payment by May 1.* If circumstances necessitate cancellation of enrollment and the dean of admissions is notified in writing before May 1, the \$100.00 will be refunded. The refund date for interim is December 15, and for spring semester, January 15.
3. *New Student Information Form:* This form includes the application for housing and must be completed by *all* students and returned with the advance payment.

Financial Aid

Recognizing that many students who want to attend Pacific Lutheran University would be unable to meet all expenses of enrollment from personal or family sources, the university attempts to provide financial assistance to all eligible students. Any student approved for enrollment or currently enrolled may request financial aid. Approximately 70% of the university's students receive help in the form of gift assistance (that is, scholarships, talent awards, or grants), low interest deferred loans, or employment. In many cases a financial aid award will be a combination of these forms of assistance.

The quantity and composition of an award is based upon demonstrated financial need, academic achievement, test scores, and other personal talents and interests. Need is determined from analysis of the Financial Aid Form (FAF), which is a statement of financial condition provided by the College Scholarship Service (CSS). Analysis of the Financial Aid Form determines an expected contribution for college expenses from the student and parents or guardian. "Financial Need" is defined as the difference between total student expenses for an academic year and the expected student/family contribution and is a primary factor in determining eligibility for most available aid.

Financial assistance is available to all qualified students regardless of their sex, race, creed, color, age, national origin, or handicapped condition.

APPLICATION PROCEDURE:

FRESHMEN AND TRANSFERS

1. **PRIORITY DATE:** All materials must be in the Financial Aid Office by **March 1**.
2. Mail a Financial Aid Form (FAF) to the College Scholarship Service (CSS) by February 1.
3. Be offered admission by March 1.
4. Submit a PLU Financial Aid Application (available upon request).
5. Submit a Financial Aid Transcript from all prior institutions attended (transfers only).

CONTINUING STUDENTS

1. **PRIORITY DATE:** All materials must be in the Financial Aid Office by **April 1**.
2. Mail a Financial Aid Form (FAF) to the College Scholarship Service (CSS) by March 1.
3. Submit a PLU Financial Aid Application.

An application for financial aid can be completed at any time, but failure to meet the priority date may result in a denial of aid even though need is demonstrated. The Financial Aid Office will consider all applicants for any award for which they might be eligible. *Aid awards are for one year and most are renewable, provided reapplication is completed on time, financial need continues, and satisfactory academic progress is maintained. Aid is not automatically renewed each year.*

NOTIFICATION OF AWARD DECISIONS

1. Award decisions for freshmen and transfer students who meet the March 1 completion date will be made in March, and actual notification will be mailed April 1.
2. Financial aid decisions for continuing PLU students are made in April and notifications are sent out beginning in May.

VALIDATING THE AID OFFER

Aid offers must be validated by returning the signed Financial Aid Award Notice and submitting the \$100 advance payment required by the university. This should be done as soon as possible but must be completed by May 1. Applicants not returning their acceptance of an award by the reply date specified will have their awards cancelled. If an applicant later decides to reapply, the application will be reviewed with the group currently being processed.

Aid, with the exception of College Work-Study and Washington State Need Grants, is credited to the student's account when all paperwork has been completed. One-half of the award is disbursed each semester. Parents and students are responsible for the charges in excess of the award.

In some cases aid is awarded in excess of direct university charges to help with living expenses. This money will remain on the student's account unless requested by the student through the Business Office after classes have begun.

Under federal regulations, adjustments to an award package must be made if a student receives additional awards of aid from sources

external to the university. In every case, however, the Financial Aid Office will attempt to allow the student to keep as much of the award package as possible. By treating aid received from external sources in this way, additional awards from the university's resources can be made to other qualified needy students.

RIGHTS AND RESPONSIBILITIES

The basic responsibility for financing an education at PLU rests with students and their families. In addition to expected contributions from parents or guardians, students are expected to assist by contributing from their savings and summer earnings. Financial assistance from the university is therefore supplementary to the efforts of a student's family. It is provided for students who demonstrate need.

Additional rights and responsibilities of financial aid recipients include:

1. Signing and returning *each* financial aid notice received.
2. Declining at any time any portion of an award.
3. Notifying the Financial Aid Office in case of a change in credit hours attempted; a change in marital status; a change in residence (off-campus or at home); or receipt of additional outside scholarships.
4. Providing a copy of their parents' income tax return (Form 1040) and/or a copy of their own individual income tax return.

ACADEMIC REQUIREMENTS/SATISFACTORY PROGRESS

The policy of the Financial Aid Office is to allow students to continue receiving financial assistance as long as they are in good standing at the university. To do otherwise would cause a severe hardship on students who must devote their efforts to achieving satisfactory grades. However, no institutional grants will be awarded to students with cumulative grade point averages below 2.00.

To be given priority for most types of financial aid, an applicant must be enrolled as a full-time student. For federal financial aid programs, a full-time student is defined as any person enrolled for a minimum of twelve credit hours or more per semester. *Adjustments in an award may be made during the year if an aid recipient has not enrolled for a sufficient number of credit hours. However, each financial aid recipient must maintain satisfactory academic progress in the course of study he or she is pursuing in order to continue to receive financial assistance awarded by the PLU Financial Aid Office. The following minimum requirements are expected of each financial aid recipient:* To make satisfactory progress toward a degree, an undergraduate student must complete a minimum of 24 semester hours of credit each academic year. An academic year is defined as the fall semester, the interim term, and the spring semester. As part of their undergraduate program, students are required to complete two interim terms (8 hours from courses numbered 300-320); junior and senior transfer students need to complete only one interim term (4 hours from courses numbered 300-320). Graduate students are required to complete 16 semester hours of credit each academic year.

For full-time undergraduate students receiving financial aid, the maximum number of credit hours that may be attempted is 175 and the maximum time-frame for completing a baccalaureate degree is five years. Even if a student changes his or her major or academic program, only 175 credit hours may be taken qualifying for financial aid, and the maximum time-frame of five years for receiving a degree is enforced. Some financial aid programs (e.g., Washington State Need Grants) allow aid to be awarded a maximum of four academic years. The maximum number of full-time graduate credit hours that may be attempted is 48, and the maximum time-frame to complete a graduate degree is three years.

Provisions to accommodate non-traditional, part-time students have also been established. Undergraduate students who qualify for these provisions must complete a minimum of 12 credit hours each academic year and achieve a degree within a maximum time-frame of ten years (the maximum number of credits allowable is 350). Graduate students who qualify for these provisions must complete a minimum of 8 credit hours each academic year and achieve a degree within a maximum time-frame of seven years (the maximum number of credits allowable is 56).

The Registrar's Office evaluates the transcripts of credits submitted by transfer students and determines which credits are acceptable toward a degree at Pacific Lutheran University. Notification of the number of credits yet to be earned and of the time-frame in which financial aid may be awarded is communicated to students during their first term of enrollment. The same procedure applies to all continuing students who have never previously received financial assistance.

The following grades do not indicate successful completion of academic credit applicable toward a degree: E grades, I (Incomplete), W (Withdrawal), EW (Unofficial Withdrawal, recorded by the registrar), F (Failure). Any courses in which such grades are received are, however, included in the maximum number of credits that may be attempted (175) and are considered to be within the maximum time-frame allowable for achieving a degree (five years).

All credits earned by examination, which are accepted as applicable toward a degree, will be included in the limitation on credits which can be attempted while eligible for financial aid.

Courses that are repeated are also counted in the limitation on credits which can be attempted. Once a course has been completed successfully, the credit hours earned are counted toward the minimum number of hours which can be taken under financial aid eligibility. If a course is successfully completed more than once, it is counted only once toward a student's degree requirements and toward the minimum number of hours which can be taken under financial aid eligibility.

The university's curriculum includes very few non-credit courses or courses whose credit hours are not applicable to a degree, but if any such courses are taken by financial aid recipients, the hours will be included in the limitation on credits which may be attempted and will be considered within the time-frame allowable for achieving a degree.

In the event that a student fails to meet the criteria for satisfactory progress during a particular semester, he or she will be placed on academic and financial aid probation. Failure to regain satisfactory academic status will result in the cancellation of financial aid.

Once "unsatisfactory progress" has been determined, students receive official notification. Terminated students may apply for reinstatement by submitting a letter of petition to the Registrar's Office and securing a faculty sponsor. The petition and sponsorship letters are submitted to the Faculty Committee on Admission and Retention of Students for action.

Students who are placed on financial aid probation may petition for reinstatement of their financial aid in one of two ways: (1) They may complete one semester of full-time enrollment using their own financial resources, or (2) they may submit an appeal to the Faculty Committee on Admission and Retention of Students documenting the unusual circumstances which have made it impossible to make satisfactory progress during the semester in question. Summer sessions may also be used as terms during which a student on financial aid probation may regain satisfactory academic status; however, students enrolling in summer sessions for this purpose must use their own financial resources and are ineligible for financial aid.

TYPES OF AID

UNIVERSITY GIFT ASSISTANCE

UNIVERSITY SCHOLARSHIPS are granted on the basis of academic achievement and financial need. To be considered, a freshman applicant must have a 3.30 secondary school grade point average. Scholastic ability must also be reflected in test scores from the Scholastic Aptitude Test (SAT), or the American College Test (ACT), or the Washington Pre-College Test (WPCT). *Transfer and continuing* students must have a 3.0 cumulative grade point average to be qualified for first-time or renewal awards. PLU is a sponsor of *National Merit Scholarships*. Students who earn semifinalist standing are encouraged to contact the Financial Aid Office for information concerning a PLU Merit Scholarship.

PRESIDENT'S SCHOLARSHIPS ranging from \$1,000 to \$1,200 annually are awarded to entering freshmen in recognition of outstanding academic achievement in high school and in anticipation of superior performance at PLU. To be a candidate, a student must have an exceptional high school grade average, usually 3.75 or higher, present high test scores, and receive an offer of admission by April 1. Use of a grade prediction equation to determine a predicted end of freshman year grade average is also a qualifying factor. *Financial need is not a determining factor* and no application is required. Usually forty (40) students are selected as President's Scholars without consideration of financial need. Renewal for a total of eight semesters is automatic provided that a 3.3 grade point average is maintained.

ALUMNI MERIT AWARDS of \$1,000 to \$1,200 are given to exceptional students who are sons and daughters of PLU alumni/ae. To be considered, entering freshmen must have a cumulative high school grade point average of 3.5 or higher. Non-freshmen and renewal candidates must have a minimum collegiate grade point average of 3.3 to be eligible. *Financial need is not a determining factor* and completion of a special application is recommended. Prospective freshmen must also be offered admission by April 1 to be considered.

FACULTY MERIT AWARDS of \$1,000 annually are granted to twenty-four (24) students who have completed 45 semester hours or more at PLU and are not receiving any other merit award. No separate application is required. Faculty will recommend students to a selection committee who will select recipients on the basis of scholastic achievement, special talents, and unusual service to the university.

PROVOST'S MERIT AWARDS ranging from \$1,000 to \$1,200 are granted to twenty (20) outstanding transfer students each year. To be considered a student must have a 3.6 grade point average in at least 45 semester hours of college level courses and receive an offer of admission by April 1. Preference will be given to students who will complete an associate degree at an accredited community college (or a comparable academic experience at an accredited four-year institution) before enrolling at PLU. A 3.30 grade point average earned at PLU is required for renewal. No application is necessary.

AIR FORCE AND ARMY ROTC SCHOLARSHIP recipients (4-year, 3-year, or 2-year) may attend Pacific Lutheran University. AFROTC classes are held at the Aerospace Studies Department on the University of Puget Sound campus, about 20 minutes driving

time from the PLU campus. Army ROTC classes are held on the PLU campus.

TALENT AWARDS are granted to students with financial need who have exceptional ability in the fields of forensics, drama, art, music, or athletics. The candidate must make arrangements with the school or department concerned for an audition and/or a personal interview. In some cases a tape or film will be satisfactory. A recommendation from a faculty member should be on file before the application priority date (see application procedure) for a student to be considered for a Talent Award.

UNIVERSITY GRANTS are awarded in combination with loans and employment to students with financial need who do not qualify for scholarship assistance. *Foreign Student Grants* are restricted to those foreign students who have provided their own resources for at least one year of attendance. Grants usually amount to less than one-third of the cost of attendance.

MINISTER'S DEPENDENT GRANTS are available to unmarried, dependent children of a *regularly ordained, active* minister or missionary of a Christian church. The minister's principal employment and primary source of income must be a result of church work. The minimum annual grant is \$200 but this may be increased to \$700 if the eligible student has a demonstrated financial need as determined from the Financial Aid Form. If a FAF is submitted no special MDG application is required. June 1 is the deadline for requesting this grant. Requests received thereafter will be honored only as budgeted funds permit.

ALUMNI DEPENDENT GRANTS of \$200 are given to full-time students whose parent(s) attended PLU (PLC) for two semesters or more. To be eligible the alumni dependent must be a full-time student (12 credit hours per semester) and complete an application in the Financial Aid Office. December 1 is the deadline for requesting this grant. Requests received thereafter will be honored only as budgeted funds permit.

GRANTS in the amount of \$100 per semester shall be given to each of two or more full-time students from the same family attending PLU simultaneously, provided that the main support for both is from parents and provided they have not received any other university grant or award. Married students are also eligible when both are full-time students. An application must be filed in the Financial Aid Office at registration or immediately thereafter. The grant will be credited after eligibility is established.

In addition to its own scholarship funds, the university has at its disposal the following restricted funds, generally awarded to those students who complete the regular application and who have finished their freshman year:

Aid Association for Lutherans Scholarships
 Allenmore Foundation Scholarship
 Alumni Scholarship Fund
 American Lutheran Church-North Pacific District Scholarship
 American Lutheran Church Scholarship and Grant Program for Minority Students
 Florence Spinner Anderson Memorial Scholarship
 Ruth Anerson Scholarship
 Associated Grocers Scholarship
 B.E.R.G. Minority Scholarship
 Binder Memorial Scholarship
 Iorunn Bejland Scholarship Fund
 Dr. and Mrs. W. B. Burns Fund
 Buzzaflatt Memorial Scholarship
 Henrietta Burton Nursing Scholarship Fund
 Carl Dalk Memorial Scholarship Fund
 Chopin Foundation Educational Scholarships
 Chevron Merit Awards
 Comercio Scholarship
 Irene O. Corso Merit Award
 Ida A. Davis Fund
 Doolittle Memorial Scholarship
 Leif Erikson Scholarship
 Faculty Memorial Scholarship Fund
 Faith Lutheran Church of Portland Scholarship Fund
 Henry Foss Scholarship (for Norwegian students)
 L. C. Foss Memorial Scholarship
 Haas Foundation
 Olaf Halvorsen Scholarship
 W. H. Hardike Seminary Student Scholarship Fund
 Suzanne Ingram Memorial Scholarship Fund
 Jerry Irwin Scholarship
 Johnson-Larson Scholarship
 Rex Karl Kilian Memorial Fund
 William Kilworth Foundation Scholarship Fund
 Melvin Kleveno Memorial Scholarship
 Ebba Larson Nursing Scholarship
 Ludvig and Clara Larson Scholarship
 Louise and Guy Leosman Memorial Scholarship
 Mr. and Mrs. W. Hilding Lundberg Endowed Scholarship
 Lutheran Brotherhood Legal Reserve Life Insurance Co. Scholarship
 Joe Marchuk Memorial Scholarship Fund
 Mathematics Scholarship
 Lila Mae Scholarship
 Mr. and Mrs. Gus H. Njstran Memorial Scholarship
 Margaret Nistad Memorial Scholarship
 Roper Paetel Memorial Scholarship
 Blanche Pfamm Scholarship
 PLU Women's Club Scholarship
 Portland Area Alumni Scholarship
 Kathryn Reese Memorial Scholarship
 Dr. Walter and Joan Redman Schwandt Scholarship
 Squadand Youth Scholarship (North Pacific District Luther League)
 Skinner Foundation Scholarship
 Smith Endowment Scholarship Fund
 Dora Stangland Memorial Scholarship
 Edwin and Ida Tingelstad Memorial Scholarship
 Evelyn S. Torvond Scholarship
 Ellen Valle Memorial Scholarship
 Hopper Memorial

Robert E. Olson Memorial
 Hedvig Arthur Memorial
 Donald A. Brunner Memorial
 Mark Salzman Memorial
 T. P. Carlstrom Scholarship
 Louis and Leona Lamp Scholarship
 Gordon Pearson Memorial
 Wade Hinderliche Scholarship Fund
 Washington State Automobile Dealers Scholarship
 Washington Congress of Parents, Teachers, and Students

GOVERNMENTAL GRANTS

THE PELL GRANT PROGRAM is a Federal program designed to provide the "foundation" for a financial aid package. It is intended for students with high financial need. When completing the Financial Aid Form (FAF) applicants should indicate that the information is to be used for determining their eligibility for the Pell Grant by checking the appropriate box. If the Student Aid Report (SAR) you receive indicates eligibility, all three copies should be sent to the Financial Aid Office.

SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS (SEOG) are available to students who have exceptional financial need. Grants range from \$200 to \$2,000 per year. The SEOG must be matched with at least an equivalent amount of other kinds of aid (grant, loan, or employment). Eligibility is determined by Federal guidelines.

WASHINGTON STATE NEED GRANTS are available to eligible residents of the State of Washington who attend PLU. These grants are intended for students with high need. On the basis of guidelines established by the Council on Post-Secondary Education, students with specified need as computed from the Financial Aid Form are submitted to the State for consideration. Present procedure does not require a separate application.

ARMY ROTC SCHOLARSHIPS are available (three-year or two-year) for students in all disciplines and are not based on need. Scholarships pay for full tuition, books, fees, and supplies, and include a \$100/month stipend (up to \$1,000 per school year). Weekly classes are held on campus.

STUDENT EMPLOYMENT

There are employment opportunities on campus and in the community that can help students meet college expenses. Priority for placement is given to those students who have demonstrated financial need and have been awarded a work-study eligibility. Over 900 students work on campus each year. The university's annual student payroll exceeds \$1,000,000. The average on-campus job approximates ten hours per week, and produces around \$1,050 during an academic year.

All student placements for on-campus and off-campus jobs are handled by the Career Services Office. Actual hiring of students is done at the beginning of the school year and at other times as vacancies occur.

The Federal College Work-Study Program offers only on-campus employment. To participate, students must be eligible for work-study.

The State Work-Study Program offers only off-campus work opportunities with profit-making and non-profit employers. Positions must be related to students' academic interests. To participate, students must be eligible for work-study.

LOANS

Many students invest in their future by borrowing educational funds. Low interest, deferred loans make it possible to pay some of the cost of education at a later time. Loans are often included with gift assistance and work to form a financial aid package.

There are three major sources of loans at PLU:

NATIONAL DIRECT STUDENT LOAN (NDSL)—Eligibility is determined by the PLU Financial Aid Office from the Financial Aid Form and is based on need. Most loans average \$1,000 annually, but cannot exceed \$3,000 for the first two years of school, nor an aggregate of \$6,000 for an undergraduate degree. No interest accrues and no payments on principal are necessary until six months after a recipient ceases to be a half-time student enrolled in an eligible institution. Simple interest is 5% during the repayment period. Up to 100% cancellation is available for teaching the handicapped or in certain low income areas. Repayment may be deferred because of further full-time study or service in the armed forces, VISTA, or the Peace Corps. Exit interviews are required by the Business Office upon leaving PLU or transcripts, grades, and diploma are withheld.

NURSING STUDENT LOAN (NSL)—A federal loan program limited to students with need who are accepted for enrollment or are enrolled in the School of Nursing (usually not before the sophomore year). The NSL has provisions similar to the NDSL. Up to \$2,500 is available, dependent on federal funding. Loans average \$500. Repayment begins one year after graduation. Partial or full cancellation is possible under certain conditions.

GUARANTEED STUDENT LOAN (GSL)—Under this program, students may borrow from banks, credit unions, and savings and loan associations. A separate application procedure is required and forms are available from the PLU Financial Aid Office.

The maximums which a student may borrow are:

Undergraduate	\$2,500
Graduate	\$5,000

Repayment of principal is deferred until six months after a recipient ceases to be a half-time student enrolled in an eligible institution. The interest rate is 8%; interest is paid by the Federal government while the recipient is attending school.

PLUS LOAN—This is a non-need based loan for independent students and parents of dependent undergraduate students. Payments are not deferred but begin within 60 days after the loan is disbursed. Not all states offer this loan. Out of state students or parents should check with their nearest college or state higher education authorities to determine if it is operational. If it is, an application must be obtained within the student's/parent's state of residence. PLU's Financial Aid Office has available only the Washington State version.

The current interest rate is 12% and the amount of the loan cannot exceed the student's cost of attendance minus other financial assistance (including a Guaranteed Student Loan). An independent student cannot have a Guaranteed Student Loan and a PLUS Loan at the same time.

If the state or lending institution of the student or parent does not participate in the PLUS program, it is possible to borrow through United Student Aid Funds (USAF). The maximum annual amount which a student or parent may borrow ranges between \$2,500 and 3,000.

Short term loans are available from various restricted PLU loan funds which include:

Alumni Association Loan Fund
American Lutheran Church Women Loan Fund
Anton Anderson Loan Fund
John S. Baker Loan Fund
J. P. Carlstrom Memorial Loan Fund
Delta Kappa Gamma Student Loan Fund
Lily C. Ekern Fund
Marae Huth Loan Fund
Gerhard Kirkebo Memorial Loan Fund
Jeanette Olson-Diana Paul-Miriam Stoa Memorial Student Loan Fund
J. P. Pflueger Student Loan Fund
O. J. Stuen Alumni Loan Fund
O. A. Tingstad Loan Fund
Women's Club of Tacoma Revolving Loan Fund
Verne Graham Loan Fund

VETERANS AFFAIRS AND VOCATIONAL REHABILITATION

Pacific Lutheran University has been approved by the State Approving Agency as one of the qualified institutions which veterans may attend and receive benefits. Veterans, widows, and children of deceased veterans who wish to inquire about their eligibility for benefits should contact the Regional Office of the Veterans Administration, Federal Building, 915 Second Avenue, Seattle, Washington 98174.

Students should gain admission to the university before making application for benefits. Students are encouraged to register at the university's Veterans Affairs Office before each term to insure continuous receipt of benefits.

Costs

TUITION

Pacific Lutheran University bases its tuition on a **Cost Containment Plan (CCP)** which provides for a maximum of 35 credit hours for the 1986-87 academic year at a cost of \$7155. This can be broken down by terms as follows: Full-time students (those taking 10 or more hours in a regular semester (fall or spring) will be charged \$3330 for 10-15 hours plus \$200 for each hour in excess of 15. Interim full-time students (those taking 4-5 hours) will be charged \$980 plus \$200 for each hour in excess of 5. These charges (for those who stay within the blanket range of 10-15 hours for fall and spring and 4-5 hours for interim) if totalled by semester equal \$7640. To reduce this total to the CCP maximum rate of \$7155 for up to 35 hours, an adjustment will be applied to the student's account. This adjustment is called Term Load Flexibility (TLF).

Term Load Flexibility (TLF) is an adjustment which allows for any combination of regular hours during the academic year up to 35 hours, for a maximum charge of \$7155. This adjustment (if applicable) will show on the account at the spring semester pre-billing in late November.

Example #1	Fall	Interim	Spring
Credit Hours	13	5	17
Tuition	\$3330	\$980	\$3330
Excess Hours	-0-	-0-	\$ 400
TLF Adjustment	-0-	-0-	(\$ 885)
Total:	\$7155	\$3330	\$980 + \$2845

Example #2	Fall	Interim	Spring
Credit Hours	17	-0-	18
Tuition	\$3330	-0-	\$3330
Excess Hours	\$ 400	-0-	\$ 600
TLF Adjustment	-0-	-0-	(\$ 505)
Total:	\$7155	\$3730	\$-0- + \$3425

Example #3	Fall	Interim	Spring
Credit Hours	10-15	4-5	10-15
Tuition	\$3330	\$980	\$3330
Excess Hours	-0-	-0-	-0-
TLF Adjustment	-0-	-0-	(\$ 485)
Total:	\$7155	\$3330	\$980 + \$2845

Graduate Students will be charged at the rate of \$230 per credit hour and are not eligible for the **Cost Containment Plan** or the Term Load Flexibility adjustments.

Part-time Students (1-9 credit hours per semester) will be charged at the rate of \$230 per credit hour and are not eligible for the **Cost Containment Plan** or the Term Load Flexibility adjustments.

Special Course Fees: A few specialized courses, e.g., Physical Education, Art, and Private Music Lessons, require the payment of a special course fee.

ROOM AND BOARD

The university requires that all single full-time (10 or more semester hours) students room and board on campus unless the student is living at home with parents or legal guardians, is 21 years of age or older during the current semester, or has senior status (90 semester hours). All exceptions to this policy must be addressed to the Residential Life Office.

Food Service is offering three board plans for fall 1986 and spring 1987.

Plan #1 is full board—20 meals per week (breakfast, lunch and dinner 6 days and brunch and dinner on Sunday) at a cost of \$765 per semester.

Plan #2 is lunch and dinner 7 days a week at a cost of \$710 per semester.

Plan #3 is breakfast, lunch and dinner, Monday through Friday at a cost of \$655 per semester.

During interim 1987 (in January), only Plan #1 will be offered at a cost of \$110. Those not on campus during interim should deduct the \$110 board cost from the examples below.

ROOM AND BOARD COST

	PLAN #1	PLAN #2	PLAN #3
Fall Room	\$ 835	Fall Room \$ 835	Fall Room \$ 835
Fall Board	\$ 765	Fall Board \$ 710	Fall Board \$ 655
Interim Board	\$ 110	Interim Board \$ 110	Interim Board \$ 110
Spring Room	\$ 735	Spring Room \$ 735	Spring Room \$ 735
Spring Board	\$ 765	Spring Board \$ 710	Spring Board \$ 655
Total:	\$3210	Total: \$3100	Total: \$2990

Meals are not provided during Thanksgiving, Christmas and Easter vacations. The interim board cost will be charged only if a student is on campus during January.

Commuter students are encouraged to eat meals on campus and may select one of the above plans (#1, #2, or #3) or may select lunches only at a cost of \$255.

Single rooms are limited and cost an additional \$115 or \$75 per semester. Students moving on campus for spring only pay the fall room rate.

A limited amount of family student housing is available. The two- and three-bedroom units cost approximately \$160 per month. A damage deposit of \$100 must accompany a reservation for family student housing. Applications may be obtained from the PLU Residential Life Office.

OTHER SPECIAL FEES

Student Parking—Permit Required	No Charge
Student Health and Accident Insurance (premium varies by coverage and is optional)	Approx. \$120 (full year)
Credit by Examination (Department Exam)	\$57.50 per credit hour
Educational Placement Fee (School of Education graduates)	\$25
Computer Usage Fees (See Computer Center for complete fee schedule)	First \$5.00 free per billing cycle
Health Center	(Charges depend upon service)
Library, Lost Book and Parking Violation fines	

RIGHTS AND RESPONSIBILITIES

A student's registration for classes indicates that the student understands and agrees to accept the responsibility for and legal obligation to pay all costs incurred or to be incurred for the student's education. Such costs include, but are not limited to, tuition, room and board, fees required for certain specialized courses, and other special fees which may be assessed from time to time. Although the student's parents or legal guardian may serve as co-signer with the student, the student remains primarily responsible and legally obligated to Pacific Lutheran University.

The university, in turn, agrees to make available to the student certain educational programs and the use of certain university facilities, as applicable and as described in this catalog. A student's failure to pay university bills shall release the university from any obligation to continue to provide the applicable educational benefits and services. Such benefits and services include, but are not limited to, statements of honorable dismissal, grade reports, transcripts of records, diplomas, letters of recommendation, pre-registration, admittance to classes, housing in the residence halls, and the use of university facilities. Under certain circumstances, the university may apply student paychecks to unpaid balances.

All accounts 60 days delinquent are routinely reported to a credit bureau.

FINANCIAL AID

Scholarships, grants, talent awards, and loans awarded by the PLU Financial Aid Office and outside aid (from fraternal organizations, high schools, churches, etc.) sent directly to PLU, are credited to the student's account in the following manner: Half of all awards larger than \$100 are credited to each semester. (Example: A \$700 scholarship will result in \$350 being credited toward fall and \$350 for spring semester.) Awards of \$100 or less will be applied to one semester only. Students are required to sign for their National Direct Student Loans and Nursing Student Loans in the Business Office at the beginning of each semester.

Guaranteed student loans obtained through banks and other lending institutions will be applied in total when received after the proper endorsement of the check by the student at the Business Office. Students who secure part-time employment as part of their financial aid receive monthly paychecks. These paychecks may be applied to unpaid balances. Recipients of financial aid must report all outside awards to the Financial Aid Office. If actual tuition amount is less than estimated on the financial aid application or award notice, the aid package may be reduced.

PAYMENTS

Mail payments with remittance (statement copy or coupon) to PLU, Box 1356, Tacoma, WA 98401, or deliver payments to the PLU Business Office in the Hauge Administration Building, Room 110.

Checks should be made payable to Pacific Lutheran University. The student's name and account number should be included on the check. VISA and MasterCard bank cards are accepted. Indicate card type, account number, and expiration date if transaction is done by mail. Please do not mail cash. A discount rate, which is periodically adjusted, will be charged against Canadian funds.

PAYMENT OPTIONS

1. Payment Before Term Begins
2. PLU Budget Plan
3. Semester Installation Plan

1. PAYMENT BEFORE TERM BEGINS

Early registrants will be sent a pre-billing of charges and credits. Early payments are encouraged, and those who pay early may qualify for LUTE BUCKS (coupons redeemable at the PLU Bookstore).

For students who select this option, payment in full is due before the beginning of the term (fall-September 9; interim-January 5; spring-February 4). Financial clearance (paid in full) is necessary for ID card validation. Registration is not finalized until tuition and fees are paid. Unpaid balances are subject to late charges if not paid by published deadlines. Contact the Business Office for current charges if a complete statement has not been received.

2. PLU BUDGET PLAN

This plan allows for paying selected educational expenses on a monthly installment basis **without interest**. Selected educational expenses are estimated for the entire academic year and paid in equal installments as follows:

- a. Full Year Budget Plan—May 10 through April 10
- b. Half Year Budget Plan—May 10 through October 10 (summer and fall); November 10 through April 10 (interim and spring)

A Budget Plan Agreement can be obtained from the PLU Business Office and is not valid until signed and approved. The total amount of financial aid awarded (excluding expected earnings from Work Study and Washington State Need Grant) can be deducted in arriving at the monthly installments. If a student is a financial aid recipient, the amount of tuition estimated on the Budget Plan Agreement must correspond with the amount of tuition estimated by the Financial Aid Office. Actual class registration which results in lower tuition may require a reduction in financial aid offered.

Those applying for the monthly payment option after May will be charged a 2% per month late charge and must pay the back payments. If during the academic year actual costs vary from the original estimate, monthly payments will be revised upon notification of the Business Office. Monthly payments received after the five-day grace period will be assessed a 2% per month late charge. If a payment becomes delinquent for thirty (30) days, a student may be denied admission to classes, or the university may withhold grade reports, transcript of records, or diplomas.

3. SEMESTER INSTALLMENT PLAN (SIP)

The Semester Installment Plan requires a 25% minimum down payment. The balance remaining (plus finance charge**) is divided into three (3) monthly installments, due by the 15th of the month (Fall—October 15, November 15, December 15; or Spring—March 15, April 15, May 15). If the interim is to be included with spring semester, payments are due February 15, March 15, and April 15. If payment is received after the 20th of the month, a \$10.00 late payment charge will be assessed in addition to the regular finance charge.

In order to qualify for the Semester Installment Plan, all prior balances must be paid in full. Applications for the plan must be made by the tenth day of the semester, and the 25% minimum down payment must accompany the application. A larger down payment can be made and would reduce the finance charges and monthly payments.

Upon receipt of the Semester Installment Plan application with the down payment, a promissory note and payment coupons will be mailed to the address indicated on the application. The signed promissory note must be returned to the PLU Business Office.

**The finance charge is determined at the date the note is negotiated and is set at 4% above the average yield of the 20-week U.S. Treasury Bill, but not less than 12% per annum.

ADVANCE PAYMENTS

New students pay a \$100.00 advance payment in order to confirm their offer of admission. For fall acceptance this is not refundable after May 1 (December 15 for interim; January 15 for spring semester).

All returning students who wish to reserve a room the following year or students who are receiving financial aid must make a \$100.00 advance payment. This advance payment is applied to the semester's costs, when appropriate, and is refundable until July 1.

Students will not be permitted to finalize registration as long as any bill remains unpaid.

REFUNDS

If a student drops a single class or completely withdraws from the term during the first two weeks of the fall or spring semester, a full tuition refund will be given. The Advance Payment is not refunded. A 10% per day charge will be assessed for complete withdrawals during the third and fourth week. No refunds are available after the fourth week for complete withdrawals or after the second week of the term for dropping individual courses.

In the event of a withdrawal from interim during the first week, a full tuition refund will be given. No refund is available after the first week.

Residence hall and board refunds will adhere to the terms of the Residential Life Contract.

Students who completely withdraw from the University will be refunded the semester room charge as follows:

First two weeks of semester	80% refund
Third week of semester	70% refund
Fourth week of semester	60% refund
Fifth week of semester	50% refund
Sixth week of semester	NO REFUND

A pro-rata board refund will be made for necessary withdrawal from the university. Board refunds may be considered for meals missed due to working, but will not be made for any university trips, such as choir, band, orchestra, athletics, and so forth.

Student requests for withdrawals for medical reasons are considered on an individual basis by the Vice President for Student Life and the Vice President for Finance and Operations. Such requests require documentation from a physician or the Director for Health Services.

Notice of withdrawal must be made in writing to the registrar of Pacific Lutheran University, and received before the deadlines given above. Oral requests are not acceptable.

Student Life

The quality of life cultivated and fostered within the university is an essential component of the academic community. The environment produced is conducive to a life of vigorous and creative scholarship. It also recognizes that liberal education is for the total person and that a complementary relationship exists between students' intellectual development and the satisfaction of their other individual needs. Interaction with persons of differing life styles, application of classroom knowledge to personal goals and aspirations, and non-academic experiences are all invaluable and vital components of education at PLU. In a time when there is a need for meaningful community, the campus facilitates genuine relationships among members of the university from diverse religious, racial, and cultural backgrounds. All of the services and facilities provided are intended to complement the academic program. The services provided reflect changing student needs, and the opportunities for student participation include virtually all aspects of the university. Individual attention is given to every student concern including a variety of specific services outlined below.

CAMPUS MINISTRY

Pacific Lutheran University by its very nature is a place for the interaction between studies and the Christian faith. Opportunities for the mutual celebration of that faith on campus are rich and diverse.

Chapel worship is held Monday, Wednesday, and Friday mornings during each semester for all who wish to participate. The University Congregation meets in regular worship and celebrates the Lord's Supper each Sunday. Pastoral services of the university pastors are available to all students who desire them.

Several denominations and religious groups have organizations on campus, and there are numerous student-initiated Bible study and fellowship groups. The Campus Ministry Council, an elected student and faculty committee, coordinates these activities in a spirit of openness and mutual respect.

RESPONSIBILITIES OF COMMUNITY LIFE

Within any community certain regulations are necessary. Pacific Lutheran University adopts only those standards believed to be reasonably necessary and admits students with the expectation that they will comply with those standards. All members of the university community are expected to respect the rights and integrity of others. Conduct which is detrimental to students, faculty, staff, or the university, or which violates local, state, or federal laws, may be grounds for sanctions or for dismissal. *The university prohibits the possession or consumption of alcoholic beverages on campus and limits the hours when students may have visitors of the opposite sex in their residence hall rooms. The Student Handbook contains the Code of Conduct for all students.*

ORIENTATION

Students are introduced to university life during a three-day orientation before the beginning of the fall semester. In addition, shorter orientation sessions are held before the interim term in January and before the spring semester. New students are invited to participate in an optional pre-college workshop during the summer.

ACCESSIBILITY

The university complies with Section 504 of the Rehabilitation Act and provides program accessibility to students with handicaps and/or disabilities. Coordination of services is handled by the associate dean for student life.

RESIDENTIAL LIFE

Residential living is an integral part of the educational process at PLU and the residence halls were constructed with that in mind. University policy reflects the commitment to the residential concept. **The university requires that all single full-time (10 or more semester hours) students room and board on campus unless the student is living at home with parents or legal guardians, is 21 years of age or older during the current semester, or has senior status (90 semester hours). All exceptions to this policy must be addressed to the Residential Life Office.**

As a residential campus, Pacific Lutheran University offers students a valuable experience in community living. The university recognizes the importance of non-classroom activities in providing an education for the whole person. The aim of residential living is to help students grow personally, socially, culturally, and religiously.

Campus residence halls are small. They are organized into communities in which each individual counts as a person. New knowledge shared with friends in the residence halls takes on a very personal meaning. Men and women of many backgrounds and cultures live on campus; therefore, students in residence have a unique opportunity to broaden their cultural horizons.

The university cares about the quality of life on campus. The attractive and comfortable residence halls enrich the quality of life and enhance the learning process. The university offers students high-quality housing opportunities including student leadership experiences, formal and informal programs, and peer associations. The student governing bodies are strong and actively participate in improving the program.

A selection of modern, attractive halls, each with its own traditions and unique advantages, offer students the opportunity to establish a comfortable living pattern. All halls include informal lounges, study rooms, recreation areas, and common kitchen and laundry facilities.

Most of the halls are co-educational. Although they are housed in separate wings, men and women in co-ed halls share lounge and recreation facilities and common residence government, and participate jointly in all hall activities. All-men's and all-women's halls are reserved for those who desire this type of living experience.

Further information regarding residence halls can be obtained from the Residential Life Office.

In addition to housing for single students, the university maintains a limited number of apartments on campus for family student housing. Two and three-bedroom units are available. Application for these apartments can be made through the Office of Residential Life.

ACTIVITIES

PLU annually registers over 50 academic and non-academic organizations, clubs, societies, and interest groups, which testifies to the diversity of campus co-curricular life. Social action, religious, and political organizations; interest and sporting clubs; and service, professional, and academic societies are among the options from which to choose. A complete listing of recognized clubs and their officers is maintained at the Student Development and Activities Programs Office located in the University Center.

Student government is an integral part of student activities at PLU. By virtue of enrollment at PLU students are part of the associated students. Senators from each residence hall and off campus are elected to govern ASPLU in conjunction with elected executive officers. They oversee an extensive committee program that

involves hundreds of students in actively planning programs and representing student opinion on various university boards and committees.

ADULT STUDENT SERVICES

The Adult Student Programs Office operates the Adult Resource Center through which peer advisers provide practical assistance to students over 25. Information for greater accessibility to student support services such as personal and career counseling, orientation, special facilities, and health care programs can be obtained from the office. The Adult Student Resource Center is located on the lower level of the University Center.

MINORITY STUDENT PROGRAMS

The Minority Student Programs Office coordinates a special program which seeks to provide continually for the academic and social needs of minority students. Supportive services include academic and personal counseling, admissions assistance, scholarship and financial aid assistance, book fund, convocation programs, and pre-college programs.

INTERNATIONAL STUDENT PROGRAMS

The International Student Programs Office provides for the various needs of foreign students. Supportive services include orientation to the U.S. and PLU, the Host Family Program, a liaison with immigration offices, counseling, and advising the International Student Organization.

PROGRAM FOR COMMUTING STUDENTS

Over 1,000 PLU students commute to the campus daily. Every effort is made to assure they enjoy the same well-rounded university experience as those in residence. First-year students should make a special effort to participate in the orientation program. The student government (ASPLU) sponsors a committee to assist those who do not reside on campus and welcomes students desiring to participate. Special facilities include mailboxes located in the University Center for all full-time commuters and a day lounge operation in the Cave for study and a place to bring or buy lunch. Off-campus students are encouraged to participate in the varied and frequent activities programs available to all students.

ENVIRONS

The university's geographical setting affords the student a wide variety of both recreational and cultural entertainment options.

Recreationally, the grandeur of the Pacific Northwest country encourages participation in hiking, camping, climbing, skiing, boating, and swimming.

The most conspicuous natural monument in the area is Mt. Rainier. In addition to Rainier, the distinctive realms of the Cascade and Olympic mountain ranges and forests of Douglas Fir complete one of the most naturally tranquil environments in the United States.

Students can also enjoy the aesthetic offerings of nearby Seattle and Tacoma. These city centers host a variety of performing and recording arts and provide dozens of galleries and museums as well as unique shopping and dining experiences.

STUDENT SERVICES

Health Services retains the full-time services of a physician's assistant, a registered nurse, a nurse practitioner, and a part-time health educator. A physician is available for consultations and referrals. Services available include outpatient health care, alcohol counseling and referral, laboratory tests, contraception/pregnancy counseling, and health education. All students are entitled to use the Health Service.

Health and Accident Insurance is available to students on a *voluntary* basis. The Group Accident and Sickness Medical Expense Plan provides coverage 24 hours a day, 12 months a year, anywhere in the world. This plan is available at fall, interim, or spring registration only. A brochure outlining the program is available from the Student Life Office. International students are required to have this insurance coverage.

The Counseling and Testing Center assists students to cope with developmental issues. Trained and experienced psychologists and counselors and a consulting psychiatrist offer group and individual counseling. A variety of interest inventories and psychological tests are available to assist students with career planning, educational adjustment, and personal problems.

Food Service, owned and operated by Pacific Lutheran University, is available to all students, faculty, staff, and their guests. Students living on campus are required to take their meals in one of two cafeterias. No deductions are made for students eating fewer meals than previously contracted unless a conflict exists due to work. In case of a conflict, a student must contact the Food Service Office in the University Center to obtain approval for a deduction.

Residential students are offered 3 meal options: (1) Breakfast, Lunch, and Dinner 7 days a week; (2) Breakfast, Lunch, and Dinner, Monday through Friday; (3) Lunch and Dinner 7 days a week.

Students living off-campus are encouraged to select one of the meal plans offered. Students may sign up for either plan at the Food Service Office.

Students with special dietary requirements, specifically approved in writing by a physician, can in most cases be accommodated by contacting the Food Service Registered Dietitians. This service is provided at no extra cost.

The Food Service operates two Coffee Shops. One is located on lower campus in Columbia Center, and the other is located in the University Center. A discounted meal card is available at the Business Office and the University Center Coffee Shop, and is designed to be used in either coffee shop. Only the coffee shop in Columbia Center is open during vacation periods.

Visitors may eat in any of the facilities.

Scheduling Services are maintained in the Office for Student Development and Activities Programs located in the University Center. All university activities must be scheduled through this office. Scheduling student activities is a joint responsibility of the requesting group, scheduling coordinator, and Director for Student Development/Activities.

PLU Bookstore is owned and operated by Pacific Lutheran University for the benefit of students, faculty, and staff. The bookstore sells the textbooks and supplies that are required or suggested by faculty members for their courses. Additional reading matter, supplies, gift items, greeting cards, clothing, film processing, toiletries, and other convenient items are also available.

The Career Services Office provides a program of career development and life planning. Students are assisted in making choices among their life and work options, during their education and after graduation, through conferences with professional staff, workshops, seminars, classroom and residence hall presentations, and materials available in the Career Services Office.

STUDENT EMPLOYMENT

The Career Services Office coordinates all student part-time employment (including College Work-Study and off-campus Work-Study jobs), and lists part-time and full-time employment opportunities, both on and off campus. The office also lists summer jobs, local and nation-wide. The office staff assists students and alumni in developing job search techniques (also faculty and staff by special arrangement). The office coordinates an off-campus interviewing schedule of recruiters from industry, business, government, and graduate schools.

GRIEVANCE PROCEDURES

Policies and procedures at the university are intended to maintain an orderly educational environment conducive to student learning and development. In order to fulfill institutional responsibility and at the same time follow procedures that are fair, consistent, and protective of each person's rights, appropriate grievance procedures have been established. If a student has reason to believe that an academic or administrative action is unjust, capricious, or discriminatory, these procedures are available for the student to seek redress.

In situations involving alleged grievances against faculty or academic administrators, the procedures of the "Academic Grievance Procedure" shall be followed. The grievance officer to contact is the director of the academic advising and assistance center.

In situations involving alleged grievances against administrative staff or any other non-faculty university employees, the procedures of the "Student Administrative Grievance Procedure" shall be followed. The grievance officer to contact is the associate dean for student life.

Copies of each grievance procedure are available for review at the office of the respective grievance officers.

Advising

The university expects that all students, at one time or another, will need assistance in planning academic programs consistent with their needs and goals. To help students make their initial adjustment to the academic load at PLU and to provide occasional counsel throughout their academic careers, the university has established a network of faculty advisers and an Academic Advising and Assistance Center.

FACULTY ADVISERS

All students in degree programs have faculty advisers whose overall responsibility is to guide academic progress. In their work with individual students, advisers have the assistance of personnel in a number of student services offices: the Academic Advising and Assistance Center, the Career Services Office, Counseling and Health Services, the Minority Student Programs Office, the Campus Ministry, the international student adviser, and residence hall directors and resident assistants.

General Advisers: At the time of entry, each student is assigned a general adviser on the basis of matching student and adviser interests. Students who wish to explore the general curriculum before deciding on an interest area are assigned to *exploratory* advisers. Those who have definite interest areas are assigned to *interest* advisers.

During the first semester, an advising file for each student is sent to the adviser, and a *Cold Book*, the student's official record of academic progress, is issued to the student.

Major Advisers: Upon formal declaration of a major, students are assigned major advisers to replace their general advisers. Major advisers guide students' progress toward their chosen

degree goals.

Since their academic needs and interests may shift or change during four years of college, students are allowed to change advisers as may be appropriate or necessary, using a simple adviser change form. Students and advisers are expected to meet regularly, though the actual number of meetings will vary according to individual needs. Minimally, three meetings are required during the freshman year and one each year thereafter, though all students are encouraged to meet with their advisers as often as seems necessary or useful.

ACADEMIC ADVISING AND ASSISTANCE CENTER

The Academic Advising and Assistance Center provides a number of academic resources for students:

1. *tutoring* by trained upper-division skills counselors is available for most lower-division courses;
2. *study skills* are taught either on a one-to-one basis or in non-credit mini-courses;
3. *group help sessions* in several subject areas are scheduled on a daily or weekly basis each semester;
4. *academic counseling* by AAAC administrators and skill counselors assures responsive and personal assistance with academic problems.

Students may also find up-to-date information on PLU policies, procedures, and programs in the AAAC. The office is open Monday through Thursday from 9:00 a.m. until 10:00 p.m., Friday from 9:00 a.m. until 5:00 p.m., and Sunday from 2:00 until 10:00 p.m.

Academic Procedures

REGISTRATION

The normal course load for full-time students is 13 to 17 hours per semester, including physical education. A normal student load during the interim is four hours with a maximum of five hours. The minimum semester load for a full-time student is ten hours.

Only a student with a "B" (3.00) average or higher may register for more than 17 hours per semester without the consent of the provost. A student engaged in much outside work for self-support may be restricted to a reduced academic load.

In the spring semester, students who plan to return in the fall are encouraged to pre-register. Students must register for each new semester on the designated days and are not officially enrolled until their registration has been cleared by the Business Office and their Place of Residence form has been processed.

COURSE NUMBERINGS

100-200 Lower Division Courses: Open to freshmen and sophomores* unless otherwise restricted.

300-320 Interim Courses

321-499 Upper Division Courses: Generally open to juniors and seniors unless otherwise specified. Also open to graduate students, and may be considered part of a graduate program provided they are not specific requirements in preparation for graduate study.

500-599 Graduate Courses: Normally open to graduate students only. Upper division students may be permitted to enroll with the permission of the chair or dean of the academic unit offering the course if all prerequisites have been met and the student has an above-average academic record.

*Upon approval of their adviser and course instructors, lower division students may be assigned to upper division courses if prerequisites have been met.

COURSE OFFERINGS

Most listed courses are offered every year. A system of alternating upper division courses is practiced in some departments, thereby assuring a broader curriculum. The university reserves the right to modify specific course requirements, to discontinue classes in which the registration is regarded as insufficient, and to withdraw courses.

EXPLANATION OF SYMBOLS

Most courses have the value of 4 semester hours. Parenthetical numbers immediately after the course descriptions indicate the semester hour credit given.

Other symbols are explained as follows:

- I — Course offered first semester
- II — Course offered second semester
- I,II — Course offered first and second semester in sequence
- I,II — Course offered either semester
- S — Course offered in the summer
- a/y — Course offered in alternate years
- a/s — Course offered in alternate summers
- G — Course may be used in graduate programs

EARLY REGISTRATION PROGRAM FOR FRESHMEN

Well in advance of arrival on campus for the first semester, all accepted freshmen are sent registration materials. Most students have the opportunity to work personally with an adviser as they plan their schedules. A limited number of students register by mail, and their course selections are verified by a counselor.

Early registration for new freshmen occurs during June or January, depending on whether students begin in the fall or spring semester. Early registration is coordinated by the Office of Admissions.

COURSE SELECTIONS FOR FRESHMEN

Students should be thoroughly acquainted with all registration materials, including the current catalog and special information sent by the Admissions Office. It is important also to study the requirements of all academic programs in which one may eventually declare a major.

First semester freshmen are advised to plan a class schedule that does not exceed 16 credit hours. A normal first semester schedule will include three courses of 4 credit hours each, plus one or two of the following: physical education activity course (1 credit hour), music ensemble (1 credit hour), or a choice from among several 2 credit hour courses. (NOTE: Unless otherwise stated in the catalog or class schedule, most courses are valued at 4 credit hours.)

In order to insure appropriate academic progress, freshmen should plan to take an interim course in January and to complete a total of 32-35 semester hours during their first year. The following will illustrate several first-year credit hour loads:

	fall	Interim	Spring	TOTAL
(1)	13	4	15	32
(2)	14	5	14	33
(3)	15	4	15	34
(4)	15	5	15	35

The number of credit hours taken may vary from year to year, usually within a range of 30 to 34. However, in order to complete the 128 hours required for graduation within four years, an average of 32 credit hours a year is necessary.

1. *PLU* does not have particular courses which are required of all freshmen. General university requirements, including a core curriculum (Core I or Core II), must be completed before graduation. The English writing requirement must be fulfilled before the senior year.
2. *Students are responsible for selecting their courses.* Counselors and faculty advisers are always available to assist with planning and to make suggestions.
3. *Students who are sure of their major should be careful to include those courses which insure completion of that major within four years.* Some departments or schools have prerequisite courses which must be taken before entering upon the major program itself.
4. *Students who are undecided about their major course of study should take the opportunity to explore options.* A good way to begin is to take some courses that meet general university or core requirements while selecting several others for exploration of special interests.

CHANGES IN REGISTRATION

Students may add or drop a class with full refund during the first two weeks after a class has begun. Necessary forms are available at the Registrar's Office.

Students may officially withdraw from a class after the first two weeks by obtaining the instructor's signature on the change form. The grade of W will appear on a student's grade report and transcript.

Students may also completely withdraw for medical reasons. Written evidence from a physician must support a medical withdrawal. The grade of WM will appear on a student's grade report and transcript.

An unofficial withdrawal from a course will be recorded as E. No student may withdraw during final examination week. In courses that are completed before the normal ending date of a term, no student may withdraw after the final examination has been administered.

CREDIT RESTRICTIONS

Credit is not allowed for a mathematics or a foreign language course listed as a prerequisite when taken after the higher-level course. For example, a student who has completed Spanish 201 cannot later receive credit for Spanish 102.

WITHDRAWAL FROM THE TERM

Students wishing to withdraw from the term must obtain a withdrawal form from the Office of the Registrar. IT IS ALWAYS TO THE STUDENT'S ADVANTAGE TO WITHDRAW OFFICIALLY. Students withdrawing for a specified period of time (for example, one semester to one year) may obtain a leave of absence form. Students are entitled to honorable dismissal from the university if their record of conduct is satisfactory and if all financial obligations have been satisfied.

THE GRADING SYSTEM

Students are graded according to the following designations:

- A+ = 4.00 grade points per hour, credit given
- A = 4.00 grade points per hour, credit given
- A- = 3.67 grade points per hour, credit given
- B+ = 3.33 grade points per hour, credit given
- B = 3.00 grade points per hour, credit given
- B- = 2.67 grade points per hour, credit given
- C+ = 2.33 grade points per hour, credit given
- C = 2.00 grade points per hour, credit given
- C- = 1.67 grade points per hour, credit given
- D+ = 1.33 grade points per hour, credit given
- D = 1.00 grade point per hour, credit given
- D- = 0.67 grade point per hour, credit given
- E = 0.00 grade points per hour, no credit given.

The grades listed below are not used in calculating grade point averages. No grade points are earned under these designations.

- H — credit given (Honors); used only for courses unique to interim
- P — credit given (Passing)
- F — no credit given (Failure)*
- I — no credit given (Incomplete)
- IP — no credit given (In Progress; applicable only to certain courses whose work extends beyond a regular term)
- AU — no credit given (Audit)
- W — no credit given (Withdrawal)
- WM — no credit given (Withdrawal/Medical)

*A failure in a 300-320 interim course is not recorded on the transcript nor is the registration recorded.

Incomplete (I) grades indicate that students have been unable to complete their work because of circumstances beyond their control. To receive credit an Incomplete must be converted to a passing grade WITHIN THE FIRST SIX WEEKS OF THE FOLLOWING SEMESTER. Incomplete grades which are not converted by removal are changed to the grade indicated by the instructor when the Incomplete is submitted.

Medical Withdrawal (WM) is given when a course is not completed due to medical cause. The WM does not affect the grade point average.

In Progress (IP) signifies progress in a course which normally runs more than one semester to completion. In Progress carries no credit until replaced by a permanent grade.

Any course may be repeated by an undergraduate student. The higher of the two grades earned is used in computing the cumulative grade point average, but credit toward graduation is allowed only once.

Registrar's notations:

- NG = No grade submitted by instructor
- EW = Unofficial withdrawal, recorded by the registrar (equivalent to an E in calculation of the grade point average)

INTERIM GRADING SYSTEM

The instructor of a 300-320 interim course will indicate in the catalog description which of two grading systems will be used:

1. Honors (H) — for exceptional work; Pass (P); Fail, no credit — the registration will not be recorded. (H and P do not affect the grade point average.)
2. The regular letter grades: A, B, C, D, E. (Such grades contribute to the grade point average.) Students in a "regular letter-grade" course may use one of their four pass-fail options.

PASS-FAIL OPTION FOR UNDERGRADUATE STUDENTS

The pass-fail option permits students to explore subject areas outside their known abilities and to add a broader range of courses without being forced to compete with majors who are specializing in those areas of study.

1. The pass-fail option is limited to 8 credit hours.
2. Not more than one course (4 credit hours) may be taken pass-fail in fulfillment of general university or core requirements, or of the foreign language requirement of the College of Arts and Sciences.
3. The pass-fail option may *not* be applied to a course taken in fulfillment of a student's major or minor program, *except* for a first course in the major or minor field that is taken before the student's declaration of a major or minor program.
4. To exercise the pass-fail option, students must file their intention with the registrar's office no later than the last day of the

eighth week. In courses that meet less than the full length of the semester, the pass-fail agreement must be filed by the mid-point of the course.

5. In the pass-fail option, only grades of A+ through C- will be regarded as "pass"; grades of D+ through E will be regarded as "fail." Pass-fail grades do not affect the grade point average.

EXCLUSIVE PASS-FAIL COURSES

Departments or schools may offer courses in which only pass-fail grades are given. These courses should pursue goals primarily concerned with appreciations, value commitments, creative achievements, or the like. Decisions to offer exclusive pass-fail courses are reported to the provost and this fact is made known to students before they register for these courses.

Exclusive pass-fail courses may not be used to meet major or university requirements unless they have been approved as such by the faculty. Taking exclusive pass-fail courses in no way affects the student's personal pass-fail option.

CLASS ATTENDANCE

The university assumes that all registered students have freely accepted personal responsibility for regular class attendance. Course grades reflect the quality of students' academic performance as a whole, which normally includes regular participation in the total class experience and is evaluated accordingly. Absences may lead to a reduction of a student's final grade. In the event of an unavoidable absence, students are encouraged as a matter of courtesy, as well as in their own best interest, to inform the instructor. Assignment of make-up work, if any, is at the discretion of the instructor.

ACADEMIC HONESTY

Both the value and the success of any academic activity, as well as of the entire academic enterprise, have depended for centuries on the fundamental principle of absolute honesty. The university, therefore, expects all its faculty and students to honor this principle scrupulously.

Since academic dishonesty is a serious breach of the universally recognized code of academic ethics, it is every faculty member's obligation to impose appropriate sanctions for any demonstrable instance of such misconduct on the part of a student.

ACADEMIC PROBATION

Warning slips may be given to any students who are doing "D" or "E" work at the end of the sixth week.

Students shall receive an academic warning if they fail to keep their current grade point average (immediately preceding semester) at or above 2.00. Students shall be placed on academic probation with transcript notation if two consecutive terms are below 2.00. The enrollment of a student on probation shall be terminated if there are three consecutive terms below 2.00.

Students are placed on academic probation with transcript notation if they fail to keep their grade point average (cumulatively) at or above 2.00. Students receive official notice of such action. Probationary students may be advised to reduce their academic or extra-curricular activities or both. Probationary students are required to file a probation semester plan of action with the advising center.

The enrollment of a student on probation who fails to earn a cumulative average of 2.00 by the end of a probationary semester is terminated.

A terminated student may apply for reinstatement by submitting a letter of petition to the Registrar's Office and securing a faculty sponsor. The petition and sponsorship letters are submitted to the Faculty Committee on Admission and Retention of Students for action.

A student whose petition for reinstatement has been denied may apply for readmission after the expiration of one semester unless informed otherwise.

ELIGIBILITY FOR STUDENT ACTIVITIES

Any regularly enrolled, full-time student (ten hours) is eligible for participation in university activities. Limitations on a student's activities based upon academic performance may be set by individual schools, departments, or organizations. A student on academic probation is not eligible for interscholastic competition and may also be advised to curtail participation in extra-curricular activities.

CLASSIFICATION OF STUDENTS

Freshmen: students who have met entrance requirements.
Sophomores: students who have satisfactorily completed 30 hours.
Juniors: regular students who have fulfilled lower division requirements and have satisfactorily completed 60 hours.
Seniors: regular students who have satisfactorily completed 90 hours.

Graduates: students who have met entrance requirements and have been accepted into the Division of Graduate Studies.

Non-Degree Undergraduates: undergraduate students who are attending part-time but are not officially admitted to a degree program.

Non-Degree Graduates: graduate students who are attending part-time but are not officially admitted to a degree program.

HONORS

Honors at Entrance: These honors are conferred at Opening Convocation on the most highly qualified entering freshmen. Certificates are mailed in early May to high schools for presentation to recipients. The granting of Honors at Entrance recognizes outstanding high school achievement and anticipates superior performance at the university level. These awards have no monetary value.

Graduation Honors: Degrees with honors of *cum laude*, *magna cum laude*, and *summa cum laude* are granted. A student must earn an average of 3.40 for *cum laude*, 3.70 for *magna cum laude*, and 3.90 for *summa cum laude*. Physical education activities are not included in the determining of honors.

Honor Societies: Election to the Arete Society is a special recognition of a student's commitment to the liberal arts together with a record of high achievement in relevant course work. This academic honors society was organized in 1969 by Phi Beta Kappa members of the faculty. The society's fundamental purpose is to encourage and recognize excellent scholarship in the liberal arts. Elections for the society take place each spring. Both juniors and seniors are eligible for election, although the qualifications for election as a junior are more stringent. The faculty fellows of the society conduct the election after careful review of academic transcripts according to the following criteria. Students must:

- attain a high grade point average (for seniors, normally above 3.70; for juniors, normally above 3.90);
- complete 110 credit hours in liberal studies;
- demonstrate the equivalent of two years of college work in foreign language; and
- complete one year of college mathematics (including statistics or computer science) or have taken an equivalent amount of high school math and college science.

To be eligible for election, students must have completed a minimum of three semesters in residence at the university.

The university has chapters of a number of national honor societies on campus, including the following:

- Alpha Psi Omega (Drama)
- Beta Gamma Sigma (Business Administration)
- Mu Phi Epsilon (Music)
- Pi Kappa Delta (Forensics)

Undergraduate Fellowships: A limited number of Undergraduate Fellowships are awarded annually to outstanding senior students with a view to encouraging recipients to consider college teaching as a career. An undergraduate fellow is given a variety of opportunities to sample the professional life and work of a faculty member in his or her major discipline. A tuition credit accompanies the appointment.

Individualized Major for Special Honors: Supervised by a faculty committee, this program offers junior and senior students (with a grade point average of 3.30 or above) the opportunity to develop and complete a personally-designed, interdisciplinary, liberal arts major. Approval of a faculty sponsor and the Faculty Honors Council are required. The plan of study must include a clear topical rationale, an integrating final project, and significant work beyond regular courses, e.g., comprehensive examinations, independent study projects, interdisciplinary senior thesis. Successful completion of an approved study plan warrants the B.A. degree with Special Honors.

CREDIT BY EXAMINATION

Students are permitted, within limits, to obtain credit by examination in lieu of regular enrollment and class attendance. No more than 30 semester hours (7 courses) may be counted toward graduation, whether from the College Level Examination Program or any other examination. Exceptions to this rule for certain groups of students or programs may be made, subject to recommendation by the Educational Policies Committee and approval by the faculty. Credit by examination is open to formally admitted, regular status students only and does not count toward the residency requirement for graduation.

Arrangements for departmental credit examinations must be made by students with respective departmental chairs or deans.

Evidence of approval and of payment of the fee should be presented by a student to the instructor who administers the examination.

CLEP general examinations are given elective credit only. The various schools, divisions, and departments determine the specific CLEP subject examinations which may fulfill requirements for majors, programs, or general university requirements in their respective academic areas. These examinations are subject to recommendations by the Educational Policies Committee and approval by the faculty.

The minimum passing level for CLEP examinations taken at Pacific Lutheran University is the fiftieth percentile.

CLEP credits granted by other universities, colleges, and community colleges, which are earned before entrance, are honored by Pacific Lutheran University. The application of those credits toward majors, programs, and general university requirements is consistent with school, divisional, and department policies and standards.

The university does not grant credit for college level GED tests.

INFORMAL STUDY

To encourage liberal learning of all kinds, over and beyond enrollment in courses leading toward formal degrees, the university offers a variety of opportunities for informal study:

Guest of University Status: teachers and officials of other institutions, visiting scholars and artists, and other professional persons who wish to use university facilities for independent study may apply to the provost for cards designating them as Guests of the University. Such persons, in their use of facilities, will defer to the needs of students and faculty members.

Auditing Courses: To audit a course is to enroll, with the permission of the instructor, on a non-credit basis. An auditor is encouraged to participate fully in class activities but is not held accountable for examinations or other written work and does not receive a grade. If the instructor approves, the course may be entered upon the transcript as "Audit." With the approval of the instructor or the department, the student may gain credit for an audited course by passing an examination set by the instructor or the department.

Visiting Classes: Members of the academic community are encouraged to visit classes which interest them. No fee is charged for the privilege. Because regularly enrolled students must be given first consideration, persons desiring to visit classes are required to ask permission of the instructor. Visitors are guests of the classes and must conduct themselves accordingly.

JUNIOR REVIEW

All students who have accumulated 70 semester hours toward graduation must complete a junior review before they may register for a subsequent term. The review includes progress reports on general university, major and minor requirements, and a plan for the completion of any remaining requirements. Forms are available at school or department offices.

GRADUATION

Students expecting to fulfill degree requirements WITHIN THE ACADEMIC YEAR (including August) are required to file application for graduation with the Office of the Registrar by October 1.

There are four degree-completion dates (end of fall semester, interim, spring semester, and second summer session). Degrees are formally conferred at December, May, and August commencements. Students with interim degree dates are expected to take part in the December commencement. The actual date of graduation will be recorded on the permanent records.

Students who plan to transfer back to Pacific Lutheran University for a degree (math, physics, engineering programs) must apply for graduation before or during the first semester of their junior year so that deficiencies may be met before they leave campus.

Attendance at commencement exercises is expected unless the candidate is excused by the provost.

SECOND BACCALAUREATE DEGREE

A student may be awarded two different bachelor's degrees simultaneously, provided that at least 28 additional hours are earned for the second degree. A total of 156 acceptable hours are required for two simultaneous baccalaureate degrees.

GENERAL UNIVERSITY REQUIREMENTS

The university is committed, in principle as well as historically, to providing a strong liberal arts base for all its baccalaureate degree programs. Accordingly, in addition to fulfilling certain specified requirements, all undergraduate students must satisfactorily complete a core curriculum.

SPECIFIED REQUIREMENTS

- 1. WRITING** (4 hours): English 101 or an equivalent prose writing course. Students should fulfill this requirement early, preferably in their first or second semester.
- 2. PHYSICAL EDUCATION** (4 hours): Four 1-hour activity courses, including PE 100. One hour of credit may be earned through approved sports participation. All activities are graded on the basis of A, Pass, or Fail.
- 3. INTERIM** (8 hours): Only courses numbered 300-320 satisfy this requirement. Junior and senior transfer students need to complete only 4 hours from 300-320 interim courses.
- The completion of a minimum of 128 semester hours with a grade point average of 2.00 (2.50 in the Schools of Business Administration and Education).
- The completion of a minimum of 40 semester hours from courses numbered 321 or above. At least 20 of the minimum 40 semester hours of upper division work must be taken at PLU.
- The final 32 semester hours of a student's program must be completed in residence at PLU. (Special programs such as 3-1, 3-2, and interim exchange study are excluded from this limitation.)
- The completion of a major as detailed by each school or department. At least 8 semester hours must be taken in residence.
- The completion of all courses counted toward a major or a minor with grades of C- or higher and with a cumulative grade point average of 2.0 or higher in those courses. Departments, divisions, or schools may set higher grade requirements.

LIMITATIONS—ALL BACCALAUREATE DEGREES

- Not more than 40 hours earned in one department may be applied to the B.A. or B.S. degree. Interim courses are excepted.
- Non-music majors may count toward graduation requirements not more than 8 semester hours in music ensembles.
- A maximum of 24 hours in accredited correspondence or extension studies may be credited toward degree requirements, contingent on approval by the registrar.

CORE CURRICULUM: ALTERNATIVES**CORE I (DISTRIBUTIVE CORE)**

ARTS/LITERATURE (8 hours)—4 hours from each line:

- Art, Music, or Communication Arts—Any course from Art or Music except those in teaching methods; only the following drama and theater courses in Communication Arts: 151, 162, 241, 250, 359, 363, 364, 458.
- Literature—Any literature course from English or Languages. (English courses in writing, language, and publishing do not fulfill this requirement.)

NATURAL SCIENCES/MATHEMATICS (8 hours)—4 hours from each of two lines:

- Chemistry, Physics, Engineering, and Natural Sciences.
- Biology, Earth Sciences (except 101), and Natural Sciences.
- Mathematics (except 101) and Computer Science.

PHILOSOPHY (4 hours)—Any Philosophy course except 100, 121, and 233. (However, 226, 323, 325, 326, and 328 count toward fulfillment of this requirement only when paired with 225, 341, 342, and 343 count only when taken in addition to 225 or 233.)

RELIGIOUS STUDIES (8 hours)—4 hours from each of two lines:

- Biblical Studies—Any of the following: 111, 211, 212, 330, 331, 332, 333.
- Christian Thought, History, and Experience—Any of the following: 121, 221, 222, 223, 224, 225, 226, 360, 361, 362, 363, 364, 365, 366, 367.
- Integrative and Comparative Religious Studies—Any of the following: 131, 231, 390, 391, 392, 393. (Additional courses that relate religion to other topics or disciplines and are approved to meet this requirement will be listed in the time schedule.)
Junior and senior transfer students need to complete only 4 hours (one course from lines 1 or 2).

SOCIAL SCIENCES (8 hours)—4 hours from each line:

- Anthropology, History, and Political Science.
- Economics, Psychology (except 110 and 111), Social Work, and Sociology.

TOTAL: 36 hours, 9 courses.

CORE II (INTEGRATED STUDIES PROGRAM)

A coherent program of interdisciplinary courses that explores a central theme—THE DYNAMICS OF CHANGE.

- SEQUENCE I—THE IDEA OF PROGRESS** (2 courses, 8 hours; normally taken in the freshman year).
IS 111 Nature and Supernature
IS 112 From Finite to Infinite

- A maximum of 64 hours will be accepted by transfer from an accredited community college.
- No more than eight 1-hour physical education activity courses may be counted toward graduation.

FOREIGN LANGUAGE REQUIREMENT

All candidates for B.A. or B.S. degrees must complete one of three options involving a foreign language or specified alternative. See under College of Arts and Sciences.

INTERDISCIPLINARY READING AND WRITING AT PLU

Pacific Lutheran University is a community of scholars, a community of readers and writers. Reading informs the intellect and liberates the imagination. Writing pervades our academic lives as teachers and students, both as a way of communicating what we learn and as a means of shaping thought and ideas.

Our emphasis on literacy begins with courses designed to fulfill the university writing requirement, courses in which students learn to use various kinds of academic and personal writing, to read different kinds of texts more effectively, and to organize the powers of clear thought and expression.

The university's commitment to excellent writing is reflected in The Writing Center, where trained student consultants from a variety of disciplines help students of varying abilities by reading and responding to papers still in draft.

All faculty members share the responsibility for improving the literacy of their students. Faculty in every department and school make writing an essential part of their courses and show students how to ask questions appropriate to the kinds of reading done in their fields. Students write both formal papers and reports and informal notes and essays in order to master the content and methods of the various disciplines. They are encouraged to prepare important papers in multiple drafts.

Because errors are a distraction and a symptom of carelessness in all disciplines, students in all courses are expected to observe the conventions of formal English in their finished work. But literacy is more than correctness. At Pacific Lutheran University reading and writing are part of the process of liberal education.

- TWO OF THREE 200-LEVEL SEQUENCES** (2 courses each, 4 total; 16 hours)

SEQUENCE II—HUMAN RESPONSIBILITY (Courses in the 220s)

- IS 221 The Experience of War
- IS 222 Prospects for War and Peace
- IS 223 The Emergence of Mind and Morality
- IS 224 The Brain, Consciousness, and Transcendence

SEQUENCE III—WORD AND WORLD (Courses in the 230s)

- IS 233 Imaging the Self
- IS 234 Imaging the World

SEQUENCE IV—TECHNOLOGY AND THE ENVIRONMENT (Courses in the 240s)

- IS 241 Energy, Resources, and Pollution
- IS 242 Population, Hunger, and Poverty
- IS 243 Technology and Computers
- IS 244 Computers and Models
- IS 245 The Development of Third World Underdevelopment
- IS 246 Cases in Third World Development

- CONCLUDING SEMINAR**: IS 351 (1 course, 4 hours)

TOTAL: 28 hours, 7 courses

For course descriptions and further details, see the Integrated Studies Program section of this catalog. A brochure is available from the Office of Admissions, the Office of the Registrar, or the program coordinator (Provost's Office).

Core I requirements may be met by certain Core II courses:

Arts/Literature

- IS 233-234 together
- IS 112, 233-234 together

Natural Sciences/Mathematics

- or 3. IS 233-234 together
- IS 241-242 together
- IS 223

Philosophy

- IS 111, 223, 224, 221-222 together

Religious Studies

- 2 or 3. IS 111, 221-222 together, 241-242 together
3. IS 233-234 together

Social Sciences

- IS 112, 221-222 together, 241-242 together, 243-244 together
- IS 224, 241-242 together

See course descriptions for information about which Core I requirements a given Core II course may fulfill.

Anthropology

Anthropology

Anthropology as a discipline tries to bring all of the world's peoples into human focus. Though anthropology does look at "stones and bones," it also examines the politics, medicine, kinship, arts, and religion of peoples and cultures in various places and times. This makes the study of anthropology a complex task, for it requires an understanding of many disciplines, from geology and biology to art and psychology.

Regardless of the specific area that is studied, the essence of anthropology is the observation of different peoples and cultures—studying them as they really are instead of how people think they are or should be. It is through this detailed study of all people that we gain the full picture of what it really means to be human.

Anthropology is composed of four fields. Cultural or social anthropology studies living human cultures in order to create a cross-cultural understanding of human behavior. Archaeology has the same goal, but uses data from the physical remains of past cultures to reach it. Linguistic anthropology studies human language to discover what it can tell about the human past and behaviors in the present. Physical anthropology studies the emergence and subsequent biological adaptations of humanity as a species.

Anthropology at PLU provides students with a well-rounded background in the field which they can use in the business, governmental, and academic worlds.

FACULTY

Klein, Chair; Guldin, Marchetti, Rasson.

BACHELOR OF ARTS MAJOR: 34 semester hours, including 101, 102, 103, 480, 490, and one course from those numbered 330 to 345, one course from those numbered 350 to 395, and 8 additional hours.

MINOR: 18 semester hours, including 102, 101 or 103, 490, one course from those numbered 330 to 345, and one course from those numbered 350 to 480.

COURSE OFFERINGS

101 EXPLORING ANTHROPOLOGY: MONKEYS, APES, AND HUMANS

Introduction to physical anthropology with a special focus on human evolution, the fossil evidence for human development, the role of culture in human evolution, and a comparison with the development and social life of the non-human primates. (4)

102 EXPLORING ANTHROPOLOGY: CULTURE AND SOCIETY

Introduction to social-cultural anthropology and cultural linguistics, concentrating on the exploration of the infinite variety of human endeavor in all aspects of culture and all types of societies; from tool-making to language, religion, politics, law, warfare, family kinship and art; from hunters and gatherers to industrialists. (4)

103 EXPLORING ANTHROPOLOGY: ARCHAEOLOGY AND PREHISTORY

Introduction to the ideas and practice of archaeology, used to examine the sweep of human prehistory from the earliest stone tools to the development of agriculture and metallurgy and to enrich our understanding of extinct societies. Local archaeological sites will be examined. (4)

210 GLOBAL PERSPECTIVES: THE WORLD IN CHANGE

A survey of global issues affecting the human condition in a rapidly changing and increasingly interdependent world: modernization and development; economic change and international trade; diminishing resources; war and revolution; peace and justice; and cultural diversity. These issues are examined in a multidisciplinary light using case studies drawn from non-Western and Western nations. Emphasis on the development of a global perspective which recognizes human commonalities as well as diversity in perceptions, values, and priorities. (Cross-referenced with HIST 210 and POLS 210) (4)

220 PEOPLES OF THE WORLD

An exploration of the world's cultures through anthropological films, novels, and eye-witness accounts. Case studies chosen from Africa, Native America, Asia, the Pacific and Euro-America provide an insider's view of ways of life different from our own. (2)

230 PEOPLES OF THE NORTHWEST COAST

A survey of the ways of life of the native peoples of coastal Washington, British Columbia, and Southeastern Alaska from European contact to contemporary times. Of special interest are the traditional methods of fishing, arts, potlaches, status systems, and wealth and their impact on the modern life of the region. (2)

240 PEOPLES OF EUROPE

A survey of contemporary social life and customs in Europe, from city-dwellers to peasants, examining the broad historical, political, ethnic, economic, and religious patterns that tie European cultures together. (2)

270 JEWISH CULTURES

A survey of Jewish cultures of the past and present in a variety of settings including Poland, Morocco, and China, as well as Tacoma and New York. Jewish ethnicity and identity will be related to questions of assimilation, Jew/Gentile relations, and nationalism with a focus on the Jewish communities of Eastern Europe, the U.S.A., and Israel. Emphasis on religion, history, literature, music, and humor as reflections of basic Jewish cultural themes. Films and guest speakers will complement class lectures and discussion. (2)

330 CULTURES AND PEOPLES OF NATIVE NORTH AMERICA

A comparative study of Native North American cultures from their arrival on the continent through today. Stress on traditional societies, their history under colonization and their emergence as vital contemporary societies. Examination of U.S. and Canadian laws, policies, and conflicts, including land fishing claims, issues of sovereignty, and religious rights. (4)

332 PREHISTORY OF NORTH AMERICA

An archaeological reconstruction of economic, social, political, and religious life in North America from the time the first settlers entered the continent during the Ice Ages to the Mound Builders of later times and ultimately to the first contact with European settlers. (4)

334 THE ANTHROPOLOGY OF CONTEMPORARY AMERICA

An investigation of American social patterns and problems designed to give insights from a cross-cultural perspective; exploration of American solutions of common human problems; education, religion, politics, family and concepts of justice; a determination of what is unique about the "American Way." (4)

340 CULTURES AND PEOPLES OF ASIA

Survey of South, Southeast and East Asia with an emphasis on the cultural patterns (social, religious, kinship, political, and economic) of the region; concentration on the civilization centers of India and China and their effect on surrounding peoples; the role of Asian peoples in a contemporary setting. (4)

345 CHINESE CULTURE AND SOCIETY

An immersion into the Chinese world-view, culture and society—geared to exposing the student to the way of life for one-quarter of humanity; Chinese culture, both traditional and contemporary, including folk religion, family life, human relations, politics, social structure; Confucianism and Communism; the People's Republic, Hong Kong, Taiwan, and the Overseas Chinese. (4)

350 WOMEN AND MEN IN WORLD CULTURES

An overview of the variation of sex roles and behaviors throughout the world; evolution of sex roles; theories of matriarchy, patriarchy, mother goddesses, innate inequalities; impact of European patterns in the world; marriage patterns from polygyny to polyandry; egalitarianism to feminism. (4)

355 TECHNOLOGY IN CULTURE

A study of the use and meaning of technology, crafts, and artifacts in the world's cultures. Investigation of technology in the context of culture, including the symbolic and artistic world of traditional technologies. Exploration of how cultures create the worlds they inhabit and change their social and natural worlds through time. Students will be encouraged to work with a specific technique or technological aspect of a culture. (4)

360 ETHNIC GROUPS

An examination of the nature of ethnic groups in America and abroad; the varying bases of ethnicity (culture, religion, tribe, "race," etc.); problems of group identity and boundary maintenance; ethnic symbols; ethnic politics; ethnic neighborhoods; and ethnic humor. (4)

365 ARTIFACTS AND ARCHAEOLOGY

Laboratory interpretation of archaeological materials. Techniques used in interpreting past human technology and ecology. Replication of the steps of manufacture, use, and discard of tools; analytical procedures for ceramic, bone, stone, and metal artifacts; analysis of debris from food processing activities; the use of computers to analyze cultural data. (4)

370 THE FIRST CIVILIZATIONS

The origins of agriculture, writing, cities, and the state in many parts of the world, comparing and contrasting the great civilizations of antiquity, including Mesopotamia, Egypt, India, Asia, Mesoamerica, and South America. (4)

375 LAW, POLITICS, AND REVOLUTION

A study of politics and law through the political structures and processes of traditional and contemporary societies; concepts of leadership, factionalism and feuds, power, authority, revolution, and other reactions to colonization; law and conflict resolution; conflicts of national and local level legal systems. Examples from around the world: Burma, Pakistan, the Pacific, Africa, Latin America, and Native America. (4)

380 SICKNESS, MADNESS, AND HEALTH

A cross-cultural examination of systems of curing practices and cultural views of physical and mental illness and health; prevention and healing; the role of religious views; nature and skills of curers; definitions of disease; variation in diseases between classes and ethnic groups; impact of modern medical and psychological practitioners. (4)

392 GODS, MAGIC, AND MORALS

The anthropology of religion; a survey of humanity's concepts of and relationships to the supernatural; examination of the varying personal and group functions that religions fulfill; exploration of rituals, beliefs, and systems of morality in religions both "primitive" and historical; origins of religion; science "versus" religion; the nature of reality. (Cross-referenced with REL 392) (4)

480 ANTHROPOLOGICAL INQUIRY

An historic and thematic study of the theoretical foundations of sociocultural anthropology; research methods; how theory and methods are used to establish anthropological knowledge. Required of majors in their junior or senior year. a/y (4)

490 SEMINAR IN ANTHROPOLOGY

Selected topic in contemporary anthropology to be investigated through student research and consultation. Required of majors and minors in their junior or senior year. Prerequisite for other students: departmental consent. a/y (2)

491 INDEPENDENT STUDY: UNDERGRADUATE READINGS

Reading in specific areas or issues of anthropology under supervision of a faculty member. Prerequisite: departmental consent. (1-4)

492 INDEPENDENT STUDY: UNDERGRADUATE FIELDWORK

Study of specific areas or issues in anthropology through in-field methods of analysis and research supported by appropriate reading under supervision of a faculty member. Prerequisites: 490 and departmental consent. (1-4)

501 GRADUATE WORKSHOPS

Graduate workshops in special fields or areas for varying periods of time. (1-4)

590 GRADUATE SEMINAR

Selected topics as announced. Prerequisite: consent of the instructor. (1-4)

591 DIRECTED STUDY (1-4)**595 GRADUATE READINGS**

Independent study card required. (4)

598 RESEARCH PROJECT (4)**599 THESIS (4)**

A

Anthropology

A Art

Art

In this time of rapidly changing concepts and an almost daily emergence of new media, emphasis must be placed on a variety of experiences and creative flexibility for the artist and the designer. Students with professional concerns must be prepared to meet the modern world with both technical skills and capacity for innovation. The department's program therefore stresses individualized development in the dexterous use of mind and hand. A highly professional faculty, well-equipped studios, and a comprehensive curriculum offer variegated opportunities for study in the visual arts.

Students may choose among a generalized program leading to a Bachelor of Arts degree; a more specialized program for the Bachelor of Fine Arts, in which each candidate develops some area of competence; or a degree program in art education for teaching on several levels.

Recent graduates may be found in a variety of fields. Several have become established as painters, printmakers, or sculptors; some are successful studio potters; others have gone into commercial photography or film animation—even the production of feature films. The television industry employs still others. A number are working in the design field as graphic designers, illustrators, package designers, or art directors in firms around the country, in New York, Chicago, Los Angeles, and Seattle. Alumni have been involved in museum work and in serving on the faculties of various educational institutions, from elementary through high schools as well as community colleges and universities.

Some students go directly from the university into their field of interest. Others find it desirable and appropriate to attend a graduate school and have been accepted into prestigious graduate programs, both in this country and abroad.

The various fields of art are competitive and demanding in terms of commitment and effort. Nonetheless, there is always a place for those who are extremely skillful or highly imaginative or, ideally, both. The department's program stresses both, attempting to help each student reach that ideal. Instructional resources, when coupled with dedicated and energetic students, have resulted in an unusually high percentage of graduates being able to satisfy their vocational objectives.

FACULTY

R. L. Brown, *Chair*; Cox, Geller, Gold, Keyes, Kittle-son, Minas, Roskos, Schwidder, Tomsic. Artist-in-Residence: Torrens.

The department has sought to minimize prerequisites, enabling students to elect courses relating to their interests as early as possible. It is recommended that students interested in majoring in art declare their major early to insure proper advising. Transfer students' status shall be determined at their time of entrance.

The department reserves the right to retain, exhibit, and reproduce student work submitted for credit in any of its courses or programs.

A use or materials fee is required in certain courses.

BACHELOR OF ARTS MAJOR: Minimum of 32 semester hours, including 160, 250, 230 or 350, 365, 370, and the art history sequence (180, 280, 380). A maximum of 40 hours may be applied toward the degree. Candidates are registered in the College of Arts and Sciences and must satisfy general university requirements, including a core curriculum (Core I or Core II), and the foreign language/alternative requirement.

BACHELOR OF FINE ARTS MAJOR: A minimum of 56 semester hours, including 160 and 250; the art history sequence (180, 280, 380); 8 hours in pictorial media, 8 hours in materials media, and 4 hours in art history or theory (381, 386, 388, or as approved by the department faculty); requirements and electives in area of emphasis; and 499 (B.F.A. candidacy exhibition). 110 or courses in teaching methods may not be included. Candidates are registered in the School of the Arts and must satisfy general university requirements, including a core curriculum (Core I or Core II).

B.F.A. in Pictorial Media

Areas of emphasis: a minimum of three courses required in one area

Drawing/Painting:

- 160 Drawing
 - 360 Life Drawing (R)
 - 365 Painting I
 - 465 Painting II (R)
- Printmaking:
- 370 Printmaking I
 - 470 Printmaking II (R)

Film Arts:

- 326 Photography I
- 328 Film Making
- 426 Photography II (R)

Independent Study (may be applied to any area):

- 492 Studio Projects (R)

(R)—may be repeated for credit

B.F.A. in Materials Media

Areas of emphasis: a minimum of three courses required in one area

Ceramics:

- 230 Ceramics I
- 330 Ceramics II
- 430 Ceramics III (R)

Sculpture:

- 250 Sculpture I
- 350 Sculpture II
- 450 Sculpture III (R)

Crafts:

- 215 Crafts (R)
- 216 Jewelry (R)
- 315 Stained Glass (offered periodically)
- 335 Fibers (R)

Independent Study (may be applied to any area):

- 492 Studio Projects (R)

(R)—may be repeated for credit

B.F.A. in Design

Required basic sequence:

- 196 Design I: Fundamentals
- 296 Design II: Concepts
- 381 Twentieth Century Design and Architecture
- 396 Design: Graphics I
- 491 Design: Workshop

Elective courses:

- 395 Design: Environments
- 398 Design: Illustration
- 496 Design: Graphics II

Supporting courses in art may be chosen in accord with individual interests. Supporting courses from other departments and schools may also be elected (for example, Business Administration 370 or 472 and Communication Arts 374 or 380). Applicable courses will be recommended by advisers.

BACHELOR OF ARTS IN EDUCATION: See School of Education.

The Publishing and Printing Arts minor is cross-referenced with the Department of English. See the description of that minor under English.

MINOR IN STUDIO ART: 20 semester hours, including 110, 4 hours in materials media, 4 hours in pictorial media, and 8 hours of electives.

MINOR IN ART HISTORY: 20 semester hours, including 110, 12 hours in art history electives, and 4 hours in studio art.

COURSE OFFERINGS

STUDIO

- 160 DRAWING
- 196 DESIGN I: FUNDAMENTALS

HISTORY AND THEORY

- 110 INTRODUCTION TO ART
- 180 TRADITIONS OF WESTERN ART
- 280 MODERN ART
- 380 CONTEMPORARY ART
- 381 TWENTIETH CENTURY DESIGN AND ARCHITECTURE
- 386 IMAGERY AND SYMBOLISM
- 388 AMERICAN ART
- 440 SEMINAR IN ART EDUCATION
- 490 SEMINAR
- 497 RESEARCH IN ART HISTORY-THEORY

110 INTRODUCTION TO ART

Art in the modern world seen in relation to history; a search for meaning in an age of science, industrialization, and nationalism. Not intended for majors. (4)

160 DRAWING

A course dealing with the basic techniques and media of drawing. (4)

180 TRADITIONS OF WESTERN ART

A survey tracing the development of Western art from prehistory to the beginnings of the modern epoch in the 18th century. (4)

196 DESIGN I: FUNDAMENTALS

An introduction to design through the study of basic techniques, color theory, and composition. (4)

215 CRAFTS

Studio experience in a variety of art media and techniques. Of particular interest to teachers and to recreation and social service workers. May be repeated for credit. (4)

216 JEWELRY

A study of form and technique in the design and execution of jewelry objects. Includes stone setting, fabrication, and casting. May be repeated for credit. (4)

230 CERAMICS I

Ceramic materials and techniques including hand-built and wheel-thrown methods, clay and glaze formation. Includes a survey of ceramic art. (4)

250 SCULPTURE I

Various techniques and materials of sculpture and their influence on three-dimensional form. (4)

280 MODERN ART

A survey of modern art from the late 18th century through major movements of the 19th and 20th centuries up to the Second World War. (4)

296 DESIGN II: CONCEPTS

An investigation of the process of creative problem solving in a methodical and organized manner. Includes projects in a variety of design areas. Prerequisite: 196 or consent of instructor. (4)

326, 426 PHOTOGRAPHY I, II

A studio course in photography as an art form. Primary concentration on camera techniques and use of darkroom. Student production of slide and print portfolios, with an emphasis on creative and expressive experimentation. 326 must be taken before 426; 426 may be taken twice. 426 includes emphasis on color printing. (4, 4)

328 FILM MAKING

A studio course in film making as an art form. A study of the materials and techniques of film making and the production of student 8 mm. and 16 mm. films. Classic and experimental films will be surveyed. (4)

330, 430 CERAMICS II, III

Techniques in ceramic construction and experiments in glaze formation. 330 must be taken before 430; 430 may be taken twice. Prerequisite: 230. (4, 4)

335 FIBERS

Exploration and development of fiber structures and soft art forms with non-loom and loom techniques. May be repeated for credit. (4)

341 ELEMENTARY ART EDUCATION

A study of creative growth and development; art as studio project; history and therapy in the classroom. (2)

350/450 SCULPTURE II, III

Concentration on a particular medium of sculpture including metals, wood, or synthetics; special sections emphasizing work from the human form as well as opportunity for mold making and casting. 350 must be taken before 450; 450 may be taken twice. Prerequisite: 250. (4, 4)

360 LIFE DRAWING

An exploration of human form in drawing media. May be repeated for credit. Prerequisite: 160 or consent of instructor. (4)

365, 465 PAINTING I, II

Media and techniques of painting in oil or acrylics. 365 must be taken before 465; 465 may be taken twice. Prerequisite: 160. (4, 4)

A

School of the Arts

370, 470 PRINTMAKING I, II

Methods and media of fine art printmaking; both hand and photo processes involving lithographic, intaglio and screen printing. 370 must be taken before 470; 470 may be taken twice. Prerequisite: 160 or consent of instructor. (4, 4)

380 CONTEMPORARY ART

The development of art from 1945 to the present, with a brief look at European and American antecedents as they apply to contemporary directions. Includes a substantial section on aesthetics and art theory. (4)

381 TWENTIETH CENTURY DESIGN AND ARCHITECTURE

A study of twentieth century developments in architecture and related fields as well as certain design areas. (4)

386 IMAGERY AND SYMBOLISM

A survey of symbolic, pictorial, and plastic expressions in Western tradition from the perspective of their philosophical and theological implications, with particular emphasis on the development of the Christian cultus. (4)

388 AMERICAN ART

A study of the traditions and developing characteristics of American style from early settlements to the present. (4)

395 DESIGN: ENVIRONMENTS

An investigation into various types of environments with particular emphasis on residential. Included will be a brief history of furniture and design styles; approaches to planning and procedures; and an introduction to technical drawing and model building. Prerequisite: 196 or consent of instructor. (4)

396, 496 DESIGN: GRAPHICS I, II

Design and execution of printed materials; emphasis on technical procedures and problems in mass communication. 496 explores advanced techniques with multiple color, typography, and other complex problems. 396 must be taken before 496. Prerequisite: 160 and 296 or consent of instructor. (4, 4)

398 DESIGN: ILLUSTRATION

Projects in various types of illustration from story to advertising. Prerequisites: 160 and 196. (4)

426 PHOTOGRAPHY II (See 326)**430 CERAMICS III (See 330)****440 SEMINAR IN ART EDUCATION**

A study of instruction in the secondary school including appropriate media and curriculum development. (2)

450 SCULPTURE III (See 350)**465 PAINTING II (See 365)****470 PRINTMAKING II (See 370)****490 SEMINAR**

Selected topics considering some aspects of the visual arts. May be repeated for credit. Prerequisite: consent of instructor. (4)

491 DESIGN: WORKSHOP

A tutorial course which may deal with any of several aspects of the design field with particular emphasis on practical experience and building a portfolio. (2)

492 STUDIO PROJECTS

A tutorial course with individual investigation of a particular medium, for major students only. May be repeated for credit. Prerequisites: senior status, consent of instructor, and program approval by department faculty. III (4)

496 DESIGN: GRAPHICS II (See 396)**497 RESEARCH IN ART HISTORY-THEORY**

A tutorial course for major students with research into a particular aspect of art history or theory. May be repeated for credit. Prerequisites: senior status, consent of instructor, and program approval by department faculty. (2 or 4)

499 B.F.A. CANDIDACY EXHIBITION

Exhibition of undergraduate work by B.F.A. candidates. Students are responsible for all arrangements in consultation with their major advisers. (no credit)

School of *The Arts*

The School of the Arts of Pacific Lutheran University is a community of artists dedicated:

- to provide energies and facilities for the focused refinement of creative activity;
- to operate in the vanguard of artistic understanding and to assume an additive rather than imitative position relative to that understanding;
- to pursue study of both the historical and theoretical aspects of our creative legacy;
- to recognize change in artistic criteria without devaluing the traditional concepts of discipline, craftsmanship, and academic professionalism;
- to foster activity free from the caprice of the marketplace but, by virtue of its substance, not aloof from nor incompatible with practical concerns;
- to animate and "humanize" the academic climate of Pacific Lutheran University via the creative presence by sponsoring a rich and varied program of events in the arts;

and to provide the students of Pacific Lutheran University an opportunity to experience first hand the unique "chemistry" of the creative process.

FACULTY

Moe, Dean: faculty members of the Departments of Art, Communication Arts, and Music.

Degrees offered by the School of the Arts include the B.F.A. (Bachelor of Fine Arts) in art, communication arts, and music, the B.M. (Bachelor of Music), and the M.M. (Master of Music). Students may also earn the B.A. (Bachelor of Arts), but this degree is awarded through the College of Arts and Sciences. Candidates for the B.F.A. and B.M. as well as the B.A. in art, communication arts, or music must meet general university requirements and the specific requirements of the Departments of Art, Communication Arts, or Music.

For details about the B.A.E. (Bachelor of Arts in Education) in art, communication arts, or music, see the School of Education.

For course offerings, degree requirements, and programs in the School of the Arts, see:

COMMUNICATION ARTS
MUSIC

Biology

B

Biology

The Department of Biology is dedicated to a teaching process, not just a delivery of facts. Facts form the foundation of science but approach infinity in number. Therefore, the biology faculty stresses the gathering, processing, retrieving, and interpreting of these facts.

The biology faculty believes in the notion that one of the most profound requirements in science is learning to ask the right questions and to recognize the answers. The department is therefore dedicated to permitting students to learn science in the only way that it can be effectively made a part of their thinking: to independently question it, probe it, try it out, experiment with it, experience it.

In addition to diverse faculty and balanced curriculum, the department provides numerous facilities for its students, including: herbarium, invertebrate and vertebrate museums, greenhouse, vivarium and surgery room, climate control rooms, growth chambers, vertebrate physiology and cell physiology laboratories, a field station located on State of Washington Parks land, and a boat equipped for studies of Puget Sound. Qualified students are invited to use these facilities in independent study or participation in ongoing faculty research.

Career avenues for graduates are numerous. The biology faculty are committed to helping students investigate and obtain the career which most clearly matches their interests and abilities.

FACULTY

Lerum, Chair; Alexander, Carlson, Crayton, Gee, Hansen, J. Jensen, Kerk, Knudsen, Main, D. J. Martin, Matthias, McGinnis.

BACHELOR OF ARTS or BACHELOR OF SCIENCE MAJOR: The major in biology is designed to be flexible in meeting the needs and special interests of students. Several options for major programs are available. In each plan for the major listed below, minimal requirements are described, and students should consult their major advisers on the selection of electives which will help them adequately meet their pre-professional and educational goals. A department advisor must be consulted before completion of Biology 323, the final course in the initial three semester core courses required of all biology majors. Interim courses (300-320) cannot be counted toward the major.

Plan I—Bachelor of Arts: 32 semester hours, including 161, 162, and 323, plus 19 additional hours. 4 hours are permitted in courses numbered below 150 (if completed before taking 155 and up to 8 hours are permitted in courses numbered between 201 and 206. Required supporting courses: Chemistry 105 or 115 and Math 133 or equivalent. Recommended supporting courses: Physics 125-126.

Plan II—Bachelor of Arts—Comprehensive: 36 semester hours, including 161, 162, and 323, plus 23 additional hours in courses numbered over 200. Up to 8 hours are permitted in courses numbered between 201 and 206. Required supporting courses: Chemistry 115, 116 and Math 133 or equivalent. Recommended supporting courses: one semester of organic chemistry and Physics 125-126.

Plan III—Bachelor of Arts—Chemistry Emphasis: 28 semester hours, including 161, 162, and 323, plus 15 additional hours in courses numbered over 323. Required supporting courses: Chemistry 115, 116, 331, 332 with laboratories, plus one of the

following—Chemistry 321 or 403 and Math 133 or equivalent. Recommended supporting courses: Physics 125-126.

Plan IV—Bachelor of Science: 40 semester hours, including 161, 162, and 323, plus 28 additional hours in courses numbered over 200. Up to 8 hours are permitted in courses numbered between 201 and 206. Required supporting courses: Chemistry 115, 116, 331 with laboratories; Math 151; Physics 125-126 or 153-154.

Plan V—Bachelor of Science—Research Emphasis: 40 semester hours, including 161, 162, and 323, and 495, plus 25 additional hours in courses numbered over 323. Required supporting courses: Chemistry 115, 116, 331, 332 with laboratories; Math 151; Physics 125-126 or 153-154.

BACHELOR OF ARTS IN EDUCATION: See School of Education.

MINOR: At least 20 semester hours selected from any biology courses except those numbered 300-320 (interim), in which a grade of C or higher is earned. Pass-fail courses may not be counted. Prerequisites must be met unless a written waiver is obtained in advance from both the instructor and the department chair. Applicability of non-PIU biology credits will be determined by the department chair. Consult the chair for assignment of a minor adviser.

COURSE OFFERINGS

111 BIOLOGY AND THE MODERN WORLD

An introduction to biology, designed primarily for non-biology majors. Fundamental concepts chosen from all areas of modern biology including the environment, population, human anatomy and physiology, genetics, evolution and biological controls. Lectures, laboratories, and discussion. I II (4)

112 HUMANISTIC BOTANY

An introduction to the basic principles of biology with an emphasis on plants and their impact on people. Topics included are: basic plant structure and function; poisonous plants; medicinal plants; food plants; propagation of house plants; home care of plants; plant identification. Includes laboratory. II (4).

161 PRINCIPLES OF BIOLOGY I: CELL BIOLOGY

Cellular and molecular levels of biological organization; cell ultrastructure and physiology, Mendelian and molecular genetics, energy transduction. Required of all biology majors. Includes laboratory and a one hour faculty seminar on current topics in biology. Co-registration in chemistry (104 or I 15) recommended. I (5).

162 PRINCIPLES OF BIOLOGY II: ORGANISMAL BIOLOGY

An introduction to animal and plant tissues, anatomy, and physiology, with special emphasis on flowering plants and vertebrates as model systems, plus an introduction to animal and plant development. Includes laboratory. Prerequisite: 161 II (4).

201 INTRODUCTORY MICROBIOLOGY

The growth, control, physiology, isolation, and identification of microorganisms, especially those which affect human beings. Includes laboratory. Prerequisite: CHEM 105 or consent of instructor. I (4)

205,206 HUMAN ANATOMY AND PHYSIOLOGY

First semester: matter, cells and tissues; nervous, endocrine, skeletal, and muscular systems. Laboratory includes cat dissection and experiments in muscle physiology and reflexes. Second semester: circulatory, respiratory, digestive, excretory, and reproductive systems; metabolism, temperature regulation, and stress. Laboratory includes cat dissection, physiology experiments, and study of developing organisms. 205 (I) prerequisite to 206 (II) (4, 4)

B

Biology

323 PRINCIPLES OF BIOLOGY III:**ECOLOGY, EVOLUTION AND DIVERSITY**

Evolution, ecology, behavior, and a systematic survey of life on earth. Prerequisite: 162 or consent of department chair. I (4).

324 NATURAL HISTORY OF VERTEBRATES

Classification, natural history, and economic importance of vertebrates with the exception of birds. Field trips and laboratory. Prerequisite: 323. a/y 1987-88 (4)

326 ANIMAL BEHAVIOR

Description, classification, cause, function, and development of the behavior of animals. Lectures emphasize an ethological approach to the study of behavior focusing on comparisons among species, as well as physiological, ecological, and evolutionary aspects of behavior. Laboratory is not rigidly scheduled and will consist of a behavioral investigation of the students' choosing. Prerequisite: 323 or consent of instructor. II (4)

327 ORNITHOLOGY

The study of birds with emphasis on local species; designed for students with hobby interests as well as for advanced biology students. Field trips. Includes laboratory. Prerequisite: 323 or consent of instructor. II (2)

328 MICROBIOLOGY

The structure, physiology, genetics, metabolism, and ecology of microorganisms. Includes laboratory. Prerequisite: 323 or consent of instructor; one semester organic chemistry recommended. II (4)

331 GENETICS

Basic concepts including consideration of molecular basis of gene expression, recombination, genetic variability, and consideration of cytogenetics and population genetics. Includes laboratory. Prerequisite: 323 I (4)

340 PLANT DIVERSITY AND DISTRIBUTION

A systematic introduction to plant diversity. Interaction between plants, theories of vegetational distribution. Emphasis on higher plant taxonomy. Includes laboratory and field trips. Prerequisite: 323. II (4)

346 CELLULAR PHYSIOLOGY

Deals with how cells are functionally organized; enzyme kinetics and regulatory mechanisms, biochemistry of macromolecules, energy metabolism, membrane structure and function, ultrastructure, cancer cells as model systems. Prerequisites: 323 and one semester of organic chemistry or consent of instructor. II (4).

347 CELLULAR PHYSIOLOGY LABORATORY

A laboratory experience in techniques and types of instrumentation often encountered in biochemical and cellular research including animal cell culture, cell fractionation, use of radiotracers, biochemical assays, membrane phenomena, spectrophotometry, respirometry. May be elected only by students with a serious interest for this type of training; not required with 346. Corequisite/prerequisite: 346 or CHEM 403 and consent of instructor. II (1).

359 PLANT ANATOMY AND PHYSIOLOGY

Higher plant structure and function from germination to senescence, including basic anatomy, seed germination, water relations, respiration, mineral nutrition, photosynthesis, growth regulators, and reproduction. Includes laboratory. Prerequisites: 323 and one semester of organic chemistry. I (4)

361 COMPARATIVE ANATOMY OF THE VERTEBRATES

An integrated study of the principles of vertebrate structure. Considers how and why living vertebrates attained their present structure by emphasizing phylogenetic, developmental, and physiological topics. Prerequisite: 323. II (4)

372 GENERAL ENTOMOLOGY

An introduction to insect anatomy, physiology, ontogeny, and behavior. Laboratory includes gross dissection, field study, and the collection and classification of insects. Prerequisite: 323. a/y 1986-87 I (4)

385 IMMUNOLOGY

Immunology is the study of the biological properties which enable an organism to respond to changes within itself when the changes represent the presence of foreign substances, either from the external environment or self-induced. Consideration of the biology and chemistry of immune response: the specificity of the organism's

immune reactions, the types and roles of lymphatic cells, chemical and functional characteristics of immunoglobulins and complement, genetic control of the immune response, hypersensitivity reactions, and immunodeficiency diseases. Practical ramifications include methods of immunochemical analysis and clinical applications. Prerequisites: 328, 346, or CHEM 403. II (2)

403 DEVELOPMENTAL BIOLOGY

The development of multicellular organisms, emphasizing the molecular bases for development. Major topics include interaction of egg and sperm to initiate the developmental program, the origin of all differences in early development, genetic control of development, cellular differentiation, morphogenetic processes, and how rules for cell behavior govern the formation of specific patterns in developing organisms. Laboratory includes cellular and molecular experimental problems. Prerequisite: 323. I (4).

407 MOLECULAR BIOLOGY

An introduction to molecular biology, emphasizing the molecular biology of eukaryotic cells. Topics include recombinant DNA procedures, genetic engineering, gene fine structure, gene expression, sequencing of nucleic acids, naturally occurring rearrangements of the genome, chemical synthesis of oligonucleotides, and the molecular composition and architecture of some cellular components. Prerequisite: 323. I (4).

411 HISTOLOGY

Microscopic study of normal cells, tissues, and organs of vertebrates. This study is both structurally and physiologically oriented. Prerequisite: 323. II (4)

424 ECOLOGY

Organisms in relation to their environment, including organismal adaptations, population growth and interactions, and ecosystem structure and function. Prerequisite: 323. I (4)

425 BIOLOGICAL OCEANOGRAPHY

The ocean as environment for plant and animal life; an introduction to the structure, dynamics, and history of marine ecosystems. Lab, field trips, and term project in addition to lecture. Prerequisite: 323. II (4)

426 FIELD METHODS IN ECOLOGY

Sampling techniques and analysis of natural ecosystems. Independent project required. Prerequisites: 323 and 424 or consent of instructor. II (2)

441 MAMMALIAN PHYSIOLOGY

Functions of principal mammalian organ systems emphasizing control mechanisms and homeostatic relationships. Human-oriented laboratory includes work in circulation, cardiography, psychophysiology, temperature regulation, and other areas. Students are required to design and execute a major experiment of their own. Prerequisites: 323 and CHEM 331. Anatomy and biochemistry recommended. I (4)

475 EVOLUTION

Evolution as a process: sources of variation; forces overcoming genetic inertia in populations; speciation. Evolution of genetic systems and of life in relation to ecological theory and earth history. Lecture and discussion. Term paper and mini-seminar required. Prerequisite: 323. I a/y 1986-87 (4)

490 SEMINAR

Selected topics in biology based on literature and/or original research. Open to junior and senior biology majors. (1)

491, 492 INDEPENDENT STUDY

Investigations or research in areas of special interest not covered by regular courses; open to qualified junior and senior majors; students should not elect independent study unless they know in advance the specific area they wish to investigate and can demonstrate a serious interest in pursuing it. It is suggested that the student spend one semester researching the literature and writing a proposal (for 1 sem. hr. of credit) and the next semester actually carrying out the project (for another 1 sem. hr. of credit). Students will not be permitted to use 491-492 for filling in a deficiency in their program. Prerequisite: written proposal for the project approved by a faculty sponsor and the department chair. (1-4)

495 DIRECTED STUDY

Original experimental or theoretical research open to upper division students intending to graduate with a Bachelor of Science-Research Emphasis. Requires a written proposal approved by a faculty sponsor and the department chair. (2)

School of *Business* *Administration*

B

School of Business Administration

In concert with general university requirements, the business curriculum prepares graduates for responsible positions in business, education, and government.

Optional concentrations are offered in the fields of accounting, finance, human resource management, management information systems, marketing, and operations management.

FACULTY

King, Dean; Bancroft, Barndt, Barnowe, Berniker, D. Carvey, L. Carvey, Freeman, Hegstad, H. T. Johnson, Lauer, McNabb, Myers, Ramaglia, Savarino, Schafer, Sepic, Thrasher, Van Wyhe.

ADMISSION

The professional Bachelor of Business Administration degree program is composed of an upper division business curriculum with a strong base in liberal arts.

Undergraduate students are admitted to the School of Business Administration upon the successful completion of at least 24 semester hours with a cumulative grade point average of 2.5 or above, and the declaration of business administration as the major field of study. Transfer students are also required to have maintained the grade point average of 2.5. The student's interest to acquire a professional competence is desired and the assignment of a business faculty adviser is required.

Students considering graduate-level study should seek early planning advice from the faculty concerning appropriate undergraduate course selection.

Graduate students are admitted to the School of Business Administration when they meet the requirements specified in the M. B. A. catalog.

AFFILIATIONS

The School of Business Administration of Pacific Lutheran University is a member of the American Assembly of Collegiate Schools of Business. The B.B.A., M.B.A., and accounting programs are nationally accredited by the Accreditation Council of the AACSB. Pacific Lutheran University is accredited regionally by the Northwest Association of Schools and Colleges. The School is privileged to have a student chapter of Beta Gamma Sigma, the national business honorary society recognized by the AACSB.

DEGREE REQUIREMENTS

The Bachelor of Business Administration degree program consists of 128 semester hours to be taken over a four-year period, and to be completed with an over-all grade point average of 2.5 or above as well as a 2.5 grade point average separately in business courses. D grades in business administration core courses (including the two upper division business electives) will not meet the B.B.A. graduation requirements.

Sixty-four semester hours or one-half of the minimum total degree requirements are taken in fields outside the School of Business Administration. At least 40 semester hours are taken in required and elective business subjects.

BACHELOR OF BUSINESS ADMINISTRATION:

230, 281, 282, 350, 354, 364, 370, 455, and 8 semester hours of upper division business electives. Required supporting courses: Economics 150, Math 128 (or 151 and 230) (or 151, 152, and 331) Computer Science 220 (or equivalent), Statistics 231, and one upper division economics course. **NO MORE THAN 50 PERCENT OF THE TOTAL HOURS MAY BE BUSINESS COURSES.** The elective courses are chosen to support students' professional career objectives or graduate study plans. They may reflect business administration concentrations or selections from entirely different fields. The latter may include work in other professional schools or programs.

CONCENTRATIONS:

A concentration is a specialization within the School of Business Administration. The concentration, which is noted on the student's transcript, must be completed with at least a 2.5 grade point average. C- is the minimal acceptable grade for concentration courses.

Accounting

- BA 381 Intermediate Financial Accounting
- BA 382 Advanced Financial Accounting
- BA 385 Cost Accounting
- BA 483 Income Taxation
- BA 484 Auditing
- BA 487 Accounting Information Systems

Finance

- BA 364 Managerial Finance
- BA 367 Financial Markets
- BA 464 Financial Planning and Control
- BA 381 Intermediate Accounting
 - OR 461 Portfolio Management
- ECON 352 Intermediate Micro Economic Analysis
 - OR ECON 361 Money and Banking
 (Either course will fulfill the business requirement for an upper division economics course.)

Human Resource Management

- BA 354 Human Resource Management
- BA 454 Organizational Change and Development
- BA 457 Productivity and the Quality of Work Life
- BA 458 Advanced Human Resource Administration
- ECON 321 Labor Economics, Labor Relations, and Human Resources (This will fulfill the requirement for an upper division economics course.)

Management Information Systems (Completion of this concentration also fulfills the requirements for an Information Science minor within the Department of Mathematics and Computer Science.)

- CSCI 144 Pascal*
 - CSCI 270 Data Structures
 - CSCI 467 Data Base Management
 - BA 325 Information Systems in Organizations
 - BA 421 Systems Design and Analysis
 - BA 428 Seminar in Management Information Systems
 - BA 487 Accounting Information Systems
- Students in the MIS concentration may substitute the CSCI 144, 270, 467 series for the pre-business CSCI 220 requirement.

B

School of Business Administration

Marketing

- BA 370 Marketing Systems
- BA 470 Marketing Management
- BA 471 Marketing Research and Consumer Behavior
- Two of the following:
 - BA 472 Advertising and Sales Management
 - BA 473 Industrial Marketing and Purchasing
 - BA 474 International Marketing

Operations Management

- BA 350 Management
- BA 385 Cost Accounting
- BA 450 Production and Operations Management
- BA 473 Industrial Marketing and Purchasing

MINOR IN BUSINESS ADMINISTRATION: Economics 150; Math 128 (or 151 and 230) (or 151, 152, and 331); Computer Science 220 (or equivalent); Statistics 231; Business Administration 281, 350, 364, 370. A grade point average of 2.50 in these business courses is required for the minor.

MASTER OF BUSINESS ADMINISTRATION: See Graduate Catalog.

BUSINESS ADMINISTRATION COURSES

Courses numbered 100-299 are available to all students. Courses numbered 321-499 are open to students with junior standing and the required prerequisites. Courses numbered 500-599 are reserved for students in the M.B.A. program and students in other PLU graduate programs who have an approved field in business.

The middle digit of the course number indicates the field of concentration:

- 2—management information systems
- 3—law
- 4—general service
- 5—human resource management
- 6—finance
- 7—marketing
- 8—accounting
- 9—specialized and predominantly independent studies

COURSE OFFERINGS**230 LAW AND SOCIETY**

A study of the legal system in the United States and the regulation of relationships between individual citizens, groups, and the governmental agencies and branches. Review of the rights and obligations of individual citizens and corporations, administrative law, and the procedures and practices of the courts in a modern society. Introduction to legal instruments for international transactions. Prerequisite: sophomore standing, I II (4)

281 FINANCIAL ACCOUNTING

An introduction to accounting concepts and principles. Valuation theories in the U.S. compared to those in other nations. Preparation (manual and computer) and analysis of financial reports. Prerequisite: Sophomore standing, I II (4)

282 MANAGEMENT ACCOUNTING

Introduction to the use of accounting data in planning, control, and decision making. Topics include cost-volume-profit relationships, cost accounting methods, management accounting systems, and budgeting; international implications of performance evaluation systems. Prerequisite: 281. Sophomore standing, I II (4)

325 INFORMATION SYSTEMS IN ORGANIZATIONS

Introduction to the fundamental concepts of systems and information as they apply to organizations. Focus on the integration of information systems into the structure and decision-making process of management. A variety of strategies for the design and implementation of management information systems in organizations will be developed. Prerequisites: CSCI 144 or 220. Junior standing, I (4)

340 INTERNATIONAL BUSINESS

Integrated study of international business functions, and related concepts, practices, and policies. Project and case analyses. This is the principal business administration course for students in the Global Studies International Trade minor. Prerequisites: 281 and ECON 331. I (4)

350 MANAGEMENT

A critical examination of the principles and processes of administration in an increasingly international context. Management techniques and the functions of planning, organizing, leading and directing, and controlling are discussed from the classical, behavioral, and more recent integrative points of view. Included is the study of concepts and characteristics related specifically to the operations function. Introduction to case analysis and problem solving techniques. Prerequisites: ECON 150, STAT 231 (may be concurrent), and BA 281. Junior standing, I II (4)

354 HUMAN RESOURCE MANAGEMENT

Detailed examination of the behavior of individuals and groups in business organizations, with emphasis on policies and practices for solving human resource problems. Fundamentals of personnel-human resource procedures in the U.S. and other countries. International aspects of human resource management will provide insight into the problems of managing foreign operations. Prerequisite: 350. (4)

364 MANAGERIAL FINANCE

Introduction to the principal problems, theories and procedures of financial management: valuation, financial planning, financial statement analysis, capital asset acquisition, cost of capital, financing strategies (including capital structure theory and dividend policy), management of working capital accounts, and financial dimensions of international trade (including foreign exchange risk, country risk, translation gains and losses). Prerequisites: CSCI 220 (or equivalent), ECON 150, MATH 128 (or equivalent), STAT 231, and BA 281. Junior standing, I II (4)

367 FINANCIAL MARKETS

Analysis of the characteristics and determinants of an efficient financial system; pricing of capital assets; supply and demand for loanable funds and the level and structure of interest rates; savings-investment process and financial intermediaries; insurance and reinsurance markets; commodity markets; and international finance. Prerequisites: CSCI 220 (or equivalent), ECON 150, MATH 128 (or equivalent), STAT 231, BA 281, 364. I II (4)

370 MARKETING SYSTEMS

The flows of goods and services in the U.S. and global economies; economic and behavioral approaches to the analysis of domestic and international demand; the role of marketing functions in business and not-for-profit organizations. Determination of a marketing mix: product policy, pricing, channels and physical distribution, and marketing communications. Prerequisites: ECON 150, MATH 128 (or equivalent), STAT 231, and BA 281. Junior standing, I II (4)

381 INTERMEDIATE FINANCIAL ACCOUNTING

Concentrated study of the conceptual framework of accounting, valuation theories in the U.S. and abroad, asset and income measurement, financial statement disclosures, and foreign currency translation for multinationals. Prerequisite: 281. I II (4)

382 ADVANCED FINANCIAL ACCOUNTING

Concentrated study of equity measurement including the accounting aspects of partnerships, corporations, and consolidations. Also includes accounting for multi-national corporations and not-for-profit organizations. Prerequisites: 281, 381. I II (4)

385 COST ACCOUNTING

Development and analysis of cost information for management use in decision making, income determination, and performance evaluation, using a variety of computer and quantitative techniques. International implications arising from the use of traditional inventory models. Prerequisites: 282, CSCI 220, MATH 128, STAT 231, or equivalents. I II (4)

392 INTERNSHIP

A program of full-time experience closely related to the student's specific career and academic interests. The student is expected to develop the internship opportunity with a firm or organization, and the School will provide an internship agreement. This agreement identifies the problems to be researched, experience to be gained, and related readings to be accomplished. Monthly progress reports and other measures of achievement will be used to determine the grade. Not more than 2 hours of credit will be granted for a full month of internship, and not more than 8 hours of accumulated credit will be granted for the internships taken. The internship must be taken for a grade if used to meet one of the required upper division business elective courses, and it must be completed prior to the last semester before graduation. Prerequisites: 281, 282, 350; ECON 150; STAT 231; one additional course in the student's area of concentration. (2 or 4)

421 SYSTEMS DESIGN AND ANALYSIS

Integration of the areas of computer technology, systems analysis, systems design, and implementation. Emphasis on the formalization of the information systems analysis and development process. Exercises and case studies to deal with information analysis and the logical specification of the project. Prerequisites: 281, 282, 325 (may be concurrent). CSCI 144 (or 220). II (4)

428 SEMINAR IN MANAGEMENT INFORMATION SYSTEMS

A course involving a significant hands-on project, software review and selection, and management applications for organizational functions. Prerequisites: 281, 282, 421, 487, CSCI 144 (or 220). II (4)

435 BUSINESS LAW

Procedures, contracts, agencies, negotiable instruments, business organizations, property, trusts and wills, transportation, insurance and employment. II (4)

450 PRODUCTION AND OPERATIONS MANAGEMENT

Critical study of key concepts, quantitative techniques, and practices applied by American and foreign management to the production of goods or services. Includes examination of facility design; work design and measurements; and production planning, control, and scheduling considerations. Prerequisites: 350, MATH 128 (or equivalent), CSCI 220 (or equivalent). I (4)

454 ORGANIZATIONAL CHANGE AND DEVELOPMENT

Examination of the need for change in organizations, using a diagnostic approach and employing appropriate strategies to develop human resources vital to every organization's economic viability. Emphasis on developing the skills of an internal change agent with knowledge of evaluation methods and interventions that facilitate planned change. Prerequisites: 350, 354. I (4)

455 BUSINESS POLICY

Study of organizational administration from top management perspective. Formulation and execution of strategies and policies to integrate all management and business functions in support of organizational objectives. Implications of resource availability, technology, and the economy; education, religion, ethics, and personal values; social responsibility; public policy; and international relations for top management decisions. Includes comprehensive case analyses. Required for business administration majors. Prerequisites: senior standing, 282, 350, 364, 370, 354 recommended. I II (4)

456 HONORS SEMINAR**457 PRODUCTIVITY AND THE QUALITY OF WORK LIFE**

Examination of the sociotechnical determinants of organizational and individual productivity, with subsequent exploration of issues that affect quality of work life in service and manufacturing industries. Comparison of U.S. and foreign firms and cultures will provide reasons for differences in productivity and QWL. II (4)

458 ADVANCED HUMAN RESOURCE ADMINISTRATION

Detailed coverage of modern human resource procedures: job analysis, employee selection, training and career development, compensation, safety and health, labor relations. Review of the U.S. legal context of employment practices, and of human resource practices in other countries. Prerequisite: 354. I (4)

461 PORTFOLIO MANAGEMENT

Discussion of sound portfolio management techniques: Security selection and construction of efficient asset portfolios; measuring investment performance; capital market efficiency; selected recent developments in portfolio analysis. Emphasis on risk and return relationships of securities and portfolios. Exchange risk and international diversification. Prerequisites: CSCI 220 (or equivalent), ECON 150, MATH 128 (or equivalent), STAT 231, BA 281, 364. I II (4)

464 FINANCIAL PLANNING AND CONTROL

Intensive analysis of major financial decisions; financial planning and control; capital budgeting; growth strategies; valuation; bond refunding; new equity issues; recent developments in capital structure theory; international aspects (includes international capital investment, and financing international operations). Emphasis on decision making. Prerequisites: CSCI 220 (or equivalent), ECON 150, MATH 128 (or equivalent), STAT 231, BA 281, 364. I II (4)

470 MARKETING MANAGEMENT

See BA 475.

471 MARKETING RESEARCH AND CONSUMER BEHAVIOR

Techniques and uses of marketing research in the business decision-making process. Emphasis on research design, various survey methods, research instruments, and sampling plans as they relate to marketing consumer products and services in domestic and international environments. Contemporary behavioral science concepts to be examined and incorporated in selected marketing projects. Prerequisites: 370, CSCI 220 (or equivalent). I II (4)

472 ADVERTISING AND SALES MANAGEMENT

The role of promotion activities (advertising, personal selling, sales promotion and publicity) in the domestic and international marketing of goods and services; analysis of target markets; developing market potentials; media selection; designing the promotional message; evaluation and control of the promotional mix. Prerequisite: 370. III (4)

473 INDUSTRIAL MARKETING AND PURCHASING

Analysis of the industrial buying and selling process in domestic and international business exchanges; purchasing policies and procedures; selection of sources of supply, including international sourcing; marketing problems of manufacturers and suppliers of industrial goods and services; developing and implementing domestic and global industrial marketing strategies. Prerequisites: 370, ECON 331. II (4)

474 INTERNATIONAL MARKETING

Introduction to marketing problems and opportunities facing U.S. firms in an international marketing context. Covered are the changes necessary in marketing programs whenever business transactions cross international boundaries; the economic and cultural forces that make these changes necessary. Prerequisites: 370, ECON 331. II (4)

475 MARKETING MANAGEMENT

Analytical approaches to the solution of domestic, international and multinational marketing problems. Developing strategies, planning and administering comprehensive marketing programs; use of computer models; evaluation and control of marketing operations. Prerequisites: 370, one 400 level marketing course, CSCI 220 (or equivalent). III (4)

481 CONTEMPORARY ISSUES IN ACCOUNTING

Exploration of current issues and trends in the conceptual framework of accounting, the national and international environments in which accounting operates and the problems of communicating financial information useful to decision-makers. Prerequisites: 281, 381, 382, or consent of instructor. (4)

483 INCOME TAXATION

Comprehensive study of income tax concepts, regulations, and tax planning principles. Emphasis on individual and business income taxation. Prerequisite: 281. III (4)

484 AUDITING

Comprehensive study of auditing concepts and procedures; analysis of risk through the study and evaluation of internal controls, both administrative and accounting controls, and through the study and evaluation of account balances; reporting of risk; review of the development and meaning of professional responsibility and ethics; review of operational auditing. Prerequisites: 281, 282, 381, 382. III (4)

487 ACCOUNTING INFORMATION SYSTEMS

Application of information systems concepts to the basic accounting information systems and the expansion of traditional accounting models to include the computerized information systems approach. Topics include manual accounting systems, reporting objectives, procedures for systems analysis and design of accounting systems, behavioral aspects of systems design, audit trail, internal control, legal environment, audit requirements, and computer processing technology. Prerequisites: 281, 282, CSCI 220 (or equivalent). I II (4)

490 SEMINAR

Seminar on specifically selected topics in business. Offered on demand. Prerequisite: consent of instructor. (4)

B

School of Business Administration

491 DIRECTED STUDY

Individual studies; readings on selected topics approved and supervised by the instructor. Prerequisite: consent of instructor. (1-4)

501 FUNDAMENTALS OF ACCOUNTING AND FINANCE

Fundamental assumptions, principles, and procedures underlying accounting; transaction analysis and the fundamental accounting model; matching of expenses with revenue; measurement and reporting of income statement and balance sheet accounts; consolidated statements; and accounting implications of basic international transactions. Theoretical framework for financial decisions; decision theory relative to working capital management, short and intermediate-term financing, capital investments and valuation, capital structure and dividend policy, long-term financing, and multinational financing and investing. III (4)

502 FUNDAMENTALS OF MANAGEMENT AND MARKETING

Principles and processes of administration. Techniques and functions of planning, organizing, directing, and controlling. The flows of goods and services in the economy; economic and behavioral approaches to the analysis of demand; the marketing functions in business firms. Determination of the marketing mix. An examination of the cultural and economic implications of international business transactions on the management and marketing functions of U.S. firms. III (4)

503 MANAGEMENT USE OF COMPUTERS

An introduction to computer systems and their uses in industry. Topics include understanding fundamental components of computer languages, statistical packages such as SPSS-x and minitab, word processing, and spreadsheet construction. Prerequisite: ECON 500 (may be concurrent). I II (2)

520 PROGRAMMING FOR MANAGERS

Computer programming including branching, looping, subscripts, input/output, character manipulation, subroutines, file manipulations, data storage and retrieval. Advanced work with software packages. Prerequisite: 503. (4)

521 INFORMATION SYSTEMS DESIGN

System development processes. Information analysis and logical specification of the system. Emphasis on the iterative nature of the analysis and design process. Prerequisites: 501, 503, 582. (4)

528 SEMINAR IN MANAGEMENT INFORMATION SYSTEMS

In-depth study of selected topics related to management information systems (MIS). Projects will entail application to the functional areas of business. Prerequisites: 501, 520, 521 (or 587), 582. (4)

535 LEGAL ASPECTS OF THE MANAGEMENT PROCESS

Survey of federal and state laws, rules, and regulations that directly impinge on the manager's decision-making in the modern business enterprise. Includes legal implications for the individual manager and his/her corporation that follow from business decisions in areas such as employee relations, consumer protection, security and exchange regulations, rights of corporate shareholders and creditors, antitrust laws, and environmental protection. (4)

550 ORGANIZATIONAL BEHAVIOR AND ENVIRONMENT

The study of open sociotechnical systems within which a manager must operate. Three major perspectives are encompassed: the external organization environment, including legal, ethical, social, economic, political, and international influences; the organization itself as an entity; and the internal organization environment. Comparisons with administrative practices in other countries and cultures. Prerequisite: 502. I II (4)

551 OPERATIONS MANAGEMENT AND SYSTEMS SEMINAR

Intensive study of key concepts, practices, and techniques applicable to the management of the production of goods and services including work and system design, planning, scheduling, quality control and modern techniques developed in other countries. Organizational impacts of production and information systems. Case analyses are used to address complex situations. Prerequisites: 503, 550, ECON 500, 543. III (4)

553 CONTEMPORARY ISSUES IN MANAGEMENT

Investigation of the roles of managers in modern society. The exploration may include, but is not limited to, the topics of corporate responsibility, ethical issues in management, the impact of technological change on organizations and society, and the challenges posed by international competition and management innovations in other countries. The workshop approach to these topics combines the use of cases, readings, discussions, and simulations. Prerequisites: 550, ECON 504. (4)

554 PLANNED ORGANIZATIONAL CHANGE

Detailed examination of techniques for diagnosing administrative problems requiring change, and for planning, implementing, and evaluating changes undertaken through systematic programs of individual, group, and organization development. Emphasis on the problem assessment skills of internal change agents and on interventions aimed at structural changes, management training, and career development. Comparative organization development practices in other countries. Prerequisite: 550. II (4)

555 BUSINESS STRATEGY AND POLICY

An integrated management approach based on decision-making analysis in complex cases and comprehensive field situations. Advanced readings and library research integrate concepts of management and business functions including consideration of legal, social, and international aspects of the business environment. Prerequisites: 551, 564, and 570. any one of which may be taken concurrently with 555. I II (4)

561 INVESTMENT ANALYSIS AND MANAGEMENT

Introduction to the nature, problems, and processes of evaluating particular securities (foreign, as well as domestic); portfolio construction and administration. Special attention to the risk and rate-of-return aspects of particular securities, security portfolios, and total wealth. Prerequisites: 501, ECON 543. I (4)

564 FINANCIAL MANAGEMENT SEMINAR

Analysis of optimal financial policies. Intensive investigation of the valuation process and its resulting impact on firm investment, financing, and dividend policies. Discussion of the implications of international financing and investing activities. Extensive use of the case method. Prerequisites: 501, 503, ECON 504, 543. I II (4)

570 MARKETING MANAGEMENT SEMINAR

Introduction to marketing strategy decisions in both domestic and international contexts; marketing resource allocation decisions in a competitive selling environment; marketing alternatives for both consumer and industrial goods and services. Prerequisites: 502, 503, ECON 504, 543. I II (4)

581 SEMINAR IN FINANCIAL ACCOUNTING THEORY

Advanced accounting concepts and standards; current problems and trends reflected in accounting literature; designed for professional accountants. (4)

582 ACCOUNTING INFORMATION AND CONTROL

Applications of accounting information, services, and systems to management problems. Impact on decision making by international accounting practices. Prerequisites: 501, 503. I II (4)

587 FINANCIAL INFORMATION SYSTEMS

Expansion of traditional accounting information flow models to include computerized systems. Emphasis on the financial information needs of management and the resulting systems requirements. Prerequisites: 501, 520, 582.

590 SPECIAL SEMINAR

Selected advanced topics; offered on demand. (4)

591 INDEPENDENT STUDY

Individual reading and studies on selected topics; minimum supervision after initial planning of student's work. Prerequisite: consent of instructor. (1-4)

593 THESIS

Research study to meet Thesis Option requirement for elective in the M.B.A. degree program. (4)

Chemistry

C

Chemistry

The history of civilization is inseparable from the history of chemistry. Everything that occurs in nature—from mental processes and behavior, to the furniture we live around, to the tools we use for work or play, to the problems of pollution—is chemically based. Chemistry seeks to understand the fundamental nature of matter, the changes in its composition, and the energy changes accompanying these changes. Use of this knowledge influences our lives in many profound ways. Whether interested in the chemical profession itself, including biochemistry, polymer chemistry, radiation chemistry, and other specialties, or in chemistry in conjunction with other fields such as business, the social sciences, and the humanities, students will have suitable programs available to meet their interests at PLU. Diversity in career planning is a key concept in the chemistry department. Programs are available which are broadly applicable to the health, biological, physical, environmental, behavioral, and fundamental chemical sciences.

The chemistry department's courses, curriculum, faculty, and facilities are approved by the American Chemical Society. The staff of eight persons with doctorates has composite expertise in virtually every field of pure and applied chemistry. The faculty are very active in basic and applied research, and most are also significantly involved in the community, applying their expertise to enhance the quality of life of the citizens.

The department uses numerous scientific instruments in the laboratories. Such major research and teaching equipment includes: *nuclear magnetic resonance, infrared, ultra-violet, visible, atomic absorption, flame photometry, emission, and electron spin resonance spectrometers; X-ray crystallographic diffractometer; gas and liquid chromatographs; precision refractometer; dipolometer; scintillation counter; zone refiner; a complex microprocessor system; and a fluorometer.*

Faculty research projects involving student participation are in progress in many important fields of chemistry. Some of the general areas are: *polymer structure and properties, synthesis of heterocyclic compounds, fungal and chemical cleavage of lignin, structural and magnetic studies of inorganic complexes, organic kinetics, photochemical reactions, the role of nutrition in health, and the biochemistry of drug actions.*

FACULTY

Giddings, Chair; C. Anderson, Ash, Fryhle, Huestis, Klopfenstein, Nessel, Swank, Tobiasson, Tonn.

Degrees in chemistry are the Bachelor of Arts and the Bachelor of Science for students wishing to structure their undergraduate education around a full chemistry major. The B.A. program is the minimum preparation suitable for further professional studies and is often combined with extensive study or a second major in an allied field. The B.S. program involves additional chemistry courses and serves both students going directly into employment on graduation and those going into graduate programs. It is offered with emphasis in chemistry, biochemistry, or chemical physics. The first option is an American Chemical Society certified program. The latter two options are offered in cooperation with the biology and physics departments for students wishing to work at the interfaces between chemistry and biology or physics.

Students contemplating a major in chemistry are invited to discuss their interests and plans with members of the chemistry faculty at the earliest possible time. Opportunities for honors work in chemistry are described below.

Students deciding to major in chemistry should officially declare their intent after having completed Chemistry 331 and after consultation with a faculty adviser in the chemistry department. Transfer students desiring to major in chemistry should consult a departmental adviser no later than the beginning of the junior year.

The foreign language requirement of the College of Arts and Sciences should preferably be met in German or Russian.

The chemistry department considers computer usage to be an increasingly important tool in professional and personal activities. Further, laboratory work in the department places considerable emphasis on computer use. Therefore, the department strongly recommends that a student planning to major in chemistry take at least one two-credit hour course in computer science.

BACHELOR OF ARTS MAJOR: Chemistry 115, 116, 321, 331, 332, 333, 334, 341, 342, 343, 460. Required supporting courses: Physics 147, 148, 153, 154; Math 151, 152.

BACHELOR OF SCIENCE MAJOR (three alternatives):

1. *General—leads to American Chemical Society certification:* Chemistry 115, 116, 321, 331, 332, 333, 334, 341, 342, 343, 344, 405 or 450 or 456, 435, 460, 490; Physics 147, 148, 153, 154; Math 151, 152. For American Chemical Society certification, 450 and either 405, 456, or Cooperative Education 476 are required.
2. *Biochemistry emphasis:* Chemistry 115, 116, 321, 331, 332, 333, 334, 341, 343, 403, 405, 435, 460, 490; Biology 155, 156, 253, 254; four hours selected from Biology 322, 326, 331, 346, 359, 375, 385, 441 or Chemistry 342; Physics 147, 148, 153, 154; Math 151, 152.
3. *Chemical-physics emphasis:* Chemistry 115, 116, 331, 332, 333, 334, 341, 342, 343, 344, 460; Physics 147, 148, 153, 154, 331, 332, 336, 356, Math 151, 152, 253.

Generalized Chemistry Curriculum for the B.S. Degree

FALL	SPRING
Freshman (1)	
Chem. 115	Chem. 116
Math 151	Math 152
Physics 153 or Biology 155 (2)	Physics 154 or Biology 156 (2) (or core course)
Optional fourth course (3)	
PE 100 or activity	PE 100 or activity
Sophomore	
Chem. 331, 333	Chem. 332, 334
Physics 153 or Biology 155 (2)	Physics 154 or Biology 156 (2)
Two additional courses	Two additional courses
Junior	
Chem. 341, 343	Chem. 342, 344
Chem. 321	Core course(s)
Core course(s)	Electives
Electives	
Senior	
Chem. 460	Chem. 435
Chem. 490	Electives
Electives	

C

Chemistry

- (1) Refer to the Division of Natural Sciences section of this catalog for other beginning curriculum options.
- (2) The department stresses the importance of taking physics during either the freshman year or the sophomore year. This permits a better understanding of chemistry and enables a student to complete degree requirements with no scheduling difficulties in the junior and senior years.
- (3) Students desiring to fulfill the College of Arts and Sciences foreign language requirement under Option I, or who desire to attain or maintain a language proficiency, should take a language course as part of their optional course selections.

DEPARTMENTAL HONORS: In recognition of outstanding work, the designation *with Departmental Honors* may be granted by vote of the faculty of the Chemistry Department, based on the student's performance in these areas:

- (1) *Course work:* The grade point average in chemistry courses must be at least 3.50.
- (2) *Written work:* From the time a student declares a major in chemistry, copies of outstanding work (e.g., laboratory, seminar, and research reports) will be kept for later summary evaluation.
- (3) *Oral communication:* Students must evidence ability to communicate effectively as indicated by the sum of their participation in class discussions, seminars, help session leadership, and teaching assistantship work.
- (4) *Independent chemistry-related activities:* Positive considerations include the extent and quality of extracurricular work done in background reading, independent study, and research; assisting in laboratory preparation, teaching, or advising; any other chemistry-related employment, on campus or elsewhere; and participation in campus and professional chemistry-related organizations.

The departmental honors designation will appear on a graduating chemistry major's transcript.

BACHELOR OF ARTS IN EDUCATION: Students interested in this degree develop their chemistry program through the department in conjunction with the School of Education. See School of Education section.

CHEMICAL ENGINEERING: Students interested in pursuing studies in chemical engineering should see the course outline in the Engineering section of this catalog. The department chair should be consulted for assignment of a program adviser.

MINOR: 22 semester hours, including 115, 116, 321, 331, 332, 333, and 334, completed with grades of C or higher.

COURSE OFFERINGS

104 ENVIRONMENTAL CHEMISTRY

Basic principles of chemical structure and reactions, with applications to human activities and the natural environment. No prerequisite; students without high school chemistry are encouraged to take 104 before taking 105 or 115. Physical therapy and military nursing programs requiring a year of chemistry should include 104 and 105. Also suitable for environmental studies, general science teachers, B.A. in earth sciences, and general university core requirements or College of Arts and Sciences option III. I(4)

105 CHEMISTRY OF LIFE

General, organic, and biochemistry pertinent to chemical processes in the human organism; suitable for liberal arts students, nursing students, and prospective teachers. Students who have not completed high school chemistry are encouraged to take 104 before taking 105. II(4)

115, 116 GENERAL CHEMISTRY

First semester topics include the structure of matter, atomic and molecular theory, states of matter and quantitative relationships. Second semester topics include kinetics, chemical equilibrium, thermochemistry, study of the elements grouped according to the periodic table, radio-chemistry, and inorganic qualitative analysis. Designed primarily for students who want to major in biology, chemistry, engineering, geology, or physics. Includes all premedical, pre-dental, pharmacy, medical technology students, and students planning to transfer to some university dental hygiene programs. High school chemistry or permission of instructor required. Students with no high school chemistry or weak mathematical background should take 104 before this course. Corequisite: MATH 133. Prerequisite: 115 for 116; I for 115, II for 116. (4, 4)

210 NUTRITION, DRUGS, AND THE INDIVIDUAL

An introduction to basic metabolic interactions, general endocrinology, mind and body interactions, and roles of drugs in modifying biological and behavioral functions. Nutrition topics will include food preparation, "the balanced meal philosophy," nutritional myths, the effects of stress, environmental and societal influences on diet. Prerequisites: one year of high school chemistry or equivalent suggested. Meets general university core requirements. I(4)

321 ANALYTICAL CHEMISTRY

Chemical methods of quantitative analysis, including volumetric, gravimetric, and selected instrumental methods. Prerequisites: 116 and MATH 133. I(4)

331, 332 ORGANIC CHEMISTRY

An interpretation of properties and reactions of aliphatic and aromatic compounds on the basis of current chemical theory. Prerequisite: 116. Corequisites: 333, 334. III(4, 4)

333, 334 ORGANIC CHEMISTRY LABORATORY

Reactions and conventional and modern techniques of synthesis, separation, and analysis of organic compounds. Must accompany 331, 332. III(1, 1)

336 ORGANIC SPECIAL PROJECTS LABORATORY

Individual projects emphasizing current professional-level methods of synthesis and property determination of organic compounds. This course is an alternative to 334 and typically requires somewhat more time commitment. Students who wish to prepare for careers in chemistry or related areas should apply for departmental approval of their admission to this course.

341 PHYSICAL CHEMISTRY

A study of the relationship between the energy content of systems, work, and the physical and chemical properties of matter. Topics include classical and statistical thermodynamics, thermochemistry, solution properties, and phase equilibria. Prerequisites: CHEM 115, MATH 152, PHYS 154. I (4)

342 PHYSICAL CHEMISTRY

A study of the physical properties of atoms, molecules and ions, and their correlation with structure. Topics include classical and modern quantum mechanics, bonding theory, atomic and molecular structure, spectroscopy, and chemical kinetics. Prerequisites: CHEM 115, MATH 152, PHYS 154. II (4)

343, 344 PHYSICAL CHEMISTRY LABORATORY

Experiments in thermodynamics, solution behavior, and molecular structure designed to acquaint students with instrumentation, data handling, correlations with theory, and data reliability. Computer usage is encouraged. Corequisite or prerequisite: 341, 342. III (1, 1)

360 INORGANIC CHEMISTRY: A NON-CALCULUS APPROACH

Offered simultaneously with 450. Includes separate problems and some separate lectures. a/y II (3)

403 BIOCHEMISTRY

An overview, including biochemical structures, mechanisms of reactions, metabolism, genetics, basic pharmacology relevant to mechanisms of reactions, and the biochemistry of the cell. Majors are encouraged to take both 403 and 405 for a more complete understanding of biochemistry. Also for B.A. majors and non-majors interested in biochemistry as a supporting field of knowledge. Laboratory designed to stimulate creativity and problem-solving abilities through the use of modern biochemical techniques. Prerequisites: 332, 334. I (4)

405 BIOCHEMISTRY

A study of chemical reactions and structures in living cells. Topics include enzyme kinetics and mechanisms of catalysis, metabolism, and biochemical genetics. Concepts introduced in Physical Chemistry and Biochemistry will be applied in this course. Designed for students interested in graduate school or research. Prerequisites: 332, 334, 341 and/or 342 or permission, 403. II (2)

435 INSTRUMENTAL ANALYSIS

Theory and practice of instrumental methods along with basic electronics. Special emphasis will be placed on radiochemical, mass spectrometric, chromatographic, and electrometric methods. Prerequisites: 321, 341 and/or 342, 343. II (4)

450 INORGANIC CHEMISTRY

Techniques of structural determination (IR, UV, VIS, NMR, X-ray, EPR), bonding principles, non-metal compounds, coordination chemistry, organometallics, donor/acceptor concepts, reaction pathways and biochemical applications are covered. Laboratory will include synthesis and an in-depth exploration of the physical properties of non-metal, coordination and organometallic compounds. Prerequisites: 331, 332, 341; corequisite 342. a/y II (3)

456 POLYMERS AND BIOPOLYMERS

A course presenting the fundamentals of polymer synthesis, solution thermodynamic properties, molecular characterization, molecular weight distributions, and solution kinetics. Free radical, condensation, ionic, and biopolymer systems are covered, with illustrated applications taken from the medical, engineering, and chemical fields. The one-credit laboratory examining polymer synthesis through experiments is optional. Prerequisite: 341; corequisite, 342. a/y II (3)

460 SEMINAR

Presentation by students of knowledge gained by personal library or laboratory research, supplemented with seminars by practicing scientists. Participation of all senior chemistry majors is required and all other chemistry-oriented students are encouraged to participate. Seminar program will be held during the entire year but credit will be awarded in the spring semester. III (1)

490 INTRODUCTION TO RESEARCH

A course designed to introduce the student to laboratory research techniques, use of the chemical literature, research proposal and report writing. Emphasis will be on the student developing and making progress on an independent chemical research problem chosen in consultation with a member of the chemistry faculty. Prerequisite: 342. I (2)

491 INDEPENDENT STUDY

Library and/or laboratory study of topics not included in regularly offered courses. Proposed project must be approved by department chair and supervisory responsibility accepted by an instructor. May be taken more than once. III (1, 2, or 4)

497 RESEARCH

Experimental or theoretical investigation open to upper division students with consent of department chair. May be taken more than once. Generally will consist of an expanded study of the research project developed in 490. III (1, 2, or 4)

597, 598 GRADUATE RESEARCH

Open to master's degree candidates only. Prerequisite: consent of department chair. III (2-4)

C

College of Arts and Sciences

College of Arts and Sciences

Division of Humanities

English
Languages
Philosophy
Religion

Division of Natural Sciences

Biology
Chemistry
Earth Sciences
Mathematics and Computer Science
Physics and Engineering

Division of Social Sciences

Anthropology
Economics
History
Political Science
Psychology
Social Work and Marriage and Family Therapy
Sociology

Degrees Offered

Bachelor of Arts
Bachelor of Science

MAJOR REQUIREMENT

A major is a sequence of courses in one area, usually in one department. A major should be selected by the end of the sophomore year. The choice must be approved by the department chair (or in the case of special academic programs, the program coordinator). Major requirements are specified in this catalog. The quality of work must be 2.00 or better. D grades may be counted toward graduation but not toward a major.

Recognized majors are:

Anthropology	Legal Studies
Art	Mathematics
Biology	Music
Chemistry	Norwegian
Classics	Philosophy
Communication Arts	Physical Education
Computer Engineering	Physics
Computer Science	Political Science
Earth Sciences	Psychology
Economics	Religion
Engineering	Scandinavian Area Studies
English	Social Work
French	Sociology
German	Spanish
History	

Not more than 40 semester hours earned in one department may be applied toward the bachelor's degree in the College.

FOREIGN LANGUAGE/ALTERNATIVE REQUIREMENTS

In addition to meeting general university requirements, candidates in the College must meet the requirements of Option I, II, or III:

- I. 16 semester hours in one foreign language*
- II. 8 semester hours in one foreign language*
4 semester hours in logic, math/computer science (except MATH 91 and 99), or statistics
4 semester hours in history, literature, or language
- III. 4 semester hours in history, literature, or language
4 semester hours in social science, which may include geography
4 semester hours in natural science, excluding math, computer science, and geography
4 semester hours in logic, math/computer science (except MATH 91 and 99), or statistics

*Option I may be satisfied by four years of high school study in one foreign language. If students have less than four years, placement and credit should be determined by examination. Freshmen planning to continue in a foreign language begun in high school should take the College Board Placement Test offered during orientation. (This test is required of those freshmen who plan to study German, French, or Spanish.) Continuation of a foreign language should not be deferred.

Students with 2-3 years of high school language who wish to continue should register for the second year course. Students may receive credit for any language course in which they are placed without regard to high school credit. Final decision of placement is made by the Department of Languages. Students may not receive credit if they voluntarily select a course level lower than that in which the department places them.

The foreign language requirement in Option II may be met by satisfactory scores on a proficiency examination or by more than two years of high school work in a single language. Two years are sufficient if the grade point average for the total units in that language is 3.00.

Candidates for the B.A. in English, or for the B.A. in Education with concentration in English, must meet Option I.

No course will be allowed to meet both general university requirements and College of Arts and Sciences requirements. Where possible, courses taken to fulfill such requirements shall be in different areas.

Communication Arts

C Communication Arts

In order to explore fully their potential as human beings, people must first expand their abilities to communicate. Communication is the process by which feelings and ideas are shared and is the foundation on which learning rests. Providing a field for both humanistic and scientific research, the communication arts focus on how and why people communicate through language (both spoken and written) and through nonverbal means. The effects of all forms of human communication are also studied.

Within the Department of Communication Arts, four distinct, yet interrelated areas of human communication may be explored: broadcasting, journalism, interpersonal communication, and theater. Students majoring in any of these areas articulate and test their ideas, develop their individual abilities, and gain competence in various strategies for improving effective communication. They acquire knowledge and skills that apply to nearly every aspect of their private and public lives.

Career prospects for students trained in communication are excellent. A person's career may ultimately turn out to be quite different from what was originally anticipated, of course, but in a rapidly changing world, certain fundamental skills and resources are necessary for adaptation and success. As the work environment in the coming decades becomes increasingly oriented toward communications, it will be critically important for students to have the ability to communicate clearly and effectively, both orally and in writing. Those who major or minor in one of the communication arts will be far ahead of their contemporaries who neglect to prepare for the world of tomorrow.

FACULTY

Spicer, *Chair*; Bartanen, Becvar, Doughty, Gilbert, Inch, Nordholm, O'Donnell, Parker, Rowe, Watson, Wilson.

CORE REQUIREMENT: Only the following courses from Communication Arts may be used to meet the core requirement in the arts: 151, 162, 241, 250, 359, 363, 364, 458.

BACHELOR OF ARTS MAJOR: 40 semester hours in any of the areas of concentration:

1. **Broadcasting-Required Courses:** 123, 171, 233, 283, 373, 374, 378, 381, plus 8 hours from communication arts courses selected in consultation with adviser. Required supporting areas: 4 hours each in economics, history, and political science plus 8 additional hours in one of those areas. Students must earn a grade of B in 283 or have the instructor's permission in order to advance in the sequence.

2. **Interpersonal Communication-Required Courses:** 123, 233, 283, 326, 328 (or 234 plus an additional 2 hours), 435, 436, plus 12 hours from communication arts courses selected in consultation with adviser. Students electing a *public relations* emphasis are required to take 123, 171, 233, 283, 285, 326, 328 (or 234 plus an additional 2 hours), 330, 435, and 436.
3. **Journalism-Required Courses:** 123, 171, 233, 283, 380, 381, 384, 480, plus 8 hours from communication arts courses selected in consultation with adviser. Required supporting areas: 4 hours each in economics, history, and political science plus 8 additional hours in one of those areas. Students must earn a grade of B in 283 or have the instructor's permission in order to advance in the sequence.
4. **Theater-Required Courses:** 151, 160, 225, 241, 250, 356, 357, 363, 364, 425, plus 6 hours from communication arts courses selected in consultation with adviser.

In addition to requirements listed above, candidates for the B.A. degree must meet the foreign language requirement in the College of Arts and Sciences.

BACHELOR OF FINE ARTS MAJOR: At least 52 semester hours plus 2 practicums in any of the two areas of concentration:

Broadcasting-Required Courses: 123, 171, 233, 283, 373, 374, 378, and 381, plus 20 hours selected in consultation with adviser.
Theater-Required Courses: 123, 151, 241, 250, 356, 357, 363, 364, and 454, plus 16 hours selected in consultation with adviser.

BACHELOR OF ARTS IN EDUCATION: See School of Education.

MINORS

Interpersonal Communication: 20 semester hours, including 123, 233, 326 or 328, 330, and 435 or 436.

Public Relations: 20 semester hours, including 123, 171, 283, 285, and 435 or 436.

Theater: 20 semester hours, including 151, 160, 241, 250, plus 4 hours from communication arts courses selected in consultation with adviser.

The Dance Minor is cross-referenced with the School of Physical Education. See the description of that minor under Physical Education.

The Publishing and Printing Arts Minor is cross-referenced with the Department of English. See the description of that minor under English.

COURSE OFFERINGS

123 FUNDAMENTALS OF HUMAN COMMUNICATION

Foundations course that introduces the student to a variety of communication contexts. Emphasizes three areas: communication concepts, interpersonal communication, and public speaking. III (4)

151 STAGE TECHNOLOGY

Basic theory and procedure of technical aspects in set building, costume construction, basic drafting, scenery, the assembling, handling, management of the stage, and extensive shop work. I (4)

160 INTRODUCTION TO THEATER

Study of both practical and theoretical aspects of theater. Exposure to theater and its numerous offshoots (e.g., film, television, rock concerts) through audience participation and personal contact. Development of heightened awareness and appreciation of what makes for good theater. (4)

162 HISTORY OF AMERICAN FILM

Concentrates on the development and growth of the motion picture in the United States from 1895 to the present. Emphasis on the film director, whose implementation of film technique and theory serves as the formative artistic force in the cinema. Societal influences such as economic factors, public attitudes and mores, and political positions reflected in the United States throughout the past 75 years, which provide the film media with shape and thematic focus, will provide parallel points of reference. (4)

171 MASS MEDIA

Survey of the mass media. History, organization, and mechanics of print and broadcast media. Role of mass communication in developing the political, social, and economic fabrics of a democratic society. Analysis of the journalist's audience, journalistic vocations, and social and legal responsibilities of the media. (4)

225, 425 COMMUNICATION ARTS PRACTICUM

One semester hour credit may be earned each semester, but only 4 semester hours may be used to meet university requirements. Majors are required to take at least two practicums in one or a combination of the three areas of interest. Students put classroom theory to practical application by individually completing a project relating to an aspect of communication. An instructor in the area of interest must approve the project and agree to provide guidance. I II

233 FOUNDATIONS OF COMMUNICATION THEORY

An introduction to the theoretical concepts and research tools of interpersonal and mass communication research. Prerequisite: 123 or consent of instructor. (4)

234 INTRODUCTION TO RESEARCH IN COMMUNICATION

The study of methods of gathering, interpreting, and evaluating data in the study of human communication. Both quantitative and qualitative research methods. (2)

236 INTERPERSONAL COMMUNICATION

The study of theories and variables relating to the nature of and problems involved in the communication of individuals on a one-to-one basis. (2)

241 ORAL INTERPRETATION OF LITERATURE

The art of communicating the essence of a piece of literature to an audience; interpreting it experientially, logically, and emotionally. Individual and group performance. III (4)

250 FUNDAMENTALS OF ACTING

An examination of the work of actors and actresses, their natural and learned skills; exercises in memory, imagination, and observation; improvisations and scenes from modern plays. (4)

283 NEWS WRITING

Basic news and feature writing for print and broadcast media with special attention to clarity, accuracy, and deadlines. Most writing done in class under deadline. Techniques of interviewing and fact-gathering. News staff organization and procedures. Prerequisite: 171 or concurrent enrollment. I (4)

285 INTRODUCTION TO PUBLIC RELATIONS

Introduction to the theory, research, and practical aspects of public relations. Problem-solving toward creating shared understandings between profit and non-profit organizations and their various constituencies. Strong emphasis on writing. (4)

322 MEN, WOMEN, AND COMMUNICATION

Introduction to the means by which appropriate gender roles are communicated by the mass media and the ways in which cultural gender role definitions influence how people communicate with each other. Prerequisite: 123 or consent of instructor. (2)

323 WORDS, PEOPLE, AND SOCIETY

Examination of how language affects one's interpretation of the world. Focus on the use of symbols, particularly in relation to the mass media. Prerequisite: 123 or consent of instructor. (2)

324 NONVERBAL COMMUNICATION

Focus on the nonverbal aspects of communication within the framework of interpersonal interaction. Prerequisite: 123 or consent of instructor. (2)

325 TOPICS IN COMMUNICATION

Various content, dependent on faculty assessment of student needs and interests. Topics announced during the fall semester preceding the course offering. Prerequisite: 123 or consent of instructor. (2)

326 GROUP COMMUNICATION

Survey and analysis of small group communication theory and research. II (4)

328 ARGUMENTATION

The study of reason-giving in social decision-making. Analysis of the genres, forms and techniques of arguers. Particular emphasis is given to studying academic, legal, and public policy debates. (4)

330 PUBLIC SPEAKING

Focus on a variety of speaking situations and presentational methods. Topics vary according to the skill level of course participants. Potential topics include audience analysis, technical reporting, using visual aids, and persuasion. Open to both majors and non-majors. (4)

356 STAGE LIGHTING

Stage lighting from the basic development of electricity and lighting instruments to the complete design of lighting a show. II (4)

357 INTERMEDIATE ACTING, THE ACTOR AT WORK

Study of the actor on today's stage. Work on the analysis and performance of the modern realistic play. Practical experience in the art of the actor through performance of scenes from plays of the modern theater, emphasis on the importance of play analysis by the actor, and examination of current acting theory. Prerequisite: 250. (4)

358 ADVANCED ACTING

Study of the work of an actor; character analysis and embodiment, using scenes from plays; includes styles of acting as defined by historical period. Prerequisite: 357. II (4)

359 ACTING FOR THE NON-ACTOR

Study of the actor's craft and the implementation of theory. Specifically designed for those who have nourished a curiosity to explore the art of acting but have been intimidated by a lack of knowledge or prior experience. Introduction of acting theory to those who have never participated in any theatrical endeavor. Emphasis on individual awareness and interest. Not open to theater majors or minors. (4)

363 HISTORY OF THE THEATER: AESCHYLUS THROUGH TURGENIEV

Theater as it evolved from its primitive origin through representative societies; Ancient Greece, Rome, Renaissance, modern European and American. Emphasis on religious, philosophical, and political thought as reflected in the drama of each period. I (4)

364 HISTORY OF THE THEATER: IBSEN THROUGH TO THE PRESENT

(See description for 363.) II (4)

373 AUDIO PRODUCTION

Elements of audio production; analysis of program design, scripting, and production tools and techniques. Lecture and laboratory. Prerequisite: 283 or consent of instructor. (4)

374 VIDEO PRODUCTION

Analysis and application of program design, writing and production tools and techniques. Lecture and laboratory. Prerequisite: 373. (4)

378 BROADCAST JOURNALISM

Techniques of broadcast journalism. Applications of news gathering, writing and reporting in a broadcast context. News and feature assignments using broadcast equipment in the field and studio. Prerequisite: 374. (4)

380 NEWSPAPER EDITING, LAYOUT, AND DESIGN

Selection and editing of news copy and headline writing. Selection, sizing, and cropping of photos. Functions of layout. Principles of newspaper design and their practical applications. Prerequisite: 283. (4)

381 MEDIA LAW AND PRINCIPLES

The theory and application of law in news gathering, publishing, and broadcasting. (4)

384 ADVANCED NEWS REPORTING

Reporting of politics and police, courts and other governmental functions. Investigative reporting and writing. Blend of field trips and writing exercises. Prerequisite: 283. (4)

388 EDITORIAL WRITING

Research and writing of editorials and commentaries for newspapers and broadcast. Function of the editorial and editorial pages in the news media. Prerequisite: 283. (2)

389 NEWS MEDIA ETHICS

Ethical practices at the corporate, staff, and individual levels within news organizations. (2)

435 ORGANIZATIONAL COMMUNICATION

Communication systems and studies within formal organizations. Focus on theory and research of informational and directive communication as related to channels, structures, status, involvements, morale, and leadership. Prerequisite: 233. (4)

436 PERSUASION

Analysis and evaluation of the dimensions of persuasion in communication emphasizing contemporary theoretical models and research. Investigation of how research and models may be applied in contemporary settings. Prerequisite: 233. (4)

446 WORKSHOP IN EFFECTIVE LISTENING

Examination of listening as a critical communication skill, which can be enhanced through training. Exploration of the art of listening through a week-long series of readings, lectures, discussions, exercises, and practical applications. (2)

450 WORKSHOP IN EFFECTIVE PUBLIC SPEAKING

Audience analysis, topic selection, organization of ideas for various audiences, types of speeches, use of visual aids, and delivery. Designed for both novices and those who have had some experience as speakers. A week-long series of lectures, discussions, readings, exercises, and practical applications to help participants become more comfortable and effective as speakers. (2)

452 SCENIC DESIGN

Artistic and technical development of abilities in designing scenery, costumes, and make-up for plays of all periods; various styles and periods as well as preparation of models, renderings, working drawings, and scenic painting. Prerequisite: 251. II (4)

454 PLAY DIRECTION

The role of the director, historically and critically; an intensive study that is both practical and theoretical in its approach to the art

of the play director. Study of many different directing philosophies. Each student is required to direct scenes from plays representative of all periods of theater history. A final project, consisting of a contemporary scene, will culminate the course. Prerequisites: 151, 250, and junior status. II (4)

458 CREATIVE DRAMATICS

Designed to acquaint the student with materials, techniques, and theories of creative dramatics. Students participate in creative dramatics. Intended for elementary and junior high school teachers or prospective teachers, theater majors, religious leaders, youth and camp counselors, day care workers, social and psychological workers, and community theater leaders interested in working with children. S (4)

475 ADVANCED MEDIA PRODUCTION

Producing, scripting, directing, performing and evaluating sophisticated audio and video programming. Prerequisite: 378. (4)

480 IN-DEPTH AND INVESTIGATIVE REPORTING

Group reporting in depth on a single issue. Students select the subject, organize the staff, research and interview, provide illustrations, edit copy, and lay out the completed work. Submission of students' work to the *Mooring Mast* for possible publication. Prerequisites: 380, 384. (4)

485 INTRADISCIPLINARY PERSPECTIVES IN COMMUNICATION

A seminar to acquaint senior level communication arts majors with the relationship of communication theory, mass communication, and theater as parts of the discipline of human communication. Limited to 16 students who have completed the bulk of their major requirements. Discussion of research and philosophical issues common to the three areas. Students complete a research paper covering some application of the intradisciplinary nature of communication. (4)

491, 492, 493 SPECIAL STUDIES IN COMMUNICATION ARTS

Investigations or research in area of special interest not covered by regular courses; open to qualified junior or senior students. A student should not begin registration for independent study until the specific area for investigation has been approved by a departmental sponsor. (1-4)

596-598 RESEARCH IN COMMUNICATION ARTS

For graduate students only. (1-4)

C

Computer Science

Computer Science

Computer science deals with manipulating stored information, both textual and numerical. By using the ideas of computer science along with a computer system people can actually amplify their thought processes. Already many new ideas in mathematics, physics, engineering, chemistry, economics, and other fields were either suggested, verified, or expanded by the use of computer science. The exploration of the solar system using space probes would have been impossible without computer science. The list of significant advances in knowledge aided by computer science seems endless.

Computer science students study the theory, design, and application of computing systems. The program covers various programming languages, the development and analysis of algorithms, hardware and software design and special topics in such areas as graphics, pattern recognition, data base management, and fault-tolerant computing.

FACULTY: Mathematics and Computer Science

Edison, Chair; Bandy, Batker, Beaulieu, Brink, Cook, Dollinger, B. Dorner, C. Dorner, Harter, J. Herzog, M. Herzog, Hoxit, N. C. Meyer, C. L. Nelson, G. Peterson, Rosenfeld, Ruble, Scott, Spillman, Yiu.

BEGINNING CLASSES

There are two beginning level classes in computer science: Computer Science 110 is programming in BASIC and Computer Science 144 is programming in Pascal. Students intending to major in computer science or mathematics or who intend to take more computer science classes are advised to take Computer Science 144 first. Computer Science 110 is for those who want only an introduction to programming. In place of Computer Science 110 a student may take Computer Science 220.

COMPUTER SCIENCE MAJOR

The program is designed to provide sufficient background for advanced study at the graduate level or for entering a professional career. All computer science majors take a core curriculum consisting of an introduction to programming in PASCAL, data structures, digital logic, and assembly language and computer organization (Computer Science 144, 270, 280, and 380).

The core courses form a foundation for upper division work, which may include the study of microprocessors, computer architecture, automata, modeling and simulation, and compilers as well as other topics.

The program is supported by PLU's VAX 11/780 and 11/750 computing systems, along with approximately 40 IBM-PC microcomputers, which are available for general student use. In addition, the department operates an artificial intelligence lab which contains three SUN microcomputer workstations. The department also has available several different microprocessor systems for student study as well as a Tektronix 4054 graphics system.

A typical computer science major program is as follows:

Freshman year:	Computer Science 144, 270 Math 151, 152
Sophomore year:	Computer Science 280, 380 8 hours laboratory science Second computer language Math 230 or 331
Junior & Senior years:	Computer science electives (Computer Science 490 may be taken several times with different topics) Math 335, 345

Careers in computer science include designing computers and computer systems and applying computers to areas such as business administration, economics, and the sciences, as well as teaching and research. Students interested in business administration should take courses in the School of Business Administration (including 281, 282, and 387) as well as COBOL. Students interested in the design of computers should take Engineering 271, 272, and 352 (along with Physics 153 and 154). For students interested in the more theoretical aspects of computer science, courses in logic are recommended (Philosophy 233, 341, 342, and 343).

BACHELOR OF ARTS MAJOR: 24 semester hours including Computer Science 144, 270, 280, 380, 2 hours of a second computer language (240 or 242 are suggested) and 6 hours of computer science numbered above 320. Required supporting: Math 151, 152, 230 or 331, 335.

BACHELOR OF SCIENCE MAJOR: 36 semester hours including the computer science core and one of three paths. The computer science core (18 hours) consists of Computer Science 144, 270, 280, 380, and 2 hours of a second programming language (240 or 242 are suggested). The paths are as follows:

Artificial Intelligence Path requirements	General Path requirements	Software Path requirements
CSCI 430 (4 hrs.) CSCI 436 (4 hrs.) CSCI 438 (4 hrs.)	Any three of: CSCI 344 (4 hrs.) CSCI 355 (2 hrs.) CSCI 375 (4 hrs.) CSCI 430 (4 hrs.) CSCI 480 (4 hrs.)	CSCI 344 (2 hrs.) CSCI 355 (2 hrs.) CSCI 375 (4 hrs.)
Electives (6 hrs.)	Electives (6-8 hrs.) (Total = 18 hrs.)	Electives (10 hrs.)

The elective includes any upper division computer science class (numbered above 320), Math 341 or Math 346. Required supporting: Math 151, 152, 230 or 331, 335, 345, plus a one-year sequence of a laboratory science (Physics 153-154, Chemistry 115-116, Biology 155-156, or 8 hours of earth sciences).

Students are urged to complete a minor in an area where computers have wide applicability such as the natural sciences, social sciences, or business.

MINOR IN COMPUTER SCIENCE: Computer Science 144, 270, 280, and 380 plus 2 hours of a second computer language. Required supporting: Math 151 or 128.

MINOR IN INFORMATION SCIENCE: Computer Science 144, 270, 467, Business Administration 281, 325, plus 4 hours from Business Administration 282, 364, 387, 421. Strongly recommended: Computer Science 242.

MASTER OF ARTS IN COMPUTER APPLICATIONS: See Graduate Catalog.

MASTER OF SCIENCE IN COMPUTER SCIENCE: See Graduate Catalog.

COURSE OFFERINGS

A grade of C or higher is strongly recommended in all prerequisite courses.

110 BASIC

Introduction to interactive computing, branching, looping, subscripts, functions, input/output, subroutines and simple file techniques in the context of the BASIC language. 110 and 220 may not both be taken for credit. Not normally taken by computer science majors. Prerequisites: high school algebra. I II (2)

115 INTRODUCTION TO THE WORLD OF MATHEMATICS AND COMPUTERS (MATH 115)

A study of mathematics and computers in the modern world with a wide variety of applications and a historical perspective. This class is designed for students without extensive knowledge of mathematics, but who want to acquire a basic understanding of the nature of mathematics and computers. Not intended for majors in science or mathematics or computer science. Some BASIC programming is included. Prerequisite: one year of high school algebra. I II (4)

144 INTRODUCTION TO COMPUTER SCIENCE

An introduction to computer science including algorithm design, structured programming, numerical non-numerical applications and use of data files. The PASCAL programming language will be used. Prerequisites: MATH 133 or MATH 128 or equivalent. I II (4)

199 DIRECTED READING

Supervised study of topics selected to meet the individual's needs or interests; primarily for students awarded advanced placement in computer science. Admission only by departmental invitation. (1-2)

210 COMPUTERIZED INFORMATION SYSTEMS

Computer systems and their uses in education, commerce, industry and government. File manipulations, data storage and retrieval. Computerized word processing, business problems in statistics, linear programming, regression and other fields using existing software packages. 210 and 220 cannot both be taken for credit. Prerequisite 110. Prerequisite or corequisite: 110, MATH 128 and STAT 231 or equivalent. I II (2)

220 COMPUTERIZED INFORMATION SYSTEMS WITH BASIC

Introduction to computers and interactive computing. Computer systems and their uses in education, commerce, industry, and government. Programming in the BASIC language using branching, looping, subscripts, input/output, character manipulation, subroutines, file manipulations, data storage and retrieval. Computerized word processing, business problems in statistics, linear programming, regression and other fields using existing software packages. Covers the same material as 110 and 210 together. Students cannot take both 220 and either 110 or 210 for credit. Prerequisite or corequisite: MATH 128 and STAT 231 or equivalent. I II (4)

**240 FORTRAN**

An accelerated introduction to the FORTRAN programming language. Study of the rules of statement formation. Topics include input/output, computation, branching, looping, data types, and subprograms. Numeric and non-numeric problems will be solved. Some previous experience with programming is recommended. I II (2)

242 COBOL

Presentation and application of the COBOL programming language to business problems. Prerequisite: 144 or 110-210 or consent of instructor. II (2)

243 ADVANCED PROGRAMMING LANGUAGES

A study of advanced programming languages such as ADA, C, etc., and the operating system UNIX. Prerequisite: 270. I (2)

270 DATA STRUCTURES

Continuation of Pascal programming techniques and a study of basic data structures including linked lists, trees, queues, stacks and graphs. Applications of these forms to sorting, searching, and data storage will be made. Prerequisite: a grade of C- or higher in 144. III (4)

280 DIGITAL LOGIC

Boolean algebra and combinatorial logic applied to basic logic circuits, digital arithmetic, data conversion, and other components of a computer. Prerequisite: 144. III (4)

344 OPERATING SYSTEMS

An introduction to computer operation including batch processing systems, interacting systems, multi-programming systems, storage management techniques and resource control. In addition, the course includes an analysis of the deadlock problem and basic file systems. Prerequisite: 270. I (4)

348 MODELING AND SIMULATION

An applications structured programming course solving various problems. Statistics, data structures, mathematical modeling, simulation, documentation, and team programming techniques will be applied. Prerequisites: MATH 151, CSC1 270 and either MATH 230 or MATH 331. a/y 1987-88 II (4)

355 COMPILERS

An introduction to the organization, specification, and analysis of programming languages. Topics include parsing, data representation, object code, run-time machine structures and optimization. Prerequisite: 270. II (2)

375 DESIGN AND ANALYSIS OF ALGORITHMS

Basic data structures reviewed and applied to the analysis of problems associated with searching, sorting, strings, and minimal paths. Study of the complexity and storage requirements of the algorithms. Use of top-down and structured programming. Prerequisite: 270, MATH 151. II (4)

380 ASSEMBLY LANGUAGE AND COMPUTER ORGANIZATION

Computer assembly language applied to various problems. Topics include data forms, instruction formats, addressing, linking, macro definition, and computer architecture. Prerequisite: 270. I II (4)

385 COMPUTER ARCHITECTURE

An introduction to the structure and operating of large computer systems. Topics include data representation, memory structure, I/O processing, multi-processing systems such as parallel, pipeline, and stack machines. Examples of the architecture of several large systems are analyzed including IBM 320, TI ASC, and CDC STAR. Prerequisite: 380. a/y 1986-87 (2)

386 DISTRIBUTED SYSTEMS

An introduction to computer networks and computer communication. Topics include system topology, message and packet switching, bus structures and data-link transmission. Prerequisite: 280. a/y 1986-87 (2)

430 INTRODUCTION TO ARTIFICIAL INTELLIGENCE

An introduction to concepts of artificial intelligence, including expert systems, natural language processing, image understanding, and problem solving techniques. The AI programming language LISP will be taught and used in several projects. Prerequisite: 270. I (4)

436 PATTERN RECOGNITION

The use of the computer to recognize patterns in data. Topics include artificial intelligence, cluster analysis algorithms, learning algorithms, and pattern processing. Prerequisites: 270, MATH 152. a/y 1987-88 (4)

438 EXPERT SYSTEMS

The development of AI systems which operate at the level of a human expert. Students will explore the structure of expert systems and use an expert system development tool such as OPS 5. Prerequisite: 430. a/y II 1986-87 (4)

449 COMPUTER SCIENCE IN THE SECONDARY SCHOOL

Methods and materials in secondary school computer science teaching. LOGO, PILOT, etc., may be considered. Does not count toward a major in computer science. Prerequisite: 144. II (2)

467 DATA BASE MANAGEMENT

Data structures and storage methods are reviewed. The hierarchical, network, and relational modes are studied. Prerequisite: 270. I (4)

470 COMPUTER-AIDED DESIGN OF DIGITAL SYSTEMS

An introduction to the use of CAD systems for digital design. Basic principles of combinational and sequential logic design are reviewed. Simulators, computer hardware description languages, and other computer-aided design tools are developed. Prerequisite: 280. II (2)

480 MICROPROCESSORS

Study of microprocessors and their use in microcomputer systems. Data representation, instruction formats, programming, interrupts, I/O interfacing, data communications, available software, and program development studied in lecture and laboratory sessions. Prerequisites: 280, 380. II (4)

488 VLSI DESIGN

An introduction to the design of very large scale integrated systems using computer-aided design methods. Topics include MOS devices, fabrication procedures, chip architecture, chip topology, and system timing. Prerequisites: 270, 280. I II (2)

490 SEMINAR IN COMPUTER SCIENCE

Selected topics from the list below. I II (2-4)

- a. AUTOMATA

Study of the theory of computation. Turing machines, formal languages, recursive theory, complexity, NP-completeness, and the halting problem may be considered. Prerequisites: 375, MATH 335.
- b. FAULT TOLERANT COMPUTING

An introduction to the methods of fault detection and location in digital systems and to techniques for the reliable design of computing systems. Topics include: The D-Algorithm, Boolean Differences, Path Testing, Triple Modular Redundancy Design and the design of self-checking checkers. Prerequisite: 280. (4)
- c. SOFTWARE ENGINEERING

An engineering approach to the development of large software packages. Topics include software requirements definition, structured programming, software design, specifications, and software testing. Prerequisite: 270.
- d. SWITCHING THEORY

Advanced applications of Boolean algebra to digital system design. Topics include decoding networks, harmonic analysis, LLM's, and cellular logic circuits. Prerequisite: 280.
- e. COMPARATIVE PROGRAMMING LANGUAGES

The study of different modern high level languages from a theoretical and practical viewpoint, their features and implementation techniques. Prerequisite: 270.
- f. INFORMATION THEORY AND CODING

The study of information storage and representation. Topics include basic coding techniques, measurement of information content, and information transmission. Prerequisites: 270, MATH 152.
- g. MICROPROCESSOR INTERFACE

Techniques for connecting computers to peripherals and communications devices are covered. Topics include: bus structures, real time control, software structures and parallel interfacing. Prerequisite: 480.
- h. COMPUTER SECURITY

The study of the protection of data and program access to computer systems. Topics include data encryption, code breaking techniques, access controls and inference controls. Prerequisite: 270.

i. COMPUTER GRAPHICS

Exploration of techniques used to generate and interpret computer graphics. Transformations, restoration, enhancement software, and other topics, depending upon available equipment and instructor. Prerequisite: 270, MATH 151 and 230 or 331.

491, 492 INDEPENDENT STUDY

Prerequisite: consent of department chair. (1-4)

495 COMPUTER SCIENCE RESEARCH

The student becomes involved in an ongoing research project in computer science under the supervision of a faculty member. Prerequisite: consent of instructor. (1-4)

520 ADVANCED DIGITAL DESIGN

Continuation of topics in 280. The design of digital control systems; asynchronous circuits; digital signal processors; digital filters; timing considerations; use of computer-aided design tools. (4)

538 EXPERT SYSTEMS

Same as 438. Requires students to generate an expert system. Prerequisite: 430. a/y II 1986-87 (4)

544 ADVANCED OPERATING SYSTEMS

Continuation of topics in 344 and 385 leading to the development of an operating system. Emphasis on the interaction between the hardware structure and the operating system; operating system data structures; and operating system security. a/y II 1987-88 (2)

555 COMPILER IMPLEMENTATION

Continuation of 355; the structure of programming languages;

data and control abstractions; compiler implementation; run time management; an introduction to code optimization. Prerequisites: 355, 380. a/y II 1986-87 (4)

570 MATHEMATICS OF COMPUTER SCIENCE

Survey of the basic mathematical tools required in computer science, including graph theory, network flow analysis, queueing theory and its applications, stochastic models, and transform theory. Prerequisite: MATH 335. (4)

580 MICROPROCESSOR DEVELOPMENT SYSTEMS

Development of software on 8 and 16 bit microprocessors; microprocessor applications; interfacing; microprocessor organization; interrupt structures. (2)

588 PERFORMANCE EVALUATION

A survey of techniques of modeling concurrent processes and the resources they share. Includes levels and types of system simulation, performance prediction, benchmarking and synthetic loading, hardware and software monitors. (2)

590 GRADUATE SEMINAR

Topics vary by semester, including: a) Automata; b) Fault-Tolerant Computing; c) Software Engineering; d) Switching Theory; e) Comparative Programming Languages; f) Information Theory and Coding; g) Microprocessor Interface; and h) Computer Security (4)

593 THESIS

Research study to meet thesis option requirement for M.A. or M.S. degree. (1-6)

Cooperative Education

Cooperative education assumes that experiential learning can be an appropriate component of any quality educational program. Though it shares this assumption with other experiential learning strategies such as internships, fieldwork placements, and practica, it differs in several respects. Cooperative education introduces students to an educational work experience early in their academic careers and weaves opportunities for work and learning throughout their undergraduate programs, rather than concentrating on practical course work at the end. As the name suggests, cooperative education represents a systematic cooperation between the university and a variety of employers in the community.

Although the program's career-related advantages are obvious, its main benefits are educational. Students gain an appreciation of the relationship between theory and application, and may learn—both early and first-hand about new developments in a particular field. Cooperative education provides timely and extended opportunities for developing communication skills orally and in writing.

A cooperative education program can enable students to become aware of opportunities to contribute creatively to the changing dimensions of work in present-day society.

The university and employers benefit as well. The university develops stronger and more creative connections with its community. Employers derive a more efficient device for training and recruiting. More importantly, the partnership provides a unique opportunity for employers to participate in an important educational service to the community.

TWO MODELS

The Cooperative Education Program accommodates both part-time and full-time work modes. Part-time work, which allows students the opportunity to take on-campus courses concurrently, is labeled the "Parallel Model." A full-time work experience fits under the "Alternating Model." In most cases students will follow one or the other, but some departments or schools may develop sequences that combine both parallel and alternating work modes.

Full-time summer work, for example, would be classified as an alternating cooperative education experience, and many summer jobs provide for learning that relates to students' academic objectives.

THE PROCESS FOR STUDENTS

In order to be eligible for admission into the Cooperative Education Program a student must have completed 30 semester hours and be in good standing.

Students who wish to participate apply to either the Co-op Office in Ramstad Hall or to a Co-op faculty coordinator or sponsor serving this function in specific departments, divisions, or schools. Both written application and personal interview are required in order to determine eligibility, terms for placement, areas of interest, academic requirements, and kinds of positions available.

Students are responsible for their learning activities during their cooperative education position. Each student must seek out and arrange for academic supervision from a faculty coordinator or sponsor. Faculty are responsible for insuring that the work experience provides appropriate learning opportunities, for helping to establish the learning agreement, and for determining a grade.

Learning is facilitated through: (1) use of a "Learning Agreement"; (2) completing an academic project; (3) periodic contact with the faculty sponsor; (4) attendance at one workshop during the work experience; and (5) an on-site supervisor who accepts the responsibility to function in a resource role.

The learning agreement, developed by each student with the assistance of a faculty sponsor, lists learning objectives with measurable indicators of learning, and also incorporates supplementary resources such as reading materials and participation in work-related training sessions. The learning agreement is signed by the student, the faculty sponsor, the program director, and the work supervisor, each of whom receives a copy.

Contact between the faculty sponsor and the student must be sufficient to allow the sponsor to serve as a resource and to provide academic supervision. Typically this can be accomplished

during one or two site visits. Students in a "parallel" cooperative education program may arrange to meet with the sponsor on campus. Those involved in "alternating" programs some distance from campus may maintain contact through periodic phone conferences, when site visits are impractical.

Employers are responsible to: (1) provide opportunities for students to achieve their learning objectives within the limits of their work settings; (2) help students develop skills related to the contextual aspects of the work world (such as relationships with co-workers); and (3) facilitate students' integration into their work setting so that their employment proves valuable and productive.

Students are required to register for at least one credit hour after accepting a Co-op position. Throughout an undergraduate academic career a student may receive a maximum of 16 semester hours of credit in cooperative education.

Martinson, Director.

COURSE OFFERINGS**376 WORK EXPERIENCE I**

A supervised educational experience in a work setting. Requires the completion of a Cooperative Education Learning Agreement in consultation with a faculty sponsor. (1-8)

476 WORK EXPERIENCE II

A supervised educational experience in a work setting providing for an advanced level of responsibility. Requires the completion of a Cooperative Education Learning Agreement in consultation with a faculty sponsor. (1-8)

Earth Sciences

Earth Sciences explore the components of the physical universe from humanity's existing habitat to the foundations of the earth, and beyond to the planets and the stars. A program of studies in these fields acquaints students with their physical world and provides perspective on human development in time and space. Environmental problems also are approached through the earth sciences, which impart a realistic appreciation of society's dependence on earth's physical resources.

In providing such a perspective, the department fulfills the needs of a variety of students seeking to broaden their liberal arts education, and also provides more specialized knowledge in support of several fields, particularly for minor or major studies leading to careers in resources and environmental management or scientific research.

Situated between the Olympic Mountains and the Cascade Range, the department is ideally located to examine geologic and marine environments, which are unsurpassed for teaching and learning purposes.

Graduates in earth sciences hold positions in the National Park Service, the U.S. Geological Survey, oil and mining groups, and geotechnical engineering, as well as education. The demand for qualified graduates in energy and mineral development has been moderate.

Most fields require post-graduate degrees, and to this end, a number of PLU graduates are pursuing master's and doctoral programs at major universities.

FACULTY

Lowes, Chair; Benham, Foley; assisted by Huestis.

The department's programs remain flexible, allowing fairly easy scheduling of courses. However, students should notice that upper division courses are offered on a two-year cycle. Early declaration of majors or minors in earth sciences will facilitate development of individual programs and avoid scheduling conflicts.

BACHELOR OF SCIENCE (GEOLOGY) MAJOR: Required courses include: 131, 132, 323, 324, 325, 326, 327, 328, and 425, plus one from 330, 341, or 360; also required is attendance at departmental seminars during junior and senior years. Necessary supporting courses include: Chemistry 115, 116; Physics 125, 126, 147, and 148 (or Physics 153, 154 and labs); Mathematics 151, 152. Recommended are: Chemistry 341, 342; Engineering 351; Mathematics 253; Physics 223; Biology 155 and additional courses, where paleontology is a major interest.

BACHELOR OF ARTS MAJOR: 32 semester hours in earth sciences, including 131, plus at least three lower division and four upper division courses. Attendance at departmental seminars is compulsory during junior or senior year. A field course such as 330, 351, 360, or 425 is recommended. Required supporting courses include: Chemistry 104, 105, or 115, 116; Physics 125, 126, 147, 148; Mathematics 151. Recommended are: Biology 155; Mathematics 152; Computer Science 144. Options reflect a student's earth science interests and are discussed with an adviser.

BACHELOR OF ARTS IN EDUCATION: See School of Education.

MINOR: 20 semester hours of earth science courses, excluding interim courses, completed with grade of C or higher.

COURSE OFFERINGS

101 WORLD GEOGRAPHY

Patterns of physical, climatic, and ecological features and their relationship to the development of human cultures. 101 does not meet the natural sciences core requirement. 1987 (4)

131 PHYSICAL GEOLOGY

An introductory course dealing with the human geologic habitat, both at present and as it has developed through time; materials of earth (and lunar) crusts, their derivation through major earth processes and formation of surface features—with emphasis on their significance to cultural development and civilization; laboratory study of rocks, minerals, and geologic mapping; field trips are arranged. III (4)

132 HISTORICAL GEOLOGY

A sequel to 131 which concentrates on earth history, particularly the formation of the North American continent: sedimentary rocks, fossils, and stratigraphic record are related to tectonic upheaval and growth; field trips are arranged. II (4)

202 GENERAL OCEANOGRAPHY

Oceanography and its relationship to other fields; physical, chemical, biological, climatic, and geological aspects of the sea; field trips. II (4)

222 CONSERVATION OF NATURAL RESOURCES

Principles and problems of public and private stewardship of our resources with special reference to the Pacific Northwest. III (4)

323 MINERALOGY

Crystallography and mineralogy, both ore- and rock-forming minerals. Prerequisites: 131 and high school chemistry or consent of instructor. Interim 1987 (4)

324 PETROLOGY

The occurrence and classification of common rock types; processes by which they were formed with reference to theoretical principles. Prerequisites: 131 or consent of instructor. II a/y 1985-86 (4)

325 STRUCTURAL GEOLOGY

The form and spatial relationships of various rock masses and an introduction to rock deformation; consideration of basic processes to understand mountain building and continental formation; laboratory emphasizes practical techniques which enable students to analyze regional structural patterns. Prerequisite: 131 or consent of instructor. II a/y 1986-87 (4)

326 OPTICAL MINERALOGY

Theory and practice of mineral studies using the petrographic microscope, including immersion oil techniques, production of thin sections, and determination of minerals by means of their optical properties. This provides an introduction to the broader subject of petrography. I a/y 1985-86 (4)

327 STRATIGRAPHY AND SEDIMENTATION

Formational principles of surface-accumulated rocks, and their incorporation in the stratigraphic record. This subject is basic to field mapping and structural interpretation. I a/y 1985-86 (4)

328 PALEONTOLOGY

A systematic study of the fossil record, combining principles of evolutionary development, paleohabitats and preservation, with practical experience of specimen identification. These studies are fundamental to the understanding of stratigraphy and the geologic time scale. I a/y 1986-87 (4)

330 SURVEY AND MAPPING PRINCIPLES

Introduction to techniques and instrumentation of basic surveying and cartography. Includes leveling and transit traverses, baseline measurements, and triangulation; also, applications of aerial photos and their interpretation for geologic mapping. Techniques for compiling geologic data and construction of geologic maps are among the essential skills covered. II (4)

341 ENERGY AND MINERAL RESOURCES FOR THE FUTURE

A survey of the world's energy and mineral resources comprising the raw materials of industrialized societies. Studies include geological occurrence, global distribution, and quantities of such reserves; also, their fundamental technologies and economics, as well as the political framework in which they are developed. I (4)

351 NATURAL HISTORY OF THE PACIFIC NORTHWEST

A field and laboratory course examining regional natural history; an outdoor workshop designed for science teachers at elementary and junior high levels. Not to be counted toward a major or graduate credit in biology. Prerequisite: consent of instructor. S (6)

360 GEOLOGY OF WESTERN WASHINGTON

The minerals, rocks, and geological history of the region extending from the Columbia Plateau to the Pacific Ocean. Includes field trips. Prerequisite: previous earth science or consent of instructor. S (4)

425 GEOLOGIC FIELD MAPPING

Combining a survey of regional field geology with a series of local mapping projects, this course introduces field techniques of geologic map-making. Included are traversing and data assembly, map construction, section measurements, structural analysis, and chronological synthesis. Graphics techniques are also covered. Prerequisites: previous geology courses and consent of instructor. S (5)

490 SEMINAR (1-2)

491, 492 INDEPENDENT STUDY (1-4)

597 GRADUATE RESEARCH (1-8)

E

Earth Sciences

Economics

E

Economics

Want is a growing giant whom the coat of Have was never large enough to cover. —Ralph Waldo Emerson

Economics is the study of how people establish social arrangements for producing and distributing goods and services to sustain and enhance human life. Its main objective is to determine a wise use of limited economic resources so that people receive the maximum possible benefit at the lowest cost.

The economics discipline embraces a body of techniques and conceptual tools that are useful for understanding and analyzing our complex economic system. Career avenues for graduates are numerous, since their understanding of the economy and their problem-solving and thinking abilities are applicable to a wide range of activities in business and/or government.

FACULTY

Ankrim, Chair; Brue, A. Grochulski, R. Jensen, Miller, N. Peterson, Vinje, Wentworth.

BACHELOR OF ARTS MAJOR: (A) Minimum of 36 semester hours, including 150, 351, 352, 486, 12 hours of electives in economics, and 8 hours selected from the following: Economics 343, 344 (if not used as economics electives), Statistics 231, Math 334, 341, Business Administration 281, or up to 4 hours in computer science. (B) A grade point average of 2.5 in all classes included in the 36 semester hours toward the major.

For students planning graduate work in economics or business, additional math preparation will be necessary. For specific courses, consult your major adviser.

MINOR: 20 semester hours, including 150, 351 or 352, and 12 additional hours of electives, 4 of which may be in statistics.

BACHELOR OF ARTS IN EDUCATION: See School of Education.

150 PRINCIPLES OF ECONOMICS

Introduction to the scope of economics, including Macro and Micro Economics; analysis of U.S. economic system; emphasis on current economic policy. (4)

290 CONTEMPORARY ECONOMIC PROBLEMS

Current economic issues; unemployment, inflation, poverty, and pollution; interests of the class determine specific topics. Prerequisite: 150 or consent of instructor. (4)

321 LABOR ECONOMICS, LABOR RELATIONS, AND HUMAN RESOURCES

The nature and treatment of human resource problems in the United States; wage determination, unionism, collective bargaining, unemployment, poverty and discrimination, and investment in human capital. Prerequisite: 150 or consent of instructor. (4)

331 INTERNATIONAL ECONOMICS

Regional and international specialization, comparative costs, international payments and exchange rates; national policies which promote or restrict trade. Prerequisite: 150. (4)

341 ECONOMIC DEVELOPMENT: COMPARATIVE THIRD WORLD STRATEGIES

Analysis of the theoretical framework for development with applications to alternative economic development strategies used in the newly emerging developing countries. Emphasis on comparisons between countries in East and Southeast Asia and countries in Latin America and Africa. Assessments of the relative importance of cultural values, historical experience, and governmental policies in the development process. Prerequisite: 150 or consent of instructor. (4)

343 OPERATIONS RESEARCH

Quantitative methods for decision problems. Emphasis on linear programming and other deterministic models. Prerequisite: STAT 231 or equivalent. (2)

344 APPLIED REGRESSION ANALYSIS

Simple and multiple regression analysis as investigative tools. Course stresses construction of elementary linear models and interpretation of regression results. Prerequisite: STAT 231 or equivalent. (2)

345 MATHEMATICAL TOPICS IN ECONOMICS

An introduction to basic applications of mathematical tools used in economic analysis. Topics include simple linear models of supply and demand, single and multivariable maximization models, and linear difference and differential equation models of economic growth. Prerequisites: 150 and MATH 128 or 151 or equivalent. (4)

351 INTERMEDIATE MACRO ECONOMIC ANALYSIS

National income determination including policy implications within the institutional framework of the U.S. economy. Prerequisite: 150. (4)

352 INTERMEDIATE MICRO ECONOMIC ANALYSIS

Theory of consumer behavior; product and factor prices under conditions of monopoly, competition, and intermediate markets; welfare economics. Prerequisite: 150. (4)

361 MONEY AND BANKING

The nature and role of money; the commercial banking system; the Federal Reserve System; theory of credit and money supply control; Keynesian and Monetarist theories of monetary impacts on inflation, interest rates, and national income. Prerequisite: 150. (4)

362 PUBLIC FINANCE

Public taxation and expenditure at all governmental levels; the incidence of taxes, the public debt and the provision of public goods such as national defense, education, pure air, and water. Prerequisite: 150. (4)

371 INDUSTRIAL ORGANIZATION AND PUBLIC POLICY

An analysis of the structure, conduct, and performance of American industry and the public policies that foster and alter industrial structure and behavior. Topics include the economics of firm size, motivations of the firm, concentration, mergers, patents, antitrust, public utility regulation, public enterprise, and subsidization. Prerequisite: 150 or consent of instructor. (4)

381 COMPARATIVE ECONOMIC SYSTEMS

An analysis and comparison of major contemporary economic systems. Includes an examination of capitalism, market socialism, centrally planned economies, and systems used in selected countries. Prerequisite: 150 or consent of instructor. (4)

E

School of Education

399 INTERNSHIP

A research and writing project in connection with a student's approved off-campus activity. The primary goal is to gain insight into applications of the ideas and methodologies of economics. Prerequisite: sophomore standing plus one course in economics, and consent of the department. (1-4)

432 URBAN AND REGIONAL ECONOMICS

Economic growth process in developing regions of the U.S.; the interrelationship of political, economic, cultural, and institutional factors in the growth process. Prerequisite: 150. (4)

486 EVOLUTION OF ECONOMIC THOUGHT

Economic thought from ancient to modern times; emphasis on the period from Adam Smith to J.M. Keynes, the classical economists, the socialists, the marginalists, the neoclassical economists, and the Keynesians. (4)

490 SEMINAR

Seminar in economic problems and policies with emphasis on encouraging the student to integrate problem-solving methodology with tools of economic analysis. Topic(s) selected by class participants and instructor. Prerequisite: consent of instructor. (1-4)

491, 492, 493 INDEPENDENT STUDY

Prerequisite: consent of the department and completion of two courses in economics. (1-4)

500 APPLIED STATISTICAL ANALYSIS

An intensive introduction to statistical methods for graduate students who have not previously taken introductory statistics.

Emphasis on the application of inferential statistics to concrete situations. Topics include: measures of location and variation, probability, estimation, hypothesis tests, and regression. (4)

501 GRADUATE WORKSHOPS

Graduate workshops in special fields or areas for varying periods of time. (1-4)

504 ECONOMIC ANALYSIS AND POLICY DECISIONS

Basic economic concepts applied to policy formation and operating decisions. (4)

543 QUANTITATIVE METHODS

The concepts of probability, sampling, statistical decision theory, linear programming, and other deterministic models applied to managerial problems. Prerequisite: STAT 231 or 341. (4)

590 GRADUATE SEMINAR

Selected topics as announced. Prerequisite: consent of the instructor. (1-4)

591 DIRECTED STUDY (1-4)**595 GRADUATE READINGS**

Independent study card required. (4)

598 RESEARCH PROJECT (4)**599 THESIS (4)**

School of Education

The School of Education offers programs of study leading to certification for elementary and secondary teachers, counselors, nurses, administrators, and personnel in special education. The curriculum is designed to provide graduates with a blending of the liberal arts and a variety of practical exposures to guided field experiences beginning early in the educational sequence. The faculty is committed to the development of educational personnel sensitive to the varied individual needs of learners.

FACULTY

Johnston, Dean; Baughman, Brochtrup, Churney, DeBower, Fletcher, Gerlach, M. Hanson, Lawrence, Mathers, Minetti, Moe, Nokleberg, F. Olson, Pederson, Reisberg, Rickabaugh, Sydnor, Wentworth, Williams, Williamson.

The School of Education is accredited by the National Council for Accreditation of Teacher Education (NCATE), the Northwest Association of Schools and Colleges, and the Washington State Board of Education for the preparation of elementary and secondary teachers, principals, program administrators, special education teachers, and guidance counselors, with the Master of Arts the highest degree approved. The accreditation gives PLU graduates reciprocity with many other states.

Programs for the preparation of school librarians, school nurses, school counselors, administrators, and supervisory personnel are available. The School offers course work toward the conversion, renewal, or reinstatement of teaching certificates.

The School of Education offers graduate degrees in Classroom Teaching, Reading, Educational Administration, Counseling and Guidance, Educational Psychology, and Special Education.

Information regarding these programs is available from the director of graduate programs in the School of Education (535-7112).

ADMISSION REQUIREMENTS

To register for Education 251 or 253 in the School of Education, the following requirements must be met:

1. The student must present evidence of verbal and quantitative ability as illustrated by the following test scores:
900—Scholastic Aptitude Test (SAT) (Verbal above 425)
100—Washington Pre-College Test (WPCT) (Verbal above 48)
21—American College Test Assessment (ACT) (Verbal above 20)
2. The student must have sophomore standing.
3. The student must have a cumulative grade point average (G.P.A.) of 2.50 (2.33 for Educ 251).
4. The student must have completed Psychology 101 with a grade of C- or better.
5. The student must have completed English 101 with a grade of C- or better.

Students who do not meet the above requirements or whose scores fall below 900 SAT, 100 WPCT, or 21 ACT, but above the 700 SAT, 80 WPCT, or 16 ACT required by the State of Washington, may exercise the appeal process for admission to Education 251 or 253.

Students will make formal application to the School of Education during the semester in which they are enrolled in Education 251 or 253. Education 253 may not be taken concurrently with General Elementary Methods. Special Education 190-191 may be taken before Education 251 or 253. Special Education 290 may be taken concurrently. No course numbered above Education 321 may be taken without admission to the School of Education.

Transfer students who may have had education courses in other institutions should meet with an education adviser for evaluation of work completed and must arrange for application to the School of Education, supply necessary SAT, ACT or WPCT test scores, and schedule a screening conference into the School of Education. These test scores may be available from the student's high school.

Students who have earned a bachelor's degree at PLU or elsewhere, and who contemplate meeting certification requirements, are expected to meet the same requirements for admission and certification that apply to degree students. The certification sequence will normally require three semesters.

BAE and/or CERTIFICATION REQUIREMENTS

Students become candidates for certification when they have completed the following:

1. All course work with a cumulative grade point average of 2.50 or above.
2. Professional Education Sequence for elementary or secondary teaching.
3. An approved teaching major(s) or concentration(s) (see requirements as listed under Academic Preparation).
4. Minimum Generic Standards (Chapter 180-89-130 and 135 WAC).
5. All courses in education and in major and minor fields with grades of C- or higher.
6. Achievement of proficiency in writing and math skills.
7. Anthropology 210/History 210 for secondary teaching and Anthropology 102 for elementary teaching.

TEACHER CERTIFICATION

Initial Teaching Certificate. The School of Education in the fall of 1982 entered into a new program of certification mandated by the State Board of Education under the 1978 Standards for Certification. The four-year curriculum usually leads to a Bachelor of Arts in Education and the initial level teaching certificate (see previous catalogs for information concerning the provisional teaching certificate granted under 1962 Standards). The initial teaching certificate is valid for four years and may be renewed once for three years. PLU endorses the certificate on the basis of preparation. Secondary Teachers holding initial level certificates shall be assigned by local districts to endorsed areas and levels only. Teachers holding initial level elementary endorsements shall be assigned to elementary or middle grades only.

ELEMENTARY PREPARATION

General requirements. In addition to the general university and core requirements in all curricula, certain specific requirements in general education must be met.

1. Anthropology 102, Exploring Anthropology: Culture and Society (recommended) or Anthropology 210/History 210, Global Perspectives, must be taken.
2. Prospective elementary teachers usually meet the Natural Sciences/Mathematics core requirement in the following ways:
 - a. Completing Biology 111 or another life science course;
 - b. Completing Natural Science 106 or another physical science course;
 - c. Completing Mathematics 323 or equivalent.

A year course in one laboratory science may be substituted by those who have adequate background from high school in the other science area.

Professional Education Sequence, Elementary Program.

- SPED 190 Exceptional Children and Adults, 3 hours (no prerequisite)
- EDUC 253 Child Development and Schools, 4 hours (2.33 GPA and sophomore status required; prerequisites: ENGL 101 and PSY 101)
- EDUC 322 General Methods, Primary, 4 hours
OR
- EDUC 323 General Methods, Upper Elementary, 4 hours
OR
- EDUC 324 General Methods, Elementary, 4 hours
(For all General Methods courses a GPA of 2.50 and junior standing are required. Prerequisites: EDUC 253 or 321; application, screening, and acceptance into the School of Education; satisfactory writing and math skills.)
- EDUC 421 Teachers and the Law, 1 hour. (Prerequisite: EDUC 253) (For physical education majors, PE 328 fulfills the School Law requirement.)
- EDUC 430 Student Teaching, Primary, 10 hours (single)
OR
- EDUC 432 Student Teaching, Upper Elementary, 10 hours (single)
- EDUC 434 Student Teaching, Elementary, 8 hours (dual)
(For Student Teaching a GPA of 2.50 and senior standing are required along with positive field evaluations from EDUC 253 and EDUC 322-4. Prerequisites: EDUC 253, 322-4, 325, 326, 408, 410, and 412; all conditions to full admission met; satisfactory writing, spelling, and math skills.)

EDUC 435 Professional Seminar, 2 hours (must be taken concurrently with EDUC 430 or 432)

Students in elementary education who do not complete all necessary procedures before April 15 for fall student teaching or November 15 for spring student teaching may expect a delay of one semester in being placed for student teaching. A health certificate for teachers will need to be on file in the School of Education before student teaching placement can be finalized.

Professionalized Subject Matter Minor (14 hours required of all elementary candidates)

Required—12 semester hours

- EDUC 325 Reading in the Elementary School (4)
EDUC 326 Mathematics in the Elementary School (2)
EDUC 408 Language Arts in the Elementary School (2)
EDUC 410 Science in the Elementary School (2)
EDUC 412 Social Studies in the Elementary School (2)

Elective—2 semester hours

- ART 341 Elementary Art Education (2)
MUS 341 Music in the Elementary School (2)
PE 322 Physical Education in the Elementary School (2-4)
HED 295 School Health (2)

SECONDARY PREPARATION

Professional Sequence (minimum of 30 hours)

- SPED 190 Exceptional Children and Adults (3)
EDUC 251 Learner and Society (GPA 2.33 required; sophomore level course; prerequisites: ENGL 101, PSY 101) (4)
EPSY 368 Educational Psychology (GPA 2.50 required; prerequisite: EDUC 251) (4)
EDUC 421 Teachers and the Law (GPA 2.50 required) (1) (For physical education majors, PE 328 fulfills the School Law requirement.)
EDUC 425 General Secondary Methods (GPA 2.50 required; prerequisites: EDUC 251, EPSY 368 or permission; strongly recommended: SPED 190, ANTH 210, HIST 210) (4)
SPECIAL METHODS See Education adviser (2)
EDUC 465 Student Teaching (GPA 2.50 and senior status required; prerequisites: EDUC 251, EPSY 368, EDUC 425, first aid card, all conditions of screening met) (10)
EDUC 467 Evaluation (GPA 2.50 required; prerequisite: EDUC 425 or concurrent enrollment in EDUC 425; may be taken concurrently with EDUC 465, but not recommended) (2) (For physical education majors, PE 484 fulfills the Evaluation requirement.)

SPECIAL PROGRAMS

The following specialized minors in education are available to all students pursuing teacher certification. Students desiring to work toward a specialized minor should consult an adviser in the School of Education for assistance in planning their program.

READING—14 semester hours

- Prerequisite: EDUC 325 Reading in the Elementary School
Required
EDUC 408 Language Arts in the Elementary School (2)
EDUC 483 Primary Reading (2)
EDUC 479 Special Techniques in Reading (4)
Electives—minimum of 6 semester hours chosen in consultation with an adviser before registration.

SPECIAL EDUCATION

This 32 semester hour teaching major must be taken in conjunction with another academic teaching major. Students should make application for admission to the special education program while enrolled in Special Education 190. Students completing this major along with the required professional education sequence for elementary or secondary teachers will be eligible to teach in special education programs in the State of Washington and most other states. Students not majoring in education may be excused from the requirements of taking Education 251 or 253.

Major—32 semester hours total. 26 hours required: Special Education 190, 290, 390, 393, 398, 399, 405 or 406, 438 or 439; 2 hours of 399 practica; 5 hours of electives from Special Education 191, 296, 395, 403, 475, 479, 490, 491, 494.

Minor—18 semester hours total. 13 hours required: Special Education 190, 290, 398, 405 or 406. 5 hours of electives from 296, 390, 393, 395, 399, 403, 475, 490, 494.

School of Education

E

School of Education

LEARNING RESOURCE SPECIALIST (Preparation of School Librarians)

16 semester hours

Students interested in preparing for the responsibility of administration of a school library may meet suggested standards through the following program: Select a minimum of one course from each of the following divisions:

Book and Media Selection

EDUC 456 Storytelling (4)
EDUC 454 Selection of Learning Resource Materials (2)
ENGL 323 Children's Literature (4)

Administration

EDUC 451 Administration of the School Library (2)

Cataloging

EDUC 453 Processing School Library Materials (2)

Reference

EDUC 452 Basic Reference Materials (2)

Media Utilization and Production

EDUC 457 Preparation and Utilization of Media (3-4)

Curriculum

EDUC 580 Curriculum Development (2)

ACADEMIC PREPARATION

A major from those listed must be completed. Completion of a teaching major/minor in a second academic area is strongly recommended. (Students do not major in education.) Teaching majors are offered in the following areas: art, biology, business education, chemistry, communication arts, earth and general sciences, economics, English, French, German, history, language arts, mathematics, music, physical education, physics, political science, Scandinavian studies, social sciences, sociology, and Spanish.

PREPARATION FOR ELEMENTARY TEACHING: A student preparing for elementary school teaching must complete a 24 semester hour elementary teaching major and two minors. One of the minors must be the Professional Subject Matter Minor of 14 hours. The second must be a 12 hour teaching minor which is different from the major. See below for all teaching majors and minors. Candidates desiring a middle school assignment should consider elementary preparation.

PREPARATION FOR JUNIOR HIGH TEACHING: Students preparing for teaching on the junior high level are required to complete a teaching major of approximately 24-32 semester hours. A teaching minor is also required. Students must consult an education adviser regarding teaching major and minor combinations.

PREPARATION FOR SENIOR HIGH SCHOOL TEACHING: Students preparing for senior high teaching must complete approximately 44-48 semester hours in the academic area in which they plan to teach. A minor in a second teaching area is recommended. Students may also find it advantageous to their career goals to 1) develop skills in one or more coaching areas in response to Title IX legislation, and 2) develop competencies in special education in response to federal special education legislation. In all cases, students must discuss their program with an adviser from the School of Education.

PREPARATION FOR K-12 TEACHING: Students preparing for K-12 teaching in art, music or physical education must have student teaching experience on both the elementary and secondary levels. Detailed information regarding K-12 certification is available in the School of Education office.

ART

Senior High Teaching Major: 46 semester hours* required: Art 160, 180, 230, 250, 280, 326, 365, 370, 380, 440, plus electives.

Secondary Education Teaching Minor: 16 semester hours required: Art 160, 230, 250, 365. Professional methods course required: Art 440.

Junior High Teaching Major: 30 semester hours required: Art 160, 230, 250, 326, 365, 440, plus electives. Teaching Minor: 20 semester hours required: Art 110, 160, 230, 250, and 365.

Elementary Teaching Major: 24 semester hours required: Art 110, 160, 250, 341, and 8 semester hours of 230, 365, or 370.

Teaching Minor: 12 semester hours as determined by the School of Education.

*Up to three supporting courses may be recommended.

BIOLOGY

Senior High Teaching Major: 41 semester hours required: Biology 161, 162, 205, 206, 323, 331, 340, 425; a choice of 8 additional semester hours of upper division courses in biology. Required supporting courses: Chemistry 104, 115, 116; Earth Sciences 131, and a course in computer science. Education 447 to meet professional education requirement.

Senior High Teaching Minor: 21 semester hours required: Biology 161, 162, 323, 340, 425; a choice of 8 additional upper division semester hours in biology. Required supporting courses: Chemistry 104, 115, and a course in computer science. Education 447 to meet professional education requirement.

Elementary Teaching Major: 24 semester hours required: Biology 155, 156, 253; a choice of 8 additional semester hours 205 and above. Required supporting course: Chemistry 104.

BUSINESS EDUCATION

Senior High Teaching Major: 41-45 semester hours required: Economics 150, Computer Science 110; Business Administration 281, 350, 435; advanced typing; business machines; business communications (taken at a community college); Education 341, 342, 343, 344. Each student is required to select at least one area of concentration from accounting or secretarial. Accounting: Business Administration 381, 483. Secretarial: advanced shorthand, records management, machine transcription (available at a community college); Education 345.

Secondary Education Teaching Minor: 16 semester hours required; courses selected in consultation with advisers in business education and education. Professional methods courses required: Education 341, 342, 343, 344.

CHEMISTRY

Senior High Teaching Major: 49 semester hours required: Chemistry 115, 116, 321, 331, 332, 333, 334, 341, 342, and 343; Physics 147, 148, 153, and 154; Math 151, 152.

Elementary Teaching Major: 24 semester hours required: 16 hours of approved chemistry and 8 hours as determined by the School of Education. **Teaching Minor:** 12 hours as determined by the School of Education.

COMMUNICATION ARTS

Senior High Teaching Major: 44 semester hours required: 16 semester hours of Communication Arts 123, 250 or 328, 241, plus 12-29 semester hours chosen in consultation with the major adviser. Supporting classes: Alternative of 16-20 semester hours in English or modern or classical languages.

Secondary Education Teaching Minor: 16 semester hours required: Communication Arts 123, 241, 250, 283.

Junior High Teaching Major: 24-28 semester hours required: 12 semester hours of Communication Arts 123, 328 or 250, 241, plus additional 12 hours in communication arts. Additional 8-12 semester hours to be determined with department and School of Education. **Teaching Minor:** 16-20 semester hours required: Communication Arts 123 and 241, plus 8-12 elective semester hours.

Elementary Teaching Major: 24 semester hours required: Communication Arts 123, plus 12 semester hours in communication arts and 8 semester hours in English. **Teaching Minor:** 12 semester hours to be determined in consultation with the School of Education.

COMPUTER SCIENCE

Secondary Education Teaching Minor: 24 semester hours. Computer Science 110 or 210 or 220; 144, 270, 380, 4 semester hours of computer science electives, Math 151 or 128, Computer Science 449 to meet professional education requirement.

EARTH SCIENCES

Senior High Teaching Major: 44 semester hours required, including Earth Sciences 131, 132, 202, 325, 327, and one of the following: 330, 360, 390. Required supporting: Chemistry 103, 104, or 115, 116; Physics 125, 126 (and labs) or 153, 154 (and labs); Math 133; appropriate biology courses. Additional supporting courses should be discussed with adviser.

Junior High Teaching Major: 28 semester hours required, including Earth Sciences 131, 132, 202, 324 or 325, 327, and one of the following: 330, 360, 390. Suggested supporting: Chemistry 104 or 115, 116; Physics 125, 126 (and labs) or 153, 154 (and labs); Math 133; appropriate biology courses. Additional supporting courses should be discussed with adviser.

Elementary Teaching Major: 24 semester hour required: Earth Sciences 131, 132, and 202; Chemistry 104 or 115 and one upper division earth science course. **Teaching Minor:** 12 semester hours in earth sciences.

ECONOMICS

Senior High Teaching Major: 44 semester hours required: Economics 150, 351, 352, 486; 12 semester hours from the following: Economics 321, 331, 361, 362, 371; History 460 plus 12 semester hours distributed over areas of sociology, political science, or anthropology. (Recommended: Education 448 to meet professional education requirement.)

Secondary Education Teaching Minor: 20 semester hours required: Economics 150, History 460, and 12 semester hours selected in consultation with advisers in economics and education. Professional methods course required: Education 448.

Junior High Teaching Major: 28 semester hours required; Economics 150, 371, 486; 4 hours from: Economics 321, 331, 351, 361, 432; History 460 plus 8 semester hours distributed over areas of sociology or political science. **Teaching Minor:** 12 semester hours required; Economics 150, plus 12 hours of upper division economics. Education 448 to meet professional education requirement.

Elementary Teaching Major: 24 semester hours required; Economics 150, 371, 486; 4 semester hours from: Economics 321, 331, 351, 352, 361, 362, 432; History 460; 4 semester hours from the areas of sociology or political science. **Teaching Minor:** 12 semester hours required; Economics 150 and 8 hours of upper division economics. Education 412 to meet professional education requirement.

ENGLISH

Senior High Teaching Major: A minimum of 32 semester hours, 16 of which are to be upper division, is required beyond 101 including 241, 251, 252, 328, and 403. Select another 12 hours of upper division coursework in consultation with an adviser. (Where possible one course should be in a historical period, one in a major author, and one an elective.) All majors must present two years of one foreign language at the college level or show equivalent proficiency. Education 444 is required to meet the professional education requirement.

Secondary Education Teaching Minor: A minimum of 20 semester hours required, including 241, 251, 252, 328, and 403. Education 444 is required to meet the professional education requirement.

Junior High Teaching Major: A minimum of 32 semester hours. (See requirements under Senior High Teaching Major.)

Elementary Teaching Concentration: 24 semester hours, including 4 hours in British literature before 1700; 4 hours after 1700; 4 hours American literature, and 12 additional hours in English as determined by the School of Education. Recommended: English 363.

Elementary Teaching Minor: 12 hours required, as determined by the School of Education.

FRENCH

Senior High Teaching Major: 44 semester hours required, including 32 semester hours of French and 12 semester hours of supporting courses: French 201, 202 (or equivalent), 321, 351, 352, and 12 additional semester hours. Supporting courses to be selected with the approval of the department and must include Language 445, which will also meet part of the professional education elective requirement.

Secondary Education Teaching Minor: 16 semester hours above the 200 level required; courses selected in consultation with advisers in education and languages. Professional methods course required: Language 445.

Junior High Teaching Major: 28 semester hours required as listed for senior high preparation; supporting courses chosen in consultation with major adviser. **Secondary Teaching Minor:** 16 semester hours above 200 level.

Elementary Teaching Major: 24 semester hours required, including 20 hours in French and 4 additional hours selected in consultation with the department and the School of Education. **Teaching Minor:** 12 hours required, as determined by the department and the School of Education.

GENERAL SCIENCE

Senior High Teaching Major: 42 semester hours required; Chemistry 104, 115, 116; Earth Sciences 131, 132, 222; Physics 125, 126, 147, 148; 2 semester hours in computer science; a choice of 8 additional semester hours of upper division credit in chemistry, earth sciences, and physics. Education 447 to meet professional education requirement.

Senior High Teaching Minor: 22 semester hours required; Chemistry 115, 116; Earth Sciences 131; Physics 125, 126; 2 semester hours in computer science; 8 additional semester hours from these areas or physics. Education 447 to meet professional education requirement.

Elementary Teaching Major: 24 semester hours required; biology-4; earth sciences-4; chemistry, or physics-4; 12 additional hours from biology, earth sciences, chemistry, or physics.

Elementary Teaching Minor: 12 semester hours required; physical science-4; life science-4; 4 hours from either.

GERMAN

Senior High Teaching Major: 44 semester hours required, including 32 semester hours of German and 12 semester hours of supporting courses: German 201, 202 (or equivalent), 321, 351, 352, and 12 additional semester hours. Supporting courses to be selected with the approval of the department and must include Language 445, which will also meet part of the professional education elective requirement.

Secondary Education Teaching Minor: 16 semester hours above the 200 level required; courses selected in consultation with advisers in education and languages. Professional methods course required: Language 445.

Junior High Teaching Major: 28 semester hours required as listed for senior high preparation; supporting courses chosen in consultation with major adviser. **Secondary Teaching Minor:** 16 semester hours above 200 level.

Elementary Teaching Major: 24 semester hours required, including 20 hours in German and 4 additional hours selected in consultation with the department and the School of Education. **Teaching Minor:** 12 hours required, as determined by the department and the School of Education.

HISTORY

Senior High Teaching Major: 44 semester hours required; History 107 or 108; 109, 210 or 211; 8 hours of 251, 252, 253; 460 and 12 additional upper division hours in history including a senior seminar. Supporting courses: 12 additional semester hours selected from economics, geography, political science, psychology, and sociology. Recommended: Education 420, 448 to meet professional education requirements.

Secondary Education Teaching Minor: 16 semester hours required; 4 hours from History 251, 252, or 253; 460; and 8 hours selected in consultation with advisers in education and history. Professional methods course required: Education 448.

LANGUAGE ARTS

Junior High Teaching Major: A minimum of 32 semester hours required: English 328; English 403; 4 hours of upper division literature (in addition to course taken to meet the general university core requirement); Communication Arts 241; 12 hours in journalism and communication arts; Education 444 to meet the professional education requirement. This major must be accompanied with a 16 hour minor selected from English, communication arts, journalism, foreign language, or social sciences.

Elementary Teaching Major: A minimum of 24 semester hours required: English 328; English 403; English 323; Communication Arts 406 and one of Communication Arts 241, 326, or 436; one course selected from one of the following areas: English, communication arts, or foreign language above the 200 level.

Elementary Teaching Minor: A minimum of 12 semester hours required as determined by the School of Education, including English 328.

MATHEMATICS

Senior High Teaching Major: 40 semester hours. Required: Math 151, 152, 253, 321, 331, 446. Computer Science 110 or 144, plus a minimum of 8 additional hours in mathematics courses above 325. (Four of these 8 hours may be from computer science courses numbered 240 or above.)

Also required is a two course sequence of at least eight credit hours in a natural science other than mathematics or computer science.

Secondary Education Teaching Minor: 20 semester hours. Required: Math 151, 152, 230 or 331, 4 hours of math electives (321 or above 324). Computer Science 110 or 220 or 144. Math 446 to meet professional education requirement.

Elementary Teaching Major: 24 semester hours. Required: Math 133 or equivalent; 151, 152, 230, 323 or equivalent. Computer Science 110 or 144 is also strongly recommended.

Elementary Teaching Minor: 12 semester hours. Required: Math 323 or equivalent; Computer Science 110 is strongly recommended.

MUSIC

K-12 Choral Teaching Major: 58 semester hours required; Music 123, 124, 125, 126, 132, 223, 225, 226, 227, 231, 240, 248, 340, 342, 345, 348, 442, 443, 445, 453; seven hours from 360-363; four hours of class piano (minimum level 6)*; six hours of private instruction in voice/degree recital (half recital); see Music Department listings regarding courses which are prerequisite for student teaching.

K-12 Instrumental (Band Emphasis) Teaching Major: 58 semester hours required; Music 123, 124, 125, 126, 132, 223, 225, 226, 227, 231, 240, 326, 340, 345, 348, 444, 445; five hours from 241/242, 243/244, 245/246; seven hours from 370/380; one hour from 375/376; two hours of class piano (minimum level 4)*; six hours of private instruction on principal instrument/degree recital (half recital). See Music Department listings regarding courses which are prerequisite for student teaching.

K-12 Instrumental (Orchestra Emphasis) Teaching Major: 58 semester hours required; Music 123, 124, 125, 126, 132, 223, 225, 226, 227, 231, 240, 326, 340, 345, 348, 445; five hours from 241/242, 243/244, 245/246; seven hours from 370/380; one hour of 381; two hours of class piano (minimum level 4)*; six hours of private instruction on principal instrument/degree recital (half recital). See Music Department listings regarding courses which are prerequisite for student teaching.

E

School of Education

7-12 Choral (Secondary) Teaching Major: 58 semester hours required: Music 123, 124, 125, 126, 132, 223, 225, 226, 227, 231, 240, 248, 340, 345, 348, 366, 442, 443, 445, 453; seven hours from 360-363; four hours of class piano (minimum level 6)*; six hours of private instruction in voice/degree recital (half recital). See Music Department listings regarding courses which are prerequisite for student teaching.

Junior High Teaching Minor: Two to four semester hours from Music 341, 441, 443, and 444 plus 20 hours to be determined in consultation with the School of Education and the Department of Music.

K-8 Music Specialist: 54 semester hours required: Music 123, 124, 125, 126, 132, 223, 225, 226, 227, 231, 240, 248, 340, 342, 345, 348, 442, 445, 453; seven hours from 360-363; four hours of class piano (minimum level 6)*; four hours of private instruction in voice. See Music Department listings regarding courses which are prerequisite for student teaching.

*Consult Department of Music concerning descriptions of class piano levels.

Elementary Teaching Major: Two to four semester hours from Music 341 and 441, plus 24 hours to be determined in consultation with the School of Education and the Department of Music.

Elementary Teaching Minor: Two to four semester hours from Music 341 and 441, plus 12 hours to be determined in consultation with the School of Education and the Department of Music.

PHYSICAL EDUCATION

Secondary Teaching Major (44 hours): Required: Physical Education 241, 277, 283, 285, 286, 287, 328, 329, 478, 480, 481, 482, 484, and 485; Biology 205 and 206. For K-12 certification students must also take Physical Education 322 and 360 in addition to meeting requirements as set forth by the School of Education.

Secondary Teaching Minor (19 hours): Required: Physical Education 283, 285 or 286, 328, 334, 478, and 2 hours of electives in physical education as approved by adviser.

Elementary Teaching Major (24 hours): Required: Physical Education 283, 284, 286, 322, 329, 334, and 7 hours of electives in physical education as approved by adviser.

Elementary Teaching Minor (11 hours): Required: Physical Education 241, 284, 286, and 322.

Elementary School Physical Education Specialist (39 hours): Required: Physical Education 277, 283, 284, 286, 322, 329, 360, 478, 481, 482, 484, 485, and Biology 205 and 206.

Health Education Minor (18 hours): Required: Health Education 260, 270, 292, 321, 323, 325, 327, and 6 hours of electives with the approval of the health coordinator.

PHYSICS

Senior High Teaching Major: 34 semester hours required: Physics 147, 148, 153, 154, 223; Math 151, 152; Engineering 231, 271; Chemistry 115, plus an additional 4 hours in chemistry.

Secondary Education Teaching Minor: 18 semester hours required: Physics 125, 126 (or 153, 154), 147, 148; Natural Science 106; Math 133 or 151; Education 447.

Junior High Teaching Major: 26 semester hours required: Physics 125, 126 (or 153, 154), 147, 148; Natural Science 106; Math 133 or 151; Chemistry—8 hours from 104, 105, 115, 116.

*Physics 153 and 154 may be taken instead of 125 and 126, with concurrent or prior registration in Math 151 or 152.

POLITICAL SCIENCE

Senior High Teaching Major: 44 semester hours required: Political Science 101, 151, 231, plus 16 hours of political science electives; History 460; 12 hours from the following supporting areas: economics, geography, history, sociology, anthropology, or psychology. Education 448 to meet professional education requirement.

Secondary Education Teaching Minor: 20 semester hours required: Political Science 101 or 151, History 460, and 12 hours selected in consultation with advisers in education and political science. Professional methods course required: Education 448.

PSYCHOLOGY

Secondary Education Teaching Minor: 16 semester hours required: Psychology 101, 243, and 8 additional hours from upper division courses. Professional methods course required: Education 448.

SCANDINAVIAN STUDIES

Secondary Education Teaching Minor: 16 semester hours above the 200 level required; courses selected in consultation with advisers in education and languages. Language 445 to meet professional education requirement.

Elementary Teaching Major: 24 semester hours required, including hours in Norwegian and 4 additional hours selected in consultation with the department and the School of Education.

Elementary Teaching Minor: 12 semester hours required, as determined by the department and the School of Education.

SCIENCE (GENERAL)

See above.

SOCIAL SCIENCES

Senior High Teaching Major: 44 semester hours required: 4 hours from History 251, 252, 253; History 460; 4 hours from each of the following areas: anthropology, economics, political science, psychology, sociology, or 4 hours from Earth Sciences 101, 131, 351, 360; 12 upper division hours from two of the following areas: economics, political science, and sociology. Education 448 to meet professional education requirement.

Secondary Education Minor: 16 semester hours required: 4 hours from History 251, 252, or 253; History 460; and 8 hours selected from economics and political science (at least 4 hours from each department). Professional methods course required: Education 448.

Junior High Teaching Major: 28 semester hours required: 4 hours from History 251, 252, 253; History 460; 4 hours from three of the following areas: anthropology, economics, political science, psychology, and sociology; 8 upper division hours from two of the following areas: economics, political science, and sociology. Teaching Minor: 16 hours required: 4 hours from History 251, 252, 253; History 460; and 8 hours from economics, political science, and sociology. Education 448 to meet professional education requirement. Recommended: Education 420.

Elementary Teaching Major: 24 semester hours required: 4 hours from History 251, 252, 253; History 460; and 16 hours from the following: anthropology, economics, political science, psychology, and sociology. **Teaching Minor:** 12 semester hours required, as determined by the School of Education.

SOCIOLOGY

Senior High Teaching Major: 44 semester hours required: Sociology 101; 24 hours of sociology; History 460; 12 semester hours distributed over three areas of other social sciences. Education 448 to meet professional education requirement. NOTE: Students may elect one of the specialized areas in sociology.

Secondary Education Teaching Minor: 16 semester hours required, including Sociology 101. Additional upper division courses selected in consultation with advisers in education and sociology. Professional methods course required: Education 448.

SPANISH

Senior High Teaching Major: 44 semester hours required, including 32 semester hours of Spanish and 12 semester hours of supporting courses. Spanish 201, 202 (or equivalent), 321, 351, 352, and 12 additional semester hours. Supporting courses to be selected with the approval of the department and must include Language 445, which will also meet part of the professional education elective requirement.

Secondary Education Teaching Minor: 16 semester hours above the 200 level required; courses selected in consultation with advisers in education and languages. Professional methods course required: Language 445.

Junior High Teaching Major: 28 semester hours required, as listed for senior high preparation; supporting courses chosen in consultation with major adviser. Secondary Teaching Minor: 16 semester hours above 200 level.

Elementary Teaching Major: 24 semester hours required, including 20 hours in Spanish and 4 additional hours selected in consultation with the department and the School of Education.

SPECIAL EDUCATION

(See above, under Special Programs.)

FIFTH-YEAR AND STANDARD CERTIFICATION Program for all candidates holding a valid provisional teaching certificate and working toward standard certification.

The fifth-year of teacher education is to follow a period of one year of initial teaching experience. Students must complete a minimum of eight semester hours applicable toward the fifth year, before the beginning of the fourth year of teaching. Thirty semester hours in an approved program must be completed before the beginning of the seventh year of teaching. Students may choose the institution in which they wish to take advanced work as follows:

1. If they choose to work at PLU or any other of the teacher education institutions in the State of Washington, that institution shall be responsible for recommending them for the Standard Certificate upon completion of the fifth-year program.
2. If PLU graduates wish to undertake the fifth year in a out-of-state institution, PLU will be responsible for recommending them for the Standard Certificate. Students must secure general approval of their plan from the university in advance. There are four provisions governing the fifth-year pattern of work, according to the State Board of Regulations:
 1. The fifth year must include a minimum of 30 semester hours of which at least fifty per cent must be upper division and/or graduate courses.

2. No more than three semester hours of correspondence study may be approved as a part of the 30 semester hours in the student's fifth-year program.
3. PLU graduates must take 15 semester hours of the fifth year in residence at PLU. A non-PLU student who wishes to be recommended by PLU must take a minimum of 20 semester hours in residence at PLU.
4. Students may take 15 of the required 30 semester hours before or during the first year of teaching experience with prior permission of the School of Education.

Following are requirements and procedures for the approval of fifth-year programs of work at PLU:

1. Specific course requirements are:
 - Elementary
 - a. Required course: EDUC 467, Evaluation (2 hours)
 - b. One required from the following (4 hours): EPSY 535, Foundations of Guidance; EPSY 578, Behavioral Problems; EPSY 575, Mental Health.
 - c. 2 hours from the following suggested courses: EDUC 473, Parent-Teacher Relationships; EDUC 501, Sex Role Stereotyping in Education; EPSY 537, Reality Discussion Techniques; EPSY 536, Affective Classroom Techniques; 501 Workshops, for example, Discipline in the Classroom, Encouraging Process.
 - Secondary
 - a. Required courses (4 hours): EDUC 420, Problems of Reading in the Secondary School; EDUC 467, Evaluation.
 - b. Electives (4 hours): *Group A*-2 hours—courses in a theoretical or interpersonal framework—EDUC 473, Parent-Teacher Relationships; EDUC 501, Sex Role Stereotyping in Education; EPSY 537, Reality Discussion Techniques; or appropriate substitutions; *Group B*-2 hours—courses in a methodological or instructional framework—Simulation, Film, Interaction Analysis, Program Ideas in the Junior High School, Plants of the Pacific Northwest, etc.
2. Any courses recommended for the individual student before the granting of the bachelor's degree must be completed. These may be recommended by either the undergraduate adviser or the School of Education.
3. Any course work required by the undergraduate institution and/or the employing school district must be completed.
4. Courses taken should strengthen areas of concentration and build stronger general education background as well as fill needs in the professional field. This program of studies is to be selected by students with the guidance of those who have worked with them during their period of initial teaching and the advisers at the recommending institutions.
5. Students secure approval of the recommending institution for work taken elsewhere before the work is begun.

Some of the work taken during the fifth year may also apply toward a master's degree. Graduate students may undertake a program coordinating requirements for standard certification and the master's degree upon the approval of their committee chair and the coordinator of fifth-year programs.

RENEWAL OF INITIAL TEACHING CERTIFICATE

Students seeking to renew their initial teaching certificate must do the following:

1. Enroll formally in a planned program for the continuing teacher certificate.
2. Negotiate and establish a "plan of study" with their adviser.
3. Complete 10 semester hours of course work applicable to the continuing certificate program which are taken subsequent to issuance of the initial certificate.
4. Insure that official transcripts of applicable course work are on file in the School of Education at PLU.
5. Complete an application for teaching certificate with a notarized affidavit no older than six months at the time of recommendation for renewal.
6. Pay the State certificate fee.

CONTINUING TEACHER CERTIFICATE

The candidate for a continuing teacher certificate must complete at least 30 semester hours of upper division or graduate work subsequent to the baccalaureate degree, of which 20 semester hours must be taken after the first year of teaching. Candidates must have completed at least three years of service in an educational setting, including at least two years as a classroom teacher in grades K-12. Additional specific requirements include:

1. Completion of the "plan of study" and school district recommendations for study.
2. Completion of Education 515, 516, and 544.
3. Verification of the completion of continuing level minimum generic standards.
4. Completion of 8 semester hours in the supporting area.
5. Completion of 15 semester hours in residence for PLU graduates or 20 semester hours for those who received their initial certificate elsewhere.

6. Completion of 20 semester hours after one year of teaching experience.
7. Meeting the recency requirement, if applicable.
8. Completion of an application for a teaching certificate with a notarized affidavit no older than six months at the time of recommendation for the certificate.
9. Insuring that official transcripts as applicable are on file in the School of Education.
10. Payment of the State certificate fee.

With previous approval and adequate planning, most of the work taken for the continuing certificate may also apply towards a master's degree. Graduate students may undertake a program coordinating requirements for the continuing teaching certificate and the master's degree upon the approval of the faculty adviser or graduate chairperson.

PRINCIPAL'S AND PROGRAM ADMINISTRATOR'S CERTIFICATE

Preparation programs leading to certification at the initial and continuing levels for school and district-wide program administrators are available through the School of Education. Specific requirements for the certificates are identified in Handbooks available upon request. Master's degrees in Educational Administration are described in the Graduate Catalog, which can be obtained from the Graduate Studies Office.

CERTIFICATION REQUIREMENTS FOR SCHOOL COUNSELORS AND SCHOOL NURSES

(Subject to new certification requirements as of April, 1983)

Educational Staff Associate certification for school counselors or for school nurses is individually designed through a consortium consisting of a school district, related professional associations, and Pacific Lutheran University. Additional information on these programs can be obtained by contacting the dean of the School of Education.

COURSE OFFERINGS

251 LEARNER AND SOCIETY: GROWTH AND DEVELOPMENT (SECONDARY)

Orientation to contemporary schools; human development in relation to individuals and groups in an educational setting. Public school observation required weekly with students responsible for their own transportation. Prerequisites: PSY 101 or SOC 101, ENGL 101, sophomore standing, 2.33 GPA. (4)

253 CHILD DEVELOPMENT AND SCHOOLS

Introduction to the nature of schools and teaching in contemporary society; overview of human development with special emphasis on intellectual, social, emotional, and physical development of elementary age children in a school setting. Weekly public school observations required with students responsible for their own transportation. Prerequisites: ENGL 101, PSY 101, sophomore standing, 2.33 GPA, writing and math skills assessment. Also available as independent study (253 15) for 1-4 credits, if approved by faculty, for students with extensive background or experience in schools and development. (4)

321 HUMAN DEVELOPMENT

Emotional, social, intellectual, and physiological development from infancy through adolescence. A weekly four-hour observation in the public school is required. (Individually assigned.) Students responsible for their own transportation. Prerequisites: PSY 101, ENGL 101, junior standing, 2.33 GPA. (2-4)

322 GENERAL METHODS—PRIMARY

Competencies will be developed for teaching in grades K-3, with observation and participation in public schools. Prerequisites: 253 or 321. 2.50 GPA (4)

323 GENERAL METHODS—UPPER ELEMENTARY

Competencies will be developed for teaching in grades 4-6, with observation and participation in public schools. Prerequisites: 253 or 321. 2.50 GPA. (4)

324 GENERAL METHODS—ELEMENTARY

Competencies will be developed for teaching in grades K-6. Extended experience and participation in public school classrooms will be provided. Prerequisites: 253 or 321, MATH 323, and concurrent enrollment in courses 325, 326, 408, 410, 412. 2.50 GPA. (4)

E

School of Education

**325 READING IN THE ELEMENTARY SCHOOL**

Teaching reading in elementary grades, including modern approaches, materials, methods, techniques, procedures, and some diagnosis of reading difficulties. Prerequisites: 322-324 or concurrently with 322-324. 2.50 GPA. (4)

326 MATHEMATICS IN THE ELEMENTARY SCHOOL

Basic mathematical skills and abilities needed by the elementary school teacher; recent developments and materials. Prerequisites: 253, MATH 323 or equivalent. 2.50 GPA. (2)

341 PHILOSOPHY OF VOCATIONAL EDUCATION

Objectives of high school business education programs, the business curriculum, layout and facilities planning, the evaluation of business teachers and competence for business occupations. Examination of information resources and current thought in business education, cooperative education, and distributive education. Prerequisite: EDUC 425 is recommended. (2)

342 METHODS OF TEACHING TYPING AND BOOKKEEPING

Application of research findings and psychological principles to the teaching of typing and bookkeeping. Prerequisites: BA 281 and advanced typing; EDUC 425 is recommended. (2)

343 METHODS OF TEACHING BOOKKEEPING

Application of research findings and psychological principles to the teaching of bookkeeping. Prerequisites: EDUC 425 (may be concurrent) and BA 281. (1)

344 METHODS OF TEACHING GENERAL BUSINESS SUBJECTS

Application of research findings and psychological principles to the teaching of general business, consumer economics, economics, business law, business mathematics, and business communications subjects. Prerequisites: EDUC 425 (may be concurrent), ECON 150, and BA 281. (1)

401 WORKSHOPS

Workshops in special fields for varying periods of time. (1-6)

408 LANGUAGE ARTS IN THE ELEMENTARY SCHOOL

The functional teaching of communication skills, grades K-6; areas include oral and written expression, listening, reading, literature, dramatization, spelling, grammar, handwriting, children's language study, vocabulary development, and lexicography. Prerequisite: 253. 2.50 GPA and 322-324 or concurrently with 322-324. (2)

410 SCIENCE IN THE ELEMENTARY SCHOOL

A humanistic approach with emphasis on those kinds of materials and "hands on" activities needed to achieve the objectives of science. Prerequisite: 322-324 or concurrently with 322-324. 2.50 GPA. (2)

412 SOCIAL STUDIES IN THE ELEMENTARY SCHOOL

Objectives, materials, and methods of teaching the social studies; recommended to student teachers and experienced teachers. Prerequisite: 253. 2.50 GPA. (2)

420 PROBLEMS OF READING IN THE SECONDARY SCHOOL

Teaching secondary reading in content areas; attention to developmental reading problems; materials, methods, techniques, procedures, and some observation and diagnosis of reading difficulties. Prerequisite: 251; taken concurrently with 425 and 434. (2)

421 TEACHERS AND THE LAW

A brief study of students', parents', and teachers' rights and responsibilities with some emphasis of the question of liability. (1)

425 GENERAL METHODS—SECONDARY

Curriculum, materials, and methods of secondary teaching; observation and discussion. Prerequisites: 251, EP5Y 368. 2.50 GPA (4)

430 STUDENT TEACHING—PRIMARY (SINGLE)

Teaching in classrooms of local public schools under the direct supervision of the School of Education faculty and classroom teachers. Prerequisites: 253 or 321, 322 or 324, 325, 326, 408, 410, 412. 2.50 GPA. Concurrent enrollment in 435. (10)

432 STUDENT TEACHING—UPPER ELEMENTARY (SINGLE)

Teaching in classrooms of local public schools under the direct supervision of the School of Education faculty and classroom teachers. Prerequisites: 251 or 321, 323 or 324, 325, 326, 408, 410, 412. 2.50 GPA. Concurrent enrollment in 435. (10)

434 STUDENT TEACHING—ELEMENTARY (DUAL)

Designed for persons who do dual student teaching. Ten weeks of teaching in classrooms of local public schools under the direct supervision of School of Education faculty and classroom teachers. Prerequisites: EDUC 253 or 321; 322, 323, or 324; and 325, 326, 408, 410, and 412. 2.50 GPA. Concurrent enrollment in 435. (8)

435 PROFESSIONAL SEMINAR

An opportunity for students to share experiences with an exchange of ideas on pupil behavior, curriculum practices, and ways of improving teaching performance. (Must be taken concurrently with 430 or 432.) (2)

436 ALTERNATE LEVEL STUDENT TEACHING—ELEMENTARY

A course designed to give some knowledge, understanding, and study of children, subject matter fields, and materials in the student's alternate teaching level plus student teaching on that level. Students who have completed secondary preferred level student teaching should enroll in this course. (6)

437 ALTERNATE LEVEL STUDENT TEACHING—SECONDARY

A course designed to give some knowledge, understanding, and study of children, subject matter fields, and materials in the student's alternate teaching level plus student teaching on that level. Students who have completed elementary preferred level student teaching should enroll in this course. Independent study card required. (6)

440-448 SPECIAL METHODS IN TEACHING SECONDARY SCHOOLS SUBJECTS

Curriculum, methods, and materials of instruction in a variety of subjects; may be taken for graduate credit

440 SEMINAR IN SECONDARY ART EDUCATION (2)**441 METHODS OF TEACHING SECRETARIAL SUBJECTS**

Application of research findings and psychological principles to the teaching of shorthand, office practice, simulation, word processing, and related subjects. Prerequisites: advanced typing and advanced shorthand. (2)

442 METHODS OF TEACHING GENERAL BUSINESS SUBJECTS

Application of research findings and psychological principles to the teaching of general business, consumer economics, economics, business law, business mathematics, and business communications subjects. Prerequisites: ECON 150, BA 281, EDUC 341, 342. (2)

443 CHEMISTRY IN THE SECONDARY SCHOOL (2)**444 ENGLISH IN THE SECONDARY SCHOOL**

Theory and techniques of English instruction; curriculum, methods, resources; classroom management. (2)

445 METHODS IN TEACHING FOREIGN LANGUAGES

Theory and techniques of foreign language teaching; special problems in the student's major language, emphasis on audiolingual techniques. G (2)

446 MATHEMATICS IN THE SECONDARY SCHOOL (2)

447 SCIENCE IN THE SECONDARY SCHOOL (2)**448 SOCIAL STUDIES IN THE SECONDARY SCHOOL (2)****449 COMPUTER SCIENCE IN THE SECONDARY SCHOOL (2)****451 ADMINISTRATION OF THE SCHOOL LIBRARY**

Library organization and administration in the elementary and secondary schools. G (2)

452 BASIC REFERENCE MATERIALS

Those services of a school librarian related to the preservation of all materials which form the sources of reference. G (2)

453 PROCESSING SCHOOL LIBRARY MATERIALS

Classification, cataloging, and technical processing of materials. G (2)

454 SELECTION OF LEARNING RESOURCE MATERIALS

Criteria, professional literature, and techniques of evaluation of library materials (print and non-print); the librarian's responsibility to faculty, students, and the general public. G (2)

455 INSTRUCTIONAL MATERIALS

Audio and visual materials and aids, their use, organization, and administration. G (2)

456 STORYTELLING

A combination of discovery and practicum in the art of storytelling. Investigates the values and background of storytelling, the various types and forms of stories, techniques of choosing and of telling stories. Some off-campus practice. Demonstrations and joint storytelling by and with instructor. (4)

457 PREPARATION AND UTILIZATION OF MEDIA

Production of a variety of instructional materials including slide-tape, black and white photography, basic darkroom techniques, video and computer graphics. G (3 or 4)

465 STUDENT TEACHING—SECONDARY (SINGLE)

Teaching in the public schools under the direction and supervision of classroom and university teachers. Prerequisites: 251, 425, and EPSY 368. 2.50 GPA. May be taken concurrently with 467. (10)

466 STUDENT TEACHING—SECONDARY (DUAL)

Designed for persons who do dual student teaching. Ten weeks of teaching in the public schools under the direction and supervision of classroom and university teachers. Prerequisites: EDUC 251, 425, and EPSY 368. 2.50 GPA. May be taken concurrently with 467. (8)

467 EVALUATION

Evaluation of school experiences; problems in connection with development, organization, and administration of tests (standardized and teacher-made). Required of fifth-year students. Prerequisite: student teaching or teaching experience; EDUC 251, 253, EPSY 368. May be taken concurrently with student teaching. G (2)

473 PARENT-TEACHER RELATIONSHIPS

Issues and skills important in conferencing and parent-teacher relationships. Emphasis on effective communication skills. Special education majors and teachers examine relevant placement processes and parent needs. (2)

479 SPECIAL TECHNIQUES IN READING

Individual diagnostic assessment of reading problems using both formal and informal testing techniques. Special instructional methods for remediation for children with reading difficulties. Practicum required. Prerequisite: 325 or equivalent. (4)

483 PRIMARY READING

Materials and methods of the primary reading program and its relation to other activities. Prerequisite: teaching experience or concurrently with student teaching. G (2)

485 THE GIFTED CHILD

A study of the gifted child, characteristics and problems, and school procedures designed to further development. G (2)

488 READING CENTER WORKSHOP

Clinical study of reading problems and suggested corrective measures; to be taken concurrently with 489. Prerequisite: teaching experience. S G (2)

489 DIRECTED TEACHING IN READING CENTERS

Directed observation and teaching in summer remedial classes in public schools; to be taken concurrently with 488. Prerequisite: teaching experience. S G (4)

496 LABORATORY WORKSHOP

Practical course using elementary-age children in a classroom situation working out specific problems; provision will be made for some active participation of the university students. Prerequisite: conference with the instructor or the dean of the School of Education. G

497 SPECIAL PROJECT

Individual study and research on educational problems or additional laboratory experience in public school classrooms. Prerequisite: consent of the dean. G (1-4)

501 WORKSHOPS

Graduate workshops in special fields for varying lengths of time. (1-4)

515 PROFESSIONAL SEMINAR: CONTINUING LEVEL, TEACHERS

The preparation and sharing of selected topics related to the minimum generic standards needs of the individual participants. Required for the continuing level certification of teachers. (2)

516 TEACHER SUPERVISION

Identification and development of supervisory skills for teachers who work with other adults in the classroom. (1)

525 CURRENT PRACTICES AND ISSUES IN READING

To examine current practices and issues in the field of reading as described through educational research. The research findings will be applied to current classroom practices. Students will be encouraged to pursue specific areas of interest within the broad area of reading instruction. Prerequisite: 325 or equivalent and teaching experience. (2-4)

527 PSYCHOLOGY OF READING

Principles of reading, perception, word recognition, concept development, and meaning in reading will be explored. The psychological and physiological aspects of the reading act will be examined in relationship to successful reading achievement. Prerequisite: 325 or equivalent and teaching experience. (2)

544 RESEARCH AND PROGRAM EVALUATION

Knowledge of student and class evaluation techniques; the ability to select and interpret tests; knowledge of research design; the ability to interpret educational research; the ability to identify, locate, and acquire topical research and related literature; and the ability to use the results of research or evaluation to propose program changes. (2)

545 METHODS AND TECHNIQUES OF RESEARCH

Seminar in research methods and techniques in education with emphasis on designing a research project in the student's area of interest. Required for M.A. Prerequisite: consultation with student's adviser and admission to the graduate program. (2)

550 SCHOOL FINANCE

Local, state and federal contributors to school finance, its philosophy and development; the development and administration of a school budget. (2)

551 EDUCATIONAL LAW

Study of contemporary federal, state, and local statutes, regulations, and case law and their application to public and private schools (K-12). (2)

E

School of Education

552 EDUCATIONAL ADMINISTRATION

Administration and supervision of school personnel, facilities, and programs; with emphasis on the human relationships in that setting. Prerequisite: teaching experience or consent of the dean. (3)

554 SEMINAR IN EDUCATIONAL ADMINISTRATION

The preparation and sharing of selected presentations related to needs of individual participants. Required for continuing certification of principals and program administrators. Registration must take place in the fall semester and participation will be continuous for the academic year. (2)

555 ADMINISTRATION AND SUPERVISION WORKSHOP

Projects determined by the class; typical projects include curriculum planning and adjustment, public relations programs, personnel employment and in-service training; financing building and educational programs. Prerequisite: one course in administration or supervision. (2)

556 SECONDARY AND MIDDLE SCHOOL CURRICULUM

A variety of facets of secondary and middle school programs: finance, curriculum, discipline, evaluation, classroom management, the basic education bill, legislative changes, and special education. Development of secondary and middle schools from their beginnings to the present. Critical issues in the education scene today. (3)

558 INTERNSHIP IN EDUCATIONAL ADMINISTRATION

Internship in educational administration planned with the School of Education in cooperation with selected educational administrators. Prerequisite: course work in educational administration and admission to the graduate program. (2-4)

571 HISTORY AND PHILOSOPHY OF HIGHER EDUCATION

Historical perspective and current status; development of functions and structures; issues in curriculum; philosophy of administration; case studies. (4)

573 STUDENT PERSONNEL WORK IN HIGHER EDUCATION

Student personnel services in higher education; use of personnel data; co-curricular activities; student welfare; contemporary trends in counseling problems related to student life. (4)

579 DIAGNOSIS AND REMEDIATION IN READING

Causative factors relating to reading difficulties; some opportunity to apply remediation techniques; open to those with teaching experience. (2)

580 CURRICULUM DEVELOPMENT

Types of curriculum organizations, programs and techniques of curriculum development. (2)

585 COMPARATIVE EDUCATION

Comparison and investigation of certain materials and cultural systems of education throughout the world. (2)

586 SOCIOLOGY OF EDUCATION

The nature and functioning of the educational system will be examined from a sociological perspective. Topics include: education, stratification, and social change; the school as a complex organization; the school as a social institution; and the sociology of learning. (4)

587 HISTORY OF EDUCATION

Great educators, educational theories, and educational systems from antiquity to the present. (2)

589 PHILOSOPHY OF EDUCATION

Philosophical and theoretical foundations of education. (3)

590 GRADUATE SEMINAR

A workshop for all Master of Arts candidates in the School of Education which provides a forum for exchange of research ideas and problems; candidates should register for this seminar for assistance in fulfilling requirement. No credit is given, nor is tuition assessed. (0)

597 INDEPENDENT STUDY

Projects of varying length related to educational issues or concerns of the individual participant and approved by an appropriate faculty member and the dean. (1-4)

598 STUDIES IN EDUCATION

A research paper or project on an educational issue selected jointly by the student and the graduate adviser. It will be reviewed by the student's graduate committee. (2)

599 THESIS

For Master of Arts candidates who elect to write a thesis. The thesis problem will be chosen from the candidate's major field of concentration and must be approved by the candidate's graduate adviser. (3-4)

EDUCATIONAL PSYCHOLOGY**368 EDUCATIONAL PSYCHOLOGY**

Principles and research in human learning and their implications for curriculum and instruction. Prerequisite: EDUC 251, 253. (4)

501 WORKSHOPS

Graduate workshops in special fields for varying lengths of time (1-4)

512 GROUP PROCESS AND THE INDIVIDUAL

A human interaction laboratory to facilitate the exploration of the self concept through the mechanisms of interpersonal interactions and feedback. Emphasis placed on the acquisition of skill in self-exploration, role identification, and climate-making. G (2)

535 FOUNDATIONS OF GUIDANCE

The focus is on developing an understanding of the services and processes available to assist individuals in making plans and decisions according to their own life pattern. G (4)

536 AFFECTIVE CLASSROOM TECHNIQUES

This course will explore various techniques designed to facilitate understanding of self and others; methods for working with students. Prerequisite: student teaching or graduate status. Laboratory experience as arranged. G (2)

537 REALITY DISCUSSION TECHNIQUES

The use of Reality Therapy in a helping relationship—schools, social agencies, mental health clinics, or university residences. Laboratory experience as arranged. Prerequisite: 553. G (2)

551 REFLECTIVE SKILLS PRACTICUM

A mini-practicum in the techniques of counseling; enrollment limited to students beginning the master's degree program in Counseling and Guidance, and is a prerequisite to admission on regular status to the Counseling and Guidance master's program. The practicum makes use of counseling sessions with clients utilizing verbal and non-verbal attending behavior. (1)

552 SOCIAL LEARNING-MODELING PRACTICUM

A mini-practicum in the theory and techniques of social learning and role modeling. Prerequisite: 551. (1)

553 REALITY THERAPY PRACTICUM

A mini-practicum in counseling using the theory and techniques of reality therapy. Prerequisites: 552 and 561. (1)

554 GESTALT THERAPY PRACTICUM

A mini-practicum in counseling using the theory and techniques of Gestalt therapy. Prerequisites: 553 and 561. (1)

561 BASIC RELATIONSHIPS IN COUNSELING

A study of the theory, process, techniques, and characteristics of the counseling relationship. A basic course for M.A. students in the Counseling and Guidance program. (4)

563 PRACTICUM IN GROUP PROCESS AND LEADERSHIP

A human interaction laboratory which explores interpersonal operations in groups and facilitates the development of self-insight; emphasis on leadership and development of skill in diagnosing individual, group, and organizational behavior patterns and influences. Students will co-facilitate a laboratory group. Prerequisite: 512. (2)

565 ADVANCED HUMAN DEVELOPMENT

A comparative study of human development will be made at various levels of development through observational assessments using non-standardized instruments: e.g., sociometric scales, autobiographies, interviews, interaction analysis and other appropriate measurements. A practicum (a minimum of one hour each week) is required in a school or appropriate agency. Pre-requisite: Fifth year or graduate status. (4)

569 CAREER GUIDANCE

A study of careers, theories of choice, and guidance techniques. (4)

570 FIELDWORK IN COUNSELING AND GUIDANCE

A culminating practicum of field experience in schools or agencies using theory, skills, and techniques previously learned. A variety of work experiences with both individuals and groups. Students incorporate consultation experience following the Adlerian model. (4)

575 MENTAL HEALTH

Basic mental health principles as related to interpersonal relationships. Focus on self-understanding. Laboratory experiences as arranged. (4)

578 BEHAVIORAL PROBLEMS

Adlerian concepts provide basis for observation, motivation, modification, and life style assessment. Skills for assisting people in developing responsibility for their own behavior is focused. Laboratory experience as arranged. (4)

583 CURRENT ISSUES IN EXCEPTIONALITY

This course will concentrate on the characteristics of exceptional students and the counselor's role in dealing with a variety of problems they may have. The following areas will be studied: learning disabilities, emotional problems, physical problems, and the gifted student. Given every other interim. G(2-4)

597 INDEPENDENT STUDY

Projects of varying length related to educational issues or concerns of the individual participant and approved by an appropriate faculty member and the dean. (1-4)

598 STUDIES IN EDUCATION

A research paper or project on an educational issue selected jointly by the student and the graduate adviser. It will be reviewed by the student's graduate committee. (2)

599 THESIS

The thesis problem will be chosen from the candidate's major field of concentration and must be approved by the candidate's graduate committee. Candidates are expected to defend their thesis in a final oral examination conducted by their committee. (3-4)

SPECIAL EDUCATION**190 EXCEPTIONAL CHILDREN AND ADULTS**

Introduction to the needs and characteristics of exceptional children and adults. Federal and state legislation, current issues, and practices of delivering services to handicapped individuals. Designed as an overview of the field for undergraduate students in special education, general education, nursing, counseling, and other related fields. (3)

191 OBSERVATION IN SPECIAL EDUCATION

Observation in special education settings in the local area. May be taken concurrently with SPED 190. No prerequisite. (1)

290 INTRODUCTION TO LEARNING DISABILITIES

Overview of the field of learning disabilities, including concepts, assessment, and instructional practices. Prerequisite: EDUC 251 or EDUC 253 or consent of instructor. (3)

296 INTRODUCTION TO HEALTH AND PHYSICAL IMPAIRMENTS

Study of anatomical, physiological, social, and educational problems of those with orthopedic disabilities or health problems. (2)

NOTE: PREREQUISITES FOR 300/400 LEVEL SPECIAL EDUCATION: EDUC 251 or 253 or consent of instructor. Students not majoring in education may be excused from this requirement.

390 INTRODUCTION TO DEVELOPMENTAL DISABILITIES

A study of the emotional, social, physical, and mental characteristics of the developmentally disabled. Methods of classifying, diagnosing, and teaching mentally retarded children and adults from medical, psychological, social, and educational points of view. (3)

393 INTRODUCTION TO BEHAVIOR DISORDERS

Current problems and issues as they apply to the education of children with behavior disorders. Includes use of behavior modification and classroom management techniques. (3)

395 INTRODUCTION TO LANGUAGE DEVELOPMENT AND DISORDERS

Introduction to language disorders, assessment, and intervention. Focus on theories of language development and normal language acquisition. (2)

398 ASSESSMENT IN SPECIAL AND REMEDIAL EDUCATION

Study of a variety of informal and formal assessment tests and procedures. Curriculum based assessments, systematic classroom observation, norm-referenced tests, task analysis, and criterion referenced tests and procedures are examined. Includes the role of assessment in eligibility and program planning. (3)

399 PRACTICUM IN SPECIAL EDUCATION

Experience with special education children or adults in a supervised setting. 1 hour credit given after successful completion of 35 clock hours. Prerequisite: SPED 290 or consent of instructor. (1-4)

403 PARENT/PROFESSIONAL PARTNERSHIP IN SPECIAL EDUCATION

Discussion of the techniques for communicating effectively with parents of children with special needs. (2)

405 CURRICULUM FOR EXCEPTIONAL STUDENTS IN THE ELEMENTARY SCHOOL

Focus on teaching academic, social, and adaptive behavior skills to mild and moderately handicapped children. Includes writing individual education plans, data based instruction, direct instruction, task analysis, and learning sequences. Prerequisite: General Methods, SPED 290, or consent of instructor. (3)

406 CURRICULUM FOR EXCEPTIONAL STUDENTS IN THE SECONDARY SCHOOL

Curriculum content and planning, including academics, life adjustments, and vocational instruction for mild to moderately handicapped adolescents and adults. Includes writing individualized educational plans (IEP) and behavioral objectives. Prerequisite: General Methods, SPED 290, or consent of instructor. (3)

438 STUDENT TEACHING IN ELEMENTARY SPECIAL EDUCATION

Teaching in special education classrooms of public schools under the direction and supervision of classroom and university teachers. 8 weeks. Prerequisite: consent of instructor. (6)

439 STUDENT TEACHING IN SECONDARY SPECIAL EDUCATION

Teaching in special education classrooms of public schools under the direction and supervision of classroom and university teachers. 8 weeks. Prerequisite: consent of instructor. (6)

475 SUPERVISING PARA-PROFESSIONALS AND VOLUNTEERS

Emphasis on the effective management of para-professionals and volunteers in the classroom. (1)

479 SPECIAL TECHNIQUES IN READING

Individual diagnostic assessment of reading problems using both formal and informal testing techniques. Special instructional methods for remediation. Practicum required. Prerequisite: EDUC 325 or equivalent. (4)

485 THE GIFTED CHILD

A study of the gifted child, characteristics and problems, and school procedures designed to further development. (2)

E

Education

490 EARLY LEARNING EXPERIENCES FOR THE HANDICAPPED CHILD

Diagnostic and remedial techniques used in early childhood education with handicapped children. Review of normal and atypical child development and their implications for the learning process. (2)

491 PROGRAMMING EARLY CHILDHOOD EDUCATION FOR THE HANDICAPPED

In-depth study in the administration of early childhood programs with emphasis on remediation techniques and interdisciplinary approaches. Prerequisite: SPED 490. (2)

494 COMPUTER APPLICATION FOR THE HANDICAPPED

An introduction into the application of computer technology with handicapped students. Focus on current issues and uses of computer technology including computer assisted instruction, software evaluation, pupil and data management, and computer aids for the handicapped. (2)

499 SEMINAR IN SPECIAL EDUCATION

Current topics on the teaching of handicapped children and adults. (2)

501 WORKSHOPS IN SPECIAL EDUCATION

Graduate workshops in special education for varying lengths of time. (1-4)

520 TEACHING HANDICAPPED CHILDREN IN THE REGULAR CLASSROOM

An examination of teaching strategies appropriate for exceptional children in regular classrooms. Emphasis on the needs of exceptional children, program modification, and classroom management. Designed for regular educators. (2)

521 TEACHING HANDICAPPED ADOLESCENTS IN THE REGULAR CLASSROOM

An examination of teaching strategies appropriate for exceptional adolescents in regular classrooms. Emphasis on the needs of exceptional adolescents, program modification, and classroom management. Designed for regular educators. (2)

530 CURRENT ISSUES IN ASSESSMENT

Current issues in the use of assessment information for making educational decisions. Prerequisite: SPED 398 or consent of instructor. (2)

531 SEVERELY AND PROFOUNDLY HANDICAPPED IN SCHOOL AND SOCIETY

Introduction to the physical, social, and educational environments of the severely and profoundly handicapped and the consequent implications for the education and training process. Interdisciplinary concepts, terminology, and instructional models will be examined. (2)

532 EDUCATION AND TRAINING OF THE SEVERELY AND PROFOUNDLY HANDICAPPED

In-depth study of educational prescription and programming for the severely and profoundly handicapped. Emphasis on teaching strategies and curriculum modification as they apply to this population. (2)

533 CURRENT ISSUES IN DEVELOPMENTAL DISABILITIES

Current issues related to the education of children and adults with developmental disabilities. Prerequisite: SPED 390 or consent of instructor. (2)

534 CURRENT ISSUES IN BEHAVIOR DISORDERS

Current issues related to the education of children and youth with behavior disorders. Prerequisite: SPED 393 or consent of instructor. (2)

535 CURRENT ISSUES IN LEARNING DISABILITIES

Current issues related to the education of children and adults with learning disabilities. Prerequisite: SPED 290 or consent of instructor. (2)

537 CURRENT ISSUES IN LANGUAGE DISORDERS

Current issues and approaches in assessing and remediating children with language disorders. Prerequisite: SPED 395 or consent of instructor. (2)

538 CURRENT ISSUES IN EARLY CHILDHOOD HANDICAPPED

Current issues related to the education of pre-school handicapped children. Prerequisite: SPED 490 or consent of instructor. (2)

570 APPLIED BEHAVIOR ANALYSIS FOR TEACHERS

A survey of the principles and techniques of applied behavior analysis. Includes behavior modification, self-control techniques, cognitive behavior modification, and research design. (2)

575 INTRODUCTION TO THE CONSULTANT TEACHER IN SPECIAL EDUCATION

Introduction to the principles and practices of a consulting teacher model in special education. Focus on instructional delivery appropriate for providing direct and indirect services to handicapped children in mainstream classrooms. Includes a one hour practicum. (3)

576 COMMUNICATION SKILLS FOR THE CONSULTING TEACHER

Emphasis on the interpersonal skills necessary for the consulting teacher in special education. Exploration of variables involved in developing cooperation between consultants and regular classroom teachers. Includes a one hour practicum. (3)

588 ADMINISTRATION OF SPECIAL EDUCATION PROGRAMS

Investigation of existing special education administrative units, pupil placement procedures, student staffings, program reimbursement procedures, and federal funding models. (3)

590 RESEARCH IN EARLY CHILDHOOD/HANDICAPPED

A combination of organized coursework and independent study in early childhood/handicapped. Specialized study in a selected topic. Prerequisite: SPED 536 or consent of instructor. (1)

591 RESEARCH IN SPECIAL EDUCATION

Review of current research on selected topics in special education. (1)

592 RESEARCH IN LEARNING DISABILITIES

A combination of organized coursework and independent study in learning disabilities. Specialized study in a selected topic. Prerequisite: SPED 535 or permission of instructor. (1)

593 RESEARCH IN BEHAVIOR DISORDERS

A combination of organized coursework and independent study in behavior disorders. Specialized study in a selected topic. Prerequisite: SPED 534 or permission of instructor. (1)

594 RESEARCH IN DEVELOPMENTAL DISABILITIES

A combination of organized coursework and independent study in developmental disabilities. Specialized study in a selected topic. Prerequisite: SPED 533 or permission of instructor. (1)

595 SPECIAL EDUCATION: INTERNSHIP

Internship in special education settings under the direction and supervision of classroom and university faculty. Prerequisite: Teaching credential and consent of instructor. (4)

597 INDEPENDENT STUDY

Projects of varying length related to educational issues or concerns of the individual participant and approved by an appropriate faculty member and the dean. (1-4)

598 STUDIES IN EDUCATION

A research paper or project on an educational issue selected jointly by the student and the graduate adviser. It will be reviewed by the student's graduate committee. (2)

599 THESIS

The thesis problem will be chosen from the candidate's major field of concentration and must be approved by the candidate's graduate committee. Candidates are expected to defend their thesis in a final oral examination conducted by their committee. (3-4)

Engineering

E

Engineering

Engineers are often called the modern tool builders. The 'tools' built by today's engineers are not the simple lever or ax, but appear in the shape of an airplane (transportation 'tool'), a television (communication 'tool'), or a computer program (information handling 'tool'). Engineers investigate all aspects of life in today's society and attempt to create tools that, in some respect, improve the quality of life. While scientists explain what *is*, engineers create what *never was*.

PLU offers a combination of programs in engineering. The programs provide an education of sufficiently fundamental nature to permit rapid adaptation to new technical programs and opportunities and sufficiently broad liberal scope to provide awareness of the social responsibilities implicit in engineering.

Degrees are offered in computer engineering and engineering physics. Dual degree 3-2 engineering programs are also maintained with the School of Engineering and Applied Science of Columbia University and Stanford University; concentrations in electrical and mechanical engineering are available in these programs. In addition, an electrical engineering minor is offered, primarily intended for majors in physics or computer science.

The computer engineering program is administered jointly by the Department of Physics and Engineering and the Department of Mathematics and Computer Science through the Computer Engineering Committee. Engineering physics and the 3-2 programs are administered by the Department of Physics and Engineering.

FACULTY

From the Department of Physics and Engineering: **Adams, Chair; Bowers, Greenwood, Gutmann, Hauelsen, Nornes, Tang, Zernel.**

A committee of faculty administers the computer engineering program: **Gutmann, Chair; Adams, Bandy (advisory), Edison, J. Herzog (advisory), Spillman.** For additional faculty refer to the Department of Mathematics and Computer Science.

Students intending to major in a technical area such as engineering are advised early to examine the interrelationships between the career fields of engineering, computer science, and physics. Scientists have as their prime objective increased knowledge of nature. Both the engineer and the scientist are thoroughly educated in the mathematical, physical, and computational sciences, but the scientist primarily uses this knowledge to acquire new knowledge, whereas the engineer applies the knowledge to design and develop usable devices, structures, and processes. Engineers are called upon for all aspects of a project: conceptualization, design, study, construction, and maintenance. Not only do engineers participate as the technical reference for these activities, they additionally assume responsibilities for project economics and management and for educating and communicating with others regarding the project. For these reasons PLU is uniquely situated to educate engineers: it combines strong and growing selections of technical courses with the liberal PLU core curriculum.

COMPUTER ENGINEERING

Computer engineering combines courses from computer science and from traditional engineering (particularly electrical engineering). It is a relatively new branch of engineering, but it is growing rapidly. In terms of the number of graduates produced, it is already the fifth largest engineering degree program nationally.

Students will receive a solid background in computer science, while developing an intimate knowledge of how software interacts with computer hardware. A detailed understanding of the hardware involved is also included in the course of instruction.

B.S. MAJOR IN COMPUTER ENGINEERING: 16 semester hours: Mathematics 151, 152, 253, and either 331 or 335; 10 semester hours: Physics 147, 148, 153, 154; 17 semester hours from Engineering 161, 162, 271, 341, 347, 352, and 362 (or Computer Science 280); 12 semester hours from Computer Science 144, 270, 380; 13 semester hours: technical electives from Engineering 354, 491, Mathematics 345, 346, Physics 331, 332, Computer Science 344, 348, 355, 375, 385, 386, 467, 470, 480, 488, 491, 495. Technical electives must include four hours from Engineering 354 or Mathematics 345 and 346.

A typical computer engineering program is as follows:

Freshman	Physics 147, 148, 153, 154 Engineering 161, 162 Math 151, 152 Computer Science 144
Sophomore	Engineering 271, 352, 354 Mathematics 253 Computer Science 270, 280
Junior	Engineering 341, 347 Computer Science 380 Technical Elective I Mathematics 335
Senior	Technical Elective II, III

The following computer science courses are applicable toward this degree:

CSCI 144	Introduction to Computer Science
CSCI 270	Data Structures
CSCI 280	Digital Logic
CSCI 344	Operating Systems
CSCI 348	Modeling and Simulation
CSCI 355	Compilers
CSCI 375	Design and Analysis of Algorithms
CSCI 380	Assembly Language and Computer Organization
CSCI 385	Computer Architecture
CSCI 386	Distributed Systems
CSCI 430	Artificial Intelligence
CSCI 467	Data Base Management
CSCI 470	Computer Aided Design of Digital Systems
CSCI 480	Microprocessors
CSCI 488	VLSI Design
CSCI 490	Seminar in Computer Science
CSCI 491	Independent Study
CSCI 495	Computer Science Research

E

Engineering

3-2 ENGINEERING

A smaller university like PLU is uniquely suited to foster a student's personal development while making a firm but not premature commitment to professional and career goals. Such a setting also helps a student to clarify the social context in which engineers function. A major school of engineering like Columbia or Stanford emphasizes advanced studies, research, and interaction with industry. Thus, PLU's 3-2 program gives students the best of two settings—breadth at PLU and depth in an engineering specialty at Columbia or Stanford. Students have also been involved in 3-2 programs at state universities in the Pacific Northwest such as the University of Washington, Washington State University, and Oregon State University.

During the first three years of this program students must complete 1) all general university core requirements, 2) two interims, 3) all basic science and mathematics requirements, and 4) seven courses in engineering. Once a clear sense of direction within an engineering specialty is gained, a recommendation to Columbia or Stanford may be granted. Admission to Columbia is automatic upon recommendation; admission to Stanford, however, is competitive. Details of transfer admission are made available in the fall of the third year. Normally two additional years are necessary to finish engineering specialty courses at Columbia or Stanford.

If the student's specialty is other than chemical engineering, both Engineering 231 *Statics* and 271 *Electrical Circuits* should be taken. These should be followed by 232 *Mechanics of Solids* for students in the mechanical engineering concentration or 341 and 347 *Introduction to Electronics* (and laboratory) for those with interest in electrical engineering. The natural sciences core requirement is automatically satisfied by engineering students as is the second part of option II of the foreign language requirement in the College of Arts and Sciences. Unless they automatically qualify for fulfilling option I of the foreign language requirement on the basis of their high school work, students are encouraged to satisfy this requirement by means of option II. Hours freed by satisfaction of the foreign language requirement on the basis of high school work may profitably be used for taking another core requirement (e.g., arts/literature or social sciences), for taking mathematics beyond calculus, or for taking additional courses in computer science.

Particular attention should be given to the Integrated Studies Program, known as Core II, and to its applicability for engineers in our technological society.

Students with strong preparation (A's and B's) in high school mathematics at least through trigonometry as well as in science through physics and with SAT math scores no lower than 550 should schedule their classes as indicated below. Courses for students interested in chemical engineering in the 3-2 program are listed separately below. Those with less adequate preparation in mathematics and sciences, particularly mathematics, should consider strengthening their background with community college work in the summer before enrollment at PLU and should postpone the physics sequence until their second year. An appropriate first year schedule then includes: Fall—EGR 161 *Introduction to Engineering I*, MATH 151 *Calculus*, CHEM 115 *Chemistry*, a general university core requirement, and PE 100 or a PE activity course; Spring—EGR 162 *Introduction to Engineering II*, MATH 152 *Calculus*, CSCI 110 *BASIC*, a core requirement, and a physical education activity course (or PE 100).

3-2 DUAL DEGREE: Dual B.S. degrees from PLU and Columbia, Stanford or another ABET accredited Engineering School: three full-time years at PLU plus 2 additional full-time years at Columbia or Stanford. PLU B.S. in Engineering Science is granted after the first year at Columbia or Stanford; a B.S. in Engineering Specialty (E.E., M.E., etc.) is granted by Columbia or Stanford at the end of the fifth year.

REQUIRED COURSES (NON-CHEMICAL ENGINEERING SPECIALTY): Physics 147, 148, 153, 154, 223; Engineering 161, 162, 354, 382 plus three courses of engineering specialty from Electrical—271, 341/347, 352, 362 and Mechanical—231, 232, 351, 442. Required supporting courses: Math 151, 152, 253; Computer Science 144 or 240; Chemistry 115. Chemistry 116 is recommended, especially for those students intending to attend Columbia.

A typical 3-2 engineering science program is as follows:

Freshman	Engineering 161, 162 Physics 147, 148, 153, 154 Math 151, 152
Sophomore	Engineering 231, 232 or Engineering 271, 341, 347 Engineering 354 Physics 223 Math 253 Computer Science 144 or 240

Junior	Engineering 271 or Engineering 231 Engineering 382 Chemistry 115, 116
--------	---

REQUIRED COURSES FOR CHEMICAL ENGINEERING SPECIALTY: The following program is intended for those students wishing to specialize in chemical engineering.

Freshman	Engineering 161, 162 Physics 147, 148, 153, 154 Chemistry 115, 116 Math 151, 152
Sophomore	Engineering 231, 382 Math 253 Chemistry 331, 333, 332
Junior	Engineering 354 Chemistry 341, 343, 456

Students are encouraged to take economics for one of the core courses, and if other open hours are available, Analytical Chemistry 321 should be considered. Engineering 351, Thermodynamics, can be taken in place of Physical Chemistry 341.

If the student should decide to continue on at PLU for the fourth year, then a B.S. in Chemistry may be obtained with American Chemical Society certification.

ELECTRICAL ENGINEERING MINOR: 20 semester hours: Engineering 161, 162, 271, 341, 347, 352, 354, and 362. Required supporting courses: Introductory sequence in Physics (2 semesters) and Calculus (3 semesters) and Computer Science 144 and 280.

ENGINEERING PHYSICS

The Department of Physics and Engineering offers a four-year engineering degree for students interested in an engineering related program that includes a substantial amount of basic science. It is more applied than a physics degree while at the same time more theoretical than the usual engineering degree. The B.S. degree in engineering physics prepares students for employment in many diverse industries or directly for graduate study in nearly all fields of engineering. Strength may be built in electrical or mechanical engineering sciences by careful selection of upper division courses. Students are urged to develop a minor in either mathematics or computer science, particularly if aspiration to graduate study in engineering is part of their career plan. A minor in business administration is particularly appropriate for working in industry immediately after graduation. For maximum flexibility in upper division courses, students aspiring to the engineering physics degree should schedule their first two years identically to those for dual degree 3-2 engineering. Junior and senior year schedules are determined by upper division requirements and by students' objectives.

B.S. DEGREE IN ENGINEERING PHYSICS: 47-48 semester hours: Physics 147, 148, 153, 154, 223, 331, 356, 421, 422; Engineering 161, 162, 354, 382 plus four courses of engineering specialty, one of which must be an upper division course, from Electrical—271, 341, 347, 352, 362 and Mechanical—231, 232, 351, 442. Physics 336 may be substituted for Engineering 232. Chemistry 341 may be substituted for Engineering 351. Required supporting courses: Math 151, 152, 253; Chemistry 115; Computer Science 240.

A typical engineering physics program is as follows:

Freshman	Physics 147, 148, 153, 154 Engineering 161, 162 Math 151, 152
Sophomore	Engineering 231, 232 or Engineering 271, 341, 347 Engineering 354 Physics 223 Math 253
Junior	Engineering 351, 271 or Engineering 352, 231 Engineering 382 Physics 356 Computer Science 240
Senior	Physics 331, 421, 422 Chemistry 115

COURSE OFFERINGS— ENGINEERING

161, 162 INTRODUCTION TO ENGINEERING

An introduction to the engineering profession and development of basic skills important to the profession, including problem solving, engineering design, and graphics. 161 offered I; 162 offered II (2,2).

231 STATICS

Fundamental engineering statics using vector algebra; conditions for equilibrium, resultant force systems, centroid and center of gravity, methods of virtual work, friction. Prerequisite: PHYS 153. I (2)

232 MECHANICS OF SOLIDS

Mechanics of deformable solid bodies; deformation, stress, constitutive equations for elastic materials, thermoelasticity, tension, flexure, torsion, stability of equilibrium. Prerequisite: EGR 231. II (4)

271 INTRODUCTION TO ELECTRICAL CIRCUITS

Introduction to the fundamental concepts of DC circuits including Ohm's and Kirchoff's Laws and the function of inductive and capacitive elements. Prerequisite: PHYS 154. I (2)

341 INTRODUCTION TO ELECTRONICS

An introduction to the use and properties of semiconductors as related to electronic devices; diodes, transistors, FET's, operational amplifiers. Concurrent registration in 347 is required. Prerequisite: 271. II (2)

347 INTRODUCTION TO ELECTRONICS LABORATORY

Basic and intermediate laboratory exercises performed in conjunction with Introduction to Electronics. Concurrent registration in 341 is required. II (1)

351 THERMODYNAMICS

Concepts and equations of classical, macroscopic thermodynamics; thermodynamic cycles, flow and non-flow systems, properties and mathematical relations of pure substances, mixtures and solutions, phase transition and chemical reactions; an elementary treatment of statistical thermodynamics. Prerequisite: PHYS 154. I (4)

352 CIRCUITS I

Theory of AC circuits, amplifiers, and oscillators. Time domain transient response and sinusoidal frequency response. Prerequisite: 272. I (4)

354 ENGINEERING ANALYSIS

Introduction to vector and tensor calculus, functions of a complex variable, Laplace and Fourier transforms, and undetermined multipliers. Comprehensive and illustrative examples from the fields of electromagnetism, waves, transport, vibrations, and mechanics. May be taken as a package with PHYS 356. Prerequisite: MATH 253. II (4)

362 DIGITAL ELECTRONICS

Analysis of digital design techniques, including a review of combinational logic, sequential logic, flip flops, registers, counters, and timing circuits. II (4)

382 INTRODUCTION TO MATERIALS SCIENCE

Fundamentals of engineering materials including metals, polymers, ceramics, and semiconductors. The course focuses on how the useful properties of these materials can be altered by changing their microstructure. Prerequisites: PHYS 154, CHEM 115. II (4)

442 TRANSPORT: MOMENTUM, ENERGY, AND MASS

Unifying concepts of the transport of momentum, energy, and mass in planar, cylindrical and spherical geometries; mathematical aspects of fluid mechanics; boundary layers; transport coefficients-viscosity, thermal conductivity, mass diffusivity; an elementary treatment of turbulent flow. Prerequisite: 351 or consent of instructor. II (4)

491 INDEPENDENT STUDY: ELECTRICAL ENGINEERING SCIENCE

Selected topics of mutual interest to student and instructor. Enrollment is limited and open only to students who have discussed a proposed topic or course of study in considerable depth with instructor. Prerequisite: mutual interest (1-4)

492 INDEPENDENT STUDY: MECHANICAL ENGINEERING SCIENCE

See 491.

E

English

English

English studies offer excellent preparation for any future requiring analytical thinking, skill in writing, discernment in reading, an appreciation of human experience and aesthetic values, and the processes of critical and creative expression. Business (especially management), law, education, and publishing are four areas where our graduates frequently make their careers.

Our program offers concentrations in literature, writing, and publishing. The English Department also supports the London Program and often offers an interim study tour to the British Isles.

FACULTY

Eyler, Chair; M. Benton, P. Benton, Bergman, Campbell, Jansen Jaech, Jenseth, G. Johnson, L. Johnson, Jones, Klopsch, D. M. Martin, G. Martin, Rahn, Reigstad, D. Seal. Assisted by Cady, Monroe, Raffle. Distinguished Writers in Residence: Spring 1985—Richard Murphy, Spring 1986—Lesley Hazleton, Spring 1987—Stephen Becker.

BACHELOR OF ARTS MAJOR:

Total Credits required: At least 32 but no more than 40 (of 128) hours in English beyond 101, with an elective emphasis in literature, writing, or publishing and printing arts.

E

English

Required English courses: Surveys 241, 251, 252; at least one course in a historical period (342, 343, 381, 384, 389, 390, 391, 392); at least one course in a major author (382, 383, 440, 451, 452); and 12 hours of electives, excluding interim courses and internships.

Foreign language: At least two years of a foreign language at the university level, or the equivalent (See College of Arts and Sciences Foreign Language Requirement, Option 1.)

Junior Review: During the junior year each major initiates a meeting with a committee of departmental faculty, chosen by student and adviser, to discuss progress, interests, goals, and plans for the remaining semesters in that student's program.

CERTIFICATE IN WRITING: Majors are encouraged to include courses in writing in their program. Those majors who take three writing courses beyond 101 and prepare a portfolio of their work will be awarded a "certificate in writing."

MINOR (EMPHASIS ON LITERATURE): 20 semester hours, beyond 101, excluding courses for interim credit, of which at least 8 hours should be upper division. These courses should include 4 hours in American literature, 4 hours in British literature before 1700, 4 hours in British literature after 1700, and at least 4 additional hours in literature.

MINOR (EMPHASIS ON WRITING): 20 semester hours, beyond 101, excluding courses for interim credit, of which at least 8 hours should be upper division. These courses should include 4 hours in British literature before 1700, 4 hours in American or British literature after 1700, and 12 hours in writing courses drawn from 201, 225, 227, 327, 328, 341, 403, 421, or other approved courses in writing.

MINOR (EMPHASIS ON PUBLISHING AND PRINTING ARTS): 20 semester hours as follows:

1. An 8-hour core of three required courses (321, 322, 331).
2. Three elective courses (12 hours) from two or three of these groups:
WRITING: Approved courses in English (201, 225, 227, 324, 327, 328, 366)
MANAGEMENT: Approved courses in Business Administration (292, 350, 370, 470) or Computer Science (110/210, 144, 220)
DESIGN: Approved courses in Art (326, 370, 396, 426, 470, 496) or English (332, if taken for 4 credit hours) or Communication Arts (380)
3. Approved practical experience (credit or non-credit) in an off-campus internship or with an on-campus publication.

PROSPECTIVE TEACHERS: Students preparing to teach in junior or senior high school may earn either a Bachelor of Arts in English with certification from the School of Education, or a Bachelor of Arts in Education with a teaching major in English. See the School of Education section of this catalog for the additional requirements for certification or the Bachelor of Arts in Education.

COURSE OFFERINGS

AMERICAN LITERATURE

- 241 AMERICAN LITERATURE
 342 TWENTIETH CENTURY AMERICAN POETRY
 343 TWENTIETH CENTURY AMERICAN FICTION AND DRAMA
 345 CANADIAN FICTION
 440 SEMINAR—A MAJOR AMERICAN AUTHOR

BRITISH LITERATURE

- 251 ENGLISH LITERATURE: BEGINNINGS TO 1750
 252 ENGLISH LITERATURE: AFTER 1750
 381 STUDIES IN MEDIEVAL LITERATURE
 382 CHAUCER AND HIS AGE
 383 SHAKESPEARE
 384 ENGLISH RENAISSANCE LITERATURE
 389 RESTORATION AND EIGHTEENTH CENTURY ENGLISH LITERATURE
 390 THE ENGLISH ROMANTIC MOVEMENT
 391 VICTORIAN LITERATURE
 392 TWENTIETH CENTURY BRITISH LITERATURE
 451 SEMINAR—A MAJOR BRITISH AUTHOR BEFORE 1750
 452 SEMINAR—A MAJOR BRITISH AUTHOR SINCE 1750

GENRE AND SPECIAL STUDIES

- 216 POETRY
 217 SHORT STORY
 218 DRAMA
 230 CONTEMPORARY LITERATURE
 231 MASTERPIECES OF EUROPEAN LITERATURE
 363 CHILDREN'S LITERATURE
 364 SPECIAL TOPICS IN CHILDREN'S LITERATURE
 365 FANTASY AND FAIRY TALES
 381 STUDIES IN MEDIEVAL LITERATURE
 491, 492 INDEPENDENT READING AND RESEARCH
 597 GRADUATE RESEARCH

WRITING, LANGUAGE, AND PUBLISHING

- 100 BASIC WRITING SKILLS
 101 COLLEGE ENGLISH
 201 INTERMEDIATE WRITING
 225 AUTOBIOGRAPHICAL WRITING
 227 IMAGINATIVE WRITING I
 321 THE BOOK IN SOCIETY
 322 PUBLISHING PROCEDURES
 324 FREELANCE WRITING
 327 IMAGINATIVE WRITING II
 328 ADVANCED COMPOSITION
 331 THE ART OF THE BOOK I
 332 THE ART OF THE BOOK II
 366 WRITING FOR CHILDREN
 400 LINGUISTICS
 402 HISTORY OF THE ENGLISH LANGUAGE
 403 MODERN ENGLISH GRAMMAR
 421 TUTORIAL IN WRITING

100 BASIC WRITING SKILLS

An intensive review and practice of mechanics, the fundamentals of grammar, and the structure of sentences and paragraphs. Does not count toward fulfillment of general university writing requirement. (2)

101 COLLEGE ENGLISH

Develops a student's powers to read, think, and write effectively. Emphasis on short papers and guided revision. Includes a unit on library research techniques. I II (4)

201 INTERMEDIATE WRITING

Opportunities to practice and develop writing by exploring selected topics from various disciplines. Some emphasis on rewriting—focusing the material and adjusting the style for different audiences. One section may be devoted to autobiographical writing. (Prerequisite: 101 or its equivalent, Advanced Placement, or consent of instructor.) I II (4)

216 POETRY

A study of poems and conventions of poetry from the Greek classics to modern projective verse. Intended to develop the reader's ability to respond with sensitivity and discrimination to a rich variety of poetic forms. I (4)

217 SHORT STORY

Examines the development of short fiction, concentrating on themes and techniques of the genre. Includes stories by American, British, and Continental writers. II (4)

218 DRAMA

A survey of masterpieces from classical Greece to the present, with emphasis on the basic elements of drama (plot, character, language) and on the traditional genres. II (4)

225 AUTOBIOGRAPHICAL WRITING

Reading autobiography and writing parts of one's own, with an emphasis on how writing style and personal identity complement each other. II (4)

227 IMAGINATIVE WRITING I

A beginning workshop in writing poetry and short fiction. Includes a study of techniques and forms to develop critical standards and an understanding of the writing process. (Prerequisite: 101 or its equivalent, Advanced Placement, or consent of instructor.) I (4)

230 CONTEMPORARY LITERATURE

Emphasis on American fiction since 1950. I (4)

231 MASTERPIECES OF EUROPEAN LITERATURE

Representative works of the literature of Western Europe, especially classical, medieval, and Renaissance. II (4)

241 AMERICAN LITERATURE

The continuity of themes and forms in American prose, poetry, and fiction from colonization to the First World War. Emphasis on major works of the 19th century. II (4)

251 ENGLISH LITERATURE: BEGINNINGS TO 1750

Emphasis on the continuity and variety of English literature from Beowulf through Neo-classicism and the early novel. I (4)

252 ENGLISH LITERATURE: AFTER 1750

English literature, especially poetry, from the emergence of romanticism to the 20th century. II (4)

321 THE BOOK IN SOCIETY

A descriptive, contemplative, and critical look at the powerful role of books in our history, society, and daily lives. Topics include: The Book Before Printing; the Printing Revolution and Emergence of the Publishing Industry; Books, Authors, and Readers; Paperbacks, Pulp, and Genre Fiction; Modern Fine Printing and Special Editions; Rare Books and Book Collecting; Censorship and Manipulation; Children's Books; Book Illustration; Textbooks; The Book as Art; Technical and Ethical Horizons. (2)

322 PUBLISHING PROCEDURES

The world of book publishing, involving students in decisions about what to publish and how to produce it. Editing, designing, and preparing a manuscript for production. Plans for marketing a finished product. (4)

324 FREELANCE WRITING

A course in writing for publication, with primary emphasis on the feature article. Intended to help students develop research and editorial skills; to help them produce writing that is clear, informative, and expressive; to enhance their sense of audience; and to introduce them to procedures for submitting for magazine publication. II (4)

327 IMAGINATIVE WRITING II

An advanced workshop in writing poetry and short fiction. Some attention will be given to procedures for submitting manuscript for publication. II (4)

328 ADVANCED COMPOSITION

A study of rhetorical principles used in writing persuasively and imaginatively. Required for certification by the School of Education. I II (4)

331 THE ART OF THE BOOK I

Exploration of the design and mechanical arts at the heart of the tradition of bookmaking, focusing on historical models and methods and the contemporary renaissance they've inspired. Fundamentals of book design and typography in a studio-seminar context. Use of fine materials and hand processes to create a variety of printed, illustrated, and bound texts. (2)

332 THE ART OF THE BOOK II

Development of individual projects to explore further the principles and possibilities of typography and fine bookmaking. Production of a small edition of an original text—selected, edited, designed, illustrated, printed, and bound by one or a team of students. (1-4)

342 TWENTIETH CENTURY AMERICAN POETRY

Representative poets from the generation of Robert Frost and Ezra Pound to our contemporaries. a/y II (4)

343 TWENTIETH CENTURY AMERICAN FICTION AND DRAMA

Literature and society to the 1950s, with emphasis on major authors between the Wars, including Hemingway, Faulkner, O'Neill. a/y II (4)

345 CANADIAN FICTION

Novels and short stories by Anglo-Canadians, with some attention to French-Canadian literature in translation. I (4)

363 CHILDREN'S LITERATURE

An introduction to a rich literary tradition, with analysis in depth of such authors as H. C. Andersen, Tolkien, Lewis, Potter, Wilder, and LeGuin. I II (4)

364 SPECIAL TOPICS IN CHILDREN'S LITERATURE

Content varies each year. Possible topics include genres, themes, historical periods, and traditions. May be repeated for credit with different topic. I (4)

365 FAIRY TALES AND FANTASY

Selected fairy tales are told, and various ways to interpret them are explored. Fantasy is studied as a genre, with emphasis on kinds of fantasies, such as pure fantasy, sword and sorcery, the detective novel, science fiction, and horror fiction. I (4)

366 WRITING FOR CHILDREN

A workshop in writing fiction and non-fiction for children and teenagers, with an introduction to the varieties of contemporary children's literature. II (4)

381 STUDIES IN MEDIEVAL LITERATURE

Studies in the literature of Western Europe from 700 to 1500, excluding Chaucer. Consideration of genres, themes, and the place of literature in medieval life. a/y II (4)

382 CHAUCER AND HIS AGE

A study of Chaucer's major works, especially *The Canterbury Tales*, in their lively 14th century setting. Includes an introduction to the development of the English language. II (4)

383 SHAKESPEARE

Ten to twelve representative plays. Recommended as background: 251. I (4)

384 ENGLISH RENAISSANCE LITERATURE

Studies the Golden Age of English literature. Selected poets from Wyatt to Marvell, including Sidney, Spenser, Shakespeare, Donne, and Jonson; selected playwrights from Kyd to Webster; selected prose from More to Bacon and Browne. (4)

389 RESTORATION AND EIGHTEENTH CENTURY ENGLISH LITERATURE

A study of neo-classic writings and the developing social awareness of the preromantic age: Dryden and Pope to Johnson and Blake. Examination of the beginnings of the novel in Defoe, Richardson, Fielding, Smollett, and Sterne. I (4)

390 THE ENGLISH ROMANTIC MOVEMENT

A study of the romantic awakening in England: Blake, Wordsworth, Coleridge, Shelley, Keats, Byron, and others. Attention also to novelists of the period such as Austen and Scott. I (4)

391 VICTORIAN LITERATURE

Selected authors (including Carlyle, Tennyson, Dickens, and Hardy) and topics from a period of rapid and momentous social change. II (4)

E

English as a Second Language

392 TWENTIETH CENTURY BRITISH LITERATURE

Selected playwrights from Shaw to Beckett; poetry of Yeats, Hardy, Thomas, and Auden; fiction of Joyce, Woolf, Lawrence, Greene, Lessing, and others. II (4)

400 LINGUISTICS

See Languages.

402 HISTORY OF THE ENGLISH LANGUAGE

The development of English from its Germanic origins to its modern structure, spelling, and rich vocabulary, drawn from many languages. (2)

403 MODERN ENGLISH GRAMMAR

A study of three major approaches to grammar: the traditional, the structural, and the transformational. Includes introduction to the history of the English language. II (4)

421 TUTORIAL IN WRITING

Guided work in an individual writing project. A plan of study must be approved before the student may register for the course. (1-4)

440 SEMINAR—A MAJOR AMERICAN AUTHOR

Concentrated study of the work, life, influence, and critical reputation of a major American author, including substantial library research. I (4)

451 SEMINAR—A MAJOR BRITISH AUTHOR BEFORE 1750

Concentrated study of the work, life, influence, and critical reputation of a major British author from the Renaissance to the age of Fielding and Dr. Johnson, including substantial library research. II (4)

452 SEMINAR—A MAJOR BRITISH AUTHOR SINCE 1750

Concentrated study of the work, life, influence, and critical reputation of a major British author from the age of Blake to the present, including substantial library research. II (4)

491, 492 INDEPENDENT READING AND RESEARCH

An intensive course in reading. May include a thesis. Intended for upper-division majors. III (1-4)

597 GRADUATE RESEARCH (1-4)

English as a Second Language

The Intensive English Language Institute (operated by the American Cultural Exchange) is an affiliate of PLU offering intensive English classes, which are designed to prepare international students for studies in U.S. colleges and universities. The institute is authorized to grant I-20 forms; however, admission to the institute does not constitute admission to the university, and no transferable credit is given for institute courses.

The primary goal of the Intensive English Language Institute (IELI) at Pacific Lutheran University is to prepare students for successful academic careers at American colleges and universities by providing them with a strong background in English and academic study skills. The skills-based curriculum covers speaking/listening, reading, writing, and grammar in each of three levels:

ELEMENTARY INTERMEDIATE ADVANCED

When new students enter the Institute, they are given a series of placement tests. On the basis of these tests, students are placed in one of the three levels for each skill area. Students progress in the use of English through five hours of language instruction each day, Monday through Friday. A typical IELI schedule might consist of Elementary Reading, Elementary Writing, Intermediate Grammar, and Intermediate Conversation, plus one hour daily of language lab—25 hours per week.

COURSES

READING (5 hours)—Elementary, Intermediate, and Advanced
WRITING (5 hours)—Elementary, Intermediate, and Advanced
GRAMMAR (5 hours)—Elementary, Intermediate, and Advanced
CONVERSATION (5 hours)—Elementary, Intermediate, and Advanced

LANGUAGE LABORATORY/COMPUTER ASSISTED INSTRUCTION

Elementary, Intermediate, and Advanced—Help with spelling, vocabulary, and other language skills.

LECTURE PREPARATION (5 hours)—Advanced only

A course covering note-taking skills, summarization, identifying main and supporting ideas of the lecture, and giving opinions about the lecture. Students will complete a "mock" college-level academic course, including reading in a college text, taking quizzes and exams, and completing a special project for the course.

AUDIT/AUDIT REVIEW (10 hours)

The student and his/her ESL instructor will audit a course at PLU, taking notes on daily lectures, reading required texts, and taking quizzes and exams with other PLU students. During a second hour, the students go over the lecture notes from the Audit, discuss text and supplementary reading assignments, explore difficult/different concepts, prepare for exams, and receive guidance on written homework.

SPECIAL STUDIES (5-20 hours)—All levels

Courses are designed to help those who seek to improve their English for professional or personal reasons. Under certain circumstances, a less intensive schedule or private tutorials may be arranged.

E

*English as a Second Language***TOEFL PREPARATION** (2 hours)

This class can be taken as a separate course. It reviews grammar and vocabulary, gives practice in reading and listening comprehension, and covers test-taking skills and strategies.

CREDIT COURSES

Qualified advanced level students may request permission to take regular university classes for credit. This provides students an opportunity to earn credits toward their degree while completing their advanced courses in English as a second language.

Seminar sessions run concurrently with PLU's academic calendar and are 14 weeks long. There is a 4-week interim in January, a full semester's study during summer. Classes are small, usually 10-12 students, with a maximum of 18.

When students have attained sufficient proficiency in English to do university level work, the IELI staff assists in placing them in a suitable academic program. PLU's English language proficiency requirement for admission can be satisfied with a recommendation from the IELI director. A student must have B's or better in all advanced level courses to qualify for this recommendation.

FACULTY

Mage, Director; Cothren, De-Mar-Aldrich, Schaefer.

The faculty at IELI has extensive training and experience in teaching English as a Second Language, and all hold the terminal degree of M.A. in TESL or Linguistics. Having lived, travelled, and taught English in many countries throughout the world, both the faculty and staff have gained an awareness of other peoples, their languages, and their cultures.

To enhance formal educational experienced, the following activities are also available to IELI students:

CONVERSATION PARTNERS: Once into their courses, English language students are encouraged to sign up for one or more conversation partners with whom they can meet on a regular basis (once or twice a week) for coffee, lunch, or more extensive activities. The American students who participate in the Conversation Partners Program are often students who are preparing for careers in global studies, languages, education, and other fields. Some of these students have lived abroad or are from families who have hosted international students and *all* have expressed interest in learning more about other people and cultures. Conversation partners are recruited and screened by the Institute and receive an orientation from the director of IELI.

HOST FAMILIES: IELI has a long-established community-based host family program for students who wish to live with a U.S. family for one or more semesters. The American families—all screened by the Institute—provide the students with room or room and board at reasonable rates. In addition to the standard bedroom furniture, the rooms are provided with a desk, chair, and good lighting; family rules are agreed upon in advance and a formal written agreement is drawn up. The student completes a questionnaire that indicates preferences such as: children in family, urban or suburban setting, likes and dislikes, smoking or non-smoking environment, etc. Students meet their prospective family and only after they have met each other are they asked to decide whether they want to live as a family. Weekend and/or holiday visits with an American family can also be arranged.

IELI assists its students with career choices, college placement, immigration matters, medical and dental referrals, and personal concerns.

Special cultural and social activities are planned every week for students. In addition, three or more field trips per semester add significantly to the cultural enrichment of the students. Discussions and readings precede all journeys to insure both a high degree of linguistic and cultural relevance and to maintain throughout the semester a high level of group cohesiveness. IELI students and staff take trips to Mt. Rainier, local museums of natural history, art galleries, zoos, children's day care centers, retirement homes, the Ports of Tacoma and Seattle, and the Seattle Center. IELI students can also participate in intramural sports activities such as soccer and basketball.

The Intensive English Language Institute is located in Haavik House on the corner of 121st and I Streets.

E

Environmental Studies Program

Environmental Studies Program

Students concerned about or wishing to enter graduate study and career programs in such fields as environmental science, environmental law, or resource management, may enroll in the Environmental Studies Program. A certificate will be awarded students completing requirements listed below, together with a departmental or school major program. Students interested in the Environmental Studies Program should schedule an appointment with the chair of the Environmental Studies Committee, and should fill out an application. The student and the chair will develop a tentative plan and the chair will appoint a three-member advisory committee. The committee consisting of representatives from each of the three major subject matter groupings will approve each student's course program and integrative experiences.

The following specific courses are required:

Earth Sciences 222	4 hours
Economics 150	4 hours
Business Administration 230	4 hours

As part of graduation requirements, all students complete either the distributive core or the Integrated Studies Program. Recommended core requirements include:

Distributive Core

Arts/Literature: Art 381 and one elective in literature	8 hours
Natural Sciences/Mathematics: Biology 111; Chemistry 104, 105; Computer Science 144; Earth Sciences 101, 131, 202; Mathematics 128, 230; Natural Sciences 106	8 hours
Philosophy: 125; 225 plus 226 or 323 or 325 or 326 or 328; 324; 371; 381; 395; or 427	4 hours
Religion: 226, 365, and one elective from Biblical Studies or Integrative and Comparative Religious Studies	8 hours
Social Sciences: History 460; Political Science 101, 151, 345; Psychology 355; Sociology 101, 240, 331 (Economics 150 may also be counted as fulfilling a core requirement)	8 hours

OR

CORE II (Integrated Studies Program)

Integrated Studies 111-112, 221-222 or 223-224, 241-242 or 243-244, 351	28 hours
---	----------

In the areas of Natural Sciences and Mathematics one additional course (4 hours) is required, which should be selected from those listed above under Distributive Core.

Integrative Experience-4 hours: During the senior year or at another approved time, all students participate in a study-research-action program designed to draw upon the broad background of the above courses and the expertise of their own major fields. Courses may include, but are not limited to, appropriate interim courses; departmental or interdisciplinary seminars; independent study or research courses; field experience and internship programs; cooperative education; employment or volunteer service within community agencies or organizations.

Environmental Studies Committee: Churney, Chair; Benham, Bergman, Giddings, D. Hansen, Hansvick, Lauer, Martinson, Miller, Stivers, Tonn.

Global Studies Program

The Global Studies Program is a response to global trends which increasingly affect our lives. The program focuses on the formation and emergence of the modern world and its growing economic, cultural, political, and ecological interdependence. By combining a regional concentration with that of a specific global issue, the Global Studies Program provides students with the knowledge and perspectives they need to understand and to function effectively in today's world.

FACULTY

A committee of faculty administers this program: **Kelleher, Chair; Barnowe, Birmingham, Carr, Clausen, Predmore, Rasmussen, Tonn, Toven, Ulbricht.**

GLOBAL STUDIES COMPLEMENTARY MAJOR

The Global Studies major is termed a "complementary" major because it is a second major in addition to a regular disciplinary major. Students electing the Global Studies major are required to declare a traditional disciplinary major before they declare a Global Studies major.

In addition, the Global Studies major is multidisciplinary, drawing both its courses and faculty from departments of the Divisions of Humanities, Natural Sciences, and Social Sciences and from the Schools of the Arts and Business Administration.

Students may not apply more than two courses (8 semester hours) from their primary major or from courses taken to fulfill general university core requirements to the complementary major. However, such special crediting of courses from the primary major to the complementary major must be approved by a student's advisory committee and the Global Studies Committee chair.

MAJOR REQUIREMENTS

Students take a minimum of 32 semester hours including:

- A. Global Studies Core
 1. The introductory Global Studies course, Anthropology/History/Political Science 210, Global Perspectives (4 semester hours).
 2. Anthropology 102, Exploring Anthropology: Culture and Society (4 semester hours).
 3. History 211, The World Since 1945 (4 semester hours).
 4. The Global Studies seminar, Global Studies 410, Global Futures: Theory and Methods, and 411, Research Seminar (2 semester hours each).
- B. Four courses from the Global Studies concentrations (16 semester hours).
- C. Students must demonstrate proficiency in a language relevant to their concentration and at a level consistent with Option 1 of the College of Arts and Sciences foreign language requirement. This may be accomplished through proficiency examination or through the equivalent of 16 semester hours of coursework.

CONCENTRATIONS

A. REGIONAL

1. *The Industrialized World*
 - a. Social Sciences Perspectives (8 semester hours)
 - Anthropology 240—The Peoples of Europe (2)
 - Anthropology 334—The Anthropology of Contemporary America
 - Economics 381—Comparative Economic Systems
 - History 253—Twentieth Century American History
 - History 328—Nineteen Century Europe
 - History 329—Europe and the World Wars: 1914-1945
 - History 333—Revolutionary Russia
 - History 334—Modern Germany, 1848-1945
 - History 340—Modern Japan
 - History 356—American Diplomatic History
 - History 471—History of American Thought and Culture
 - Political Science 338—American Foreign Policy
 - Political Science 385—Canadian Political System
 - b. Humanities Perspectives (8 semester hours)
 - English 343—Twentieth Century American Fiction and Drama
 - English 391—Victorian Literature
 - French 321—Civilization and Culture
 - German 321—German Civilization
 - Languages 271—Literature and Society in Modern Europe
 - Scandinavian 322—Contemporary Scandinavia
 - Spanish 321—Civilization and Culture
 - A 400-level literature course offered by the Department of Languages, chosen in consultation with the concentration adviser.
2. *The Developing World* (4 courses, 16 semester hours)
 - Anthropology 330—Cultures and Peoples of Native North America
 - Anthropology 340—Cultures and Peoples of Asia
 - Anthropology 345—Chinese Culture and Society
 - History 330—Modern China
 - History 335—Latin American History: Central America and the Caribbean
 - History 336—Southern Africa
 - Political Science 386—African Political Systems
 - Spanish 322—Latin American Civilization and Culture
 - Spanish 432—Twentieth Century Hispanic Literature (Spanish America)
- B. TOPICAL (For each of the topical concentrations, three courses are selected from within the topic and one four-semester-hour course is selected from the regions listed above.)
 1. *International Relations* (3 courses, one course from each section)
 - a. Introduction
 - Political Science 336—International Organization and Law
 - b. Foreign Affairs
 - Political Science 321—Current International Affairs
 - Political Science 338—American Foreign Policy.
 - c. Elective
 - History 356—American Diplomatic History
 - Integrated Studies 221—The Experience of War
 - Anthropology 375—Law, Politics, and Revolution
 2. *International Trade* (3 courses, one course from each section)
 - a. Introduction
 - Economics 331—International Economics
 - b. International Business
 - Business Administration 340—International Business
 - Business Administration 474—International Marketing

H

History

- c. Elective
Political Science 336—International Organization and Law
A second international business is chosen in consultation with the concentration adviser.
3. *Global Resources and Environment* (3 courses)
- a. Introduction (1 course)
Earth Sciences 101—World Geography
- b. Electives (2 courses)
Earth Sciences 222—Conservation of Natural Resources
Earth Sciences 341—Energy and Mineral Resources for the Future
Integrated Studies 241—Energy, Resources, and Pollution
Integrated Studies 242—Population, Hunger, and Poverty
Sociology 361—Population and Development
For this concentration, two of these three courses may be lower division.
4. *Multicultural Diversity* (3 courses, one course from each section)
- a. Cosmology and Symbolism
Religion 131—Religions of the World
Religion 231—Myth, Ritual, and Symbol
Anthropology/Religion 392—Gods, Magic, and Morals
- b. Human Creations
Anthropology 355—Technology in Culture
Music 432—Music of the World's People
- c. Social Relationships
Anthropology 350—Women and Men in World Cultures
Anthropology 360—Ethnic Groups
Anthropology 375—Law, Politics, and Revolution
Political Science 381—Comparative Legal Systems
- History 336—Southern Africa
Political Science 386—African Political Systems
Spanish 322—Latin American Civilization and Culture
Spanish 432—Twentieth Century Hispanic Literature (Spanish America)
- B. *International Relations* (3 courses, one course from each section)
1. Introduction
Political Science 336—International Organization and Law
2. Foreign Affairs
Political Science 231—Current International Affairs
Political Science 338—American Foreign Policy
3. Elective
Anthropology 375—Law, Politics, and Revolution
History 356—American Diplomatic History
Integrated Studies 221—The Experience of War
- C. *International Trade* (3 courses, one course from each section)
1. Introduction
Economics 331—International Economics
2. International Business
Business Administration 340—International Business
Business Administration 474—International Marketing
3. Elective
Political Science 336—International Organization and Law
A second international business course is chosen in consultation with concentration adviser and the program chair.

GLOBAL STUDIES MINOR

- I. Global Studies Core
- A. Anthropology/History/Political Science 210, Global Perspectives (4 semester hours), required of all students.
- B. Either Global Studies 410, Global Futures: Theory and Methods (2 semester hours) or a fourth course (4 semester hours) in the concentration. To be decided in consultation with the program chair.
- II. Concentration (3 courses, 12 semester hours)
- A. *The Developing World*
Anthropology 330—Cultures and Peoples of Native North America
Anthropology 340—Cultures and Peoples of Asia
Anthropology 345—Chinese Culture and Society
History 330—Modern China
History 335—Latin American History: Central America and the Caribbean

COURSE OFFERINGS

410 GLOBAL FUTURES: THEORY AND METHODS (2)

411 RESEARCH SEMINAR (2)

Required of all students majoring in global studies. In the first semester (410), an analysis of major theories advanced by thinkers involved in the study of or attempts to change patterns of global interaction. Examination of both primary documents and secondary sources, learning how to read them and how to assess their worth, and discovering their methods of analysis. In the second semester (411), completion of a major research paper drawing on or adding to the theories and methods discussed in 410. Offered every two years. Prerequisite for 410: ANTH/HIST/POLS 210. Prerequisite for 411: 410. (2, 2)

History

Through the study of history at Pacific Lutheran University students gain an understanding and appreciation of the historical perspective. Opportunities for developing analytical and interpretative skills are provided through research and writing projects, internships, class presentations, and study tours. The practice of the historical method leads students off campus to their hometowns, to Europe or China or the American West, and to community institutions, both private and public. The department emphasizes individual advising in relation to both self-directed studies and regular courses. The university library holdings include significant collections in American, European, and non-Western history. The Nisqually Plains Room of the library specializes in Pacific Northwest community studies.

Career outlets for majors and minors are either direct or supportive in business, law, teaching, public service, news media, and other occupations.

FACULTY

Browning, Chair; Bermingham, Carp, Clausen, Martinson, Nordquist, Vice.

BACHELOR OF ARTS MAJOR: Minimum of 32 semester hours, including 4 hours American field, 4 hours-European field, and 4 hours-non-Western field. Students are expected to work closely with the department's faculty advisers to insure the most personalized programs and instruction possible. Majors are urged to meet the foreign language requirement of the College of Arts and Sciences under either Option I or Option II. Those majors who are preparing for public school teaching can meet the state history certification requirement by enrolling in History 460. All senior majors are required to take four hours of seminar credit.

MINOR: 20 semester hours, 12 hours from courses numbered above 300. The minor in history emphasizes a "program focus" and a "program plan," which is arranged by the student in consultation with a departmental adviser.

BACHELOR OF ARTS IN EDUCATION: See School of Education.

COURSE OFFERINGS

Courses in the Department of History are offered in the following areas:

AMERICAN FIELD

- 251 COLONIAL AMERICAN HISTORY
- 252 NINETEENTH CENTURY AMERICAN HISTORY
- 253 TWENTIETH CENTURY AMERICAN HISTORY
- 352 THE AMERICAN REVOLUTION
- 354 THE AMERICAN CIVIL WAR
- 356 AMERICAN DIPLOMATIC HISTORY
- 451 AMERICAN LEGAL HISTORY
- 460 WEST AND NORTHWEST
- 471 HISTORY OF AMERICAN THOUGHT AND CULTURE
- 494 SEMINAR: AMERICAN HISTORY

EUROPEAN FIELD

- 107, 108 HISTORY OF WESTERN CIVILIZATION
- 321 CLASSICAL CIVILIZATION
- 323 THE MIDDLE AGES
- 324 RENAISSANCE
- 325 REFORMATION
- 328 NINETEENTH CENTURY EUROPE
- 329 EUROPE AND THE WORLD WARS: 1914-1945
- 332 ENGLAND: TUDORS AND STUARTS
- 334 MODERN GERMANY, 1848-1945
- 341 SEVENTEENTH CENTURY FRANCE
- 342 THE FRENCH REVOLUTION
- 495 SEMINAR: EUROPEAN HISTORY

NON-WESTERN FIELD

- 109 EAST ASIAN SOCIETIES
- 210 GLOBAL PERSPECTIVES
- 211 THE WORLD SINCE 1945
- 330 MODERN CHINA
- 333 REVOLUTIONARY RUSSIA
- 335 LATIN AMERICAN HISTORY: CENTRAL AMERICA AND THE CARIBBEAN
- 336 SOUTHERN ARICA
- 340 MODERN JAPAN
- 496 SEMINAR: THE THIRD WORLD

ALL FIELDS

- 399 INTERNSHIP
- 401 WORKSHOPS
- 492 INDEPENDENT STUDY
- 501 GRADUATE WORKSHOPS
- 590 GRADUATE SEMINAR
- 591 DIRECTED STUDY
- 595 GRADUATE READINGS
- 598 RESEARCH PROJECT
- 599 THESIS

107, 108 HISTORY OF WESTERN CIVILIZATION

Analysis of institutions and ideas of selected civilizations. Mesopotamia, Egypt, the Hebrews, Greece, Rome, the rise of Christianity, and Medieval Europe in the first semester; Europe from the Renaissance to the present in the second semester. III(4, 4)

109 EAST ASIAN SOCIETIES

A historical overview of the traditional cultures, traditions, and lives of the people of China and Japan. Discussion of the lives of peasants, emperors, merchants, and warriors in each society. Attention to the great technological and artistic developments in each society. (4)

210 GLOBAL PERSPECTIVES: THE WORLD IN CHANGE

A survey of global issues affecting the human condition in a rapidly changing and increasingly interdependent world: modernization and development; economic change and international trade; diminishing resources; war and revolution; peace and justice; and cultural diversity. These issues are examined in a multidisciplinary light using case studies drawn from non-Western and Western nations. Emphasis on the development of a global perspective which recognizes human commonalities as well as diversity in perceptions, values, and priorities. (Cross-referenced with ANTH 210 and POLS 210.) (4)

211 THE WORLD SINCE 1945

A historical survey on how Third World nations have sought independence in the post-World War II period. Emphasis on events in the Western world leading to World War II and the effects of that war on the Third World. Case studies of countries from Asia, Africa, Latin America, and the Middle East as examples of the diversity inherent in quests for independence. (4)

251 COLONIAL AMERICAN HISTORY

American institutions from colonial times to the 1790's; the growth of the colonies and their relationship to the British imperial system. (4)

252 NINETEENTH CENTURY AMERICAN HISTORY

From Jefferson to Theodore Roosevelt; interpretation of eras from social, political, economic, and biographical viewpoints. (4)

253 TWENTIETH CENTURY AMERICAN HISTORY

Trends and events in domestic and foreign affairs since 1900; affluence, urban growth, and social contrasts. (4)

321 CLASSICAL CIVILIZATION

The ancient Mediterranean world with emphasis upon Greek and Roman civilizations. (4)

323 THE MIDDLE AGES

Europe from the disintegration of the Roman Empire to 1300; reading and research in medieval materials. (4)

324 RENAISSANCE

Europe in an age of transition-1300 to 1500. (4)

325 REFORMATION

Political and religious crisis in the 16th century: Lutheranism, Zwinglianism, Anglicanism, Anabaptism, Calvinism, Roman Catholic reform; Weber thesis, the beginnings of Baroque art. (4)

328 NINETEENTH CENTURY EUROPE

The expansion of European civilization from 1800 to 1914. (4)

329 EUROPE AND THE WORLD WARS: 1914-1945

World War I; revolution and return to "normalcy"; depression and the rise of fascism; World War II. (4)

330 MODERN CHINA

Chinese history from 1800 to the present. Emphasis on the Chinese revolution, why it happened, and what it meant for the people of China. Attention to China's relationship with the United States and the Soviet Union. (4)

332 ENGLAND: TUDORS AND STUARTS

Political, social, economic, legal, and cultural developments. (4)

333 REVOLUTIONARY RUSSIA

Post-Peter the Great Russia; the establishment of Czarist autocracy; the Great Reforms of the 19th century; the rise of the revolutionaries; Bolshevism, Lenin, and the Revolutions of 1917; the consolidation of the Soviet state. (4)

334 MODERN GERMANY, 1848-1945

The Revolutions of 1848 and unification of Germany; Bismarckian and Wilhelmin empires; Weimar Republic and the rise of National Socialism; the Third Reich. (4)

335 LATIN AMERICAN HISTORY: CENTRAL AMERICA AND THE CARIBBEAN

Survey of the major aspects of Central American and Caribbean history from colonial to modern times. Use of selected case studies to illustrate the region's history. Study in inter-American relations. (4)

336 SOUTHERN AFRICA

Examination of the history of pre-colonial African kingdoms, Western imperialism, settler colonialism, and the African struggle for independence. Emphasis on the period since 1800. Focus on the countries of South Africa, Namibia, Angola, Mozambique, Zimbabwe, and on the issues of nationalism, racism, and revolution. (4)

340 MODERN JAPAN

Study of how Japan became the modern "miracle" in East Asia. Primary focus on traditions that enabled Japan to change rapidly, the role of the challenge of the West in that change, the industrialization of Japan, the reasons for war with the U.S., and the impact of the war on contemporary Japan and its social and economic institutions. (4)

341 SEVENTEENTH CENTURY FRANCE

Structure of society, development of absolutism, protest of popular classes, role of France in international affairs, origins of the Enlightenment. (2)

342 THE FRENCH REVOLUTION

Structure of society, origins and course of the Revolution, and its impact on France and Europe. (2)

352 THE AMERICAN REVOLUTION

The American Revolution as a series of essentially political events stretching from the Seven Years War in 1763 through Thomas Jefferson's defeat of John Adams in the Presidential election of 1800. The Colonists' initial resistance to the reorganization of the British Empire after 1763; the evolution of active resistance into revolution; the decision to declare independence; the experience of war; the struggle to establish legitimate and effective governments; the framing and ratification of the Constitution; and the Federalist-Republican battles of the 1790s. Emphasis on the role of political thought and ideology in the development of republican government in the United States. (4)

354 THE AMERICAN CIVIL WAR

The Civil War era from the political crises of the 1850s through Reconstruction. Antebellum sectionalism; the collapse of the 2nd American Party System; slavery; racism; secession; the military, political, and social aspects of the War itself; emancipation; and

reconstruction. Emphasis on the Civil War as the central drama of U.S. history and consideration of its profound impact on 20th century social, political, and economic conditions. (4)

356 AMERICAN DIPLOMATIC HISTORY

The practice, function, and structure of American foreign policy with particular emphasis on the twentieth century. (4)

399 INTERNSHIP

A research and writing project in connection with a student's approved off-campus work or travel activity. Primary goal is to gain historical perspective on such activity, or a dimension of it. Prerequisite: sophomore standing plus one course in history, and consent of the department. (1-6)

401 WORKSHOPS

Workshops in special fields for varying periods of time. (1-4)

451 AMERICAN LEGAL HISTORY

Dimensions of American law as it relates to changing historical periods. (4)

460 WEST AND NORTHWEST

The American West in the 19th and 20th centuries. Frontier and regional perspectives. Interpretive, illustrative history, and opportunities for off-campus research. (4)

471 HISTORY OF AMERICAN THOUGHT AND CULTURE

Dimensions of American social and intellectual history. (4)

492 INDEPENDENT STUDY (1-4)**494 SEMINAR: AMERICAN HISTORY (4)****495 SEMINAR: EUROPEAN HISTORY (4)****496 SEMINAR: THE THIRD WORLD (4)****501 GRADUATE WORKSHOPS**

Graduate workshops in special fields or areas for varying periods of time. (1-4)

590 GRADUATE SEMINAR

Selected topics as announced. Prerequisite: consent of the instructor. (1-4)

591 DIRECTED STUDY (1-4)**595 GRADUATE READINGS**

Independent Study Card Required. (4)

598 RESEARCH PROJECT (4)**599 THESIS (4)**

Division of Humanities

The Division of Humanities, composed of the Departments of English, Languages, Philosophy, and Religion, offers a wide range of courses, both traditional and innovative. Members of the division are committed to excellent classroom instruction and to the research and service which support and draw on that instruction. As preparation for traditional majors, as a course to the professions, and as a means to finding and fulfilling the excellence in oneself, the humanities are as much the heart of a liberal education as they have ever been. Complementing this training in the language, literature, thought, and belief of the past is an increasingly visible involvement of the division with placing its students in internships and related work experiences such as the English Department's Publishing Careers Program. As one member of the division

has written, the humanities "call us to become fully human and to act humanely, compassionately, creatively in an ever-changing society."

FACULTY

J. Rasmussen, *Divisional Dean*; faculty members of the Departments of English, Languages, Philosophy, and Religion.

As a division within the College of Arts and Sciences, the Division of Humanities offers programs in each constituent department leading to the B.A. degree. Course offerings and degree requirements are listed under:

ENGLISH
LANGUAGES
PHILOSOPHY
RELIGION

Integrated Studies Program

I

Integrated Studies Program

The Integrated Studies Program (Core II) is designed as an alternative mode of satisfying core curriculum requirements. Consisting of a constellation of interdisciplinary courses, the program explores a central theme—*The Dynamics of Change*—from a variety of academic perspectives. The program stresses critical thinking and writing. And it encourages the growth of camaraderie as students progress together through its sequences.

A brochure is available from the Admissions Office or the program coordinator in the Provost's Office.

FACULTY

Selected from Anthropology, Art, Biology, Chemistry, Communication Arts, Economics, English, History, Languages, Mathematics, Philosophy, Physics, Political Science, Psychology, Religion, and Sociology.

ISP Committee: Stivers, Chair; P. Benton, Lejeune, N.C. Meyer, Oberholtzer, Zernel.

ISP Coordinator: Carr.

REQUIREMENTS

1. SEQUENCE I: THE IDEA OF PROGRESS (2 courses, 111-112)
Normally taken in the freshman year.
 2. TWO OF THREE 200-LEVEL SEQUENCES (2 courses each, 4 total)
 - SEQUENCE II (2 courses in the 220s):
 - 221: The Experience of War
 - 222: Prospects for War and Peace
 - 223: The Emergence of Mind and Morality
 - 224: The Brain, Consciousness, and Transcendence
 - OR SEQUENCE III (2 courses in the 230s)
 - 233: Imaging the Self
 - 234: Imaging the World
 - OR SEQUENCE IV (2 courses in the 240s)
 - 241: Energy, Resources, and Pollution
 - 242: Population, Hunger, and Poverty
 - 243: Technology and Computers
 - 244: Computers and Models
 - 245: The Development of Third World Underdevelopment
 - 246: Cases in Third World Development
 3. CONCLUDING SEMINAR (1 course): 351
Taken after or along with the final 200-level course.
- TOTAL: SEVEN COURSES (28 hours)

Honors in Integrated Studies may be awarded to students who have at least a 3.5 average in ISP courses and who present a portfolio of outstanding papers from 200-level ISP courses and the Seminar. Students selected for honors will make a public, oral presentation of their seminar work. The Integrated Studies Committee will determine who qualifies for honors.

POLICIES AND GUIDELINES FOR CORE II

1. Students may begin in any sequence, although Sequence I (the required sequence) is usually taken first.
2. Because the sequences are designed as consecutive, two-course series, students should begin in the first course (fall), if possible. However, the second course may be taken before the first with the consent of the instructors.
3. Sequences may be taken concurrently and in any order.
4. As the program evolves, alternatives are being added under each sequence (II:220s, III:230s, IV:240s). Students should complete two courses that have been designed together (for example, 241-242 on "Technology and the Environment" or 221-222 on "War and Peace"). If necessary, however, any two courses from the same sequence series may be used.
5. No more than two courses from any one sequence (II:220s, III:230s, IV:240s) may be counted toward the seven-course Core II requirement. Additional courses from a sequence may be taken as electives.
6. Not every 200-level sequence will be offered each year; generally three will be available in any given year.
7. The seminar (351) is taken as the concluding course in the program, either after or concurrently with the last course of the student's third sequence.
8. Students entering Core II with appropriate previous coursework at the college level may have certain requirements waived. Students with certain combinations of Core I courses, for example, may have I11 or I12 waived. See the program coordinator for details.
9. All Core II courses (except the seminar) may be taken as electives by any student.
10. Most Core II courses may be taken to fulfill certain Core I requirements, as indicated in the course descriptions, subject to the approval of the faculty.
11. Students transferring from Core II to Core I may use their Core II courses to meet certain Core I requirements after consulting with the program coordinator.
12. The Integrated Studies Program is directed by a seven-person committee of faculty representing the academic areas participating in the program. The committee elects a chair and is supported by the associate dean for special academic programs as program coordinator.

SEQUENCE I: THE IDEA OF PROGRESS (111-112)

A survey of Western culture from the Renaissance through the 19th century, emphasizing the interaction of religious, philosophical, and political beliefs with the emergence of new arts and sciences.

111 NATURE AND SUPERNATURE

A study of the emergence of modern science, the development of democratic political ideas, the renewal of the arts, and the reformulations of religious belief in the Renaissance, Reformation, and Enlightenment. The ideas and accomplishments of Luther, Galileo, Newton, Locke, and Hume are given special emphasis, together with developments in literature, the visual arts, and politics. Meets Core I requirements in philosophy or in religious studies (lines 2 or 3). I (4)

112 FROM FINITE TO INFINITE

Developments in literature and science, politics and industrialization in the 18th and 19th centuries. Emphasis is given to the influence of the Enlightenment, the American and French revolutions, the Romantic movement, the impact of Darwinism and Marxism. Prerequisite: I11 or permission. Meets Core I requirements in literature or in social sciences (line 1). II (4)

SEQUENCE II: HUMAN RESPONSIBILITY (Courses numbered in the 220s)

WAR AND PEACE (221-222)

This sequence explores the complexity of war and the difficulties of achieving and maintaining a just peace. It considers the fact of some important wars in our century, investigates the deeper causes of war, and raises the issues of personal and social ethics during a war and in a society that prepares for war in a time of peace. When taken as a whole, this two-course sequence meets the Core I requirement in social sciences (line 1) and either philosophy or religious studies (lines 2 or 3).

221 THE EXPERIENCE OF WAR

Essential background is established by studying the complex history of several major wars of our time (e.g., World War II, the Vietnam War, the conflict in the Middle East). Emphasis is placed on the personal experience of war, both as soldier and as civilian, through interviews, films, and literature. The ethical decisions individuals must make in war-time are considered as well as the pressures of our biological heritage and our idealistic causes. (4)

222 PROSPECTS FOR WAR AND PEACE

A study of the institutions and situations (political, economic, religious, psychological, historical) that keep the modern world on the brink of war and make a stable, just peace so elusive. Consideration is given to pacifism and the "just war" tradition, as well as to the technology and politics of nuclear war and its balance of terror. Students complete an independent project on topics such as the draft, the economics of a military state, arms control, the competitions for resources, anti-colonialism and Marxism. Prerequisite: 243 or permission. (4)

MIND AND BRAIN (223-224)

This sequence explores how specifically human qualities—including morality, a sense of self, and the capacity for religious experience and belief—are rooted in our biology and to what extent we can transcend that physical heritage.

223 THE EMERGENCE OF MIND AND MORALITY

A survey of genetics and evolution, with emphasis on the brain and the emergence of social behavior in animals, prepares for a critical study of the claims of sociobiology that human culture and morality can be explained in terms of our biological origins. Meets Core I requirements in natural sciences (line 2) or philosophy. (4)

224 THE BRAIN, CONSCIOUSNESS, AND TRANSCENDENCE

A study of the brain as the center of perception, emotion, consciousness, and knowledge. Includes a study of the brain's functions, an investigation of spiritual, mystical, and other self-transcending experiences, and an exploration of the relationship between mind and brain, materialistic and non-materialistic explanations, and the nature of person commitment. Prerequisite: 223 or permission. Meets Core I requirements in social sciences (line 2) or philosophy. (4)

SEQUENCE III: WORD AND WORLD (Courses numbered in the 230s)

IMAGING SELF AND WORLD (233-234)

This sequence explores how we come to know and partially create various kinds of self and world through the images of ordinary life and through their elaboration in the symbols of the arts and sciences. When taken as a whole, this two-course sequence meets the Core I requirements in art or literature and natural sciences (lines 1 or 3) or religious studies (line 3).

233 IMAGING THE SELF

A series of exercises in the visual and literary arts that reveal how the self is discovered and constructed in our daily world through many kinds of images, including dreams, costumes, songs, childhood memories, houses, church services, dances, television, poetry, sketching, and constructing models. The emphasis is on doing or making, followed by reflective analysis. (4)

234 IMAGING THE WORLD

An exploration of how humans perceive, interpret, and shape their own worlds. Following an introduction to symbols, symbol systems, and the creation of meaning, the construction of world images in science and theology through myth, model, and paradigm are studied. The model of symbolic logic is built to organize language and thought. Science is then considered as a process of the application of logic to empirically gathered data. Views of a variety of scientists and philosophers on the way science is done and the way scientists come to know are considered. Theological

language, experience, and use of myth and parable in theological models are examined. Finally, some images of the world through the eyes of poets are compared to these scientific and theological representations. (4)

SEQUENCE IV: TECHNOLOGY AND THE ENVIRONMENT (Courses numbered in the 240s)

RESOURCES, POLLUTION AND POPULATION (241-242)

This sequence considers energy, natural resources, pollution, population and food issues. Scientific, social scientific, and ethical perspectives will be used to explore current problems, to project current trends into the future, and to suggest new possibilities. When taken as a whole, this two-course sequence meets the Core I requirements in science (lines 1 or 2), and either the social sciences (lines 1 or 2) or religious studies (lines 2 or 3) requirements.

241 ENERGY, RESOURCES, AND POLLUTION

Energy, natural resources, and pollution are the subject matter. Scientific, social scientific, and ethical methods will be studied and then applied to the practical and political problems of sustaining energy and natural resource production and limiting pollution with a maximum of justice and participative decision-making. I (4)

242 POPULATION, HUNGER, AND POVERTY

Population, food, and poverty are the subject matter. Methods learned in the first course will be reviewed and applied to the practical and political problems of sustaining food production and reducing population growth and poverty. A major Third World country, e.g., Mexico, will serve as a case study for class analysis and student projects. II (4)

TECHNOLOGY, COMPUTERS, AND SOCIAL CHANGE (243-244)

A study of modern technology, its historical context, its machines, and its consequences. The computer, as one in a long line of technologies, is the special focus. When taken as a whole, this two-course sequence meets the Core I requirement in natural sciences (line 3) or social sciences (line 1).

243 TECHNOLOGY AND COMPUTERS

Modern technology is the product of sweeping changes in Western civilization. The computer must be seen within the context of these changes. Thus the shift from traditional to technological society, the convergence of forces which produced the shift, and the consequences of the shift on institutions, ideas, and values will be the object of study. Once this context is established, students will study the computer, its creation and uses, what it is, and what it can and cannot do. (4)

244 COMPUTERS AND MODELS

The modeling of social processes and the programming of models for the computer are two important tools used by planners in education, business, and government. The use of models and computers necessitates the making of assumptions and the reduction of reality. Two or three illustrative models will be developed to demonstrate the skills of modeling and programming and to assess advantages and limitations. Simultaneously, students will study the implications of using models and computers and the ethical and philosophic issues which emerge from their use. Returning to the larger context of technology, students will address the questions of technology, "out of control," artificial intelligence, the impacts of modern technology on the Third World, and the future. A student project will conclude the sequence. (4)

THIRD WORLD DEVELOPMENT AND TECHNOLOGY (245-246)

This sequence is a study of the emergence of the Third World and the genesis of development and underdevelopment.

245 THE DEVELOPMENT OF THIRD WORLD UNDERDEVELOPMENT

This course traces the origins and growth of the concept "Third World" and the models, views, contexts and approaches in interpreting this phenomenon. Particular attention is focused on understanding social and cultural changes in the Third World in terms of development/underdevelopment. Political, economic, literary and religious analyses will be used in trying to determine how the Third World thinks about itself. Core I equivalency: see below. (4)

246 CASES IN THIRD WORLD DEVELOPMENT

How people in the Third World think and act to bring about social change, and the value they give it, is the focus of this course. Building upon the theories and methods presented in the first course, issues such as education, health, population, resource management, urbanization and industrialization will be examined using case studies. The case studies will be organized regionally so that common and distinctive features can be evaluated. When taken as a whole this two-course sequence meets the Core I requirements in social sciences (line 1) and religious studies (line 3). (4)

CONCLUDING SEMINAR

351 INTEGRATED STUDIES SEMINAR

A recapitulation and integration of themes from the previous sequences, with additional readings and discussion. Students investigate an individual topic from an interdisciplinary perspective, make a formal oral presentation, and complete a substantial paper. Prerequisite: 111-112 and two additional sequences. May be taken concurrently with the last course of the final sequence. 111 (4)

Languages

Languages

The study of foreign language benefits us by increasing our sensitivity to the conventions of the English language and helping us to speak, write, and think clearly. It also rewards us by introducing the language, literature, and civilization of another people and providing the skills for cross-cultural communication.

Foreign languages have always been at the core of a good liberal arts education, but they have become more important in the modern world. The distance between the peoples of different languages has decreased and the world's international economy has made us all more dependent on each other. Knowledge of another language is a distinctive, useful, and often vital addition to career areas such as business, journalism, government service, law, and medicine. Foreign language skills can give individuals more flexibility in choosing a profession, as well as more mobility within their chosen fields. Students considering a career in education should note that the demand for foreign language teachers continues to rise.

The department encourages students to study abroad as part of their undergraduate programs. Cooperation with foreign universities ensures a range of such opportunities in Austria, China, Denmark, France, Germany, Mexico, Norway, Spain, and Sweden. Language students may also earn credit in the International Cooperative Education Program, which places students in summer jobs in several European countries.

Majors are available in Classics, French, German, Norwegian, Scandinavian Area Studies, and Spanish. Minors are offered in French, German, Greek, Latin, Norwegian, and Spanish. Instruction in Chinese and American Sign Language is also given. Through a special arrangement, PLU students may enroll in Japanese language courses at the University of Puget Sound.

FACULTY

Spangler, *Chair*; R. Brown, Chang, DeSherlia, Faye, García, M. Grochulski, McKim, Predmore, Rasmussen, Snee, R. Swenson, Toven, Webster, assisted by Gilmour.

LITERATURE CORE REQUIREMENT: The department offers literature courses in English translation, as well as in the original language. All such courses meet the general university literature requirement (Core I).

PLACEMENT IN LANGUAGE CLASSES: There are no departmental prerequisites for the study of foreign languages. Students with previous experience in a language may qualify for placement into intermediate or advanced courses. To determine the appropriate level, students take the language placement examination at the beginning of the fall semester and consult with the appropriate faculty member.

Potential majors are encouraged to obtain as much high school preparation as possible. Those qualifying for advanced placement may be allowed to waive certain major or minor requirements.

BACHELOR OF ARTS MAJORS: Requirements for the various majors are listed below under the individual languages. Transfer students will normally take 16 or more of their major hours at PLU.

PROSPECTIVE TEACHERS: A full range of teaching majors and minors is offered. The required professional methods course is Languages 445. Students preparing to teach in junior or senior high school may earn either a Bachelor of Arts degree in French, German, or Spanish along with certification from the School of Education, or a Bachelor of Arts in Education degree with a teaching major in French, German, or Spanish. In Scandinavian Studies, an elementary teaching major and secondary and elementary teaching minors are available.

See the School of Education section of this catalog for the certification requirements and the Bachelor of Arts in Education requirements.

HONORS MAJOR: Requirements for an honors major in languages are as follows: (1) a major in one foreign language; (2) a minor in a second foreign language; (3) one year of study at the college level of a third foreign language; (4) the second or third language must be a classical language; (5) a minimum grade point average of 3.5 in all courses taken in PLU's Department of Languages; (6) at least one departmentally approved term abroad; and (7) presentation of a senior paper to the department.

MINOR PROGRAMS: Requirements for the various minors are listed below under the individual languages. At least 8 semester hours must be taken in residence.

COURSE OFFERINGS

Courses in the Department of Languages are offered in the following general fields in addition to elementary, intermediate, and advanced language:

CULTURAL HISTORY

A. In English

Scan 150—Introduction to Scandinavia
Scan 321—Vikings and Emigrants
Scan 322—Contemporary Scandinavia

B. In Respective Language

French 321—French Civilization and Culture
German 321—German Civilization to 1750
German 322—German Civilization Since 1750
Spanish 321—Spanish Civilization and Culture
Spanish 322—Latin American Civilization and Culture

LINGUISTICS

Languages 200—Structural Linguistics
Languages 445—Methodology of Teaching Foreign Languages
French/Span 442—History of Romance Languages
German 442—History of the German Language

LITERATURE

A. In English

Languages 271—Literature and Society in Modern Europe
Languages 272—Literature and Social Change in Latin America
Classics 250—Classical Mythology
Scan 250—Masterpieces of Scandinavian Literature
Scan 421—Ibsen and Strindberg
Scan 422—Twentieth Century Scandinavian Literature

B. In Respective Language

Greek 421, 422—Masterpieces of Greek Literature
French 421, 422—Masterpieces of French Literature
French 431, 432—Twentieth Century French Literature
German 421—German Literature from the Enlightenment to Realism
German 422—Twentieth Century German Literature
Spanish 421, 422—Masterpieces of Hispanic Literature
Spanish 431, 432—Twentieth Century Hispanic Literature

LANGUAGES

200 STRUCTURAL LINGUISTICS

The study of the nature of language; principles and techniques of descriptive language analysis; elementary application of linguistic analysis to selected materials. No prerequisites. (4)

271 LITERATURE AND SOCIETY IN MODERN EUROPE

Reading and discussion of works in English translation by authors like Flaubert, Ibsen, and Th. Mann, who exemplify Realism and Naturalism in various European literatures. Emphasis on social themes, including life in industrial society, the changing status of women, and class conflict. No prerequisite. Satisfies the general university core requirement in literature. (4)

272 LITERATURE AND SOCIAL CHANGE IN LATIN AMERICA

Readings in English translation of fiction from modern Latin America. Discussions will focus on social and historical change and on literary themes and forms. Authors will include major figures like Carlos Fuentes, Mario Vargas Llosa, Gabriel Garcia Marquez, and Jorge Luis Borges. No prerequisite. Satisfies the general university core requirement in literature. (4)

276 INTERNATIONAL WORK AND STUDY

An orientation for foreign study, service learning, or work abroad. Through individual projects the political and economic systems, geography, artistic heritage, and ethical traditions of countries where students will live, receive detailed study. Coping with culture shock and the idiosyncrasies of daily living are also emphasized. (2)

445 METHODOLOGY OF TEACHING FOREIGN LANGUAGES

Theory and techniques of foreign language teaching; emphasis on developing proficiency in a second language; attention paid to special problems in the individual languages. (2)

491,492 INDEPENDENT STUDY (1-4)

597, 598 GRADUATE RESEARCH (2-4)

CHINESE

101, 102 ELEMENTARY CHINESE

Introduction to Mandarin Chinese. Basic skills in listening, speaking, reading, and writing. Laboratory practice required. I, II (4, 4)

201, 202 INTERMEDIATE CHINESE

Develops further the ability to communicate in Chinese, using culturally authentic material. Laboratory practice required. Prerequisite: 102 or equivalent. I, II (4, 4)

CLASSICS

The Classics Program is a cooperative effort among the Departments of Languages, History, Philosophy, Religion, and Art. Its goal is to unite the "heart of the liberal arts" with the mind, through history and philosophy, and the soul, through religion, and to embellish this trinity of themes with the visual experience of art.

This interdepartmental major requires the completion of 40 semester hours, including at least one year of one of the classical languages and two of the other (Greek and Latin). The remaining courses are selected from the list below in consultation with the program coordinator:

Latin 101-102-Elementary
Latin 201-202-Intermediate
Greek 101-102-Elementary
Greek 201-202-Intermediate
Greek 421-422-Masterpieces of Greek Literature
Art 110-Introduction to Art
Art 180-Traditions of Western Art
Art 386-Imagery and Symbolism
Classics 250--Classical Mythology
English 321-Masterpieces of European Literature
History 321-Classical Civilization
Philosophy 331-Ancient Philosophy
Religion 211-Religion and Literature of the Old Testament
Religion 212-Religion and Literature of the New Testament
Religion 221--Ancient Church History
Religion 330--Old Testament Studies
Religion 331--New Testament Studies
Independent Study Courses
Selected Interim Courses

Students are expected to become familiar with the reading list for that part of the program (art, literature, history, philosophy, or religion) in which their interest lies.

The program is designed to be flexible. In consultation with the Classics Committee, a student may elect a course or courses not on the classics course list.

250 CLASSICAL MYTHOLOGY

Introduction to classical mythology; study of the major myths of Greece and Rome through the texts of Homer, Hesiod, the Greek tragedians, Apollonius, Vergil, and Ovid; emphasis on the traditions of mythology, going back to pertinent Mesopotamian and Hittite materials, and forward to influences of classical myths on later literature and arts; attention to modern interpretations of ancient myths. All readings in English; satisfies the general university core requirement in literature. (4)

GREEK

Minor in Greek: 20 semester hours, which may include 101-102.

101, 102 ELEMENTARY GREEK

Basic skills in reading classical, *koiné*, and patristic Greek. I, II (4, 4)

201, 202 INTERMEDIATE GREEK

Review of basic grammar; reading in selected classical and New Testament authors. I, II (4, 4)

L
Languages

421, 422 MASTERPIECES OF GREEK LITERATURE

Available through consultation with the department. Prerequisites: 101, 102, 201, I, II (4, 4)

491, 492 INDEPENDENT STUDY (2-4)**LATIN**

Minor in Latin: 20 semester hours, which may include 101-102

101, 102 ELEMENTARY LATIN

Basic skills in reading Latin; an introduction to Roman literature and culture. I, II (4, 4)

201, 202 INTERMEDIATE LATIN

Review of basic grammar; selected readings from Latin authors. I, II (4, 4)

491, 492 INDEPENDENT STUDY (2-4)**FRENCH**

Major in French: A minimum of 32 semester hours beyond 101-102, including 201-202, 321, 351-352 and three 400-level courses.

Minor in French: 20 semester hours, excluding 101-102 and including 201-202, 351, and two additional upper division courses.

101, 102 ELEMENTARY FRENCH

Essentials of pronunciation, intonation, and structure; basic skills in listening, speaking, reading, and writing. Laboratory attendance required. I, II (4, 4)

201, 202 INTERMEDIATE FRENCH

Review of basic grammar; development of vocabulary and emphasis on spontaneous, oral expression. Reading selections which reflect France's cultural heritage and society. Laboratory attendance required. I, II (4, 4)

321 CIVILIZATION AND CULTURE

Present-day France as reflected in current literature, periodicals, television and films, written compositions and oral reports; conducted in French. Prerequisite: 202. (4)

351, 352 COMPOSITION AND CONVERSATION

Advanced grammar, stylistics, composition, and conversation on current topics; conducted in French. Prerequisite: 202, I, II (4, 4)

421, 422 MASTERPIECES OF FRENCH LITERATURE

Authors representative of major periods from the Middle Ages through the nineteenth century; the style and structure and the moral and artistic intentions of such authors as Rabelais, Montaigne, Moliere, Corneille, Pascal, Voltaire, Rousseau, Hugo, and Baudelaire. Prerequisite: 202, I, II a/y (4, 4)

431, 432 TWENTIETH CENTURY FRENCH LITERATURE

Selected twentieth century writers from France and other francophone countries. May include Gide, Camus, Sartre, Beckett, Aimee Cesaire, and Anne Hebert. Prerequisite: 202, I, II a/y (4, 4)

442 HISTORY OF ROMANCE LANGUAGES

Historical development of Romance languages with reference to current languages; same as Spanish 442. (4)

491, 492 INDEPENDENT STUDY (2-4)**GERMAN**

Major in German: A minimum of 32 semester hours beyond 101-102, including 201-202, 321-322, 351-352, and two 400-level courses.

Minor in German: 20 semester hours, excluding 101-102 and including 201-202, 351, and two additional upper division courses.

101, 102 ELEMENTARY GERMAN

Introduction to the German language. Basic skills of oral and written communication in classroom and laboratory practice. Use of materials reflecting contemporary German life. Meets five hours weekly. I, II (4, 4)

201, 202 INTERMEDIATE GERMAN

Continued practice in oral and written communication in classroom and laboratory. Use of materials which reflect contemporary life as well as the German cultural heritage. Meets four hours weekly. I, II (4, 4)

321 GERMAN CIVILIZATION TO 1750

From the Middle Ages to the Enlightenment. A survey of German culture and its expression in creative works of art, music and literature, with particular emphasis on Martin Luther and the Protestant Reformation. Conducted in German. Prerequisite: 202, I a/y (4)

322 GERMAN CIVILIZATION SINCE 1750

From the Enlightenment to the present. This survey covers representative works and trends in German politics, philosophy, literature, art and music, with emphasis on the Age of Goethe and Beethoven. Conducted in German. Prerequisite: 202, II a/y (4)

351, 352 COMPOSITION AND CONVERSATION

Intensive review of grammar with emphasis on idiomatic usage; use of contemporary authors as models of style. Conversation on topics of student interest. Conducted in German. Prerequisite: 202 or equivalent. I, II (4, 4)

421 GERMAN LITERATURE FROM THE ENLIGHTENMENT TO REALISM

Representative works of German literature from about 1750 to 1890, including *Sturm und Drang*, Classicism and Romanticism. Reading will include such authors as Goethe, Schiller, Buchner and Keller. Prerequisite: 202, I a/y (4)

422 TWENTIETH CENTURY GERMAN LITERATURE

Representative works from Naturalism to the present, including Expressionism and Socialist Realism. Readings will cover works from both east and west, and will include such authors as Brecht, Kafka, Thomas Mann, Rilke and Seghers. Prerequisite: 202, II a/y (4)

442 HISTORY OF THE GERMAN LANGUAGE

Historical development of German with reference to contemporary language; conducted in German. Prerequisite: 202, II a/y (4)

451 ADVANCED COMPOSITION AND CONVERSATION

Emphasis on idiomatic German using newspapers and other current sources for texts. Strongly recommended for students planning to obtain a credential to teach German in public secondary schools. Students should take this course in the junior or senior year. Conducted in German. Prerequisite: 352. (4)

491, 492 INDEPENDENT STUDY (2-4)**NORWEGIAN**

Major in Norwegian: A minimum of 32 semester hours, including 101-102, 201-202, 351-352, and Scandinavian 421 or 422.

Minor in Norwegian: 20 semester hours, which may include 101-102.

101, 102 ELEMENTARY NORWEGIAN

Introduces the students to the pleasure of speaking, reading, and writing a foreign language. These skills are developed through a conversational approach, using songs and other cultural materials. I, II (4, 4)

201, 202 INTERMEDIATE NORWEGIAN

Develops a command of the language while further acquainting students with the Norwegian cultural heritage. Reading selections introduce Norwegian folklore and daily life. I, II (4, 4)

351 CONVERSATION AND COMPOSITION

Increases student ability for self-expression, both orally and in writing. Contemporary materials are selected as models of style and usage. Prerequisite: 202 or equivalent. I (4)

352 ADVANCED CONVERSATION AND COMPOSITION

Emphasizes the finer points of structure, style, and good taste. Prerequisite: 351 or equivalent. II (4)

491, 492 INDEPENDENT STUDY (2-4)

L

Languages

SCANDINAVIAN

Major in Scandinavian Area Studies: 40 semester hours: A cross-disciplinary approach to the study of Scandinavia. See the section of this catalog on Scandinavian Area Studies.

150 INTRODUCTION TO SCANDINAVIA

An overview of the Nordic countries, highlighting contributions in art and music and the cultural life of Denmark, Finland, Iceland, Norway, and Sweden. The roads to parliamentary democracy and current issues in the five nations are also outlined. (2)

250 MASTERPIECES OF SCANDINAVIAN LITERATURE

A survey of major authors and works from the Scandinavian countries, beginning with the prose and poetry of the Viking Age. The contributions of Hans Christian Andersen, Knut Hamsun, Selma Lagerlof, and others are discussed. All readings in English translation. Satisfies the general university core requirement in literature. (4)

321 VIKINGS AND EMIGRANTS

Highlights of Scandinavian history, from the beginning to the present. Emphasis on periods and ways in which Scandinavia has contributed to world history. Readings in the original for majors; class conducted in English. a/y (4)

322 CONTEMPORARY SCANDINAVIA

Neutrality and occupation; the emergence of the welfare state; social reforms, planned economies, and cultural policies; Scandinavia and the European community. Readings in the original for majors; class conducted in English. a/y (4)

421 IBSEN AND STRINDBERG

The great writers of nineteenth century Scandinavian literature—Henrik Ibsen and August Strindberg—are studied against the backdrop of their time and the work of other authors who contributed to the breakthrough of modern forms and themes. Emphasis on drama. Class conducted in English; readings in translation for non-majors. Satisfies the general university core requirement in literature. a/y (4)

422 TWENTIETH CENTURY SCANDINAVIAN LITERATURE

Recent trends in Scandinavian literature are illustrated by leading writers like Isak Dinensen, Tarjei Vesaas, and Par Lagerkvist. Emphasis on prose fiction and poetry. Class conducted in English; readings in translation for non-majors. Satisfies the general university core requirement in literature. a/y (4)

491, 492 INDEPENDENT STUDY (1-4)

SIGN LANGUAGE

101, 102 SIGN LANGUAGE

An introduction to the structure of American Sign Language and to the world of the hearing-impaired. Basic signing skills and sign language vocabulary; fingerspelling; the particular needs and problems of deaf people. Material presented through demonstrations, drills, mime, recitals, lectures, and discussions. I, II (4, 4)

SPANISH

Major in Spanish: A minimum of 32 semester hours beyond 101-102, including 201-202, 321, 322, 351-352, and two 400-level courses.

Minor in Spanish: 20 semester hours, excluding 101-102 and including 201-202, 351, and two additional upper division courses.

101, 102 ELEMENTARY SPANISH

Essentials of pronunciation, intonation, and structure; basic skills in listening, speaking, reading, and writing. Laboratory attendance required. I, II (4, 4)

201, 202 INTERMEDIATE SPANISH

A continuation of elementary Spanish; reading selections which reflect the Hispanic cultural heritage as well as contemporary materials. Laboratory attendance required. I, II (4, 4)

321 CIVILIZATION AND CULTURE

Historic and artistic elements which have shaped Spanish thought and behavior from the beginnings to the present; conducted in Spanish. Prerequisite: 202. I (4)

322 LATIN AMERICAN CIVILIZATION AND CULTURE

Historic, artistic, literary, sociological, and geographic elements shaping the development of the Spanish-speaking New World. Both Hispanic and non-Hispanic elements will be studied. Prerequisite: 202 or equivalent. II (4)

351, 352 COMPOSITION AND CONVERSATION

Topics of current interest as a basis for improved oral and written expression; conducted in Spanish. Prerequisite: 202. I, II (4, 4)

421, 422 MASTERPIECES OF HISPANIC LITERATURE

All genres of major literary works from the *Poema del Cid*, to 1898; forces which produced the literature; appreciation of literature as a work of art. Prerequisite: 202. I, II a/y (4, 4)

431, 432 TWENTIETH CENTURY HISPANIC LITERATURE

The first course deals with the literature of Spain from the "Generacion de '98" to the present. The second course deals with the literature of Spanish America from the modernista movement (1888) to the present. Emphasis on period will vary. (4, 4)

442 HISTORY OF ROMANCE LANGUAGES

Historical development of Romance languages with reference to current languages; same as French 442. (4)

491, 492 INDEPENDENT STUDY (2-4)

Legal Studies Program

L

Legal Studies Program

Legal Studies is an interdisciplinary degree program focusing on the nature of law and judicial processes. Consistent with the purposes of the American Legal Studies Association, the Legal Studies Program at PLU provides alternative approaches to the study of law from the academic framework of the social sciences, the humanities, business, and education. The program emphasizes the development of a critical understanding of the functions of law, the mutual impacts of law and society, and the sources of law. Students in Legal Studies pursue these goals through courses, directed research, and internships in offices and agencies involved in litigation and legal processes.

FACULTY

Atkinson, *Director*; Bermingham, Brue, DeBower, Dwyer-Shick, Farmer, Jobst, Lauer, P. Menzel, and Ulbricht.

BACHELOR OF ARTS MAJOR: 32 semester hours.

- Required courses* (12 hours):
Introduction to Legal Studies (POLS 170)
Judicial Process (POLS 371)
Legal Research (POLS 374)
- General electives* (8 hours): Two courses from the following:
American Legal History (HIST 451)
Comparative Legal Systems (POLS 381)
Philosophy of Law (PHIL 328)
Sociology of Law (SOC 351)
- Special electives* (12 hours): Three courses from the following (also, courses in group 2 not taken to fulfill general elective requirements may be used to fulfill special elective requirements in group 3):
Business Law (BA 435)
Civil Liberties (POLS 373)
Constitutional Law (POLS 372)
Court Administration (POLS 571)
Educational Law (EDUC 551)
Industrial Organization and Public Policy (ECON371)
International Organization and Law (POLS 336)
Internship in Legal Studies (POLS 471)
Law and Society (BA 230)
Law and the Human Services (SOCW 458)

MINOR: 20 semester hours, including Political Science 170 and four additional courses selected in consultation with the program director.

Marriage and Family Therapy

M

Marriage and
Family Therapy

The Marriage and Family Therapy program is a graduate program leading to the M.A. in Social Sciences. For further information, consult the Graduate Catalog.

COURSE OFFERINGS

501 GRADUATE WORKSHOPS

Graduate workshops in special fields or areas for varying periods of time. (1-4)

503 SYSTEMS APPROACH TO MARRIAGE AND FAMILY THERAPY

An introduction to the systems theory approach for treatment strategy and intervention. Exploration of the family life cycle and family systems oriented assessment models. Strategies for initial interviews, hypothesis formulation, designing a strategy of intervention, and the process of termination. (4)

507 COMPARATIVE MARRIAGE AND FAMILY THERAPY

Intensive comparative study of the theoretical rationale of the prominent schools of thought within the field of marriage and family therapy. Studies include the range of strategies, techniques and research of structural, behavioral communication, and analytical approaches to marriage and family therapy. (4)

M

Mathematics

510 SEX THERAPY

Basic principles and strategies of treatment for the six most common sexual dysfunctions. The nature of sexual health, a brief review of anatomy and physiology of the sexual response, and the biological and psychological determinants of sexual dysfunction. (2)

511 PSYCHOSOCIAL PATHOLOGY: RELATIONSHIP TO MARRIAGE AND THE FAMILY

The assessment of psychosocial pathology and its relationship to family interpersonal structures and dynamics. Exploration of the treatment techniques and assumptions of leading family therapists regarding such psychosocial dysfunctions as divorce, family violence, delinquency, psychosomatic symptoms, drug addiction, and disturbed adolescents. (2)

519 PRACTICUM I (4)**520 PRACTICUM II (4)****521 PRACTICUM III (4)****522 PRACTICUM IV (4)**

The four semesters of practica are part of a continuous process toward developing specific therapeutic competencies in work with marriages and families. The practica present a competency-based program in which each student is evaluated regarding: 1) case management skills; 2) relationship skills; 3) perceptual skills; 4) conceptual skills; and 5) structuring skills.

590 GRADUATE SEMINAR

Selected topics as announced. Prerequisite: consent of the instructor. (1-4)

591 DIRECTED STUDY (1-4)**595 GRADUATE READINGS**

Independent study card required. (4)

598 RESEARCH PROJECT (4)**599 THESIS (4)**

Mathematics

Mathematics is a many-faceted subject that is extremely useful in its application, but at the same time is fascinating and beautiful in the abstract. It is an indispensable tool for industry, science, government, and the business world, while the elegance of its logic and beauty of form have intrigued scholars, philosophers, and artists since earliest times.

The mathematics program at Pacific Lutheran University is designed to serve five main objectives: (1) To provide backgrounds for other disciplines, (2) to provide a comprehensive pre-professional program for those directly entering the fields of teaching and applied mathematics, (3) to provide a nucleus of essential courses which will develop the breadth and maturity of mathematical thought for continued study of mathematics at the graduate level, (4) to develop the mental skills necessary for the creation, analysis, and critique of mathematical logic within the context of mathematical topics, and (5) to provide a view of mathematics as a part of humanistic behavior.

The Department of Mathematics and Computer Science offers majors in both mathematics and computer science as well as minors in mathematics, computer science, information science, and statistics. Many of the faculty teach both mathematics and computer science.

FACULTY: *Mathematics and Computer Science*

Edison, Chair; Bandy, Batker, Beaulieu, Brink, Cook, Dollinger, B. Dorner, C. Dorner, Harter, J. Herzog, M. Herzog, Hoxit, N. C. Meyer, C. L. Nelson, G. Peterson, Rosenfeld, Ruble, Scott, Spillman, Yiu.

BEGINNING CLASSES

Majors in mathematics, computer science, and other sciences usually take Math 151 and 152 (calculus). Those who have had calculus in high school may omit Math 151 and enroll in 152 after consultation with a member of the departmental faculty. Those who have less mathematics background may enroll in Math 133 (algebra/trigonometry) or Math 112 before taking 151. A placement test is given in class the first day of Math 151 to determine readiness for calculus.

Business majors usually take Math 128. Those wishing a stronger mathematics background should take Math 151 and Math 230 or 331 in place of Math 128.

Others choose from Math 115, 128, 133, or 151 or Computer Science 110-210 or 144 or an interim class depending on their interests and levels of preparation.

Remedial: Math 91 (Intermediate Algebra) is available for those who are not ready for other classes. Math 91 does not count toward graduation requirements.

MATHEMATICS MAJOR

The foundation of the mathematics program for majors is the four semester calculus and linear algebra sequence, Math 151, 152, 253, and 331. These courses are usually taken in sequence the first four semesters. Students with a calculus background in high school may receive advanced placement into the appropriate course in the sequence. Upper division work includes courses in modern algebra, analysis, statistics, applied mathematics, and topology.

Students majoring in mathematics are encouraged to include work in computer science. Since many careers involve applying mathematics to other areas, it is a good idea to pick one or more subjects outside mathematics for additional study (perhaps leading to a minor). While many subjects are appropriate, some of the more common ones are economics, business, physics, engineering, chemistry, and biology.

A typical major program in mathematics is as follows:

Freshman year:	Math 151, 152 Computer Science 144
Sophomore year:	Math 253, 331 Physics 153, 154 (if not taken earlier)
Junior & Senior years:	Math 433, 434, 455, 456, 486 and other electives from mathematics and computer science.

BACHELOR OF ARTS MAJOR: Minimum of 28 semester hours in mathematics courses numbered above 150, including 331, 433, 455, 486, and either 434 or 456. The choice between 434 or 456 may be replaced by taking 8 semester hours from 321, 335, 341, 345-346, 351, and 490. Required supporting: Computer Science 144, which should be taken in the freshman year. 8 semester hours in physics are strongly recommended. Students planning to do graduate work in mathematics should complete both 434 and 456.

BACHELOR OF SCIENCE MAJOR: 40 semester hours, including 331 and 486 and at least 20 semester hours of upper division mathematics courses. 12 hours of the upper division requirements must come from 433, 434, 455, and 456. Required supporting: Computer Science 144, which should be taken in the freshman year; Physics 153-154. Physics 356 or Computer Science 348 or 570 may be substituted for one course of upper division mathematics.

BACHELOR OF ARTS IN EDUCATION: See School of Education.

MINOR IN MATHEMATICS: 20 semester hours of mathematics courses, including 151, 152, 253, and 8 hours of upper division mathematics courses. Strongly recommended: Computer Science 144 or 110. Interim courses and 323, 324, and 446 may not be counted toward the mathematics minor.

MINOR IN STATISTICS: See Statistics section of this catalog.

COURSE OFFERINGS

A grade of C or higher is strongly recommended in all prerequisite courses.

91 INTERMEDIATE ALGEBRA

A review of high school algebra: solving linear and quadratic equations, factoring, simplifying expressions, exponents and graphing. Designed for students whose mathematical preparation is inadequate for Math 128 or Math 133. Does not count toward graduation requirements. I II (4)

99 DIRECTED STUDY IN FUNDAMENTAL MATHEMATICS

Designed for students who need further help with the basics in mathematics to prepare them for higher level courses. Enrollment by arrangement with instructor. Does not count toward graduation requirements. (1-4)

112 PLANE TRIGONOMETRY

Trigonometric and inverse trigonometric functions, identities, graphing, solution of triangles; logarithmic and exponential functions and other tools such as complex numbers. This class meets with Math 133 in the second half of the semester. For students who are proficient in algebra but do not know trigonometry. Prerequisite: at least two years of high school algebra. I II (2)

115 INTRODUCTION TO THE WORLD OF MATHEMATICS AND COMPUTERS

A study of mathematics and computers in the modern world with a wide variety of applications and a historical perspective. This class is designed for students without extensive knowledge of mathematics, but who want to acquire a basic understanding of the nature of mathematics and computers. Not intended for majors in science or mathematics or computer science. Some BASIC programming is included. Prerequisite: one year of high school algebra. I II (4)

128 MATHEMATICS FOR BUSINESS AND THE BEHAVIORAL SCIENCES

Algebra review, matrix theory and linear programming, introduction to differential and integral calculus. Concepts are developed stressing applications. This course is primarily for business administration majors but is open to all students interested in business, economics, and behavioral science applications. Prerequisite: two years of high school algebra or Math 91 or equivalent. I II (4)

133 COLLEGE ALGEBRA AND TRIGONOMETRY

Solving equations, graphing, functions, inverse functions, logarithms, exponentials, trigonometric functions and their inverses, identities, solution of triangles and other topics such as systems of equations and complex numbers. This course is primarily for students majoring in the sciences and for those needing a precalculus course but is open to all interested students. Prerequisite: two years of high school algebra or Math 91 or equivalent. I II (4)

151 ANALYTIC GEOMETRY AND CALCULUS

Analytic geometry, functions, limits, derivatives and integrals with applications, L'Hospital's Rule. Prerequisite: two years of high school algebra and trigonometry (or concurrent registration in 112) or 133 or equivalent. I II (4)

152 ANALYTIC GEOMETRY AND CALCULUS

Integrations, applications, and techniques of integration, transcendental functions, polar coordinates, improper integrals, introduction to vectors and partial differentiation. Prerequisite: 151. I II (4)

199 DIRECTED READING

Supervised study of topics selected to meet the individual's needs or interests; primarily for students awarded advanced placement. Admission only by departmental invitation. (1-2)

230 MATRIX ALGEBRA

A survey of matrix algebra and determinants with applications, such as linear programming. A first look at abstract methods including some techniques of proof. Prerequisite: 151. I II (2)

253 MULTIVARIABLE CALCULUS AND DIFFERENTIAL EQUATIONS

An introduction to vectors, multidimensional calculus, infinite series, differential equations, and applications. Emphasis on using these topics as tools for solving physical problems. Prerequisite: 152. I II (4)

321 GEOMETRY

Foundations of geometry and basic theory in Euclidean, projective, and non-Euclidean geometry. Prerequisite: 152 or consent. a/y I 1986-87 (4)

323 MODERN ELEMENTARY MATHEMATICS

Concepts underlying traditional computational techniques; a systematic analysis of arithmetic; an intuitive approach to algebra and geometry. Intended for elementary teaching majors. Prerequisite to EDUC 326. Prerequisite: consent of instructor. I II (4)

324 ALGEBRA AND GEOMETRY FOR THE ELEMENTARY SCHOOL TEACHER

Properties of real numbers, linear and quadratic equations and inequalities, complex numbers, polynomials, algebraic structures, functions; a study of informal geometry from a mature viewpoint using modern vocabulary and notation. Geometry topics include congruence, similarity, symmetry, properties of geometry figures such as quadrilaterals and circles, and relationships among geometrical figures. Prerequisite: 323 or by placement exam. (4)

331 LINEAR ALGEBRA

Vectors and vector spaces, matrices, inner product spaces, linear transformations. Prerequisite: 152. I II (4)

334 ANALYSIS OF VARIANCE AND EXPERIMENTAL DESIGN

Random sampling, factors which destroy experimental design, one-way analysis of variance, two-way analysis of variance, factored design, block and latin square design. Students will also critique published experiments and perform an experimental design project. Prerequisite: STAT 231 or equivalent. a/y II 1986-87 (2)

335 DISCRETE STRUCTURES

A first course in the abstract structures and methods of computer science. The logical structure of sets, relations, functions, combinatorics, graph theory, Boolean algebras, switching theory, groups and coding theory will be surveyed through problems and theorems whose solutions and proofs clarify logical relationships. Prerequisites: 152 and either 230 or 331. I II (4)

341 MATHEMATICAL STATISTICS I

Introduction to probability (sample spaces, discrete and continuous distributions, expectations), Chebyshev's inequality, special distributions (binomial, Poisson, normal, gamma and chi square), statement of Central Limit Theorem, sampling distributions, multivariate, marginal and conditional distributions, confidence intervals, t-test, F-tests, hypothesis testing, survey of analysis of variance and regression. Prerequisite: 152. I (4)

342 MATHEMATICAL STATISTICS II

Statistical estimators and their properties, limiting distributions, moment generating functions and proof of Central Limit Theorem, convergence in probability and convergence in distribution, consistency, sufficient statistics and Lehmann-Sheffe Theorem, Bayesian statistics, order statistics and nonparametric methods, random walks, Markov chains and introduction to continuous time stochastic processes. Prerequisite: 341. a/y II 1987-88 (4)

M

Music

345 INTRODUCTION TO NUMERICAL ANALYSIS

Numerical theory and applications in the areas of solutions of equations, linear systems, interpolation, and approximation. Prerequisite: 152 and (144 or 110) or consent of instructor. I (2)

346 NUMERICAL ANALYSIS

Continuation of 345, including numerical theory and applications in the areas of matrix theory, numerical differentiation and integration, and solution of differential equations. Prerequisites: 253 and 345 or consent of instructor. II a/y 1987-88 (2)

351 DIFFERENTIAL EQUATIONS

An introduction to differential equations emphasizing the applied aspect. First and second order differential equations, boundary-value and eigenvalue problems, power series solutions, nonlinear differential equations, numerical methods, the Laplace transformation. Prerequisite: 253. II a/y 1986-87 (4)

433, 434 ABSTRACT ALGEBRA

Topics from groups, rings, modules, fields, field extensions, and linear algebra. Prerequisites: for 433, 335 or 331; for 434, 331 and 433. 434 offered a/y II 1987-88 (4, 4)

446 MATHEMATICS IN THE SECONDARY SCHOOL

Methods and materials in secondary school math teaching. Basic

mathematical concepts; principles of number operation, relation, proof, and problem solving in the context of arithmetic, algebra, and geometry. Prerequisite: 253 or 331 or equivalent. I (2)

455, 456 MATHEMATICAL ANALYSIS

Extended treatment of topics introduced in elementary calculus. Prerequisite: 253 and 331. 455 offered I each year; 456 offered II a/y 1986-87 (4)

486 SENIOR SEMINAR

Presentation by students of knowledge gained in research under the direction of an assigned professor. Required of all senior math majors seeking a B.A. or B.S. degree. Prerequisite: senior math major or consent of department chair. I, II (1)

490 TOPICS IN MATHEMATICS

Topic of course will vary from year to year. Possible topics include: Number Theory, Combinatorics, Stochastic Processes, Topology, Group Representations, Complex Analysis, Partial Differential Equations, Operations Research. Prerequisite: consent of instructor. II (4)

491, 492 INDEPENDENT STUDY

Prerequisite: consent of department chair. I II (1-4)

597, 598 GRADUATE RESEARCH

Open to master's degree candidates only. Prerequisite: consent of department chair. I II (1-4)

Music

The study of music is, in these times of stress and rapid change, a type of investment that can provide enduring satisfaction.

The staff and facilities of Pacific Lutheran University are such that students may pursue studies in many branches of music leading to academic degrees as well as lifelong enjoyment. Degree programs include the Bachelor of Arts, the Bachelor of Fine Arts, the Bachelor of Music, and the Master of Music, which is offered with concentration in either conducting, composition, education, or performance. The Bachelor of Arts in Education with a major in music is offered for those intending to become teachers in the public schools.

Both the undergraduate and graduate programs are accredited regionally and nationally. Pacific Lutheran University is an associate member of the National Association of Schools of Music.

PLU music graduates find places for themselves as teachers of music in public and private schools and colleges, and as conductors, composers, private teachers, and classroom teachers. A considerable number contribute greatly to church worship as organists, choir directors, or full-time ministers. Some have found satisfying careers in music merchandising, others in concert management. Still others, with emphasis on performance, are in opera and on the concert stage, as well as in popular entertainment, vocally and instrumentally.

Facilities include space and instruments for individual practice and recital. Private study in keyboard is available in piano, organ, and harpsichord. Other private study includes voice and all string, wind, and percussion instruments, taught by regularly performing musicians. Professional-quality experience is available to qualified performers in band, orchestra, choir, jazz, and chamber ensembles.

Exposure to musical literature is to be gained not only through intensive course work in history and literature, but also in attendance at the large number of concerts annually presented by the performing organizations as well as by students, faculty, and guest artists in recital.

It must be emphasized that music majors form but a part of the multi-faceted program of music at PLU. All students are eligible to audition for the performing organizations and constitute perhaps half of the membership. Introductory music courses during both the regular semesters and the interim are designed for exploration and self-fulfillment.

FACULTY

Robbins, *Chair*; Dahl, K. Vaught Farner, R. Farner, Frohnmayer, Gard, Grieshaber, Harmic, Hoffman, C. Knapp, Kracht, L. Meyer, Ponto, B. Poulshock, Sparks, Tremaine, Youtz; assisted by Bloomingdale, Dobbs, Dombourian-Eby, Harty, S. Knapp, Mazzolini, McCarty, Moore, Odegard, Oram, Pressley, N. Poulshock, Shapiro, Timmerman, Wall.

For introductory courses to the field of music, see the descriptions of Music 101, 102, 103, and 104

Students intending to major in music should begin the major music sequences in the first year. Failure to do so may mean an extra semester or year to complete the major program.

Following is the program for all entering freshmen who intend to major in music:

Courses	Fall	Spring
Theory: 123, 124	3	2
Music History: 231		4
Ear Training: 125, 126	1	1
Class Piano: 201	1	1
Private Instruction:	1	1
Large Ensemble (performance majors in some areas may postpone this)	1	1
Physical Education	1	1
General University Requirements	4	4

MUSIC MINOR

MINOR: 20 semester hours, including Music 123, 125, Music 124, 126 or Music 127; 4 hours of Private Instruction (Music 201-219); 4 hours of Ensemble (Music 360-384); one of the following—Music 101, 102, 103, 104, 132, 231, 439 or two of the following—331, 335, 353, 354, 431, 432, 436, 437, 438; 1 hour of music elective.

UNDERGRADUATE MUSIC MAJOR DEGREES

ENTRANCE AUDITION: To be admitted to a music major program, prospective students must audition for the music faculty.

Music majors should fill out a declaration of major form during their first semester of enrollment in the program and be assigned to a music faculty adviser.

Only grades of "C -" or better in music courses may be counted toward a music major. Courses in which the student receives lower than a "C -" must be repeated unless substitute course work is authorized by the department.

MUSIC CORE: The following core is required in all music degree programs with the exception of Junior High Teaching Minor (non-specialist), Elementary Teaching Major (non-specialist), and Elementary Teaching Minor (non-specialist):

Theory: 123, 124, 223,	7 hours
Music History: 132, 231,	8 hours
Ear Training: 125, 126, 225, 226	4 hours
20th Century: 227	3 hours
	<u>22 hours</u>

BACHELOR OF ARTS MAJOR: Maximum of 40 semester hours including Music Core (22 hours), plus 4 hours of ensemble; 6 hours of literature/theory electives from 327-335, 423-439; 8 hours of private instruction, piano (minimum class level 2). In addition to requirements listed above, candidates for the B.A. degree must meet the foreign language/alternative requirement in the College of Arts and Sciences.

BACHELOR OF ARTS IN EDUCATION:

Bachelor of Arts in Education-7-12 Choral (Secondary)

Bachelor of Arts in Education-K-12 Choral

Bachelor of Arts in Education-K-8 Music Specialist

Bachelor of Arts in Education-K-12

Instrumental (Band Emphasis)

Bachelor of Arts in Education-K-12 Instrumental

(Orchestra Emphasis)

Consult the School of Education section of this catalog.

BACHELOR OF MUSIC

- Bachelor of Music in Instrumental Performance
- Bachelor of Music in Organ Performance
- Bachelor of Music in Piano Performance
- Bachelor of Music in Vocal Performance
- Bachelor of Music in Composition
- Bachelor of Music in Church Music

BACHELOR OF MUSIC- INSTRUMENTAL PERFORMANCE

Music	Core		22
370/371			
380	Large Ensemble		8
323	Counterpoint		2
326	Orchestration		2
345	Basic Conducting		2
2/4	Private Instruction	22 (8 semesters*)	
420**			
201	Class Piano: Min. Level 4		2
381	Chamber Ensemble		4
384	Contemporary Arts Ensemble		1
423	Form I		2
424 or 425	Form II or III		2
445	Advanced Conducting		2
439	Senior Seminar: Topics in Music Literature		4
	Total		75

*Consecutive fall/spring semesters.

**Full recital.

Violin/Viola majors will take an additional 2 semester hours of

Music 491 Independent Study: String Pedagogy.
Recommended: Music 324 Advanced Counterpoint.

BACHELOR OF MUSIC-ORGAN PERFORMANCE

Music	Core		22
	Ensemble (to include Chamber Ensemble)		5
323	Counterpoint		2
324	Advanced Counterpoint		2
331	Music of J.S. Bach		2
335	Church Music		2
345	Basic Conducting		2
352	Organ Improvisation		2
384	Contemporary Arts Ensemble		1
203/403	Private Instruction: Organ	19 (8 semesters*)	
420**			
218	Private Instruction: Harpsichord	2 (2 semesters)	
423	Form I		2
424 or 425	Form II or III		2
436	History of Organ Building		2
437	Masterpieces of Sacred Music		2
438	Hymnology and Music of the Liturgy		2
439	Senior Seminar: Topics in Music Literature		4
	Total		75

*Consecutive fall/spring semesters.

** Full recital.

BACHELOR OF MUSIC-PIANO PERFORMANCE

Music	Core		22
Music	Large Ensemble		2
Music	Counterpoint		2
323	Counterpoint		2
324	Advanced Counterpoint		2
345	Basic Conducting		2
202/402	Private Instruction: Piano	23 (8 semesters*)	
420**			
218	Private Instruction: Harpsichord		1
351	Accompanying***		2
383	Two Piano Ensemble		2
384	Contemporary Arts Ensemble		1
423	Form I		2
424 or 425	Form II or III		2
431	History of Piano Literature and Performance		2
451	Piano Pedagogy***		4
439	Senior Seminar: Topics in Music Literature		4
201	Class Piano: Min. Level 8		2
	Total		75

*Consecutive fall/spring semesters.

** Full Recital

***Piano performance majors may elect additional emphasis in accompanying or pedagogy. Those seeking emphasis in accompanying shall elect two additional hours of Music 351 and shall accompany two full vocal or instrumental recitals. Those seeking emphasis in pedagogy shall elect four additional hours of Music 451.

BACHELOR OF MUSIC-VOCAL PERFORMANCE

Music	Core		22
360-363	Large Ensemble		8
323	Counterpoint		2
345	Basic Conducting		2
201	Class Piano: Min. Level 8		4
204/404*	Private Instruction: Voice	19 (8 semesters*)	
420**			
253	Diction I		1
254	Diction II		1
353	Solo Vocal Literature		2
354	History of Music Theater		2
366	Opera Workshop		2
423	Form I		2
424 or 425	Form II or III		2
453	Vocal Pedagogy		2
439	Senior Seminar: Topics in Music Literature		4
	Total		75

*Consecutive fall/spring semesters.

** Full recital.

Recommended: Music 324 Advanced Counterpoint
PE 241 Modern Dance
COMA 250 Fundamentals of Acting

BACHELOR OF MUSIC—COMPOSITION

Music	Core	22
	Large Ensemble	2
249	Electronic Music Laboratory	1
323	Counterpoint	2
324	Advanced Counterpoint	2
326	Orchestration	2
327	Composition (private study)	16
345	Basic Conducting	2
2/4	Private Instruction: Principal Instrument	6
201	Class Piano: Min. Level 8	4
384	Contemporary Arts Ensemble	2
423	Form I	2
424	Form II	2
425	Form III	2
432	Music of the World's People	2
445	Advanced Conducting	2
439	Senior Seminar: Topics in Music Literature	4
	Total	75

BACHELOR OF MUSIC—CHURCH MUSIC

Music	Core	22
360-363	Choral Ensemble	6
203/403		
or 204/404	Principal Instrument (Organ or Voice)	14 (8 semesters*)
420**		
204/404		
or 203/403	Secondary Instrument (Voice or Organ)	4 (4 semesters*)
352 or 201	Organ Improvisation or Class Piano: Min. Level 8	2
323	Counterpoint	2
324	Advanced Counterpoint	2
331	Music of J. S. Bach	2
335	Church Music	2
345	Basic Conducting	2
381	Chamber Ensemble	2
384	Contemporary Arts Ensemble	1
423	Form I	2

437	Masterpieces of Sacred Music	2
438	Hymnology and Music of the Liturgy	2
445	Advanced Conducting	2
439	Senior Seminar: Topics in Music Literature	4
	Total	75

*Consecutive fall/spring semesters.

** Full Recital.

Strongly Recommended: Additional religion courses beyond the required courses of Core I or II.

MASTER OF MUSIC DEGREES

Master of Music in Composition, Conducting, Music Education, and Performance

Consult the *Graduate Catalog* for details of the Master of Music program.

COURSE OFFERINGS

101 INTRODUCTION TO MUSIC

Introduction to music literature with emphasis on listening, structure, period, and style. Designed to enhance the enjoyment and understanding of music. Not open to majors. I (4)

102 UNDERSTANDING MUSIC THROUGH MELODY

Introduction to the musical arts through a systematic exploration of melody as a primary musical impulse in a wide variety of musical styles including ethnic (folk), popular, jazz, rock, classical, opera, and musical theater. Designed to enhance the enjoyment and understanding of all music through increased sensitivity to melody. Not open to majors. II (4)

103 HISTORY OF JAZZ

Survey of America's unique art form: jazz. Emphasis on history, listening, structure, and style from early developments through recent trends. Meets Core I requirement in arts/literature, line I. II (4)

104 MUSIC AND TECHNOLOGY

Survey of the impact of technology on the musical arts, from the evolution of musical instruments through the audio/video technology of today including synthesizers, computers, MTV, live concerts, and recording studio techniques. "Hands-on" experience with today's technology and building of original instruments as well as directed study of the broader implications of the current technological revolution. Meets Core I requirement in arts/literature, line I. I (4)

123 THEORY I

The study of musical terms, fundamentals, notation, melody writing, and harmonization through analysis and writing. I (3)

124 THEORY II

A continuation of 123. II (2)

125 EAR TRAINING I

Development of aural skills in simple rhythmic dictation, intervals, sight-singing using progressive exercises consisting of short melodies. I (1)

126 EAR TRAINING II

Continued development of aural skills in sight-singing, melodic and rhythmic dictation. Elementary harmonic dictation. II (1)

127 JAZZ THEORY

Introduction to the theoretical basis of jazz, including melodic, harmonic, and formal aspects as well as ear training. Prerequisite: 123, 125, or consent of instructor. a/y I (3)

132 MUSIC HISTORY I

The evolution of Western music from the early Christian era through the Middle Ages, Renaissance, and Baroque eras. Prerequisite: 123. I (4)

201 CLASS INSTRUCTION: PIANO (1)**202 PRIVATE INSTRUCTION: PIANO (1-4)****203 PRIVATE INSTRUCTION: ORGAN (1-4)****204 PRIVATE AND CLASS INSTRUCTION: VOICE (1-4)****205 PRIVATE INSTRUCTION: VIOLIN/VIOLA (1-4)****206 PRIVATE INSTRUCTION: CELLO/BASS (1-4)****207 PRIVATE INSTRUCTION: FLUTE (1-4)****208 PRIVATE INSTRUCTION: OBOE/ENGLISH HORN (1-4)****209 PRIVATE INSTRUCTION: BASSOON (1-4)****210 PRIVATE INSTRUCTION: CLARINET (1-4)****211 PRIVATE INSTRUCTION: SAXOPHONE (1-4)****212 PRIVATE INSTRUCTION: TRUMPET (1-4)****213 PRIVATE INSTRUCTION: FRENCH HORN (1-4)****214 PRIVATE INSTRUCTION: TROMBONE/BARITONE (1-4)****215 PRIVATE INSTRUCTION: TUBA (1-4)****216 PRIVATE INSTRUCTION: PERCUSSION (1-4)****217 PRIVATE AND CLASS INSTRUCTION: GUITAR (1-4)****218 PRIVATE INSTRUCTION: HARP (1-4)****219 PRIVATE INSTRUCTION: HARPSICHORD (1-4)**

M

Music

M

Music

1 Credit

Fall and Spring Semesters: One half-hour private or two one-hour class lessons per week in addition to daily practice. Interim: Two 45-minute lessons per week in addition to daily practice.

2-4 Credits

Fall and Spring Semesters: Two half-hour private lessons per week in addition to daily practice.

Students in piano, voice, and guitar may be assigned to class instruction at the discretion of the music faculty. Special fee in addition to tuition.

223 THEORY III

Systematic study of emergent theoretical constructs from the 18th and 19th century as represented in literature of that period. I (2)

225 EAR TRAINING III

Advanced aural skills through extended rhythms and melodies. Emphasis on harmonic dictation. I (1)

226 EAR TRAINING IV

Sight-singing, including pan-tonal melodies. Harmonic dictation of modulatory chord progressions involving chromatic alteration. Advanced rhythmic dictation. II (1)

227 20TH CENTURY MUSIC

The evolution of Western art music in the 20th century from early developments to current trends, including study of emergent theoretical constructs. Prerequisites: 223, 231. II (3)

231 MUSIC HISTORY II

The evolution of Western music in the Classic and Romantic eras. Prerequisites: 123. II (4)

240 FOUNDATIONS OF MUSIC EDUCATION

Introduction to the basics of teaching music, including philosophy, content, student characteristics, and the nature and organization of musical learning. For students preparing to become music specialists (music education majors only). I (3)

241-242 STRING LABORATORY

Methods and materials of teaching and playing string instruments in the public schools. I,II (1, 1)

243-244 WOODWIND LABORATORY

Methods and materials of teaching and playing woodwind instruments in the public schools. I,II (1, 1)

245-246 BRASS/PERCUSSION LABORATORY

Methods and materials of teaching and playing brass and percussion instruments in the public schools. I,II (1, 1)

248 GUITAR LABORATORY

Methods and materials of teaching and playing guitar in the public schools. I (1)

249 ELECTRONIC MUSIC LABORATORY

A laboratory experience dealing with materials and methods of elementary electronic music synthesis. Real-time experience in the electronic music studio, as well as discussion of various popular synthesizers, electronic music aesthetics, and the use of electronic instruments in secondary education. II (1)

253 DICTION I

Rules and techniques of accurate pronunciation, enunciation, and projection of Italian and German; class discussions, performances, and critiques. a/y I (1)

254 DICTION II

Rules and techniques of accurate pronunciation, enunciation, and projection of French; class discussions, performances, and critiques. a/y II (1)

323 COUNTERPOINT

Introduction to the concept, historical evolution and compositional craft of counterpoint. Major emphasis on eighteenth century style of Bach and his contemporaries. a/y I (2)

324 ADVANCED COUNTERPOINT

Advanced techniques of fugue writing. Further analysis of 18th, 19th and 20th century contrapuntal music. Introduction to Schenker (reductionist) analysis. a/y II (2)

326 ORCHESTRATION

The range, transposition, sound, and technical characteristics of instruments. Notation, scoring, and arranging for conventional and unique instrument groupings. Prerequisite: 223. a/y (2)

327 COMPOSITION

A systematic approach to contemporary musical composition; students create and notate works for solo, small and large ensembles. May be repeated for additional credit. Special fee in addition to tuition. (1-4)

328 ARRANGING

Study of orchestrational techniques applied to commercial music. Prerequisite: 326 or consent of instructor. a/y I (2)

331 MUSIC OF JOHANN SEBASTIAN BACH

A study of selected works representing each of the primary areas of the creative genius of J.S. Bach. a/y (2)

335 CHURCH MUSIC

Survey of choral music related to the church year suitable for the parish choir. Particular emphasis on building the parish music library. a/y (2)

340 FUNDAMENTALS OF MUSIC EDUCATION

Offered spring semester for students planning to be music specialists, this course provides detailed planning of curricula for various musical skills at different grade levels. Group, individual, and small group instruction, sectionals and large group management also discussed. Evaluation, grading, written notices, objectives, goals, course goals, and IEP's for special education, observation of a class at two different situations, interviewing for a job, working with parents, faculty, administration, and community. Prerequisite: 240. II (2)

341 MUSIC FOR CLASSROOM TEACHERS

Methods and procedures in teaching elementary school music as well as infusing the arts in the curriculum. Offered for students preparing for elementary classroom teaching (non-music education majors). II (2)

342 MATERIALS IN K-9 MUSIC

Study of skill acquisitions, music concepts, and analyzing the range of available resources, including ethnic music and computer assisted instruction. Offered for students preparing to become music specialists (music education majors only). Prerequisite: 240, 340. I (2)

344 BEGINNING JAZZ IMPROVISATION

Introduction to small group jazz performance emphasizing individual improvisation in a variety of jazz styles. a/y I (1)

345 BASIC CONDUCTING

Introduction to basic patterns, gestures, and conducting techniques; application to appropriate vocal and instrumental scores. I (2)

348 PRACTICUM IN MUSIC EDUCATION

Field experience including observation and limited teaching in the schools. Discussion and analysis complements field work. Prerequisite: 340; recommended EDUC 251 or 253. I (1)

349 ELECTRONIC MUSIC PRACTICUM

Application of electronic techniques to compositional process. Assigned studio time on a regular basis. Prerequisite: 249. (1-2)

351 ACCOMPANYING

Practice in accompanying representative vocal and instrumental solo literature from all periods. Special fee in addition to tuition. (1)

352 ORGAN IMPROVISATION

Basic techniques of improvisation, particularly as related to hymn tunes. a/y (2)

353 SOLO VOCAL LITERATURE

Survey of solo vocal literature. a/y (2)

354 HISTORY OF MUSIC THEATER

A general survey of the evolution of "Drama per Musica" from opera to musical comedy including in depth study of selected scores. a/y (2)

360 CHOIR OF THE WEST

A study of a wide variety of choral literature and technique through rehearsal and performance of both sacred and secular music. Auditions at the beginning of fall semester. (1)

361 UNIVERSITY CHORALE

A study of choral literature and technique through rehearsal and performance of both sacred and secular music. Emphasis on individual vocal and musical development through choral singing. Auditions at the beginning of fall semester. (1)

M

Music

362 UNIVERSITY MEN'S CHORUS

The study and performance of repertoire for men's voices. Emphasis on individual vocal and musical development. (1)

363 UNIVERSITY SINGERS

The study and performance of repertoire for women's voices. Emphasis on individual vocal and musical development. (1)

365 CHAPEL CHOIR

Repertoire experience with appropriate literature for ongoing church music programs of a liturgical nature. Regular performances for University Chapel Worship. Participation without credit available. (1)

366 OPERA WORKSHOP

Production of chamber opera and opera scenes. Participation in all facets of production. Prerequisite: consent of instructor. (1)

368 CHORAL UNION

Rehearsal and performance of major works in the choral/orchestral repertoire. Open to the community as well as PLU students; membership by audition. Special fee in addition to tuition. (1)

370 WIND ENSEMBLE

Study and performance of selected wind and percussion literature using various size ensembles. Membership by audition. (1)

371 CONCERT BAND

Study of selected band literature through rehearsal and performance. Designed especially for the non-major; no audition necessary. Prerequisite: having played instrument through at least junior year of high school or consent of instructor. (1)

375 UNIVERSITY JAZZ ENSEMBLE

Study of selected big band literature through rehearsal and performance. Membership by audition. (1)

376 JAZZ LABORATORY ENSEMBLE

Study of the basic style of playing jazz through rehearsal and performance. Membership by audition. (1)

380 UNIVERSITY SYMPHONY ORCHESTRA

Study of selected orchestral literature through rehearsal and performance. Membership by audition. (1)

381 CHAMBER ENSEMBLE

Reading, rehearsal, and performance of selected instrumental chamber music. Prerequisite: consent of instructor. (1) Section A-String; Section B-Brass; Section C-Woodwind; Section D-Early Instruments.

382 CONTEMPORARY DIRECTIONS ENSEMBLE

Public and laboratory performance of contemporary music. (1)

383 TWO PIANO ENSEMBLE

Techniques and practice in the performance of two-piano and piano duet literature; includes sight reading and program planning. (1)

384 CONTEMPORARY ARTS ENSEMBLE

A performance ensemble integrating all the arts—literary, visual and performing. Original performance pieces are conceived, developed and performed by the ensemble using techniques from story and song to electronics and video. Prerequisite: consent of instructor. (1)

401 PRIVATE INSTRUCTION: JAZZ (1-4)**402 PRIVATE INSTRUCTION: PIANO (1-4)****403 PRIVATE INSTRUCTION: ORGAN (1-4)****404 PRIVATE INSTRUCTION: VOICE (1-4)****405 PRIVATE INSTRUCTION: VIOLIN/VIOLA (1-4)****406 PRIVATE INSTRUCTION: CELLO/BASS (1-4)****407 PRIVATE INSTRUCTION: FLUTE (1-4)****408 PRIVATE INSTRUCTION: OBOE/ENGLISH HORN (1-4)****409 PRIVATE INSTRUCTION: BASSOON (1-4)****410 PRIVATE INSTRUCTION: CLARINET (1-4)****411 PRIVATE INSTRUCTION: SAXOPHONE (1-4)****412 PRIVATE INSTRUCTION: TRUMPET (1-4)****413 PRIVATE INSTRUCTION: FRENCH HORN (1-4)****414 PRIVATE INSTRUCTION: TROMBONE/BARITONE (1-4)****415 PRIVATE INSTRUCTION: TUBA (1-4)****416 PRIVATE INSTRUCTION: PERCUSSION (1-4)****417 PRIVATE INSTRUCTION: GUITAR (1-4)****418 PRIVATE INSTRUCTION: HARP (1-4)****419 PRIVATE INSTRUCTION: HARPSICHORD (1-4)****420 PRIVATE INSTRUCTION: DEGREE RECITAL (1-2)****1 Credit**

Fall and Spring Semesters: *One half-hour private lesson per week in addition to daily practice.* Interim: *Two 45-minute lessons per week in addition to daily practice.*

2-4 Credits

Fall and Spring Semesters: *Two half-hour private lessons per week in addition to daily practice.*

Special fee in addition to tuition.

423 FORM I

Advanced analysis of literature from Classic, Early and Middle Romantic styles in representative genres and media. II (2)

424 FORM II

Advanced analysis of literature from late Romantic, Impressionist, and Nationalistic styles in representative genres and media. Prerequisite: 423. a/y I (2)

425 FORM III

Advanced analysis of literature from Modern and Contemporary styles in representative genres and media. Prerequisite: 423. a/y I (2)

427 ADVANCED ORCHESTRATION/ARRANGING

Continuation of 326 or 328 on an individualized basis. Prerequisite: Music 326 or 328. May be repeated for additional credit. Special fee in addition to tuition. (1-2)

431 HISTORY OF PIANO LITERATURE AND PERFORMANCE

A study of representative piano compositions of all periods. a/y (2)

432 MUSIC OF THE WORLD'S PEOPLE

Introduction to ethnomusicology; techniques of studying music within cultural contexts. In-depth case studies of one American Indian musical culture, followed by music of urban American blues, Ghanaian, Black American, Balkan, Russian, and Indian styles. Includes field study project of one musical culture. a/y (2)

436 HISTORY OF ORGAN BUILDING

A two-fold study, involving both the technical evolution of the pipe organ (key-actions, windchest designs, pipework varieties and construction, the organ case) as well as the historical evolution of the various concepts of tonal design as these relate to the performance of organ literature. a/y (2)

M

Music

**437 MASTERPIECES OF SACRED MUSIC LITERATURE**

A survey of Judeo-Christian music through the study of representative major vocal/choral works. a/y (2)

438 HYMNOLOGY AND THE MUSIC OF THE LITURGY

A survey of Christian hymnody, considered from both a musical and poetic viewpoint. Also considered will be the concept and performance of music for the liturgy, both historic and contemporary, primarily from the Roman, Anglican, and Lutheran traditions. a/y (2)

439 SENIOR SEMINAR: TOPICS IN MUSIC LITERATURE

Directed study of selected topics in music literature. Prerequisite: senior standing. Open to juniors for non-degree credit. (4)

442 METHODS IN K-9 MUSIC

Orff-Schulwerk and Kodaly techniques for upper elementary and middle school children. Offered for students preparing to become music specialists (music education majors only). Prerequisite: Music 342. II (2)

443 METHODS AND MATERIALS FOR SECONDARY CHORAL MUSIC

The organization and administration of the secondary school music curriculum with particular attention to the needs of the choral program. Organization, management, teaching methods, rehearsal techniques, and choral literature appropriate for the various age and experience levels of students in grades 7-12. II (2)

444 METHODS AND MATERIALS FOR SCHOOL BAND MUSIC

The organization and administration of the secondary school music curriculum with particular attention to the needs of the band program. Organization, management, teaching methods, rehearsal techniques, and wind/percussion literature appropriate for the various age and experience levels of students in grades 4-12. Prerequisite: Music 340, 348. II (3)

445 ADVANCED CONDUCTING

Refinement of patterns, gestures, and conducting techniques; application to appropriate vocal and instrumental scores. Prerequisite: 345. Section A—Instrumental; Section B—Choral. II (2)

451 PIANO PEDAGOGY

Teaching techniques for prospective teachers of piano, including techniques of private and class piano instruction. Methods and materials from beginning through advanced levels. (2) Section A—Basic; Section B—Lower Elementary; Section C—Upper Elementary; Section D—Advanced.

453 VOCAL PEDAGOGY

Physiological, psychological, and pedagogical aspects of singing. a/y (2)

454 METHODS AND MATERIALS FOR STRING TEACHERS

Methods and techniques of teaching strings to all ages and levels, from the beginner to the advanced student. Special emphasis on the physiological and psychological approach to the instrument. Study of string pedagogy in the classroom as well as individual instruction. Prerequisite: 340, 348 or consent of instructor. II (3)

491, 492 INDEPENDENT STUDY

Prerequisite: consent of instructor. May be repeated for additional credit. (1-4)

502 PRIVATE INSTRUCTION: PIANO (1-4)**503 PRIVATE INSTRUCTION: ORGAN (1-4)****504 PRIVATE INSTRUCTION: VOICE (1-4)****505 PRIVATE INSTRUCTION: VIOLIN/VIOLA (1-4)****506 PRIVATE INSTRUCTION: CELLO/BASS (1-4)****507 PRIVATE INSTRUCTION: FLUTE (1-4)****508 PRIVATE INSTRUCTION: OBOE/ENGLISH HORN (1-4)****509 PRIVATE INSTRUCTION: BASSOON (1-4)****510 PRIVATE INSTRUCTION: CLARINET (1-4)****511 PRIVATE INSTRUCTION: SAXOPHONE (1-4)****512 PRIVATE INSTRUCTION: TRUMPET (1-4)****513 PRIVATE INSTRUCTION: FRENCH HORN (1-4)****514 PRIVATE INSTRUCTION: TROMBONE/BARITONE (1-4)****515 PRIVATE INSTRUCTION: TUBA (1-4)****516 PRIVATE INSTRUCTION: PERCUSSION (1-4)****517 PRIVATE INSTRUCTION: GUITAR (1-4)****518 PRIVATE INSTRUCTION: HARP (1-4)****519 PRIVATE INSTRUCTION: HARPSICORD (1-4)****520 PRIVATE INSTRUCTION: CONDUCTING (1-4)****1 Credit**

Fall and Spring Semesters: *One half-hour private lesson per week in addition to daily practice.* Interim: *Two 45-minute lessons per week in addition to daily practice.*

2-4 Credits

Fall and Spring Semesters: *Two half-hour private lessons per week in addition to daily practice.*

Special fee in addition to tuition.

527 COMPOSITION

A systematic approach to contemporary music composition; students create, notate, and perform works for solo, small and large ensembles. May be repeated for credit. (1-4)

532 MUSIC BIBLIOGRAPHY AND RESEARCH TECHNIQUES

Survey of the main research tools available for advanced work in music. Course content can be adapted to needs of students in music education, theory, or performance. a/y (2)

539 TOPICS IN MUSIC HISTORY

Development of a research paper on a selected subject relating to the departmental upper division offerings in music history and literature. (2-4)

545 SEMINAR IN ADVANCED CONDUCTING

Directed study of selected scores for large and small ensembles, vocal and instrumental. May be repeated for credit. (2)

549 ELECTRONIC MUSIC SYNTHESIS

Directed study of electronic music literature, techniques, and composition. May be repeated for credit. (1-2)

551 ACCOMPANYING

Practice in accompanying representative vocal and instrumental solo literature from all periods. Accompanying in performance will be required. Special fee in addition to tuition. (1)

560 CHOIR OF THE WEST

A study of choral ensemble rehearsal techniques with emphasis on score analysis. (1)

561 UNIVERSITY CHORALE

A study of choral ensemble rehearsal techniques with emphasis on vocal pedagogy in the rehearsal. (1)

565 OPERA WORKSHOP

Production of chamber opera and opera scenes. Participation in all facets of production. Prerequisite: consent of instructor. (1)

568 CHORAL UNION

Rehearsal and performance of major works in the choral/orchestral repertoire with emphasis on score analysis. Special fee in addition to tuition. (1)

570 WIND ENSEMBLE

A study of band rehearsal techniques with emphasis on score analysis. (1)

575 UNIVERSITY JAZZ ENSEMBLE

A study of jazz ensemble rehearsal techniques with emphasis on stylistic considerations. (1)

580 UNIVERSITY SYMPHONY ORCHESTRA

A study of orchestra ensemble rehearsal techniques with emphasis on score analysis. (1)

581 CHAMBER ENSEMBLE

Analysis, rehearsal, and performance of selected instrumental chamber music. Prerequisite: consent of instructor. (1) Section A—String; Section B—Brass; Section C—Woodwind; Section D—Early Instruments. (1)

582 CONTEMPORARY DIRECTIONS ENSEMBLE

Public and laboratory performance of contemporary music. Emphasis on score analysis. (1)

583 TWO-PIANO ENSEMBLE

Performance of two-piano and piano duet literature, including score analysis. (1)

584 CONTEMPORARY ARTS ENSEMBLE

A multi-arts ensemble with emphasis on composition techniques, repertoire, and performance. (1)

590 GRADUATE SEMINAR (1-4)**596 RESEARCH IN MUSIC (1-4)****599 THESIS (2-4)**

N

Division of Natural Sciences

Division of Natural Sciences

Science education at Pacific Lutheran University is directed both toward undergraduate preparation of future science professionals and toward the creation of critical scientific awareness for liberally educated citizens in all walks of life.

Science must be taught as fundamental principles, groups of concepts, bodies of knowledge, and means for survival. Holistic solutions to global problems require the ability to interrelate technical knowledge and human values.

Concern for how science is used must not obscure the motivation for pursuit of the best scientific work: the joy of trying and succeeding, the joy of discovery and understanding.

FACULTY

J. Herzog, Divisional Dean; faculty members of the Departments of Biology, Chemistry, Earth Sciences, Mathematics and Computer Science, and Physics and Engineering.

As a division within the College of Arts and Sciences, the Division of Natural Sciences offers programs in each constituent department leading to the B.A. and B.S. degrees and to the B.S. in Medical Technology. M.A. and M.S. degrees in Computer Science are also offered. Course offerings and degree requirements are listed under:

**BIOLOGY
CHEMISTRY
COMPUTER SCIENCE
EARTH SCIENCES
ENGINEERING
MATHEMATICS
PHYSICS AND ENGINEERING**

See also the sections of this catalog on the Environmental Studies Program and on the Health Sciences (under Pre-professional Programs).

Courses suitable for meeting Core I requirements in Natural Sciences/Mathematics may be found within each department or below:

COURSE OFFERING

106 COSMOS, EARTH, AND LIFE

Consideration of the beginnings, evolution, and possible fates of the universe as revealed by present evidence. The formation and development of planet earth, geologic processes through geologic time. The impact of civilization on global resources. The atomic and molecular view of chemical prerequisites for life. The origin and formation of the atmosphere and potential threats of altering its constituents. Study of the development and diversification of life by focusing on unifying concepts and control systems. Laboratory experiences to reinforce understanding of how hypotheses are built and critically tested. Fulfills Natural Sciences/Mathematics core requirement, line 1 or 2. (4)

School of Nursing

A nursing career offers great opportunity for a rich and rewarding professional life. It affords virtually unlimited choice of location, environment, and type of service. The physical, mental, social, and spiritual health of people is of universal concern, and those prepared to maintain their good health are in constant demand.

The School of Nursing is a professional school which combines professional and liberal arts studies in assisting students to develop a sense of responsibility for acquiring the attitudes, knowledge, and skills necessary for meeting nursing needs of individuals, groups, and communities.

The generic program is designed for students with no previous preparation in nursing. Graduates who successfully complete the program are eligible to write the State Board of Nursing examination for licensure as Registered Nurses. They are prepared for beginning positions in professional nursing in hospitals and other health agencies. There is a special sequence for Registered Nurse students, graduates from diploma or associate degree programs, who wish to earn the Bachelor of Science in Nursing degree. The program provides a foundation for graduate study in nursing.

Under the direct supervision of its faculty members, the School uses facilities of hospitals, health agencies, and schools in the community to provide optimal clinical learning experience for its students.

The School of Nursing is accredited by the Washington State Board of Nursing and by the National League for Nursing. It is a charter member of the Western Council on Higher Education for Nursing.

FACULTY

Mansell, *Dean*; Aikin, Allen, Carpenter, Cone, Egan, Fanslow, Gough, C. Hansen, Herman-Bertsch, Hirsch, Kirkpatrick, Kliwer, Klisch, Lingenfelter, Mason, L. Olson, Page, Rhoades, Schultz, Shumaker, Smith, Stavig, Stiggelbout, Weirick, Yumibe.

ADMISSION AND CONTINUATION POLICIES

Students seeking admission to either the generic program or the sequence for registered nurses must make formal application to both the university and the School of Nursing.

Applications for admission to the School of Nursing are accepted twice during the year. Students desiring admission to either fall or spring semester of the following academic year must submit applications between January 1 and February 15. Additional applications from students wishing to be considered for any remaining admissions for the spring semester must be submitted by September 15. Applications are reviewed only if the applicants have been admitted to PLU and have provided official transcripts as requested by the School of Nursing Admissions Committee.

The number of spaces in the School of Nursing each semester is limited; therefore, the selection of students for admission may be competitive. In making the selection, the School of Nursing Admissions Committee uses grades as the major means of determination.

Students accepted to begin the nursing sequence in either fall or spring semester, and who have applied by the February 15 deadline, are selected for both terms and notified by May 1. Students are admitted to the term of their choice insofar as it is possible. If there are more applicants than can be accommodated, deferred admission to the next term may be necessary. Additional selection for the spring semester is made in the fall with notification by November 1.

With satisfactory progress, six semesters are required to complete the sequence of nursing courses leading to the Bachelor of Science in Nursing. All potential or pre-nursing students are urged to seek early academic advisement through the School of Nursing Office in order to enroll for appropriate prerequisites and thereby avoid unnecessary loss of time.

The School of Nursing reserves the right to request withdrawal of nursing students who fail to demonstrate academic or clinical competence or who fail to maintain professional conduct. Unsafe practice constitutes grounds for immediate withdrawal from the clinical component.

Minimal criteria for admission to or continuation in the School of Nursing are as follows:

1. Admission to the university. Applicants must have been admitted to Pacific Lutheran University before consideration of their application to the School of Nursing. Admission to the university does not guarantee admission to the School of Nursing.
2. Completion of or current enrollment in Psychology 101 (Introduction to Psychology) and three of the following: Biology 201 (Introductory Microbiology), Biology 205, 206 (Human Anatomy and Physiology), Chemistry 105 (Chemistry of Life). The remaining courses will be completed after enrolling in the nursing program; however, both Biology 205 and 206 must be completed before enrollment in Nursing 220 and 224. Students need to plan their schedules accordingly.
3. Completion of a minimum of 26 semester credit hours. Some of these may be in progress at the time of application.
4. A minimum grade of 2.00 (C) in all required nursing and prerequisite courses. A student receiving a grade of less than 2.00 in any course which is a prerequisite for a nursing course may not continue in that nursing course until the prerequisite course is repeated with a grade point of 2.00 or above.
5. A minimum cumulative grade point average of 2.33.
6. Physical health and stamina necessary to withstand the demands of nursing.
7. Emotional stability sufficient to cope with the stresses inherent in learning and practicing nursing.
8. Completion of a math proficiency test before or during the first semester of the nursing program with a minimum score of 71% (prerequisite to entry into the third semester of the nursing program). All tests will be administered by the testing center with the student responsible for the nominal cost of each test. Students receiving a grade of less than 71% may not continue in the nursing sequence until the prerequisite test is repeated with a grade of 71% or above. Students who do not have 2 years of high school algebra are advised to enroll for a math elective.
9. Progression in the nursing sequence is dependent upon satisfactory performance (a grade of C or higher) in the prerequisite nursing courses. Nursing majors may have no more than 4 semester credit hours of non-nursing courses to be completed at the time of enrollment in the final semester of nursing courses. Registered nurses are admitted to the RN/BSN special sequence each fall semester. They may choose to be enrolled full-time for a total of sixteen months, or to extend their program and enroll on a part-time basis. Registered nurse students must have completed all non-nursing course prerequisites and a minimum of 24 semester credits of the core requirements and electives for a total of 56 semester credits *before* admission. Other minimal criteria for admission to or continuation in the nursing program are as outlined above for generic students. Registered nurses who are considering making application for admission to the nursing program are advised to contact the School of Nursing for advice about prerequisites to be completed, other requirements to be met, and the program to pursue after admission.

N

School of Nursing

HEALTH

Nursing students are responsible for maintaining optimal health and are teachers of health. Physical examinations, x-rays, and immunizations are required before admission to the clinical areas, and periodically thereafter, and are the responsibility of students. All students must carry personal health insurance.

ADDITIONAL COSTS

In addition to regular university costs, students must provide their own transportation between the university campus and the clinical laboratory areas beginning with the first nursing course. Available public transportation is limited, so provision for private transportation is essential. Students are required to carry professional liability insurance during all periods of clinical experience. This is available under a group plan at a nominal cost to the student. Health examination fees, student uniforms (approximately \$175.00) and equipment (wristwatch, scissors, stethoscope) are also the responsibility of the student.

A \$25.00 testing fee, payable directly to the School of Nursing, is assessed at the time of enrollment in Nursing 424. This is the cost of standardized testing.

CERTIFICATION FOR SCHOOL NURSING

Educational Staff Associate Certification for school nurses is individually designed through a consortium consisting of a school district, related professional association, and Pacific Lutheran University. Additional information on this program can be obtained by contacting the dean of the School of Education or the dean of the School of Nursing.

RESOURCES AND FACILITIES

Good Samaritan Hospital, Puyallup, WA (225 beds)
David K. Hamry, M.H.A., President
Peggy Cannon, Vice President

Lakewood General Hospital, Tacoma, WA (105 beds)
Bruce M. Yeats, Administrator
Cathy Nugent, R.N., M.N., Assistant Administrator for Nursing Service

Madigan Army Medical Center, Tacoma, WA (493 beds)
Brigadier General Darryl H. Powell, M.D., Commanding Officer
Colonel Neldean Borg, B.S.N., M.N., Chief, Department of Nursing

Mary Bridge Children's Health Center, Tacoma, WA (68 beds)
Karen Lynch, R.N., B.S.N., Associate Administrator
Susan Messenger, R.N., M.N., Director of Pediatric Nursing

Puget Sound Hospital, Tacoma, WA (151 beds)
Hugh Hendrix, M.H.A., Assistant Administrator
JoAnn Schaeffner, R.N., Director of Nursing

St. Joseph Hospital, Tacoma, WA (370 beds)
Daniel Russell, B.S., M.H.A., C.E.O., President
John Maher, B.B.A., M.B.A., M.N.A., Vice President and Chief Operations Officer
Hazel Hurst, R.N., B.S., M.N., Assistant Administrator for Nursing Services

St. Peter Hospital, Olympia, WA (328 beds)
David L. Bjornson, M.H.A., Administrator
Anne Bertolin, R.N., M.N., Assistant Administrator

Tacoma General Hospital, Tacoma, WA (315 beds)
Charles Hoffman, Executive Vice President/Administrator
Shirley Murphy, R.N., M.S.N., Acting Associate Administrator, Nursing Services

Tacoma Lutheran Home
Zina Herbert, R.N., Director of Nursing

Tacoma-Pierce County Health Department, Tacoma, WA
Alfred Allen, M.D., M.P.H., Director
Nancy Cherry, R.N., M.P.H., Director, Family and Community Health Services Division

Tacoma Public Schools, Tacoma, WA
Donna Gamble, R.N., M.N., Coordinator of Health and Handicapped, Division of Health

Valley Terrace Nursing Center
Elizabeth Johnston, R.N., Director of Nursing

Veterans Administration Hospital, Tacoma, WA (512 beds)
William E. Claypool, A.B., M.H.A., Director
Joan Stout, R.N., B.S.N., M.N., C.N.A.A., Chief, Nursing Service

Western State Hospital, Steilacoom, WA (924 beds)
R. Darrell Hamilton, M.D., Superintendent
Jalane Hagerott, R.N., M.A., Director of Nursing

BACHELOR OF SCIENCE IN NURSING

The curriculum plan and its implementation are designed to foster growth and to encourage initiative and self-direction on the part of students. In addition to nursing requirements, students are expected to meet university requirements. Nursing courses are sequential in nature and all have prerequisites. Students interested in the Bachelor of Science in Nursing degree should contact the School of Nursing on entering the university to avoid time loss.

The School of Nursing reserves the right of curriculum modification and revision as long as it does not hinder the students' progress toward graduation.

For spring semester enrollment the curriculum generally follows the fall semester format with modifications as necessary to assure completion of all prerequisite courses by the time they are needed. A schedule of courses is developed individually with each student who begins nursing courses in the spring semester. Nursing courses must be taken concurrently and in sequence as indicated in the sample curriculum, and normally extend over six semesters.

FIRST YEAR—Pre-Nursing

Fall Semester	
Biology 205	4
Psychology 101	4
English 101	4
GUR/Core	4
Physical Education 100	1
	<hr/> 17
Interim (optional)	0-4

*GUR = general university requirement

A minimum of 128 semester credit hours is required for the baccalaureate degree.

COURSE OFFERINGS

100 MEDICAL TERMINOLOGY

Study of over 350 word elements and the application of those terms in understanding over 10,000 complex medical words in their appropriate context. Application of these terms to anatomical and pharmacological references. (1)

214 SOCIALIZATION TO NURSING

Introduction to historical perspectives and current trends in professional nursing and nursing education. Concepts of self and society, wellness, human needs, nursing process, and health care systems. Framework for developing effective communication skills and helping relationships. Community experiences with well elderly clients. Prerequisites: Admission to the nursing major, PSY 101, and prior or concurrent enrollment in SOC 101. (4)

220 COMMONALITIES IN NURSING CARE

Introduction to the use of the nursing process and psychomotor skills in client care. Emphasis on the role of the professional nurse in implementation of the nursing process. Selected clinical experience with adult clients in hospitals or nursing homes. Prerequisites: BIOL 201, 205, and 206; NURS 214; concurrent enrollment in NURS 224. (4)

224 HEALTH ASSESSMENT

Health assessment of children and adults. Emphasis on beginning assessment techniques as part of the nursing process. Introduction to the use of health resources, the influence of eco-systems, and the role of the health team in wellness promotion. Prerequisites: BIOL 205 and 206; CHEM 105; NURS 214; prior or concurrent enrollment in PSY 335 (or EDUC 321); concurrent enrollment in NURS 220. (4)

334 NURSING PROCESS: INDIVIDUALS AND FAMILIES

Basic interruptions in human bio-psycho-social processes with resultant health disruptions. Selected situational and maturational crises affecting individuals and families. Development of psychomotor skills and nursing interventions within the framework of the nursing process. Prerequisites: 220, 224; concurrent enrollment in 344. (4)

344 NURSING IN THE CHILDBEARING YEARS

Individual and family adaptations throughout the pregnancy cycle: Physiological and psycho-sociocultural aspects of childbearing. Theory and clinical application in physicians' offices, hospitals, and home environments. Prerequisites: 220, 224; concurrent enrollment in 334. (4)

354 PHYSIOLOGICAL NURSING I

Content focuses on selected complex pathophysiological disorders of children and adults with nursing interventions to facilitate adaptation and restoration to maximum level of wellness. Holistic approach to assist in meeting the physiological and psychosocial needs of clients and families. Prerequisites: 334, 344; concurrent enrollment in 384, 394. (4)

384 PSYCHOSOCIAL NURSING

Introduction to selected acute and chronic psychiatric disorders of adults. Emphasis on psychopathological aspects of illness and nursing interventions using interpersonal and other contemporary modalities in the care of clients with mental health problems. Prerequisites: 334, 344; concurrent enrollment in 354, 394. (4)

394 CLINICAL PRACTICUM I

Clinical laboratory for Nursing 354 and 384. Application of theoretical principles based on concepts of pathophysiology and psychopathology to the care of clients using the nursing process as a framework for holistic care. Development of interpersonal and technical skills. Prerequisites: 334, 344; concurrent enrollment in 354, 384. (4)

424 PHYSIOLOGICAL NURSING II

Content focuses on selected complex pathophysiological disorders of children and adults of a life-threatening or chronically disabling nature. Nursing interventions based on understanding of the bio-psycho-social disruptions and means of restoring balance to an optimal level of functioning. Prerequisites: 354, 384, 394; concurrent enrollment in 434, 444. (4)

434 COMMUNITY HEALTH NURSING

Identification of major public health problems, levels of prevention, and community health nurses' roles. Models and theories for evaluating, reinforcing, or altering health-seeking behaviors of families, groups, and special populations. Introductions to selected theories, principles, and methods of leadership, and concepts of research in nursing. Prerequisites: 354, 384, 394; concurrent enrollment in 424, 444. (4)

444 CLINICAL PRACTICUM II

Clinical application of bio-psycho-social, cultural, and spiritual concepts in acute care hospital and community settings. Use of the nursing process includes interpersonal as well as technological skills. Professional responsibility and accountability are emphasized. Prerequisites: 354, 384, 394; concurrent enrollment in 424, 434. (4)

464 LEADERSHIP IN NURSING

Analysis of health care delivery systems. Emphasis on leadership and economic aspects affecting health professionals and consumers. Prerequisites: 424, 434, 444; concurrent enrollment in 478. (4)

478 SENIOR PRACTICUM

Clinical application and synthesis of professional and technical skills in hospitals, health agencies, or other community settings. Prerequisites: 424, 434, 444; concurrent enrollment in 464. (8)

491, 492 INDEPENDENT STUDY

Prerequisite: Permission of the dean. (1-4)

Philosophy

P

Philosophy

Philosophy is the parent academic discipline that gave birth to today's variety of arts and sciences. It examines basic issues in all fields and explores connections among diverse areas of life and experience. In philosophy the most fundamental and enduring of questions are addressed: How can human beings gain knowledge about their world? What limits are there to that knowledge? What is the ultimate nature of the universe? In particular, what is the nature of the human person, and what role or purpose is ours? How should we live? Are there moral, aesthetic, and religious values that can be adopted rationally and used to guide our decisions? A course of study in philosophy acquaints students with major rival views of the world, encourages them to think precisely and systematically, and helps them to see life critically, appreciatively, and whole.

FACULTY

Myrbo, *Chair*; Arbaugh, Cooper, Huber, Menzel, Nordby, Simon.

USES OF PHILOSOPHY

Courses in philosophy meet the needs of a variety of students: (1) those who desire some knowledge of philosophy as a basic element in a liberal education; (2) those who wish to pursue some special interest, for example, in ethics, science, religion, the history of thought, or the ideas of particular men or peoples; (3) those who wish to support their work in other fields, for example, literature, history, religion, the sciences, education, or business; (4) those who plan to use a major in philosophy as preparation for graduate or professional study in another field, for example, theology, medicine, or law; and (5) those who plan to do graduate work in philosophy itself, usually with the intention of teaching in the field.

Undergraduate study in philosophy does not train one specifically for a first job. It does provide exposure to important perspectives, as well as basic skills in interpretation, critical thinking and problem solving, research, analysis, and writing. These—usually coupled with specialized training in other disciplines—fit one for a great variety of positions of vocational responsibility. Persons with the highest potential for advancement are generally not those with the most specialized training, but those with a broad perspective, flexibility and depth, and skills in thought and communication.

SUPPORTING PROGRAMS IN PHILOSOPHY FOR OTHER FIELDS

Philosophy provides a solid foundation for a variety of studies and careers. Students using it to support primary work in other fields may elect a minor or major or some other combination of courses of interest. On approval of the department, one course (4 hours) in another field of study may be used for the philosophy major if it has a direct relationship to the student's individual philosophy program.

Both how philosophy relates to a variety of careers and what specific programs of study are recommended to support work in other disciplines are described in separate brochures available in the departmental office. These include business, computer science, education, fine arts, health professions, law and public policy, social work, social and natural sciences, and theological studies.

A DISTINGUISHED PROGRAM

PLU's department of philosophy offers a distinctive course of studies. The faculty all hold the doctorate, have studied at leading institutions in this country and abroad, and have participated in professional programs in the United States and Europe. All students, especially majors and minors, receive substantial individual attention and assistance.

INTERIM OFFERINGS

Special interim courses at PLU explore a variety of philosophical topics. Courses are innovative and unusual, often interdisciplinary in nature, and involve students in the expertly guided exploration of issues that do not always fit well into the regular school year. In recent years, on-campus studies have been concerned with themes of social and legal philosophy, war and morality, bio-medical ethics, religion and science, and the computer revolution.

UNIVERSITY CORE REQUIREMENT

The general university core requirement of four hours in philosophy may be satisfied by any course offered except 100 *Reasoning*, 121 *Critical Thinking and Writing*, and 233 *Introduction to Logic*. A variety of 2-4 credit hour courses dealing with moral issues, 226 *Moral Problems*, 323 *Health Care Ethics*, 325 *Business Ethics*, 326 *Moral Problems in the Social Services*, and 328 *Philosophical Issues in the Law*, satisfy this requirement only if 225 *Ethical Theory* (2 hours) is also taken, 341 *Philosophy of Mathematics—Set Theory*, 342 *Philosophy of Mathematics—Gödel and Truth*, and 343 *Philosophy of Logics* count toward this requirement only when taken in addition to 225 or 233. The initial course in philosophy is customarily 101, 125, or 225, though none of these courses is strictly a prerequisite for any other course. 300-level courses are especially suited for students with particular interests. Faculty consent may be required for registration in some courses.

MINOR: 16 semester hours. A minor in philosophy consists of four approved courses; for transfer students, at least two must be taken at PLU. Students considering a minor should discuss their personal goals with departmental faculty. If they elect a minor in the field, they should formally declare this with the registrar and the department chair.

BACHELOR OF ARTS MAJOR: Minimum of 28 semester hours, including 233 *Logic* and any two of the four courses in the history of philosophy sequence (331 *Ancient Philosophy*, 332 *Medieval Philosophy*, 333 *Modern Philosophy*, 335 *Contemporary Philosophy*). On approval of the department, one course (4 hours) in another field of study may be used for the philosophy major if it has a direct relationship to the student's individual philosophy program. Transfer students will normally take 16 or more of their 28 hours at PLU. Students intending to major in philosophy must formally declare this with the registrar and the department chair. They should choose a departmental adviser in consultation with whom they will plan their programs.

HONORS MAJOR:

1. 28 semester hours in philosophy, including 233 *Logic*, at least two courses in the history of philosophy (331, 332, 333, 335), and 493 *Senior Research Seminar*;
2. a senior thesis (part of 493), a research paper under the supervision of one or more faculty members;
3. a comprehensive senior examination. Performance on this examination will determine one third of the student's grade in the *Senior Research Seminar*;
4. completion of the departmental reading program. Excellent programs in the arts and sciences do not rely exclusively on lecturing and group study or on secondary works, but also on one-to-one tutorial instruction in primary sources. Majors in philosophy at Pacific Lutheran University are expected to read and discuss a number of classical works under the personal supervision of various members of the departmental faculty. Not all works will be additions to course materials; some will also be covered in regular courses, and these may be read and discussed simultaneously with class study. With departmental approval, the standard list may be modified in accordance with special needs or interests. The list should be secured at an early date from the departmental office. It is best that the reading program not be concentrated into a single semester but pursued at a leisurely pace over an extended period.
5. at least a 3.30 grade point average in philosophy courses.

COURSE OFFERINGS

100 REASONING

Development of reasoning skills and an appreciation for the diverse areas to which they apply, for example, in religion, literature, science, and computer language. Students learn how to ask clear questions, recognize and evaluate assumptions, and avoid errors of reasoning in arguments. Does not satisfy philosophy core requirement. III (2)

101 PHILOSOPHICAL ISSUES

Perennial philosophical issues, systems, and thinkers; the nature of knowledge, the function of science, values, human nature and its social implications, religion and knowledge of God. Development of critical and systematic philosophical thinking about all issues. III (4)

121 CRITICAL THINKING AND WRITING

Development of the ability to organize and write clear, direct English, and to evaluate explanations critically. The uses and abuses of language and argument among contentious, prejudiced, and superstitious people. Reasoning and writing about unusual natural phenomena, public policy decisions, and other topics of interest. Does not satisfy the philosophy core requirement. Does satisfy the English writing requirement. III (4)

125 MORAL PHILOSOPHY

Major moral systems of Western civilization; intensive examination of some contemporary moral theories; critical application to selected moral problems. III (4)

225 ETHICAL THEORY

Examination of major moral systems of Western civilization and some contemporary ethical theories. Must be taken concurrently with or before 226, 325, 326, 328, or 323-I, II, III, IV in order to use those courses for the philosophy core requirement. III (2)

226 MORAL PROBLEMS

Critical application of major historic and contemporary ethical theories to a broad range of selected moral problems. For philosophy core requirement only when paired with 225. II (2)

223 INTRODUCTION TO LOGIC

A study of the principles of argument and proof using both natural deduction and axiomatic approaches. An introduction to the use of first order logic in ordinary reasoning and cognitive disciplines, and to the properties of formal systems such as consistency and completeness. Includes an introduction to inductive inference. Does not satisfy philosophy core requirement. I (4)

323-I HEALTH CARE ETHICS: INFORMED CONSENT

The underlying reasons for the legal and moral requirement to obtain the informed consent of the patient before treating; special considerations in therapeutic and research settings, and for special groups, e.g., prisoners and the mentally incompetent. Not for philosophy core requirement unless paired with 225. I (1)

323-II HEALTH CARE ETHICS: CHOOSING DEATH

The kinds of value we place on life; the relation of the informed consent requirement to an alleged right to die; the criteria for determining when death occurs; the problematic notions of a "natural death," "extraordinary" medical means, and "killing" as distinct from "letting die." Not for philosophy core requirement unless paired with 225. I (1)

323-III HEALTH CARE ETHICS: INFANTS AND CHILDREN

The special problems of consent and value of life which arise in treating the young, such as selecting the sex of offspring; letting defective newborns die; and the consent requirement in clinical research on children. Not for philosophy core requirement unless paired with 225. Interim or II (1)

323-IV HEALTH CARE ETHICS: DISTRIBUTING SCARCE RESOURCES

How health care should be distributed. What equality means when people have widely differing needs; the meaning and justification of a 'right' to health care; dilemmas between preventive and curative care; how to allocate scarce, life-saving resources. Not for philosophy core requirement unless paired with 225. II (1)

324 PHILOSOPHICAL ANALYSIS OF SOCIAL PROBLEMS

An examination of fundamental concepts of social thought; human nature, society, authority, community, liberty, equality, justice. Application of these concepts in a discussion of contemporary social institutions and their problems: war, racism, poverty, crime. a/y (4)

325 BUSINESS ETHICS

An examination, in the context of various ethical theories, of the moral values implicit and explicit in the free enterprise system; an assessment of some particular moral problems confronted in employer-employee relations, advertising, managerial decisions, and corporate social responsibilities. For philosophy core requirement only when paired with 225. I (2)

326 MORAL PROBLEMS IN THE SOCIAL SERVICES

An examination of governmental social services in relation to moral justice, moral rights, and human well-being; particular issues such as abortion, suicide, welfare rights, and counseling methods. For philosophy core requirement only when paired with 225. II a/y (2)

328 PHILOSOPHICAL ISSUES IN THE LAW

An examination of philosophical issues in law using actual cases as well as philosophical writings. Topics include contract law, sentencing practices, tort liability, and various criminal law defenses. Philosophical themes include natural law and legal positivism, and moral reasoning about individual rights. For philosophy core requirement only when paired with 225. Pre- or co-requisite: one other course in philosophy or legal studies. I (4)

331 ANCIENT PHILOSOPHY

The development of philosophical thought and method from the Presocratic period to the end of the fourth century A.D. Special emphasis is given to the philosophies of Plato and Aristotle. I a/y (4)

332 MEDIEVAL PHILOSOPHY

The development of philosophy from Augustine to Ockham. Scrutiny of the sources and nature of the Thomistic synthesis, and the reaction to it in the work of Duns Scotus and William Ockham. I a/y (4)

333 MODERN PHILOSOPHY

The development of philosophy from the seventeenth through the early nineteenth centuries; continental rationalism, British empiricism, and German idealism; Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, Kant, Fichte, Schopenhauer, and Hegel. II a/y (4)

335 CONTEMPORARY PHILOSOPHY

The development of philosophy from the late nineteenth century to the present; may include pragmatism, empiricism, process philosophy, existentialism and analysis as developed by Mill, James, Dewey, Whitehead, Sartre, Russell, Ayer, and Wittgenstein. II a/y (4)

338 KIERKEGAARD AND EXISTENTIALISM

Modern existentialism, its main themes, and their relation to other philosophical traditions; its impact on such fields as theology, literature and psychology. Life and thought of two key figures: Soren Kierkegaard and Jean-Paul Sartre; related thinkers including Nietzsche, Heidegger, Jaspers, Tillich, Buber, Camus, and Marcel. I a/y (4)

340 PHILOSOPHY OF SCIENCE

The general character, fundamental concepts, methods, and significance of modern science; some attention to specific areas of science: physical, biological, social; the implications of science and scientific methodology for ethical, aesthetic, and religious values. I a/y (4)

341 PHILOSOPHY OF MATHEMATICS: SET THEORY

A study of the historical development and basic concepts of set theory and the foundations of mathematics. The relationship of logic and set theory to the basic concepts of number and infinity; the philosophical implications of this relationship. Set theoretical paradoxes and proposed solutions. Prerequisite: MATH 128 or higher math course. Counts 2 hours toward philosophy core requirement when taken in addition to 225 or 233. II a/y (2)

342 PHILOSOPHY OF MATHEMATICS: GODEL AND TRUTH

A study of the traditional accounts of the nature of mathematical entities and mathematical truth according to logicism, formalism, and intuitionism. A study of Godel's Incompleteness Proof and its significance for these accounts. Prerequisite: 233 or consent of instructor. Counts 2 hours toward philosophy core requirement when taken in addition to 225 or 233. II a-y (2)

343 PHILOSOPHY OF LOGICS

A study of metalogic, including the properties of first order logic. The philosophical issues raised by different systems of logic including modal logics, second order logics, quantum logics, and other many-valued logics. Prerequisite: 233 or consent of instructor. Counts 2 hours toward philosophy core requirement when taken in addition to 225 or 233. II a-y (2)

350 PHILOSOPHY OF RELIGION

Classical and contemporary views of traditional religious problems: the existence of God, religious experience, revelation, immortality, and others. II (4)

351 THEORY OF VALUE

The nature of human values, contemporary discussion concerning the subjective or objective, absolute or relative character of such values as the good and the right, the beautiful and the holy; the origin of values, their place in a world of fact, human knowledge of them; the character and use of the language of evaluation. II a-y (4)

352 AESTHETICS

Analysis of the aesthetic experience and its relationship to the fine arts, literature, science, and morality; the criteria and concepts employed in artistic expression and aesthetic evaluation. II a-y (4)

435 ADVANCED SEMINAR IN PHILOSOPHY

Topic to be announced at the time the course is offered, normally some aspect of contemporary philosophy. Prerequisite: consent of instructor. (4)

491, 492 INDEPENDENT READING AND RESEARCH

Prerequisite: departmental consent. III (1-4)

493 SENIOR RESEARCH SEMINAR

The writing of a senior thesis and taking of a comprehensive senior examination. The work on the thesis constitutes two-thirds of the course; the exam, one-third. Each spring all students in the seminar will meet periodically to discuss their thesis projects and present their final papers to each other. Final copy of thesis due May 1; examination to be taken May 10. For philosophy majors only. Prerequisite: at least 4 courses in philosophy. III (4)

501 TEACHING PHILOSOPHY TO CHILDREN

An intensive workshop for training teachers and prospective teachers to introduce reasoning skills and the clarification of ideas to elementary and middle school age children. Participants will be coached in the conduct of classroom philosophical discussions and will participate themselves in the sort of philosophical reflection that the curriculum is designed to foster. Not for philosophy core requirement. No prerequisites; teaching experience preferred. (Cross-referenced with EDUC 501.) S (2-4)

School of Physical Education

School of Physical Education

The university's physical education program seeks to ingrain in each student a fundamental respect for the role of physical activity in living.

Instruction is offered in approximately 30 different physical education activities. The activity program is uniquely characterized by a timely response to student interests in recreational opportunities available in the Pacific Northwest.

The school's professional programs prepare prospective leaders for careers in physical education, health, recreation, athletics, and therapeutics.

Outstanding modern sports facilities include an all-weather 400 meter track, an Olympic-style swimming pool, six lighted tennis courts, a nine-hole golf course, two gymnasiums, racquetball and squash courts, a new fitness center, and an all-purpose astro-turf field house.

FACULTY

D. Olson, *Dean*; Chase, Hacker, Hoseth, Kluge, Lundgaard, Moore, Officer, M. Seal, F. Westering; assisted by Adachi, Allen, Benson, Haroldson, Johnson, Larson, Marshall, Nicholson, Phillips, Poppen, Ryan, S. Westering.

UNIVERSITY REQUIREMENT: Four one-hour courses (100-259), including 100, are required for graduation. Eight one-hour activity courses may be counted toward graduation. Students are encouraged to select a variety of activities at appropriate skill levels. All physical education activity courses are graded on the basis of "A," "Pass," or "Fail" and are taught on a coeducational basis.

BACHELOR OF SCIENCE MAJOR: 68-70 hours, including completion of program core requirements and one of two concentrations. **Core Requirements:** Chemistry 104, 105 (or 105, 115), Biology 155, 156, 205, 206, Physical Education 277, 480, 481, 482, and 485.

Exercise Science Concentration: 34 hours, including Physical Education 329, 399, 478, Health Education 292, Math 133, Computer Science 144, Biology 253, Psychology 221, 335.

Pre-Therapy Concentration: 36 hours, including Health Education 281, 283, Physical Education 399, Biology 201 or 253, Math 133 or Statistics 231, Computer Science 144, Physics 125, 126, and 4 hours of electives in psychology, as approved by concentration adviser.

P

School of Physical Education

In addition to the requirements listed above, candidates for the B.S. degree must meet the foreign language/alternative requirement in the College of Arts and Sciences.

BACHELOR OF ARTS (RECREATION) MAJOR: 46–54 hours, including completion of program core requirements and one of three concentrations. **Core Requirements:** Physical Education 277, 287, Recreation 330, 399, 483, Business Administration 281, and Psychology 335.

Administration Concentration: 16 hours, including Business Administration 350, 354, Communication Arts 285, and Computer Science 220.

Programming Concentration: Physical Education 285, 322, 329, 334, and Art 215, plus 6 hours of electives approved by program coordinator.

Therapeutic Concentration: 26 hours, including Biology 205, 206, Physical Education 329, 478, 480, 481, 482, Recreation 340 and Special Education 296, plus 2 hours of electives in special education approved by program coordinator.

In addition to the requirements listed above, candidates for the B.A. degree must meet the foreign language/alternative requirement in the College of Arts and Sciences.

B.A. IN EDUCATION—SECONDARY SCHOOL PHYSICAL EDUCATION TEACHING MAJOR (44 hours): Required: Physical Education 241, 277, 283, 285, 286, 287, 328, 329, 478, 480, 481, 482, 484, and 485; Biology 205 and 206.

For K-12 certification students must also take Physical Education 322 and 360 in addition to meeting requirements as set forth by the School of Education.

B.A. IN EDUCATION—ELEMENTARY SCHOOL PHYSICAL EDUCATION TEACHING MAJOR (24 hours): The following courses are required: Physical Education 283, 284, 286, 322, 329, 334, and 7 hours of electives in physical education approved by major adviser. In addition, students must meet requirements as set forth by the School of Education.

SECONDARY SCHOOL TEACHING MINOR (19 hours): The following courses are required: Physical Education 283, 285 or 286, 328, 334, 478, and 2 hours of electives in physical education approved by major adviser.

ELEMENTARY SCHOOL TEACHING MINOR (11 hours): Physical Education 241, 284, 286, and 322.

ELEMENTARY SCHOOL PHYSICAL EDUCATION SPECIALIST (39 hours): The following courses are required: Physical Education 277, 283, 284, 286, 322, 329, 360, 478, 481, 482, 484, 485, and Biology 205-206.

AQUATICS MINOR (18 hours): Required: Physical Education 275, 331, 375, 399, Health Education 292, and Business Administration 281, plus 2 hours of electives approved by the aquatics director.

COACHING MINOR (18 hours): Required: Physical Education 334, 410, 485, and Health Education 281. Electives: 10 hours, including at least one course in coaching theory, from among the following: Health Education 292 (required for non-education majors), Physical Education 308, 361, 370, 371, 372, 374, 375, 376, 377, 378, and 478. Interim and summer courses may be included as electives with the approval of the dean.

DANCE MINOR (19 hours): Required: Physical Education 242, 243, 244, 250, 282, 362, and 462. Electives: 8 hours from among the following: Physical Education 310, 360, 401, 491, Communication Arts 356, Music 247 and 249. Interim and summer courses may be included as electives with the approval of the dance coordinator.

EXERCISE SCIENCE MINOR (22 hours): Required: Biology 205 and 206; Physical Education 360/399, 478, 480, 481, 482, 485.

HEALTH EDUCATION MINOR (18 hours): Required: Health Education 260, 270, 292, 321, 323, 325, 327, and 6 hours of electives with the approval of the health coordinator.

SPORTS MEDICINE (Specialization—28 hours): Recommended: A teaching major with the Professional Education Sequence and completion of all requirements for the Provisional Certificate. Required: (1) Biology 205 and 206, Health Education 260, 281, 382, and 4 hours of electives in health education, Physical Education 327, 329, 480, 481, and 482. (2) Up to 1,800 hours of clinical experience, which may include a practicum or internship (as required by N.A.T.A.).

SPORTS ADMINISTRATION (Specialization—20 hours): Required: Completion of a major in business administration, economics, or communication arts; Physical Education 328 or Recreation 483, Physical Education 302, 399, 410, and Health Education 292.

COURSE OFFERINGS

Courses in the School of Physical Education are offered in the following areas:

HEALTH EDUCATION

- 260 FOOD AND HEALTH
- 270 STRESS WITHOUT DISTRESS
- 281 INJURY PREVENTION AND THERAPEUTIC CARE
- 292 FIRST AID
- 321 FAMILY LIFE AND SEX EDUCATION
- 323 EMOTIONAL HEALTH/DISEASE PREVENTION
- 325 CONSUMER HEALTH
- 327 ERGOGENIC AIDS
- 382 INJURY PREVENTION—ADVANCED
- 399 INTERNSHIP
- 485 HEALTH PROMOTION/WELLNESS INTERVENTION STRATEGIES
- 491 INTERNSHIP
- 501 GRADUATE WORKSHOPS
- 597 GRADUATE RESEARCH

RECREATION

- 330 RECREATION PROGRAMMING
- 340 THERAPEUTIC RECREATION PROGRAMMING
- 399 INTERNSHIP
- 483 RECREATION ADMINISTRATION
- 491 INTERNSHIP
- 501 GRADUATE WORKSHOPS
- 597 GRADUATE RESEARCH

PHYSICAL EDUCATION

- 275 WATER SAFETY INSTRUCTION
- 277 FOUNDATIONS OF PHYSICAL EDUCATION
- 283 TEACHING METHODS: GYMNASTICS
- 284 RHYTHMS IN ELEMENTARY SCHOOL
- 285 TEACHING METHODS: INDIVIDUAL AND DUAL SPORTS
- 286 TEACHING METHODS: TEAM SPORTS
- 287 TEACHING METHODS: RECREATION ACTIVITIES
- 322 PHYSICAL EDUCATION IN THE ELEMENTARY SCHOOL
- 328 CURRICULUM DEVELOPMENT AND ADMINISTRATION
- 329 ADAPTED PHYSICAL EDUCATION
- 331 AQUATICS MANAGEMENT
- 332 OFFICIATING
- 334 SCIENTIFIC BASIS FOR TRAINING
- 360, 361 PROFESSIONAL PRACTICUM, COACHING PRACTICUM
- 362 MUSIC RESOURCES FOR DANCE
- 370-379 COACHING THEORY
- 399 INTERNSHIP
- 401 WORKSHOP
- 410 COACHING—THE PERSON AND THE PROFESSION
- 462 DANCE PRODUCTION
- 478 MOTOR LEARNING AND HUMAN PERFORMANCE

P

- 480 **EXERCISE PHYSIOLOGY LAB**
- 481 **EXERCISE PHYSIOLOGY**
- 482 **ANATOMICAL KINESIOLOGY**
- 484 **MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION**
- 485 **BIOMECHANICS**
- 491 **INDEPENDENT STUDY**
- 501 **GRADUATE WORKSHOPS**
- 597 **GRADUATE RESEARCH**

100 PERSONALIZED FITNESS PROGRAMS

To stimulate student interest in functional personally designed programs of physical activity; assessment of physical condition and skills; recommendation of specific programs for maintaining and improving physical health. Should be taken as a freshman. I III (1)

150 ADAPTIVE PHYSICAL ACTIVITY**200-229 INDIVIDUAL AND DUAL ACTIVITIES**

201 (Beginning Golf), 202 (Intermediate and Advanced Golf), 203 (Archery), 204 (Bowling), 207 (Beginning Gymnastics), 208 (Skiing,), 209 (Intermediate Gymnastics), 210W (Slimnastics), 211 (Beginning Badminton), 212 (Intermediate Badminton), 213 (Personal Defense), 214 (Beginning Tennis), 215 (Intermediate Tennis), 216 (Beginning Ice Skating), 218 (Backpacking), 219 (Canoeing), 221 (Roller Skating), 222 (Squash and Racquetball), 225 (Aerobics), 227 (Weight Training), 228 (Basic Mountaineering), 229 (Equitation). (1)

230-239 AQUATICS

230 (Beginning Swimming), 231 (Intermediate Swimming), 232 (Advanced Swimming), 234 (Advanced Life Saving), 236 (Synchronized Swimming), 237 (Skin and Scuba Diving). (1)

240-249 RHYTHMS

240 (Beginning Modern Dance), 241 (Current Dance), 242 (Intermediate Modern Dance), 243 (Advanced Modern Dance), 244 (Folk and Social Dance), 246 (Beginning Jazz Dance), 247 (Intermediate Jazz Dance). (1)

250-259 TEAM ACTIVITIES

250 (Directed Sports Participation), 251 (Volleyball and Field Hockey), 252 (Basketball and Softball), 253 (Soccer and Volleyball), 254 (Team Handball). (1)

260 FOOD AND HEALTH

A study of the basic requirements necessary to maintain optimal health through wise food choices. Topics of discussion include nutrients and their metabolism, dietary guidelines, food fadism, labeling, additives, vegetarianism, obesity, nutrition-related diseases, nutrition during pregnancy, and nutrition for athletes. (1)

270 STRESS WITHOUT DISTRESS

Consideration of stress, what people should know about stress, how to reduce the harmful effects of stress, and the relationship of increased stress to disease problems. (1)

275 WATER SAFETY INSTRUCTION

The American Red Cross Water Safety Instructor's Course. Prerequisite: 234. II (2)

277 FOUNDATIONS OF PHYSICAL EDUCATION

The relationship of physical education to education; the biological, sociological, psychological, and mechanical principles underlying physical education and athletics. Should be the initial professional course taken in the School of Physical Education. II (2)

281 INJURY PREVENTION AND THERAPEUTIC CARE

Prevention, treatment, and rehabilitation of all common injuries sustained in athletics; physical therapy by employment of electricity, massage, exercise, light, ice, and mechanical devices. I (2)

282 RHYTHMS IN THE ELEMENTARY SCHOOL

Designing and conducting rhythmic activities for elementary school children. (2)

283 TEACHING METHODS: GYMNASTICS

Includes skill development, teaching expertise, course planning, and safety techniques in gymnastics. The course is designed for both elementary and high school ages. Prerequisite: intermediate skill level or completion of a beginning activity course, 277. I (3)

285 TEACHING METHODS: INDIVIDUAL AND DUAL SPORTS

Planning, teaching, and evaluating these activities: tennis, badminton, track and field. Prerequisite: intermediate skill level or completion of a beginning activity course, 277. I (4)

286 TEACHING METHODS: TEAM SPORTS

Planning, teaching, and evaluating these team activities: basketball, soccer, volleyball, rugby, field hockey, softball, touch football, team handball. (4)

287 TEACHING METHODS: RECREATION ACTIVITIES

Planning, teaching, and evaluating the following: archery, bowling, golf, outdoor education, and various recreational sports. Prerequisite: 277. II (4)

292 FIRST AID

This course meets requirements for the American Red Cross Standard First Aid and Personal Safety. II (2)

321 FAMILY LIFE AND SEX EDUCATION

A study of anatomy and physiology, sexual roles, reproduction, responsible relationships, respect for self and others, and physical and emotional well-being. Stress on responsible decision making concerning sexuality by providing accurate information and a variety of personal coping skills and by emphasizing a positive self-concept. Evaluation of school curriculum models. (2)

322 PHYSICAL EDUCATION IN THE ELEMENTARY SCHOOL

Organization and administration of a developmental program for grades K-6; sequential and progressive programming; large repertoire of activities. 277 is recommended. I (2 or 4)

323 EMOTIONAL HEALTH/DISEASE PREVENTION

Topics include interpersonal communication, cooperation, valuing, techniques leading toward a healthier lifestyle through preventive medicine, substance abuse (alcohol, tobacco, caffeine, and other drugs), and related disease problems. (2)

325 CONSUMER HEALTH

Information about consumption as it affects personal health. Examination of consuming habits to achieve greater control over total health status. (2)

326 COMMUNITY HEALTH

Organizations associated with public health and their implications for community health problems. Primarily designed for health education minor students. II a/y (4)

327 ERGOGENIC AIDS

A study of various foods, drugs, and theories of training that may improve athletic performance or assist in weight gain or loss. I (2)

328 CURRICULUM DEVELOPMENT AND ADMINISTRATION

Organization and administration of physical education and athletics (7-12); curriculum development implementation. Prerequisite: 277. Fulfills EDUC 421 certification requirement. I (4)

329 ADAPTED PHYSICAL EDUCATION

The study of physical education for people with metabolic, neurologic, cardiac, respiratory, and emotional abnormalities. (2)

330 RECREATION PROGRAMMING

Supervising and administering recreational programs for the school or community. I (4)

331 AQUATICS MANAGEMENT

Topics include training and supervising personnel, financing, programming, pool maintenance and operation, swim meet management, and safety and emergency procedures. Study of pool chemistry, filter operations, and maintenance. Visitation to local pools. (2)

332 OFFICIATING

Rules and officiating techniques of volleyball, basketball; designed to train qualified officials. Recommended as an elective for majors and minors. I a/y (2)

P

School of Physical Education

334 SCIENTIFIC BASIS FOR TRAINING

Presents physiologic and kinesiological applications to physical training. Topics include the development of muscular strength and endurance, and the relationship of nutrition, environment, sex, age, and ergogenic aids to athletic performance. Prerequisite: 277. I (2)

340 THERAPEUTIC RECREATION PROGRAMMING

Awareness and potentiality of leisure needs of the temporarily or permanently handicapped. Adaptation of recreation activities to provide opportunities for success and satisfaction by the handicapped. Study of leadership techniques and programming methods. (2)

360, 361 PROFESSIONAL PRACTICUM, COACHING PRACTICUM

Assistant coaching teaching experiences; planning and conducting intercollegiate athletics and physical education instruction; students work under supervision of the head coach or physical education instructors. Prerequisite: one course in professional activities, departmental approval. I,II (2)

362 MUSIC RESOURCES FOR DANCE

Understanding of elementary rhythm techniques. Practical learning skills for accompaniment for dance classes. Effective uses of existing music and the creation of sound scores for choreography. (2)

370-379 COACHING THEORY

Techniques, systems, training methods, strategy, and psychology of coaching; 370 (Basketball), 371 (Football), 372 (Cross Country/Track and Field), 374 (Soccer), 375 (Swimming), 376 (Volleyball) 377 (Tennis), 378 (Softball:Baseball) I,II (2)

382 INJURY PREVENTION—ADVANCED

An advanced study in the recognition and treatment of specific athletic injuries and vulnerable body structures, with emphasis on evaluation, modalities of treatment, rehabilitation, and current issues. Prerequisite: 281. (2)

399 INTERNSHIP

Experiences closely assigned to student's career and academic interests. Student identifies problems to be researched, experiences to be gained, and readings pertaining to this interest. An approved firm or organization is mutually agreed upon by the student and the coordinator of this program. Monthly progress reports, evaluations by the supervisor, and other measures of achievement are used to determine the grade. Prerequisites: declaration of major, at least sophomore status, and completion of at least 10 hours in the major. May be taken as Physical Education, Health Education, or Recreation credit. (4-8)

401 WORKSHOP

Workshops in special fields for varying periods. (1-4)

410 COACHING—THE PERSON AND THE PROFESSION

Personal and professional requisites of successful sports programs, including coaching styles, development of leadership qualities, recruiting methods, development of a philosophy of athletics, organization of pre-in- and post-season programs, award systems, and program evaluation. Consideration of relationships with staff, parents, players, faculty, administration, and media. Budgeting, purchase of equipment and maintenance, and facility planning and usage. (2)

425 HEALTH PROMOTION AND WELLNESS INTERVENTION STRATEGIES

Examination of strategies for improving the state of wellness through the healthier lifestyles. Topics include the holistic approach to health, behavioral intervention, nutrition and weight control strategies, health-related fitness, strategies to improve adherence to a fitness program, and the cost-effectiveness of health programs in business and industry. Includes computerized assessments; appraisals of health risks; prescriptions for nutrition, health, and activity; and a monitoring system and weight management program. (2)

462 DANCE PRODUCTION

An advanced choreography course combining choreography, costume design, staging, and publicity techniques for producing a major dance concert. Prerequisite: 310 or consent of instructor. (2)

478 MOTOR LEARNING AND HUMAN PERFORMANCE

Provides basic theories, research, and practical implications for motor learning, motor control, and variables affecting skill acquisition. I (4)

480 EXERCISE PHYSIOLOGY LAB

Emphasis on practical applications and teaching methods of materials taught in the theory course. Taken concurrently with 481. (2)

481 EXERCISE PHYSIOLOGY

Scientific basis for training and physiological effect of exercise on the human body. Prerequisite: BIOL. 205-206. I (2)

482 ANATOMICAL KINESIOLOGY

Deals with the structural and mechanical function of the musculoskeletal system. The kinesiological applications of anatomical information are given prime consideration. Prerequisite: BIOL. 205-206. II (2)

483 RECREATION ADMINISTRATION

The organization, management, and direction of recreational services: legal basis, administrative procedures, financial aspects, personnel management, facilities, and internal organization. II (4)

484 MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION

The selection, construction, and interpretation of evaluation techniques related to the physical education program. Fulfills EDUC 467 certification requirement. II (not offered 1986-87) (2)

485 BIOMECHANICS

An application of physical laws to sports activities. Principles of motion, force, and equilibrium are stressed. Analyses of various sports skills are made. II (2)

491 INDEPENDENT STUDY

Prerequisite: consent of the dean. May be taken as Physical Education, Health Education, or Recreation credit. I,II S (1-4)

501 WORKSHOPS

Graduate workshops in special fields for varying periods. May be taken as Physical Education, Health Education, or Recreation credit. (1-4)

597 GRADUATE RESEARCH

Open to graduate students whose minor is in the field of physical education. Prerequisite: consent of the instructor. May be taken as Physical Education, Health Education, or Recreation credit. I,II S (1-4)

Physics

P

Physics

Physics searches out the fundamental laws of nature which govern the universe. Engineering uses these laws to provide an improved quality of life. As our society becomes more dependent upon technology, the value of an education in science and engineering becomes increasingly important.

The Department of Physics and Engineering offers programs in both basic and applied science. The department maintains degree programs in physics, engineering physics, computer engineering, and 3-2 or 4-2 engineering science. The 3-2 or 4-2 program is a dual degree program with the School of Engineering and Applied Science of Columbia University and with Stanford University. Students also elect to implement the 3-2 option with Washington University of St. Louis, the University of Washington, Washington State University, and Oregon State University. Students may also minor in electrical engineering.

FACULTY

Adams, Chair; Bowers, Greenwood, Gutmann, Hauelsen, Nornes, Tang, Zernel.

Students intending to major in physics or engineering are advised to examine the interrelationships between the career fields of physics and engineering. Physicists seek to answer the basic "why" questions of the physical universe by searching out the fundamental laws and principles which determine how it operates. Engineering is basically concerned with applying these laws to "practical" problems. (See the Engineering section of this catalog.)

PHYSICS

The physics major offers a challenging program emphasizing a low student-teacher ratio and the opportunity to engage in independent research projects. There are two introductory course sequences, *College Physics* and *General Physics*. These differ in the level of mathematics required with *General Physics*, which incorporates calculus, usually involving a more comprehensive analysis. *General Physics* is required for the Bachelor of Science major and usually for the Bachelor of Arts major as well.

BACHELOR OF SCIENCE MAJOR: 32 semester hours: 147, 148, 153, 154, 223, 331, 332, 336, 356, 421, 422. 497-498 may be substituted for 421-422 with consent of the department. Students planning to continue in a graduate physics degree program are strongly urged to take 401 and 406.

Required supporting courses: Math 151, 152, 253; Engineering 354; Chemistry 115; either Engineering 351 or Chemistry 341.

A typical B.S. physics major program is as follows:

Freshman	Physics 153, 154 Physics 147, 148 Math 151, 152
Sophomore	Physics 223, 336 Math 253 Engineering 354
Junior	Physics 331, 332 Engineering 351 or Chemistry 341 Physics 356
Senior	Physics 401, 406 Physics 421, 422

BACHELOR OF ARTS MAJOR: 24 semester hours: 147, 148, 153 or 125, 154 or 126, 223, plus ten semester hours in physics. Required supporting courses: Math 151, 152.

MINOR: 22 semester hours, including 147, 148, 153 or 125, 154 or 126; three additional courses, of which at least two must be upper division.

ENGINEERING PHYSICS

The department offers a four-year engineering degree for students interested in an engineering related program that includes a substantial amount of basic science. It is more applied than a physics degree while at the same time more theoretical than the usual engineering degree. The B.S. degree in engineering physics prepares students for employment in many diverse industries or directly for graduate study in nearly all fields of engineering.

B.S. DEGREE IN ENGINEERING PHYSICS: 47-48 semester hours: Physics 147, 148, 153, 154, 223, 331, 356, 421, 422; Engineering 161, 162, 354, 382 plus four courses of engineering specialty, one of which must be an upper division course, from Electrical—271, 341 (including 347), 352, and 362, and/or from Mechanical—231, 232, 351, 442. Physics 336 may be substituted for Engineering 232. Chemistry 341 may be substituted for Engineering 351. Required supporting courses: Math 151, 152, 253; Chemistry 115; Computer Science 240.

A typical engineering physics program is as follows:

Freshman	Physics 147, 148, 153, 154 Engineering 161, 162 Math 151, 152
Sophomore	Engineering 231, 232 or Engineering 271, 341 and 347 Engineering 354 Physics 223 Math 253
Junior	Engineering 351, 271 or Engineering 352, 231 Engineering 382 Physics 356 Computer Science 240
Senior	Physics 331, 421, 422 Chemistry 115

COURSE OFFERINGS—PHYSICS

125, 126 COLLEGE PHYSICS

This course provides an introduction to the fundamental topics of physics. It is a non-calculus sequence, involving only the use of trigonometry and college algebra. Concurrent registration in 147, 148 is required. I II (4, 4)

147, 148 INTRODUCTORY PHYSICS LABORATORY

Basic laboratory experiments are performed in conjunction with the College Physics and General Physics sequences. Concurrent registration in 125, 126 or 153, 154 is required. I II (1, 1)

153, 154 GENERAL PHYSICS

A calculus-level survey of the general fields of physics, including classical mechanics, wave motion, electricity and magnetism, and optics. Concurrent registration in 147, 148 and prior or concurrent registration in MATH 151, 152 is required. I II (4, 4)

205 MUSICAL ACOUSTICS

A study of musical sound using physical methods: vibrating systems; simple harmonic motion; wave motion; complex waves; wave generation in musical instruments; physiology of hearing; architectural acoustics; electronic recording and reproduction. Laboratory and group tours. No prerequisite courses in either mathematics or physics are assumed. II (4)

223 ELEMENTARY MODERN PHYSICS

A selected treatment of various physical phenomena which are inadequately described by classical methods of physics. Interpretations which have been developed for these phenomena since approximately 1900 are presented at an elementary level. Prerequisite: 154 or 126 or consent of the instructor. I (4)

331 ELECTROMAGNETIC THEORY

Electrostatics, dipole fields, fields in dielectric materials, electromagnetic induction, magnetic properties of matter, in conjunction with the development of Maxwell's equations. Prerequisite: 153, 154; corequisite: 356 or consent of instructor. I (4)

332 ELECTROMAGNETIC WAVES AND PHYSICAL OPTICS

Proceeding from Maxwell's equations, the generation and propagation of electromagnetic waves is developed with particular emphasis on their application to physical optics. Prerequisite: 331. II (4)

336 MECHANICS

Fundamental mechanics; a mathematical formulation of physical problems; particle motion in one, two, or three dimensions; motions of systems of particles; dynamics and statics of rigid bodies; moving coordinate systems; Lagrange's equations and Hamiltonian formulation of mechanics. Prerequisite: 154; corequisite: Engineering 354 or consent of instructor. II (4)

341 INTRODUCTION TO ELECTRONICS

See Engineering 341. II (2)

347 INTRODUCTION TO ELECTRONICS LABORATORY

See Engineering 347. II (1)

351 THERMODYNAMICS

See Engineering 351. I (4)

354 ENGINEERING ANALYSIS

See Engineering 354. II (4)

355 TEACHING OF PHYSICS

New developments in secondary curriculum, teaching techniques, and teaching media in the physical sciences. Offered only on demand. (4)

356 MATHEMATICAL PHYSICS

Boundary value problems, special functions, matrices and tensors, probability theory, eigenvalue problems, complex variables, contour integration, and their applications to physics. Prerequisite: EGR 354 or consent of instructor. I (4)

401 INTRODUCTION TO QUANTUM MECHANICS

The ideas and techniques of quantum mechanics are developed. Various quantum mechanical systems and phenomena are studied in order to demonstrate these ideas and techniques. Prerequisite: 331, 336, 356 or consent of instructor. I (4)

406 ADVANCED MODERN PHYSICS

Modern theories are used to describe topics of contemporary importance such as atomic and sub-atomic phenomena, plasmas, solid-state, and astrophysical events. The application of quantum mechanical techniques are used when appropriate. Prerequisite: 401. II (4)

421 ADVANCED LABORATORY I

Selected experiments from both classical and modern physics are performed using state of the art instrumentation. I (1)

422 ADVANCED LABORATORY II

Continuation of 421 with emphasis on design and implementation of a project under the guidance of the physics staff. II (1)

491, 492 INDEPENDENT STUDY (1-4)**497, 498 RESEARCH (1-4)**

Political Science

Political science addresses one of the most difficult, yet fundamentally important human endeavors, the governance of people and societies. The student of politics seeks to understand how governments are organized and structured, how political processes are employed, and the relationship of structures and processes to societal purposes. Recognizing that government and political activity may embody and reflect the full range of human values, the study of politics must endeavor to understand the realities of politics while at the same time asking how well political systems work, what purposes are and ought to be served, and what effects result from political phenomena. Political science encourages a critical understanding of government and politics in the belief that a knowledgeable, interested, and aware citizenry is the root strength and necessity of a democratic society.

FACULTY

Farmer, *Chair*; Atkinson, Dwyer-Shick, Olufs, Spencer, Ulbricht; assisted by Larsen, Wohlers.

The study of political science helps to prepare students for the exercise of their rights, duties, and opportunities as citizens by giving them a better understanding of American political processes and of alternative systems. Courses in political science explore various topics in American government and politics, international relations and foreign policy, comparative government and area studies, political philosophy and theory, and public policy and law. The department provides pre-professional training leading to careers in teaching, law, government, and related fields.

For the non-major, political science courses provide useful study for any student generally interested in public affairs and the workings of government. Moreover, the study of politics is supportive of any discipline or professional program whose substance becomes a matter of public policy. As such, political science complements such fields as the natural sciences, sociology, business, education, and economics. The study of politics touches upon other disciplines which inquire into human behavior and development, ranging from history and philosophy to psychology, communication, and cross-cultural studies.

Students of political science have the opportunity to combine the academic study of government and politics with practical experience by participation in one of the internship programs sponsored by the department. At present these are available in public administration, public law, and the legislative process.

The Department of Political Science is affiliated with several organizations providing for a variety of student involvement.

These organizations include the Model United Nations, Center for the Study of Public Policy, and Political Science Student Association. The department further sponsors or otherwise encourages active student participation in political life through class activities and through such campus organizations as the Young Republicans and Young Democrats.

The political science faculty at Pacific Lutheran University share a breadth of experience in teaching and research, in professional associations and conferences in the United States and abroad, and in government decision making from the local to the international level.

There are no prerequisites for political science courses, except as noted. Prior consultation with the instructor of any advanced course is invited. Students wishing to pursue a major or minor in political science are requested to declare the major or minor with the department chair as soon as possible.

BACHELOR OF ARTS MAJOR: Minimum of 32 semester hours, including 101, 151, 325. Major programs are planned in consultation with a departmental adviser.

MINOR: Minimum of 20 semester hours including 101 or 151. Minor programs are planned in consultation with a departmental adviser.

MINOR IN PUBLIC AFFAIRS: 24 semester hours, including 345 (required) and 20 hours from political science, economics, sociology, and business administration or statistics.

This minor offers an interdisciplinary study designed to support many major programs whose content has implications for public affairs, and is particularly useful to students contemplating careers in public service or graduate study in public administration, public affairs, and related programs.

The Public Affairs minor includes the following requirements: 1) Political Science 345, Government and Public Policy; 2) at least 5 additional courses from three of the following groups (courses which are taken as part of a major program may not also count toward the Public Affairs minor):

Political Science (minimum of 8 hours if this group is selected)

- 151-American Government
- 348-Science, Technology, and Government
- 354-State and Local Government
- 363-Government, the Media, and Public Policy
- 364-The Legislative Process
- 457-Public Administration

Economics (minimum of 8 hours if this group is selected)

- 150-Principles of Economics
- 321-Labor Economics, Labor Relations, and Human Resources
- 362-Public Finance
- 371-Industrial Organization and Public Policy
- 432-Urban and Regional Economics

Sociology (minimum of 4 hours if this group is selected)

- 240-Social Problems
- 280-Introduction to Race Relations
- 340-Crime and Delinquency
- 390-Social Inequality
- 460-Penology and Corrections

Business/Statistics (minimum of 4 hours if this group is selected)

- BA 281-Financial Accounting
- STAT 231-Introductory Statistics

On approval by the Public Affairs adviser, up to 8 hours may be earned through participation in an internship program as a substitute for courses listed above (except Political Science 345). Internship opportunities are offered through several departments and provide students with actual work experience in state and local legislative and administrative agencies. Students interested in internships are urged to consult with their academic advisers and with intern faculty advisers at an early date.

Students interested in the Public Affairs minor should declare the minor in the Department of Political Science and consult with the department's Public Affairs adviser.

MAJOR IN LEGAL STUDIES: 32 semester hours. For additional information, see the section of this catalog on Legal Studies.

MINOR IN LEGAL STUDIES: 20 semester hours. For additional information, see the section of this catalog on Legal Studies.

PRE-LAW: For information, see the section of this catalog on Pre-professional Programs.

BACHELOR OF ARTS IN EDUCATION: See School of Education.

COURSE OFFERINGS

101 INTRODUCTION TO POLITICAL SCIENCE

An introduction to the major concepts, theories, ideas, and fields of study relating to politics and governmental systems. Explores governmental structures and processes, political power and authority, conflict, decision-making, policy, and stability and change. (4)

151 AMERICAN GOVERNMENT

A survey of the constitutional foundations of the American political system and of institutions, processes, and practices relating to participation, decision-making, and public policy in American national government. (4)

170 INTRODUCTION TO LEGAL STUDIES

An examination of the nature of law, judicial process, and participant roles in the legal system. Particular emphasis given to legal culture including comparative systems, assessments of legal needs and legal services, the legal profession, philosophy of law, and judicial decision-making. (4)

210 GLOBAL PERSPECTIVES: THE WORLD IN CHANGE

A survey of global issues affecting the human condition in a rapidly changing and increasingly interdependent world: modernization and development; economic change and international trade; diminishing resources; war and resolution; peace and justice; and cultural diversity. These issues are examined in a multi-disciplinary light using case studies drawn from non-Western and Western nations. Emphasis on the development of a global perspective which recognizes human commonalities as well as diversity in perceptions, values, and priorities. (Cross-referenced with ANTH 210 and HIST 210.) (4)

231 CURRENT INTERNATIONAL AFFAIRS

A survey course in international relations with emphasis on current events. Examination of ideology, economic resources and development, national rivalries, military power, revolutionary movements, population pressures, alliance politics, and multi-lateralism. Relation of these factors to international relations theory. (4)

325 POLITICAL THOUGHT

A survey of the origin and evolution of major political concepts in ancient, medieval, and early modern times. Such ideas as state, obligation, authority, community, law, and freedom will be studied developmentally. (4)

326 RECENT POLITICAL THOUGHT

A critical examination of the major ideologies of the modern world: democracy, conservatism, capitalism, socialism, anarcho-syndicalism, communism, racial and political elitism, nationalism, liberalism, Christian political thought, and contemporary problems. (4)

336 INTERNATIONAL ORGANIZATION AND LAW

Cooperation and conflict in international institutions. Issues before the United Nations and other international organizations. The role of international law in interstate relations. (4)

338 AMERICAN FOREIGN POLICY

The role of the United States in international affairs. An analysis of the major factors in the formulation and execution of United States foreign policy and its impact on other powers. (4)

345 GOVERNMENT AND PUBLIC POLICY

An integrated approach to the nature of public policy, with emphasis on substantive problems, the development of policy responses by political institutions, and the impacts of policies. Special attention to policy at the American national or sub-national levels, in international politics, or from a comparative perspective, as announced by the department. (4)

347 POLITICAL ECONOMY

An examination of the ways that politics and economics coincide. Topics include the development of capitalism, socialist approaches, international issues, regional examples, and methods of study. Prerequisite: 101 or ECON 150. (4)

348 SCIENCE, TECHNOLOGY, AND GOVERNMENT

Examination of policy initiatives and responses to issues of modern science and technology. Influences of science and technology on political processes. Government as regulator, promoter, and consumer of science and technology. (4)

354 STATE AND LOCAL GOVERNMENT

Governmental structures, processes, and policy at the state, local, and regional levels of the American system. Special attention to intergovernmental relations and the role of the national government. (4)

361 AMERICAN POLITICAL PARTIES

An examination in theory and practice of American political parties and interest groups; special attention to party leadership and recruitment, individual political socialization and participation, electoral processes, and to the role of interest groups in American politics. (4)

363 GOVERNMENT, THE MEDIA, AND PUBLIC POLICY

Inquiry into the relationship between public will and public policy in America, concentrating on the pivotal role of electronic and print media. Examines media in contexts of opinion formation, expression, and effects. Attention to political culture, uses of public opinion polls, and governmental regulation, secrecy, and information management. (4)

364 THE LEGISLATIVE PROCESS

A study of theory, organization, and procedure of the Congress and other legislative bodies in the United States; special emphasis on the dynamics of conflict and compromise in the legislative arena including citizen and interest group participation and lobbying. (4)

368 THE AMERICAN PRESIDENCY

Study of the nation's highest political office in terms of the roles and expectations of the office, styles of leadership, Presidential decision-making, the powers and limitations and the interaction of personality and institution. (4)

371 JUDICIAL PROCESS

An examination of legal processes in various adjudicatory settings. Primary attention given to judicial processes focusing on civil and criminal law. Includes an examination of administrative law processes among other quasijudicial forms of conflict resolution. (4)

372 CONSTITUTIONAL LAW

The constitutional basis of governmental powers in the United States with special emphasis given to judicial review, separation of powers, federalism, and interstate commerce. Includes an examination of the political and constitutional restrictions on governmental power. (4)

373 CIVIL LIBERTIES

Constitutional rights and liberties with special attention given to freedom of expression and association, religious freedom, rights in criminal procedure, due process and equal protection. (4)

374 LEGAL RESEARCH

Introduction to various methods of legal analysis and research. Includes an examination of primary documents and research systems. (4)

381 COMPARATIVE LEGAL SYSTEMS

A comparative examination of legal systems including common law, Roman law, and non-Western systems. (4)

384 COMMUNIST POLITICAL SYSTEMS

Comparative examination of Marxist political systems, particularly the U.S.S.R., eastern Europe, China, and Cuba. Special attention given to ideology and to the role of the Communist Party. (4)

385 CANADIAN POLITICAL SYSTEM

The government and politics of Canada, with special attention to federalism, national unity, political culture, and constitutional development. Conditions permitting, the course will include a field trip to Victoria, provincial capital of British Columbia. (4)

386 AFRICAN POLITICAL SYSTEMS

Comparative examination of the political systems of sub-Saharan Africa. Exposition of pre-colonial, colonial, and contemporary influences with special attention to problems of decolonization, nation-building, and development. (4)

401 SEMINAR IN POLITICS

Selected topics in the study of government and politics as announced by the department. (4)

458 INTERNSHIP IN PUBLIC ADMINISTRATION

An internship with a department of local or state government; planned and supervised jointly by a supervising government official and a member of the political science faculty. By department consent only. (4-12)

464 INTERNSHIP IN THE LEGISLATIVE PROCESS

An opportunity to study the process from the inside by working directly with legislative participants at the state or local level. By department consent only. (Internships with the Washington State Legislature are open only to juniors and seniors with at least one year at PLU who have taken or take concurrently 364.) (4-12)

471 INTERNSHIP IN LEGAL STUDIES

An internship with a private or public sector agency or office engaged in legal research, litigation, or law enforcement. (4)

491, 492 INDEPENDENT READING AND RESEARCH

By department consent only. (1-4)

501 GRADUATE WORKSHOPS

Graduate workshops in special fields or areas for varying periods of time. (1-4)

520 POLICY AND PROGRAM ANALYSIS

Policy and program analysis guides decisions on whether specific programs should be modified, expanded, or dropped. The course emphasizes approaches to analysis, epistemological concerns, and techniques of model construction and analysis. (4)

540 OPERATIONS ANALYSIS IN GOVERNMENT

The purpose of the course is to develop skills in the management of government operation. Fulfillment of this purpose requires an exploration of the job of government managers, including sets of activities required to manage successfully in a public situation, and presentation and practice of techniques of operations management as they are modified to fit the public sector. (4)

553 PUBLIC PERSONNEL ADMINISTRATION

The course describes the major forces that affect public personnel matters today; introduces and provides practice in personnel work; and seeks to encourage and develop critical thinking in the world of work. (4)

557 PUBLIC ADMINISTRATION

Approaches and problems in the theory and practice of public administration, with attention to the applications in the administrative environment. (4)

558 GRADUATE INTERNSHIP

Practical experience through an internship in a public agency. (4)

567 PUBLIC BUDGETING PROCESS

An introduction to the major areas of budget preparation, analysis for budgeting, capital budgeting, financial management, and related issues. (4)

571 COURT ADMINISTRATION

An examination of the field of judicial administration. Focuses particularly on budgeting, personnel, information systems, court-caldending, and other court management functions. (4)

590 GRADUATE SEMINAR

Selected topics as announced. Prerequisite: consent of the instructor. (1-4)

591 DIRECTED STUDY, (1-4)

595 GRADUATE READINGS

Independent study card required. (4)

598 RESEARCH PROJECT (4)

599 THESIS (4)

Psychology

P

Psychology

Through its curriculum, use of community resources, and research programs, the Department of Psychology provides students with a comprehensive and balanced exposure to psychology as a discipline, a science, and a profession.

The major helps prepare students for graduate work in psychology or for employment after graduation in a variety of settings. In addition the psychology major is pursued by some students who plan to do graduate work in fields outside of psychology such as social work, law, business administration, or theology. The minor in psychology is designed to be a supplement to another major in the liberal arts or to a degree program in a professional school, such as business administration. The Department of Psychology also offers a broad range of courses which can be individually selected by a student once the *Introduction to Psychology* course has been completed.

As a supplement to academic learning, the department offers opportunities for students to have experience of a field-work nature in a wide variety of settings in the greater Tacoma area, such as: American Lake Veterans Hospital, Western State Hospital (including the Child Study and Treatment Center), Rainier State School (developmentally disabled), mental health clinics, special services departments of local school districts, and so on.

The laboratory classes offered by the department are small in size with maximum importance attached to individualized instruction.

FACULTY

Nolph, *Chair*; Adachi, D. Anderson, Baird, R. M. Brown, Hansvick, LeJeune, Moritsugu.

BACHELOR OF ARTS MAJOR: 36 semester hours, including 101, 243, 340, 460, and 490. In addition, Statistics 231 is required. The Undergraduate Record Exam is required of all graduating majors.

MINOR: 20 semester hours of which at least 8 hours must be taken in residence. Statistics 231 may be included with departmental consent.

Neither 110 nor 111 may be counted toward the major or minor. Courses at the 500 level are primarily for graduate students; however, they may be taken by advanced undergraduates who receive the instructor's consent.

COURSE OFFERINGS

101 INTRODUCTION TO PSYCHOLOGY

An introduction to the scientific study of behavior; scientific methods for studying the behavior of living organisms; topics such as motivation, learning, emotion, intelligence, personality, adjustment, and social behavior. I II (4)

110 STUDY SKILLS

Effective techniques for college study. Note-making, study method, examination skills, time management, educational planning. Class work supplemented by individual counseling. (May not be counted in the major or minor.) I II (1)

111 COLLEGE READING

Improvement of college-level reading skills. Previewing, skimming, scanning, rapid reading, critical reading, and study reading. (May not be counted in the major or minor.) I II (1)

221 THE PSYCHOLOGY OF ADJUSTMENT

Problems in personal adjustment in everyday living. Prerequisite: 101. I II (2)

243 SCIENTIFIC METHODS

Basic research design and theory construction; applications to both laboratory and field. Special emphasis on perception and cognition. Lecture and laboratory. Majors must take four credit hour option. Prerequisite: 101. I II (2 or 4)

325 HUMAN SEXUALITY-EMOTIONALITY

Study of the psychological, biological, and cultural components of human sexual and emotional behavior. Topics include sexual identity, typical and atypical sexual behavior, reproduction, courtship, and affection. Prerequisite: 101. (4)

330 SOCIAL PSYCHOLOGY

Research and theory concerning the interaction between groups and the individual. Language, attitudes, aggression, leadership, person perception, and related topics are examined and their relationship to various types of social change and influence are discussed. Prerequisite: 101. I (4)

335 DEVELOPMENT: INFANCY TO MATURITY

Physical, intellectual, social, and emotional growth from infancy through adolescence to maturity. Prerequisite: 101. III (4)

340 HUMAN NEUROPSYCHOLOGY

The study of brain-behavior relationships. Topics include neuro-anatomical and neurophysiological mechanisms underlying human behavior; psychological effects of brain damage; physiological correlates of languages, sensory and motor functions, and emotion; electrical stimulation of the brain. Prerequisite: 101. I (4)

345 COGNITIVE PROCESSES

The study of human mental activity. Topics include attention, perception, consciousness, memory, language, conceptual behavior, developmental aspects of cognition, individual differences, and applications. (4)

355 ENVIRONMENTAL PSYCHOLOGY

Human behavior related to the physical environment. Behavioral basis for designing environments— including territorial behavior, environmental attitudes and perceptions; and stressors. Applications to built and natural settings ranging from rooms to the wilderness. (4)

399 INTERNSHIP

A practicum experience in the community in the clinical, social, and/or experimental areas. Classroom focus on case conceptualization and presentation. Prerequisite: sophomore standing plus one course in psychology and consent of the department. (1-6)

401 WORKSHOP

Selected topics in psychology as announced.

403 THE PSYCHOLOGY OF INFANCY AND CHILDHOOD

Physical, intellectual, emotional, and social development of the individual from the pre-natal period to adolescence; problems of behavior and adjustment. Prerequisite: 335. (2)

405 ADOLESCENT PSYCHOLOGY

Physical development, mental traits, social characteristics, and interests of adolescents; adjustments in home, school, and community. Prerequisite: 335. II (2)

P

Psychology

420 PERSONALITY THEORIES

Strategies for the study of personality theories. Techniques of measurement and implications for counseling and/or psychotherapy. Prerequisite: 101. I II (4)

421 ABNORMAL PSYCHOLOGY

Etiology and treatment of abnormal behavior. Emphasis on treatment in community-based settings and institutions. Prerequisite: 101. I II (4)

422 COMMUNITY PSYCHOLOGY

Intervention strategies which focus primarily on communities and social systems. Particular stress on alternatives to traditional clinical styles of promoting the well-being of communities. Prerequisite: 101. (4)

430 CONSUMER PSYCHOLOGY

Social psychological principles applied to consumer attitude-formation and decision-making—e.g., perception of advertisements, influence of reference groups and opinion leaders, and learning effects upon repeat purchasing. Emphasis on audience, message, and media factors. (4)

450 PSYCHOLOGICAL TESTING

Survey of standardized tests; methods of development, standardization; limitations and interpretations of tests. Prerequisite: 243, a course in statistics, or consent of instructor. I (4)

452 PSYCHOLOGY AND MEDICINE

An introduction to the field of health care psychology. Psychosocial factors influencing health (e.g., stressors, personality, behavior patterns). Psycho-social impact of illness and its treatment. The role of psychologists in the health care system. (4)

460 LEARNING: RESEARCH AND THEORY

Experimental studies and theories of learning. Lecture and laboratory. Prerequisite: a minimum of 12 hours in psychology including 243. II (4)

490 HISTORY AND SYSTEMS OF PSYCHOLOGY

I historical development, contemporary forms, and basic assumptions of the major psychological theories and traditions. Primarily for advanced majors and graduate students. I (4)

491, 492 INDEPENDENT STUDY

A supervised reading, field, or research project of special interest for advanced undergraduate or graduate students. Prerequisite: departmental consent. I II (1-4)

493 SEMINAR

Selected topics in psychology as announced. Prerequisite: consent of instructor.

501 GRADUATE WORKSHOPS

Graduate workshops in special fields or areas for varying periods of time. (1-4)

510 INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY

Human behavior in work settings. Applications or extension of psychological factors and principles to the problems of individuals operating within an organizational context—including human relations skills, human factors, individual and group differences, and role-related behaviors. (4)

515 ASSESSMENT I

Study of the administration, scoring, and interpretation of individual intelligence tests for adults and children. Included are the Wechsler Adult Intelligence Scale-Revised and the Wechsler Intelligence Scale for Children-Revised. Prerequisite: 450 and consent of instructor. (4)

516 ASSESSMENT II

Clinical assessment of personality through self-report, behavioral, and projective methods of measurement. Focus on development of interviewing techniques, test administration, scoring, and interpretation skills. Prerequisite: 515 and consent of instructor. (4)

520 PSYCHOPATHOLOGY AND ADJUSTMENT

Examination of major approaches to identifying, categorizing, and explaining human maladaptation or psychopathology. The relation of various intervention strategies of these conceptualizations. Focus on promoting psychological well-being. Prerequisite: 421. (4)

521 PSYCHO-EDUCATIONAL INTERVENTIONS

The elements of community consultation and education programs within a mental health setting. Emphasis on a psycho-educational or preventive model within a community application. Prerequisite: consent of instructor. (4)

540 COUNSELING METHODS I

Focus on strategies for treatment of individual clients. Emphasis on case conceptualization, communication skills, and instruction in current techniques via role play and videotape feedback. Prerequisite: 420, 421 or consent of instructor. I II (4)

541 COUNSELING METHODS II

Exploration of current counseling techniques for problem identification and solution as related to contemporary counseling theories. Development of interpersonal and conceptual skills for counseling with individual clients via role play and videotape feedback. Prerequisite: 540 and consent of instructor. (4)

570 EXTERNSHIP I

Supervised counseling/assessment/consultation experience in a professional setting. Requires 15-20 hours per week of supervised practice, together with participation in a weekly case presentation/supervision session. Prerequisite: 515, 516, 540, 541. (2)

577 EXTERNSHIP II

Advanced counseling/assessment/consultation experience in a professional setting. May be a continuation of the placement experience begun in 570, or may involve a more advanced placement in another setting. 15-20 hours per week of supervised practice, together with participation in a weekly case presentation/supervision session. Prerequisite: 570. (2)

590 GRADUATE SEMINAR

Selected topics as announced. Prerequisite: consent of instructor. (1-4)

591 DIRECTED STUDY (1-4)**595 GRADUATE READINGS**

Independent study card required. (4)

598 RESEARCH PROJECT (4)**599 THESIS (4)**

Religion

R

Religion

Religion is an attempt to understand the meaning of human existence. For Christians meaning is revealed in the love of God in Jesus Christ. The Department of Religion stands within and affirms this Christian context.

In a university setting this means the serious academic study of the Bible, of the history of the Christian tradition, of attempts to understand God's continuing activity, and of God's promises for the future.

The revelation of God in Jesus Christ likewise calls for other roles. It calls for open and authentic dialogue with other religious traditions, and thus seeks to understand a common humanity as each tradition adds its unique contribution. It calls for a critical yet constructive interchange with contemporary society. Finally, it calls for a sharing of insights with other disciplines in the university as each sheds light on the human condition.

To these ends the Department of Religion offers a wide range of courses and opportunities. Furthermore it calls students, majors and non-majors alike, to consider questions of meaning, purpose, and value in a society which all too often neglects these questions.

Lutheran Institute for Theological Education (LITE): The Department of Religion also participates in a program of continuing theological education for clergy and laity in the Pacific Northwest. Dr. Walter Pilgrim directs the LITE program. For further details contact Dr. Pilgrim.

FACULTY

Ingram, Chair; J. Brown, Christopherson, Gehrke, Govig, Knutson, Petersen, Pilgrim, Poellet, Stivers.

UNIVERSITY CORE REQUIREMENTS: 8 semester hours for students entering as freshmen or sophomores. Four lower division hours shall be taken before the end of the sophomore year. The second 4 hours may be selected from most of the other offerings in the religion curriculum. Transfer students entering as juniors or seniors are required to take 4 semester hours of religion unless presenting 8 transfer hours of religion from other accredited colleges or universities.

The Core I requirement in Religious Studies (8 hours) specifies that 4 hours must be taken from each of two lines, as follows:

1. Biblical Studies-111, 211, 212, 330, 331, 332.
2. Christian Thought, History, and Experience-121, 221, 222, 223, 224, 225, 226, 360, 361, 362, 363, 364, 365, 366, 367.
3. Integrative and Comparative Religious Studies-131, 231, 390, 391, 392, 393.

Junior and senior transfer students need to complete only one course (4 hours) from lines 1 or 2.

BACHELOR OF ARTS MAJOR: 30 semester hours with at least 4 hours in each of the three lines plus either 404 or 405. Transfer majors must take at least 18 hours in residence. Majors should plan their program early in consultation with departmental faculty. Closely related courses taught in other departments may be considered to apply toward the religion major in consultation with the chair of the department.

MINOR: 16 semester hours with no more than 8 hours in one of the lines listed above. Transfer minors must take at least 8 hours in residence.

LAY CHURCH STAFF WORKER PROGRAM

A student who seeks to fulfill a vocation of service to the church and community as an unordained professional may prepare for certification by the appropriate church judicatory as a church staff worker. Positions currently filled by such workers include:

- Church Business Administrator
- Church Musician
- Director of Christian Education
- Christian Day School Teacher
- Parish Worker
- Youth Work Director
- Church Staff Associate (General)

A major in religion is normally required for this program, with supporting work selected in the appropriate department or school at PLU (for example, business administration, music, education, social sciences, or physical education). Many certification agencies require a period of full-time internship.

Students enrolled in the program will be advised as to those institutions, boards, and agencies within the church that may assist them in planning their educational programs and obtaining placement for internship and after graduation.

The department designates one of its members as coordinator and as adviser to its majors who are in this program. Other faculty members for related fields outside of religion and from the department assist in advising.

The Study Program

The religion major of a student in the Church Staff Worker Program must include courses which will insure basic acquaintance with (1) the Bible (ordinarily two courses: 211 and 212) and (2) denominational history, doctrine, and worship (for certification in The American Lutheran Church ordinarily one course: 224).

COURSE OFFERINGS

111 BIBLICAL LITERATURE: OLD AND NEW TESTAMENTS

The Bible as a whole; survey of the story of salvation; selected passages interpreted in contemporary contexts. (4)

121 THE CHRISTIAN TRADITION

The study of selected theological questions and formulations examined in their social and historical contexts. (4)

131 RELIGIONS OF THE WORLD

A critical introduction to the study of the religions of the world, emphasizing historical origins and cultural developments. Readings centered upon primary sources in translation. (4)

211 RELIGION AND LITERATURE OF THE OLD TESTAMENT

Literary, historical, and theological dimensions of the Old Testament, including perspectives on contemporary issues. (4)

212 RELIGION AND LITERATURE OF THE NEW TESTAMENT

Literary, historical, and theological dimensions of the New Testament, including perspectives on contemporary issues. (4)

221 ANCIENT CHURCH HISTORY

The origins, thought, and expansion of the Christian Church; rise of the Papacy, expansion in Europe and the growth of Christian involvement in culture; to the end of the Papacy of Gregory I (604). (4)

222 MODERN CHURCH HISTORY

Beginning with the Peace of Westphalia (1648), interaction of the Christian faith with modern politics, science, and philosophy; expansion in the world, modern movements. II (4)

R

Religion

223 AMERICAN CHURCH HISTORY

Introduction to the major religious themes in American history through the study of selected topics and periods, exploring the ways in which religion has shaped American culture, as well as the ways in which social change has influenced the religious experience of Americans. (4)

224 THE LUTHERAN HERITAGE

A study of Lutheranism as a movement within the church catholic: its history, doctrine, and worship in the context of today's pluralistic and secular world. (Majors in religion who are in the Church Staff Worker Program will be given enrollment priority.) (4)

225 FAITH AND SPIRITUALITY

A reflection on various Christian life-styles and their expression and understanding of commitment and discipleship. This course centers around the theological question, What does it mean to be a follower of Jesus? (4)

226 CHRISTIAN ETHICS

An introduction to the personal and social ethical dimensions of Christian life and thought with attention to primary theological positions and specific problem areas. (4)

231 MYTH, RITUAL, AND SYMBOL

An examination of the nature of myth and its expression through symbol and ritual. Attention given to pre-literate mythology, Asian mythology, and Occidental mythology and the role these mythological traditions have played in the development of modern ethical, social, and religious values. (4)

330 OLD TESTAMENT STUDIES

Major areas of inquiry: the Prophets, Psalms, Wisdom Literature, Mythology, Theology, or Biblical Archaeology. (4)

331 NEW TESTAMENT STUDIES

Major areas of inquiry: intertestamental, synoptic, Johannine, or Pauline literature, or New Testament theology. (4)

332 THE LIFE OF JESUS

A study of the life and teachings of Jesus; a historical survey of "Life of Jesus" research, form and redaction criticism of the Gospel tradition; the religious dimensions of Jesus' life and thought. Prerequisite: one lower division course or consent of instructor. (4)

333 BIBLICAL STUDIES

Study of a select Biblical theme, book, or group of books, such as theodicy (Job), apocalyptic (Daniel, Revelation), or methods of interpretation. (2)

360 STUDIES IN CHURCH MINISTRY

The church in human service: the congregation, the church-related college, contemporary contexts of world mission, and inter-church cooperation. (4)

361 CHURCH HISTORY STUDIES

A selected area of inquiry, such as American-Scandinavian church history, religious experience among American minority communities, and the ecumenical movement. (4)

362 LUTHER

The man and his times, with major emphasis on his writing and creative theology, such as the radical centrality of the Gospel and faith, the Word and Scripture, the sacraments, church and state. (4)

363 CHRISTIAN CLASSICS

Great classics of Christian literature, in such genres as devotion, theology, and poetry by such authors as Augustine, Thomas a Kempis, Juliana of Norwich, Luther, Calvin, Teresa of Avila, Wesley, Kierkegaard, Martin Luther King, Jr., and others. (4)

364 THEOLOGICAL STUDIES

A selected topic or movement within Christian theology such as understandings of God, the problem of evil, liberation theology, feminist theology, narrative theology, Christology, or interreligious dialogue. (4)

365 CHRISTIAN MORAL ISSUES

An in-depth exploration from the perspective of Christian ethics of selected moral issues such as peace and violence, the environment, sexuality, political and economic systems, hunger, and poverty. (4)

366 THE ARTS AND CHRISTIAN LIFE

The relationship of Christian spirituality to artistic creativity, including literature, architecture, and films in popular culture. (4)

367 MAJOR RELIGIOUS THINKERS

An in-depth study of one or two major figures in Christian theology, non-Christian religious thought, or contributors to religious understanding, e.g., Augustine, Bonhoeffer, Buber, Bultmann, Niebuhr, Gandhi, Radhakrishnan, Tillich, or Ricoeur. Fulfills either line 2 or 3 as appropriate. Prerequisite: consent of instructor. (4)

390 STUDIES IN HISTORY OF RELIGIONS

An historical study of specific non-Christian religions such as the traditions of India and China, Judaism, and Islam. (4)

391 SOCIOLOGY OF RELIGION

A multi-cultural investigation of religious experience, belief, and ritual in relation to their social settings with particular attention to new forms of religion in America. (Cross-referenced with SOC 391) (4)

392 GODS, MAGIC AND MORALS

The anthropology of religion; a survey of humanity's concepts of and relationships to the supernatural; examination of the varying personal and group functions that religions fulfill; exploration of rituals, beliefs, and systems of morality in religions both "primitive" and historical; origins of religion; science "versus" religion; the nature of reality. (Cross-referenced with ANTH 392) (4)

393 RELIGION AND THE STAGES OF LIFE

Selected periods within the life cycle considered from a religious and social scientific viewpoint, e.g., healing and well-being, death and dying. (4)

403 ADVANCED SEMINAR IN RELIGION

Selected topics to be announced. For majors, minors, and students with at least three courses in religion. Priority to majors and minors. (4)

404 READING SEMINAR IN RELIGION

A survey of significant books in the area of contemporary religious studies, emphasizing recent books in Biblical theology, systematic and historical theology, Christian ethics, and dialogue between Christianity and the world religions. Students will review assigned books and share results with members of the course. For majors and minors, others with permission of the instructor. (2)

405 RESEARCH SEMINAR IN RELIGION

A faculty-directed research and writing project on a topic chosen by students in one of the methodological disciplines of religious studies, such as theology, historical studies, Biblical studies, ethics, history of religions, social scientific studies, or philosophy. For majors and minors, others with permission of the instructor. (2)

491, 492 INDEPENDENT STUDY

Intended for religion majors, advanced and graduate students; consent of the department is required.

Scandinavian Area Studies

S
Scandinavian Area Studies

Scandinavian Area Studies is a flexible program which draws on many university departments. It offers a broad perspective on Scandinavia past and present, while developing useful analytical and communicative skills. The program reflects both the Scandinavian heritage of the university and the dynamic profile of Scandinavia within the world community today.

Students enrolled in the Scandinavian Area Studies major are expected to demonstrate the equivalent of two years of Norwegian, Swedish, or Danish language instruction (16 hours). To gain a basic understanding of the region, they also take 6 hours in Scandinavian cultural history and 4 hours in Scandinavian literature.

Majors choose additional Scandinavian and cross-disciplinary courses in accordance with personal interests and goals and in consultation with the program coordinator (4 hours in cross-disciplinary courses, 2 hours in a senior project, and 8 hours of electives). A total of 40 semester hours is required. With the approval of the Scandinavian Studies committee, selected interim, summer, and experimental courses may be included in the major program. No more than 8 semester hours may be offered to meet both the Scandinavian Area Studies major and general university requirements or requirements for a second major. Such cross-application of courses must be approved by the Scandinavian Studies Committee.

The cross-disciplinary courses listed below offer an opportunity to view the Scandinavian countries in comparison with other world regions. Courses indicated by the initial "S" are regular departmental offerings in which students enrolled in the Scandinavian Area Studies major focus their reading and work assignments to a significant extent on Scandinavia. Students must consult with the program coordinator concerning the correct registration for these courses.

Students are encouraged, though not required, to study in Scandinavia as part of their program. Study opportunities are available at a variety of institutions in Norway, Sweden, and Denmark. Appropriate coursework completed abroad should be submitted to the Scandinavian Studies committee for approval toward the major.

Students interested specifically in Norwegian language study are referred to the description of the Norwegian major under the Department of Languages. All core Scandinavian courses are taught out of this department.

Courses Applicable to the Scandinavian Area Studies Major

Scandinavian Courses

Languages:

- Norwegian 101, 102—Elementary
- Norwegian 210, 202—Intermediate
- Norwegian 351—Conversation and Composition
- Norwegian 352—Advanced Conversation and Composition

Cultural History:

- Scandinavian 150—Introduction to Scandinavia
- Scandinavian 321—Vikings and Emigrants
- Scandinavian 322—Contemporary Scandinavia

Literature:

- Scandinavian 250—Masterpieces of Scandinavian Literature
- Scandinavian 421—Ibsen and Strindberg
- Scandinavian 422—Twentieth Century Scandinavian Literature

Cross-Disciplinary Courses

- Anthropology 350-S—Women and Men in World Cultures
- Anthropology 360-S—Ethnic Groups
- Art 381-S—20th Century Design and Architecture
- Economics 331-S—International Economics
- Economics 381-S—Comparative Economic Systems
- English 364-S—Special Topics in Children's Literature
- English 381-S—Studies in Medieval Literature
- History 323-S—The Middle Ages
- History 325-S—Reformation
- History 495-S—Seminar: European History
- Philosophy 326-S—Moral Problems in the Social Services
- Philosophy 365-S—Kierkegaard and Existentialism
- Political Science 345-S—Government and Public Policy
- Political Science 381-S—Comparative Legal Systems
- Religion 223-S—American Church History
- Religion 361-S—Church History Studies
- Sociology 330-S—The Family

Scandinavian Studies Committee: Toven, Chair & Program Coordinator; M. Benton, Farmer, R. Jensen, C. L. Nelson, Rasmussen, Ringdahl.

COURSE OFFERING

495 SENIOR PROJECT

A research paper, internship, or other approved project. For Scandinavian Area Studies majors. 1 II (2)

S

Division of Social Sciences

Division of *Social Sciences*

The Division of Social Sciences is committed to teaching students to think critically about public and social issues from the perspective of several disciplines. Through classroom learning and applied settings such as supervised internships, students in the social sciences acquire an understanding of society while developing the analytical tools with which to provide solutions to a diverse range of social problems.

By developing an environment for inquiry that looks at issues and policies influencing the quality of life, the division organizes forums for discussion of such human problems as world hunger, third world development, child welfare, population growth, and aging. These forums afford an opportunity for students, faculty, and the community to analyze, probe, and evaluate our rapidly-changing world.

Several specialized programs sponsored or supported by the Division of Social Sciences strive to build further links between the students and faculty of the university and their community. Among the specialized programs are the following:

The *Center for the Study of Public Policy* supports joint faculty-student research projects on a wide range of multidisciplinary topics related to public policy.

The *Family and Children's Center* houses the Counseling Center staffed by faculty and students in the Marriage and Family Therapy graduate program.

Interface is a series of short courses on topical subjects offered each semester to students and citizens of the community.

Legal Studies is a multidisciplinary program designed to study law as a body of knowledge within the context of a liberal arts education.

The *National Issues Forum* is presented in cooperation with the Domestic Policy Association, a national organization committed to civic education.

The *Center for Economic Education* works to raise the understanding of economic principles among teachers and students in the Pacific Northwest.

The *Women's Studies Program* sponsors conferences each year as well as the Brown Bag Lecture Series on the roles of women and men in society today. The program also promotes student participation in regional conferences on women's issues.

The division's *Graduate Programs* provide several concentrations, which are designed to link theory to applied settings in the fields of organizational systems, marriage and family therapy, public administration, and individualized study (see *Graduate Catalog*.)

FACULTY

Atkinson, *Divisional Dean*; faculty members of the Departments of Anthropology, Economics, History, Political Science, Psychology, Social Work and Marriage and Family Therapy, and Sociology.

As a division within the College of Arts and Sciences, the Division of Social Sciences offers programs in each constituent department leading to the B.A. degree. Programs leading to the M.A. and M.P.A. degrees are also offered. Course offerings and degree requirements are listed under

ANTHROPOLOGY
ECONOMICS
HISTORY
MARRIAGE AND FAMILY THERAPY
POLITICAL SCIENCE
PSYCHOLOGY
SOCIAL WORK
SOCIOLOGY

See also the sections of this catalog on Legal Studies and International Education.

COURSE OFFERINGS

502 SOCIAL SCIENCE THEORY

An analysis of social explanation and the social science frame of reference. (4)

505 SOCIAL SCIENCE RESEARCH METHODS

Basic research concepts applied to laboratory, field, and bibliographic studies. Topics include formulating research questions, research designs, data gathering techniques, analysis of data, and theory construction. Emphasis on understanding and evaluating rather than conducting research. (4)

Social Work

S

Social Work

Within a program that is firmly based in the liberal arts, the social work major is designed to prepare students for beginning professional social work practice. The curriculum provides an understanding of the roots and dimensions of social problems as well as the basic skills and knowledge necessary to work toward solving these problems. Social workers are involved in areas that are influenced by political and economic factors as well as social factors. To that end, the program stresses an understanding of social science theories and methods that adds an extra dimension to practical education. The result is a broad theoretical base to complement professional skills.

The social work faculty place a high value on the integration of academic and experiential learning. A major strength of the curriculum is the field experience component, and the program provides numerous opportunities for students to learn in community settings. In addition to field placements for advanced students, freshmen and sophomores are encouraged to test their interests in and aptitudes for social work through experiences in community agencies.

Social work majors are fortunate to have access to a rich variety of social service agencies in Tacoma and Pierce County that provide excellent placements for students. Students work with experienced, caring supervisors who help make placements a valuable learning experience. The Family and Children's Center, located in East Campus, provides social service programs for a variety of age groups and offers particularly convenient placements for students. The Social Work Department sponsors "Second Wind," a health promotion school for older adults, through the Family and Children's Center.

Social work majors should consult with a departmental adviser in selecting a minor area of study which supports the social work curriculum. Minors in psychology and sociology are particularly helpful. Students are also encouraged to include philosophy and foreign language courses in their studies as a knowledge of ethical theories and a second language are valuable assets in the social work profession. The faculty encourages students to take advantage of learning opportunities that emphasize multi-cultural awareness and diversity. In addition to specific courses within the Division of Social Sciences, the Service Learning Program and Study Abroad Programs are beneficial to social work majors.

The social work program is accredited by the Council on Social Work Education.

FACULTY

V. Hanson, *Chair*; Gilbertson, Schiller, Storm, York.

BACHELOR OF ARTS MAJOR: 38 semester hours, including 271, 332, 333, 377, 385, 472, 473, 475, 476, and 484. The following courses are prerequisites for entering the social work curriculum and may be taken to fulfill general university core requirements: Psychology 101, Sociology 101, and either Anthropology 101 or Biology 111. The Integrated Studies Program (Core II) also satisfies this prerequisite, since content related to the social, biological, and behavioral sciences is built into its interdisciplinary approach.

Unless otherwise stated, 271 or the consent of the instructor is a prerequisite for all courses in social work.

COURSE OFFERINGS

222 COMMUNITY SERVICES

Designed to provide an opportunity for freshman and sophomore level students to test their interest in the field of social work through a five to ten-hour week participant-observation experience in a local agency. The purposes are to provide opportunity for a self-evaluation of one's aptitude for and interest in the field, and secondly, to introduce the idea of evaluating the effectiveness of the agency in terms of achieving its stated goals. No prerequisites. Will not meet general university core requirements. I II (2-4)

271 INTRODUCTION TO SOCIAL WORK

The history, philosophical and value stance, practice methods and "settings" (i.e. services to children and youth, residential treatment, health care, corrections, services to older persons) of professional social work; opportunities for agency/institutional observational experiences. I II (4)

332 SOCIAL WORK VALUES

An examination of the value system that underlies the practice of social work, such as client self-determination, regard for the worth of individuals, and an appreciation of the distinct characteristics of diverse populations. Students will have the opportunity to clarify their own values during the course. I II (2)

333 INTERVIEWING

A laboratory course that provides opportunity to learn basic interviewing skills and techniques through various experiential forms. Open to non-social work majors. Prerequisite for social work majors only: 332. III (4)

377 FAMILY AND CHILD DEVELOPMENT

A social and psychological examination of family development using a systems approach. Study of family development throughout the life cycle. Consideration of emerging and alternative family structures. (4)

385 SOCIAL POLICY AND ORGANIZATION

An examination of the impact that cultural values have on social policy and how organizational structures influence the implementation of social policies. Consideration of the influence that economic and political systems have upon social policy and the way in which the values operating in those systems impact social policy. Study of the effect that administrative and organizational structures at various governmental levels have on social policy implementation. The place of social services as an institution in society and the role that the social work profession plays in value formation and influence. II (4)

399 INTERNSHIP

A supervised learning experience in an agency setting with emphasis on acquiring an overview of the agency, in contrast to learning specific social work skills. Intended to provide the opportunity to apply and test out knowledge acquired in courses previously taken in the social sciences. Can be a useful complement to 475 and 476, which are more skill oriented. III (1-4)

458 LAW AND THE HUMAN SERVICES

An examination of the legal foundations of human services with emphasis on domestic relations, corrections, and juvenile justice. Special emphasis on the rights of offenders, juveniles, dependent children, the handicapped, and others served by the social sector. (4)

472 SOCIAL WORK PRACTICE I

Provision of a theoretical base and requisite skills for direct service in social work. Within a generalist framework the following intervention models will be presented: the systems model, the task-centered model, problem-solving theory and the common human needs model. I (4)

473 SOCIAL WORK PRACTICE II

A continuation of 472 with general emphasis on direct service. Focus on family therapy, ethical and value considerations in social work, and knowledge and skills related to systems change within a group process approach. II (4)

475, 476 FIELD EXPERIENCE

Supervised field work within an agency or institution; application/integration of knowledge, theory, and understanding; development of techniques common to the social work field. Prerequisite: 271 and consent of instructor. III (4, 4)

484 SOCIAL RESEARCH

Principles of research design and assessment of various research methods. Evaluation research will be given special attention. Primary emphasis on understanding and critically examining actual research. (4)

490 SEMINAR

Prerequisite: departmental consent. (1-4)

491 INDEPENDENT STUDY

Prerequisite: departmental consent. (1-4)

Sociology

Sociology examines the processes and structures which shape social groups of all sizes, including friends, families, workplaces, and nations. The study of sociology provides students with unique interpretive tools for understanding themselves and others in a changing world. Sociology has broad appeal to those who are interested in developing practical skills and analytic talents. Some of the practical pursuits enabled by sociological training are in the areas of planning, program development, counseling, research, criminal justice, employment and training, and marketing. The academic preparation is valuable to those interested in pursuing further degrees in law, administration, social work, theology, or the social sciences.

The department's curriculum offers a wide variety of courses in sociological analysis while permitting an optional concentration in the specialized areas of family/gender or crime/deviance. The curriculum is deliberately flexible to permit students to study individual subject areas, or to pursue majors or minors in the field. Students majoring in business, nursing, education, and computer science find the sociology minor particularly useful for broadening their understanding of social rules and relationships, problems and solutions, and continuity and change.

The faculty is attentive to the individual needs of students in their efforts to provide academic excellence to a diverse student body. Faculty members have gained recognition for their professional activities at the community, regional, and national levels, and invite student participation in these activities.

FACULTY

Schiller, Chair; Biblarz, Jobst, Kohl, Oberholtzer, O'Connor, Reisman.

BACHELOR OF ARTS:

General Major: 36 semester hours, including 101, 396, 397, 499; plus 16 semester hours in sociology approved by the department and distributed across the 200, 300, and 400 levels; and Statistics 231.

Major with Concentration in Family/Gender: 36 semester hours including 101, 330, 396, 397, 440, 451, 499; plus 8 semester hours in sociology chosen in consultation with the department.

Major with Concentration in Crime/Deviance: 36 semester hours including 101, 336, 340, 396, 397, 450, 499; plus 8 semester hours of sociology chosen in consultation with the department.

NOTE: 101 or consent of instructor are prerequisite to all 300 and 400 level courses.

MINOR: 20 semester hours, including 101 and 16 semester hours of sociology chosen in consultation with the department. Statistics 231 may be included in the minor.

BACHELOR OF ARTS IN EDUCATION: See School of Education.

COURSE OFFERINGS

101 AMERICAN SOCIETY

How does the individual relate to the group? Why do some people "have" power, prestige, or money while others "have not"? What contributes to social stability or social unrest? What is happening in schools, families, and religion? In answering, we turn the sociological eye on American society using concepts like these: life styles, interactions, groups, social structures, values, and change. (4)

223, 224 WOMEN AND MEN IN SOCIETY

An overview of topical issues involved in the changing roles of women and men. Discussion of local, national, and international issues by campus and community speakers. (1, 1)

240 SOCIAL PROBLEMS AND POLICIES

Factual and evaluative considerations in the definition, explanation, and resolution of social problems. Analysis and criticism of current approaches to social problems focusing on logical procedures and fallacies in thinking. Among issues to be included are mental health, poverty, crime, family disorganization, and work alienation. (4)

250 FARMS, CITIES, AND COMMUNITIES

The social, political, and economic forces that shape rural and urban life. Examination of the factors involved in peoples' quest for communities: What do people do in the country? How do cities grow? What happens when industries leave town or come to town? a/y (4)

260 RELATIONSHIPS

A study of the relationships of lovers, friends, enemies, acquaintances, couples, and strangers, with particular attention to patterns and problems of communication, personal identity and growth, and social networks and power. (4)

291 SOCIAL ISSUES

Analysis of selected social problem and policy areas. Topics will vary and be announced in each semester's time schedule. (2)

330 THE FAMILY

Analysis of the changing nature of the family as a system of social positions and roles. Examination of the family from a socio-historical and cross-cultural perspective. Topics include love relationships, marriage, family positions and roles, family types, parenthood, socialization, retirement, divorce, and remarriage. (4)

331 CONTEMPORARY MARRIAGE

Examination of the nature of marriage in the United States today. Some of the questions to be addressed include: How do people get into marriage? What is love all about? What do people expect of marriage? How do people make marriage work? What is required of persons in marriage? How do people solve the problems that inevitably arise in marriage? Students will be given the opportunity to test their readiness for the marriage relationship through three standardized tests. (2)

336 DEVIANCE

A general introduction to a variety of nonconforming, usually secretive, and illegal behavior, such as corporate crime, drug dealing, prostitution, industrial spying, child abuse, and suicide, with emphasis on the conflict of values and life-experiences within a society. (4)

340 CRIME AND DELINQUENCY

A close look at adult crime and juvenile delinquency with attention to their social roots, development, social impact, and relationship to a society which both abhors and nurtures them. (4)

341 PSYCHOANALYSIS AND SOCIETY

A study of psychoanalytic theory and application to the understanding of various aspects of society and social behavior, including sex roles and the family, deviant behavior, social change, art and literature, religion, and power. (40)

350 GROWING UP IN AMERICA: FROM BIRTH TO DEATH

An examination of how individuals learn social roles and identities through various agents of socialization, including family, religious, peer, media, and occupational settings. Emphasis on adolescent and adult socialization and resocialization. *afy* (4)

351 SOCIOLOGY OF LAW

An examination of the social control of law and legal institutions; the influence of culture and social organization on law, legal change, and the administration of justice. Includes examples of how law functions within the major theoretical models. (4)

361 POPULATION AND DEVELOPMENT

A survey of the major concepts and theories concerning the growth, decline, and distribution of populations, and the relationship of these processes to social and economic development. (4)

380 CAREERS AND WORKPLACES

Approaches work experiences and organizational designs with sociological insights. Emphasis on issues like satisfaction, rewards, decision making, unemployment, and effects on families. (4)

382 COMPUTERS IN SOCIAL SCIENCE

Introduction to computer usage in social and behavioral analysis. Topics include information management, systems simulation, statistical packages, and communication languages. Hands-on experience will be included in the course. No previous computer or statistics course is required. (4)

386 EQUALITY AND INEQUALITY

Examination of the nature, origins, forms, and consequences of social equalities and inequalities. Focus on material circumstances, lifestyles, and life changes in social classes, including racial groups and other minorities. (4)

391 SOCIOLOGY OF RELIGION

An investigation of the American religious scene with particular emphasis on the new religious movements featuring insider accounts, along with attention to social settings and processes which these new religions reflect and produce. (Cross-referenced with REL 391) *afy* (4)

395 POLITICAL/SOCIAL MOVEMENTS

Social, political, cultural, and other kinds of movements, and their relationship to established institutionalized behavior, to collective behavior, and to social change. Modern mass movements and the role of individuals and small groups within them. Theory of social movements, social reform, and revolution. (4)

396 MAJOR THEORIES

An analysis of the most famous and influential sociological theories of the 19th and 20th centuries with attention to the classic theories of Marx, Durkheim, and Weber, to the recent multitude of contemporary schools, and to the underlying patterns of thought which both unite and divide the sociological tradition. Required for junior majors. (4)

397 RESEARCH METHODS

Techniques for collecting, organizing, and interpreting information. Presents research designs to address different questions. Emphasis on becoming research consumers in an information society. Required for junior majors. (4)

399 INTERNSHIP

Demonstration of the implications of sociology, combining on-site work with in-class learning. The artful skill of using theory to solve problems and of handling the practicalities of working in agencies and businesses. Placements: criminal justice system, private and public social service organizations, local and state governmental agencies, businesses, and social research. Prerequisite: departmental consent. (1-4)

430 AGING AND SOCIETY

A study of changes in American society and their impact on older people. Includes comparisons made across racial, ethnic, and social groups in America as well as cross-cultural comparisons. Consideration on how people exit the work world, enter retirement, and experience death. (4)

440 SEX ROLES

Examination of the work, family, interpersonal roles of women and men both in recent history and in the current era. Traditional and non-traditional views are included. (4)

443 SOCIOLOGY OF EDUCATION

Examination of schools and other educational institutions from a sociological perspective. Topics include such issues as class, race, religion, sex, and handicap, and how these characteristics influence education. (4)

450 ISSUES IN CRIME/DEVIANCE

In-depth analysis of selected crime and deviance issues. Both contemporary and historical sociological analysis will be involved. Students will be expected to pursue a specific aspect of crime and deviance issues in depth for class presentation and discussion. Topics will vary and be announced in each semester's time schedule. (4)

451 ISSUES IN FAMILY/GENDER

In-depth analysis of selected family and gender issues. Both contemporary and historical sociological analysis will be involved. Students will be expected to pursue a specific aspect of family and gender issues in depth for class presentation and discussion. Topics will vary and be announced in each semester's time schedule. (4)

491 INDEPENDENT STUDY

Readings or fieldwork in specific areas or issues of sociology under supervision of a faculty member. Prerequisite: departmental consent. (1-4)

499 PROJECT/THESIS

Individual investigation of a topic in sociology in the student's area of interest under the guidance of a faculty member. The topic must be approved by the department. The thesis/project culminates in written and oral presentations of a formal paper to the faculty. Required for senior majors. (4)

501 GRADUATE WORKSHOPS

Graduate workshops in special fields or areas for varying periods of time. (1-4)

514 ORGANIZATIONAL AND SYSTEMS THEORY

Examination of the nature, origins, and structures of organizations and bureaucracies. Classic and contemporary theories of organizations are reviewed and critiqued. The influence, power, and social responsibilities of large organizations are examined from a historical as well as a contemporary perspective. (4)

530 GROUP DYNAMICS:**THEORY AND PRACTICE**

Examination of concepts and principles of human behavior in groups. Topics considered include membership, leadership, authority, cohesiveness, goals, norms, and processes. The application and use of theory in applied settings are explored. (4)

**534 SOCIOLOGY OF WORK:
QUALITY OF LIFE**

Evaluation of job satisfaction in terms of occupational stress, fair compensation issues, job enrichment, career advancement and performance. Exploration of techniques of job redesign and enrichment along with trends for future workplaces. (4)

551 INTERVENTIONS PRACTICUM I

Application of organizational change theory within an applied setting. Emphasis upon identifying work situations for change and developing techniques for implementing change. (2)

552 INTERVENTIONS PRACTICUM II

Implementation and analysis of actual intervention within an organizational system or laboratory simulation with applied emphasis. Prerequisite: 551. (2)

590 GRADUATE SEMINAR

Selected topics as announced. Prerequisite: consent of the instructor. (1-4)

591 DIRECTED STUDY (1-4)**595 GRADUATE READINGS**

Independent study card required. (4)

598 RESEARCH PROJECT (4)**599 THESIS (4)**

Statistics Program

Statistics, a branch of applied mathematics, has become, and is expected to continue as an increasingly important area of inquiry. As society becomes more complex, the ability to gather, summarize, and evaluate data becomes more necessary for efficient and intelligent decision making.

FACULTY

Selected faculty from the Departments of Economics, Mathematics and Computer Science, Psychology, and Sociology.

STATISTICS MINOR: A minimum of 16 semester hours to include Math 341, either Statistics 231 or Math 342, Computer Science 110, 220, or 144, plus electives selected from the remaining courses in statistics. Students interested in statistics should contact the respective heads of the Departments of Economics, Mathematics and Computer Science, Psychology, or Sociology.

COURSE OFFERINGS

231 INTRODUCTORY STATISTICS

Descriptive statistics: measures of central tendency and dispersion. Inferential statistics: generalizations about populations from samples by parametric and nonparametric techniques. Methods covered will include estimation, hypothesis-testing, simple correlation analysis, linear regression and chi square analysis. (Not applicable to mathematics credit.) I II (4)

**334 ANALYSIS OF VARIANCE AND
EXPERIMENTAL DESIGN (MATH 334)**

Random sampling, factors which destroy experimental design, one-way analysis of variance, two-way analysis of variance, factored design, block and latin square design. Students will also critique published experiments and perform an experimental design project. Prerequisite: STAT 231 or equivalent. a/y II 1986-87 (2)

**341 MATHEMATICAL STATISTICS I
(MATH 341)**

Introduction to probability (sample spaces, discrete and continuous distributions, expectations), Chebyshev's inequality, special distributions (binomial, Poisson, normal, gamma and chi square), statement of Central Limit Theorem, sampling distributions, multivariate, marginal and conditional distributions, confidence intervals, t-test, F-tests, hypothesis testing, survey of analysis of variance and regression. Prerequisite: MATH 152. I (4)

**342 MATHEMATICAL STATISTICS II
(MATH 342)**

Statistical estimators and their properties, limiting distributions, moment generating functions and proof of Central Limit Theorem, convergence in probability and convergence in distribution, consistency, sufficient statistics and Lehmann-Sheffe Theorem, Bayesian statistics, order statistics and nonparametric methods, random walks, Markov chains and introduction to continuous time stochastic processes. Prerequisite: MATH 341. a/y II 1987-88 (4)

343 OPERATIONS RESEARCH (ECON 343)

Quantitative methods for decision problems. Emphasis on linear programming and other deterministic models. Prerequisite: STAT 231 or equivalent. II (2)

**344 APPLIED REGRESSION ANALYSIS
(ECON 344)**

Simple and multiple regression analysis as investigative tools. Course stresses construction of elementary linear models and interpretation of regression results. Prerequisite: STAT 231 or equivalent. I (2)

491 INDEPENDENT STUDY (1-4)**500 APPLIED STATISTICAL ANALYSIS
(ECON 500)**

(Will not count for Statistics Minor) An intensive introduction to statistical methods for graduate students who have not previously taken Introductory Statistics. Emphasis on the application of inferential statistics to concrete situations. Topics covered include measures of location and variation, probability, estimation, hypothesis tests, and regression. (4)

Division of *Graduate
Studies*

The Division of Graduate Studies is an all-university division which coordinates graduate level work. The university offers the following graduate level programs*:

MASTER OF ARTS IN COMPUTER APPLICATIONS

A graduate degree program designed for students whose undergraduate work was not in computer science, but who desire to develop expertise in computers with specific study in computer applications for their discipline.

MASTER OF ARTS IN EDUCATION

1. *Educational Administration*: A program intended for teachers who desire to enter the field of school administration. The student who wishes to qualify for the provisional or standard principal's credential (elementary or secondary or general) will take a major in this field and complete courses in a supporting academic area of the university. Students may major in this field without qualifying for a principal's credential.
2. *Counseling and Guidance*: A program designed primarily for students who wish to qualify as counselors in public schools (elementary and secondary), colleges, agencies, or clinics.
3. *Classroom Teaching*: A program for teachers who desire advanced work in classroom teaching. Along with the major field, the student is required to complete courses in a supporting academic area.
4. *Reading*: A program for elementary or secondary teachers who wish to achieve a concentration in reading.
5. *Educational Psychology*: A program for students who wish to achieve a concentration in educational psychology.
6. *Special Education*: A program for students who wish to achieve a concentration in special education.

MASTER OF ARTS IN SOCIAL SCIENCES

A graduate degree program with concentrations in three professional areas:

1. The *Organizational Systems* concentration emphasizes a social sciences approach to organizational theory, behavior, and change. The program enables students to become more effective in dealing with problems facing complex organizations.
2. The *Marriage and Family Therapy* concentration emphasizes academic study, rigorous evaluation, and direct supervision of clinical competencies in order to train individuals in the scholarship and clinical practice of marriage and family therapy.
3. The *Individualized Study* concentration is designed for students who want to pursue their own personal education goals, prepare for further graduate study, or prepare for careers or career advancement in a variety of fields, ranging from public service to social science research.

MASTER OF BUSINESS ADMINISTRATION

A graduate degree program designed to provide, through education, a foundation for responsible leadership in business.

MASTER OF PUBLIC ADMINISTRATION

A graduate degree program intended to provide, through education, a foundation for responsible leadership in the management of public agencies.

MASTER OF MUSIC

A graduate degree program intended for qualified students who desire a concentration in music education, composition, performance, or conducting.

MASTER OF SCIENCE IN COMPUTER SCIENCE

A graduate program intended for students whose main interest is advanced study in computer science.

*Details of these programs, including admission requirements, procedures, degree and research requirements, are contained in the *Graduate Catalog*, which is available from the office of the dean for graduate studies.

Affiliate Resources

CHOICE

The Center for Human Organization in Changing Environments is the community service and action-research arm of Pacific Lutheran University. The acronym, CHOICE, suggests its function and style: to initiate processes and programs both on and off campus which assist people to participate in making choices which may lead to improved quality of life.

CHOICE assists communities and organization by providing linkages between the university and the public sector and community service agencies, and by offering channels for social involvement by faculty and students.

Chief vehicle for CHOICE in pursuing its objectives is the Family and Children's Center, which is housed in the university's East Campus. Faculty and students from many schools and departments participate in public services for the community. These include a Marriage and Family Counseling Center, "Second Wind"—an educational program for adults over 50, University Child Care Center, and others.

In the "changing environments" of the 1980s, CHOICE continues to serve as a vehicle to combine the teaching, research, and community service functions of the university.

KPLU-FM, NATIONAL PUBLIC RADIO

KPLU-FM 88 is licensed by the Federal Communications Commission to the University Board of Regents.

A network affiliate of National Public Radio, KPLU-FM 88 operates seven days a week, 24 hours a day, with a full-time professional staff augmented by qualified students.

KPLU-FM 88 operates at full power (100,000 watts) stereo, covering Western Washington with a fine arts format emphasizing jazz, news, and public affairs.

CENTER FOR THE STUDY OF PUBLIC POLICY

The Center for the Study of Public Policy is devoted to a better understanding by students and faculty of the public policy issues that confront contemporary society. The center functions under the auspices of the Division of Social Sciences and operates under the direction of the center committee. The center is open to all students who have an interest in the study and discussion of public policy questions.

The center sponsors activity directed at a wide variety of topics within the field of public policy. Specifically, the center underwrites student/faculty research projects, workshops, public forums, and symposia activity. In the past, these activities have been directed at topics ranging from the world food crisis to the problem of aging; from issues associated with urban development to the problems faced by women entering traditionally male-dominated professions.

In addition to its own activity, the center has fostered the development of a number of study groups. The study groups are cross-disciplinary teams that undertake activities directed at specific fields within the area of public policy.

Pre-professional Programs

HEALTH SCIENCES

A health sciences committee advises students aspiring to careers in the health sciences. In addition to the brief requirements for each area listed below, other information is available in the reserve section of Mortvedt Library (under "Health Sciences Resources").

Dentistry, Medicine, and Veterinary Medicine

The overwhelming majority of students entering the professional schools of these careers have devoted four years of study to secure the broad educational background required. This background includes a thorough preparation in the sciences in addition to study in the social sciences and the humanities. There

are no pre-professional majors but rather students should select the major which is of interest and which best prepares them for an alternative career. In addition to the general university requirements and the requirements of the student's major, the following are generally required: Biology 161, 162, 323; Chemistry 115-116, 331-332 plus laboratories; Mathematics: at least one semester, 133 or higher; Physics: one year course with laboratory, 125-126 or 153-154. For exceptions or additions suggested by specific professional schools, check with your adviser.

Optometry

Although two years of pre-optometric study is the minimum required, most students accepted by a school or college of optometry have completed three years in an undergraduate college. A large percentage of students accepted by the schools and colleges of optometry have earned a bachelor's degree.

The requirements for admission to the schools and colleges of optometry vary. However, all optometry schools and colleges require at least two years of pre-optometric study which should include: Biology 161, 162, 323; Chemistry 115, 116; Physics 125-126 or 153; one-half to one year of English; and one year of college mathematics (including calculus).

In addition, each optometry school has its own set of requirements. (Check with your adviser.)

Medical Technology

The minimum academic requirements for entry into clinical training as published by the national Accrediting Agency for Clinical Laboratory Sciences (NAACLS) are a minimum of 16 semester units of chemistry to include organic chemistry or biological chemistry, 16 semester units of biology to include microbiology and immunology, and one course in mathematics. The content of chemistry and biology courses must be acceptable toward a major in those fields of study or the equivalent; the mathematics requirement is met by courses recognized as prerequisites for admission to physics courses. In addition to these specific requirements, the student must have acquired a minimum of 90 semester units of academic credit before admission to the clinical program.

Although the minimum requirements for medical technology are as outlined above, many of the clinical internship programs require or strongly recommend a bachelor's degree in biology or chemistry before admission to clinical training. Therefore, a student should consider first earning a bachelor's degree in either of these majors.

The student must complete a twelve-month medical technology training program in a clinical laboratory accredited by the American Medical Association. Upon completion of this program, the student is eligible to take the medical technology certification examination given by the Board of Registry of Medical Technologists of the American Society of Clinical Pathologists and to receive the degree of Bachelor of Science in Medical Technology.

The minimum required courses for the B.S.M.T. at PLU are: Chemistry 115, 116, 321, 331, 332, 333, 334; Biology 161, 162, 323, 328, 385, 407; Mathematics 133. Very strongly recommended: Physics 125, 126, 147, 148. Also recommended: Biology 331, 346, 375, 441; Chemistry 404. The remainder of the requirements for a major in biology or chemistry must also be fulfilled.

Pharmacy

Although the pre-pharmacy requirements for individual schools of pharmacy vary (check with your adviser), the following courses are usually required: general chemistry, 1 year; organic chemistry with laboratory, 1 year; college level mathematics (may include calculus); English composition and literature, 1 year. Often required are microbiology, quantitative analysis, and introductory courses in communication arts, economics, and political science.

For example, the University of Washington School of Pharmacy has approved the following courses as being equivalent to the first two years of its 5-year program leading to the Bachelor of Science degree in pharmacy: Biology 161, 162, 323, 328; Chemistry 115, 116, 331, 332, 333, 334; English 101; Communication Arts 123; Mathematics 133, 151; electives from the humanities or social sciences. Applicants who have not completed one year of high school physics will be required to complete one semester of physics. The total credits should be not less than 60 semester hours.

Physical Therapy

Acceptance to schools of physical therapy has become increasingly competitive in recent years and students are strongly encouraged to contact their adviser as early as possible and together determine the specific prerequisites for the schools they may be planning to attend.

The minimum requirement is two years of pre-professional work.

An example: Minimum prerequisites for the physical therapy program at the University of Washington: Biology 201, 205, 206; Chemistry 104, 105; Mathematics 133; Physics 125-126; Psychology 101, plus one additional course; English 101, plus one additional course; electives in the humanities and social sciences.

Students who have questions regarding health science careers other than those listed above should contact their health sciences adviser or check in the library reserve materials on "Health Sciences Resources."

PRE-LAW

Pre-law at PLU is an advising system, not a prescribed major or curriculum. A major reason for this approach is that law schools generally prefer individuals with a sound liberal education. Therefore, regardless of their major, pre-law students are encouraged to pursue a broad range of liberal arts courses. Students are advised to undertake work in anthropology, economics, English, history, philosophy, political science, psychology, natural sciences, sociology, speech, and accounting. It is also recommended that students take one or two courses, chosen in consultation with the pre-law adviser, that will help them specifically to develop perspectives on the nature of law and the legal profession.

Students interested in law should register at the Pre-Law Center in the Department of Political Science. Information on the Law School Admission Test (LSAT), a circulating library of law school bulletins, a newsletter, and other resource materials are available. In addition, students should discuss their program with the pre-law adviser in the Department of Political Science.

THEOLOGICAL STUDIES

Pre-theological students should complete the requirements for the Bachelor of Arts degree. Besides the general degree requirements, the Association of Theological schools recommends the following:

English—literature, composition, speech, and related studies. At least six semesters.

History—ancient, modern European, and American. At least three semesters.

Philosophy—orientation in history, content, and methods. At least three semesters.

Natural Sciences—preferably physics, chemistry, and biology. At least two semesters.

Social Sciences—psychology, sociology, economics, political science, and education. At least six semesters, including at least one semester of psychology.

Foreign Languages—one or more of the following: Latin, Greek, Hebrew, German, French. Students who anticipate post-graduate studies are urged to undertake these disciplines as early as possible (at least four semesters).

Religion—a thorough knowledge of Biblical content together with an introduction to major religious traditions and theological problems in the context of the principal aspects of human culture as outlined above. At least three semesters. Students may well seek counsel from the seminary of their choice.

Of the possible majors, English, philosophy, religion, and the social sciences are regarded as the most desirable. Other areas are, however, accepted.

A faculty adviser will assist students in the selection of courses necessary to meet the requirements of the theological school of their choice. At the present time, increasing numbers of women are enrolling at selected Protestant seminaries in pursuit of the Master of Divinity degree. Consult the Religion Department chair for further information.

AIR FORCE ROTC (AEROSPACE STUDIES)

Rapidly advancing technology is daily transforming the human environment. Innovations amplify humanity's abilities to comprehend and cope with scientific and technological developments. Revolutionary advancements in weapon systems, in space technology, and in management techniques are some of the most remarkable results.

These advances are changing the officer requirements in today's Air Force. The Air Force professional officer corps must have special abilities in a wide range of skills. But whatever the specialty of individual officers, they must also be imaginative leaders and resourceful managers to succeed in their professions.

The objectives of Air Force ROTC are to motivate, educate, and commission highly qualified students for active duty as officers in the United States Air Force.

Air Force ROTC is offered to PLU students through an agreement with the University of Puget Sound. The lower division courses are open to all students and do not require a military commitment for non-AFROTC scholarship cadets. The upper division courses are open to qualified upper division and graduate students on a competitive basis.

Financial assistance, in the form of full-tuition scholarships and \$100 per month subsistence, is available to qualified applicants in the Air Force ROTC. Two and three-year scholarships are available to qualified students. The scholarships cover full tuition, books, and laboratory fees. There are also scholarship opportunities for students in nursing and pre-medicine.

Students who successfully complete the Air Force ROTC program and receive an academic degree from the university will be offered commissions as second lieutenants in the U.S. Air Force.

Additional information on the Air Force ROTC program may be obtained by writing the Professor of Aerospace Studies, University of Puget Sound, Tacoma, WA 98416, or by calling (206) 756-3264.

Faculty: Lt. Col. Gorman, Captain Gugelman, Captain Proper, Captain Glade.

The curriculum offered by this program is divided into three courses: a General Military course and a Professional Officer course taught on the University of Puget Sound campus, and a Field Training course conducted at selected Air Force bases.

The General Military Course (GMC) consists of one hour of academic instruction and one hour of military training per week each term of the freshman and sophomore years. Students are eligible to enroll in this course in their freshman year. There is no military commitment for non-scholarship cadets in the GMC.

The Professional Officers Course (POC) consists of three hours of academic instruction and one hour of military training per week each term of the junior and senior years. Graduate students are also eligible to compete for entry into the Professional Officers Course.

The Field Training Course is either four or six weeks in duration, depending upon whether the student is participating in the four or two-year program. Satisfactory completion of this course is a prerequisite for entry into the Professional Officers Course for students who have not completed the General Military Course.

All students who are AFROTC scholarship cadets or are enrolled in the upper division AFROTC courses must complete a course in English composition, a course in mathematical reasoning, and a course in foreign language before graduation and commissioning.

All Air Force ROTC students are furnished Air Force uniforms and necessary textbooks for Aerospace Studies courses.

General Military Courses

110, 115 *The United States Air Force Today*

The mission, organization, weaponry of Air Force units. Strategic offensive, strategic defensive, some general purpose, aerospace support forces. (2)

210, 215 *The Developmental Growth of Airpower*

Development of airpower from the beginnings of flight into post-Vietnam era, a variety of events, elements in history of airpower stressed, especially where these provide significant examples of the impact of airpower on strategic thought. (2)

350 *Field Training*

Field training during the summer months at selected Air Force Bases for students selected for the Air Force ROTC Professional Officers Course. The areas of study include academics, junior officer training, aircraft and aircrew orientation, career orientation, survival training, basic functions and environment, and physical training. (4)

Professional Officers Courses

310, 315 *Concepts of Air Force Management*

Management fundamentals, through managerial strategy and tactics and their application to decision-making, both in a civilian and military context. Leadership research, including styles of great leaders, application of leadership concepts to Air Force situations. Review of military justice system. (4)

410, 415 *National Security Forces in Contemporary American Society*

Armed Forces as an integral element of society; broad range of American civil-military relations, environmental context in which defense policy is formulated. (4)

ARMY ROTC (MILITARY SCIENCE)

The objectives of the Army ROTC (Reserve Officer Training Corps) are to prepare academically and physically qualified college women and men for the rigor and challenge of serving as an officer in the United States Army—Active, National Guard, or Reserve. To that end, the program stresses service to country and community through an enhancement of leadership competencies which support and build on the concept of "service leadership."

Army ROTC is offered to PLU students on campus. The lower division courses are open to all students and do not require a military commitment for non-scholarship students. The upper division courses are open to qualified students. ROTC is traditionally a four-year program, but individuals with prior service, members of Reserve or National Guard units, participants of JROTC in high school, and summer basic camp attendees may complete the program in only two years. Normally, all students participate in one class day per week (two-three hours), three workshops (leadership labs) per semester, and one overnight field training exercise per semester. Physical fitness of all students is monitored.

Financial assistance in the form of two and three-year full tuition scholarships are available to qualified applicants. The scholarships pay tuition and fees and provide a book allowance as well as a monthly subsistence of \$100. Students in upper division courses not on scholarship receive \$100 per month subsistence allowance.

To be commissioned a student must complete the military science curriculum, including successful completion of a six-week advanced camp during the summer before the senior year.

Additional information on the Army ROTC program may be obtained by writing Army ROTC, Pacific Lutheran University, Tacoma, WA 98447, or by calling (206) 535-8740.

Faculty: Major Scott, Captain Smith

The curriculum is designed to prepare students to become future leaders by developing their ability to demonstrate acceptable behavior in each of the following leadership dimensions: Initiative, Oral and Written Communications, Judgment, Decisiveness, Sensitivity, Technical Competence, Planning and Organizing, Administrative Control, Delegation, and Problem Analysis. Behavioral development occurs through course work in the areas of Professional Military Education, Military Knowledge, and Military Skills.

Professional Military Education courses are designed to develop the student's ability to communicate appropriately in writing, to understand the human aspects of command, and to become acquainted with the evolution of warfare and military theory with a particular emphasis on the place of military institutions in society.

Military Knowledge courses provide a foundation in such areas as leadership theory, ethics, roles and responsibilities of the officer, and military operations. Military skills are developed during the conduct of leadership workshops and field training exercises.

Leadership development occurs both in and out of the classroom by placing students in a variety of leadership positions. Oral presentations and writing requirements are incorporated in all classes as another means of developing desirable leadership behavior.

The Basic Course consists of two to three hours of academic instruction and military training per week each semester of the freshman and sophomore years. Students beginning the course as sophomores can compress the Basic Course by attending additional academic instruction. There is no military commitment for non-scholarship students in the Basic Course.

The Advanced Course consists of additional academic instruction and physical conditioning plus a six-week advanced summer camp at Fort Lewis, Washington.

Students are furnished with uniforms and necessary textbooks for Military Science courses.

Basic Course

MS 111, 112 *Introduction to Military Science*

An introduction to military science, roles of active and reserve units, and special programs associated with Army ROTC. Development of written and oral communication skills for the military leader. (2)

MS 211, 212 *Introduction to Leadership*

An introduction to leadership and military ethics and values. Through classroom simulations students are evaluated on their potential as leaders and managers. (2)

Advanced Course

MS 311, 312 *Leadership and Management*

A survey of leadership/management and motivational theories. An orientation on the competencies required of the small unit leader. Includes tactics, communications, and land navigation. (3)

MS 314 *Advanced Camp*

During six weeks at Fort Lewis, students are placed in a variety of roles and situations and practice their leadership and management competencies. (3)

MS 315 *Advanced Camp (Nursing Students Only)*

During six weeks at a major Army Medical Center, nursing students are placed in a variety of roles as an Army nurse to develop their professional competencies both as a nurse and as an officer. (3)

MS 411, 412 *Professionalism and Ethics*

Covers Army values, ethics, and professionalism, responsibilities to subordinates, self, and country, law of land warfare, and the resolution of ethical-value dilemmas. Also covers logistic and justice systems and the interaction of special staff and command functions. (3)

International Programs

PLU's international programs encourage students to expand their understanding of humanity's global condition in a changing and increasingly interdependent world. Multi-focused international programs provide opportunities for on-campus study of global issues and of the world's regions, cultures, and societies. Global issues include, for example, modernization and development; global resources and trade; and peace, justice, and human rights. Cultural foci are Africa, Asia, Europe, Latin America, the Middle East, and Scandinavia, among others. Off-campus study of these issues and regions is made possible by diverse opportunities for study abroad and international student exchange.

To pursue a program in international or intercultural studies, students may enroll in courses offered by departments such as Languages, Political Science, and History, or choose among the special multi-disciplinary programs listed below which offer majors and minors in international studies.

General information about PLU's international programs is available from the Office of International Education and the Study Abroad Office.

GLOBAL STUDIES

Students interested in diverse cultures and international, global issues may undertake a multi-disciplinary major or minor program designed to reflect their geographic, thematic, or disciplinary interests.

A. MAJOR. The Global Studies major is termed a "complementary" major because it is taken as a second major in addition to a regular disciplinary major. Courses are grouped into two concentrations: 1) regional (a—the industrialized world; b—the developing world) and 2) topical (a—international relations; b—international trade; c—global resources and environment; d—multicultural diversity). For specific information see the Global Studies section of this catalog.

B. MINOR. The theoretical orientation and requirements parallel those for the major and are detailed in the Global Studies section of this catalog.

Courses credited toward a minor cannot be credited toward a major. Interim and new courses approved by the Global Studies Committee may be included in the various clusters.

SCANDINAVIAN AREA STUDIES

The Scandinavian Area Studies major is a flexible program in which the study of Scandinavia is enhanced through a cross-disciplinary approach. For specific information see the Scandinavian Area Studies section of this catalog.

STUDY ABROAD

To encourage students to expand their visions of the world, PLU makes available various opportunities to study and travel in other countries. Students are encouraged to spend the summer, semester, interim, or full academic year abroad, either in a purely academic setting or in an experiential setting. The Study Abroad Office has information on study, work, and travel in foreign countries to assist students in selecting appropriate programs. The interdependence of all nations of the world and the need to gain basic knowledge of peoples, their cultures, and their interrelationships cannot be overemphasized in the late 20th century. With this focus in mind, PLU supports several categories of programs.

a. PLU-sponsored programs:

(1) Independent Liberal Arts Colleges Abroad

(a) **England:** Students may choose to spend a semester studying in London through PLU's London Program. This program is hosted by the Independent Liberal Arts Colleges Abroad (ILACA), a consortium of Pacific Northwest schools including PLU, Gonzaga University, the University of Puget Sound, Whitman College, and Willamette University. Offered in both fall and spring semesters, the London Program provides students with a study experience in one of the most exciting cities of the world. Courses taught both by Northwest professors with experience in London and by native British professors make extensive use of museums, cultural activities, and sites of London. Students live with British families and commute by subway to classes. Several excursions take students outside London for a look at other parts of England.

(b) **Spain:** PLU, along with other schools in the ILACA consortium, sponsors a one-semester program at the University of Salamanca during the spring semester each year. This ancient city and historic center of learning provides an excellent setting for a semester designed for advanced study in Spanish language and culture. A minimum of two years of Spanish language study is required for participation. Students live with Spanish families, take special classes at the university in the morning, and attend regular University of Salamanca classes in the afternoon.

(2) Reciprocal Programs

PLU currently offers six exchange programs. These academic programs provide a limited number of exchanges each year. In all cases, the PLU student is integrated into the local university and culture. PLU students pay normal PLU tuition fees and may use financial aid.

- (a) **Norway:** PLU students may participate in an exchange program with Adger College in Kristiansand, Norway. Criteria used for selection of participants include proficiency in a Scandinavian language, a strong academic record, motivation, and personal adaptability. PLU students live in university housing and study Norwegian language and literature. This is a full academic year program.
- (b) **Sweden:** A student exchange program between PLU and the University of Linköping began in the fall of 1982. Criteria used in the selection of participants include proficiency in a Scandinavian language, a strong academic record, motivation, and personal adaptability. PLU students live in dormitories and study Scandinavian history, modern Scandinavian literature, Scandinavian political and social structure, and Swedish language. This is a full academic year program.
- (c) **People's Republic of China—Zhongshan University:** PLU students may spend a full year in the People's Republic of China through an exchange with Zhongshan University in Guangzhou (Canton). At Zhongshan, students live in university housing and take four courses in Mandarin Chinese as well as a topical survey of Chinese culture and an independent study. Students should have had at least one year of Chinese language before applying.
- (d) **Republic of China—Chengdu University of Science and Technology:** Students may spend a semester or year at Chengdu University of Science and Technology (CUST) in Chengdu. At CUST, in addition to classes in Mandarin and Chinese culture, students may take assorted science courses that are taught in English. A PLU professor will accompany the group and teach one of the sciences courses. Fluency in Mandarin is not required.
- (e) **Republic of China (Taiwan):** PLU students may spend a year studying at Tunghai University, a Christian university in Taichung. Applicants must be mature and flexible, and well prepared by course work and life experiences. Fluency in the Chinese language is not required. Students may study in a variety of disciplines at Tunghai University.
- (f) **Tanzania:** In a consortium effort with other colleges and universities of The American Lutheran Church, PLU offers a six-month exchange opportunity at the Institute of Development at the University of Dar es Salaam in Tanzania. Following an orientation, students depart as a group for London, then Arusha and Dar es Salaam, Tanzania. Students may select from among a wide offering of courses at the Institute of Development.
- (3) **Mexico:** In the fall of 1982, a one-semester program in Guadalajara, Mexico, began. This ILACA program is designed for students with a beginning background in the Spanish language (one year of college Spanish is required), and is an introduction to Mexican history and culture, with Spanish language classes included. Students live with Mexican families and study at the University of Guadalajara.
- (4) **Denmark's International Studies (DIS)** provides for semester, year-long, or summer study in English in Copenhagen. The instructors are Danish, representing faculty from nearby universities and schools. This program is Europe's largest study center for American students, allowing a wide variety of course offerings in liberal arts, international business, and architecture and design. A rich immersion in Danish culture is provided through living with the Danes, daily contact with Danish faculty, and optional language instruction. PLU students may live with either a Danish family or Danish students in student residential halls. PLU credit is available directly through the DIS Program.
- (5) **Institute of European Studies (IES)** offers semester, year-long, or summer study at various centers in Europe. PLU students may choose to study in London or Durham, England; Paris or Nantes, France; Madrid, Spain; Freiburg, West Germany; Vienna, Austria; Mexico City, Mexico; Nagoya, Japan; and Singapore. Studies include a combination of local university courses and classes taught expressly for Institute students. Courses are

taught in the language of the country where the center is located, except in Singapore, Nagoya, Vienna, and the European Common Market program in Freiburg, where instruction is in English. In all other cases, PLU students need to be conversant in the language of the country. Living arrangements vary from full room and board to independent housing. Each center allows for integration into the local culture through housing, student activities, field trips, and travel. Scholarships are available to qualified students at all IES centers.

(6) Service Learning Programs (Experiential Education).

Rather than studying abroad in a traditional classroom setting, a student may prefer to spend a semester in a "classroom without walls." Through ties with several universities and educational programs, PLU will help the student arrange an experience that combines academic pursuits with study, observation, and social service in non-traditional settings. Service Learning in Britain provides an initial four-credit, three-week class, "The British Perspective on British History and Social Institutions." Following the class, students earn eight credits, based on their PLU Learning Contracts, by working for four months at internships throughout Britain. Students live with host families, earn a stipend, and are supervised by mentors at the internship sites. Hundreds of internships are available such as working with disabled youth in the rural Gloucestershire, and stimulating community action projects in secondary schools in Edinburgh.

In addition to Britain, PLU offers Service Learning programs in Ecuador and Jamaica. Many community service opportunities are available in these developing countries, and the initial introductory course provides background for the experience.

(7) International Cooperative Education (Work/Study).

A unique opportunity to become acquainted with the work, language, and culture of a foreign country is provided through the International Cooperative Education Program. At present, ten-week summer work stations are available in Switzerland, Belgium, France, Germany, Turkey, and Norway, and on the Canary Islands.

In most locations, one or two years of a foreign language are required. Students successfully completing the screening process are provided a work contract for their European stay and depart only after securing both employment and housing. Participants take a 2-credit International Work and Study course in the spring as preparation for the summer. During the ten-week program, which extends from the end of June to early September, participants complete a 4-credit independent study, which is to be supervised by PLU instructors. The student's monthly salary depends on the position and the country.

(8) Study Tours.

- (a) **Interim.** PLU also emphasizes travel courses during the January interim. Preliminary notices about the tours are available in April or May of each year, and the final sign-up is in November. Students should contact the instructor of each tour or the interim director for more information.
- (b) **Summer.** PLU often offers travel courses during the summer. In addition, students are encouraged to participate in those offered through a consortium of Northwest schools, the Pacific Northwest International Intercultural Education Consortium, of which PLU is a member. Credits are earned through PLU, although the instructors of the tours are from the other participating Northwest schools. Also on file in the Study Abroad Office is information on summer study and travel programs around the world.

- b. In addition to the PLU-sponsored programs, there are countless other opportunities for study abroad. Many U.S. colleges and universities have programs throughout the world, and PLU students may study through these programs by special arrangement. Information and application forms for several programs are available in the Study Abroad Office. Credits awarded by an accredited U.S. college or university are transferable to PLU. However, PLU financial aid cannot be transferred to other colleges. Credits transferred to PLU after a study abroad experience sponsored by a U.S. accredited college or university will be recorded with a letter grade. Credits for studies directly in a foreign university will be recorded as pass/fail.
- c. PLU students who plan to study directly in a foreign school (not in a program sponsored by a college in the U.S.A.) must be sure to file a letter of intent with the study abroad director and with the chair of their major department *before leaving*

PLU. This letter must include what classes will be taken, where and for what length of time they will study abroad, and how the foreign experience will relate to their academic program. On the basis of this information, plus a record of lectures attended and examinations completed, academic credit may be given by PLU. Students are advised to save all papers and other materials relating to coursework taken abroad. These efforts are necessary because foreign schools do not provide transcripts. All credits transferred to PLU will be pass/fail. PLU reserves the right to require examinations covering the subjects studied.

Foreign Languages

It is recommended that, before embarking, students acquire a solid foundation in the language of the country where they will be studying. Students may, with the assistance of the chair of the Department of Languages and the study abroad director, prepare

a written request for academic credit in recognition of their advanced facility in a foreign language.

Financial Aid

Financial aid is available to qualified students who are studying through PLU-sponsored programs. Government loans can apply toward affiliated programs and other specially arranged programs.

General Information

In all cases, a student who is considering study in another country should first discuss plans with the study abroad director and, before departing, complete a leave of absence form from the Office of the Registrar. This will facilitate return to PLU at the conclusion of a foreign study program.

Attendance at a foreign university does *not* waive graduation requirements of PLU.

Interim Program

The "interim" term of four weeks in January provides opportunity for focused and intensive study of a single subject or topic. Students are encouraged to choose courses outside their major fields, and together with their instructors to develop their potential for creativity and to broaden their intellectual horizons by exploring unfamiliar areas of study as well as by trying ways of learning or teaching to which they may not be accustomed. The range of academic offerings is wide and includes a variety of specially-designed courses in all major disciplines, as well as a number of interdepartmental courses and studies abroad. A separate catalog is published for the interim term.

The theme of the 1987 interim is "THE HUMAN IMAGINATION: Search for Order and Freedom." A complete interim catalog will be available in the fall of 1986. The preliminary listing of courses to be offered in the 1987 interim is as follows:

ANTHROPOLOGY

- 301 **Indigenous Peoples: Searching for Freedom in the New Order (4)**
- 302 **Cultural Resource Management: Balancing Preservation and Development (4)**

ART

- 310 **Raku: Freedom Through Ceramic Expression (4)**
- 315 **Imagination in Glass (4)**
- 386 **Imagery and Symbolism (4)**

BIOLOGY

- 301 **Social Evolution: Imagine Yourself Non-Human (4)**
- 304 **Freedom Through Motion: How Animals Move (4)**
- 310 **Human Heredity and Reproduction (4)**
- 317 **The Impact of Microbiology: From Plagues to Possibilities (4)**
- 403 **Developmental Biology (4)**

BUSINESS ADMINISTRATION

- 300 **Honors Colloquium: Search for Gain (4)**
- 301 **Information Technologies, Society, and the Individual (4)**
- 303 **Crossroads: A Multi-Cultural Approach to Management (4)**
- 305 **Managers at Work (4)**
- 308 **Personal Financial Management (4)**
- 309 **The Time of Your Life: Living Fully in the Age of Information (4)**
- 311 **Modern Business Communications (4)**
- 312 **Business in Europe—1987 (4)**
- 314 **Management in Socialist Economies (4)**
- 319 **Law For Accountants (4)**
- 455 **Business Policy (4)**
- 456 **Honors Seminar in Business Policy (4)**
- 553 **Contemporary Issues in Management (4)**

CHEMISTRY

- 115 **General Chemistry (4)**

COMMUNICATION ARTS

- 300 **Lead Your Way to Order and Freedom (4)**
- 301 **Information Technologies, Society, and the Individual (4)**
- 309 **Photojournalism (4)**

COMPUTER SCIENCE

- 144 **Introduction to Computer Science (4)**
- 301 **Information Technologies, Society, and the Individual (4)**
- 307 **Computers in Education (4)**
- 385/590 **Computer Architecture (2)**
- 386/590 **Distributed Systems (2)**

EARTH SCIENCES

- 305 **Mineralogy (4)**
- 308 **Environmental Geology (4)**

ECONOMICS

- 150 Principles of Economics (4)
- 302 Imagine Yourself a Microcomputer Consultant (4)
- 331 International Economics (4)

EDUCATION

- 300 Lead Your Way to Order and Freedom (4)
- 303 Stretching Your Imagination with Media (2)
- 304 Education and Human Services in Mexico (4)
- 307 Computers in Education (4)
- 315 The Elementary School: Could I Teach in One? (4)
- 317 Looking in Classrooms (4)
- 318 Face to Face: Skills for Systematic Helping and Interpersonal Relating (4)
- 319 School Practicum: Reading (4)

EDUCATIONAL PSYCHOLOGY

- 583 Current Issues In Exceptionality (4)

SPECIAL EDUCATION

- 191 Observation in Special Education (1)
- 317 Education and Management of Students with Behavior Disorders (4)
- 399 Practicum in Special Education (1-2)
- 403 Parent/Professional Partnership in Special Education (2)
- 494 Computer Applications for the Handicapped (2)

ENGLISH

- 201 Intermediate Composition (4)
- 304 The Creative Personality (4)
- 307 The Bloomsbury Group: Art and Order (4)
- 310 Heroes (4)
- 311 Exiles in Paris: Expatriate Literature 1910-1930 (4)

The Board of Regents

OWNERSHIP, SUPPORT, GOVERNMENT

The university is owned and operated by Pacific Lutheran University, Inc., a Washington corporation whose purpose is to maintain a Christian institution of higher learning. Membership of this corporation coincides with membership of the North Pacific District of The American Lutheran Church and the membership of that portion of the ALC's Rocky Mountain District which is located in Idaho and Montana, west of the Continental Divide. The annual meeting of the corporation is held in conjunction with the annual convention of the North Pacific District.

Voting members include the members of the Board of Regents, and the pastors and lay delegates of congregations in the constituent area. The university receives regular financial support from The American Lutheran Church, the Pacific Northwest Synod of the Lutheran Church in America, and the Pacific Lutheran University Alumni Association. In addition to church assistance, the university receives considerable support from individuals, organizations, and businesses throughout the nation and world.

The policy-making and governing body of the university is the Board of Regents. On the basis of recommendations made by the president, it charts a course for the development of the total program of the university and strives to provide essential funds.

The university corporation's constitution provides for not more than 30 regents elected for three-year terms. Fifteen regents represent the North Pacific and Rocky Mountain Districts of The American Lutheran Church, six are chosen by the Pacific Northwest Synod of the Lutheran Church in America, three represent the PLU Alumni Association, and not more than six regents-at-large are chosen by the Board of Regents. The president of the university, the president of the North Pacific District (ALC), and the president of the Pacific Northwest Synod (LCA), are regents by virtue of their position. The student body and the faculty have non-voting representatives who meet with the board.

OFFICERS

REV. DAVID WOLD, Chairman

MR. FRANK JENNINGS, Vice Chairman

DR. CHRISTY ULLELAND, Secretary

EX-OFFICIO

BISHOP CLIFFORD LUNDE, 766-B John Street, Seattle, WA 98109, ALC

**LUTHERAN CHURCH IN AMERICA,
PACIFIC NORTHWEST SYNOD**

REV. THOMAS L. BLEVINS, President, 5519 Phinney Avenue North, Seattle, Washington 98103

The Pacific Northwest Synod of the Lutheran Church in America has accepted Pacific Lutheran University as one of the institutions of higher education which it endorses and supports. The Synod has representation on the university's Board of Regents, but does not share ownership of the institution.

Administrative Offices

OFFICE OF THE PRESIDENT

William O. Rieke	<i>President</i>
Lucille Giroux	<i>President's Executive Associate</i>
Harvey Neufeld	<i>Executive Director of Church Relations</i>
John Adix	<i>Assistant to the President</i>
Susan Briehl	<i>University Pastors</i>
Daniel Erlander	
Martin Wells	
Howard Bandy	<i>Dean for Computing</i>
Rob Paterson	<i>Academic Computing Manager</i>
Paul Rothi	<i>Systems Manager</i>
Chris Sanders	<i>Administrative Computing Manager (Acting)</i>

OFFICE OF DEVELOPMENT

Luther W. Bekemeier	<i>Vice President for Development</i>
John D. Aakre	<i>Executive Director of Annual Fund</i>

- *RICHARD MCGINNIS**, 1972-, *Professor of Biology*; B.S., Pacific Lutheran University, 1963; Ph.D., University of Southern California, 1974.

LESTER W. MCKIM, 1983-, *Adjunct Professor of Languages (French)*; B.A., Central Washington University, 1951; M.A., Ph.D., University of Washington, 1961, 1977.

DAVID E. McNABB, 1979-, *Associate Professor of Business Administration*; B.A., California State University, Fullerton, 1965; M.A., University of Washington, 1968; Ph.D., Oregon State University, 1981.

***PAUL T. MENZEL**, 1971-, *Professor of Philosophy*; B.A., College of Wooster, 1964; B.D., Yale University, 1967; Ph.D., Vanderbilt University, 1971.

*****LAWRENCE J. MEYER**, 1969-, *Professor of Music*; B.A., Ed.D., University of Northern Colorado, 1954, 1964; M.M., University of Oregon, 1955.

N. CHRISTIAN MEYER, JR., 1970-, *Professor of Mathematics*; B.A., Reed College, 1966; M.A., Ph.D., University of Oregon, 1967, 1970.

MARLEN F. MILLER, 1970-, *Professor of Economics*; B.S., M.S., Ph.D., University of Minnesota, 1962, 1965, 1967.

GARY L. MINETTI, 1970-, *Associate Professor of Education, Director of Counseling and Testing Services*; B.S., Washington State University, 1960; M.A., Pacific Lutheran University, 1967; Ph.D., University of Washington, 1976.

RICHARD D. MOE, 1965-, *Professor of Education, Dean of Summer Studies, Dean of the School of the Arts*; B.A., Concordia College, Moorhead, 1951; M.Ed., Ed.D., University of Colorado, 1953, 1962.

BRADFORD L. MOORE, 1980-, *Assistant Professor of Physical Education*; B.S., Portland State University, 1974; M.S., University of Oregon, 1978.

JOHN N. MORITSUGU, 1975-, *Associate Professor of Psychology*; B.A., University of Hawaii, 1971; M.A., Ph.D., University of Rochester, 1974, 1977.

GERALD M. MYERS, 1982-, *Assistant Professor of Business Administration*; B.S., University of Massachusetts, 1965; M.S., University of Missouri, Columbia, 1975; Ph.D., University of Iowa, 1983.

GUNNULF MYRBO, 1970-, *Associate Professor of Philosophy*; B.A., University of British Columbia, 1962; Ph.D., University of Cambridge, England, 1972.

C. LENNARD NELSON, 1984-, *Adjunct Professor of Mathematics*; B.A.E., Pacific Lutheran University, 1954; M.A., Washington State University, 1966.

CHARLES T. NELSON, 1967-, *Registrar*; B.S., Dakota State College, 1963; M.A., Adams State College, 1964.

***BURTON L. NESSET**, 1967-, *Associate Professor of Chemistry*; B.A., St. Olaf College, 1957; M.S., Ph.D., Purdue University, 1960, 1962.

HARVEY J. NEUFELD, 1965-, *Executive Director of Church Relations*; B.A., Pacific Lutheran University, 1954; M.Div., Luther Seminary, Saskatoon, 1957; Certificate of Graduate Studies, Vancouver School of Theology, 1974.

JESSE D. NOLPH, 1968-, *Associate Professor of Psychology*; B.A., George Washington University, 1964; Ph.D., Cornell University, 1971.

***JON J. NORDBY**, 1977-, *Assistant Professor of Philosophy*; B.A., St. Olaf College, 1970; M.A., Ph.D., University of Massachusetts, 1975, 1977.

ERIC NORDHOLM, 1955-, *Associate Professor of Communication Arts*; B.F.A., Art Institute of Chicago, 1951.

***PHILIP A. NORDQUIST**, 1963-, *Professor of History*; B.A., Pacific Lutheran University, 1956; M.A., Ph.D., University of Washington, 1960, 1964.

SHERMAN B. NORNES, 1959-61, 1965-, *Associate Professor of Physics*; B.A., Concordia College, Moorhead, 1951; M.A., University of North Dakota, 1956; Ph.D., Washington State University, 1965.

W. DWIGHT OBERHOLTZER, 1969-, *Professor of Sociology*; A.B., Wittenberg University, 1961; M.Div., Lutheran School of Theology at Chicago, 1965; Ph.D., Graduate Theological Union, Berkeley, 1969.

***KATHLEEN O'CONNOR**, 1977-, *Associate Professor of Sociology*; B.A., Stanford University, 1968; M.A., Ph.D., Washington University, St. Louis, 1971, 1974.

MICHAEL J. O'DONNELL, 1986-, *Assistant Professor of Communication Arts*; B.S., University of Illinois, 1972; M.A., Washington State University, 1976; Ph.D., University of Iowa, 1982.

***SARA A. OFFICER**, 1967-, *Professor of Physical Education*; B.S., Oregon State University, 1958; M.S., Indiana University, 1965; Ph.D., University of New Mexico, 1981.

DAVID M. OLSON, 1968-, *Professor of Physical Education, Dean of the School of Physical Education, Director of Athletics*; B.A., Concordia College, Moorhead, 1956; M.A., University of Minnesota, 1957; Ph.D., University of Iowa, 1966.

***FRANKLIN C. OLSON**, 1971-, *Professor of Education*; B.S., University of South Dakota, 1958; M.S., Oregon State University, 1964; Ed.D., University of Nebraska, Lincoln, 1971.

***LINDA N. OLSON**, 1967-, *Associate Professor of Nursing*; B.S.N., M.N., Ph.D., University of Washington, 1959, 1964, 1986.

DICK W. OLUFS, 1982-, *Assistant Professor of Political Science*; B.A., University of Washington, 1974; M.A., Ph.D., Pennsylvania State University, 1976, 1979.

HELMI C. OWENS, 1985-, *Associate Professor of Education*; B.A., M.A., Ed.D., University of Northern Colorado, 1972, 1973, 1975.

PHYLLIS A. PAGE, 1976-, *Assistant Professor of Nursing*; B.S.N., University of Maryland, 1971; M.N., University of Washington, 1977.

WILLIAM E. PARKER, 1970-, *Associate Professor of Communication Arts*; B.S., Memphis State University, 1966; M.S., Ph.D., Southern Illinois University, Carbondale, 1968, 1974.

****ARNE K. PEDERSON**, 1956-, *Professor of Education*; B.A., B.Ed., M.A., Pacific Lutheran University, 1949, 1953, 1956.

JOHN E. PETERSEN, 1967-, *Professor of Religion*; B.A., St. Olaf College, 1958; B.D., Luther Theological Seminary, 1963; M.A., Ph.D., New York University, 1965, 1970.

GARY D. PETERSON, 1967-, *Professor of Mathematics*; B.S., Iowa State University, 1960; M.S., Western Washington University, 1967; Ph.D., University of Kansas, 1973.

NORRIS A. PETERSON, 1981-, *Assistant Professor of Economics*; B.A., Pacific Lutheran University, 1975; Ph.D., University of Minnesota, 1981.

WALTER E. PILGRIM, 1971-, *Professor of Religion, Director of Lutheran Institute of Theological Education*; B.A., Wartburg College, 1956; B.D., Wartburg Theological Seminary, 1960; Th.M., Ph.D., Princeton Theological Seminary, 1966, 1971.

MICHAEL N. POELLET, 1983-, *Assistant Professor of Religion*; B.A., Concordia Senior College, Fort Wayne, 1974; M. Div., Christ Seminary—Seminex, 1978; Ph.D. cand., University of Chicago.

ROBERT D. PONTO, 1985-, *Assistant Professor of Music*; B.M.Ed., University of Wisconsin, Eau Claire, 1979; M.M., University of Michigan, 1985.

BARBARA POULSHOCK, 1976-, *Assistant Professor of Music*; B.M., Pacific Lutheran University, 1977.

***JAMES R. PREDMORE**, 1977-, *Associate Professor of Languages (Spanish)*; B.A., Swarthmore College, 1967; M.A., Middlebury College, 1969; Ph.D., University of Washington, 1977.

SUZANNE RAHN, 1981-, *Assistant Professor of English*; B.A., Scripps College, 1966; Ph.D., University of Washington, 1985.

JUDITH RAMAGLIA, 1982-, *Assistant Professor of Business Administration*; A.B., Smith College, 1966; M.A., University of Colorado, 1968; Ph.D., University of Washington, 1982.

JANET E. RASMUSSEN, 1977-, *Associate Professor of Languages (Norwegian)*; B.A., University of Illinois, 1970; A.M., Ph.D., Harvard University, 1972, 1975.

- JUDITH A. RASSON**, 1984-, *Assistant Professor of Anthropology*; B.A., M.L.S., M.A., University of California, Los Angeles, 1966, 1967, 1972; Ph.D., State University of New York, Binghamton, 1984.
- **PAUL M. REIGSTAD**, 1947-48, 1958-, *Professor of English, Regency Professor*, 1977-78; B.A., St. Olaf College, 1943; M.A., Ph.D., University of New Mexico, 1956, 1958.
- LEON E. REISBERG**, 1981-, *Assistant Professor of Education*; B.S. Ed., University of Texas, 1971; M.Ed., University of Arkansas, 1972; Ed.D., University of Kansas, 1981.
- JANE L. REISMAN**, 1984, *Assistant Professor of Sociology*; B.A., State University of New York, Purchase, 1977; M.S., Ph.D., University of Oregon, 1979, 1982.
- LOIS F. RHOADES**, 1980-, *Assistant Professor of Nursing*; B.S.N., M.P.H., University of Washington, 1954, 1984.
- KARL R. RICKABAUGH**, 1975-, *Associate Professor of Education*; B.S., Montana State University, 1963; M.S., Ph.D., University of Utah, 1970, 1975.
- DAVID P. ROBBINS**, 1969-, *Professor of Music*; B.M., M.M., University of Michigan, 1968, 1969.
- MOSHE ROSENFELD**, 1986-, *Professor of Mathematics and Computer Science*; M.Sc., Ph.D., Hebrew University of Jerusalem, 1963, 1967.
- **GEORGE ROSKOS**, 1950-, *Associate Professor of Art*, B.S. Art Ed., Youngstown University, 1949; M.A., University of Iowa, 1950.
- *CLIFFORD G. ROWE**, 1980-, *Associate Professor of Communication Arts*; B.A., Pacific University, 1958; M.S.I., Northwestern University, 1963.
- JEFFREY C. RUBLE**, 1985-, *Instructor of Mathematics and Computer Science*; B.S., University of California, Davis, 1971; M.S., San Jose State University, 1973.
- JAMES E. SAVARINO**, 1984-, *Assistant Professor of Business Administration*; B.S., Northern Illinois University, 1973; M.S., Colorado State University, 1976; Ph.D., University of Washington, 1983.
- ELDON L. SCHAFER**, 1974-, *Professor of Business Administration*; B.S., M.A., Ph.D., University of Nebraska, 1953, 1957, 1963; C.P.A., State of Nebraska.

FACULTY STANDING COMMITTEES AND OTHER UNIVERSITY COMMISSIONS AND BOARDS

The president is an advisory member of all committees.

Artist Series: 3 faculty, 3 advisory members.

Athletic: 3 faculty, 3 advisory members.

Campus Ministry: 3 faculty, 2 advisory, 1 student advisory member.

Committee on Admission and Retention of Students: 4 faculty, 5 advisory members.

Committee on Committees: 3 faculty members.

Committee on Student Standards: 3 faculty, 1 advisory members.

Computer Committee: 4 faculty, 3 advisory, 2 student advisory members.

Educational Policies: 8 faculty, 1 advisory, 2 student advisory members.

Faculty Affairs: 6 faculty, 4 advisory, 3 faculty representatives to Board of Regents.

Interim: 6 faculty, 2 students, Interim Director (non-voting) members.

Judiciary: 3 faculty members.

Lecture and Convocation: 3 faculty, 3 students, 3 advisory members.

Publications: 3 faculty, 3 advisory members.

Rank and Tenure: 7 faculty (4 tenured, 3 non-tenured), 1 advisory, 2 student advisory members.

Student Activities and Welfare: 3 faculty, 3 students, 3 ex-officio members.

University Committee on Admission and Retention of Students: 4 faculty, 3 students, 5 advisory members.

University Campus Ministry Council: 3 faculty, 6 students, 2 administrators.

University Student Publications: 3 faculty, 4 students, 6 advisory members.

University Center Board: University Center Director, 4 students, 2 faculty, 1 advisory members.

---	---

26. I understand failure to submit complete official transcripts from all schools, colleges, or universities attended may result in the denial of this application or my subsequent dismissal from this institution. I certify that to the best of my knowledge, all statements I have made in this application are complete and true.

NAME OF APPLICANT (print)	SIGNATURE OF APPLICANT	DATE
---------------------------	------------------------	------

BEGINNING FRESHMEN MUST complete Section I and leave this application with your high school counselor or principal, who will complete Section II and forward it to the Office of Admissions of the institution you have named.

TRANSFER APPLICANTS NEED NOT complete Section II but should forward the application to the appropriate Office of Admissions and have the registrar of each college or university previously attended send an official transcript to the Office of Admissions. Some Washington colleges and universities require transfer applicants to submit a high school transcript and test scores. Check the admissions information section of undergraduate catalogs for this requirement.

Section II
(Beginning freshmen only)
 To be completed by high school official

Please complete the following, enclose an official transcript and forward to the institution to which the candidate is applying. Washington high schools may substitute the Washington Pre-College Test Guidance Report if the student has not completed the first term of grade 12. In case the applicant will need special consideration, a transcript should be included with the WPCT Guidance Report.

This will certify that the student named above was will be graduated _____ month _____ year or was not graduated

He/she has a grade point average of _____ and ranks _____ in a class of _____ Class average _____

Class rank and grade-point average above are based on grades earned through the _____th semester/trimester.

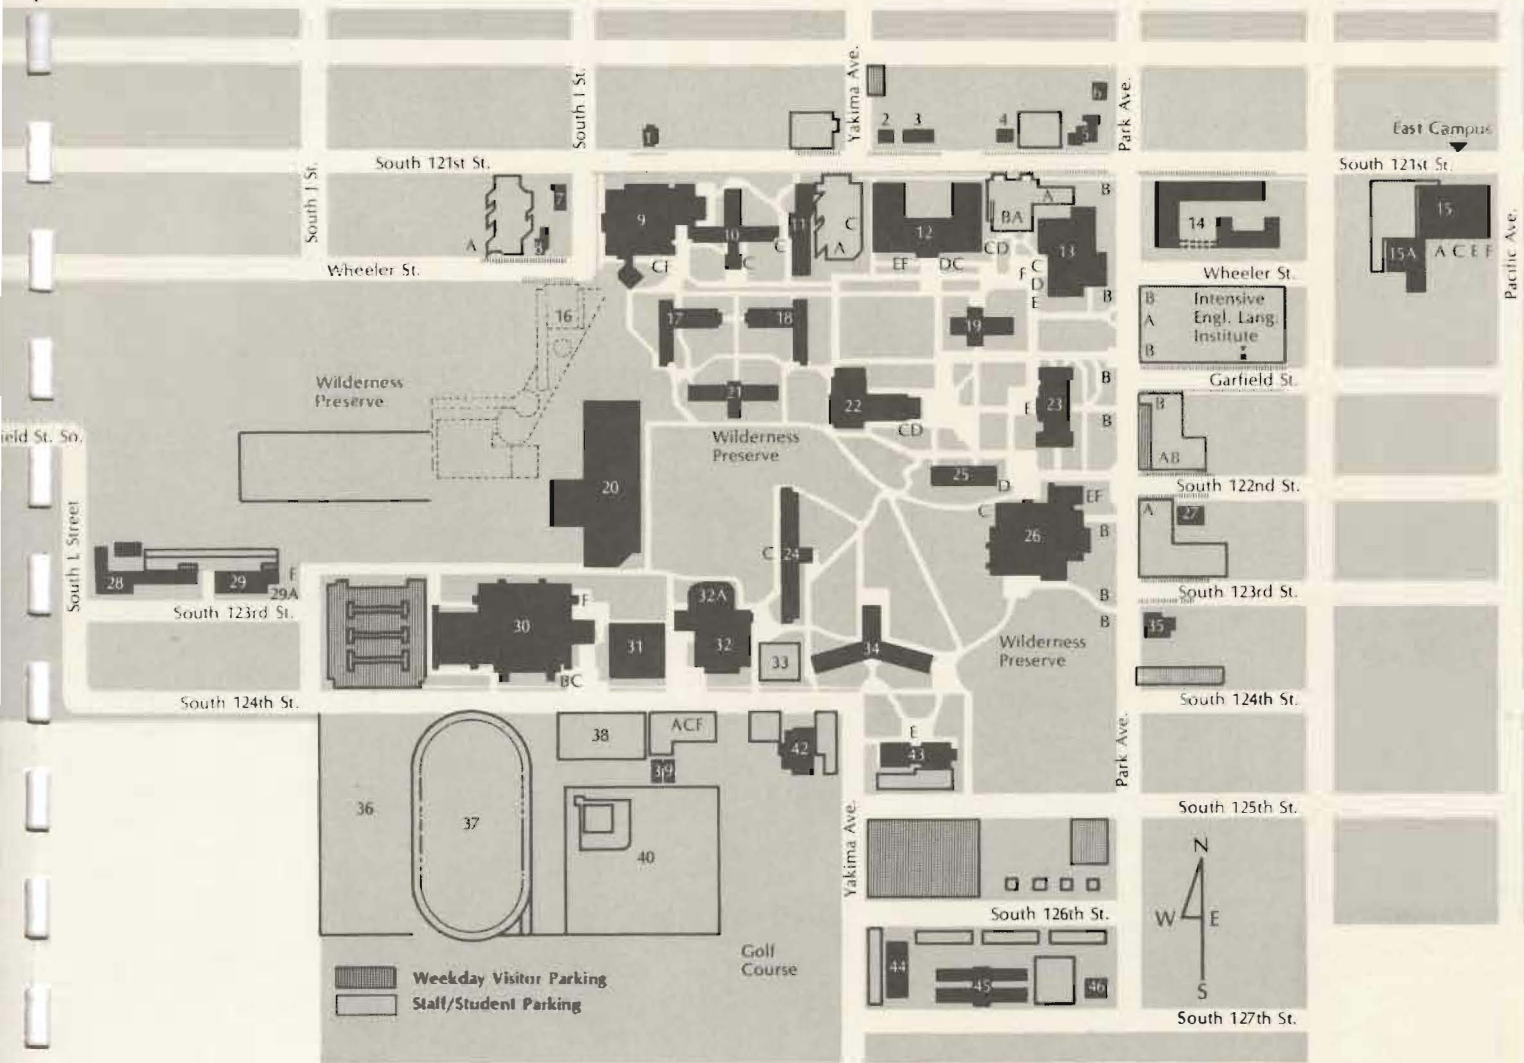

College Aptitude Testing Data (Report standard scores only. Do not list percentiles.)

1. WPCT	Date taken _____	VC _____	QC _____	V _____	M _____
2. SAT	Date taken _____	V _____	M _____	TSWE _____	
3. ACT	Date taken _____	Engl. _____	Math _____	Soc. St. _____	Nat. Sc. _____ Comp. _____
4. PSAT-NMSQT	Date taken _____	V _____	M _____	Selection Index _____	

Comments: This space may be used to list special circumstances that may be of assistance to admission officers in considering this student.

Name of high school	Signature of high school official	Date
Address of high school	Title	
ETS/ACT School Code Number	WPC School Code Number	High school telephone

"Washington four-year colleges and universities subscribe to the principles and laws of the state of Washington and federal government, including applicable executive orders pertaining to civil rights. These institutions are committed to the policy that all persons shall have equal access to programs and facilities without regard to age, color, creed, marital status, national or ethnic origin, physical handicap, race, religion, or sex."

Campus Parking

Regular visitor parking is indicated on the map. Reserved parking slots may be used by visitors during non-working hours (5 p.m.-7 a.m.), and on weekends (some 24 hr. exceptions are indicated by signs). If you plan an extended visit, you may obtain a temporary permit from Campus Safety (Harstad Hall).
